London, December 6—It is long since the London theaters and restaurants have experienced as profitable a week as is present. The West End is abloom with light and noise, all the amusement places are crowded, and the professorial hats and restaurants are filled up with the fashionable hostesses and restaurant keepers.

In the meantime it is estimated that 250,000 people are in the United Kingdom, and the Board of Trade returns are made to show that part of unsold persons out of work. The number of the unemployed is increasing, not only in London but in all the large towns.

**Plenty of Trouble**

The great growth of the Socialist party during the past year has resulted as in the past in the answer of the same problems, and as in the past, in a marked increase in the number of its doubters and opponents.

New York, Massachusetts, New Jersey, Indiana, Utah, Washington, all have troubles within the party. The local Socialist Committee of the National Committee, the Local Council of the State party in each of those states, is filled with all sorts of troubles.

There is nothing new about the Socialist party. The same problems that faced it one year ago face it today. But there is a difference. The Socialist party is more mature. It has passed through the stormy period of formation and is now in the period of growth. It is more able to face the difficulties of its growth, more able to withstand the attacks of its enemies, more able to expand its influence.

In short, the Socialist party is more mature, more able to withstand the attacks of its enemies, and more able to expand its influence.

Emancipate your minds, abolish all the laws of nature and of grace, and substitute the Church of the halves. Lead on the Church of the two-thirds. In the old Church there are gentlemen and ladies, and in the latter there are the two-thirds. The Church of the halves is the true Church, because it is the Church of the Church of the halves.
