...Appeal Opens Penitentiary Doors and Frees Quinlan...

Pat Quinlan is free! Last Thursday he stepped out from the dank gloom of a felon's cell, a free man among men once more, out into the light and air of the summer sky. On his return to Paterson, after the Appeal's $5,000.00 in cash had been paid over as bail to the authorities, he was greeted on the city streets by cheering throngs. With but a brief rest, despite the hardships and humiliations of his sixteen loathsome days in the penitentiary, Pat once more plunged into the battle. He is now actively at work again, speaking in the New Jersey Socialist campaign. His voice for a time silenced behind granite walls, once more is raised in withering denunciation of the infernal system of wage slavery. His every power is being exerted to effect its overthrow. And the barbaric injustice which has already suffered for the Cause will vastly multiply his audience. Where ten listened before, a hundred, aye, a thousand, will listen now!

"Whom the gods would destroy, they first make mad." New Jersey "justice" proves it. Once let the lesson of Pat Quinlan's persecution sink into the brains of the workers, with all that this implies, and the whole vast, rotten structure of capitalism will crumble to its fall.

Next November Pat Quinlan's case comes up on appeal before the supreme court of the state of New Jersey. It is now up to the Appeal Army and the Socialists of the United States to make Quinlan's freedom lasting. FORWARD, NOW, TO VICTORY!

Pat Quinlan Wires His Message

Paterson, N. J., July 9th—Released from a felon's cell by this splendid move of the Appeal, I am unable to express my varied emotions. Words fail me in face of this magnificent deed. When the door was closed, every pathway to freedom barred, a new trial denied and justice refused, the Appeal has restored my liberty and once more lighted the beacon of hope in my way. When Carless visited me in the Trenton penitentiary on July 1st, and informed me that Warren would get bail, and I was free again, I was thunderstruck and speechless. I confess that tears welled from my eyes. It seemed more a dream than a reality that I was free. But, with the Appeal now restored to the fight, the reality was a solid one.

On July 9th, Carless secured a writ of habeas corpus for me. Next day I was released to the presidency with all my papers and served the writ on the keeper. The news spread like wildfire, and congratulations overflowed upon me from every side. The last night spent in jail was sleepless. I could only lie there thinking of Warren and the Appeal. God bless you. I stand up. From the depths of my heart I thank you.

Just three weeks ago the prisoner more that I was sentenced. My lawyer expressed, "I object. No notice has been given, according to custom. This is outrageous." Judge Klineart immediately denied postponement and passed sentence, saying: "Defendant has been given too much consideration." Accordingly, Patrick Quinlan and I now stand untroubled for the Appeal, and we stand together in the fight for the Appeal. Our case is joined.

My congratulation was equal only by that felt on every hand among our ranks. I was shaken and stirred into the Paterson jail for four days. Before, who offered to go out of jail were required to sign a written statement that they would not abuse the liberty. The experience was telling, and from out of the thing came a sense of freedom and courage. On Monday, July 2nd, I was sentenced to a term of confinement in the Trenton penitentiary. The sentence was up and I stood there, my manhood every inch of my being, afire with a sense of freedom.

At the expiration of my probation, I was set to work in the steel shop on the floors. The basis of wages was 70 cts. and 75 cts. for the first two days. After that, 80 cts. for the first two weeks. I was then sentenced to a term of confinement in the Trenton penitentiary. The sentence was up and I stood there, my manhood every inch of my being, afire with a sense of freedom. And I thank you and the Appeal, Army, which alone I will not allow to deliver me out of the hands of my enemies.

TOLLS OF CAPITALISM

Two years ago the entire country was electrified by the news that 500 members of the Appeal had been arrested, most of whom were in jail, for the Appeal and the Socialist movement. At the time, the Appeal was struggling for the right to publish, and the Socialist movement was struggling for the right to exist. The Appeal was suppressed, and the Socialist movement was suppressed.

In 1894, the Appeal was suppressed, and the Socialist movement was suppressed.

PATRICK QUINLAN

Let your boys join the military service of the United States and get a job of $10 a month, preventing you from being cabmen, and you'll see there's no way to stop it. The Appeal Army and the Appeal Soldiers' Union are doing their work.

The Appeal Army and the Appeal Soldiers' Union are doing their work.
Here is the situation we are facing. A war that is nearly ended, made so by the $5,000,000 used to open the prison doors to our comrades, Pat Quinan. We must have 1,000 volunteers to send five dollars by return mail and become lifetime subscribers. We can only give you the facts. The chances of these facts for your job. Will you be one of the,000? There is nothing more to say. We leave it with you.

NEW MILITARISM

The Dick military law around workers for a free to its possibilities... Now this intense necessity to be experienced by the various organizations of the Central American countries, to include the Mann, Huns, and their allies. We mean for sale in the states of the nation which will be under the Union of the American.

The bogey is old.

Amphibians have recently discovered the bogey of the Chinese, the demon of the Americans, the enemy of the two peoples. When this bogey is No 1, the bogey is the enemy of the two peoples. When this bogey is No 2, the bogey is the enemy of the two peoples. When this bogey is No 3, the bogey is the enemy of the two peoples. When this bogey is No 4, the bogey is the enemy of the two peoples. When this bogey is No 5, the bogey is the enemy of the two peoples. When this bogey is No 6, the bogey is the enemy of the two peoples.

The necessity is to do with interest. A capacitor is built by the bogey.

USE THE WATERWAYS

The U.S. Government, now and in the near future, is providing for the creation of a great waterway system, with the intention of improving the efficiency of transportation and reducing the cost of transportation. The construction of these waterways will provide opportunities for employment and development of the waterways.

The development of the waterways is a very necessary thing. It should not be delayed. If the government will not provide public transportation, then private companies should be encouraged to do so. It is the right thing to do and it is the only way to do it.

The waterways can be used to transport goods and people, and it is the duty of the government to provide the necessary facilities for this purpose.
