ISRAELI AGGRESSION

In June, 1967, Israel screamed that Egypt launched the attack that began that six-day war. However, when the infamous deed was done and Israel's troops stood firm on Egypt's Sinai and Syria's Golan Heights, Israel freely admitted that the initial attack was launched by Israeli forces. The aggression was justified with the claim that Egypt and Syria were about to launch an attack on Israel. Again, this week, Israel claims Egypt and Israel struck first.

However, five more reports of fighting came from Egypt at least two hours before the Egyptian crossing of the Canal. Those reports said Israeli air strikes had begun on the Red Sea resort town of Atqah, 30 miles south of the southern end of the Suez Canal. Further, the attack came as Egyptians, Syrians and Moslems throughout the world are celebrating the "Holy Month of Ramadan," 30 days of total abstinence of food or liquid from sun-rise to sun-set, a required religious period of purification. In Moslem countries such as Egypt, Syria, the entire machinery of state operates at about half capacity during these 30 days.

Throughout the history of the Middle East conflict, the Zionists before 1948 and the Israelis since, have in every major instance of military confrontation from the aggressors. The ever-expanding map of Israel is the clearest evidence of this fact. (See Map page 14). Before 1948, it was the military/terrorist units of the Jewish Brigade, the Haganah and the Irgun and Stern gangs. Since 1948, it has been the Israeli Army.

The current aggression can best be explained as an Israeli attempt to regain support and sympathy from the nations of the world. With the exception of the U.S.A., the world wide disassociation with Israel has grown by leaps and bounds in the recent years. The decision by Austria a week ago to close the center for Israeli immigrants in that country is the most recent expression of this trend. The repeated condemnations of the Israeli government by the United Nations and the clearly pro-Arab stance of the Algiers Non-Aligned Nations conference last month are the most dramatic.

This disassociation arises out of Israel's adamant and arrogant refusal to withdraw from Egyptian and Syrian territories seized in the 1967 "blitzkrieg," as demanded by the unanimous vote of the United Nations Security Council in its resolution of November 22, 1967. There is no other path to peace in the Middle East. The Arab peoples have no choice but to defend their territories from further usurpation.

THE GLASS HOUSE TAPES
BY THE C.R.I.C. AND LOUIS E. TACKWOOD

The Glass House Tapes is the story of U.S. secret police in operation in Los Angeles, California. Louis Tackwood, Black ex-agent provocateur reveals the behind the scenes activities and totalitarian methods employed against people's movements.

This excerpt describes the initial meeting between Tackwood and the Citizen's Research and Investigating Committee (C.R.I.C.) which recorded his story.

PART 2

Marilyn Katz stood waiting in front of the Union Bank across the street from the Wiltern theatre, her rendezvous point with Tackwood. The marquee announced some obscure horror flick, but the line was filled with people escaping the heat and boredom of the day.

Whether the hell are they, she wondered. They're half an hour late now! I wonder if it's a set-up? She had dressed inconspicuously for the meeting, changing from her usual costume of faded jeans and shirt to the uniform of the secretaries of the world-fedress, stockings, et al. She wanted to look no different than the hundreds of other women passing that corner, hurrying back from lunch to their typewriters. Yet being the only stationary person on the corner for an hour, she began to feel the loss of anonymity.

If they don't show up soon, I'm going to split. If we're going to deal with informers, and intelligence work, we had better become more proficient or we'll all end up in jail.

Peering through her sunglasses she noticed two men near the waiting line for the theatre. The smaller white guy walked away, leaving the taller, thin Black man alone on the corner. Glad in bright purple pants and shirt, holding a small dog in his arms, he stood out among the passing crowd. The young, long-haired one returned and the two resumed their vigil.

They look almost as ridiculous as I do, she thought; they must be the ones. She crossed the street still trying to determine whether the slender, pensive Black man fondling the Pekinese could possibly be the secret agent. He had a short afro and a mustache. He wore a long-sleeved shirt, open at the neck, sleeves rolled above the elbows; they, too, shimmied out under his belt.

Well, I suppose I look no more like a ‘dangerous revolutionary’ then he looks like a ‘double-agent,’ ‘Are you the people I'm to meet?’ she asked hesitantly. Their laughter answered the question.

David Hilliard Challenges All-White Juries

(San Francisco, Calif.) - David Hilliard, leading member of the Black Panther Party, has entered a suit in U.S. District Court here challenging the constitutionality of his conviction and imprisonment. He is charging systematic and willful exclusion of Blacks from the Grand Jury that indicted him and the trial jury that convicted him, violating his 14th Amendment right for equal protection and due process of the law.

Charles Garry, attorney for the Black Panther Party, entered the suit on October 1st, on behalf of David Hilliard. David is presently imprisoned at Vacaville (Medical Facility) Prison, at Vacaville, California. He was tried and convicted on June 12th, 1971, of assault with a deadly weapon by an all-White jury in Alameda County, despite the failure of the prosecution to produce the deadly weapon and the presentation of evidence placing David elsewhere at the time of the alleged assault.

The suit challenges the Alameda County grand jury selection system which produced the 1968 Grand Jury that indicted David, and argues that that system is incapable of being administered in a constitutional manner since the process was not designed nor does it produce a grand jury panel representative of a cross-section of the community.

Blacks Excluded

The suit further charges that David's confinement and detention are illegal, and under the law, the grand jury was incapable of being administered in a constitutional manner since the process was not designed nor does it produce a grand jury panel representative of a cross-section of the community.

WILL POLICE PATROL OAKLAND SCHOOLS?

(Oakland, Calif.) - From all indications, the upcoming confrontation between large numbers of infuriated Oakland parents and an adament Oakland School Board looms as a major battle over actually who controls Oakland's schools. It will be a battle which brings to the forefront the question of whether or not school corridors are an appropriate place for police patrols.

At issue is the new, omnibus program Oakland's school administrators have decided to implement; the $1.5 million "Coordinated Interagency Action Program for the Reduction of Truancy, Vandalism and Violence in Select Urban Schools (C.I.A.),". Although the program is only a few steps away from receiving over $255,000 as an initial installment from the California Council on Criminal Justice, vehement community protest on October 9th, led by the Coalition to Save Our Schools, hopes to stall any funding at all until an open and public meeting can take place.

The initial ideas to implement CIA came from an Alameda County Grand Jury study on problems within the a conviction of Wells by stipping off Blacks onto their juries sharply reducing the number available from the pool for the Wells jury.

This conspiracy, together with the abusive use by prosecutor Vukota of peremptory challenges against all 28 Black potential jurors remaining, resulted in no Blacks sitting on any of the four juries that convicted David Hilliard or his four co-defendants. David, Charles Buns, and Warren Wells were each tried separately. Donnel Lankford and Terry Cotton were tried together.

Finally, the suit provides as further evidence of the deliberate, intentional and systematic exclusion of all Black jurors by prosecutor Frank Vukota, the order of a mistrial in an earlier case for which Vukota was the prosecuting attorney. The mistrial was ordered by Alameda County Superior Court Judge George Phillips, Jr., on January 26, 1972, in the case of four Black co-defendants convicted based on Vukota's abuse of the peremptory challenge to exclude all potential Black jurors.

Judge Phillips wrote: "The Court is faced with the question whether there was intent on the part of the Deputy District Attorney to exclude non-Whites as a class from this jury... The facts and circumstances here are such as to logically and reasonably lead to the inference of a conscious intent on the part of the Deputy Dis-
AFRICAN SOLIDARITY CONFERENCE IGNORES DAY TO DAY ISSUES

(Chicago, Ill.) - A call to Afro-Americans to participate in a "National Anti-Imperialist Conference in Solidarity with African Liberation" being held here on October 19 to 21, has emerged in recent weeks. The origins of the call are not indicated, but it boasts an impressive list of sponsors from around the country.

The pre-conference literature lists a five-point "critical agenda" which embodies the conference objectives. They are: to affirm support to self-determination and freedom for the peoples of Africa under colonial or White minority, racist rule; to call for support to United Nations decolonization resolutions; to demand withdrawal of U.S. involvement in colonial and minority-ruled Africa and Israel; to oppose U.S. tax monies to expand military assistance abroad; to support efforts at African unity and to encourage Afro-Americans to join the worldwide anti-apartheid movement.

Admirable demands. But, strikingly absent are proposed actions aimed at organizing and uniting Black people around those very critical issues affecting their day-to-day survival. These include unemployment, underemployment and racist barriers to on-the-job upgrading; welfare cuts and fascist, slave labor schemes for America's poor; revelations of the arrogant use of fascist methods of electronic surveillance, breaking and entering, false and surreptitious slander and agent provocateur tactics by the highest echelons of government; the renewal and propagation of racist ideologies and many, many more.

OUR COMMON ENEMY

Our African brothers and sisters in struggle understand that the position of Black Americans "inside the belly of the whale" of U.S. imperialism places us in a particularly advantageous relationship to our common enemy. They understand that every blow we strike for our freedom seriously weakens and undermines the ability of U.S. imperialism to carry out its schemes in Africa and the world. They understand that if we really take care of business at home, we will make their tasks easier and hasten the day of our joint liberation.

The conference brochure declares: "Black people here share a common enemy with Africa - U.S. Imperialism. To meet the stepped-up offensive of imperialism we need a united, mass, on-going movement -- a people's movement, an anti-imperialist movement." With this declaration the Black Panther Party is in complete agreement. However, while at times bating, supporting and publicizing the wide-ranging, militant struggles of the peoples of Africa for liberation, the Black Panther Party understands that its first task, as a vanguard organization of Black people in America, is to carry forward, intensify and widen the struggle against the U.S. empire makers here at home.

The mysterious initiators of the proposed "National Anti-Imperialist Conference in Solidarity with Africa" appear to be content to ignore the pressing need in America today to organize and build a movement around the widespread suffering and violations of fundamental democratic and human rights that characterizes the U.S. today. By so doing they serve the best interests of their professed enemy - the U.S. empire makers - and delay the day of liberation of Afro-American, African and oppressed peoples everywhere.

RESIDENCY REQUIREMENT UPHOLD

(Sacramento, Calif.) - Last week the California Supreme Court unanimously upheld the legality of residency requirements for all city employees in the state's 75 chartered cities, including Oakland. This landmark decision now puts the weight of the law upon the Oakland City Council to adhere to its already adopted City regulation (Civil Service Rule, 4, Section 4.03) requiring all city employees to be residents.

It was only this past March that Ms. Elaine Brown, then a candidate for the District 2 Council seat, demanded implementation of a residency requirement for Oakland's firemen and policemen, 70% of whom are non-residents. At that time the City Council hedged and stalled in confronting the issue, referring the matter to the City Attorney. However, now, in light of this State Supreme Court ruling, the City Council must either immediately act to enforce this regulation or stand in open and blatant contempt of the law.

A SEGMENT OF THE SHOW, BLACK MONTAGE
NEW "LAWS AND ORDER" BID ATTACKS BILL OF RIGHTS

(Washington, D.C.) - A new bill which has been called "the most outspoken attack on the Bill of Rights in our history" is now before Congress. Titled the Criminal Code Reform Act of 1973, the bill was drafted in major part by the office of former Attorney General John Mitchell.

If Nixon has his way and the legislation is enacted, an unprecedented era of repression will be ushered in under the slogan, "law and order". The Criminal Code Reform Act of 1973, H.R. 6046, in the House of Representatives and S. 1400 in the Senate, was introduced in Congress on March 27th. The following provisions have been excerpted from the bill:

- Section 1103 nullifies two Supreme Court decisions by making the death penalty mandatory for certain crimes in certain conditions, without appellate review, and revives the Smith Act. The new Smith Act provides 15 years and/or $100,000 fine for mere advocacy or membership in an organization that allegedly calls for revolution or change "as speedily as circumstances permit...in any future time".

- Section 521 authorizes any police officers anywhere to use deadly force to prevent the escape of a person arrested for any crime, however petty, and without regard to the danger to the life of others.

- Section 1801 defines a "riot" as "an assembly of five" which "creates a grave danger to property". It stiffens a 1968 law to provide three years and/or $25,000 fine for the "movement of a person across a state line", or for the use of the mail or telephone in the course of the "planning, promotion" of a "riot".

- Nine sections seriously restrict public access to government information including military, non-military "intelligence of the United States" and material pertaining to "the conduct of foreign relations affecting the national defense". Severe penalties are authorized for past or present federal employees who leak information, news people who use it, and publishers who print it. Section 1121 carries a possible death penalty for anyone who releases information which "may" be used "to the injury of the U.S.A., or to the advantage of a foreign power".

- Under section 531, on entrapment, the burden of proof is placed on the defendant to prove that he was unlawfully entrapped", even though undercover agents provocateurs employed "deception", provided "a facility or an opportunity", and used "active inducement" to get a crime committed.

- The President is permitted to wiretap under section 3126. He can wiretap domestic activities which he thinks are a "danger to the structure" of government. The Attorney General's authority is widened to wiretap alleged offenses protected by the First Amendment under section 3127, 48-hour "emergency" taps without court approval are permitted. Telephone workers and landlords are compelled to cooperate "forthwith" and "unobtrusively" with government wiretappers.

- In the section on demonstrations, virtually every kind of civil rights, peace or other protest action would be threatened with severe penalties under a series of vaguely drafted infringements on the right of assembly.

- The penalty for failure to cooperate with congressional committees like the House "Un-American Activities", Internal Security and Far Eastland Committee is increased to three years and/or $25,000 fine, according to section 1333.

- By eliminating the insanity defense, section 502 would steer sick people to prison instead of hospitals.

- Section 1581 would make criminals of all persons who in any way disseminate any material describing sexual intercourse or depicting nudity. Another section provides one year and/or a fine of $10,000 for possession of even a small amount of marijuana for personal use and three years and/or $25,000 if found possessing it upon arrival or departure from a trip out of the country.

GEORGIA RACISM

BLACK MAN MURDERED FOR ALLEGED PEEING

(Camden County, Georgia) - A former Black mental patient was shot and killed on an untraveled marshland road in South Georgia by a White deputy sheriff and state trooper because a white woman claimed that she saw "this Nigra man" peeking in her window.

In an article last month, the Atlanta Voice reported that Sylvester Lester, 37, of Fernandina Beach, Florida, was shot four times while in a large clump of marshland grass. He was carrying only a stick, State Trooper B.E. Buckley and Deputy C.J. LeBlanc claimed that he gave them the "Impression" that he held a gun.

The reported chain of events which led to the murder of Lester began near the home of a White woman named Mrs. Barzel. She reported to the sheriff that a "Nigra" had been peeping in her window. Deputy LeBlanc and Trooper Buckley responded to the call, when they arrived they chased Lester down a road and subsequently into a marsh area of Crooked River in South Georgia.

The killing of Black people by racist policemen is a common occurrence in America.

The White men pursued the Black man into the wooded area, shouting at him and firing at the same time. They shot him four times with their .357 magnum revolvers, and later claimed that he had raised the stick at them. When they came upon the fallen Black man they found under his body a piece of root about eight inches long.

Lester was known by Blacks in Fernandina Beach to carry a stick to rid his way of high bushes, and keep dogs away.

The Georgia Department of Investigation is supposedly conducting an inquiry into the shooting death, But as usual nothing is expected to result from the inquiry. It appears to be another case of the modern-day lynching of Blacks by Whites which goes on and on...but will be stopped.
BLACK ALDERMAN BEATTEN

COMMUNITY CONTROL OF POLICE COALITION FORMS IN EVANSTON

(Evanston, Ill.) - A coalition for Community Control of Police has been formed here following the severe beating of Black City Alderman Roosevelt Alexander by three Evanston police. The coalition is comprised of 45 Black and White community leaders in Evanston who have united behind demands for more stringent controls over the police department.

At a meeting of the Home Services Committee of the Evanston City Council on September 25th, two of the three demands of the coalition were not acted upon. A third demand for the establishment of a Citizen Police Review Board has been placed under consideration.

Alderman Alexander, an outspoken critic of the Evanston police, suffered his second beating in two years by police officers. He was maced and beaten last March and as a result was hospitalized for five days. The three attacking officers were disciplined and still remain on the force, while several “investigations” are supposedly being conducted.

The demands of the coalition are: (1) that the three policemen involved in the attack last March be immediately relieved of duty; (2) that the city manager, who refused to implement a recommendation by the city’s Board of Aldermen to suspend the attacking officers, be removed; (3) that a Citizen’s Police Review Board, made up of members of the community, be formed to review all police incidents.

The board would have the power to subpoena police records and it would be mandatory that its recommendations be followed by the police.

NEW STATEVILLE WARDEN A DISSAPPOINTMENT

(Chicago, Illinois) - Governor Walker has approved the appointment of a 35-year-old White man, Joseph Cannon, as the new warden of Stateville State Penitentiary. Cannon has had only four years of experience in dealing with Black prisoners during his 25 years of prison work. Stateville’s inmate population is 85 percent Black, coming mainly from the Chicago area. The prison’s guards are for the most part rural Whites.

Cannon’s appointment comes as a blow to many of the Black prisoners and those working for peace in the turbulent prison. It was hoped that a Black warden might be appointed in keeping with a prison inmate demand during the recent prisoner rebellion at Stateville that a Black warden and more Black guards be hired. Hopes that prisoner frustrations and prison turmoil might be eased were dashed by the selection of Cannon.

Chicago’s Black weekly, the Black X-Press, reports that Cannon, who will replace present Warden Vernon Revis, toured Stateville last June. According to Cannon, his only involvement with a prison rebellion occurred on his present post as deputy commissioner of the Minnesota Department of Corrections. During that disturbance “a group of inmates refused to obey work call and held one hostage.” When asked what procedure he would follow if similar protests occur at Stateville, Cannon replied, he would “follow the directives” passed on to him.

Cannon says he has no definite plans or projects in mind to improve Stateville. He “feels strongly about the staffing being involved in decision-making policy.” He adds that he will concern himself with the “proper administration of the prison.” Cannon assumed his new office on September 24.
NEW PROGRAM HELPS
VETS BUY HOMES

(Oakland, Calif.) - A new counseling program designed to aid veterans who are potential home buyers has begun in Oakland and San Jose. According to Captain J.E. Mullen, regional director for the Veterans Administration office in San Francisco, the main objective of the new program is to improve the opportunities for minority veterans to become home owners.

The counseling in Oakland is held at the Main Library, 125-14th Street, on Thursday evenings between 5:30 and 7:30 p.m. Counseling in San Jose is held at 1680 E. Santa Clara St., on Wednesday evenings between 5:30 and 7:30 p.m. Veterans must make appointments for the sessions by calling 556-6489 in San Francisco or 258-0663 in San Jose.

Mullen pointed out that the VA is interested in talking to potential home buyers as soon as they decided that they want to purchase a home.

The counseling program has been successful in other cities, most notably Los Angeles, where the program has been in operation, on a pilot basis, for over a year.

ATLANTA UNITED FRONT

PROTEST POLICE BEATING OF 15 YEAR OLD SISTER

(Atlanta, Ga.) - Proclaiming that the Black community is fed up with police lawlessness and brutality, a united front of 18 community organizations has recently formed here following the severe beating of a 15-year-old Black girl. The United Front has picketed the Atlanta City Hall and the police headquarters following the incident in which young Claudette Peniston, who is mentally retarded and an asthmatic, was kicked in the stomach and choked by White policeman E.J. Wilson at a local television studio.

The United Front held a press conference to protest the brutality, and afterward the picketers packed the committee chambers at City Hall in a meeting with Atlanta Mayor Sam Massell to voice their demands to the unresponsive official.

At the press conference, Reverend Joe Boone, spokesman for the Front, commented that: "The police of Atlanta are rioting under our noses." He charged that Mayor Massell was not able to control Police Chief John L. Inman, who has been the target of growing community protest because of

3 ACTIVISTS RE-INDICTED FOR GUARD

(New Orleans, La.) - Three Black prison inmates at Angola State penitentiary have been indicted for the second time for the same crime. The first indictment was dropped by a higher court because of the outright racism used in the grand jury selection process.

Herman Wallace, Gilbert Montegar and Chester Jackson point out that they are being tried because of their "involvement in educating other inmates about racism and economic exploitation at the prison." The three are charged, with a fourth prisoner, for having murdered an Angola State Penitentiary guard, Albert Woodfox, the fourth of the "Angola Four", had earlier been convicted in a separate trial and has appealed.

The killing occurred in April, 1972, during a period of extreme tension between prisoners and the Angola administration. Guards had violently and brutally halted a peaceful petition drive just 20 minutes before the killing. When the body was found, the entire available prison inmate population was assembled in the prison yard.
POSTAL SERVICE ENDS YOUTH OPPORTUNITY PROGRAM

(Onkland, Calif.) - On September 28th, the U.S. Postal Service terminated its Youth Opportunity Program under which 40,000 predominately Black college students were employed in the Post Office. The program was ended as a result of racist collusion between the Postal Service and the predominately White postal craft unions.

A clause in a July 21 agreement between the Post Office and the craft unions permits only full time employees to be hired. This hiring policy enables the craft unions to have more dues paying members. The Youth Opportunity Program was established to give minority youth the chance to be employed part time in the Post Office, while attending school. As a result of the July agreement, all 40,000 part time Youth Opportunity Program employees were fired.

The Post Office gave the youth the chance to become full time employees, by taking White-oriented LQ.

POLICE BEATING

Conference, Rev. Boone called on the city to:
--Get more Black policemen on the force, since in most cases they have proved to be "more humane and trustworthy" than their White counterparts.
--Abolish the Internal Security Division within the police force. "It makes no sense!" Boone exclaimed, "for the police department to be investigating itself." He called for the Police Commission on the full Board of Aldermen to take on the responsibility of investigating complaints against the police.
--Let the Mayor know that the "police riot" must stop at once, Boone said his group was informing the federal Justice Department that the action here is "out of control." Washington could withhold millions of dollars in Law Enforcement Administration funds that are used to "bust up" the department, Rev. Boone noted.

"If necessary, we will hold Sam Massell, Chief Inman and the violent members of his department under citizen's arrest," he declared, "Enough is enough, and too much is an abomination. Atlanta has become the police murder capital of the country," he said, referring to the 13 Black people who have been killed by Atlanta police this year. Instances of brutality "have multiplied," under the administration of Inman and Massell, and "the horrifying story goes on and on."

Black Mayor Likely in Atlanta

(Atlanta, Georgia) - Vice Mayor Maynard Jackson will probably be Atlanta's first Black mayor. He finished in first place with 47,041 votes or 47 percent in last week's mayoralty election. His highest opponent was incumbent Sam Massell, who only received 19,760 votes or 19 percent. Vice Mayor Jackson is a clinch to defeat Massell in the October 16, run-off election.

ASSASSINATION CONFERENCE SCHEDULED

(Washington, D.C.) - A conference on the assassination of John F. Kennedy, sponsored by Georgetown University and the Committee to Investigate Assassinations, will take place November 23 and 24 in Washington, D.C., at Georgetown. The conference will also cover the Robert Kennedy, Martin Luther King and George Wallace shootings. Special discussions are expected to be held on medical evidence, physical evidence, new investigative techniques, legal aspects, conspiracy theories, new books and movies.

ARMY TO TEST GAS ON BEAGLES

(Washington, D.C.) - The Army plans to buy 400 thoroughbred beagles for testing riot-control gas and developing a vaccine to counteract a new binary nerve gas. The Army will pay $80 for each dog to be used in a testing program at Edgewood Arsenal, Maryland, Wisconsin Congressman Leo Aspin, who earlier attacked the Air Force's use of beagles to study the effect of exhaust from jet engines and poisons produced by burning aircraft components, described the Army's new plan as an "outrage."

RACIAL BOMBBLAST HOME

(Detroit, Michigan) - A Detroit policeman and a Black police cadet have been charged with firebombing the home of one of the first Black families to move into their all White neighborhood. Charged with burning the home of Sidney Freeman, were patrolmen Craig D. Brooks and Larry Weitberg. The Assistant Wayne County prosecutor said the apparent motive for the crime was racial hatred.

FALSE RAID VICTIM BEATEN

(Collinville, Ill.) - One of the victims of last April's mistaken Collinsville drug raids says one of the agents involved broke into her home recently and beat her. Mrs. Virginia Askew was treated for cuts and bruises on her head as a result of the beating. The Askews along with other victims of the wrong-door raids have reported being harassed by police agents ever since the April 23 raids, Mrs. Askew and her husband have filed a $100,000 law suit as a result of the raid.
In Search of Common Ground
CONVERSATION WITH ERIK H. ERIKSON
AND HUEY P. NEWTON
PART 3

In Search of Common Ground, conversations with Erik H. Erikson, Professor Emeritus of Human Development and Lecturer in Psychiatry at Harvard University and Huey P. Newton, ideological leader of the Black Panther Party, is a search for convergences between the individuals of quite different ideological postures and life experiences. Published by W.W. Norton and Co., New York. In Search of Common Ground will be available in bookstores this month.

Part III continues the initial statement that opened the conversations, in which Comrade Huey explains the development of the Party's ideology. In this excerpt from the book, he traces early changes in the Black Panther Party's understanding of the world.

Now that I have said a word about the ideology of the Party, I am going to describe the history of the Party and how we have changed our understanding of the world.

When we started in October 1966, we were what one would call Black nationalists. We realized the contradictions in society, the pressure on Black people in particular, and we saw that most people in the past had solved some of their problems by forming into nations. We therefore argued that it was rational and logical for us to believe that our sufferings as a people would end when we established a nation of our own, composed of our own people.

But after a while we saw that something was wrong with this resolution of the problem. In the past, nationhood was a fairly easy thing to accomplish. If we look around now, though, we see that the world - the land space, the livable parts as we know them - is pretty well settled. So we realized that to create a new nation we would have to become a dominant faction in this one, and yet the fact that we did not have power was the contradiction that drove us to seek nationhood in the first place. It is an endless circle, you see; to achieve nationhood, we needed to become a dominant force; but to become a dominant force, we needed to be a nation.

So we made a further analysis and found that in order for us to be a dominant force we would at least have to be great in number. So we developed from Black nationalists or separatist nationalists into revolutionary nationalists. We said that we joined with all of the other people in the world struggling for decolonization and nationhood, and called ourselves a "dispersed colony" because we did not have the geographical concentration that other so-called colonies had. But we did have Black communities throughout the country - San Francisco, Los Angeles, New Haven - and there are many similarities between these communities and the traditional kind of colony. We also thought that if we allied with those other colonies we would have a greater number, a greater chance, a greater force; and that is what we needed, of course, because only force kept us a colonized people.

We saw that it was not only beneficial for us to be revolutionary nationalists but to express our solidarity with those friends who suffered many of the same kind of pressures we suffered. Therefore we changed our self-definitions. We said that we are not only revolutionary nationalists - that is, nationalists who want revolutionary changes in everything, including the economic system the oppressor inflicts upon us - but we are also individuals deeply concerned with the other people of the world and their desires for revolution. In order to show this solidarity, we decided to call ourselves internationalists.

Originally, as I said, we assumed that people could solve a number of their problems by becoming nations, but this conclusion showed our lack of understanding of the world's dialectical development. Our mistake was to assume that the conditions under which people establish nations in the past still existed. To be a nation, one must satisfy certain essential conditions, and if these things do not exist or cannot be created, then it is not possible to be a nation.

In the past, nation-states were usually inhabited by people of a certain ethnic and religious background. They were divided from other people either by a partition of water or a geographic unoccupied land space. This nation partition gave the nation's dominion class, and the people generally, a certain amount of control over the kinds of political, economic, and social institutions they established. It gave them a certain amount of control over their destiny and their territory. They were secure at least to the extent that they would not be attacked or violated by another nation ten thousand miles away, simply because the means to transport troops that far did not exist. This situation, however, could not last. Technology developed until there was a definite qualitative transformation in the relationships within and between nations.

We know that you cannot change a part of the whole without changing the whole, and vice versa. As technology developed and there was an increase in military capabilities and means of travel and communication, nations began to control other territories, distant from their own. Usually they controlled these other lands by sending administrators and settlers, who would extract labor from the people or resources from the earth - or both. This is the phenomenon we know as colonialism.

OPERATION GEMSTONE:  
"THE GREAT WATERGATE CONSPIRACY"

FLASH OF THE WATERGATE MURDER:

When the Nixon Administration's special counsel, John Dean, issued his report naming President Nixon and others in the White House as knowing participants in the Watergate cover-up, it marked the beginning of a new chapter in American political history. The scandal, which began with the break-in at the Democratic National Committee headquarters in the Watergate complex in Washington, D.C., in 1972, continued to unfold with a series of revelations and trials that exposed a web of lies and deceit that extended from the White House to the Oval Office.

The scandal began with the break-in at the Democratic National Committee headquarters in the Watergate complex in Washington, D.C., on June 17, 1972. The break-in, which was organized by White House aids Richard Nixon and his campaign manager,anguard Haldeman, was intended to gather intelligence on the Democratic National Committee and to disrupt the party's convention.

The Watergate break-in was not the only scandal that plagued the Nixon Administration. In the summer of 1972, Nixon's campaign chairman, John Mitchell, ordered the Nixon campaign to conduct illegal surveillance of more than 100 political opponents. The surveillance, which included wiretapping, bugging, and infiltration, was aimed at gathering dirt on the opposition and discrediting their campaigns.

As the Watergate scandal continued to grow, so did the number of people involved. In the summer of 1972, Nixon's campaign chairman, John Mitchell, ordered the Nixon campaign to conduct illegal surveillance of more than 100 political opponents. The surveillance, which included wiretapping, bugging, and infiltration, was aimed at gathering dirt on the opposition and discrediting their campaigns.

The Watergate scandal continued to grow as new evidence was revealed. In the fall of 1972, Nixon's campaign chairman, John Mitchell, ordered the Nixon campaign to conduct illegal surveillance of more than 100 political opponents. The surveillance, which included wiretapping, bugging, and infiltration, was aimed at gathering dirt on the opposition and discrediting their campaigns.

In the spring of 1973, Nixon's chief of staff, H.R. Haldeman, was indicted on charges of obstruction of justice, conspiracy, and perjury. In the spring of 1973, Nixon's chief of staff, H.R. Haldeman, was indicted on charges of obstruction of justice, conspiracy, and perjury. Haldeman, who had been Nixon's top aide since the early days of the Administration, was charged with using his influence to cover up the Watergate break-in and to obstruct the investigation of the scandal.

By the summer of 1973, the Watergate scandal had become a full-blown political crisis. The investigation into the scandal had revealed a vast web of lies and deceit that extended from the White House to the Oval Office. As the investigation continued, it became clear that Nixon had been complicit in the Watergate break-in and the cover-up. The investigation also revealed that Nixon had been involved in a series of其他非法活动, including the bugging of the Democratic National Committee headquarters and the White House.

In the summer of 1974, the House of Representatives began impeachment proceedings against Nixon. The impeachment proceedings were based on evidence that Nixon had obstructed justice and had conspired to cover up the Watergate scandal. Nixon was impeached on two counts: obstruction of justice and discernment of evidence.

In the fall of 1974, Nixon resigned as President of the United States. He had been forced to resign in order to avoid impeachment and removal from office. In the fall of 1974, Nixon resigned as President of the United States. He had been forced to resign in order to avoid impeachment and removal from office. Nixon's resignation marked the end of an era and the beginning of a new chapter in American political history.
BLACK PANTHER PARTY PROGRAM
MARCH 29, 1972 PLATFORM

WHAT WE WANT, WHAT WE BELIEVE

1. WE WANT FREEDOM. WE WANT POWER TO DETERMINE THE DESTINY OF OUR BLACK AND OPPRESSED COMMUNITIES.

We believe that Black and oppressed people will not be free until we are able to determine our destinies in our own communities ourselves, by fully controlling all the institutions which exist in our communities.

2. WE WANT FULL EMPLOYMENT FOR OUR PEOPLE.

We believe that the federal government is responsible and obligated to give every person employment or a guaranteed income. We believe that if the American businessmen will not give full employment, then the technology and means of production should be taken from the businessmen and placed in the community so that the people of the community can organize and employ all of its people and give a high standard of living.

3. WE WANT AN END TO THE ROBBERY BY THE CAPITALIST OF OUR BLACK AND OPPRESSED COMMUNITIES.

We believe that this racist government has robbed us and now we are demanding the overdue debts of forty acres and two mules, forty acres and two mules were promised one hundred years ago as restitution for slave labor and mass murder of Black people. We will accept the payment in currency which will be distributed to our community. The American racist has taken part in the slaughter of over fifty million Black people. Therefore, we feel this is a modest demand that we make.

4. WE WANT DECENT HOUSING FIT FOR THE SHELTER OF HUMAN BEINGS.

We believe that the landlords will not give decent housing to our Black and oppressed communities, then the housing and the land should be made into cooperatives so that the people in our communities, with government aid, can build and make decent housing for the people.

5. WE WANT EDUCATION FOR OUR PEOPLE THAT EXPOSES THE TRUE NATURE OF THIS DECADENT AMERICAN SOCIETY. WE WANT EDUCATION THAT TEACHES US OUR TRUE HISTORY AND OUR ROLE IN THE PRESENT-DAY SOCIETY.

We believe in an educational system that will give to our people a knowledge of facts. If you do not have knowledge of yourself and your position in the society and the world, then you will have little chance to know anything else.

6. WE WANT COMPLETELY FREE HEALTH CARE FOR ALL BLACK AND OPPRESSED PEOPLE.

We believe that the government must provide, free of charge, for the people, health facilities which will not only treat our illnesses, most of which have come about as a result of our oppression, but which will also develop preventative medical programs to guarantee our future survival. We believe that mass health education and research programs must be developed to give all Black and oppressed people access to advanced scientific and medical information, so we may provide ourselves with proper medical attention and care.

7. WE WANT AN IMMEDIATE END TO POLICE BRUTALITY AND MURDER OF BLACK PEOPLE, OTHER PEOPLE OF COLOR, ALL OPPRESSED PEOPLE inside the United States.

We believe that the racist and fascist government of the United States uses its domestic enforcement agencies to carry out its program of oppression against Black people, other people of color and poor people inside the United States. We believe it is our right, therefore, to defend ourselves against such armed forces, and that all Black and oppressed people should be armed for self-defense of our homes and communities against these fascist police forces.

8. WE WANT AN IMMEDIATE END TO ALL WARS OF AGGRESSION.

We believe that the various conflicts which exist around the world stem directly from the aggressive desires of the U.S. ruling circle and government to force its domination upon the oppressed people of the world. We believe that if the U.S. government or its lackeys do not cease these aggressive wars that it is in the right of the people to defend themselves by any means necessary against their aggressors.

9. WE WANT FREEDOM FOR ALL BLACK AND POOR OPPRESSED PEOPLE NOW HELD IN U.S. FEDERAL, STATE, COUNTY, CITY AND MILITARY JAILS AND JAILS. WE WANT TRIALS BY A JURY OF PEERS FOR ALL PERSONS CHARGED WITH SO-CALLED CRIMES UNDER THE LAWS OF THIS COUNTRY.

We believe that the many Black and poor oppressed people now held in U.S. prisons and jails have not received fair and impartial trials under a racist and fascist judicial system and should be free from incarcer- ration. We believe in the ultimate elimination of all wretched, inhuman penal institutions, because the masses of men and women imprisoned inside the United States or by the U.S. military are the victims of oppressive conditions which are the real cause of their imprisonment. We believe that when persons are brought to trial that they must be guaranteed, by the United States, juries of their peers, and freedom from imprisonment.

10. WE WANT LAND, BREAD, HOUSING, EDUCATION, CLOTHING, JUSTICE, PEACE AND PEOPLE'S COMMUNITY CONTROL OF MODERN TECHNOLOGY.

When, in the course of human events, it becomes necessary for one people to dissolve the political bonds which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.
ZIMBABWE REVOLUTIONARIES

ARMED GUERRILLA STRATEGY IS THE ONLY ANSWER

(Mozambique) - With the declaration of independence by Guinea - Bissau, and its total liberation from Portuguese rule certain, attention now turns to the other two Portuguese ruled territories in Africa: Angola and Mozambique.

Undoubtedly the greatest threat to Portugal's continued rule in Africa comes from the Revolutionary Front for the Liberation of Mozambique (FRELIMO). FRELIMO is one of Africa's most highly organized and most effective nationalist movements. It is today engaged in a fierce war to free Mozambique from Portuguese domination.

"FRELIMO's forces are increasing in numbers. We are getting better equipment. We are improving our strategy, our tactics and our methods", said Samora Moises Machel, military commander of FRELIMO at the recent celebrations marking the 11th anniversary of the organization. "We are absolutely certain the Portuguese will be defeated soon", he added. The 41 year-old Machel, rated as Africa's top guerrilla fighter, was trained in guerrilla warfare in Algeria. He commands the reported 20,000 member well-equipped and disciplined Mozambique People's Liberation Army.

Machel, sometimes referred to as Africa's Che Guevara, explains that his forces are growing increasingly strong. One fifth of Mozambique is under the full and absolute control of the Mozambique People's Liberation Army, This includes the northern districts of Niassa, Tete and Cabo Delgado, and roughly one million of Mozambique's 8,000,000 inhabitants.

"We are mobilized to fight and win a protracted people's war", Machel said. "We are in a position increasingly to transform our growing political consciousness into a material force which will crush the enemy, no matter how powerful they may be. We think 10 years from now we will have the whole country covered in armed struggle. From our side there is more and more determination and more and more confidence in final victory."

In the liberated areas FRELIMO has established markets where peasants as well as military cadres can trade in food and weapons. Priority has been given to rural health clinics and to schools. Literacy courses for the armed militants are organized in bush schools.

Non-military administrators all the required institutions of the areas, including people's courts.

Answering the accusation of being communist because of financial and military aid received from China and the U.S.S.R., the soft-spoken FRELIMO leader has said: "We look upon the socialist countries as our natural allies. Because without their political, economic and material support, the liberation of Zimbabwe..."

"Secondly, we do not believe that having talks with the Smith regime will win us back Zimbabwe; for no minority in the whole history of the world has ever voluntarily given up political power in favor of the majority.

"Thirdly, Ian Smith as we know him will never chair a meeting which has as its principal objective the liquidation of his own political power. For these reasons to think of negotiating with the fascist and racist Boer settlers in Zimbabwe is naked lunacy. Therefore the Zimbabwe Afri-
NATIVE AMERICANS TAKE FBI TO COURT OVER SOVEREIGNTY RIGHTS

(Missoula, Montana) - Attorneys for the Black Foot Native American Tribal council are taking the FBI to U.S. District court here. The Indian tribes' legal counsel will argue that the U.S. government and its agencies have no right to interfere with Black Foot Tribal matters. According to law, Native American tribes are considered to be sovereign nations within the United States and are therefore exempt from all U.S. laws and statutes.

This case stems from the disregard of a tribal court order by U.S. Attorney Otis Packwood. Packwood ordered FBI agent Thomas Harney to move five slot machines from the Indian reservation at East Glacier, Montana, to Great Falls, Montana, despite a temporary restraining order by tribal Judge John P. Sharpe. The tribal court commanded that the machines should stay on the reservation until the matter could be heard in tribal court. The government attorney also asked for a federal court order enjoining the Black Feet Tribe against interference with federal law enforcement.

The controversy follows the August 26 raid on the Palamino Bar in East Glacier, where the slot machines were originally confiscated by the FBI. The agents were acting under a federal law that prohibits possession and use of gambling devices on Indian reservations.

A number of Native American nations have recently considered the use of gambling as a source of revenue raising to draw money from the hands of tourists and utilize it for the collective good of the tribe. The Black Feet business council had authorizedgambling within the 1.5 million acre reservation.

Federal Judge Russell E. Smith is expected to rule on this matter soon.

and material support our struggle would not have reached the present stage."

Giving details of the brutal war, Machel said in the past nine years of their struggle they have killed several thousand Portuguese soldiers and destroyed over a thousand military vehicles. He said they had also wiped out several hundred military bases.

Machel confirmed recent reports that Portugal has brought in troops from Rhodesia and South Africa as well as reinforcements to fight FRELIMO forces. He also charged that the Portuguese had been attacking them with tanks, napalm bombs and highly sophisticated and dangerous weapons supplied mostly by NATO countries.

"We know that for many of our militants, death will be the price of freedom. But FRELIMO militants are prepared to pay any price for it. We have the support of the people of the world, and therefore we will win", Machel concluded.

trial. Attorney to exclude non-Whites as a group or category from the jury. The court so found,"

David Hilliard's conviction in June, 1971, came at the height of the most intense, clandestine activity of the Gemstone/Watergate conspirators. THE BLACK PANTHER has provided evidence of the connection between the harassing, convictions and attempted convictions of leaders and members of the Black Panther Party and the White House directed conspirators. (THE BLACK PANTHER, September 1, 1972).

The deliberate and systematic exclusion of Black persons from the grand jury and the trial juries of David and his co-defendants was the one guarantee of conviction in the heart of the racist assault against the Black Panther Party and the Black community of this period.

AFRICA IN FOCUS

TANZANIA

In a move to continue the uprooting of the dregs of colonialism in independent Africa, Tanzania has banned the shooting or capturing of any wild life throughout the country. The Tanzanian Natural Resources and Tourism Ministry issued the order recently in the interest of preserving its wildlife heritage. Earlier, Kenya and the West African nation of Ivory Coast banned the hunting of elephants and certain species of wildlife.

MOZAMBIQUE

Morale among Mozambique's 250,000 Europeans has reached a remarkably low level, according to London Daily Telegraph correspondent Bruce Lound writing from the Mozambique capital of Lourenco Marques. The factors causing this new low, according to Lound, are the international repercussions of reports of massacres in Mozambique by Portuguese troops and the southward thrust by FRELIMO guerrillas with repeated strikes in White-dominated areas close to the port city of Beira. One commentator in Laurence Marques told the correspondent: "The nerves of our people are battered as never before."

GUINEA-BISSAU

Within days of the statehood proclamation of the new Republic of Guinea-Bissau, numerous countries extended recognition or endorsed the action. They include China, U.S., S.R., Algeria, the Republic of Guinea, Tanzania, Chad, Libya, Somalia, Upper Volta, Mauritania, Madagascar, Ghana, the Peoples Republic of Congo, Nigeria, Senegal, Syria, Yugoslavia and Rumania. As many as 50 countries are expected to move quickly towards full diplomatic recognition of Guinea-Bissau.

ANGOLA

The Popular Movement for the Liberation of Angola (MPLA) has foiled a plot by Portuguese intelligence to assassinate its president, Dr. Agostino Neto. The MPLA representative in Brazzaville, Congo, Mr. Lucia Lara, said the assassination plot had been uncovered within the organization itself and that although some of those involved had been arrested, the key figures behind it had escaped to Portugal. The aim of the assassination would have been to strangle the armed nationalist struggle against Portuguese troops. Mr. Lara added...
INSIDE OUT

A DEDICATED SISTER?

When Philadelphia's Black community rallied around the candidacy of Dr. Phyllis Crutcher, many people naturally believed her campaign promises of "serving the people." Since that time, however, Philly's Black folk have been wondering if they did the right thing. Among this "dedicated" sister's brainstorming ideas is a recent suggestion that has the community hopping mad. As a solution to the "unbrotherly" teenage gang problems, Ms. Allen urges that youth who are arrested for gang warfare be put on a "reservation" away from "decent" society. (What do you do if they try to escape, dear Doc Alison, shoot them in the back)?

FAST TALKIN' STAN

If you ever go to Philadelphia, watch out, "Stan the Man" alias Stanley Culbreth is on the loose. His identifiable features, though, are easy to remember, if he's not fast-talking to explain what happened to the $35,000 raised at a Culbreth-promoted Sidle Cell 3106 benefit last year, he's trying desperately to convince you that, sure, he's going to pay back that $245,000 he owes from this year's ill-fated Black Expo '73, Tell us Stan, did you really make "verbal contracts" with all those entertainers who never showed up? Those "V.I.P. tickets" were $25 a head. By the way Stan, what about those bands that were supposed to perform at the Black Expo-Dance Concert? They never showed up and, you never showed up! With all those $1 bills you took from the youth.

SWEENEY DOES IT AGAIN

Will the wonders of Wilmont ever cease? "Wonderful" Wilmont Sweeney, Mr. Berkeley City Councilman, is at it again. The latest crooked deal by Sweeney happened just three weeks ago. It involved Hardeman-Markey, a so-called community development corporation, involving of course, money.

It seems that Hardeman-Markey went bankrupt, to the tune of $14,000, while trying to deal with a Berkeley City Council-sponsored relocation project. It happens also that Wonderful Willie's law partner, Scipio Porter, is a Hardeman-Markey attorney. So, in the interest of justice-and money-Wilmont maneuvered to save Hardeman-Markey from the payment of Hardeman-Markey debts. Now, thanks to Sweeney, Porter gets his $1,900 Hardeman-Markey get off the hook, and the people of Berkeley get stuck.

NUTRITIONIST SAYS HIGH FOOD PRICES "KILLING" US

(Boston, Mass.) - High food prices are not only "putting a hurt" on people's pocketbooks, they're literally "killing" us, as well. This was just the griping and grumbling of the sister around the corner or the man up the block we might all chuckle and agree. But, coming from Dr. Jean Meyer, Professor of Nutrition at the Harvard School of Public Health, we should take this opinion seriously.

As reported in Medical Tribune, Dr. Meyer points out that rising food prices are more and more a threat to the health of a large number of people whose nutrition is already not adequate. Included in this group, Dr. Meyer indicates, are particularly the poor and the aged; some 17,500,000 people who receive food stamps and donated commodities. Also says Dr. Meyer, "there are probably this many more of the so-called working poor" whose nutritional health is endangered by skyrocketing food prices.

Specifically, Dr. Meyer had this to say: "At present, food stamps are grossly insufficient. There has been no adjustment whatsoever in the past for increases in the normally increased cost of food. This means that all those people who are dependent on food stamps are in nutritional jeopardy."

Dr. Meyer goes on to point out that the allotments of donated commodities to about 3,500,000 persons have, in fact, been reduced and that canned meat is no longer included. School lunch programs and school breakfast programs are suffering cuts as well as depriving children of possible sources of good, wholesome food.

Dr. Meyer also contends that the U.S. does not have a good nutritional surveillance system to adequately monitor the reports of clinical manifestations of nutritional deficiency, when they do appear, are going to be very difficult to put together". Dr. Meyer adds: "...and I have not heard anyone from the Administration (Nixon's government) say anything about the plight of the aged and the poor."

JUSTICE FOR LUNCH

Recently I was reading the Black Panther newspaper in a crowded downtown Palo Alto coffee shop when an obviously well-to-do couple asked to share the table with me. They saw the Panther paper and the man proceeded to lay out his opinions on "justice," mentioning that he was a retired judge who had had George Jackson before his bench.

He turned out to be Judge Gordon Campbell of the Superior Court of Monterey County. His conversational style was smooth, authoritative and dispassionate. (Later learned that he withdrew as the first judge assigned to the Soledad Brothers case, after the defense accused him of blatant expressions of racism. Campbell is said to have matter-of-factly announced after the assassination of Martin Luther King, that Dr. King got what he deserved.)

As I finished my bowl of chili, Judge Campbell told me that "George Jackson was a vicious, cold-blooded killer who deserved to be punished." He went on to defend all-white jurors for Black prisoners by saying that "a peer is a citizen-and all citizens are equal in America."

All this led me to ask him if, in his opinion, organized community support for political prisoners is effective. The judge's face turned scarlet and he excla- imed "Yes, of course it is! All picketing of courthouses should be outlawed! Many guilty persons get acquitted because of organized support that influences the juries and the communities."

Between sips of soup, his wife nodded vigorously in agreement. I felt it was odd for him to be spending his time patiently explaining his system to me. If I had been reading the Chronicle, I doubt he would have passed the time of day. But seeing a young white guy reading a Black Panther newspaper must have spurred him to try to set me straight from his position of authority.

order", the grand jury report screamed, "what we need is law and order", CIA is the result.

Under the CIA program, the reduction of admittedly high rates of truancy, vandalism and violence is seemingly to be crushed, by an onslaught of police and police-type entering Oakland's junior and senior high schools al. Twelve possible schools for these police patrols have already been chosen, with seven to be singled out as the actual target areas. Police agencies involved will be the Oakland Police Department, Alameda County Probation Department, the California Youth Authority and the Alameda County Juvenile Courts.

According to CIA's funding proposal, included in this effort to "stamp out" school violence, are: a Safety Director as the overall program coordinator; 7 safety Coordinators, one assigned to each school to direct operations there; 49 Campus Control Personnel, seven at each school for on-the-spot police work; a Coordinator of Attendance and Discipline in charge of truancy reduction; 49 Attendance Workers to provide "Direct services" to truant students, including home visits.

"DIRECT SUPERVISION"

In addition: 7 Counselors will give "direct supervision" to the Attendance Workers; 3 Activity Workers, to coordinate special programs for students with "attendance and/or behavioral problems"; 28 Attendance Clerks, to keep accurate records; 3 Pupil Personnel Specialists for "psychological counseling"; and 7 new Vice-Principals to "coordinate the truancy and discipline team" at each school.

Other features of the CIA proposal which have Oakland's Black community in an uproar are: (1) Police records which will be kept on all students, whether they have committed a crime or not; (2) Students who will be subject to arrest and jailing for something as minor as missing a class or stopping to talk to friends in the hall; (3) Junior and Senior High School students who will be forced to carry picture I.D. cards. They can be detained by the police if they do not have the cards in their possession at all times while on school grounds.

Nowhere is there the mention that improved facilities, improved teaching methods, concerned teachers, and subject matter that relates to the students' experience and life style would solve the problem.

(Next week THE BLACK PANTHER will publish the results of the October 9th School Board meeting and disclose more of CIA's plans for our youth.)

S.F. MIME TROUPE OUTSTANDING

"THE MOTHER"—GREAT ART COMES FROM SOUND POLITICS

(Berkeley, Calif.) - At first, she is staunchly against her son's political activities: "Nothing helps. I see nothing to be done." She only agrees to pass out the strike leaflets at the factory because she fears her son will be arrested by the police: "Can't Mr. Sokolov do what he wants with his factory, since he owns it?" She hesitates, but finally joins the traditional May Day workers demonstration since: "I don't agree, but it is non-violent. The police won't bother a non-violent demonstration."

But, later that same day, when she sees the police turn their guns on the workers and shoot down the proud flag carrier, her commitment becomes complete: "Let me have the flag, I will take it. All this must be changed!"

She is The Mother—the "widow of a worker and the mother of a worker"—and her trials and tribulation in "mothering" along the Revolution becomes her own in the truly fine San Francisco Mime Troupe's winning performance of the Bertolt Brecht play, The Mother.

The Mother is set in Russia between 1905 to 1917, just prior to the overthrow of the czar and the beginning of the Russian Revolution. It was a time of great social turmoil in Russia, marked by increasing political or-

gantizing worker's strikes and militant actions as well as swift and severe police repression as the Russian people put into practice Karl Marx's famous credo: "Workers of the World, Unite!" The movement of the Mother (Anya Vlassova) from the nervous pessimistic and lonely woman in the opening scenes, to the self-assured, optomistic, staunch people's organizer at the end, is a joy to behold. Memorable scenes—being taught how to read and spell by a stuffy old professor and rejecting the words "branch", "nest" and "fish" in favor of "worker", "class struggle" and "exploitation"; visiting her son (Pavel) in prison and getting certain important contacts, names under the "watchful" eyes of the prison guards—fill the play from beginning to end.

The political intent of The Mother is obviously supporting and, in fact, urging people's revolutionary activity. At one point, while doing propaganda work at a "patriotic copper collection depot", The Mother turns toward the audience and remarks: "Your masters will tell people like you to make ammunition. But people like you will decide who to shoot at."

There is so much that is good about the San Francisco Mime Troupe's performance of The Mother that, after CONTINUED ON PAGE 16

ANGLA PRISON

A search revealed no weapon or evidence, although the prisoners were reported to be tired, angry, bound men could have killed the guard. Three men, Black Panther Party organizers, were chosen from the rest. Later, another prison organizer was selected and the charges were made against the Angola Four. The District Attorney at the time, Richard Kilbourne, did not want to prosecute in the case and protested the indictments because the evidence was "too flimsy".

Brother Dennis Walsh, coordinator of the Committee to Free the Angola Four, says that the Social Community protest will continue "until the charges are dropped and until the right to speak, to organize, and to petition is returned to the prison inmates". Community support has already been successful in having the trial moved from the small rural parish (county) of West Felician to the more urban setting of Baton Rouge.

STATEVILLE WARDEN

CONTINUED FROM PAGE 8

Illinois state officials, including Illinois Department of Corrections director Allyn R. Steloff, maintain that the recent prisoner rebellion was the result of gang activity. Sister Yvonne King of the Chicago Community of the Black Panther Party says that this is a "decoy causing the community to believe it (the protest) was caused by gangs".

The prisoners have remained in lock-up since April 29, shortly after the rebellion. One of the organizers of the protest, Sam Early, has been transferred to Joliet prison's Special Program Unit. It is expected that a total of 75 men will be transferred following brief disciplinary hearings at which the defendants have no legal counsel. Mail and decent food is being denied the men in lock-up.

The Black Panther Party in Chicago sponsors a Free Busing to Prisons Program every week taking prisoners' relatives and friends to visit them at Stateville and other Illinois prisons. Only through correspondence and, more important, visits, will civilians be able to understand the real conditions and assure support for the beleaguered prison inmates. For more information about the Busing Program and reservations for the Chicago area, contact Yvonne King at (312) 536-5265.

the play, I found myself going over different features of the play hours later. They made me agree, as someone once said: "Great art comes from revolutions and politics." The acting is excellent and the Mime Troupe as a whole has done a tremendous job in not only remaining faithful to the original, but in cleverly and creatively adapting certain parts of the play to fit more modern sympathies. When, for example, The Mother goes into the countryside to deliver newspapers to striking farmworkers, the man she finds is standing with the United Farm Workers Union's "Huelga" flag. This, and the original songs the Mime Troupe adapted for the play, drew loud applause from the packed audience.

It was appropriate and fitting that this performance of The Mother at the Neuman Center, University of California in Berkeley, was a benefit sponsored by the Survival Fund, and that proceeds from the performance went to the Black Panther Party's Survival Programs. As The Mother, herself, comments near the end of the play: "The fate of Man is Man...The victims of Today will be the victors of Tomorrow."
