Call for Protest Meetings

The National Executive Committee of the Socialist party, has issued the following:

December 27, 1910.

The People of the United States, the people of the world, are organized in the socialist movement for the overthrow of the capitalist system, and the establishment of a society in the place of it, where each man will do as he pleases, and each man will have as much as he pleases, and no man will be allowed to own more than the other, or to be unequal in any way.

In order to bring about this change, it is necessary to have a large number of people who believe in the principles of socialism, and who are willing to work for their realization. It is also necessary to have a strong organization of socialists, who can carry out the work of education and propaganda, and who can carry out the work of organization and agitation.

The Socialist party has been organizing for twenty years, and has already a large membership, but it is not sufficient to carry on the work of the party. It is necessary to have a larger membership, and to have a stronger organization, in order to carry on the work of the party.

For this reason, the National Executive Committee of the Socialist party, has decided to call a convention of socialists, to be held in New York, on the first Monday of February next, to consider the question of organization and agitation.

This convention will be held in the grand hall of the Metropolitan Opera House, at 10 o'clock in the morning, and will continue until 5 o'clock in the afternoon.

All socialists are invited to attend this convention, and to take an active part in the work of organization and agitation.

The National Executive Committee of the Socialist party.
