HOPE IN PETTY REFORMS

Awakening of People Forces Capitalist Parties to Throw Ballast Overboard.

WASHINGTON Chaffee. Special Dispatches Corresponding for the Valley News.

WASHINGTON, D.C.—Nov. 30.—What do people think of Washington? The question is being asked by all, and the answers are various. Some say it is a land of corruption, with political machines working overtime to perpetuate themselves. Others say it is a land of honesty, where the people are trusted to govern themselves. The real truth lies somewhere in between.

Bums's Word. A social reformer visits Washington and finds that the city is not as bad as people think. He sees some noble buildings, but he also sees a lot of poverty and suffering. He finds that the people are not as happy as they should be, but he sees a lot of progress being made. He is convinced that the government is doing its best to serve the people, and he hopes that it will continue to do so.

ANYTHING FOR THE POOR GAS COMPANY

The $75,000 deal of the People's Gas Company in connection with the building of the Downtown street streetcar line was announced yesterday by the City Council. The company has already paid $25,000 of the price, and an agreement has been reached for the rest to be paid in two years. The company has given the city a bond for the amount, and the city has given the company a franchise for the line.

JAPS OUSTING TRADERS IN FRISCO

Energetic Action Turn From Labor and Enter Business “Skimming” the Whore Scheme.

SAN FRANCISCO, Nov. 30.—The navigator has given the order to turn from this street in which the American traders have their offices.

For this reason the japs turn from this street in which the American traders have their offices.

They are doing business in the busy bills of exchange, and they are in need of some business. The firm of American traders, which opened its office on Monday, has now turned its business to the japs.

As it has been done, the whole undertaking has been a failure. The japs have turned their business to the American traders, and they have failed.

The success of these japs business has been the result of a scheme of the American traders. The scheme was to turn their business to the japs, and they have been successful.

FIREMEN SUFFER TODAY

The city was heavily damaged by fire yesterday. The fire started in a tenement block in the east side of the city, and it quickly spread to other buildings. The firemen were unable to control the flames, and they had to retreat.

The cause of the fire is unknown, and it is feared that lives may have been lost. The firemen are heroes, and they are to be commended for their bravery.

LENNON'S VENUS DELAYED.

Leaves' right to revenge has been postponed in Washington. The leaves will be allowed to proceed with their plans, but they will have to wait for some time. It is feared that lives may have been lost.

RISE OF RUSSIAN LABOR ORGANIZATIONS

EUROPEAN CORRESPONDENT OF THE CHICAGO DAILY SOCIALIST.

Describes Conditions in Lands of War and Kaiser.

By Edwin Arnold Brehmoltz

Theodore Roosevelt and his friends, the editors of the Chicago Daily Socialist, were in the room. The room was filled with people, and the atmosphere was electric with excitement. The editor of the Daily Socialist was reading an article from the European correspondent, and everyone was eager to hear about the latest news from the lands of war and Kaiser. The correspondent described the rise of Russian labor organizations and the conditions in the lands of war. The people were heartened by the news of the fight for justice and progress, and they cheered and clapped as the article was read.

PEOPLE FREEZE: TRUSTS BLAMED

Greed of Harriman, Gould, and Other Big Business Guessmen Causes Western Coal Famine.

Salt Lake City, Utah, Nov. 30.—The coal famine in the west grows daily worse.

It is the direct result of the absolute selfishness and cupidity of the Pennsylvania and the Pacific, both well aware of it with characteristic thoroughness.

The Pennsylvania, with its vast system of high pressure, has been able to run its trains at the highest possible speed, and to reach the west on a day's run, with a speedometer to the minute, and without any intermediate points.
