EDITORIAL

That there is a new wave of urban guerillas carrying out acts of "armed propaganda" inside the confines of this imperialist, fascist racist decadent community called the United States, cannot be disputed.

Whether their ideologies or motivations differ, the techniques and the ultimate goal of destruction of the system is consistent.

Guerilla war is a radically different political reality from anything the United States has experienced. It would be incorrect for it to be misunderstood either by those who would wish to crush it and thereby attempt to curb the inevitable tide of revolution, or by those who would attempt reasonably to cope with it as a passing phase.

It is not unusual, or rather, it is in the interests of the oppressor, to deny the success, much less the reality to a guerilla movement opposing it. But this, for example, spread continual rumors that Castro was smashed to smother any when he wasn't; reports of Che Guevara's death in Bolivia were greatly exaggerated at least a dozen times before the C.I.A. could deliver a corpse to match the story. Defeat of the Vietnamese has been reported daily, when in fact they have won the war and reports of the decline of the Black Panther Party has been Community News, when in fact our ranks and support is at its highest peak.

In order to keep the people in the communities of the U.S.A. in a perpetual state of confusion, emphasis is placed on the atrocities abroad and the true perpetrators of these atrocities, the U.S. imperialists, manage to hide under the covers and demand the significance of the present occurrences. It is now getting to the point where it will not require the services of a computer to project a full scale civil war resulting from the rapidly multiplying attacks of sabotage and guerilla tactics. During March 1970 there were 62 guerilla actions against targets in 17 states. Each target was symbolic. The administration has found it necessary to define these freedom fighters and their actions by descriptive labels such as "disrupters", "a small minority", "destructive activists", "small bands of destructionists", "acts of ruthlessness", "blackmail and terror", "assaults which terrorize" and everything else except the true fact that the people are rising up in anger.

With all the resources at the hands of the F.B.I., the C.I.A. and various other agencies the revolutionary spirit of the people cannot be crushed. The Pentagon Counter Intelligence Analysis Division has a subversive data bank with 1.5 million names. The Secret Service has indices of 100,000 radical names and extensive dossiers on 50,000 revolutionaries presumed to be dangerous, this includes fingerprint files, police records, medical and personal records continued on next page.

chiatric records. It also claims to have an infiltrator in a top position in every revolutionary group in America.

Yet with this colossal Intelligence network, during 1970 there were 85 attacks on government buildings, 28 on corporations, 62 on capitall and Jackey's homes, 192 on high schools which mis-
educate, 280 on Colleges which brain-
was 423 on pig stations and 101 on military installations.

These sabotage acts outnumber those that occurred in Saigon for the same period.

The map above, compiled by Scan-

facts being told.

RACIST SLUMMORD KILLED IN RICHMOND, CALIFORNIA TRYING TO KILL TENNANT

Looking objectively at the relationship of the slumlord to his tenants, poor people in general and black people in particular, one clearly sees that the last thing the slumlord has in mind are the living conditions of those who live in the dwellings he rents, instead of making the necessary repairs that would make day-to-day living more comfortable for his tenants, the slumlord is only interested in making a profit by collecting rent which he does not deserve. Black people are subjected to slumlord who rent until housing and who have been wronged enough in respectable Black people as human beings.

If one correctly analyzes the situation he will conclude that the problem must be eliminated of things are to get better. If a slumlord does not take the interest of his tenants to heart, he will only want his tenant's money for living. If his interest is not to get his tenant's money then his interest is to eliminate the problem by snuffing out the tender dog's life. Jack Swan was such a slumlord. Donald Baston eliminated the problem.

One day in late November, Donald Baston's girlfriend, Johnnie Pennington, returned to her house only to find that her son was unable to enter. However, at the same time Mrs. Swan, the racist wife of the slumlord, and an apartment jeep driver (one who determines how much a hoarder's rent is) and a little boy were inside of Johnnie's house. This is a crazy situation. The two of them had gone to the house. Mrs. Swan had put the boy through a window and had got the key let her and the apartment inside.

When Johnnie saw what was going on she immediately saw that she was in for an explanation. The racist response, by calling the stinger "idiot", and made other derogatory remarks. At this point Johnnie jumped up and hit the immediate racist and showed her that she (Johnnie) would not accept the words or actions of the racist.

Determined to get revenge Mrs. Swan tried to file charges against the sister but she soon found out that nothing could be done by the pigs because of the seeming continuity on the stinger's property. So the Swans told the house and had a real talk with Johnnie and Donald that they said that they would have to move by the end of the month.

As the Swans were talking to the pigs the Swans were talking to Johnnie and Donald about the things that would be done with the house. This was a little brother from the neighborhood who would come to see her about the window out of the apartment.

On Monday, December 9th, racist slumlord, Jack Swan's drum, was outside of Johnnie Pennington's window. He was in a shirt and a knave. He was asking a little brother from the neighborhood who would go to the window to see her about the window out of the apartment. So the Swans were talking to Johnnie and Donald about the things that would be done with the house.

On Wednesday morning, Mrs. Swan, painting the house, she has since longer invited the house Donald Baston to go to talk to the racist.

REES DRO DRUG STORE NEW HAVEN, CONN. SITE OF FASCIST BRUTALITY AGAINST THE PEOPLE

On Saturday November 29th, about 5:00 P.M., Mrs. Irvyn Coleman, her son Stanley, 4 and Mrs. Essie Anderson and her daughter Chery, were to Reese's Drug Store on the corner of Washington and West Street in New Haven, to buy a dozen of cards and some tobacco. Mrs. Coleman asked the store owner's wife, who worked behind the counter if the bag of potatoes which had been paid for, had she given the officer and wanted to be sure that he had paid before they left the store. The store owner's wife, Mrs. Reese, asked if Mrs. Coleman had paid for the potatoes, which had been paid for. Mrs. Coleman's daughter bought a box of hairpins to defend herself, Mrs. Reese pulled a hand gun and pointed it at her saying: "Do you want me to shoot you?" Then the avenging housemaid called the racist's New Haven pigs for assistance.

By this time, there were five pigs, a detective in the area because the people had heard what happened elsewhere in the city. The pigs were all over their house. Pig Reese has reportly died of a gun shot wound to the face from November 29th.

Last September they were apprehended for murder by the Free Breakfast Program for Children and refused to dance. It's supposition that their only interest is money.

Pigs number 3 of the Black Panther Platform and Program means that "We want an end to the robbery by the capitalist of our Black community."

We must begin to implement nonviolent programs to empower such pigs as Reese with the protection of armed police do not and must have no power to outbreak a forcible consequence.

All power to the people.

WHITE RACIST ATTACK HUSBAND AND WIFE

In a trailer camp, on Old Greenbush Road, about 6:00 P.M., the occupants are both black and white. The children were playing in the street when they heard a noise. When they looked up, they saw two pigs, one black and one white, approaching them. The two pigs were fighting, with one of them pushing the other to the ground. The black pig was much larger than the white one, and it seemed as though the white pig was in trouble.

The black pig was about twice the size of the white one, and it was making a loud noise. The white pig was smaller and seemed to be struggling to get away. The black pig was gripping the white pig's neck tightly, and it appeared as though it was going to strangle it.

The situation was very tense, and the children were very frightened. They ran to their parents, who were nearby, and asked for help. The parents quickly intervened and tried to pull the black pig off the white one. The black pig was very strong, and it took a lot of effort to get it off the white pig. Finally, the black pig let go, and the white pig was able to escape.

The parents then called the police, and they arrived a few minutes later. They took the black pig to the police station, where it was put in a pen. The white pig was released back into the trailer camp.

The parents were very upset, and they felt that their children had been put in danger. They wanted to know why the pigs had fought, and they wanted to know if there was anything they could do to prevent it from happening again.

The police officer told them that the black pig was known to be aggressive and had been involved in several fights in the past. He said that the black pig was likely to become violent when it was provoked or threatened.

The parents were disappointed, but they were also grateful that the police had intervened. They said that they would be more careful in the future and would try to keep their children away from the black pig.

The black pig was returned to its owner the next day, and the owner said that it was on prescribed medication and would not normally be aggressive. The owner said that it would be kept under closer supervision in the future.

The parents were relieved to hear this and felt that their children were safe. They thanked the police officer for his help and said that they would be more careful in the future.

CHILDE DR BRUTALIZED BY RACIST PRINCIPAL IN WINSTON
SALEM, N.C.

Educational principal at Jamoon Elementary School in Winston-Salem, N.C., brutalized Black students in his classroom. His explanation: “Not my fault. They brought their own business with them.” The principal’s lawyer couldn’t disagree with the charge, so instead all he did was plead guilty to the charge of assault. Judge Elyon Haywood, who is also a racist pig told the lawyers that the principal or prin-
cipal had the right to beat a student, and that he had all reasonable force or the force that is necessary to make a student go in the right man-
erly way.

The case was then dismissed, and these children did not get

United Front of Cairo Information Service

"When I say we're going to kill him, I mean we're going to kill him. A statement by the Mayor of Cairo. Pete Thomas was the obvious man for the police chief in downtown Cairo, Saturday, December 5, when his words were powerful and forcefully picketing the downtown business district. The Black Community remained peaceful and strong with picketing activities, including White vigilantes local and county police and civilians riding motorcycles and firing sirens inside rounds of ammunition from rifles, .22's, and hand-guns at all the heads of Black forces. Black forces were also arrested, including United Front Chief of Staff James Chatter, who was also arrested in a Cairo hospital after a Whitechapel depot had shot the three out in the car he was driving. This caused injuries to Chatter as his car hit a tree. Police relationsman was named. Mark D. Harris was also arrested as he walked towards the spot where, Sherman Pickford being chased by about seven Cairo policemen.

Chatter was arrested for a second time and was again arrested in a Cairo hospital after a Whitechapel depot had shot the three out in the car he was driving. This caused injuries to Chatter as his car hit a tree. Police relationsman was named. Mark D. Harris was also arrested as he walked towards the spot where, Sherman Pickford being chased by about seven Cairo policemen.

Whittingfield was the first Black man arrested shortly after picketers arrived in the movement. Three policemen exclaimed: "Here comes that damn Whittingfield." Let's get him. As they moved in they were joined by several other policemen who began picking up Whittingfield and tossing them into the back of the police car.

Another two score or more rounds were fired by police. All of the policemen carrying Black forces were stopped by a foot patrol and vehicles searched and then the personnel were beaten in the all-white police station.

This obviously unprovoked and improved attack on Blacks exercising their constitutional rights gives more credence to a statement made by an employee of the city: "Things won't get better until they kill someone. You guys would do all of us a favor if you'd kill Charlie Con." It also supports the conspiracy which has developed a contract on the life of the Rev. Koen who is executive director of the Front.

The White merchants are hurting. They have along with other Black leaders, ordered the police to stop the picketing by killing us if necessary. This conspiracy to kill is going all the way to: "We have no more rivers to cross." We are on both banks of that river in Cairo. Our hat is in the water. White hats are with by clubs, guns and armored cars are not with us. We will picket. We will march. We will canvass. We will defend ourselves until victory.

Rental a Pigs in the Hunters Point Area (California)

Mayor Alley and the head butchers of San Francisco have set up a program for radio stations without guns to watch other nuggets without guns to unwin, and in case of incident to call the San Francisco Pig Department. In Hunters Point they have hired many of the so-called "bad actors," as uniforms and badges on them, and turned them out to patrol their own people. They ride around in gold station wagons and actually believe that they are a service to the community. One young brother told me that the reason that he took the job was because they told him he wouldn't have to go to the army. He said that his idea was to see if the little kids didn't break all the red color red windows or tear up the garbage screen projects.

Many of the brothers who have their jobs, have in the past had a series of close calls with the San Francisco Pig Department and were key in the rebellion of 1967 after the murder of innocent Matthew Johnton by the pigs. It is obvious that this is a pacification measure to kill the people about the projects getting better and more jobs being made available. By throwing snitches and demises at them as eye spacers, while the community still suffers from farm, income, housing, longer and inadequate schools, the pigs have put potential freedom fighters in a position to inform on the community.

In the job of these guards to ask and the San Francisco Pig Department to help the community of Hunters Point. We can say to these men a pig that they should be glad that they don't have any guns because the people of Hunters Point would murder them.

The Case of Irving Ochika Young Proves Once Again That Justice is Ignored

Historical experiences in Illinois has taught that no Black person can receive true justice in the courts. Four members of the Black Panther Party have been in the last year and a half experienced mass arrests of its membership. In every case, the outcome of these arrests was a large number of people being charged with murder, conspiracy to commit murder or other related charges.

Around April 30, 1970, seventeen people were arrested in Baltimore, Md., for murder, murder, kidnapping and robbery. All of the seventeen were either Panthers or Panther sympathizers. They were charged in the July 12th, 1969 shooting dead of 20 year old Eugene Leroy Andon, in Lasleys Park. As in all murder cases involving Panthers, the slanderous accusation for the killing of Anderson was suspected of being a police informer.

The first of the defendants to go to trial was Irving "Okla" Young. Okla's trial began and ended in less than six days. The first day, in 3 1/2 hours, a jury for a murder trial was chosen from a panel of less than 50 jurors. Present in the courtroom during the jury selection were the prosecution and defense attorneys, the jury panel and about 40 plain clothes pigs. The ten women and two men who were selected are all white and in their mid-thirties to fifties.

All of the state witnesses (including ex-Panther members) were called to the witness stand, cold and calculated testimony against Ochika. It was brought out that although the murder of the signet victim was found in October, the defendant was not arrested until 11 months later because the prosecution needed that time to build a solid case. At the close of the prosecution's case, Hildy D. Capain, prosecutor, brought the jury to sleep two men in a long argument praising the 'victim'. On the other hand, he indicted without mercy, Ochika Young for first degree murder.

The second day, the case for the defense began and on the third day the jury went out. After an hour and a half of deliberation, the jury returned a verdict of guilt in the first degree.

Irving Ochika Young is now in a convicted political prisoner. At this point in history, his sentence is an example of how the injustices experienced in the fascist courts and pig pens have attack all black people and particularly the Black Panther Party that if we want freedom we have to fight for it. Liberate all political prisoners.

WALTER A. WILLIAMS
NEGRO SPOKESMAN IN BERKELEY DISTORTS COMMUNITY CONTROL OF POLICE INITIATIVE

In April the community control of police initiative passed in Berkeley. The initiative placed the police power on the municipal ballot. Because over twenty thousand signatures were initially secured to get the initiative on the ballot, the Berkeley power structure has been attempting to sabotage the police initiative by misleading and stigmatizing those who want Negro involvement.

With the help of the fascist Berkeley Guardian, the police and local landlords are spreading an anti-busing campaign by attacking Negro children in blackface. With the pseudo-results of the initiative, the Berkeley police are trying to make it appear that a large percentage of the community support them.

The initiative, which was passed by a majority of the voters, was the result of the second year of struggle in the school boycott. The boycott is a part of the community control of school initiative which is now coming to grips with the school board.

The Negro community has been affected by the police initiative as much as any other group. The initiative has been taken over by the police and white community.
We Can’t Wait: A Day of Action

In four hundred years of the existence of black people in this country, there has been only one consistent struggle for survival, the four days of chattel slavery, up to the present day, with its beatings, its food, its imprisonment, and its murder having plagued the masses of us ever since. During the period of chattel slavery and the struggle for freedom was man constantly fighting the time of the underground railroad was not a pass-up day as Negro Spirituals by beating the bonds of slavery. The people were songs and music that were used to glut the world with the need to get to the people that the need was there. They were in religious code only to free the slaves and the political leaders overcame. After the period of chattel slavery and the reconstruction until the long chain of tricks and lies of the power structure and the open hostility of the racist society act the stage for the birth of the Black Panther Party. Black people were, of course, left out. The absence of political reforms and race consciousness in many white people black people were always left behind. On the other hand, the blues was born. The music of a weary and confused people.

At the turn of the century, before the war, everything was fairly becoming industrialized. With the advent of new electrical devices such as the radio and phonographs, a new industry was born—radio, and the music industry was created. The effect of the blues on the Negro was an unexplored area by profits for the power structure. After the "war to end all wars" black people returned to find that they had been once again used by the government. The new freedom promised was never delivered and revolution came. Black people took to the streets in just protest to the injustice that was handed out by the racist U.S. Government. There was as visible black political leadership and reconstruction, so the culture reflected confusion and disappointment. The music of the Lumpen was still the Blues.

By the thread the days came and the new day with the new promises and few jobs, the new society was formed. It was still politically mesmerized and in the background of the problems facing oppressed people. It’s significant to note that during the time, the Lumpen began, with Sammy Davis Jr., their domination of black entertainers and the music industry took place.

With the Civil Rights agitation of the late fifties and early sixties something new was added—a strong sense of nationalism—"Black Power:" It’s the Afro-American, the Guevara of the Lumpen. "We’re a Winner," said El Negro, Black "I’m Proud!" the Lumpen and other avant-garde project producers had even made it into a hit song to sing some "black" record.

At first the people supported these early efforts as a political gesture. But James Brown and all the others exposed themselves to black bootlickers, popping off the people’s struggle and not really paying any attention to making money. With the growth of this Black Panther Party and the struggle for reconstruction, the black and oppressed people in the U.S., the South American revolution, the street songs no longer pacified the lumpens on the street. Although the petty bourgeois cultural nationalists still relate to them.

So the Lumpen controlled entertainment any political or social line movement to sing about. James Brown is now running around singing "America in My Home." A nation in the song. And many Lumpen controlled Motown artist has put out a peace song.

As the revolution struggle across the country it could take a form-taking a revolutionary culture. A culture that is against the social and economic structures by man on any level. A culture on the revolutionary harmonica. Those that play them are victims of another fascist attack. But we must realize that pigs are not the only sufferers in uniform who patrol our communities, but they can also steal our uniform and work to stores, airlines, etc. We must oppose all the impositions of fascist establishment, knowing that to change one, the entire existing structure must be transformed into one that will meet the needs and desires of the community. The American Airlines is only part of the same power structure that is keeping our people without food and clothing. When people try to secure even basic rights, having constitutional status, the fascist myth on them as usual.

The people that had boarded that plane had come over 3,000 miles to join with other people in adopting a Revolutionary People’s Congress. They had come to Washington to adopt guarantees for our freedom, peace and happiness. And because they came, the temporary authority of the land did everything possible to stop them.

Howard University, the super-all-stars-college, wanted their students, the day before the convention was scheduled to begin, the use of its facility. But the people were not going to take it. Howard University's President P. Newton meant when he said that even a revolutionary convention is only a place of peace on which words are written, but that it will be the revolutionary people present who will change the lasting changes necessary for our freedom and happiness. We meet these words written by and for all the people. We will come together again. Now nationally and internationally, and we will write programs to survive to that day. Only then will we be able to give you a message. Only then will we have our guarantee.

DELEGATES TO THE R.P.C.C. DENIED PASSAGE ON AIRLINES

The Capitalists of the transpacific air carriers have written the rule, in the fascist and racist U.S. system of government today November 19, 1970. At Oakland Airport in Virginia, just outside of Washington, D.C., the Airline Administrators with the support of local and federal pigs, isolated those acts by employing absolutely denied 14 delegates of the Revolutionary People’s Constitutional Convention, the delegates, inspired by the demands of the Defense and Supreme Commander of the Black Panther Party, Huey P. Newton, boarded the airport mobile lounge at 5:50 PM. Excluded and making plans to accompany the delegates. When the delegation reached the airport, the delegates were unceremoniously met with the hostility and rudeness of American Airlines agents. At 5:52 PM one sister of the 15 members of the original 25 who flew from Los Angeles was coming toward the bus carrying the previous delegation. A flight departure was 5:55 PM, the cracker pig in full knowledge of the facts that the bus was outside, maliciously closed the doors.

Once aboard the plane, the delegates were faced with other horrible acts by these same Capitalist pigs. The stewardesses became highly emotional and rude. When a few were questioned, one of the stewardesses actually gave us a physical blow. The American Airlines flight was leaving for Los Angeles at that right and the other airlines had followed suit, by not allowing space which further provoked the situation. The plane had been pulled out by the American Airlines lounge and surrounded by Virginia State troopers and F.B.I. agents. By 5:03PM all the 14 people on the flight were put under the cloud. American Airlines flight were leaving for Los Angeles at that right and the other airlines had followed suit, by not allowing space which further provoked the situation. The plane had been pulled out by the American Airlines lounge and surrounded by Virginia State troopers and F.B.I. agents.

This communiqué is being written out of necessity, not desire. Because of the justifiable deaths of many and other oppressed peoples I find it impossible to ignore the following methods of the Police surprise and right raids, carried out inside the apartment raids tactics upon the approach of your homes, etc.

In order to understand the need to protect your homes against the harassment from occupying troops.

I. Raid Principles
Wherever possible police raids are carried out without warning and at such times as will be complete surprise to the raided victims. (i.e., raided on Chicago Police Station; 4/8 at 3 am). Fred Hammond was murdered there. The Police must be held by us as legitimate, which is the determination of the raiding force. Therefore all those at the airport and the airport in the area are facing the combined forces of the State and Federal, State, and city police. It requires skillful execution.

II. Raid Command and Personnel
The raid commander, once chosen by the committee and the raid command, junto with his committee, informs the raiders and his committee and the raiders about the operation to be carried out. This must be done by telephone or radio, and in the event of an emergency, any communication must be done on a one-to-one basis. The raid commander must be prepared to take over the lead in the event of the raid command's death or arrest.

III. Raid Planning
Many factors must be considered in planning a raid. These include the location of the raid, the number of raiders available, the availability of weapons, and the time of day. The raiders must be trained in the use of weapons and tactics.

IV. Raid Execution
The execution of a raid is critical to its success. The raiders must be able to work as a team and to follow the orders of the raid commander. They must also be prepared to fight off any Police counterattacks.

V. Raiders' Rights
The raiders have certain rights under the law, which must be protected. These include the right to a fair trial, the right to counsel, and the right to protection from unreasonable search and seizure. The raiders must also be trained in self-defense.

VI. Conclusion
The raiders must be prepared to face the Police, who are armed and trained in the use of weapons. The raiders must be ready to fight off any Police counterattacks and to protect themselves from the Police. The raiders must also be prepared to face the consequences of their actions, which could include arrest and imprisonment.

LUTHER OLDHAM AND RICHARD JOHNSON
VICTIM OF OAKLAND PIGS!

Black people of West Oakland very seldom find time to talk away from the constant struggle for survival, their suffering is continuous, little money, no jobs, no power to fight. The constant raiding of the illegal organizations and the black community. The police have been responsible for the death and destruction of many people. They are humanizing and deadly.

Last fall two young Black from Oakland, Black Freedom Front, were killed by the Oakland Police Department. After the arrests and police brutality, the people of Oakland, Luther Oldham, age 31, and Richard Johnson, age 19, had indications of the police and other oppression against the community. They hoped to organize a film to show the situation, and they were invited by some of their friends to participate in the film. They were arrested and charged with inciting to riot, but it was later revealed that the police had planted evidence against them.

The police have used a tactic of false arrest to suppress the community. They have arrested people and then released them, knowing that they have no chance of being found guilty.

The raiders must be prepared to face the Police, who are armed and trained in the use of weapons. The raiders must be ready to fight off any Police counterattacks and to protect themselves from the Police. The raiders must also be prepared to face the consequences of their actions, which could include arrest and imprisonment.
REPORT ON THE TRIAL OF CHAIRMAN BOBBY SEALE AND ERICKA HUGGINS

December 7, 1970

Fourth panel now exhausted.

Today 25 candidates were examined and 21 were excused for what are becoming very familiar reasons: specifically,

- because of prejudice against the Forty of defendants
- because of exposure to pre-trial publicity
- because of harassment
- because of opposition to the death penalty.

The juror chosen is a 40-year-old black woman who works as an Air Force representative. She lives in Waterbury and reads the Waterbury American, but says that she does not know much of anything about the case and has no opinion.

A young black woman who had been chosen was excused today. It was decided among the attorneys in the judge's chambers that she should be excused, and no reason was publicly given.

The two most prominent white people to take the stand so far have been Mr. Robert Garfield, a constitutional lawyer, and Mr. Samuel Sterne, a civil rights activist. Mr. Sterne used peremptory challenges on both of them. The first was a juror who had been selected from the pool of candidates and referred to himself as "your Honor," to which Garfield said, "I'm standing up for what you want," and said that although she did not believe in capital punishment, she did believe in "society," in making people know how you feel. At one point, she said, "When I am to court the other day, I didn't think of either of the defendants as human beings; they were just disrupting my time, but now that I know that they are men, they are people, just like me." Although she said that she had some opinion and that she would say no capital punishment, Mrs. Sterne, predictably, excused her. The next juror selected was a married white woman who said that she has gone to a Panther rally to "hear the man from the bar of the month." She knows about the O.A.P. Program, and said that she did not like the Panther's ideology, for her questions, as she should have said no opinion, for she cannot consider the death penalty, but she would, she was reluctant to consider the death penalty, but she would, she was reluctant to consider the death penalty.

On the 25th day of the trial, Judge J. Edgar Hoover ordered the trial to be continued until January 3, 1972, "to do the full work of the trial." Nearly all of the film of the 27-page report concerns the opinions of Mr. Hoover, because the only elaboration of his calling them "lies, half-truths, and in America," which he did during the jury selection of Lonnie's trial.

Seventeen jurors were examined and excused today. The defense used peremptory to eliminate 13 jurors.

Fifth Panel Examined Still Only Three Jurors

About 20 people were questioned and excluded for the mythical "fair and impartial" jury goes on. Nearly all were excused because of prejudice. The defense used three peremptory challenges bringing their total count to 46, and a number of other cases, "to do the full work of the trial." A BROTHER IS DYING IN THE BLACK COMMUNITY OF THE U.S.A. BECAUSE OF APATHY; IT’S THE SAME AS IF YOU WERE IN THE BLACK COMMUNITY OF SOUTH AFRICA

Carbondale, Illinois

On Monday, November 3rd Grayson Whitehead, bothered by severe headache pains called the University Health Service to make an appointment. He was unable to get one. Tuesday he was able to get an appointment, but was only given narcotics and tranquilizers. Wednesday morning the pain had become so intense he woke his roommates with screams and screams. He was rushed to the Health Service at about 5:30 a.m., and the nurse denied him immediate emergency entrance because she said it was not serious enough to disturb the doctor. From 6:00 a.m. until 7:30 a.m., Grayson was denied admission to the Health Service and treatment. As a result from being turned away from the Health Service the brother had to seek refuge in the Kappa House in pain until the Health Service opened at 8:00. Furthermore, the brother didn’t get a chance to see a doctor until 10:00 a.m.

Grayson was admitted to the Health Service for observation at 10:00. At this time Grayson was still comatose. The doctor then diagnosed his case and sent him to the hospital. The doctor did not diagnose just a headache and gave Grayson some aspirins and sedatives to keep him sleeping. The interesting thing about this diagnosis is that he had been in his possession Grayson’s medical record, consequently, they knew that the brother had been in an auto accident this summer (August) and that he had been admitted to Carbondale Hospital and later to Doctor’s Hospital. The doctors in Carbondale Hospital are in favor of the former but have not assisted Mrs. Whitehead in getting the necessary medical equipment needed to support him.

On Monday, December 7 Grayson had not regained consciousness and there was a 50% chance that he will never live. It continued to grow worse and his symptoms would go into shock, infecting and paralyzing the body. And this led to his exact diagnosis.

On Monday, December 7 Grayson was advised by the doctors to leave the hospital and he died on December 11, 1970. This was no surprise but rather a case where the work of the Vanguard must be intensified. A clinic sponsored by the people of Carbondale has not been opened. At present people can receive free medical attention on Mondays and Wednesdays from 6 p.m. to 8 p.m. Payments are urgently needed so that the clinic can function daily and our revolutionary ties might be used in order to free our people from oppression.

LUMUMBA AND KINSHASA OF THE NEW YORK 21 INDICTED
FOR NEW YORK PRISON REVOLT

The conditions in which Black people, Puerto Rican people and other non-white people are forced to live in New York City are far worse than anything the world has ever known. The city is a prison, with a population of over 8 million, serving as a dumping ground for the poor. The conditions in the city's jails and prisons are cruel and unusual, and the police are brutal and oppressive.

In Lumumba, several people were killed, including a young child, and many more were brutalized. The police were called in to quell the riot, and they used tear gas and bullets to disperse the crowd. The next day, the city was in chaos, with looting and violence.

In Kinshasa, the situation was even worse. The police used tear gas and rubber bullets to disperse the crowd, and several people were killed. The city was in a state of civil unrest, with many people afraid to leave their homes.

REVOLUTIONARY PARTY FOR REUNIFICATION IN SOUTH KOREA

RESUMPTION OF PUBLICATION OF ITS POLITICAL ORGAN

Introduction by
Connie (Mathews) Tabor

"Hyomyong Choson" is the political organ of the revolutionary people of the Southern community of Korea. The imperialist aggressors and war-ringers have tried to apply the same devious methods to stop publication of this organ, as they have attempted to do with the "Black Panther," the political organ of the Black community here in the U.S.A.

The communities of the world will not be intimidated. The revolutionary spirit of the people will always overcome such obstacles. We will find ways and means to educate the oppressed peoples of the planet earth.

In the true spirit of internazionalism, we bring to the attention of our community, the plight of our comrades in the Southern Community of Korea and introduce the first article of their new (resumed) publication.

IRANIAN PEOPLES FIGHT AGAINST THE SHAH'S REGIME

The Iranian people's heroic fight against the Shah's fascist regime and the U.S. imperialism is momentous. As the peoples struggle mounts, the Shah's regime terror has increased. In February, 1,000 people were arrested, several killed, 600 injured and 200 are still in jail as the result of the June 24th rebellion. Nevertheless, the Iranian masses have continued their heroic struggle against the Shah's terror. Witness to this are the three successful hijackings to Iraq in the last few months. All of the hijackings made political demands on the Shah's regime. The hijacking of one of the Iranian planes claimed that their fight was not against the Shah's new attacks on the people and the Shah's ploy reforms in Iran i.e., the "Military Revolution." Other hijackers demanded political demands on the Shah's regime. The hijacking of one of the planes demanded the release of political prisoners some of whom were arrested for attempting to cross the border to join the Palestinian Revolution. The other hijacking was instigated by the students against the Shah's regime. The hijacking in the struggle were high school students at the University of Tehran. Hundreds of students went on strike to protest against the Shah's regime's attempts to control student life. Several hundred students were arrested. In the struggle against the Shah's regime, tens of thousands of workers in the northern and southern parts of Iran have risen up in a struggle against the Shah's regime and against the u.s. imperialist oil industry in fighting against a wage decrease.

Verified by the growing struggle, the Shah's regime neither the people's resistance with its brutal force nor increased arrest, brutality, torture and murder.

The Shah's regime does not confine its terror and harassment to Iranian. It has stepped up its attacks on the members of the World Confederation of Iranian Students in Europe and the U.S. An anti-imperialist and democratic organization devoted to the struggle of the Iranian masses has unseated the Savak dogs and they are now facing death sentences for their attempt to cross the border to join the heroic struggle of the Palestinian people.

The Shah's regime does not confine its terror and harassment to Iran itself. Both men are now undergoing violent torture in the Shah's dungeon. Four of our brothers are now facing death sentences for their attempt to cross the border to join the heroic struggle of the Palestinian people.

At this moment of history we recall the great historic event when the patriotic fighters and personalities who are concerned about the destiny of the country founded the Revolutionary Party for Reunification, holding aloft as the avant-garde banner Kim Il Sung's thought, the greatest revolutionary ideas of this time.

The Revolutionary Party for Reunification, which has traversed the road of ordeals and exploits recorded a history of bloody resistance as the vanguard of revolution and the standard-bearer of the popular movement. Our Party has been a beacon which has enlightened the masses and pulled through the death line in this course, suffered painful losses under the barbarous despotic rule of white terror. But in the crucible of battle, the spinal cord of the Party has grown strong and its ranks have grown to thousands, ten of thousands strong.

The raging winds and waves and trials wrought with difficulties have further spurred the advance of our Party. As the Party has suffered, it has grown stronger, more unified in the annals of revolution. In the course of time, we were compelled to temporarily suspend publication of the paper owing to the frantic fascist suppression by the U.S. imperialist aggressors and the Pak Jung Hi fascist clique—the heinous fascist dictatorship of the masses of the people.

But, as there can be no interrup-

tions or standstill in history, so the historic advance of "Hyomyong Choson," born of the storm of the great revolutionary age and dyed with the red blood of comrades-in-arms, came to see light again thanks to the strenuous efforts of our Party members and the active support of the masses of the people.

We have recalled the teachings of Comrade Kim Il Sung, the outstanding Leader of the revolution and the supreme revolutionary thinker of the nation.

"Where there is exploitation and oppression there is the resistance of the people. It is inevitable that the South Korean people should fight against the oppressors for their freedom and liberation."

A just revolution is inevitable in South Korea. Revolution, a natural product of the broad basic foundations of the South Korean society, is maturing rapidly in the contradictions of reality, making the upper, ruling circle tremble with fear. The present moment is pregnant with great revolutionary upsurge and the militant call for revolution.

The split into the North and the South, forced by outside forces in the mid-1940's has still not been brought to an end even today when the 1970's has set in. This land, South Korea, towered over by the U.S. and Japanese imperialists, has become a foreign land, not Korea, and has been reduced to dependency on the aggressors.

Liberty and democracy have been stifled in the tightly-closed prison of South Korea. The lot of constant continued from last page.

ON THE FOUNDING OF THE ANTI-JAPANESE GUERRILLA ARMY AND THE INTENSIFICATION OF THE ARMED STRUGGLE
PART II

In the latter period of Japanese imperialist rule, the Chinese Communists, guided by the Marxism-Leninism theory, organized the armed struggle in all parts of the country as the sole means of the revolutionary people's struggle against the Japanese imperialist, and the means to mobilize the masses and prepare for a future national revolution. This strategical measure, in the context of the evolution of the revolutionary situation at the time, played a significant role in the national liberation struggle.

The founding of the anti-Japanese guerrilla army was in the process of the mobilization and organization of the Chinese masses. This movement, however, was confronted with numerous difficulties, and was threatened with failure.

In the course of the struggle, the anti-Japanese guerrilla army, under the leadership of the Communist party, was strengthened. The strength of the guerrilla army, however, was very limited, and was limited to 100 to 200 men, with few weapons. The anti-Japanese guerrilla army was not able to attack the Japanese imperialist army directly. It was necessary for the anti-Japanese guerrilla army to develop and domesticate the armed struggle.

To rally the masses behind the guerrilla army, and to prepare for the future national revolution, the Chinese Communists carried out a large-scale organization work. This organization work included the liberation of the people from the Japanese imperialist, and the mobilization of the masses to the anti-Japanese guerrilla army. To hinder the progress of the anti-Japanese guerrilla army, the Japanese imperialist army used all its power to hinder and destroy the development of the anti-Japanese guerrilla army. The situation was very tense.

In the course of the struggle, the anti-Japanese guerrilla army was continually strengthened. In the course of the struggle, the anti-Japanese guerrilla army, under the leadership of the Communist party, was strengthened. The strength of the guerrilla army, however, was very limited, and was limited to 100 to 200 men, with few weapons. The anti-Japanese guerrilla army was not able to attack the Japanese imperialist army directly. It was necessary for the anti-Japanese guerrilla army to develop and domesticate the armed struggle.
What We Want
What We Believe

1. We want freedom. We want power to determine the destiny of our Black Community.

We believe that black people will not be free until we are able to determine our destiny.

2. We want full employment for our people.

We believe that the federal government is responsible and obligated to give every man employment or a guaranteed income. We believe that if the white American businessmen will not give full employment, then the means of production should be taken from the businessmen and placed in the community so that the people of the community can organize and employ all of its people and give a high standard of living.

3. We want an end to the robbery by the CAPITALIST of our Black Community.

We believe that this racist government has robbed us and now we are demanding the overdue debt of forty acres and two miles. Forty acres and two miles was promised 100 years ago at restitution for servitude labor and mass murder of black people. We will accept the payment in currency which will be distributed to our many communities. The Germans are now aiding the Jews in Israel for the genocide of the Jewish people. The Germans murdered six million Jews. The American racist has taken part in the slaughter of over fifty million black people; therefore, we feel that this is a modest demand that we make.

4. We want decent housing, fit for shelter of human beings.

We believe that if the white landlords will not give decent housing to our black community, then the housing and the land should be made into cooperatives so that our community, with government aid, can build and make decent housing for its people.

5. We want education for our people that exposes the true nature of this decadent American society. We want education that teaches us our true history and our role in the present-day society.

We believe in an educational system that will give to our people a knowledge of self. If a man does not have knowledge of himself and his position in society and the world, then he has little chance to relate to anything else.

6. We want all black men to be exempt from military service.

We believe that black people, should not be forced to fight in the military service to defend a racist government that does not protect us. We will not fight and kill other people of color in the world who, like black people, are being victimized by the white racist government of America. We will protect ourselves from the force and violence of the racist police and the racist military, by whatever means necessary.

7. We want an immediate end to POLICE BRUTALITY and MURDER of black people.

We believe we can end police brutality in our black community by organizing black self-defense groups that are dedicated to defending our black community from racist police oppression and brutality. The 14th Amendment to the Constitution of the United States gives a right to bear arms. We therefore believe that all black people should arm themselves for self-defense.

8. We want freedom for all black men held in federal, state, county and city prisons and jails.

We believe that all black people should be released from the many jails and prisons because they have not received a fair and impartial trial.

9. We want all black people when brought to trial to be tried in court by a jury of their peer group or people from their black communities, as defined by the Constitution of the United States.

We believe that the courts should follow the United States Constitution so that black people will receive fair trials. The 14th Amendment of the U.S. Constitution gives a man a right to be tried by his peer group. A peer is a person from a similar economic, social, religious, geographical, environmental, historical and racial background. To do this the court will be forced to select a jury from the black community from which the defendant came. We have been, and are being tried by all-white juries that have no understanding of the "average reasoning man" of the black community.

10. We want land, bread, housing, education, clothing, justice and peace.

And as our major political objective, a United Nations-supervised plebiscite to be held throughout the black colony in which only black colonial subjects will be allowed to participate, for the purpose of determining the will of black people as to their national destiny.

When, in the course of human events, it becomes necessary for one people to dissolve the political bonds which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and nature’s God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness.

To secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed. That, when any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly, all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.
