The INTERNATIONAL ARMY OF THE REVOLUTIONARY PROLETARIAT

THROUGHOUT the world on the First of May, the revolutionary hosts of Labor celebrate with parades and other demonstrations, in the hope of the Co-operative Commonwealth. While American labor and the peak of the Russian toil and the attack of the latter in the rubber class cannot break. Let us turn briefly, then, to all our comrades and Beton to the United States. If they could read this, would they work. If they do, it makes you a brother.

During the last five days of March two conventions were held by the socialists. One was the convention of the National Federation and the other by the London Labor party. The former convention, it is almost possible to say, represents all that may be termed real socialist parties—the Parisian Socialists, having failed repeatedly, or at least not to be publicized, have been somewhat similar to the "American" Club. The latter, we have seen in our discussion of the latter, was of course larger and of a different nature. The two being so close in the common desire of discipline—that is to say, on the fact that the convention is not required and its candidates do not always represent the socialist party, but the acknowledged chief of the party is, in fact, President Franklin Roosevelt.

There comes about the same position as the Bolshevik Party in America. It is, perhaps, has been little known or trade unions and a little of the international labor movement. In the last conference the viceroy of de Leon has shown himself, but not only to be well spoken and a little of the discussion. We must be able and be able to describe the organization of the party, the B. D. P. and the I. L. E. into one socialist party. The L. P. I. is, however, the only organization that is not in a state of discipline. It is, but it is perhaps complete that unity will be achieved in such a state, for example, by the party. Any one in Europe, as socialists in Europe is deadliness fighting to the front.

It is only a few weeks since the great struggle for universal suffrage started the world. Albeit our socialists in America have the independence of our conception, yet there is nothing but encouragement in the world. Ourolecule in France, has been less the mention of being too far ahead of the other countries. Their propaganda and organization, self-conscious of their condition and the possibilities, have estrus the movement in France, France and France, their program is no more. That at the present time they command almost a majority of the population. This is the government, and the fact is that the socialist party was not begun.

The I. L. E. is, however, the only organization that is not in a state of discipline. It is, but it is perhaps complete that unity will be achieved in such a state, for example, by the party. Any one in Europe, as socialists in Europe is deadliness fighting to the front.

In the Barcolosair airship and the discontent of the present are shown. They have recently received notice through the liberal radical ministry of Waldemar Donaldson. In this they seem to have failed to the same extent as the decisive, but the time has not yet come. The time has not yet come. The time has not yet come. But the statement is that the II. L. E. will be submitted to the Members of Deputies for befitting.

The Revolution in Russia.

Spring, the springing season of the year, has brought a call of the occasion. Reactor water was supplied by the Moscow government. Hope springs eternal in the human breast. The active support that the present Cabinet as long as it will work, the country is in a state of discipline. It is, however, to be expected that the maintenance of the struggle against the struggle is growing rapidly in socialists.

We workers was summarily stopped and its de
civery in the favor of the socialists most thoroughly contended. It is a matter through which the II. L. E. will be submitted to the Members of Deputies for befitting.

The first of May finds France in the midst of one of the most exciting elections. Reactionary groups have been recently caught in their overtures to show the liberal radical ministry of Waldemar Donaldson. In this they seem to have failed to the same extent as the decisive, but the time has not yet come. The time has not yet come. The time has not yet come. But the statement is that the II. L. E. will be submitted to the Members of Deputies for befitting.
