

BUSSE TO CLEAN OUT DEMOCRATS

There Are Republicans Waiting for All Jobs New Held By Rivals; To the Victor the Spoils

"Let me tell you frankly that I intend to fill every appointive position in the city hall with Republicans. For every man not under civil service I have as good a man who is a Republican," said Mayor Fred A. Busse yesterday.

The mayor stated that he would probably have a list of appointments ready for the council meeting Monday night. The appointments he will pay particular attention to at the next meeting of the council will be for the board of local improvements and the civil service board.

The executive said that he had written yesterday to the members of the civil service board, requesting resignations, but that as yet he had not received answers from any member.

TORTURE DEAF MUTE TO MAKE HIM TALK

Burglars After Man's Small Horde Take Inhuman Methods to Accomplish Impossible

(Scripps-McRae Press Association.) New York, May 6.—Tortured by burglars who did not know of his affliction and tried to make him speak, Arthur Clarke, a deaf mute, is lying at a hospital today in a dying condition.

In torturing Clarke they resorted to the "water cure." Clarke was attacked in the home of his sister.

It is supposed the burglars demanded to know where valuables were kept. Failing to get a response from the dumb man, they tied his hands and feet.

Then the beatings continued. Then growing more furious because of the failure to get speech from Clarke, who was unable to make so much as a sound, they filled a milk bottle and began pouring water down the helpless man's throat. Then they placed a ring in his mouth with the strings around his neck and twisted these about his throat so breathing was most difficult. The burglars secured a small sum of money and made their escape.

MINERS GET "SQUARE DEAL" OFFERS TO PUNISH MINE OWNERS

Third Letter Has Different Tone; Protests in Parade and Meetings From the Gulf to the Canadian Border

(Special to Chicago Daily Socialist.) Washington, D. C., May 6.—News reached here today that President Roosevelt will have an opportunity to "make good" his promise to use all his powers to bring to justice the mine owners, whose conspiracy to break up the Western Federation of Miners has started the working class throughout the world.

His letter to the New York central labor body, pledging himself to see that Moyer, Haywood and Pettibone get a "square deal" came just as in a half dozen great cities of the land thousands of working people were parading and holding meetings to stir up the people of this country to a true understanding of the situation which confronts this nation.

So successful have the agitation meetings been that thousands who took for granted the fact that newspaper reports of the situation are correct are learning the true story of bloodshed and violence on the part of Colorado and Idaho mine owners and their tools in public office.

There is a mass of evidence against the mine owners. It has been in hand for a long time, but so far it has been impossible to get it into court. Carroll D. Wright, when commissioner of labor, made a report on the Colorado warfare which shows the mine owners and the state generals and others to have been guilty of brutal and unlawful acts. This will be presented to the president with all the other evidence.

New York, May 6.—President Roosevelt replied by letter to the three labor men who called at the White House a few days ago in connection with his "undesirable citizens" letter.

After a debate in the central body it was decided to postpone action until the third letter had been submitted to attorneys for the jailed miners.

Following is the letter:

His Letter. "The White House, Washington, May 2.—John S. Henry, 1229 Third Avenue, New York.—My Dear Mr. Henry: When you, in company with Messrs. Coakley and Brown, called upon me this morning I read you the letter I had written to the attorney general on March 25, 1906.

UNION FIREMEN HAILED BEFORE JURY

Busse's Administration Appears to Be Going After the Men Who Give Lives for Property

Chief Horan of the fire department ordered George B. Hargan, president of the firemen's union, to appear before the grand jury today. The order is not in the form of a subpoena from the grand jury, but came as an order through the fire department.

It is rumored that the entire executive board of the firemen's union has been ordered to go before the grand jury. In the effort of the present city administration to ferret out any graft that may have occurred under the Dunne administration the fire department has been drawn into the line of fire.

Chief Horan appeared before the grand jury yesterday to answer to the charge that funds for the Dunne campaign had been collected in the fire department. It is rumored that before the Democratic primaries Chief Horan was told by E. H. Roche, who was responsible for Horan's appointment by Dunne, that he, Horan, must contribute to the Democratic campaign fund.

Horan, who, it is said, is a part of the Busse machine, thought Dunne a weaker opponent to Busse than Laurison and was willing to give money to help nominate Dunne as a Junny.

It is also stated that \$750 was turned in by Horan and that the amount was collected from the higher officials in the fire department.

"Not one cent was collected from any of the firemen and truck men," said firemen at the various stations today.

"If any money went into the Dunne campaign it did not come from the firemen's union."

WIND UP OF GENERAL ASSEMBLY TO BE CONFUSION TO HIDE STEALS

Fomer Galpin, Machine Republican with Two Jobs Has More Influence than All Labor Unions in the State

(Special to Chicago Daily Socialist.) Springfield, Ill., May 6.—Having been in session now for just about four months out of the running, as revealed exclusively in the Chicago Daily Socialist yesterday.

Of prime interest to the people are the labor bills, and these will remain sleeping quietly on the calendar or in committee when the gavel falls the last time.

All for Homer. One of the sweet things that was put over all but unnoticed was an innocuous appearing amendment to the municipal act repealing the clause which declares that the municipal court shall be a court of record.

It is contended that Senator Galpin is prohibited by law from holding both his job in the state senate and his job as clerk of the municipal court, the latter being a court of record. This complaint has been contested by Galpin, but now the law will be so fixed with this amendment to the amending bill that Homer will be happy again.

This makes it better for him. The sweets of the senate combine when it declares dividends are not to be lost even for the honor and emolument of clerk of the municipal court. Moreover, what's the use of being satisfied with what you can have it all.

STANTON CONFIDENTLY SEES PEARLY GATES Believes He and His Followers Will Be Transfigured in Ten Days—Sells His Property

Great Falls, Mont., May 6.—Believing that the end of the world will come within 10 days and that he, with a handful of followers, will be straightway translated to heaven, A. W. Stanton, a prominent stockman of this city, has disposed of all his property, valued at several thousand dollars, to the first bidder for \$150, and taking up his residence in a rented house in the most elevated part of the city, is awaiting the end calmly.

Stanton's followers, eight in number, disposed of their possessions in a similar manner and are with him. Stanton has disposed of his belongings in order to be unincumbered when called from the earth.

ALIENS STILL POUR INTO UNITED STATES

One Spanish Town of 9,000 People to Move in a Body—Italian Villages Deserted

New York, May 6.—In the last 24 hours 5,335 aliens passed through Ellis island and thousands more are waiting their turn on vessels in the harbor and thousands of others are due to arrive within the next two days.

The entire police officials at the immigration station is working with might and main to land as soon as possible the many who seek entrance to this country, but at best it is slow work. Each individual has to be registered and inspectors must pass on the desirability of every person as a citizen of the United States.

Those already landed represent nearly every nation of Europe. The bright colors of the newcomers from the southern countries and the picturesque garb of the northern peasants formed a pleasant picture. The babel of strange tongues and the shouts of the inspectors forming a chorus into groups interest to the scene.

Many of the immigrants are Italians. They declare they have been attracted to this country by the prospect of better life, and that many thousands of their countrymen are leaving for this country. They say that in southern Italy many villages have been almost deserted by the population, so strong is the fever of emigration that has seized the people.

It is learned here that one town in Spain of 9,000 inhabitants is preparing to leave in a body for North and South America.

MARK TWAIN IS LOST; REPORT EXAGGERATED

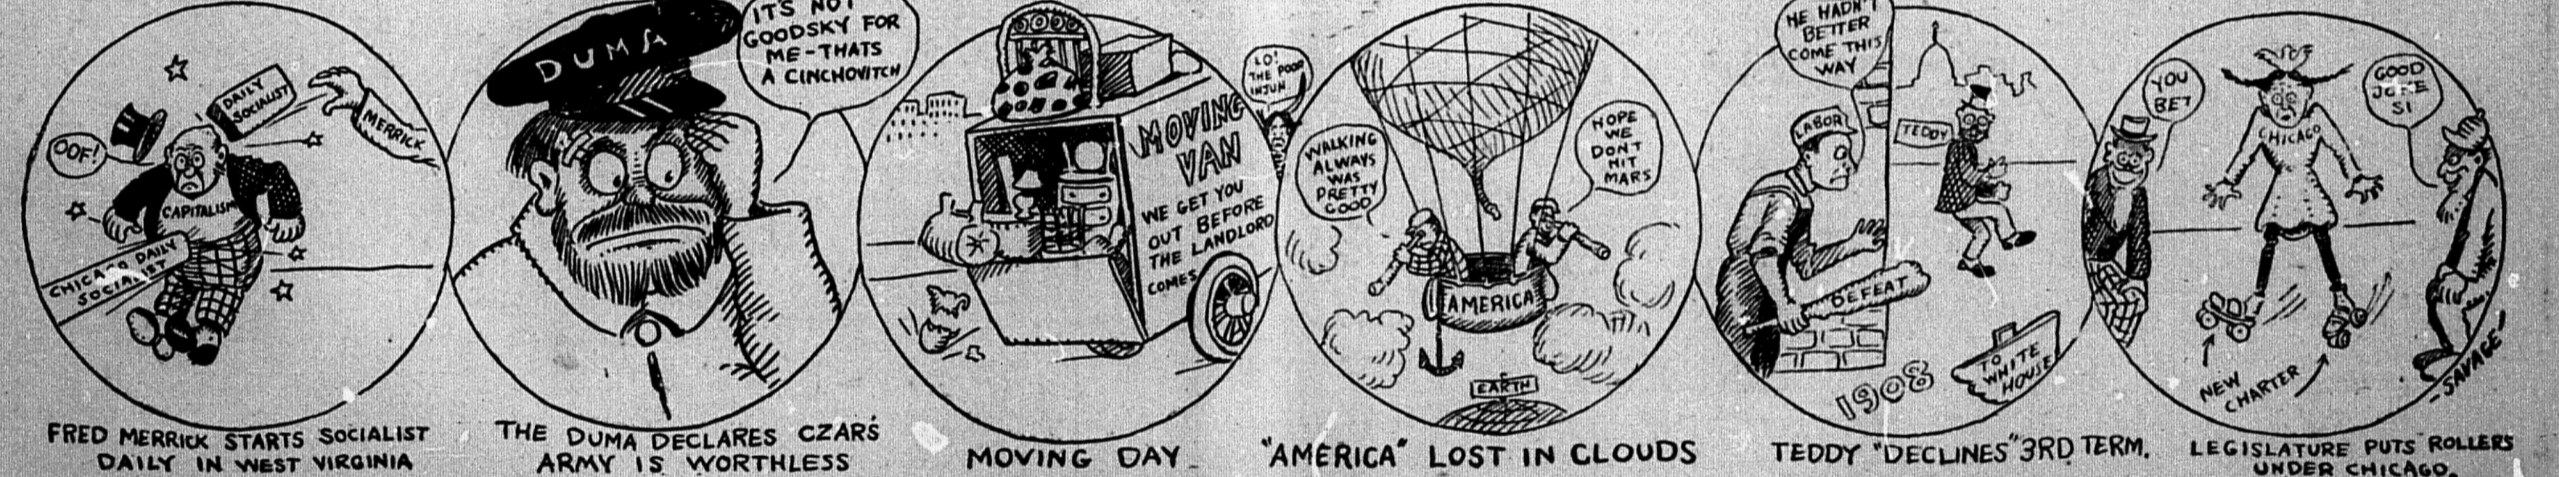

New York, May 6.—Mark Twain had the pleasure today of repeating his celebrated statement that "The reports of my death have been greatly exaggerated."

According to a story given wide publicity in the New York morning papers, the famous humorist was lost aboard H. H. Rogers yacht, the Keweenaw, off Hampton Roads. A dense fog and storm prevailed off the roads for two days, and, according to the report, Mark, along with the crew on board the craft, had disappeared.

He read the story of the disaster which had befallen him at his Fifth avenue home today and enjoyed it hugely.

"I am not aboard Rogers' yacht. I'm simply paddling my own canoe," he added.

JUST A FEW EVENTS OF THE WEEK

Building Trades Probably Will Be in Big Struggle

From 2,000 to 5,000 bricklayers, hod-carriers and other members of the building trades were ordered to walk out Saturday if the bosses do not by that time comply with their demands to make Saturday pay-day and to pay them off every week.

The strike will involve indirectly practically every one of the building trades. This tie-up added to the strike of about 1,000 men at the Western Electric Company makes the strike in the building industry the largest of the year.

At the offices of the unions practically no information was given out. The atmosphere, however, was tense and electric.

According to one member, the entire trouble arose from a factional fight between the Chicago master builders which resulted in the organization of a new association of which W. R. Grace is president, President Thompson, continuing as the executive of the parent body.

The old bosses agreed to pay their men Saturday. The new and "walk out" faction, as they are called, insist on pay-day every time convenient to them.

As today is the first pay-day under the new agreement, which went into effect May 1, the bricklayers decided to make a stand for this demand at once and settle the trouble once and for all.

MABELLE PHOTOGRAPHED; NEWSPAPERS IN FRENZY Steel Trust Angel Poses Before the Camera and Defies the Clamor of Gotham Press

(Scripps-McRae Press Association.) New York, May 6.—Mabelle Gilman, actress, fiancée of W. E. Corey, head of the United States Steel trust, and the most talked of woman in the United States, had a strenuous day yesterday. Between 11 o'clock in the morning and 4 o'clock in the afternoon she posed before the camera of a prominent Broadway photographer fast and furiously.

FRICION OVER SMOKE SITUATION

President Prentiss, of the Civil Service Commission Not in Entire Accord With Report

(Scripps-McRae Press Association.) New York, May 6.—William Cooper Proctor, the multimillionaire soap manufacturer of Cincinnati, is not, m. d. He's just sore.

When seen at the Hotel St. Regis today he denied that he had the rabies or that he was the victor at a long piece yesterday in a "stirring" race with death.

In proof of his assertions he pointed out that he was occupying a suite at the St. Regis instead of a padded cell at the Paster Institute, as might have been inferred from a report which became general yesterday afternoon.

This report stated that Proctor, who is a dog fancier, had been bitten by one of his pets and was rushing from Cincinnati to New York to take treatment at the Paster Institute.

WAS IT AN ATTEMPT TO KILL KING EDWARD

(Scripps-McRae Press Association.) Geneva, Switzerland, May 6.—A very serious interpretation is placed by the newspapers here on an accident to a railway train on which King Edward was traveling to France.

Suicide of Rossi a Most Dramatic Incident

(Scripps-McRae Cable.) Rome, May 6.—Armando Rossi, the famous tenor, who attempted suicide at Milan on Thursday in a fit of melancholy caused by the loss of his voice, is dead.

The tragic details of the suicide did not become known here until today. Devoted to his lost art even to the end, Rossi passed into unconsciousness, from which he never awoke, with the swan song from Lohengrin on his lips. The attempt on his life was made in the presence of a small gathering of his closest friends.

VICTOR O'SHEA'S CASE STILL ON THE DOCKET

For the Third Time a Sworn Twelve Fails to Reach a Verdict; Jury Has Disagreed

The jury in the case of Victor Roland O'Shea, who killed his young wife, today disagreed, and will be discharged. This is the third time O'Shea has been tried on this charge and the third time the state's conviction, coupled with former legal developments, means that he can never be tried again on any other charge than manslaughter.

DEATHS IN WHIPPLE MINE NOW TWENTY-ONE

Hinton, W. Va., May 6.—It is now thought that the dead in the Whipple mine with number at least 21. Seven bodies have been taken out and others will be removed later today. It is possible that the casualties may reach a higher figure. Absolutely no record was kept of the number coming out of the mine, so that the explosion occurred and it is impossible to estimate the total fatalities.

FIRE DEPARTMENT SHOWS ITS DEFECTS

Lotus Club Catastrophe Brings Out Some Alarming Deficiencies of Organization

More facts collected today go to prove that the fire in the Lotus Club that resulted in a heavy loss of life was badly handled by the fire department.

It was discovered that Truck No. 6 went to the fire with but three of the twelve men of the regular crew. Three men cannot raise the ladders, and the girls who crowded out onto the fire escapes were left helpless.

Engine No. 1 went to the fire with but six of the fourteen men it should have had. Engine No. 22, that should have worked closest to the fire and been the first to throw water, was so badly managed that it was almost useless at the beginning of the fire, and Engine No. 1 was first to get into action.

MURDERER OF LITTLE 3-YEAR OLD NOT TAKEN

Cleveland, May 6.—No one has been arrested for the murder of little "Sonny" Hoelsig, the three-year-old tot whose body was found crammed into the cavity of the child's disintegrator's house Friday.

The police, who thought Friday afternoon they would make an arrest before nightfall, admitted Saturday that the mystery of the child's disappearance and death is now deeper than ever.

WAR ON B. BROWN, MAUD, DER COP, FOXY GRANDPA

New York, May 6.—War has been declared on the Sunday newspaper comic sheets by the International Kindergarten Union. The announcement was made today at a session of the teachers' college. Parents are to be called on to denounce the comic strips in their homes and a fund is to be raised to pay for circulars to be sent all over the country agitating the parents.

SLUGGED TO DEATH, OR DIED BY VIOLENCE

Prominent Citizen Expires in Hospital After His Fall From an Alleged Disorderly House.

The police are today probing the death of George P. Porter, 113 Cass street, member of Porter, Gibbard & Bros., a real estate firm, with offices at 175 Dearborn street, who died under mysterious circumstances at the Wesley Hospital at 11:30 o'clock last night.

ASK IMPEACHMENT OF "BOY MAYOR"

Activity of Real Aldermen in Milwaukee Keeps Old Party Men in Hot Water

(Special to Chicago Daily Socialist.) Milwaukee, May 6.—The Social Democrats have been busy this week.

The Social Democratic resolutions calling for the impeachment of Mayor Becker fell like a bombshell among the old party aldermen.

Therefore, the resolutions demand an investigation and the "impeachment of city officials charged with misconduct in office."

The roll call showed, in addition, of course, to the twelve Social Democratic aldermen, only one old party alderman voting for an investigation.

When it finally got them down to \$5 a light, the Social Democrats jumped at the chance, and conclude the five years' contract with John L. Beggs.

Then, of course, all the defenders of "private enterprise" would point this out as a terrible example of the costliness of municipal ownership.

The Social Democratic members of the assembly made a hot fight for their child labor bill this week.

He laid at their door the responsibility of the "murdered children, sacrificed on the altar of greed."

The opponent promptly took his seat. The bill was referred to the Judiciary or "grave yard" committee.

Garrick Theater Debate Draws a Large Crowd

Good Featured Intellectual Battle Between Lewis and Windle—Death of a Fine Straw Man

Gallery, balcony and main floor of the Garrick Theater were crowded to capacity Sunday morning when Arthur Morrow Lewis and C. A. Windle met in debate upon the subject of Socialism.

Some moments before the speeches began it became necessary for the management to turn people away from the doors of the theater in order to prevent violation of the city ordinance relative to packing of the aisles.

The general editor of Brann's Iconoclast, stalwart and epigrammatic, master of eloquence and foolery, was at his best, and in both of his addresses found no difficulty in keeping his audience in an uproar of laughter and applause.

He built up a straw-man Socialist and then he attacked this creature with entertaining in the highest degree. Lewis found no difficulty in disposing of Windle's objections to Socialism.

Battles of Ideas. Gertrude Breslau Hunt acted as chairman of the meeting. In introducing Windle she declared that the battles of today were battles of ideas.

"Nature loves variety, but you Socialists believe in taking all the individual bullets and melting them into one big mass of lead. I believe in the decentralization of independence, in the inalienable rights of man to life, liberty and the pursuits of happiness.

SHALL WOMEN ENTER CAB UNION

Some Say Nay, But Martin McGraw, Gallan, and Council Chief, Says Yes

Teamsters unions in Chicago are now confronted with a "sex and race" question. The appearance of pretty women cabbies in the downtown district yesterday created considerable excitement among members of the Carriage and Cab Drivers' Union.

Some of the members vehemently asserted that they will never permit a woman to become a member of their organization. Secretary Doyle of the union was very decided in his views on the woman question within the ranks of his organization.

"No, we cannot admit women to membership. It will disgrace the business. Once women are in it, no man will want to be a cab driver," Doyle vociferated.

Other officers of the teamsters' union took a different view. Martin McGraw, president of Teamsters' Joint Council, before whom the controversy was taken, declared that there is nothing in the constitution of the union to prevent women from becoming members.

At a conference of the cab and carriage drivers' union this evening the question will be discussed and many interesting hypotheses on the future status of women in industry will, it is expected, be brought forth at this conference.

DAILY WRECK RECORD

Raton, N. M., May 6.—West-bound Santa Fe passenger train No. 1 was wrecked Wednesday night twenty miles south of Raton by the breaking of an axle under the engine tender.

The train carried many Shriners en route to Los Angeles. Two hundred and eight passengers on the train were thrown into a panic by the wreck.

Traffic was delayed fifteen hours, and the loss of rolling stock amounted to \$7,500. Some of the passengers in their excitement jumped through windows and were cut by glass.

An association is being formed at Mountain View, N. M., for the purpose of utilizing 320 acres of land along co-operative lines and of establishing a mountain resort, an industrial school and a settlement home.

PROFIT WITHOUT SPECULATION. LET THIS MACHINE MAKE MONEY FOR YOU. You work eight hours and rest sixteen hours. This machine works twenty-four hours a day seven days a week. AN investment without Wall street manipulation. A workingman's company, in which every comrade should join. An opportunity to get in on the ground floor with a prosperous Company, operating a proposition at a minimum of cost and the maximum of profit. This is a company in which the laboring man predominates. Capital \$1,000,000, treasury stock 750,000 shares, stock fully paid and forever non-assessable, and a directorate of capable men. Capitalists are restrained from investment in this company, as the shares to any one purchaser are limited to a purchase not exceeding 1,000 shares. There will be an advance in the price almost any day, so respond at once for your reservation of shares at the present quotation. This Company will demonstrate to the world that Socialism is practical in business, and this is your opportunity to assist in proving it.

The Charter and Chicago's Representation

It is now stated that an arrangement has been made in the Illinois legislature by which the country members are to vote for the new charter on condition that the number of representatives from Chicago in the legislature be decreased.

The working-class are very little interested in the action that is taken on the Chicago charter as it stands at present. It has been arranged so as to place the city as absolutely in the hands of great business interests as possible and the sooner it is defeated the better.

The longer the adoption of a charter can be postponed the more opportunity there will be for working-class influence to make itself felt in its make-up. The workers of Chicago are growing more intelligently alive to their interests every day and the time is not far distant when they can determine the character of the fundamental law under which they must live.

Consequently we have every reason to hope that the charter will be defeated in the legislature, and if not there, that it will be overthrown at the referendum which must be taken on its adoption by the voters of Chicago.

Needless to say that the capitalists of Chicago are equally alive to these facts. They wish the charter adopted as quickly as possible before the working-class become sufficiently alive to their interests to impress it with their wishes.

At the same time they are by no means averse to the reduction of Chicago's representation. It may seem rather strange that those who live in and rule Chicago at present should desire to see the influence of the city in Illinois affairs restricted.

But they realize, as well as the Socialists, that the time is not far distant when Chicago will be a stronghold of Socialist sentiment. In that day they will look to the reactionary, more backward sections of the state as the bulwark of privilege.

Consequently they are now preparing to serve Illinois as Kaiser Wilhelm has served Germany. They propose to practically disfranchise the voters of the great working-class districts of Chicago, by reducing their representation far below that of the more reactionary portions of the State.

It must not be forgotten that much as this will work to the disadvantage of the working-class at the present time it will grow worse with every passing year.

At present Chicago and its suburbs has a population almost equal to that of the remainder of the state. With the constant drift to the city the time is not far distant when Chicago will have a decided majority of the legislature. Unless some method is found to disfranchise the Chicago voters it will be impossible to prevent the workers of that city from exercising their strength at the polls in defense of their own interests.

If a bill can be carried at the present session fixing the representation from Chicago so low that the country will always have a decided majority, it will be practically impossible to ever alter that condition, since the legislature fixes its own basis of representation.

As a result we will soon be presented with the identical situation in Illinois that exists in several European countries besides Germany—a rural reactionary majority controlling, at the behest of the capitalists of the great cities, the working-class, and this in spite of the votes of the latter.

Against this proposed scheme to disfranchise the laborers of Chicago, not one word of protest has been raised by any of the various "friends of labor" whom the votes of Chicago workmen placed the legislature at Springfield.

The only paper that has dared to even point out these facts is the Daily Socialist. The only body of men that are now, and have been in the past, pointing out the only way by which the present rights of the workers can be maintained and future ones secured is the Socialists.

IF THE WORKINGMEN OF CHICAGO DO NOT LISTEN TO THE SOCIALISTS SOON, IT WILL BE TOO LATE. THEY WILL FIND THAT THE MEANS OF PEACEFUL REDRESS OF THEIR GRIEVANCES HAS GONE BY.

Here's Enthusiasm. I never dreamed that it could be done. I mean such a valuable daily paper published at so small a cost. It is the ideal workman's daily paper—ideal in every respect. There is no daily in America approaching within sight of the Chicago Daily Socialist in point of value, AT ANY PRICE. I wouldn't be without it for three times the price.

The editorials, cartoons—in fact every feature of the paper—are unsurpassed. I mean unsurpassed! The comrades who are "to blame" for the existence of the Daily Socialist will be immortalized. It is the greatest achievement of the American movement. Who said Socialism is impracticable? And that in this day of hearty achievements?

Comrades, you have my hearty support, so far as I am able. But I see the waste-basket sign. Yours for that despised Red Flag, M. B. BUTLER.

He was Born in Old Kentucky. We take the Daily Socialist, read it and believe it. Will you let me answer that old man in Kentucky who is 107 years old and always voted the Democratic ticket? I am in my 5th year. My father and mother were born in Kentucky. I commenced selling for Jackson in 1828, because I was compelled to or lose a piece of my ear. My father was a Whig and my cousin was a Democrat—only 12 years old. He bit my ears to make me yell for Jackson. In 1852 my father went over to Jackson. That made us all right. My first vote was for Polk in 1844.

Quite the Contrary. "Do you consider the diamond a lucky stone?" "I should say not. I bought one once and it cost me \$2,000 for breach of promise."

Since the New York senate turned down Hughes, all the papers have been running editorials about him as a presidential possibility.

Hungary.

The Hungarian Social-Democratic party have issued their annual report—in anticipation of the conference which was to meet at Budapest during Easter-time. Special opposition is being offered by the party to an amendment of the Labor Insurance Law, which deprives the workers of their existing two-thirds majority in the committees for the administration of sick funds.

The trade union press has increased its circulation from 90,000 to 145,000. The party, it may be added, is almost entirely identical with the trade unions. The organizations of the women and the youth of both sexes make great progress. Both organizations have their own organs, with a circulation of 2,000 copies each. The party funds are in a flourishing condition, and the central organ of the party had an increase of receipts from \$33,500 to \$54,800. The party secretary received directly \$5,400, as compared with \$2,500 last year.

The Socialist youth in Hungary are going to hold their first annual conference—Justice.

Mutterings of a Millionaire

The millionaire never prophesies. He sighs for profit. The laborer creates the wealth. The capitalist pays the bills; that is why he passes all the bills.

The old party politician depends chiefly on two things. He depends on his own sharp wit and on the dull wits of those who elect him to office.

We believe in solving the labor problem to our advantage by dissolving the labor union to the laborers' disadvantage.

United, we stand pat. Divided they fall flat. In calling the officials of the Western Federation of Miners undesirable citizens, it is not the first time that the president has shown his teeth.

The reason that labor has so much confidence in capital is because capital has so many good confidence men. If the workman cannot live on bread alone, there is the water; we have not monopolized all of that as yet.

Bourgeois News and Socialist Views

Now that the \$5,000,000 conspiracy is passing stale and that anarchist plot proves to have been still-born and the seed for a bumper crop of undesirable citizens has been sown, there is a lull in the storm oppressive to our sensation-acustomed nerves. Even the tramping of the hungry hordes of Bussé and the hungry cohorts of business moving to the spoliation of a city suddenly become beautiful to them, proves insufficient stimulant and we languish and droop waiting for our accustomed tonic to flow from the wisdom fount carried by our national buffoon, Theodore, self-appointed pontifex maximus and self-acting press agent.

Peace Apostle Stead is a living illustration of nature's idiosyncrasy. She bestows upon him a more than average intellectual capacity and allows him to store it with topsy-turvy facts. War is one of the means through which nature works to her ends. Like cannibalism, slavery, idolatry, polygamy, it is economic. When the proletariat of the world realizes its essential solidarity war will cease. Appeals to the consciences of bourgeois traders will profit nothing more valuable than high sounding platitudes and empty promises which will be broken at the first promptings of economic interest.

Peace Apostle Stead might study the following utterance of Congressman Cushing of the state of Washington, delivered in Chicago a few days ago at the Appomattox Day banquet of the Hamilton Club: "If it ever becomes absolutely necessary in this land to demonstrate the absolute freedom of man to labor when and where he will at honest employment, the existence of that immortal right will be forcibly and completely demonstrated, even though our beloved land is soaked with blood and bilged with graves." In the mouth of an apologist for the profit system this means, if it means anything, that the right of labor to hunt for a job shall be preserved, but the moment labor undertakes to assert its right to own the job the economic interests of the present job owners will be threatened and that moment will be the signal for civil war, however bloody, to preserve the job-hunting status of labor.

Violence

Roosevelt is making his whole fight against Haywood and Moyer and their friends upon the ground of alleged "talk of violence."

He declares that the Socialist papers and certain labor papers have been inciting to violence. He has repeated this assertion in another form in his latest communication to the New York Haywood conference.

He carefully keeps from giving any definite illustrations of this violent talk.

He has nothing to say about the time one of his friends announced as his principle of action, "To hell with the constitution."

He apparently has never heard of that other one who said, "To hell with habeas corpus, we'll give 'em post mortems," referring to the attempt of the supreme court to liberate men imprisoned without warrant or charge of any kind.

No protest came from Roosevelt against "violence" when a court was invaded by armed men and its jurisdiction defied.

There was no criticism of violence when union men were driven across the country at the point of the bayonet, when they were thrown into bull-pens without even a semblance of legal formality.

Yet these acts of violence were committed by men who are SUBJECT TO ROOSEVELT'S ORDERS.

Only when workmen began to object to being murdered, only when a protest was raised against the violence of Roosevelt's friends, only when the light of publicity was turned upon their dastardly acts and when the workers began to threaten political action (not violence) did Roosevelt hear anything about violence.

This talk is not for nothing. It has been a trick that has been played in nearly every European country when the throne was in desperate need of support to stir up violence and in the storm of indignation which that violence would excite to kill or imprison all those who dared to criticize tyranny.

It looks very much as if Roosevelt and his capitalist masters were playing the same game.

If, in the midst of the present excitement over Haywood and Moyer, some insane fool, or agent provocateur, could be induced to make some sort of a violent move, it would then be possible to let loose all the fiends of hades upon those who are fighting the cause of labor.

It would insure the death of the accused miners in Idaho. It would place Roosevelt safely in the white house for a third term. It would give capitalism another long lease of life, and strike a blow at Socialism that would set it back for years.

KNOWING THESE FACTS WELL, AS BOTH SIDES DO, WHICH IS MOST APT TO SEEK VIOLENCE?

Slavery of the South in '07

As introductory to our subject we quote from the celebrated "Hazard Circular" of September 18, 1862: "Slavery is likely to be abolished by the war power. This I and my European friends are in favor of, for slavery is but owing of labor and carries with it the care of the laborer, while the European plan is capital control of labor by controlling wages."

The editor of the "Cosmopolitan" in his introduction to the article by Richard Barry on the subject of "Slavery in the South to-day" makes the following remarks: "In a new and sinister guise, however, slavery has again reared its hideous head, a monster suddenly emerging from the slimy sordid depths of an inferno peopled by brutes and taskmasters in human semblance. Whites and blacks are to-day being indiscriminately held as chattel slaves, and the manacle, lash, bloodhound and bullet are teaching them submission without partiality to color."

"Like a galvanic shock it undermines our self-importance to find that this new form of slavery places white and black on a plane of perfect equality, and enslaves them both with generous disregard of ancestry or complexion. But where in negro slavery there was often sentiment, a marked exchange of affection between master and slave, there is nothing in this new form except the basest and most cold-blooded calculation joined with an indifference to human life which transcends anything that has gone before it."

"Industrialism long ago began a system of slavery whereby the worker was squeezed of his skill and vitality, and then, when he ceased to be of use, was thrown aside like the factory rubbish. Was this not a cheaper form than the old slave system?"

"Eventually, however, they invented a chattel-slave system, the devilish cunning of which is a marvelous product. The Constitution of the United States prohibits slavery; every State constitution does the same; but now, at this very hour, an atrocious, blood-thirsty system of chattel slavery exists in many of our Southern States. The Standard Oil clique, H. M. Flagler's Florida East Coast Railway Company, the turpentine trust, the lumber trust, and other trusts have put in force a system of peonage which is actual slavery, and it is done under the legal sanction of State laws—not by direct laws, but by subterfuges and circumventions which nevertheless attain the end in view."

"What follows is an actual statement of facts, and a conservative one at that. Thinkers long ago predicted that as the trusts increased in power they would tolerate the worker's protests less and less, and would finally institute a system that will give man the chance to attain the very highest development possible and thus make of men a race of kings."

An Addition to the Catechism. An enterprising superintendent was engaged one Sunday in catechizing the Sunday-school pupils, varying the usual method by beginning at the end of the catechism. After asking what were the prerequisites for the Holy Communion and confirmation, and receiving satisfactory replies, he asked: "And, now, boys, tell me what must precede baptism?" A lively urchin shouted out: "A baby, sir!"—Ladies' Home Journal.

After the Service. Deacon Wigg—"Now, that was a dashed discourse." Farmer Wagg—"Yes; but do you know, I thought it never would go."—Judge.

OF INTEREST TO WOMEN

Servant's Union

The General Dutch Domestic Servants' Union held its third annual congress at Rotterdam not long ago. The president, Miss Avverba, said in her opening speech that there had been a great change in opinion about the servants' movement as compared with former times. The servants were no longer regarded as too ignorant to manage an organization.

People who formerly looked on the whole affair as too ridiculous to be taken seriously have now been converted by the work of the society. A new set of statutes was discussed at the congress. These described the aim of the society to lie in the improvement of the material and moral condition of its members. A demand was also made for legislation to protect servants.

Especially a shorter working day and factory inspection is asked for, with a view to the inspection of the dwelling and sleeping accommodations of servants.

Where Women Vote

New Zealand was the first English colony to give woman the ballot. The effect has been, both social and political. Women are now treated with more real respect—and that not merely at election time.

Fourteen years of political life have shown that women are equal to any demands the state puts on voters. Working side by side with man, woman still keeps her place—"not like to like, but like in difference."

The word pictures of which so many have been drawn of domestic discord, of children forgotten, husbands uncared for, dinners uncooked, dress and appearance neglected—have already passed from memory in New Zealand. It is the commonest sight to see husband, wife and grown-up children walking or driving cheerfully to the polls together.

His Mammy's Li'l Man

He gwine long de garden path— He kiss his li'l man;— He de sweetest of de chilluns— He his mammy's li'l man. An' yit, it seem but yesterday He lef de cradle lan. He tell de word 'dat love him so, "Good mawnin'!"

Woman in the Movement

The influence of woman is not sufficiently evident in the Socialist movement. This is distinctively a weakness which should be remedied. It is true that we have a limited number of women who are active in our propaganda and speaking and lecturing and who have done and are doing excellent service, but the number is far short of what it should be for the good of the movement.

Home Sweets

Chocolate Bread Pudding. Over 2 cups of stale bread, crumbed fine, pour a small quart of hot milk in which a square of chocolate has been melted; beat with egg beater till very fine; add 1 cup sugar, 1 whole egg and 1 yolk, 1 teaspoon vanilla, 1/2 teaspoon clove, salt, piece of butter size of egg; beat remaining whites with common sugar and spread over the top when done; dry in the air. Eat with cream or milk.

For Home Dressmakers

LADIES' NINE-GORED SKIRT. With an Inverted Box-Plait at Center-Back Seam and Inserted Plaited Sections Below Hips at the Other Seams. Paris Pattern No. 1571. All Seams Allowed. This beautiful model for a separate skirt is made with nine gores and an inverted plait at the back. Such a skirt is adaptable to almost any of the seasonable materials, and would be appropriate in silk or wool or washable goods. In the latter it would only be appropriate for the heavier washable materials, such as duck, pique or poplin.

Deep Enough

Said a slender young lady named Jones, "For my thinness there's one thing I'm sure of. Through my beauty may be only skin-deep," said she, "yet it goes all the way to the bones."

Equal Pay for Equal Work

The women teachers of New York city are making a plucky fight against unjust discrimination against them in salary on account of their sex. It is unfortunate that the metropolis cannot manage its own school business without interference from Albany, but the women have the sympathy of all lovers

Dress Suggestions

Exceedingly good are the mercerized linens made with a rough weave to resemble the rajah silks. They are so choice in tinting and texture and so inexpensive in price that they have created a furore, but it has not yet been demonstrated how well they will wear and retain their luster.

The Need of Leisure

In all the great material development I see on every hand, there is still one thing left out of the equation. It is ME. What care I that machinery has revolutionized all industrial activity if I at the same time am not benefited to the extent that my life will be larger, brighter and better than ever before. It is not egotism that bids me speak thus in referring to myself as I did, I mean the collective individualities of the world. When there shall have occurred that which will assure to me and my fellow men that leisure which is so necessary for soul development, I will be one of the first to herald it forth.
