LET'S MISSION and the campaign for peace in the world may seem to be long overdue, but the reason for the delay is that we are in a very serious situation. The time to make the necessary steps in this direction is now. The time to make the necessary steps is now. The time to make the necessary steps is now. The time to make the necessary steps is now.

Mother Jones in Trinidad Bastille

By J. O. WATL.

Colorado, that numbers over two thousand—two thousand mind—had gathered at a meeting called to demand the release of certain prisoners of the Peet and the other convicts, who had been sentenced to hard labor for several years for the murder of a man called Peet. The meeting was called by Judge Scudder, who had been appointed by the governor to investigate the matter.

A letter was also read from the governor, in which he said that he had received a copy of the report of the committee, and that he would act upon it as soon as he had time. The meeting adjourned until further notice.

The prisoners were allowed to remain in the jail for the time being, but the people were determined to have them released as soon as possible.

How Socialism Will Prevent War

If it is impossible to save war without first putting an end to the cause of war, it was impossible for the Socialists of Europe to prevent the war before they could put an end to the cause of war. The best way to accomplish this is by making the war as a whole impossible. The first thing is, the international socialist organization which controls the state of the art of war. The second is, the socialistic organization that organizes the state of the art of peace. The two are the same. If you have not got the means of organizing the state of the art of peace, then you have not got the means of organizing the state of the art of war. The two are inseparable.

In California the masters are fighting the night watchmen. In Washington the masters are fighting the night watchmen. In Pennsylvania the masters are fighting the night watchmen.

The desire of nations and races to advance their interests above the interests of mankind is the cause of war. The socialistic organization is the cause of peace. The union of the masters and masters of mankind is the cause of peace.
