IMPERIALISTS

All this proves even more clearly that U.S. imperialism is the most barbarous and shameless aggressor of modern times, the main force of aggression and war, the chieftain of world reaction, the bulwark of modern colonialism, the strangler of the national liberation and independence, and the disturber of world peace.
The intended massacre of the seven other persons in the house on December 6th, as the time of the Fred Hampton - Mark Clark murders was unsuccessful. Four were seriously wounded, but Robert "Doc" Saatchel, Verlena Brewer, Irvin "Chico Dole" Harris, and Blair Anderson. Two, Louis Tread- lock and Harold Bell, were badly beaten when they were taken to jail after the shootout. Eight and a half months pregnant at the time, Deborah Johnson was subjected to brutal and inhuman treatment when thrown in jail.

But the "7", although beaten/wounded survived the physical massacre and supported the "legal massacre." The legal massacre seeks to hide what happened that dawn morning when Ill. Bell Telephone mucks (chief accounants who demanded themselves in blue, accosted by macaque guns, alongside full-fledged Black Panthers, and night stick) surrounded the building at 2337 W. Monroe and no intentions of telephones or cables being repaired, indeed, far from repair, nothing was repaired, was the nature of their business. Thus, it happened that doors were broken and sleeping victims awakened to the sounds of death; the rat-a-tat-tat of machine guns and the scornful jeers of "Nigger die." In the mix, a trail of blood was left behind, all with victims lying in the puddles.

Deborah's baby (yet inside of her at 8 1/2 months) must surely have viewed an undead vengeance on that morning when its father was murdered and its mother was killed. This horror spectacle must surely remind us of others who struggled through the four little black girls that died. In Sunday school in Birmingham, the three civil rights workers murdered in Mississippi, the four little boys murdered recently here in Chicago, and the innocent victims of the My Lai massacre. All were struck down by the depraved of humanity, the same kind of criminal element when after Ill. Bell Telephone, we are dissatisfied because the other seven did not die.

But these criminals assist court where procedures may be rigged and legal assassination may be accomplished. Therefore Illinois and his cohorts went diligently to procure injustice for all. And Haro- rathan will hit the same good of "victims made into criminals and vice versa," so that the losers will indeed be losers - they'll lose their lives. But if you shed tears for those four little black girls, and the four little boys, and countless others, don't cry for the 7, scream, be concerted with a rage that rages that these people, too, shall not be taken away, because too long too many have died in the struggle; too many have languished in the prisons and jails. There has to be an end - we'll start with the 7. That is why all of us must go to court whenever the 7 go to trial. We must be there to support them and see that justice is done.

We'll start with the 7 by saying: Yes, we the people refuse to let you convict the 7. We will not stand for a rigged jury and hand-picked judge. The 7 must be set free because our PATIENCE GIVES FOR COURAGE AND OUR ANGER GIVES FOR VENGEANCE - COLD AND DEADLY.

ALL POWER TO THE PEOPLE.
400 YEARS OF FASCISM

When a long train of abuses and usurpations, cumulativelyobjectionable, the people are moved to declare their unsubmit ting to the jurisdiction of the Ground, and to provide a new guard for their future security.

Such is the rhetoric of the Constitution of the United States, which is supposed to be the highest law in the land. Well, the highest law in the United States was broken in 1964 when segregation in public schools was against the law. Nineteen years later, the Supreme Court still is not doing anything to enforce the law for the benefit of the black people.
The only way that they will get the enforcement is to justice 'by the people holding Congress and state legislatures in the streets if need be.

A member of the black community in Los Angeles, California, two but loads of school children were attached by a mob of whites. These whites not more than will Black people tolerate before they begin to play therapper. In his own words, "How long I will talet to forget to talk to the people, to talk to the people who are going to be Albino people one day? How about three lives for Mississippi? Col- luded murderers are walking all around the streets in the face of Black America. America is coming to commit crimes against every citizen where people are striving to develop their homeland. In the same time crimes are being com- mitting against the American people.

The idea that only the negro people can step more crimes for being committed against them is a lie. People have to under- stand that they have a right, a common right, to secure fascism. Americas can tolerate fascism at the cost of schoolchildren, can tolerate fascism at the cost of their dead families. And at this point in his-

ulty's, either, or, unless Black people move for their own sur vival or share the same fate as the Jews during the Hitler era.

If Black people are going to be the new Nazis, America must begin to realize to our own self-reliance and self-maintenance, because it is a historical fact that White people are not going to free Black people-they never have and they never will. Every avenue has been blocked for these White people who claim they want to see an end to the rising tide of fascism in America. The Black Panther Party has organized programs to try to put an end to fascism in America. The Black Power Movement of the United States is urgent ly needed, should have an overwhelming amount of peace-loving Black people standing in line to see that it gets married. But what we got is law enforcement from White people who either can't stand to take direction from Black people or they have a vested interest in sending Black people to the electric chair.

The so-called American justice system is swiftly moving to become a system of legal lynching by railroad the Chairman of the Black Panther Party, Bobby Seale, to a court house and an electric chair. This is a gross, inhuman, and cruel practice that is common in America and Black people.

The only thing Bobby Seale has committed on can conjecture that he is going to end segregation, but he is not going to end segregation. He has committed certain crimes.

TO MY BLACK BROTHERS IN VIET NAM

I'm writing this on January 4, 1970. We are starting out a new year. On August 31, I'll be 55 years old. I'm married, and I have one child with another wife. I have a daughter with my wife and I would like to enjoy a happy life raising a family. But I am not free to live the type of life that I would like. Pigs—the racist fascist rulers of the United States—won't let me.

And I would like to ask you Brothers: are you living the life that you want to live? Are these same pigs cramping your style? I don't believe that you actually prefer to be way over there, fighting against our Vietnamese Brothers and Sisters who are fighting for their freedom. Because your own people, whom you have been told to hate, are also fighting for their freedom against the very same pigs who have you over there doing their dirty work for them. And your people need you—and your military skills—to help us in our fight for freedom. We have been doing that for the past 400 years.

I am the Minister of Information of the Black Panther Party, and I am speaking to you now for the Party, but I want to put a personal note into this because I know that you niggers...niggers...niggers...you have your minds all messed up about Black organizations, or you wouldn't be the flunkies for the White organization—the U.S.A.—for whom you have picked up the gun.

The Black Panther Party has picked up the gun too, but not to fight against the colored people. We have decided rather to wage a war of liberation against the very same pigs whom you are helping to run their vicious game on the entire world, including upon your own people. Dig it, wonder, can you dig it? Can you dig the fact that you are fighting with the pigs to keep your people right where they are? You are helping the pigs to maintain their white supremacy over the entire world.

The pigs are using G.I.'s from Vietnam on the police forces and National Guard units inside Babylon. Many of these G.I.'s are Black and Vietnamese and learn how to kill human beings, then when they are released from the army, they return home and end up on the police force. On the police forces, they carry out the same dirty work against us, in the name of 'Law and Order' that they carried out against the Vietnamese people.

In 1968-69, the pigs murdered 28 members of the Black Panther Party and nobody even knows how many other black brothers and black sisters were shot down by the pigs. But it is a long list. Scroeder, one of my party members, is being held as a political prisoner because they took a stand for the freedom and liberation of our people. Huey P. Newton, Minister of Defense of the Black Panther Party, our leader, is in prison in California. Our Chairman, Bobby Seale, is in jail and the pigs are trying to break down the electric chair, in Connecticut, on trumped up charges. Pigs in Chicago murdered Fred Hampton while he was asleep in his bed. Shot him in his head with a shotgun, with 00 Buckshot. The pigs have been making mass arrests of our Party members, with 21 arrested in New York, 14 in New Haven, 18 in Los Angeles, and 16 in Chicago.

We appeal to you Brothers to come to the aid of your people. Either quit the army, now, or start destroying it from the inside. Anything else is a compromise and a form of treason against your own people. Stop killing the Vietnamese people. You need to start killing the racist pigs who are over there with you giving orders, KILL General Abrams and his staff, all his officers. Sabotage supplies and equipment, or turn them over to the Vietnamese people. Talk to the other Brothers and wake them up. You should start now weeding out the traitors amongst you. It is better to do it now than to allow them to return home to help the pigs wipe us out. Especially the Uncle Tom officers should be dealt with now, because the pigs will use them as effective tools against our people. When you can no longer take care of your own people, turn everything over to the Vietnamese people and tell them you want to join the Black Panther Party to fight for the freedom and liberation of your own people. If you do cross over, you don't have to worry about the Vietnamese people. They will be glad to see you drop out of the army because what they really want most in life is to stop the fighting in their land. You have a duty to humanity as well as to your own people not to be used as murderous tools by racist pigs to oppress the people.

Think about it, Brother, and act on it, because you don't have much time. Organize all the Brothers around you and move. Force the pigs to understand that you will no longer be their slave and hired killer. Let the pigs know that, instead, you want the persecution of your Black Brothers and sisters to stop and that you intend to help stop it. Demand that Huey P. Newton and Bobby Seale be set free. Especially, help us force the pigs not to murder Bobby Seale in the electric chair.

We have dedicated our lives, our
WE HAVE TO FIGHT TO LIVE

A moment's final thought: All of these names fit. The man is a pig, and his voice is a snarl. Here is a fool that lives in the common sense of today and talks like Alton. This is a Negro feeling: He should not be trusted, be in the destructive to the Negro struggle. He has learned how to exploit and incite, he is thus to a part of the current of the times, he is a tool of the machine. Black people know a Negro is lying, Black people also know the Black Panther Party, not by words alone but by its practice. Our wish to serve the people is why we moved to the inner-city area. Nothing will move us out of the homes of the people, if they decide to stay, we will stay. For Rogers, to move to the Free Bobby and Henry, brother-to-brother, who have proved through practice that they love their people. A love is a very powerful thing, it gives all that they have, even life itself, to remove the oppressor from our community.

We have suffered under the exploitation of this system of government for our hundred thousand years. We are the victims of racism and capitalism. They kill us on the square, railroad us through courts, with justice, in a way that is morally demeaned guards. All of these things have served to educate our people. The Black Panther Party has taken this position, not because we are suicidal, but because we are determined to fight. This is the spirit of Henry P. Newton and Bobby Seale.

NEW YORK CITY PROJECTS

In Brooklyn, especially in Brownsville, the New York City Projects are looked upon by the people as their salvation for decent housing. There are 13 project areas in Brooklyn, the largest being Fort Greene, Red Hook, and Kensington. The most massive is Fort Greene. Here is a mass of 27 story buildings, lined up in a particular order, one immediately reminded of a cement jungle. One can't help but think of those constructions as modern day detention camps. The inhabitants are masters of deco, which is one of the main reasons they are able to maintain their reign of terror. Most of the projects are 20 story buildings which house 12 families. In some blocks such as in Fort Greene, there may be 20 such buildings, which means 2,400 families concentrated in one square block. Just how long would it take to barbarize and tear out these areas? The people could easily go along one night and take up fencing in the morning.

In addition to this hazard, the social better living conditions are not as crucial as they are made out to be. The crowds are small, and box-like, the sanitation conditions in the hallways are poor.

NY PIGS FRAME-UP LEADERS OF INTERNATIONAL WOMEN'S DAY ACTIONS

New York, March 5, 1970—Demoralized by the New York Women's Day action called by the Women's Caucus of the New York State War and Peace, fanned night court by 400 women and three men arrested at a demonstration with the cops in front of the Women's House of Detention. After the arrests were made, a statement was announced by the Women's Caucus and enthusiastically received by the demonstrators. The arrests came after the women tried to go into the prison to present a list of demands to the prison authorities. A large crowd gathered around the prison entrance and surrounded an angry group of women chanting, "Free our sisters, free our."

The arrests were a deliberate political act. According to Sharon Martin, Illis Fried and Pat Conover, they are all long-time activists in Youth Against War and Fascism and well known to the police. In addition to being a member of the Committee to Support Martin Luther King, the head of the Committee to Support Black Panther Party, Sharon Martin, Illis Fried and James Van Frierd (from the High School Student Union), were also present. They were there to protect the cops two hours to de- facto to remove the demonstrators of heavy-handed charges. Martin, Pam Meyers and Steve Kansas, charged with assisting with a demonstration, may be charged as well.

The DA threatened that they may be charged as well, in addition to the first charge. The defendants are also being charged with rebellion, harassment, obstruction of government and other crimes.

The DA asked for $2,500 on all the women and Steve Kansas, alleging that the cops were so sick from their injuries they could not appear in court. Hillman pointed out that the cops couldn't have been seriously hurt because they spent more time in the precinct before reporting to the hospital for treatment.

It was expected that the judge would set the bail high because the charges were so stiff. But the show of solidarity by the demonstrators today could be an important factor in convincing the judge that it would be better to release the defendants on their own recognizance. More specific details emerged after defense counsel released without bail.

Preparations have been made to organize a demonstration to let the establishment know that the Woman's Caucus and the Black Panther Party are not afraid of anything.

FREE FOOD RALLY FOR THE PEOPLE OF HUNTERS POINT

Saturday, March 19, 1970, free food was given away to the people of Hunters Point. The people of the Point know without a doubt that the founding of the Black Panther Party was a historical event and to deny further attention to it would have to say that it was a historical asset for the oppression.

We have found out through practice that the program of the Black Panther Party laid down by Huey P. Newton and Bobby Seale, in October 1966, relates more to the needs of the suffering masses of poor Black people than any other programs in operation today.

When we say we want land, bread, housing, education, clothing, justice and peace for the people that's just what we mean. In fact, this is the main thing that makes the Black Panther Party such a threat to this systematic way of living. Knowing and doing. We know that the people are suffering to we organize our programs to meet their needs. No, we don't have stable resources but we would never have gotten where we are today without some resource because of what we didn't have or what we don't have. What Huey and Bobby did was to take nothing and make something out of it.

It’s hard for the people to believe that what the Party is doing is really happening and yet and still it is actually happening right before their very eyes. It's like something too good to be true.

The Food Rally was without a doubt a success. For those who had been forgotten for so long there finally came that there is someone who cares. Yes, the world must thank Mr. Newton for bringing to the people a way to help the people and to meet their needs.

This is the genius of Huey, this is why Huey has always been about telling us how to help the people and showing us that we do have a different alternative, we do have a sound solid program to relax to that will elevate all of these food conditions. There is a way out.

The Black Panther Party with Huey P. Newton at the throttle will continue to serve those that have been forgotten for what ever their needs are. To say and to do is the criteria and that's what the Black Panther Party is all about. Constantly meeting and serving the people's needs. Knowing Hunters Point and seeing the way the people responded to the Free Food Rally and to be a part of the machinery that dealt with serving the people on Saturday, March 19, is, in my opinion, the most rewarding part of being a member of the Party. We are definitely in tune with the people because there was complete union with the people and the Party.

The crunching climax was related to by the people and the Party so how fully can it be.

We know that this pig will create numbers of problems to try and destroy this type of machinery and this union that the people and the Party are sliding into but we fear not, because we know the people are strong in the Point and with each other help we can have any storm.

All I would have to say to the pigs is that a drastic blow was dealt to you and your many friends in Hunters Point and that your days of staring the people are over. The people have seen light under many hard tactics and they will not be able to stop the spirit of the people to make the light that we've seen shine brighter and bigger.

ADAM ROGERS-ALIOTO:S PARROT IN HUNTERS POINT

"The choice offered by the heirs of Malcom X to the en- dorsed spokesmen gookider is to repudiate the oppressor and to crawl back to their people and earn a speedy re- nunciation of the miserable, sympathy and time reservation for treason and being too wrong for too long."- HUEY P. NEWTON

Adam Rogers is Mayor Alioto's nigger in the Hunters Point area in San Francisco. Since the rebellion in this area broke in Sept. 1966, Alioto has been using Rogers money to be his endorsed spokesmen in Hunters Point. It was no accident that Rogers was chosen for this job. In his set, which was very rebellious at the time, he was the bully and be- loved by a very stupid, Rogers was put in the position of being in control of the little bit of money and the few jobs that were sent into the area to pacify the potentially revolu- tionary and rebellious niggers. Now in the last three years Rogers has used his job as Alioto's nigger to establish himself as a little monarch in the Hunters Point area. One of the first things he did was to move out of Hunters Point into an area where Black bourgeoisie types live. He has used the few jobs that are under his control to manipulate people. There is one nigger who was fired from her job because she would not go to bed with this blackjacket. He has put his close friends and members of his family on the payroll; even though they did no work. All you have to do is move around the area to see the blackjacket in the area. Just last week in the pool hall, on Third St., he brutally beat a young brother. Rogers took his hat and placed it on the floor and then told the brother to pick it up and put it on his head. The brother refused to be humiliated so Rogers proceeded to beat and kick the brother savagely. The brother's name is Terry Nichols. On Sat., March 19th, the Black Panther Party called a community meeting to discuss the recent murder of a brother Miles T. Beaver from Hunters Point. He was murdered by a champion of Alioto's gentigle pigs in San Francisco's tactical squad. Members of the Black Panther Party were to explain the community control of police police, as a solution to police brutality and murder of Black people. Rogers showed up looking like Alioto has always looked in his past. When the meeting had not started yet he sat down and started running off of the mouth sounding like Alioto's parrot.

There were five brothers sitting in the room from Richmond, A.C., a native of San Francisco, and others did not know who this fool and provocateur was and began to argue with him.

In the course of the argument I walked in and heard him say he was going to be a Black Panther. He opened a community meeting without consulting him and that if he felt like it he would burn our building down. At this point I and everyone else was ready to move on him, however being aware of the role that being aware of the role that people play and that a pig is

Rockford, Ill.

All over America people are beginning to look into solutions for their problems. The Black Panther Party, official representatives on the Free Breakfast Program, say that the need for a Free Breakfast Program is just such a program. Since now many organizations have started Free Breakfast Programs, we say that this is good, because it proves that people can relate to programs which are doing something instead of nothing.

We have always maintained that the Breakfast Program was a people's program, designed to meet the needs of the people. In Rockford (free) Breakfast sites are in the making, if you are a person with a program, to do something, but is unsure of what you can do?

After learning, studying and researching around the American scene that Black people are subjected to throughout America, members of the Black Community of Atlantic City realized that an organization had to be resisted. We have been taught by Huey P. Newton Minister of Defense of the Black Panther Party, that every man has a right to live his basic need to have his food, clothing and shelter. We order to live and to be a member of our black community for a Free Breakfast Program for Children. The results of this news shows a positive need and desire for a Free Breakfast Program.

With these facts certain members of this community formed a Black Community Information Center, a Branch of the National Committee to Combat Fascism (N.C.C.), to meet the needs and desires of our people. On Monday, February 16, 1970, the Free Breakfast Program was implemented at Westminster Presbyterian Church, Madison and Ver-

As we look at the high prices on services of human needs, we must realize that some people will be forced to go without some of those needs. We are aware that in our community many people are suffering from various medical problems, but because of the high cost of medical attention, they are forced to go without medical attention. In the Black Panther Party we recognize the important and vital need of medical attention for the people. Presently we have several Free Breakfast programs throughout the country, and one is in the making right here in Rockford. These Medical Centers need the support of many progressive people, we will need your support.

If you are interested in the Free Medical Center, and would like to donate some of your time, or some equipment, or money, call the following numbers:

FOR A PEOPLE’S COMMUNITY SOCIALISM

Land, bread, housing, education, and peace, berth point of the ten point platform and program of the Black Panther Party. We are daily trying to implement them, in further meeting the needs and desire of the people, upon which our program is based. The Hunters Point (687) and Bobby Seale Community Information Centers, along with the Richmond branch of the Black Panther Party began a Free Food Program for the people.

Over 40 tons of food was distributed last week through these Centers and Offices to the community. At this first distribution we were able to give the poor canned vegetables, dry mixes, fruit juices, meat tenders etc. to deal with the low grade meals sold by the avatars businesses, suspension and bread, in each family according to their status. Over 5,000 people were reached—a total of about 1,000 families.

With this concrete example, we were able to show the people what the words “For a people’s community socialism” really means. In other words, from each according to his ability to each according to their needs. The people readily related to this example and didn’t show up just to get food or as much as they could carry away, but to help distribute it all. They also took only what they could use or need.

A result, more people are aware of their community centers and have a better understanding of the Party and its programs. Since the program has begun, their participation in the Breakfast Program, helping to fulfill the Free Health Clinic and generally a more socialist attitude has been noticed.

The road to socialism and the making of “All Power to the People” a reality is long and hard. But with a further and fuller understanding of what these terms mean (as put into practice) will make them more determined than ever to make 1970 truly the year of the people.

Pigs Use Racism

When Wade Carson was put in the Fort Lewis Stockade, on Jan. 22, there were rumors all around about a race riot. Wade heard that some blacks had beaten some whites believed to be drop- jocks. He heard that Whites were fitting to get even. Whatever the truth of the story, it was certain that race tensions were bad at the end of January.

In the midst of this Lt. Mosely and Capt. Hayes, stockade officials, began whispering about Wade to the agitator of the white prisoners. They said that Wade had been talking to black prisoners revealing the white plans to attack Blacks.

Wade Carson is an Abu organizer and was of course speaking both to black and white prisoners. And the theme of his raps about race was the simple message, "Don’t let them use us against each other. We’ve got to organize together, black and white, against the brass."

On Sunday, January 24, Wade was put in P.U. along with Sig- Hayes. A group of Whites, who worked up, came over and started asking, "What in the hell?” Wade didn’t get much chance to answer before they jumped him, and went on kind of quickly.

The next day they were back again and hung in. They said they had no words about the rumors about Wade and the black prisoners being spread by white. Finally they dropped word and they were being used to pig a dark work against a dark organ- ization.

Wade seemed to think the heat- ing was a small price to pay for the deep way these men came to understand things.

It would seem to make sense that stockade pigs want to avoid riots, because they bring a lot of bad publicity. They’d just like to harass and beat the men in the peace and privacy of their own stockade. But over and over we hear about guards and com- manders who, argue about racial attitudes, do nothing or encourage them. Why? Why? Why? How can the pigs get away with this? Why can the pigs get away with this? First of all, the publicity on riots takes away the guilt. Then, the men are ignored and need for the pigs; they can be used to any end.
"BLUE" GETS TEN YEARS FOR SERVING THE PEOPLE

Roger Lee Lewis has been a member of the Southern California Chapter of the Black Panther Party for Self-Defense since its beginning in February 1968. "(blue)" he was given that name by Bucky, also a member of the Black Panther Party. Bucky gave him the name as a nigger off the block. A brother who ran these streets and knew the ins and outs of Niggertown, Waco, saw a man, men, Bucky. Bucky, which was taken up against the oppressors, the pigs. A nigger who dropped people. He was fighting for what was due to the black man.

And that is the reason blue is in jail now. That is how they got him. They came and he was constantly arrested, especially since January 1969. And that is the reason the pigs want to murder him or silence him with prison walls and barb-fenced. I can not, it became a common thing for all of us to wonder where this friend of ours was. - He was being held in the N. W. T. and there he'd be able to see us.

January 17, 1969, marked the beginning of an intensified plan by the pigs to make blue go off. It was on that date that he surfaced to the attention of the pigs. They were waiting for the other side of that day, the brutal assassination of our Dependent, brother, John-John Carter, and our Deputy Minister of Information, John Huggins; the arrest of John Huggins right after he was murdered, also had some come there to try and console John's wife, Ericks (this was about three hours after the assassination). He arrived at the house only to find that it was being vandalized, and that Ericks and other sisters and brothers were being taken to jail, to find Ericks and others three hours later cold and standing in the snow, with the pigs searching the baby's blankets. "For the pigs," he said, "who were to leave this sister alone, and turned to find himself being beaten and chased by the pigs with an arrest. The case went to court, but the trial, it seems, could not find him guilty. Every month after, as he tried to escape, he got arrested just as he was cold. In between there were constant threats given him for not being excessive. There were threats for suspicion for everything from murder to sus-

BLUES AND BUNCHY

Blue went to see his old lady who had their child. Her father, like the pigs, had died, because he was, in a Panther, totally dedicated to the construction of a society in which the people have the power to determine their destinies, and the destruction of all the forces that stand in the way of that. The sister's father, as he had previously done, refused blue permission" to see his child. A man refused to simply see his child. An argument arose and blue ended up having charges filed against him, assault with a deadly weapon. Further details are unimportant because the pigs welcomed the opportunity to put blue in jail, regardless as to why. But, of course, again even a jury in a fascist America could not fix them selves to find blue guilty of any "crime". And he was acquitted of that charge.

April started a greater intensification of the pigs' oppression of Blue. He was charged on April 12 with possession of a bomb. They stood trial on that charge and was acquitted.

So, who is Roger Lee Lewis still in jail? He had been arrested several years ago on an assault with a deadly weapon charge, and had been given probation of three years. Two months and two days passed before he was acquitted on that last charge. It was at that time the pigs probation department suddenly decided that this man had "violated" his probation, just when the probation period was almost over. He now faces the original sentence of a maximum of 10 years in a state peni-

LETTER FROM PAUL REDD OF THE L.A. 18

The Black Panther Party is a dedicated group of oppressed black people throughout the United States who are fighting against the oppressive, fascist regime of America that has enslaved the Black man and has divided him all throughout his existence here in America. The Black Panther Party can indeed eliminate the slave master, and Black people living here inside the heart of the slave master, Black people are engaged in a struggle fighting for justice and the rights of all Black people.

Now, the fascist Gestapo storm troopers were successful in their murderous plan to stain the streets of the Black communities with our blood, so the low life dogs kidnap four young boys who are being held prisoners of war in one of the hundreds of barbaric concentration camps of Hitler.

"CHIP" CONVICTED IN FOUR DAY FASCIAL TERROR

Romante Fitzgerald 'CHIP' - Political Prisoner - L.A. County Dungeon

Brother Romante Fitzgerald - or "CHIP" - has been incarcerated in the L.A. County Jail since September 26, 1969. He was arrested on a phony charge of attempted murder of a highway patrol pig. While sitting in jail, chip was informed that another charge had been brought against him - Murder. This is ridiculous - a man sits in jail and suddenly the pigs find no scaplegoat to complete their records and files. Since Chip is and was known to be a hard-working Panther and a "bad nigger", he was the logical choice - especially since he was conveniently held to their jail. So he was charged with the murder of a Black security pig. The pig was shot at a time when Chip was staying with some friends. Testimony of the tria-

FREE LANCE BELL

LANCE BELL, Santa Clara, Illinois, 30 years of age, was shot and killed on the busy streets of Cook County jail. He was being held on a charge, for a crime which only resulted in the death of a佲member of the Black Panther Party. Mr. Stearn, a member of the Black Panther Party, was killed in a gun battle with police on April 14, 1970. The victims' names are对我们 or their families.

To understand the innocence of this true martyr and member of the Black Panther Party, it is necessary to review what happened on the bloody streets of Chicago on April 14, 1970. The Black Panther Party was initiated in 1966 to provide political education and self-defense to communities throughout the nation. The party was founded by Huey Newton and Bobby Seale, who recognized the need for a group dedicated to understanding and correcting the injustices faced by black people.

The party's philosophy was based on the belief that the system of oppression was not just a political problem, but a structural one. The party's goals were to challenge the oppressive system and to provide a forum for black people to come together and discuss their common experiences.

The Black Panther Party was a radical political organization that sought to bring about social and political change. The party's members were committed to fighting for the rights of black people and to creating a more just and equitable society for all.

The party was targets of violence and harassment. In the wake of the Chicago Police Department's attack on the party, there was a massive show of support for the party across the country. This support was crucial in helping the party continue to operate and grow.

LANCE BELL, a member of the Black Panther Party, was killed in the wake of the Chicago Police Department's attack on the party. His death was a tragic loss for the Black Panther Party and for the movement for black liberation.

Wisconsin Committee to Combat Fascism

Dear Editor,

I am writing to express my support for the Wisconsin Committee to Combat Fascism. The committee is working to combat the rising tide of fascism and white supremacy in Wisconsin. The committee was established in response to the rise of white supremacist groups in the state and the increasing prevalence of hate crimes.

The committee is working to organize and mobilize people to take action against fascism. They have organized protests, rallies, and workshops to educate people about the dangers of fascism and to provide tools for people to resist.

The committee is also working to support communities that are targets of fascist attacks. They have provided resources and support to communities that have been attacked by white supremacists.

I urge you to support the Wisconsin Committee to Combat Fascism. They are doing important work to combat fascism and white supremacy in Wisconsin. Please consider donating to the committee or attending one of their events to show your support.

Sincerely,

INTERVIEW WITH
CHAIRMAN BOBBY

Bobby Seale, Chairman Black Panther Party,
Political Pianist

Interview by David Pilgrim

How do you feel about the Chicago trial? Do you feel that this trial and the trial of H. Rap Brown in Atlanta is part of a larger effort to try to silence the Black Panther Party?

Bobby Seale: I think it's absolutely correct. The trial of H. Rap Brown in Atlanta is only one of the many efforts to try to silence the Black Panther Party. And it's part of a larger effort that was started in the 1960s with the Freedom Rides and other civil rights activities. It was an attempt to try to silence the voices of the oppressed and to try to silence the voices of the people who are fighting against the injustices of the system.

Interviewer: And what do you think is the most effective way to deal with this type of situation?

Bobby Seale: I think the most effective way to deal with this type of situation is to continue to educate the people and to continue to mobilize the people. We must continue to educate the people about their rights and about the system, and we must continue to mobilize the people to fight against the injustices of the system. We must continue to fight for our rights and for our freedom.

Interviewer: And what do you think is the most important message that the Black Panther Party is trying to send to the world?

Bobby Seale: The most important message that the Black Panther Party is trying to send to the world is that we must continue to fight for our rights and for our freedom. We must continue to fight against the injustices of the system, and we must continue to fight for our rights as human beings. We must continue to fight for our freedom, and we must continue to fight for a better world for all people.
PROSPECTS ON COMMITTEES FOR PRISONER’S RIGHTS

Harlem Hospital

For years Harlem Hospital has been offering infirmary services to the neighborhood, and has recently been referred to by Harlemites as the “Butcher Shop,” and with good reason.

Last Friday in the auditorium of the Second Street Community House, a small but very determined group of people gathered to discuss the need for better hospital facilities for Harlem. The group was composed of representatives from the neighborhood, including doctors, nurses, and social workers.

The meeting was called to order by Dr. John Smith, the chairman of the committee. He welcomed the attendees and expressed his concern for the lack of medical facilities in the area.

Dr. Smith then introduced the first speaker, Mr. John Doe, a local social worker. Mr. Doe spoke passionately about the need for better medical care in the neighborhood, and how the current facilities were unable to meet the needs of the community.

Next to speak was Mr. John Doe, a local doctor. He spoke about the overworked staff and the lack of resources available to them.

The meeting concluded with a round of applause for the attendees and a commitment to continue working towards improving medical facilities in the neighborhood.

The group decided to form a committee to work towards this goal, and a meeting was set for next week to discuss further actions.

Response to a Zionist Letter

March 11, 1970

Dear Friends,

I am writing to you in response to a letter that I received from M.E. Ben-Ami, who describes himself as a member of the American Friends of the Fighters for the Freedom of Israel (Haganah). I am not familiar with this organization, but I will do my best to reply to Mr. Ben-Ami’s letter.

In his letter, Mr. Ben-Ami describes the cutting of the feeding tubes to the Zionists by the Palestinians as aѢی

In a letter to the editors of the New York Times, C.C.F. and Black Panther Party members attacked the newspaper for its support of the war in Vietnam. They accused the newspaper of being a mouthpiece for the War Department and demanded that it stop printing articles supportive of the war.

The Black Panthers, led by Huey Newton, conexióned with other and more radical organizations to present a unified and powerful message to the nation. They used the media to their advantage, and their message resonated with many Americans.

In conclusion, the Black Panthers and C.C.F. members have shown that even in a world dominated by the power of the white race, there is still a chance for a group of people to stand together and fight for justice. They have shown that the masses can effectively challenge the power of the government and other powerful institutions.

Despite the setbacks and challenges they faced, the Black Panthers and C.C.F. have paved the way for future generations of activists and have inspired many to continue the fight for justice.

RACIST ATTACK IN CORONA

In a recent attack on a Jew in Corona, a group of young men attacked a man while he was walking on the street. The attack was apparently motivated by hate and intolerance.

According to witnesses, the attacker repeatedly used anti-Semitic slurs and physically assaulted the victim. The attack occurred in broad daylight and was witnessed by several people.

The victim, who was not identified, was treated for minor injuries at a local hospital. The police are currently investigating the incident.

The attack is being treated as a hate crime and the investigation is ongoing. The community is urged to remain vigilant and report any incidents of hate to the authorities.

In conclusion, the attack in Corona highlights the continuing problem of hate crimes in our society. We must continue to work towards creating a more inclusive and tolerant community.

Sincerely yours,

Tina Roberts
AN INTERVIEW WITH WORKERS DEFENSE COMMITTEE OF SAN FRANCISCO GENERAL HOSPITAL

The writer's defense committee is a group of hospital workers of all different job categories at San Francisco General Hospital, permanent and temporary, Black and White, men and women.

Q. Can you tell us when you formed the Worker's Defense Committee and how it came about?

A. Like there was one man, his name was Chicago. We all decided to let him work in the pharmacy for the one reason he was Black. He had no education at all. He worked there and got him in the pharmacy. A whole bunch of scope workers, nurses, doctors and others, they decided they could be Black and brown and could come from the community, but they're just not there. We saw that more mclean when just one man tried to get into the tight system of professional category. They didn't want to let him in. There was a struggle and the only reason he got in was that the people called behind him—the Panthers, Los Serris, NAACP, the local union. But things really started to move when the inmates tried to pull off a fast-in in January. The inmates had been very progressive people there, and they were listening to the community; they were interested in real health care, because the hospital was going down the tubes; they knew that in five years nobody was going to come to this hospital unless they made some changes. So they listened and they put together a list of demands that the community had been talking about for a long time. A lot of them had been written about; some of the major things we were talking about was the lack of services and over five p.m.; that everything shuts down at the doctor's convenience. So the inmates asked for night facilities in the pharmacy and the social work, and they were just asking for the community's demands. And when the community asked for other set of demands for the improvement of their own conditions. They decided the only way to get it is to go out for it alone. That meant to pack the hospital with patients who would be forced to get in to the demands of the community and under improved conditions. So the workers in the defense committee looked at it and said, 'We're going to be working even harder, it just is no longer...'

HOW LONG MUST THIS PATIENT WAIT FOR CARE?

That every day in the hospital had been a fast-in, the hospital has been a leaflet, attacking the health of the hospital. They're not going at it alone, and that's what isn't right.

That they should include improvements for all hospital workers. That's certain, kinds of discussions, certain kinds of meetings. They've been coming around and around our political literature, and they've been knocking around in town, to get this or that vote. But other kinds of politics and the need for follow up that they have, because they dump all poor people out, even Med-Cal patients only eight days. General is understaffed and under equipped, so really it's throwing everyone into a pit. Instead of trying to find out what their problem is you're actually making more...

The building has been condemned. Technically it's been condemned, but it's not wide enough, but it ought to be condemned because there are rats in the basement, cockroaches, they won't allow, politics that they're against, like the Panthers and the Black Serris, and other community groups.

Q. Does the Worker's Defense Committee relate to patient care issues as well as to fighting for workers' rights?

A. Our group is a secret group, we work to cause the largest worker to be a secret group. We have a number of people who attend meetings, who are involved in putting together the bulletin. We didn't stop our services to 6 because we care for our services, and because these services, and the administrations in the past, we felt wasn't the time. They are conducting high-level investigations right now—what's putting out this literature. Obviously the administration is trying to find some reason for all of this radical literature; they're trying to blame this whole strike on some outside agitators.

They went to see the administrators around a little pink notice, saying that anyone who went to see the administrators should be docked pay. Fortunately, people were outraged by that kind of repression. We were there at the meeting that there aren't going to be that kind of thing the administration has done before. You see, they allow certain kinds of leaflets and all kinds of dangerous situations. You have one group, with fifty people three of four feet apart. There are people shouting in pain. People are being examined in the open. All of them have their current that can be drawn. There are beds all over the city, other hospitals that are vacant, and you know that beds are going to cost plenty of money and the hospitals aren't going to give them away. In Mission Emergency people are kept waiting four or five hours while all the doctors take care of the more interesting cases. I brought a friend down to Mission Emergency here, he couldn't write it up after putting his hand through a plate glass window. He was bleeding, and a woman was bleeding all over his suit. All over his clothes, blood was just gushing out. We know, they're here; they're here for about two hours waiting to get in. There's a little herd, and the doctors came out and asked the patient and the doctor says "Look at that..." and they rushed him right in.

They had another case here today. It was a woman, she fainted in the elevator. She set up there for about an hour. She died, and she fell over. They rushed him right in.

They were friends in the hospital. They went to the hospital the other day, they brought a friend, and it was a Spanish speaking woman who came in to see the prenatal clinic pregnant with her fourth child, and the ten-year-old told her, "What's the matter with you, have you heard about birth control?"

All the time we report police beating up patients in the emergency room. The fact is that the...
INTENSIFICATION OF THE ARMED STRUGGLE IN ZIMBABWE

The month of January has been marked by the intensification of the armed struggle in Zimbabwe. Despite the amnesty for the fascist regimes of Salisbury and Pretoria, the January 5th attack on the patrol gun boat forced them to admit the growing guerrilla activity in Zimbabwe. As might have been expected, the Ian Smith regime lost no time in reversing its old and well-known accusation of the Republic of Zimbabwe having "instigated the guerrillas and served as a springboard" for attacks on Salisbury. They argued that the patrol gun boat had been fired from the Zambezi, a state of the river was soon proved false by constant attacks taking place deep inside the country and as far south as Loum 100 miles North of Bulawayo.

The repeated threats by the Ventor and Sogh regimes to attack independent African states and their own people themselves an eloquent proof of the intensity of the armed struggle which is gaining momentum in Zimbabwe.

On the 6th, of January, ZAPU headquarters issued a communiqué to the effect that in the Makoni area three enemy soldiers were killed by our freedom fighters. The communiqué also pointed out that "the South and Ventor forces mounted the Malindzi base have thrown read-blocks along the Malindzi road following heavy casualties inflicted on them by ZAPU combatants in a series of attacks on the elite armed patrol groups which have been described by the Salisbury fascist regime as "unprovoked attacks."

The closing of the civilian airports of Wankie and Victoria Falls following a regularly successful raid by our combatants plunged the entire population into utter panic. Thirty enemy soldiers were killed and several others injured, two helicopters and a light plane destroyed, buildings heavily damaged and communication disrupted. In the meantime, the South African and Ventor forces mounting the Malindzi base have thrown read-blocks along the Malindzi road following heavy casualties inflicted on them by ZAPU combatants in a series of attacks on the elite armed patrol groups which have been described by the Salisbury fascist regime as "unprovoked attacks."

The New York Times, in an article headlined "Zimbabwe: A New Guerilla War," reports that the Ian Smith regime is losing control of its territory to the guerillas and that the situation is rapidly deteriorating. The Ian Smith regime, in a desperate attempt to maintain its control, has resorted to widespread repression and violence, including the use of brute force and the destruction of property. This has resulted in a mounting Confederate resistance, which is increasingly difficult for the Ian Smith regime to suppress.

IMPERIALISTS

"All this proves even more clearly that U.S. imperialism is the most barbarous and shameless agent of modern times, the force of aggression and war, the chief architect of world reaction, the bulwark of modern colonialism, the strangler of national liberation and independence, and the disturber of world peace."

GREAT BRITAIN:

After losing World War II, Great Britain economically and in every way was in a complete mess. From the U.S. decreed to the British government that it must repay most of its debts, the British government was forced to accept the terms of its creditors. The British government was unable to meet these demands, and as a result, the British empire was forced to submit to the U.S. and its allies.

WESTERN EUROPE:

After World War II, Western Europe was completely devastated. The so-called allies, Great Britain and the United States, after Germany was divided into East and West, took over Western Germany. U.S. military forces occupied Germany and the Soviet Union, which faced Japan, was only able to gain control over Germany. About 70% of the main German firms have American capital invested.

FRANCE:

Because of financial interests and the desire to control the French, the U.S. controls the West Bank. Also, with Pompöosi as President, the situation has worsened. Pompöosi is connected with the reactionary warlords in the country, who control the country's commerce and industry.

JAPAN:

Puppet force of U.S. imperialism in Asia; after last war, the same situation as Western Germany.

ISRAEL:

The Zionist puppet state of U.S. imperialism.

SOUTH AFRICA:

After Great Britain, the U.S. has the most investment in South Africa and diamond mines. The U.S. supplies arms to South Africa and the state is right against the black people. U.S. has refused to vote against South Africa in the United Nations concerning her apartheid policies.

ROHINDA:

Closely linked with South Africa and together with Portugal, Portugal has a long history of imperialism in Africa. It is impossible for Africans to struggle for their liberation. Most of Rhodesia's aid comes from South Africa which in turns comes from the U.S.

GREECE:

The Communist Party became the strongest Party in Greece recently. The C.L.A. intervened and there was a coup. The C.L.A., then installed the Junta which is being imposed by American aid.

BELGIUM:

Belgium has been a victim of imperialism. The people and Angola and Mozambique have been waging a heroic struggle against the fascist Portuguese government for their national liberation. Portugal is able to stabilize its own economy because of the rich resources of its colonies in Mozambique and Angola. Africa's pig police force in made up of the secret service pig coalition of South Africa, Rhodesia, and Portugal. They have formed a coalition in order to preserve the racial capitalist rule of the Europeans in Africa.

PORTUGAL:

Portugal is a dictatorship, the control and has colonized Angola and Mozambique for a number of years. The people of Angola and Mozambique have been waging a heroic struggle against the fascist Portuguese government for their national liberation. Portugal is able to stabilize its own economy because of the rich resources of its colonies in Mozambique and Angola. Reactionary Sato clique of Japan immediately stop the schemes to fabricate fascist evil laws

Stopping up the avenues for re-agression in Korea under the active patronage of the U.S. imperialists, the Japanese militarists have recently hitched a hazardous plot to suppress and persecute the Korean citizens in Japan all the more viciously. According to reports, the reactionary Sato government of Japan is planning to take several steps to suppress the "immigration and emigration control bill," and "partially revised school education bill" on the agenda of the Diet which will convene on February 14 with a view of enacting them into laws. As we already reported, these notorious evil bills failed to get through the Diet owing to the strong protests and broad public opposition last year.

The recent criminal moves of the reactionary Sato clique are an unwarranted manifestation of an ever tightening hostile policy of the reactionary government of Japan toward the Democratic People's Republic of Korea, and they are designed to launch another wholesale suppression against our 600,000 fellow countrymen in Japan and constitute an unanswerable challenge to the entire Korean and Japanese people and progressive public opinion the world over. The entire Korean people are now loudly protesting against the criminal manner of the Diet's moves in order to suppress the "immigration and emigration control bill," and "partially revised school education bill." The Japanese reactionaries are now trying to manipulate all means in the interest of the most ignominious fascist evil bill. It is intended to suppress and put a stop to the democratic, national rights of the Korean people in Japan who account for 30 percent of all foreigners in Japan, under the plea of exercising "strict control" over the "activities of foreign Japanese authorities", the just activities of the Korean citizens in Japan for national liberation, to disallow them even the right to administrative litigation and deport them at any time. Under this bill, the so-called "official charge of immigration and emigration control are to be granted the social power to charge the persons against will and violate the human rights of anyone." This evil bill aims to ruthlessly repress the Korean citizens in Japan of their fundamental human rights, their right to life and freedom in social activities and banish them to the despised Papong Jun'ti borde under the name of so-called "forced repatriation." Also, no is so secret that the "partially revised school education bill," is intended to enact into law the "foreigners' school bill" for suppressing and obliterating the democratic, national education of the Korean citizens in Japan and impose the so-called "school education," a type of the colonial education concept, upon their children. Under the criminal "registration law" and "immigration and emigration control ordina-

U.N./REPORT
by: winston berry

Britain and the United States are just about to serve up here a warmed over version of their periodic production— the Southern Africa Problem. Lord Carron, the British Ambassador to the UN has called for a Security Council meeting to consider what to do about the Ian Smith racist rebels in Southern Rhodesia. Lord Carron, it should be noted, has proclaimed that British colony a "privileged" March 5.

The first showing of the Southern Africa routine was in November, 1965, following the unilateral declaration of independence by the Ian Smith rebels. Failed and disgruntled, Lord Carron pleaded then for the imposition of selective economic sanctions against the runaway white colonists. If the United Nations would only invoke sanctions against trade in oil, tobacco, asbestos and chrome, Lord Carron promised, echoing what Prime Minister Harold Wilson had said in an assembly of Commonwealth Prime Ministers, the rebel regime would fall to a matter of weeks or at most months.

Then there was the time when a British naval pocket had截取 a tanker approaching a Portuguese port with oil for Rhodesia and Lord Carron demanded and urgent meeting of the Security Council to meet this "crisis." Meanwhile, correspondents, travelers and reports by the special committee of the Security Council acknowledged that the sanctions had failed, that the Smith regime had been able to reorganize its commercial relations so that Portugal and South Africa became its cutouts to the outside world. This was pointed out by African delegates who called for extending sanctions to South Africa and Portugal with enforceable provisions.

This drew from Lord Carron a replay of a neutral plea for the British workers who would be unemployed if British trade with South Africa were suspended. Also, he appealed, there was the possibility of provoking a war.

When Smith and his rebels ordered themselves beyond British law in November, 1969, British authorities, including Lord Carron called them "outlaw" and "terrorists" and branded the rebellion and its regime "illegitimate." But the Wilson Government immediately went into a series of conferences with the "outlaw" in which Smith and his followers told the British Government just where to go. Smith could do this because he had been assured by Britain from the beginning of his ouster that Her Majesty's Government would not use force against Britain's "friends and kin." So while the crushing of rebellions by Britain in Asia, Africa and the Caribbean area was fresh in the minds of many, Britain announced that nothing would be done against the 240,000 white rebels who had established themselves as the racist rulers of 4,500,000 black Africans.

The U.N. role in this shoddy piece of International relations is to use human rights rhetoric and appeals for being "practical" to support his ally, Africans, who being forcibly removed from their ancestral homelands, forced to carry passes, subjected to every indignity and degrading exploitation, are lectured by U.S. representatives on the virtues of international behavior. This was as true of the late Ambassador Adlai Stevenson as it was of Ambassador Arthur Goldberg, and the present Ambassador Charles W. Yost.

About Rhodesia, and for that matter the whole of Southern Africa (South Africa and the Portuguese-held territories held by Portugal), there are only two possible solutions. There is no solution possible through United Nations resolutions. They have been tried for 25 years now and they have failed. The key here, however, is South Africa, and the key to South Africa lies in four major trading partners—Britain, the U.S., West Germany and Japan,

CONT. ON PAGE 20
entire hospital is occupied by an army of police. They got regular police with which they call security guards. They get special police from Mission Sheriff that when they find with Full agents that are poisoning hospital workers. Like they have a police in the emergency room.

And prisoners, the doctors give them measures, if they are sick and it also measures with their mind, the police come in and interrogate them. They are not even allowed to protect them with their legal rights.

Like this Chicano was beaten up the other night by a police officer. They beat him to a pulp. They brought him to Mission hospital and there he is with a broken hand in traction in the waiting room, and he asks the police officer, "Give me today," and he told him, "I would have killed you, and Mr. Fox, who was found lying in his bed unconscious. Apparently one of the police officers beat him and the police took him to the hospital, instead of giving him ten they must have given him fifty or more. They beat him so hard he was dead. And so that's not uncommon. That's pretty common because there's a difference every day there, in the County jail, they beat the prisoners to death. That's the hole for getting medical care.

Q: What about the patients who are prisoners?

A: Well, there's no commitment to follow up, only people just come in, and that's all we have to do with them. There's no responsibility to them. The attitude is that they must be dealt with, that we're not going to do anything more than just a simple go around and a drink, and you don't do anything for that. They have to do everything by themselves, and if they get out into the street, if a doctor feels someone is incompetent, he calls the security guard and throws him out in the streets. They have a very mechanical way of dealing with people, and I don't think that all the time it is their fault. The working conditions are very hard, very hard. And there's such a fantastic pace, pressures are very high, they have to begin to try to improve their attitudes and their behavior.

Q: What about becoming an enemy, when condition becomes such a demand, is there any demand, a need? and that we can't just satisfy. So the man who is by calling them into prison is really screwing the worker and the patient together—she's like putting us in a box together to fight off.

A: If there is no food, how can some people haven't gone together before now, what's kept them apart?

A: Their jaws, mainly, there was no understanding, non-involvement, non-consciousness. We thought that the man got the power to kick them off all together. Everyone was going to kick them off. All it takes is a few people to get it and everybody gets the courage.

Q: Are there any job-training programs?

A: Not too long ago, maybe a year ago, they ran an 11-month program where they had thirty odd trainees for new technicians. I guess it was called, and it was out of the one of that group that hired them out of the end of the training program, and everybody left because which is like lower pay and lower status, even though they had more training. That's the current situation.

A lot of women employees are temporary. They're not given any pay check to pay check. I got bumped around there by a police officer who asked and I couldn't do the job, so I got my job back, but there are a lot of them who come in, they're like five minute notice, it was 12:30 and I got off at quarter to five and they told me not to come in the next day. A lot of them, it's like that, they can't afford to lose their jobs. So civil service rules do not have complete control over that hospital staff as long as the system doesn't control over people's jobs. And that's what's the main reason is, it's not that it isn't until they get real mad, mad at themselves and mad at the administration and they say, that's the main reason that something didn't happen.

The temporary category is interesting that may be more important to people than the need to work, because people say that everybody faces every day in the fact that the hospital is under-five dollars cut, but there isn't enough of us to do the work that we have to do. And in some cases, they're making fewer people's worker. They milk you for all the money you got. They pay you the least they possibly can. And they've been getting it for that this year at the hospital.

Q: Who makes money off the hospital?

A: A hospital may not take in a lot of money, but it's a place where you lose money. It's not a place for day to day basis, like repairing their wounds, changing their bandages, changing them. They're just concerned about their basic needs, because what is the good the hospital, the Black Panther Party wants to have, in the hospital, to have the patients only pay close enough to do the dirty work that keeps the system running.

A: If the strike is over, if the workers get the 10% wage increase, what would that mean for the hospital?

A: If they can come up with a lot of money, that you can get, it can obviously, a lot of money can come in with a lot of money, and because isn't because it's not, you can come up with medicine, with more doctors, with more nurses.

Alito will try everything to keep their power to break the strike. They have the power to screw the patient, and the patient can't win. They have the power to screw the patient.

Q: How is the government of the people, by the people, for the people, their most effective way of action?

A: POWER TO THE PEOPLE OF THE SLUM!

Dorie Peters

The Black Panther Party is an armed body for carrying out the political tasks of the revolution. We are the voice of the People's struggle for liberation. And we realize that unless we have a national self-defense force, our power structure is sagging all war against black people, and overall, the majority, we feel that people, they have to get up and stand up against their enemies. People's Convention, 141 Clinton Avenue, are not able to accept the fact that because they are Black they have to be beaten up by non-Black people and tried to change them, by coming to their house and coming back every time. They have tried everything else, the pressure to try to get their party to get some action. We understand the people's problem is not that the police are benign, that they will go on his job. The next day the complaint goes to the chairman of the local government. The tenants of 141 Clinton Avenue, realize that they can get away with just as long as the police is to look out for the people's best interest. All knowledges and Mr. Rechelle took that if they can get the hands on the bonds and are moving in a most progressive manner, the interest of the majority of the people is important, that is looking forward to some immediate action.

POWER TO THE PEOPLE OF THE SLUM!
BLOOD, the freedom and liberation of our people, and nothing, no force, can stop us from achieving our goal, regardless of the political, economic or military strength of the United States of America, then let us destroy it with a smile on our faces. A smile for the freedom and liberation of our people. The Black Panther Party calls for freedom and liberation in our life time, because we want to leave behind the dark world of our children to grow up in a year in which our people make heroic drive for freedom and liberation.

ALL POWER TO THE PEOPLE! SEIZE THE TIME!

With this attempt to impose a black out on the operations of the government, the repressive forces started harassing, terrorizing, arresting and intimidating the innocent and unarmed African masses found on the spot, including two journalists Mr. Peter Salditt of West Germany reporter of "der Spiegel" and Mr. G. M. Ndlovu editor of "The Morning Star" of South Africa.

The public admission by the U.S. of the operations "the most serious since U.S.D.U. I" is certain proof by the arrival of 700 additional troops being flown in from South Africa as well as the frantic search for the freedom fighters in the bush in the affected areas.

In Jellmas, the African National Executive Committees of the two African National Congress of South Africa was held on the 6th instant and issued the following communique:

A Joint meeting of the National Executive Committees of the African National Congresses of South Africa, the United States, Canada and Europe was held in Jellmas on the 6th January, 1970.

The discussions which took place in a cordial and friendly atmosphere were proceeded by statements by Dr. Lisa蚕iang, Vice-President of the South African National Congress and the ANC (both of whom understood the historic importance of the meeting) that the Alliance in the struggle against colonial oppression and race tyranny in Africa constitutes an important factor for the realization of the Alliance's main demands:

1) That the government of the South African Republic be and remain a barrier to the evolution of a united South Africa, and that it is a barrier to be removed by this Alliance;
2) That the Alliance demands all the political rights for all South Africans, including the right to vote and the right to form trade unions;
3) That the Alliance demands the complete withdrawal of all foreign troops from South Africa;
4) That the Alliance demands the abolition of the pass laws and the separation of the races in South Africa;
5) That the Alliance demands the withdrawal of all repressive and discriminatory measures against the African masses.

The Alliance committed itself to the immediate commencement of negotiations with the United Nations and other international organizations in order to bring about a solution of these problems.

The Alliance also committed itself to the immediate commencement of negotiations with the United Nations and other international organizations in order to bring about a solution of these problems.

The Alliance also committed itself to the immediate commencement of negotiations with the United Nations and other international organizations in order to bring about a solution of these problems.

Workers And Funds Needed

The Black Panther Party is now in the process of developing an international staff for the international section of the Black Panther Party. We are in need of enthusiastic workers. We need people with skills in filing systems, typing, printing, shipping and receiving. We are also in need of people with language skills, people who can speak French and Arabic. We need people who can function on a diplomatic level in all languages, because at this stage in our struggle we see the need to develop diplomatic machinery for the American revolution.

We have to deal with the same things that other diplomatic machinery have to deal with. The international section of the Black Panther Party is also in need of funds in which to be able to operate. All people wishing to send funds to support the international section of the Black Panther Party can send it to:

FASCIST PIGS OF PA BEAT MOTHER & CHILD

Fascist pigs of p.a. beat mother and child

On Friday night, February 27, the police were called to the home of Mrs. Mary Green. She was supposedly having a party and the stereo was playing too loud. When the police arrived Mrs. Green said, "Oh my God, you are the only people who have seen this. These other occupants were her 14 year old daughter and her 4 year old son.

The police questioned Mrs. Green and said a few nasty things. Angry words were passed between them and then the policeman struck Mrs. Green in the mouth. She bit him back and they began to struggle. The second policeman came in and the two of them knocked her down, causing lamps and tables to overturn.

While they were struggling Gall, the son, got a broom and was about to strike one of the policemen when he pushed her into the wall. By this time they were practically on the porch and Gall just tricked the barge there. She picked up her daughter and took it from her and said that if she didn't go back into the house she would get the same thing.

The officers knocked Mrs. Green on the floor and handcuffed her. They proceeded to call the wagon and throw additional squad cars. The policeman pushed Mrs. Green when she started for the steps and again pushed her up against one of the cars, which caused a large bruise on her upper arm. They then proceeded to shove her into the wagon and take her to the police station.

While at the station, she called her relatives and when they arrived, she told the desk sergeant what happened. She also told him that the "pig" hit her in the mouth. To the sergeant replied, "If you hit her, you tell me, she's going to the hospital.

The next day at the hearing, Officer Mohan, the one who struck Mrs. Green, denied everything. Mrs. Green had seven witnesses, but still the judge believed the officer.

Mrs. Green was fined $200.00 and 30 days in county prison for disturbance of the peace, and for striking an officer. Her penalty was later reduced to $100.00 and court charges. The officer went free.

Huey would say, "a newspaper is the voice of a party, the voice of the Panther must be heard throughout the land."

The Proving the progressive people from the machinery of oppression is ever widening as the people begin to realize that there can no longer be a middle of the road position with regard to freedom for the people of the world. However, it has only been within the past four years that the American people have shed their rose-colored glasses and patriotic blinders in face of the reality of what their country was doing to the world's population. With the realization of the American role came the closer examination of all the things that had really never been questioned before...the American 'dream', the foreign policy, the treatment of minority peoples within this society, the real role of the 'policeman' and the press.

We found we as citizens of this country were being kept duped by the government and kept misinformed by the mass media.

In an effort to give the facts to the people, the so-called 'underground press' developed with various groups setting up newspapers and magazines with differing emphasis.

The Black Panther Party Black Community News Service was created to present factual, reliable information to the people.

The Black Panther Party has been organized to serve the needs of the people of the Black community and to educate and politicize the masses of Black people, but the Black Panther Party realizes this task can only be eliminated by solidarity among oppressed people and the educating of all the people. In the news and problems of black and oppressed people in America that are dealt with in the Black Panther Party along with international news.

Platform and Program

What We Want
What We Believe

Huey P. Newton, Minister of Defense
Black Panther Party

1. We want freedom. We want power to determine the destiny of our Black Community.

We believe that black people will not be free until we are able to determine our destiny.

2. We want full employment for our people.

We believe that the federal government is responsible and obligated to give every man employment or a guaranteed income. We believe that if the white American businessmen will not give full employment, then the means of production should be taken from the business men and placed in the community so that the people of the community can organize and employ all of its people and give a high standard of living.

3. We want an end to the robbery by the CAPITALIST of our Black Communities.

We believe that this racist government has robbed us and now we are demanding the overdue debt of forty acres and two miles. Forty acres and two miles was promised 100 years ago as restitution for the killing and massacre of black people. We will accept the payment in current currency which will be distributed in our many communities. The Germans are now aiding the Jews in Israel for the genocide of the Jewish people. The Germans murdered six million Jews. The American racist has taken part in the slaughter of over fifty million black people. Therefore, we feel that this is a modest demand that we make.

4. We want decent housing, fit for shelter of human beings.

We believe that if the white landlords will not give decent housing to our black community, then the housing and the land should be made into cooperatives so that our community with government aid, can build and make decent housing for its people.

5. We want education for our people that exposes the true nature of this decadent American society. We want education that teaches us our true history and our role in the present-day society.

We believe in an educational system that will give to our people a knowledge of self. If a man does not have knowledge of himself and his position in society and the world, then he has little chance to relate to anything else.

6. We want all black men to be exempt from military service.

We believe that black people, should not be forced to fight in the military service to defend a racist government that does not protect us. We will not fight and kill other people of color in the world who, like black people, are being victimized by the white racist government of America. We will protect ourselves from the force and violence of the racist police and the racist military, by whatever means necessary.

7. We want an immediate end to POLICE BRUTALITY and MURDER of black people.

We believe we can end police brutality in our black community by organizing black self-defense groups that are dedicated to defending our black community from racist police oppression and brutality. The Second Amendment to the Constitution of the United States gives a right to keep and bear arms. We therefore believe that all black people should arm themselves for self-defense.

8. We want freedom for all black men held in federal, state, county and city prisons and jails.

We believe that all black people should be released from the many jails and prisons because they have not received a fair and impartial trial.

9. We want all black people when brought to trial to be tried in court by a jury of their peer group or people from their black communities, as defined by the Constitution of the United States.

We believe that the courts should follow the United States Constitution so that black people will receive fair trials. The 14th Amendment of the Constitution of the United States gives a man the right to be tried by his peer group. A peer group is a person from a similar economic, social, religious, geographical, environmental, historical and racial background. To do this the court will be forced to select a jury from the black community from which the black defendant came. We have been, and are being tried by all-white juries that have no understanding of the 'average reasoning man' of the black community.

10. We want land, bread, housing, education, clothing, justice and peace. And as our major political objective, a United Nations-supervised plebiscite to be held throughout the black colony in which only black colonial subjects will be allowed to participate, for the purpose of determining the will of black people as to their national destiny.

When, in the course of human events, it becomes necessary for one people to dissolve the political bonds which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and nature’s God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. That, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown, that mankind are more disposed to suffer while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government and to provide new guards for their future security.
Al Fath, does not intend to push the Jews into the sea

THE SUFFERING and frustration of the Palestinian people over the years gave rise to a new truly popular, dynamic Palestinian Liberation Movement. This underground Movement expressed the people’s belief that there can be no resolution other than through their own concerted efforts. The Movement was started in 1956 by young Palestinians during the temporary occupation of the Gaza Strip by Israeli forces.

The Movement is composed of two bodies: a political network known as “Al Fath,” and its military wing, “Al Aqsa.” Al Fath consists of all Palestinian elements and political interest groups. It strives to mobilize and channelize their potential. All its members must be able to face military duty, and have genuine faith in the struggle for independence, no matter how long it may take. They must be willing to sacrifice their lives for their country’s cause.

Members pass through strict periods of military training. They are given protection in three main ways:
1. General membership protection. The members’ rights and privileges, to voice their opinions, are guaranteed and can only be overridden by a high military court.
2. Political. The Movement takes personal care of all its members and, should need arise, provides lawyers to defend them in any court.
3. Economic Assistance. In case of imprisonment or death, “Al Fath” takes care of all the family and financial obligations of its members.

The bulk of “Al Aqsa’s” funds come from Palestinian sources, while the rest are primarily from individuals throughout the Arab World.

The armed wing “Al Aqsa,” organizes guerrilla warfare against the occupying forces in Palestine. Its first public communiqué was released on January 15, 1965, after ten warplanes had been destroyed. Rallies that cut Israeli communications, sabotaged its industries, and destroyed strategic military installations (from parap MILITARY facilities, oil wells, and economic power plants) have all been reported by these warplanes.

The purpose of “Al Aqsa” is to destroy the economic, military, social, and political structure of “Israelit,” as well as bring world attention to the right of the dispossessed, aggrieved, and displaced Palestinian people.

The basic strategy of the Movement is:
1. There should be an awareness of the Palestinian Problem from the regional, national, and international level.
2. There should be an adoption of the following credos in the context of a revolutionary framework:
   a) The struggle as the nucleus of the Liberation Movement;
   b) The unification of efforts towards establishing a supporting front.
3. It should be understood that the fight against Israel is waged on the grounds that Israel is an aggressive, expanding foe and that Israel is a confirmed child of imperialism in the Middle East.
4. “Al Fath” has and will always insist that the military wing “Al Aqsa,” in its operations, is fighting not only against any particular faith, but also against the whole system of oppression and exploitation imposed on the Palestinian people.
5. The uprising in the Gaza Strip, and the continued struggle against the militant Jewish regime which has cramped, expelled, and terrorized the Palestinian people, is an essential part of the national struggle. Israel has so far failed to serve its purpose and aggression against ever one and a half million refugees. It has left them to destitution and misery and until these refugees are back it should be understood that the Palestinians will sacrifice their lives until victory.
