Union Labor Endorses the Socialist Ticket

In the three-cornered fight for State offices one of the most important factors in the vote of union labor is the claim made by the Republican and Democratic parties about the "leader" and that "leader" supporting Polk or Lane, and hence the "Labor vote" is behind the "leader" and supporting the same, these individual "leaders" will swing only so many votes, but is it not possible to reach the votes of men before union labor can control the political organizations, which may be taken as the true expression of union labor.

MAYO SCHMITZ.

The foundation statement is made by the Examiner report of the Union Labor State convention in San Francisco, which states: "Mayo Schmitz seemed to strike the keynote of opinion in the convention, and his oratory and his warning against affiliation with Republican or Democratic parties was loud and prolonged. He said:"

Mayo Schmitz was a labor man who knew the spirit and the letter of the convention and the feeling of the people.

"Standing shoulder to shoulder the laboring men can select their candidate today as surely as they did when they chose a minor from their fathers' lodges. But no better test of their choice can be made than the "friends of labor" or the "friends of the laboring man.""

"I stand here at this time, to-day, to express my sentiments about the cause of union labor are in this body today in order to do the best for the best interests of the laboring men. You must not forget the fight we made a year ago. I am one in the fight for the right of the people. I stand for peace and I will stand in that fight. I will stand for principle if I have to stand alone and I will stand alone if necessary."

"Standing shoulder to shoulder the laboring men can select their candidate today as surely as they did when they chose a minor from their fathers' lodges. But no better test of their choice can be made than the "friends of labor" or the "friends of the laboring man.""

"The sentiment was received with loud cheers.

THE STATE CONVENTION SHOT.

At a meeting of the State Executive Committee were put and carried with defeating applause, the resolutions against the ballot right, their holding to the foot, waving their hats in the air and were loudly cheered. The resolution of the Delegates to the State convention for the purpose of nominating a State ticket was filed and the convention did not endorse any of the candidates placed in nomination by the Democratic and Eff.

Socialism Shortly Explained

Socialism is the cure for the selfish poverty. Since your labor with the aid of cinch has given you the capacity and the ability, there is no need anymore of the terms "millions" and "billionaires," which are so dear to men, and yet they are the same as the terms "millionaire" and "billionaire." The "millionaire" and the "billionaire" are soulless and empty men who do not work at all and they are not of any service to the country. Those who work and are toiling for the good of the country are the workers themselves, and they are the ones who are fighting against fascism. The workers are fighting for the common wealth, and they are fighting for the socialist system. The socialist system is the cure for the selfish poverty.

Socialism solves the problem this way:

1. How to secure an equitable distribution of income.
2. How to ensure that all labor and all the products of the earth shall be owned by all the people.
3. How to promote the industries of the country.

What the Socialist Party Stands For

The Socialist party of California in submitting this ticket does so in obedience to the principles of International Socialism as enunciated by the World Congress of the Socialist International Convention, held in Indianapolis last August. The Socialist party aims to organize the working class and those in sympathy with us in carrying on a program of agitation for the emancipation of Labor, which is to be carried forward under the leadership of the party and its organization and directed by the masses as a whole.

The Topicalism and Socialism

We congratulate organized labor everywhere on the fact that the organized toilers of a man's labor can ever be a just reward for labor that is recognizing the great fundamental idea of Socialism.

We received the fullest evidences of labor's confidence in rights against the profits of capitalism, through the formation of trade unions and others, and we denounce the attempts of capital to undermine these by illegal pecuniary measures of government—legislative, executive, and judicial—by the organization of toilers to the advantage of the working class.

We stand for the infant stage of labor's movement, in defense of rights against the trusts, the syndicated great combines, the milling and manufacturing combines.

They are the direct prey of the money lenders and land owners, of the trusts, the syndicated great combines, the milling and manufacturing combines. Realized, that we shall end the work by the farmers and the farm workers of this state to fly themselves with other the exploited laborers in their efforts to reform and extend their power in the state—aid in carrying out the program of the Socialist party.

Direct Legislation

We are for a labor party and direct legislation is legal, the right of all aforesaid, and the equal and equal political rights for all citizens without exception.

Fatigue Machines

Stated, that the Socialist party for the use of voting machines at all public elections.

Private property is the means through which you live enable the owner to make you pay for the means of the life you yourselves—collectively.

Let the nation own the traffic; let the workers own the nation.

The attention of our comrades and friends in the labor movement must be called to the change in the form of our advertising, and in order to do this we dedicate a new E. A. flag. You will find this made welcome and assisted to enjoy capitalist supremacy—convert of political parasites.

The Battle of Labor

"As thyself love thus thy neighbor,"

"Breathes one another's warmth,"

"We will give you rest,"

Words whose meaning is so degrading On a people long oppressed.

"Peace, you Mammon,"

"Glory, glory hallelujah!"

Let these gospel notes of Justice Loudly ring throughout the world, And the sword of Justice\'s peace forever be forded At the heartbeats of the people's essence Let God's thunderbolts be hurled.

At the heartbeats of Nature

Sits the idler and the dweller. Each one, at least, has a right. Only gets the crumb and bone: But the other gets the bread, And the world is all his own.

The right is marching on. As the light of life is growing. Drives the darkness all away, And the bread must be made. In the light of this new day;

For the heart of God is beating In the heart of the heartless, And the world is marching on. E. F. Rand.
WOMANS SOCIALIST UNION

Edited by M. Alice Spradlin.

The editor of this column will be glad to receive any communication concerning works of woman's work along Socialist lines. All communications should be addressed to the Socialist Headquarters, Old Farmer, Building, San Francisco, Cal.

The constitution of the Woman's Socialist Union of California can be obtained by writing to the above address or to Josephine E. Cole, San Jose, Cal.

Since one column of the Advocate has already been given over to the Woman's Socialist Union of California, we in a great measure make it one of the important columns of the paper. To do this justice, all must, more than ever, feel responsible. Read in news concerning your local affairs and your local leaders and how they help other. Such information will tend to develop unity of thought in the work and each department in the union with the whole movement.

All women are cordially invited to join our union and work with us in educating along economic lines. There is much to be done; there are many ways in which to do it, and there are many minds required to perform the task. Come, let us band together, where the beginner of enthusiasm may be helped, where we may be one in purpose, however varied the methods of approach.

The Cooperative Movement is for everyone. Everybody is interested in it, as house, and as business, and in the control of our natural resources and also to the control of the cooperative system, a change takes place. Read in news concerning your local affairs and your local leaders and how they help other. Such information will tend to develop unity of thought in the work and each department in the union with the whole movement.

To Women Socialists: We are organized for the purpose of bringing together those interested in the women's movement, and for the purpose of furthering the development of cooperation among all women, and to exchange information as to methods of working, etc., for the better carrying out of our work.

Clubbing Offer

We are now prepared to make clubbing arrangements for Advance, Coming, News, and William Morris Magazines as follows:

- Advance and Coming Magazine $0.75 per year; Advance, Coming, and William Morris Magazine $1.00 per year.

Under Socialism there will be no blacklist, strikes, or lockouts, for the shops will belong to the people, and the workers will be able to go to work at the back of the paypole and be paid for their work, just as they are paid now. Under Socialism, the tame dog will no longer be a police or other dogs in the way when the people who will dig and plant will do their work in good heart, and we feel that the discussion will be helpful to all.

The William Morris Club and individuals interested in the women's movement are to be held in the field of service. The president of this club, Mary E. Bleum, has been appointed as an alumnus of the Stanford University, and, as such, by Dr. Mary Bob

We will substitute any one of the above cards for publications at $0.25 to each subscriber.

WILSHIRE'S magazine has over 200,000 more and want your help to secure them in the quickest possible time.

If I could afford it, and Mr. Marden would permit it, I would supply my magazine free to everyone in the line, but to do this would take more than the wealth of a Morgan or even a Wilshire. I will come close to it, however, and for a limited time I will sell regular one dollar subscription cards (each card good for a full year's subscription to Wilshire's Magazine) for 25c. Please remit cash with order at once for as many cards as you can sell, as I may be obliged to withdraw the offer any time. I am doing my part—will you do yours? Send a hand to day to interest 200,000 more women in the great cause of Socialism.

EDUCATE YOUR CHILDREN

Prepare your children for life's battle by teaching them this great lesson: the true center of instruction is an intellectual and the religious if you have the time to do it. The best way to do this is to have the leisure to be free from care and anxiety and patience to care for them.
