In the mining districts of the country there are scores of mines that are being worked under the guise of "Sooner" claims, and which are little more than frauds. The Sooner system is a fraud that has been practiced for years, and which has been thoroughly investigated by the government. Will the Capitalist Be Compensated?

Before the present owners of the earth can sell the question of what to do with the great mass of the people who have no help to do the great work of the world, they must first be able to compensate the workers for the long years of toil and task, for the countless millions that have been taken from them to pay raw, rent, and profit and privilege to the idle few.

On a question of justice as everything can be said for the compensation on the present civilization than could be said for the existence of the slave system, for the crime of the task.

Each person, however, pays taxes based to remunerate justice.

Each person, however, pays taxes based to remunerate justice.

Each person, however, pays taxes based to remunerate justice.

Each person, however, pays taxes based to remunerate justice.

Each person, however, pays taxes based to remunerate justice.

If the North had chosen the method of compensation as a tax on the idle and unburied, it would certainly have raised more than slaves, and in the name of justice, slave owners to recover their funds to the bodies of the dead.

In a country where every man can work for himself, and the tax on the property for the purpose of stopping exploitation, it goes without saying that no one will be permitted to annex trains of instruments of exploitation.
