The Preachers Are Coming

J. KEIR HARDIE, M. P., fought in and out of Parliament for the British miners in their recent general strike.

Both are forceful and impressive personalities. Both hold to the same ideal, but differ radically as to methods and tactics. Both must be reckoned with.

HAYWOOD and HARDIE

Two of the world's leading Socialists and Labor Organizers are represented in the Metropolitan Magazine for June. Both are identified respectively with two of the most momentous battles in the history of the International Labor Movement.

WILLIAM D. HAYWOOD directed the recent successful textile workers' strike at Lawrence, Mass.

HAYWOOD and HARDIE

This article, written by Carl Hovey, author of "The Life of William D. Haywood," and "The Life of H. Keir Hardie," seeks to reveal the secret of his power, and discusses passionately, candidly and vigorously the methods of the Industrial Workers of the World and its relation to other labor organizations. Mr. Hovey has written an able study of a phase of the American labor movement commanding ever increasing attention.

LABOR'S GREAT VICTORY IN ENGLAND

The Minimum Wage Bill, rushed through Parliament in order to end the great general strike of miners, has been passed by the House of Commons. It provides for the bill a great victory for labor. But it also did not pass the Senate, where the same bill is also under consideration. The Senate, however, is expected to pass the bill, which will then be sent back to the House of Commons for final approval.

WHERE'S YOUR MILITARY?

If you don't see that there is any reason why we should have a larger military than we have now, you are not thinking of the world situation. The world is uncertain, and our government must be ready to defend us when needed. The military must be trained and equipped to do its job. We must have enough men and enough equipment to protect us from attack. The military is a necessary part of our country's defense system.

AMAZING STORY OF DEFEAT AGAINST MISSOURI

The story of the defeat against Missouri is a tragic one. The people of Missouri were not prepared for war, and they were not ready to fight. The military was not trained or equipped to do its job. The government was not prepared to support the military. The people of Missouri did not have enough men and enough equipment to protect them from attack. The military was not a necessary part of their country's defense system.

WHAT CONGRESS DID THIS SUMMER

This summer, Congress did many things. They passed laws to help the country. They made plans for the future. They worked hard to make things better for the people. They did their job and did it well.

ON MANFORD'S INFAMOUS RULING

The ruling of Judge Manford is not fair. It is not just. It is not right. It is not good. It is not what we need in this country. The ruling of Judge Manford is a bad thing for the people of this country. It is not what we need in this country.

NO THING POSSIBLE

Nothing is possible. Nothing is possible to us. We cannot do anything. We cannot say anything. We cannot think anything. We cannot do anything at all. We cannot do anything in this country.

WANTS TO KNOW

More than six months ago, the American Federation of Labor and the Railway Mail Association started a movement to secure better wages for railway employees. The idea was to have a sit-down strike to force the companies to meet the demands of the workers. The companies refused to meet the demands of the workers, and the strikers went on strike. The strikers were determined to win the right to a living wage.

THE DISBANDED

The American Federation of Labor and the Railway Mail Association have disbanded. The workers have lost their strike. The companies have won. The workers have lost. The workers have been defeated. The workers have been knocked down.
