400 East 42d Street, New York City.

Dated April 27, 1912, No. 686

Girard, Kansas, U. S. A., April 13, 1912

STUDY THE FIGURES.

The March Figures. The March figures show a permanent victory until we have a successful return to peace. It appears certain that the thousands and millions who have been benefited by the return to peace and prosperity will be enrolled in the ranks of the permanent victories of peace and prosperity. The March figures show that the two millions and more who have been enrolled in the ranks of the permanent victories of peace and prosperity will be enrolled in the ranks of the permanent victories of peace and prosperity. The March figures show that the two millions and more who have been enrolled in the ranks of the permanent victories of peace and prosperity will be enrolled in the ranks of the permanent victories of peace and prosperity.

Election Shows Great Socialist Gains

Versa Gallery in Milwaukee... The Socialist 
ingains in the recent election were great. The Socialist party, under the leadership of Eugene V. Debs, made significant gains in several key races. In Milwaukee, the Socialist candidate for mayor, William H. Anderson, won a decisive victory. In other cities, Socialists made gains in the mayoral and county council races. The Socialist party's success was due to its issue-based campaign, focusing on workers' rights and social justice.

Fruits of Victory

The fruits of victory are being enjoyed by the socialist movement. In cities across the country, socialists have won elections and are making a difference in the lives of the working class. The socialist movement's success is based on its ability to build a broad coalition of workers and radicals. The socialist movement has shown that it is possible to build a new society based on worker control and democracy.

A Discourse on Government

All things have their limits, their boundaries, their limits. Our government, in its present form, is a product of the capitalist class, which seeks to maintain its power and control over the economy. The socialist movement must build a new government that is representative of the working class, based on worker control and democracy. This government will be a reflection of the needs and desires of the working class, and it will be the means by which we can build a new society based on worker control and democracy.

Little Classics

We are all familiar with the classics. They are the foundation of our education system, and they are the source of our cultural identity. However, we must question the role of the classics in our education system. The classics are not representative of the experiences and struggles of the working class. They are the creation of a ruling class that seeks to maintain its power and control over the economy. The classics are not a reflection of the needs and desires of the working class, and they are not the means by which we can build a new society based on worker control and democracy.
Russell at Washington

CHARLES EDWARD RUSSELL is now located at Washington, devoting his entire time to the Coming Nation. He will remain there at least during the campaign. From that vantage point he will send out his message each week through the columns of the Coming Nation.

Russell is considered one of the ablest magazine investors. At Washington he will pour a blast like a searchlight upon the dark places in capitalist politics. He will expose class government as it has never been exposed before.

This work will make the Coming Nation the foremost political organ of the United States.

Its other features have already made it the best magazine for those who are interested in vital things.

What the Coming Nation Is

The Coming Nation is a large, attractively printed, 12-page weekly. It is a magazine for every member of the family. A great deal of what is read today has been written by Jack London, George Washington Cable, and others. It is published monthly.

There are one or more short stories each week. Anna Katharine Green, who has had a large influence among American children, has contributed stories to the magazine. The average length of an issue is about 30,000 words, and it is generally considered the best publication in the country.

SPECIAL PREMIUM OFFER

There has been a continuous call from the readers of the Coming Nation for the availability of the book. The demand has been so great that now the books are not only sold in large numbers but the stock is steadily increasing. The book is a regular Socialist battery ready to put into action. It is the most effective weapon in the Socialist party's armament. It is an exhaustless storehouse of argument. It is so splendidly written that it can be sold to anyone.
