Out of Work and Winter Coming

You don’t know if you have never experienced. But it is the winter that is coming, and it is coming not only in the arctic cold of night. Not snow and meals. Not your heart and black as your prospects. You look, and there is a chill in the air, a cheerfulness in the way your feet, your clothes, your looks. It is as if the earth were being prepared for the coming of winter, as if nature were saying, "Prepare yourselves for winter." You cannot stop winter, but you can prepare yourself. You can eat more, wear more, work more. You can prepare yourself for the coming of winter. It is the winter that is coming.

Our Country Faces a Food Famine—You Must Act Quickly

BY ALLAN L. BENSON

Writers for Appeal to Reason.
This is the country for the next six months. The people will be hungry. They will be without food, education, and a great part of the world will be without food. They will not have a dollar to pay their debts, or to buy anything. They will have nothing to eat, and will be forced to eat only grass and weeds. They will have no place to go, and will be forced to live in the streets.

The government is trying to help, but it cannot do much. It has no money, and cannot print more money. It has no food, and cannot grow more food. It has no schools, and cannot build more schools. It has no hospitals, and cannot build more hospitals.

The only thing that can be done is for all of us to work together. We must all do what we can to help the government, and to help each other.

THERE'S A REASON

For over two months there has been a strike on the Girard, Pitts-
burg, Kansas, line running out of Gir-
ard to the line. There is no railroad service
anywhere in the state. It seems that the
strike, which has lasted for over two
months, is only the beginning of a
long strike. The strike is being

MATTERS have progressed to the
place where it is only a

is the only solution. The
working class must

democracy to end all
war. We win.

system. We win.

The reactionaries are in charge
of the government. They are
supporting the imperialist
supreme judge. They are
supporting the imperialist
domination of all the world. The
federal troops assist their
rivals in this domination by
labeling them as subversive
labor. But their reaction
is hardly surprising; they wish
to see that their assets will be
whoever they can.

Henry Dobb is Still on the Way Fighting for "His" Country—but Can't Keep Awake.

By Ryan Walker

Henry Dobb is the latest addition to the long list of those who have been imprisoned for their work in the movement. He was arrested in New York City recently for his part in the strike for higher wages and better working conditions. Dobb is a well-known figure in the labor movement and has been active for many years in the struggle for workers' rights.

Dobb's case is typical of the many that are being tried in this country. The government is using its power to silence the voices of those who are fighting for a better world. Dobb is not the only person who has been arrested recently; there are many others who are facing similar charges.

The struggle continues. The workers must unite and demand their rights. The government must be held accountable for its actions. The movement must continue to grow and expand. The workers must not give up. The struggle for a better world must continue.
