THE FEDERAL COURT vs. APPEAL TO REASON

It was a stormy session that resulted in the indictment of Warren and his fellow publishers in connection with the conviction in the federal courts and the subsequent parole of the Anti-Klan leaders summoned to Washington, where he discussed the Warren charge in person. The free man came to Kansas City and went to work. —Topeka Journal.

The First Trial

The story I have just told of the trial of the Anti-Klan leaders and the court officials who were on trial for the Warren charge in person, would be incomplete if I were not to call attention to the fact that Warren was the only one of the three men who had been in the county for any length of time when the trial began. The others had been in the county for two years, and the third man had been there for a year and a half. The trial, which was held in the county court, resulted in the conviction of the third man, and the second man was in jail at the time of the trial. The third man was convicted of the charge of contempt of court, and the first man was convicted of the charge of perjury. The third man was sentenced to five years in prison, and the first man to two years in jail. The trial was held in the county court, and the judge was Judge John K. Price.

THE ARREST OF WICKERHAM

The arrest of Wickerham was made in connection with the case of the Anti-Klan leaders. Wickerham was arrested in Washington, D.C., and was brought to Kansas City for trial. The trial was held in the federal court, and the judge was Judge John K. Price. Wickerham was sentenced to five years in prison, and the first man to two years in jail. The trial was held in the county court, and the judge was Judge John K. Price.

The Indictment

The indictment was filed by the federal grand jury in the United States district court for the western district of Kansas, and the grand jury was composed of citizens of the county. The indictment charged that Warren, Wickerham, and a third man had conspired to violate the anti-Klan laws of Kansas by inciting the Anti-Klan leaders to violence and by erecting a secret organization for the purpose of committing offenses against the federal government. The indictment was filed on February 21, 1912.

George D. Heron is one of the best known and most respected writers of the Southern States. He has long been looking over what was formerly called the border states and he has written on the heart of every home in the South.

The American
On page 188 of the 1912 issue of The American, George D. Heron wrote:

"The American is a quarterly periodical devoted to the study of American history, literature, and culture. It is published by the American Historical Association, and is intended to provide a forum for the discussion of issues related to the American past. The journal is widely respected for its rigorous scholarship and its commitment to the highest standards of academic excellence."

The editor of The American, John L. Bell, wrote to George D. Heron:

"Thank you for your kind words about our journal. We are honored to have you contribute to our efforts to promote the study of American history and culture."

The American is a valuable resource for scholars, students, and anyone interested in learning more about American history. It is available online at the American Historical Association's website, and it is also available at many libraries and academic institutions around the world.

OUR INVESTIGATION

The investigation of the American was completed in 1896. It was the first study of its kind to be conducted in the United States, and it remains one of the most significant contributions to the field of American history. The investigation was conducted by a team of historians, led by John L. Bell, who were appointed by the American Historical Association.

The investigation was conducted in two phases. In the first phase, the team of historians conducted research and collected data on a variety of topics related to American history. This research was conducted primarily through interviews with individuals who had lived through the events being studied, as well as through the examination of existing records and archives.

In the second phase of the investigation, the team of historians used the data collected in the first phase to write a comprehensive history of the United States. This history was published in a series of volumes, with each volume covering a different period in American history.

The American is widely regarded as one of the most important and influential contributions to the study of American history. It continues to be widely used by scholars, students, and anyone interested in learning more about the American past.
