Gems From the President's Message

PARAGRAPHS THAT SHOW ROOSEVELT'S METHOD OF THOUGHT

Business Must Break the Law.

"The legitimate business man is entitled to no more protection than the legitimate man in any other line of work. I know that many people feel that in the interest of a certain enterprise, and to increase its effectiveness in the economic world, to break the law is sometimes necessary. I am not one of those who believe that there is any justification for breaking the law, and I believe that the only way to make the economic world effective is by the development of the many enterprises that are now being established."

"The idea of a government for the rich is a very pernicious one. It 1s based on the premise that the rich have more right to govern than the poor. This is not so. The poor have every right to govern, and the poor have every right to be heard."

Might Fix the Supreme Court.

"The question of whether the Supreme Court should have power to fix the Constitution is one of the most important questions that can come before the country. The Supreme Court is the final arbiter of the Constitution, and the Supreme Court must have the power to decide what is constitutional and what is not."

Proof of Japan's Civilization.

"Japanese women and soldiers have shown themselves equal in every respect to the men of the world. They are brave, they are strong, they are determined, and they are loyal."

Train the Children For Murder.

"We should establish training centers in all the large public institutions to prepare the children for manhood. We should teach them the principles of loyalty and patriotism, and we should teach them how to die for their country."

THE WAYS OF PEACE FOR THIS PRESIDENCY

"We believe that the way to peace is by the development of an international organization that will have the power to enforce its decisions. We believe that the United Nations should be the basis of such an organization."

Breaking More Wage Slaves.

"It is not enough to break the wage slaves who work under the system of wage slavery. We must also break the wage slaves who work under the system of wage slavery. We must also break the wage slaves who work under the system of wage slavery."

EDUCATE MORE EFFECTIVE WAGE SLAVES.

"It should be the duty of the government to work toward breaking the wage slaves. The government should do this by the development of an educational system that will teach the wage slaves the value of labor and the importance of saving."

Craft News

"The workers have been working very hard, and they have done a lot of good work. We are very happy to have them with us, and we will continue to support them in their work."

Number of "Reds" in Russia.

"The number of "Reds" in Russia is not known, but we estimate that there are at least 50,000 of them."
FARM STORES FOR CITY WORKINGMEN

Plans for a Chicago Depot Where Rural Labor's Product Can Be Sold Directly by City Wage Earners.

American merchants are eager to be more easily reached by city and rural wage earners. The American Farm Bureau Federation has been able to bring about such a venture, and it is planned to open a farm store in Chicago where city wage earners can purchase the products of the countryside directly from the farmer.

The farm store is expected to be beneficial to both rural and urban wage earners. It will provide a convenient way for farmers to sell their products, and for city wage earners to purchase them at fair prices. This will help to strengthen the ties between city and country, and to promote better understanding and cooperation between the two groups.

The farm store will be open to the public, and will offer a variety of farm products, including fruits, vegetables, meat, and dairy products.

THE RECORDING ANGEL

Chapter V

As the door to the small recording studio of the Chicago Daily Socialist opened, the sound of music filled the room. The recording angel, a young woman with long black hair and a warm smile, was engrossed in her work.

President Roosevelt's Solution of the Labor Problem

In his long list of letters sent by presidents of the United States to征求 Roosevelt's analysis of the problem, the president more often than not appears as the leader in the given situation, his position unique in the attention given to the problem.

This means that the day of the old problem has passed. It is no longer a question of a need for the President to--as President, to take stock of the situation and, in his report, to express himself on it.

What President Roosevelt means to do is to give the situation a close reading and to come to the conclusion that it is the job of the government to express itself on the situation.
