

MORE STRINGENT LAWS FOR TRUST REGULATION; PROTECTION FOR WORKERS

Bold Statement From the Nation's Protective That He Will Not Alter Course in Trust Legislation.

Provincetown, Aug. 20.—An historic event was the laying of the cornerstone of the Pilgrim memorial monument here today.

such reversal of policy if possible. If so, I am sorry, but it will not alter my attitude. No Change in Policy. "Once for all, let me say that as far as I am concerned and for the eighteen months of my presidency that remain there will be no change in the policy we have steadily pursued or let us in the efforts to secure the honest observance of the law for I regard this contest as one to determine who shall rule this free country, the people through their governmental agents or a few ruthless domineering men whose wealth makes them peculiarly formidable because they hide behind the breastworks of corporate organization. I wish there to be no mistake on this point; it is idle to ask me not to prosecute criminals, rich or poor, but I desire no less emphatically to have it understood that we have sanctioned and will sanction no action of a vindictive type, and above all no action which shall inflict great and unmerited suffering upon innocent stockholders and upon the public as a whole. Our purpose is to act with maximum leniency, compatible with attaining our end. In the man of great wealth who has earned his wealth honestly and uses it wisely we recognize a good citizen of the best type, worthy of all praise and respect. Business can only be done under modern conditions through corporations and our purpose is heartily to favor the corporations that do well. The administration appreciates that liberal but honest profits for legitimate promoting, good salaries for able and upright management and dividends for capital employed, either in founding or continuing wholesome business ventures are the factors necessary for successful corporate activity, and therefore for generally prosperous business conditions. The president's entry into Provincetown was made on the occasion of great display. He yachted, the Mayflower, had been escorted to the bay by warships, and as the party landed guns boomed out and the celebration had started. With the president was the usual retinue of secret service men, state dignitaries and representatives of

Charges High Finance With Plotting to Bring About Financial Unrest to Discredit Administration.

Great Britain, headed by Ambassador James Bryce. With the president was Mrs. Roosevelt, Miss Ethel and Quentin Roosevelt and Assistant Secretary Latta. The town had turned out at the water front, which was one long line of cheering humanity. The party landed within a short distance of the historic spot upon which the Pilgrims set foot 257 years ago. President Roosevelt was the speaker of the day. He said in the course of his remarks, referring to the questions of state rights, that they are called so, anti-trust legislation and labor legislation. The utterly changed conditions of our national life necessitate changes in certain of our laws, of our governmental methods. Our federal system of government is based upon the theory of leaving to each community, to each state, the control over those things which affect only its own members and which the people of the locality themselves can best grapple with, while providing for national regulation in those matters which necessarily affect the nation as a whole. It seems to me that such questions as national sovereignty and state rights need to be treated not on the basis of the interests of the people as a whole. National sovereignty is to be upheld in so far as it means the sovereignty of the people used for the real and ultimate good of the people; and state rights are to be upheld in so far as they mean the people's rights. Especially is this true in dealing with the relations of the people as a whole to the great corporations which are the distinguishing feature of modern business conditions. Require Efficient Control. Experience has shown that it is necessary to exercise a far more efficient control than is at present over the business use of those vast fortunes, chiefly corporate, which are used (as under modern conditions they almost invariably are) in interstate business. When the corporation was created none of the conditions of modern business existed. They are wholly new and we must create new agencies to deal effectively with them. There is no objection in the mind of this people to any man's earning any amount of money if he does it honestly and fairly. It is not as the result of special skill and enterprise, as a reward of ample service actually rendered. But there is a growing determination that no man shall amass a great fortune by special privilege, by chicanery and wrongdoing, so far as it is in the power of legislation to prevent, and that the fortune when amassed shall not have a business use that is anti-social. Most large corporations do a business that is not confined to any one state. Experience has shown that the effort to control these corporations by mere state action cannot produce wholesome results. In most cases such effort fails.

SCABGUES INSANE

Worked 24 Hours a Day to Help W. U., Chauncy Depew, et al, and Suffers Penalty

New York, Aug. 21.—Harry Behrman, a strike breaker, who is said to have worked twenty-four hours a day ever since the strike here a week ago, went mad in the general office of the Western Union Telegraph Company and drove most of the employees out of the room into the street. He was employed in the commercial news department and was busy at work at his key when he became insane springing upon his desk with the declaration that he would give every telegraph operator \$1,000 a day. After jumping from one desk to another and throwing everything he could get his hands on at the other employees he was subdued and taken to Bellevue hospital. It is said that the extra wages paid operators remaining on duty during the strike had tempted him beyond physical endurance. He is 35 years old.

HOW TELEGRAPH COMPANIES BILKED THE ENTIRE NATION

Workers Pay Interest on \$62,370,000 of Watered Stock; United States Held Back by Capitalists.

WHAT THE COMPANIES WON Increased capitalization fifty years, \$97,000,000. Actual value Western Union plant, \$35,000,000. Squeezed from the workers, \$62,370,000 by the "watered stock" process. Paid to George J. Gould, Russell Sage, J. Pierpont Morgan, Jacob H. Schiff, Chauncy Depew, John Jacob Astor, E. H. Harriman, Thomas T. Eckert, and other controlling stockholders a net profit of \$100,000,000 in twenty-five years.

misfortune to be placed in the condition of economic dependence upon this corporation. Men Organize. All these years the telegraphers have had no organization and have been in no position to rebel against the injustices perpetrated by the Western Union. About three years ago they began to organize into a union.

At first it was a difficult task. There were many who were afraid to displease the company officials for fear of the blacklist and other well known oppressive tactics brought to bear upon the men by the employers' associations. The greatest secrecy was maintained until in the spring of this year the men decided the time was ripe to make a bold front and all wore union buttons into the offices on the same day.

Surprised. The company officials were taken completely by surprise. It was not two weeks later when they tried to weaken the union by "voluntarily" granting

Workers Get Poorer While They Produce the Wealth in Wor'd Record-Breaking Pace.

the men a 10 per cent increase in wages. To cover this "philanthropic" action upon their part they immediately raised the telegraph rates to the public 20 per cent. And they did not keep faith with their employees in the matter of the 10 per cent increase. The men were discriminated against upon every hand, and those who actually received their increase did so because they fought the matter through. The revolt or strike which is now on is the result of these enumerated conditions and facts. When the justice in the case is so plainly evident, can there be any doubt as to the outcome of the telegraphers' strike?

POSTAL BEGS MEN TO WORK

Big Corporation Tells Public It Has Operators but Sends Deceitful Letters to Strikers

Officials of the telegraph companies gave out statements last night to the effect that they consider the strike won by the companies and that their force of operators is competent to handle their business.

The men combated these by displaying first a copy of a circular letter sent out to strikers by a Postal company official and second, copies of three telegrams said to have been intercepted in the office of the Postal company by spies working as non-union operators. The letter was signed by J. S. Bohrer and the last paragraph follows: "I would like to have you call and see me, whether you return to work or not, as I wish to assure you that I am all sincerity that I can promise you nothing, but I am here to intercede for you and I feel sure if you will call and see me some arrangement can be made that will insure your steady employment in the future. The following are the telegrams as given out: Chicago, Ill., Aug. 19.—J. Kent, Manager Telegraphs, Montreal, Canada: Will you please say what business Montreal will take from us and what it will not? We are getting business back from you as far back as the 12th. Answer, O. C. Chicago, Aug. 19.—M. M. Davis, New York: Will you kindly give Chicago as good receivers as possible? We have no experts. I. C. Chicago, Aug. 19.—New York: Can't you arrange to get two good men together? Our man on 28th says your sender won't ever do for that place. Caption: The messages were sent—all but the last sentence of that addressed to M. M. Davis, New York. In this one he asserted that some one had insured the telegraph lines, but he did not appear in the original message. Asked how these telegrams could be diverted to union headquarters, he said: "I suppose we have traitors in our camp."

WHAT THE EMPLOYEES LOST

A reduction of wages since 1880 from an average of \$100 per month to an average of \$60 per month. Jobs through blacklists and lockouts. Long hours and intolerable conditions of servitude. WHAT THE "PUBLIC" RECEIVED "The telegraph in this country is the rich man's mail," declared a United States senator. The poorest service and the highest rates of any civilized country on earth. Poor people denied use of telegraph by prohibitive rates. Compared to France, Prussia, Switzerland, England, Belgium and Australia, where the telegraph is a part of the government postal system, the rates here are more than twice as high. Statistics also show that in these countries when the government took over the telegraph and reduced the rates, the increase in business handled was more than 50 per cent.

MAIL STRIKE BULLETINS

Following are extracts from letters received from out of town points:

St. Louis—Everything in fine shape here. Plenty of money. Our only fear is that the boys will not go back when the strike is over. Twenty of those with railroads.

Cleveland, O.—Both Postal and Western Union in this city are without operators. We present a solid front and are prepared to remain out indefinitely.

St. Paul, Minn.—Reports to the contrary, 104 out of 106 Western Union men walked out at the signal to strike. The whole northwest is out to a man, and even if they were not, no business can be handled with the wheat belt while the St. Paul office is tied up.

Memphis, Tenn.—Both companies are down and out. We have signed contracts with every brokerage concern in this vicinity. We have similar reports from New Orleans.

Houston, Tex.—For the second time

within a year we have the Western Union tied up at this point. The Postal also is out, including chief operators.

Louisville, Ky.—We are solidly union here. The response to the general strike was unanimous.

Des Moines, Ia.—"Mr." Wright, who went to San Francisco to work for the Postal, has returned to Des Moines. He is the only man working in the Postal. The Western Union is handling no business.

Galveston, Tex.—Galveston, including the Mexican cables, are off the telegraph map. We had to bring the alien labor law into play, however, before a complete tie up was had on the cables.

Police Chief Still Warlike

The police will not be withdrawn from around the Western Union and Postal Telegraph buildings. No violence has occurred and there is likely to occur, but Chief Shipley evidently is anxious to see something started.

The chief said that from present indications the detail would be continued. The city will continue to pay for a guard of police to stand around two buildings and give things a warlike appearance because peaceful men and women are out on strike, trying to get a little justice.

While the police are said to be gentlemanly and courteous to the strikers, it is claimed by some of the operators that men who are believed to be plain clothes men from the city hall try now and then to start something, but do not get very far.

PHONE MEN WIN 8 HOURS

The American Telegraph and Telephone company yesterday signed an agreement with the Commercial Telegraphers' union, granting an eight hour day and a 16 per cent increase. This ends the possibility of a strike on the telephone lines.

This company is really a long distance telephone concern, but they employ about 300 expert telegraphers and wire men.

275 BROKER MEN WIN ALL

The situation in brokers' offices today is as follows: Number of operators working under a closed shop agreement, 275. Number of men on strike, 13. Number of brokers signing union scale, 27. Following are the brokerage firms that refused to sign the union scale: Sidney C. Love & Co., J. W. Wrenn & Co., Searson, Hammill & Co., A. O. Slaughter & Co., C. H. Camp & Co., Charles Minzesheimer & Co.

FEW ASK FOR STRIKE RELIEF

Strike benefits were paid to telegraph operators yesterday. Anyone who felt in need made a request on the man handling this fund. The amounts asked for ranged from \$1 to \$5. Union officials say they have plenty of money to take care of any present case of want, and in a few days will have ample funds to begin paying regular strike benefits of \$12 a week to married men with children, \$10 to married men without children, and \$7 to single men.

Two Died in Great Storm Monday Night

The terrific storm that passed over Chicago last night added two to the death toll resulting from those causes occurring within the past few days. Mrs. Mary Lynch, aged 74, of 23 West 10th street, died from a heart ailment and a "bright" Thomas Thompson, aged 45, 715 Ogden avenue, overcome by the intense heat.

At least a dozen buildings were struck by lightning and injured more or less seriously.

EMPLOYERS' ASSOCIATION IS ON THE WARPATH

(By United Press Associations.) New York, Aug. 21.—In yesterday's session of representatives of nineteen big employers' associations, New York labor leaders see not a national employers' federation to promote industrial peace, but an amalgamation of associations to extend the propaganda for the open shop, and really to oppose organized labor in all branches of industry represented.

In support of their argument that the proposed alliance of employers is not overfriendly to unionism, labor leaders called attention to the filing in Washington yesterday of the suit by the Bucks Store and Range company, of which Van Cleave is president, to enjoin the American Federation of Labor from boycotting the concern's product.

The petition raises three points, as follows: Is the boycott a conspiracy in restraint of trade within the meaning of the Sherman law? Is the American Federation of Labor an unlawful organization in that it brings to bear the hostility of its affiliated unions upon the employers in behalf of any one of its affiliated members? Shall the American Federation of Labor be permitted to continue its boycott of the stove and range company?

IMMUNITY FOR ALTON ROAD

(By United Press Associations.) Washington, Aug. 21.—Former United States District Attorney Morrison of Chicago says he promised absolute immunity to the Chicago & Alton railroad in return for its assistance to the government in prosecuting the rebate cases against the Standard Oil company. This immunity, he declares, extends to individual officers of the railroad as well as to the corporation.

"Did you enter into the immunity agreement on behalf of the government with representatives of the railroad?" Morrison was asked today.

"I did, with Ralph M. Shaw of Chicago, one of the counsel for the Chicago & Alton railroad."

"Did that agreement refer to corporate immunity or only to individual immunity?"

"The spirit of the agreement was broad enough to cover every kind. We agreed to grant the broadest kind of immunity to the railroad if it would enter into a bona fide pledge with us to furnish in good faith all of the facts and information sought or necessary for the indictment and conviction of the Standard Oil. To have restricted immunity to the individuals of the road or to the road in its corporate capacity would have been in violation of the spirit with which the agreement was sought and obtained."

"Did you make the agreement on your own responsibility or with the approval of the department of justice?"

"It was made with the knowledge and approval of the attorney general, Moody."

SURE DEATH IN CZAR PLOT TRIAL

(United Press Associations Cable.) St. Petersburg, Aug. 21.—Behind closed doors and with the verdict practically a foregone conclusion, the trial was begun today of the eighteen terrorists alleged to have been implicated in the plot to kill Czar Nicholas. Five of the prisoners were women and the death penalty will be pronounced against them as readily as their male companions. All the prisoners have refused to offer the least information regarding the alleged plot. Realizing that they face death and there is no hope of escape for any of them, they faced the court cheerfully and without the slightest sign of fear. Day and night sittings will be held, so that the form of trial can be completed as quickly as possible.

\$5,000,000 FINE FOR ASPHALT

(By United Press Associations.) Washington, Aug. 21.—Following the example of Judge Landis in Chicago, the Venezuela courts have assessed a \$5,000,000 fine against the New York & Bermuda Asphalt company on account of alleged participation in the Matos rebellion. Minister Russell, reporting to the state department by cable, adds that the court authorized the appointment of assessors to fix damages against the company in five other particulars, such as the loss of revenues because of the revolution, the killing of Venezuelans, etc. The company has already given notice of its intention to appeal.

ROSE TELLS OF PANC PLANNED

By G. D. ROSE, Chairman Brokers' Committee.

The brokers by signing contracts with their union telegrapher prevented a great panic and assured themselves of the faithful services of efficient and expert operators while the rest of the telegraph service remains in a state of utter demoralization. The conviction that such a panic was desired and planned by certain financial interests is growing stronger every day in the minds of newspaper and business men and those in a position to learn all the facts brought out in this struggle. Else why did Colonel Crowley, immediately after the silent Parry, on March 14, begin his vicious warfare upon the union by discharging its members, and why did he "play horse" with President Roosevelt's representative, Commissioner Neill, and his arbitration agreement, and why did he seek to involve the railroads by trying to stampede the railroad telegraphers into a general strike by fake messages and sensational newspaper stories? He who runs may read. The Western Union, the Postal Telegraph Company and the Associated Press are defeated and the power back of them is defeated too.

HE'S OFF; TAFT BEGINS HIS RACE

Columbus, O., Aug. 21.—Secretary of War William H. Taft outlined his views on present public opinion in a speech delivered before the Buckeye Republican club of this city at the beginning of his race for the white house.

He in the course of his remarks expressed himself as being in favor of government "control" of railroads, trusts and all sorts of combinations, but does not favor by any manner of means government ownership. The secretary stated that he was opposed to government ownership of railroads because existing government railroads are not so efficiently managed as private ones. A second objection was a would require twelve billions of capital to acquire all interstate railroads and saddle an immense debt upon the nation.

A third objection was it would place in the hands of a reckless executive a power of control over business and politics that the imagination can hardly conceive.

One of the best ways to help the Daily Socialist is to call at our office and buy some of the Socialist Books we carry in stock. If you cannot call, send in an order by mail. We carry all the books published by Chas. H. Kerr & Co.

CHICAGO MUST HELP A LORD

London, Aug. 21.—Mrs. L. Z. Leiter, mother-in-law of Lord Curzon, who has already cost the working people of America, and especially of Chicago, an enormous amount of money, is preparing to entertain lavishly.

To entertain lavishly, of course, means that she must have all the money that Chicago workers can be made to produce, for nothing is too good for the nobility of Europe. Rent and other necessities of life will now probably take a little jump in Chicago.

Mrs. Leiter has been visiting her son-in-law, Lord Curzon, at his new place, no doubt bought with Chicago money, near Basinstoke, in Hampshire, but in a particularly delightful spot. The great residence in the north, of which she came into possession just two years ago.

It is said that Lord Curzon is her favorite son-in-law, and that it has always been a mystery to the rest of Mrs. Leiter's family why these two people so unlike should become so closely united, especially when the Lord is a notoriously difficult man with whom to get along. Lord Curzon no doubt found it more easy to get along with Mrs. Leiter because she possessed an enormous amount of the product of American working people.

It costs Chicago working people a million a year to keep the Leiter family and its British captives and lords.

105 MINERS KILLED

Berlin, Aug. 21.—The directors of the Shantung Mining company have received a cable message from Tsingtau announcing that an explosion of dynamite underground in the Faustine mine resulted in two Germans and 102 Chinese being killed.

The Chicago Daily Socialist is equipped to do linotype composition in all languages using English or German characters at a very moderate rate.

RESOLVE TO HELP STRIKERS

(Mail Correspondence.) Los Angeles, Cal., Aug. 17.—Los Angeles Socialists have resolved to assist the striking telegraph operators. At a meeting of the Los Angeles local held on night or two ago resolutions were adopted to effect as follows:

Whereas, the telegraph operators of Los Angeles and other cities of the United States are on strike for better conditions of employment, the recognition of their union and for the reinstatement of several of their fellow workers, in recognition of the principle that "an injury to one worker is an injury to all," therefore be it

Resolved, By Branch Los Angeles of the Socialist Party of America, an integral part of the International Socialist movement, the organized political expression in all countries of the economic interests of the working class, that we hereby pledge the telegraph operators of this and every other city our moral support and whatever encouragement it may be in our power to render them in their struggle for the advancement of their interests as a part of the working class; and be it further

Resolved, That a copy of these resolutions be furnished to the telegraph operators of Los Angeles, the local daily press, the Chicago Daily Socialist and the Daily World of Oakland.

Copies of the resolution were forwarded the Socialist by Secretary Walter R. Clifton.

JONES SAYS RAIL MEN ARE READY

Dal Jones of the local grievance committee and 36 R. T. men, has made an important announcement, which encourages the strikers.

He said that last Sunday about fifty general chairmen and secretaries of locals of the Order of Railroad Telegraphers from places around Chicago came on him to offer their personal pledges of moral and financial support, and one general chairman of an important railroad runner out of Chicago said that operators on that road would under no circumstances work with Western Union operators unless there was an satisfactory settlement.

These general chairmen came from as far north as Minneapolis, as far west as Omaha and as far south as St. Louis.

There was no meeting of the strikers today, all attending the baseball game at Logan Square between the Western Union and Postal operators.

TWO DIED IN GREAT STORM MONDAY NIGHT

The terrific storm that passed over Chicago last night added two to the death toll resulting from those causes occurring within the past few days.

Mrs. Mary Lynch, aged 74, of 23 West 10th street, died from a heart ailment and a "bright" Thomas Thompson, aged 45, 715 Ogden avenue, overcome by the intense heat.

At least a dozen buildings were struck by lightning and injured more or less seriously.

SHOT HER HUSBAND; INVITED PUBLIC IN

(By United Press Associations.) Wheeling, W. Va., Aug. 11.—"Come up, five killed my husband," shouted Mrs. William Walker, dressed in evening clothes, in which she had arrayed herself in preparation for death, as she leaned from a second story window of her home in the heart of the city, where the shooting had attracted a large crowd...

BOUND VOLUMES OF THE DAILY SOCIALIST

A limited number of bound volumes of the Chicago Daily Socialist from October, 1906, to April 31, 1907, are now completed and ready for sale. These volumes are substantially bound in leather and will give a complete record of the Daily's late months. They will sell for \$5 net. When these sets are gone it will be utterly impossible to see them. If you want one order quick. There are only eight volumes that can be sold. There are being printed the volumes of the weekly closing to its last issue. These will be sold at the same price.

THINK OF YOUR OWN PRINTING IN YOUR OWN OFFICE

Think of it—your own printing in your own office. Read the notice in another column.

The Hustlers' Column

A. G. Brastrup, Jamestown, N. D., picked up a couple of new ones this week. The Dakotas and Oklahoma are certainly in the wide-awake list.

Martin Hiegl, Oswein, Ia., adds to the daily's list that thriving railroad center.

E. M. Wood, Long Island, Kan., sends in a trial subscription. The telegrapher's strike is waking the boys up to the fact that the Chicago Daily Socialist is the only real "friend of labor," after all.

On Sunday, August 25, at 15 North Clark street, at 2:30 p. m., will occur the regular monthly meeting of the stockholders of the Chicago Daily Socialist. Be present without fail.

E. S. Crain, Walton, Kan., renews his subscription for another six months and has kind words for the daily.

H. C. Schettler, Baxter, Ia., sends in a bunch of \$5. No wonder Baxter is waking up. This is the best of the most advanced Socialist towns in the Union.

J. P. Clarkson, Newton, Ia., sends in renewal for himself and J. R. Kennedy.

"I can't get along without the daily message of truth," says A. Bluestone, New York city. It's interesting, even in "Little Old New York."

Os S. Young, Reno, Nev., sends \$2 for which please enter undesirable on your mailing list for one year.

O. N. Cleven, Alberta, Can., sends \$2.50 for renewal of his subscription for another year.

"Do not allow my name to be taken off, as I want every issue," writes J. L. Trickett, Laketon, Ia.

"I sincerely hope the Chicago Daily Socialist will be enabled to continue for it is much needed," writes Will O. Upton, Placerville, Cal. He sends with the money to make his wish possible \$2 for another year.

"Don't let the paper die," says F. E. Townsend, Belle Fourche, S. D. He remits \$10 for a number of new subscriptions.

"The Chicago Daily Socialist has the right ring to it," says W. E. Gorham, Wicacaw, Me., and he remits \$4 to make good.

Now is the time to push things for our job printing plant. Remember, we are equipped to do all kinds of work. The volume of trade coming to us should be very large. Sit up your union to actively along this line.

This is the opportune time to rush in subscriptions for the daily. Every dollar received this year makes a Socialist voter for next year. The campaign of 1908 will be a mighty one for the Socialists. Push hard now. It will all bear big fruit next year.

F. J. Peet, Toronto, Junction, Ont., sends in remittance to help the Sustainment Fund. He realizes that the paper needs all the help it can get in these, its struggling days.

Rush in your orders for jobwork, big or little. We are prepared to do all kinds.

"The hustlers of Florence, N. Y., would look after A. J. Phalen. Somebody sent him a trial order of the Daily. He is very bitter and needs help in his benighted mental condition."

Next Sunday's meeting of the stockholders will be a highly interesting one. The committee will have a; extended report on the audit. Lay your plans to be present.

"I see my time is up. Can't do without the Daily, so here is a dollar for renewal," writes B. W. Deffenburgh of Cumberland, Md.

Our job plant is doing a rushing business. It will make us hump to get in the purchase price by the time the ninety day option is up. Now is the opportunity to push the Daily to late months to a sweeping conclusion.

Horatio Evans, Elkhardt, Ind., though pressed by adversity, can't do without the Daily.

T. A. Weekly, Jacksonville, Ill., remits for four new subs, rounded up by him.

S. L. Hoover, Norfolk, Va., has the Daily follow him on his vacation.

BANDITS IN HEART OF TOWN CAPTURED

Joseph Jobanson, aged 25, and Henry Debler, aged 20, were arrested this morning after they had fought a running pistol battle with police officers. They held up a well dressed stranger on his way to Dearborn station, and striking him to the ground, were preparing to rob him when Policemen Lyons and Voruk of the Central detail heard the man's cries for help. The bandits were pursued to Michigan avenue, where they surrendered after their ammunition had given out.

OUR JOB PRINTING PLANT

Plan for Its Purchase—Prospects for Business

In order to purchase our job plant and thus be able to set this new force in motion for the benefit of the Daily and the success of the movement, it is necessary to raise \$4,000. This sum must be raised within the next few weeks. When the newspaper plant was purchased last spring H. G. Wilshire loaned the company \$4,000. This sum was secured by first mortgage on the plant. The total amount of this mortgage is a little over \$12,000. The linotype machines alone would bring at a forced sale nearly this sum. When Wilshire learned we intended to put in a job plant he offered to take unsecured notes for the amount, leaving us those \$4,000 of first class secured notes as a means of raising ready cash to float the new enterprise—the job printing plant. These notes are in denominations of \$100 each, dated May 1, 1906, bearing 6 per cent interest. If you have a savings bank account you could well afford to transfer same to these notes for better security or a more safe investment cannot be found. The Daily Socialist expects that forty Socialists will respond within a week, taking each one of these notes. Or twenty might divide the sum up among themselves at \$200 each. A Socialist living many miles from Chicago made a careful inspection of the newspaper plant this week. He declared the result to have been wonderful and the achievement phenomenal. The Daily is only nine months old at that. A year from now and still greater things will be in evidence. Since the announcement a few days ago of our job plant being ready for business there has come from every quarter work in this line. Whether the job printing plant shall be a revenue producing institution or not depends entirely on the activity of the friends of the movement in bringing their work to the office of the Workers' Publishing Society. The machinery is now being installed. By next week at this time the work will be in full swing. When its full earning capacity begins to be manifest in cash the sickest item about the whole institution will be that defective, rarest find of all our dreams. Send in for one of those first mortgage 6 per cent notes, and sent without delay. When our building is fully rented, job print fully installed, and linotype machines working three shifts we will be on the safe side of this whole proposition. We are facing a real live business proposition and the thousands of stockholders of this paper do not propose to do anything but bring the whole plant to a complete and lasting success. A good stiff hard pull and a pull altogether now, for the next sixty days, and the daily will stand a strong winner. The paper will soon be a year old. Let's bring it to a paying proposition on its first anniversary. It can be done!

WELL, GLORY BE, THE STANDARD IS INNOCENT

(By United Press Associations.) Washington, Aug. 21.—"I do not believe the industrial conditions of the country warrant the lack of confidence that seems to exist in some business centers," said John Mitchell, president of the United Mine Workers. "The only thing, in my opinion, that would bring on a business depression would be overproduction, and there are no signs to indicate that at present. Labor is employed and the people are continuing to spend money, and as long as these conditions prevail there is no danger in my opinion, of hard times. No, there is no danger of another coal 'ke. Our agreements with the mine owners run for several years yet."

OUR INVISIBLE AMERICAN KING

A BOOKLET By PARKER H. SERCOMBE. 10 Cents per copy. \$6.00 per 100. This Booklet is the Death-Knell to Government by the Money Power. It enumerates our twenty-six criminal offenses in their true order, demanding wholesale punishment for wholesale criminals and retail punishment for those who commit retail crimes. MILITARY ATROCITIES A BLIGHT ON CIVILIZATION

(United Press Associations Cable.)
 Leicester, England, Aug. 21.—Atrocities too horrible to mention and a disgrace to the civilization they were supposed to represent are charged against the French and Spanish soldiers and sailors at Casablanca by S. W. Bolton, the first refugee from Casablanca to reach England.

The whole massacre there, Bolton asserts, was deliberately arranged by the French. The invasion of Casablanca was so arranged as to cause the Moors to resort to violence, thus giving the invaders an excuse for shooting down helpless natives and resorting to terrible outrages against the Moors.

Bolton is connected with the North African mission. He made a lengthy statement to the United Press detailing with sensational charges, which show the French and Spanish occupiers of Casablanca in a terrible light.

He said:

Disgrace to Civilization.

"The conduct of the French and Spanish soldiers at Casablanca is a disgrace to civilization. It is almost beyond belief that such horrors were committed by the French and Spaniards could have been done by Christian Europeans.

"Though my country has alliances with France and Spain, I consider it my duty to reveal the truth and I believe France deliberately arranged to cause the massacre at Casablanca as an act of petty revenge.

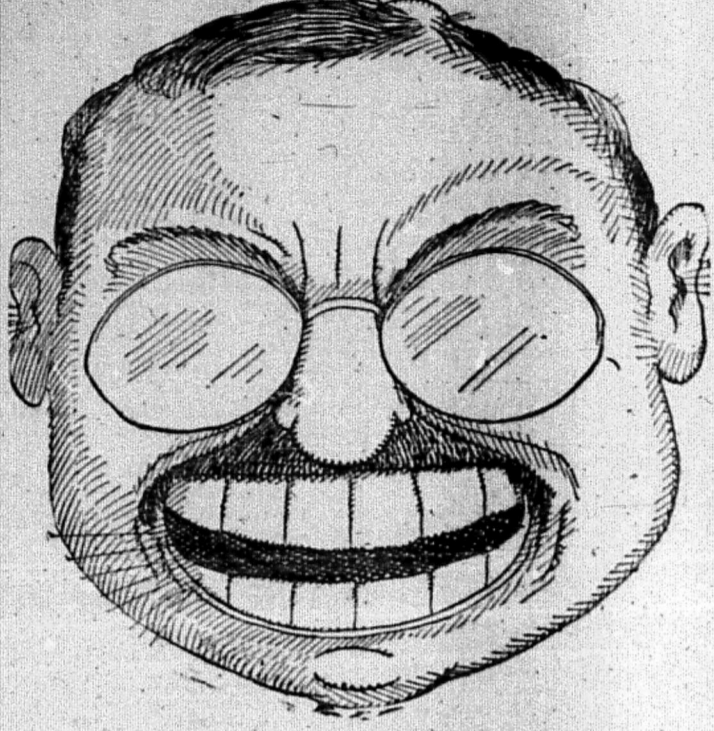

"But France landed 100,000 men in the first instance. France had landed 500 or 600 men to preserve order there would not have been any massacre. There was no need for France to try to capture the town. The Moors stood ready even to deliver the keys to France if they had been asked for, and to punish in any way accessible to France the assassins of Europeans who were in prison.

"But France landed less than 100 men, who tried to force their way into Casablanca, and when they resisted, began shooting.

"The whole affair was prearranged with the idea of making the Moors aggressors, so that the French and Spanish soldiers could have the sport of killing defenseless men and women.

"When the French got control of Casablanca they let loose the foreign

TEDDY IN ACTION!! THE TRUSTS MUST BE BURSTED!

PRESIDENT SAYS FINANCIERS PLOT PANIC TO RUIN HIM

Continued From First Page.

so far as they were in writing were signed by the president. Yet he acquitted the two men. Both verdicts could not possibly have been correct, but apparently the average juror wishes to see trusts broken up, and is quite ready to find the corporation itself, but is very reluctant to find the facts "proven beyond a reasonable doubt" when it comes to sending to jail a reputable member of the business community for doing what the business community has unhappily grown to recognize as well-nigh normal in business.

National Incorporation Law.

I believe in a national incorporation law for corporations engaged in interstate business. I believe, furthermore, that the need for action is most pressing as regards those corporations which, because they are common carriers, exercise a quasi-public function, and which are completely controlled in all respects by the federal government by the exercise of the power conferred under the interstate commerce clause, and, if necessary, under the post-roads clause of the constitution. During the last few years we have taken marked strides in advance along the road of proper regulation of these railroad corporations, but we must not stop in the work. The national government should exercise over them a similar supervision and control to that which it exercises over national banks. We can do this only by proceeding further along the lines marked out by the recent national legislation.

Dealing with any totally new set of conditions there must at the outset be hesitation and experiment. Such has been our experience in dealing with the enormous combination of capital employed in interstate business. Almost every big business concern is engaged in interstate commerce, and such a concern must not be allowed by a dexterous shifting of position, as has been too often the case in the past, to escape thereby all responsibility either to state or to nation. The American people became firmly convinced of the need of control over these great aggregations of capital, especially where they had a monopolistic tendency, before they became quite clear as to the proper way of achieving the control. Through their representatives in congress they tried two remedies, which were to a large degree, at least as interpreted by the courts, contradictory. On the one hand, under the anti-trust law the effort was made to prohibit all combination, whether it was or was not hurtful or beneficial to the public. On the other hand, through the interstate commerce law a beginning was made in exercising such supervision and control over combinations as to prevent their doing anything harmful to the public. The first law, the so-called Sherman law, has filled a useful place, for it bridges over the transition period until the American people shall definitely make up their mind that they will exercise over great corporations that thoroughgoing and radical control which it is certain is necessary to find necessary. The principle of the Sherman law so far as it prohibits combinations which, in their character or effect, are harmful to the public, must always be preserved. Ultimately, and I hope with reasonable speed, the national government must pass laws which, while increasing the supervisory and regulatory power of the government, also permits such useful combinations as are made with absolute openness.

Difficulties Involved.

In dealing with those who offend against the anti-trust and interstate commerce laws the department of justice has to encounter many and great difficulties. Often men who have been guilty of violating these laws have really acted in criminal fashion, and if possible should be proceeded against criminally, and therefore it is advisable that there should be a clause in these laws providing for such criminal action and for punishment by imprisonment as well as by fine. But, as is well known, in a criminal action the law is strictly construed in favor of the defendant, and in our country at least, both judge and jury are far more inclined to consider his rights than they are the interests of the general public, while in addition it is always true that a "narrow-gauge" justice so had that the civil action will lie when it may not be possible to convict him of any one criminal act.

Will Not End.

So far as we are concerned, the strike on the Associated Press system will not end till doomday unless settled in our favor. Of the three employing concerns, the Associated Press can least afford to fight.

MIKE LYONS' FAMOUS FEEDERY IS CLOSED

(By United Press Associations.)
 New York, Aug. 20.—Mike Lyons' restaurant, famous all over the country when the bowery was in its palmy days, is closed.

Following the demolition of the bowery, which now is the bowery in name only, the restaurant, once known as the best place in the United States to get a good supper, gradually lost its patronage.

After serving through the civil war with the "Louisiana Tigers" in the Confederate army, Mike Lyons came to New York and established the restaurant, which for years was visited by practically every visitor in the city.

It is said that he resumed business about town today that he is "down and out" for good.

HUNGARIANS ARE RAPIDLY UNITING FOR SOCIALISM FROM HIS JOB

The earnest efforts of the Hungarian working people of Chicago are flourishing. After a short but successful canvass and in the midst of indifferent Hungarians, the third Socialist branch of this nationality has been established.

This organization promises to be in a very short time more powerful than the first two, though they are both increasing in membership and activity. One-half of the membership of the third branch is very active women.

The Hungarians, especially the women, with their organizers, are doing very good work. They are making a house-to-house canvass and calling the attention of their countrymen to the necessity of uniting.

The joint Hungarian branches of Chicago and vicinity held a special meeting Sunday afternoon at Polachek's hall, 535 Blue Island avenue.

At this meeting George Eisler, the organizer, gave a lecture on the economic and political aspects of this country, and gave a good picture of the situation in the telegraph strike.

A resolution was adopted by a unanimous vote, urging moral and financial support to the striking telegraph operators. An organizer was instructed to communicate with the committee of the strikers and interpret the solidarity of feeling of the Hungarians and help them in every possible way should any Hungarians be used as scabs.

It was brought to the attention of those people that one of their countrymen was acting as scab at the Western Union. They have instituted an investigation and will try to secure this scab "for the cause of justice."

BERRY BOX FRAUD LEGAL

DAILY WRECK RECORD

An Iron Mountain Wreck.
 St. Louis, Mo., Aug. 20.—Passenger train No. 3 on the Iron Mountain line is reported in the ditch at Alton, Ark. The train was wrecked at 10:30 p.m. and many injured. The accident is said to have occurred last night and to have been due to a broken rail. Definite information is hard to obtain, as telephone lines are out of commission and there are no telegraph facilities.

(United Press Associations Cable.)
 Fez, Aug. 20.—The attempt to dethrone the sultan of Morocco as a result of the outbreak of the holy war and the recent disturbances throughout the country has been... In southwestern Morocco Moulay Hafid has been proclaimed sultan. The greatest excitement prevails throughout that section of the country as a consequence. The news is confirmed in advices received today from Morocco.

An official message from Fez says the French chargé d'affaires, M. Marc, has decided to send all French residents away from their homes, as he fears an outbreak of fanaticism directed against his countrymen. Other European colonists are also very uneasy.

The sultan has promised amnesty for all foreigners who wish to reach the coast. An official report from Morocco says that the sultan has decided to send thirty of his most prominent officials from Fez to Tangier to confer with the French chargé d'affaires and the diplomatic colony there as to the situation.

 No. 29, Saturday, Dec. 15, 1906.

If you have one or more of the above numbers kindly forward this office.

Think of it—your own printing in your own office. Read the notice in another column.

SMALL EXPECTS CONGRESS TO PROBE LAW BREAKERS

President Small said today that much of the evidence the telegraphers will present to congress against the telegraph companies, if it is made available, is on hand.

"This investigation is bound to come," said President Small. "Already a vast amount of evidence has been accumulated in my headquarters. We are now asking every member of the union to make it a point from time to time to transmit any information that may come to him concerning these matters. The matters of telegraph laws are matters concerning which we are especially desirous of securing information."

Overworked.

"It is on account of this overcapitalization that our profession for thirty-five years has been the most overworked and underpaid body of wage earners."

The telegraph companies are the most loosely and most badly managed of all public service corporations. Many of their additions are poorly constructed small lines, partially or entirely owned by officials of the companies.

Hopeful.

"The congressional investigation that will be made promises to be the most far-reaching ever made by a congressional committee. In my belief, it will be the forerunner of government ownership of the telegraph lines of this country. Nothing but an impartial investigation by congress can expose the rottenness of these companies. The railroad situation cannot hold a candle to it."

BEAUTIFUL GIRL IS GIVEN HER FREEDOM

(By United Press Associations.)
 New York, Aug. 21.—Miss Paula Klippenburg, the beautiful young woman who came here from Vienna to make a charge of breach of promise against George E. Miller of Newark, will be released from Ellis Island under \$1,500 bond.

The girl, who had plenty of money, was seized and taken to Ellis Island for deportation by the government officials and recommended for deportation on the charge of being an improper person, it being alleged that she attempted blackmail.

Through the vigorous efforts of her attorneys, an order was issued from Washington today by Commissioner Smith of the department of commerce and labor, instructing the immigration authorities to reopen the case, allow the young woman to consult her attorney and release her under bond.

She charged that Miller, who she says is a millionaire, won her love in Berlin, visited her three times in three years and then lifted her. The woman's attorney alleges that Miller, who is a man of family in some manner induced the immigration authorities to try to "hustle her out of the country."
