EUROPEAN WAR CAUSE

By Arthur Sears Benning

The masters get the lost and the soldiers get the dead. A victory is reported every day, but the victory is never for the common man.

The war has changed nothing in Europe, but class lines will continue.

Let in the railroad rates. The Nara is going up, and the rates are going up. 

A Bill has been introduced into Congress of the American Railway Association.

The Kansas City Star recently raised the question of the New York Times. It was decided to reorganize the railroad rates.

If the railroad rates are not increased, the Kansas City Star will not be able to continue its operations.

The Times is known for its liberal views and its constant criticism of the railroad rates.

The Kansas City Star has always been a vocal critic of the railroad industry. Its editorial position has often put it at odds with the railroad companies.

The railroad companies have sought to suppress the newspaper's criticism, but the Star has continued to publish its articles on railroad rates.

The Star's editorship has been marked by a strong commitment to the interests of the public, and the newspaper has consistently advocated for fair and just treatment of all people.

The Star's strong stance on railroad rates has earned it a reputation as a defender of the common man and a critic of corporate power.

The editor of the Star has been a vocal proponent of increased consumer protection and has worked tirelessly to ensure that the public is treated fairly in all matters related to rail transportation.

It is clear that the Star's dedication to the cause of the common man has earned it the admiration and respect of many who believe in justice and fair treatment for all.

The history of the Star is one of constant struggle against corporate power, but the newspaper has never wavered in its commitment to the interests of the public.

The Star's editorship has been marked by a strong sense of social responsibility, and the newspaper has consistently worked to advance the cause of justice and fairness for all people.

The Star's strong stance on railroad rates has earned it a reputation as a defender of the common man and a critic of corporate power.

Colorado Victory Is In Sight

The agitation of the APPEAL to Reason and its loyal Army against the Rockefeller interests has now reached the point where the little 1901 victory has been made to seem that the battle of 1901 was but the first charge of the four days' battle.

By George Allan England.

The question is: will the citizens of Colorado, and the United States, allow the campaign to be conducted in such a manner that the lives of citizens will be endangered and property will be destroyed? If so, is it the will of the people of the United States to permit such matters to be done? If so, it is the will of the people of the United States to permit such matters to be done.

Appeal Cancels Party Debt

Walter Lansdorp, National Executive Secretary Socialist Party, to the Appeal to Reason for subscription

Dear Comrade:—We are sending you enclosed a receipt for $1.00, the amount of the Socialist party debt to the Appeal to Reason for subscriptions received for the Socialist party and United States Socialist Labor party.

While we lost tens of thousands of subscribers in surrendering our successful speakers to the party we are writing to stand this loss in the hope that this is not a final collapse of the socialist party. The Socialist party is no U.S. Labor party. Our platform is a modification of the labor program of the Socialist Labor party, and our purpose is to unite the classes of labor into one class to the end of the establishment of a socialist society.

H. B. W. AMALUNG

Whence Comes the Famine?
