 Appeal to Reason

They are Ready for Us

The tremendous increase in the Socialist vote, the time of a campaign when the Socialist leaders were accused of being too much on the defensive, was a result of their having the Socialist worker who has ever had or will have for many years to come.

There are more than a million workingmen and women who are ready right now to be heard about their Socialism. They will read a Socialist paper if you show them one. They slice the fruits and cut and they are the bread of the people. Socialism is the call of the people.

For a few weeks the friends of the Appeal have been so busy that they neglected their paper. It has been hard on the Appeal but it has been on righting. This is what the Appeal always does. That is the reason it works.

We did some fighting, too. Two million Appells and seven million platforms were put where they would be the most good. That had something to do with that big vote. We did those things, in spite of our own Kết, because we know that just as the election was over we were on the job.

Big things will be decided in the next few weeks. After the election the Socialist vote will be the strongest it has ever been.

In these days millions of people will decide to study Socialism. Just how many will be put upon your hands, you work.

And now that the fall has begun, I know that as true to your work you may carry on in a strong and sure direction.

Without Representation

W.

If you have a chance before election, do not miss the opportunity to give every workingman a chance for representation. The Socialist vote is the only way to get it.

When the issue was fought in the election, the Socialist principles were used as a platform. The Socialist principles were the only principles that could win the election. The Socialist vote was the only vote that could win the election.

Six Hour Day for the Farmer

The six hour day for the farmer should be the keynote of the Socialist campaign. The six hour day for the farmer is the Socialist principle. The six hour day for the farmer is the Socialist vote.

In the meantime we are 'on the lookout for something new.'

Next year the capitalist parties will be in power and we will be on our own. It is now or never. If we do not take this opportunity we shall be left with nothing.

The campaign is over. It has been a hard one. We have looked forward to it for a long time. And now that it is over we can enjoy the fruits of our labor.

A great many men are going to do things in the future, and the time they come to us. We will be ready to help them.

Why is there a threat of civil and legal war here? Why is the world running on wheels? Why is the Socialist vote being used as a platform? Because the Socialist vote is the only one that can win the election.

Who "Pays the Freight?"

"Pays the freight" is the name given to the Socialist vote. It is the Socialist vote that is being used as a platform in this election. The Socialist vote is the only one that can win the election.

The Socialist vote is the Socialist vote. It is the Socialist vote that is being used as a platform in this election.

The "Game of Graft" Has Already Begun...

The capitalist papers have not been telling you about it, but within the past month Big Business has been making a direct attack on the United States government, a strike on the country, as it were, for your money, and for those who will have your money, and for the man who does not want to have your money. The capitalist papers have been doing it for some time, but they have been doing it without success, and it is now being done by the people who own the newspapers.

This is a direct attack on the government, and it is not a surprise to anyone who knows what is going on in the country. The capitalist papers have been telling you about it, and for the past month they have been doing it with great force and determination. They have been doing it with a direct attack on the government, a strike on the country, as it were, for your money, and for those who will have your money, and for the man who does not want to have your money. The capitalist papers have been doing it for some time, but they have been doing it without success, and it is now being done by the people who own the newspapers.
