MONET, NEW LIFE, IN TRANSACTION ACT

Mayor Duane, Engineers, Big Tax Payers and Capitalist Newspapers for Coal.

NO PROFIT FOR CAR LABOR

Street Car Workers Always Work at Merry Living Wages and Few Reformers Talk They Should Always Be Kap There.

"Monet," says Mayor Duane "Transaction," as the boss of capital reformers, "is a new life for the millionaires of the Merchants' Club and the Princeton

Those are the expressions on the dox., and the fact that the present millionaires settlement will include the eight-hour day of the wage-earners. But even the words of Mayor Duane do not indicate the tremendous gains of the workers. In the past the millionaires have been able to keep their present standard of living. Now they have a chance to establish a new one.

It is the typical capitalist reformer who still believes in the "transaction" as the only solution to the problem of labor. Theoretically, it is a step forward, but practically, it is a retrograde one.

The movement of the social service leaders, who are trying to cure the ills of society by means other than social reform, has been temporarily defeated.

CHICAGO DAILY SOCIALIST

212 Randolph St., Chicago.
Who Wants a Referendum?

We hear much about "the people" of Chicago wanting immediate action, without a referendum, on the traction question.

But the people of the Union League club, the Merchants' club, and various other clubs of the same character have been personalities behind the scenes and they have resolved on this basis, and we are told that this proves that the "people" do not want a referendum, and that they do want an immediate franchise.

Who are the "people" of Chicago, and of every other great city? Are they not the ones on whom the capitalists press the bill next year? Everybody is at the capital next year.

The "people" of the capitalist press do not include the millions of workers, workers with brains. It only includes the people who live upon the labor of others, the social, industrial and political ruling class.

It is the few individuals who are the "people" just so long as the workers take the thoughts from them. The working people work for themselves, they will be the "people" and will work for themselves and enjoy their product. This is the proper way for the working class to show that they are doing their own thinking would be to demand a referendum and fight for their rights.

When that demand is made it should not be because of the temptation of compensation and taxation measures, but because the RIGHTS OF THE WORKERS ARE NOT BEING PROPERLY PROTECTED.

If the workers of Chicago are really so hypnotized by the capitalist press as to believe that the question of dividends and incomes in Morgan are all important, while the question of their own wages is a "mere detail," then they ought to suffer and fight for a few more years.

DO NOT BELIEVE THE WORKING CLASS ORGANIZATION.

We believe that when the laborers' attention is called to the facts they will decide that the feeling and clothing and building of the future is too big a question in industrial and educational growth for French working men is of more importance than anything else in the tract ordinance.

The Refuge of the Oppressed?

For more than two centuries it has been one of the proud possessions of the French revolution to have been the refuge of the oppressed of every clime. To these口号 came a mighty army of rebels against kings and courts and every form of political tyranny.

These men were welcomed with open arms. They were frequently rewarded with gifts and pensions, and exceptions. Some of them were elevated to high offices, and placed in positions of trust.

All this was during the time that the capitalist class of the world was barely beginning to understand the limitations the feudal institutions had left behind. The French republic with a feeling for the European rebel who was fighting a political war against an economic autocracy.

Today the capitalist has won his revolution. A new social order is being established. The French republic is fighting a political war against an economic autocracy.

This is WHY THERE HAS ARISEN A Sudden Hostility.

Here we have the reason for the attempt to return Ger(2)shini to a certain death at the hands of the Russian despots.

This explains the Petroleurs at San Francisco, and this terrible Russian example. Other Russian exiles at New York have been denied admission.

These men are not fighting against the czar alone, but against Capital King as well.

A new social order is being established. The French republic is fighting a political war against an economic autocracy.

All this was during the time that over the total of the world.

The French republic is fighting a political war against an economic autocracy.

This is WHOSE AID IS CALLED MILITANT.

The Terrier and the Bull-Pup

Oh, on upper deck clung the under dog.

And on lower deck, where the bull was gone,

And his nose had been with a sausage leer.

And left him covered with blood.

And day after day, the upper dog.

He would growl at the under dog.

While the under dog didn't much fuss,

But would turn his back on his master quickly.

Till one glad day when the Terrier dog "as parking his exercise.

The under dog with a start was wake up.

And the upper dog slant-gazed at a bull's eye.

For he'd growled right along on a bull's eye way.

And there was no turning back.

And his teeth were strong and his jaw was long

And his muscles hard as stone.

Then he thumped his big foot on the Terrier dog's neck.

And both dogs growled at each other.

And munched all day in a careless way.

That was the way.

And the moral of this is as plain as a cow.

To-morrow is just as sure as today.

There is nothing more sure than that he'll grow up.

The Record-Herald comments on the statement of a department store owner that all his employees are opposed to a referendum in the referendum campaign.

The Examiner quotes a local employer who says that the referendum campaign is to be secured of a declaration of the employees of the large department stores. This is the belief of the employers and theSynopsis.

It looks as if that street car rate increase that is to be shared by the city would be so much "less" an "encumbrance."

The least you can do for the Daily Socialist this week is to read in a new subscriber.

Objections to Socialism

As an editor of the Chicago Daily News, Mr. J. H. T. V 4 P, the paper of the socialist cause, expresses his sentiments on the subject of socialism.

The socialist movement in this country is not only a great social and political issue, but it is also a moral issue. The socialist movement is one of the greatest movements of our time, and it is for the good of the world.

The Chicago News Daily has this statement with grief. It heads its editorial "The Middle Class Militant," and proceeds as follows:

"The middle class is getting into line. The bourgeoisie is the inevitable target, and the socialist movement is the logical path to follow."

This is a most salutary action of the statesmen in this country. They are beginning to see the light, and they are moving in the right direction. The socialist movement is the only hope for the world.
