Voice of Truth Must be Heard

Who Are the Big People Protected by the McNamara Confession?

Statement by Darrow: "Things were happening in which BIG People were interested. The movement was impelling. They wanted the matter cleared up and we further bloodshed unless we obliterared the incident from Los Angeles at ONCE."

The winning of this election by the Ortis gang means to the Ortis-Earl syndicate a sum of money so vast that it staggered the imagination. The men composing this syndicate, knowing that the Owens River aqueduct would pass through the San Fernando valley, conceived the plan of extorting money from the water works companies by threats of yellow fever. They proposed to irrigate the land with water from the $12,000,000 aqueduct now being built by the city of Los Angeles. This land, with merely the prospect of irrigation, has risen in value to more than $1,000,000,000. This will net the Ortis-Earl plundered $50,000,000,000. A million dollars judiciously spent among the capitalist lawyers would bring about just such an anti-election climax as was reached in the McNamara case last November.

The Fixings of the Ortis-Earl syndicate are being uncovered by the Water department of the city of Los Angeles. The Ortis-Earl organization is being held to ransom by the water department and it is feared further bloodshed unless we obliterated the incident from Los Angeles at once.

Who are the 'big people' behind the scene who are to be protected by this because of their connection with the case of this syndicate? What instigated them to carry the case of Ortis and Earl to its conclusion? The question of the millions is something which has been running through the minds of the capitalists and the Ortis-Earl gang. They have had their hands on the reins of the city of Los Angeles for many years and the capitalizing of the city, which has come to pass, has been due to the influence of the Ortis-Earl syndicate.

The Ortis-Earl gang is held to ransom by the water department and it is feared further bloodshed unless we obliterated the incident from Los Angeles at once. The Ortis-Earl gang is held to ransom by the water department and it is feared further bloodshed unless we obliterated the incident from Los Angeles at once.

Who are you protecting, Mr. Darrow? You must tell or stand branded before the whole world as one of the conspirators in the exploitation of the McNamara crime in the interest of the criminal master class of the country."

The trial of the McNamara case is a complete failure. The case of the syndicate was not properly handled and the defense was not properly presented. The defense was not properly presented and the defense was not properly presented. The defense was not properly presented and the defense was not properly presented.
