San Francisco Propaganda
Forging Ahead at Vallejo

The comrade of Vallejo reports progress in the propaganda there. On June 11 Mrs. Phelps and W. F. Mills went in a large audience in the free hall, and as a result a few new members were added. Miss M. S. Nash spoke at the Free Hall on July 1st and 2nd and had a good meeting. The comrade notes that there is a large increase in the number of members. W. F. Mills spoke at the same meeting and had a good meeting. Perhaps this policy can be made clear.

Machinists Cheer Socialism

"Not Reform, but Revolution is the justified aim of the working-class." This is the watchword of the machinists. Walter T. Molls delivered a stirring address to the machinists in San Francisco last Wednesday, June 30. His subject was "The Unorganized Machine Tools, the Unsidiated Laborer of our country," and he declared that the machinists had made a determined effort to "organize their work." The organization of the machinists involved the entire machine tool industry, including the metal workers and machinists. It was the first time that such an organization had been attempted in the United States. "The organization of the machinists is a great step forward," Mr. Molls said. "It is a step toward the establishment of the socialist society."

An Appeal on Behalf of the United Mine Workers of America

To the Members of the Socialist Party,

As a result of the cruel and ingratiating exchanges with reference to a strike in the iron and steel centers of Pennsylvania and New Jersey, we have received and circumstances which render it necessary that the coal strike situation will extend over a wide territory. The railway workers have now a magnitude unprecedented in the history of labor. The strike in Pennsylvania, which began in April and continued into May, has now spread to the coal fields of West Virginia and Maryland. At this critical time it becomes proper and urgent for us to appeal to the members of the Socialist Party to stand by the workers in the coal fields and to aid them in their struggle.

One hundred and fifty thousand men are now on strike in Pennsylvania and have been on strike for two months. The conditions of life in the coal fields are intolerable, and the struggle is being conducted with great valor and determination.

We hereby appeal to the members of the Socialist Party to stand by the workers in the coal fields and to aid them in their struggle. We urge all members to send their contributions to the Socialist Party Fund, which is now being collected in the different centers of the country.

We hereby appeal to the members of the Socialist Party to stand by the workers in the coal fields and to aid them in their struggle. We urge all members to send their contributions to the Socialist Party Fund, which is now being collected in the different centers of the country.
