WORKERS' education, in the opinion of the bureaucrats of the American Federation of Labor means nothing more or less than a course in industrial etiquette, which would teach the workers how to behave in the presence of their masters, beat their foreheads on the ground without however impairing their ability to produce surplus values, and grasp the theory of class collaboration which tells us that the interests of the capitalists and the workers are identical, leaving the management of those interests to the bosses as well as the determination of how much of the product of industry should go to the worker.

LONDON, April 21 .- The British capitalists are using the latest crisis in Bulgaria as an excuse to open an attack on the Russian trade union delegates who have recently held a conference with a committee representing the British unions, with a view

ALL SIX DELEGATES EXPELLED FROM SEATTLE LABOR COUNCIL **RE-ELECTED BY LOCAL UNIONS**

(Special to The Dally Worker)

SEATTLE, Wash., April 16 .- (By Mall.)-The six Communist delegates to the Seattle Central Labor Council, Paul K. Mohr, Marius Hansen, W. H. Jones, Joe Havel, H. G. Price and J. C. Carlson who were declared unseated by corrupt procedure of the council's president, Jepsen, were re-elected by unanimous vote of their respective unions and sent back to the council. Not only did their locals re elect them, but each were given a vote of confidence. Two of the credentials, those of Paul K. Mohr of the Bakers' Local No. 9.

and H. G. Price of Machinists' Hope Lodge No. 79, were presented at the previous meeting of the council and after having been read by the clerk,

Secretary Doyle stated that he had+ anticipated the matter would come up

Jepsen then turned over the chair to the vice president and in half minute apologetic speech of his decision said that he was supported by Green as the wire proved, and that the matter was out of the council's hands and he will not obligate the two delegates. No one from either side spoke, but all looked on curiously and did not care for what was said in Green's wire nor what Jepsen said.

He regreted to see that Jepsen has refused to act on the credential ac-cording to the rule of the council and that while he could not at the time say what action his local would take next, he, however, was satisfied that

his union will continue to fight until Price would be seated. Delegates from Bakers' Local No. 9 stated that their delegate Paul K. So great was the confusion that Painleve was forty minutes reading six pages of the message. The only applause was from the right when he demanded maintenance of representation at the vatican.

Despite opposition of the radical socialists to his proposal that the French ambasasdor at the vatican be continued, the premier proposed the maintenance of diplomatic representation there.

COOLIDGE AIDED PROSECUTION OF HAWAIIAN REDS

State Department Sent . "Evidence" to Officers

(Special to The Daily Worker.)

HONOLULU, Hawall, April 21. -The department of the secretary of state, evidently with the consent of President Coolidge, took part in the prosecution of Paul Crouch, United States soldler sentenced to 40 years at hard labor for being a Communist, details of the court martial reveal.

Documents furnished by the state department containing what it was claimed were instructions of the Communist International, were introduced as evidence by the prosecution at the sourt martial. Following the introduction of this "evidence," the prosecution asked for a "sentence that will ting thruout the army and teach a on to the reds.'

Takes Nothing Baok.

"I had no wild schemes for the immediate overthrow of the government such as have been printed in the capitalist press," Comrade Crouch told the court martial. "The bulk of my propaganda was efforts to combat the lies about Soviet Russia which ap peared in the local press.

"A forty year sentence at hard labor does not look like a very bright future for me." Comrade Crouch said after the sentence was imposed. "But I had rather serve every day of it than be a traitor to the working class. So called constitutional rights do not apply to the Communists in the army. Such was the real meaning of the verdict which sentenced me to forty years at hard labor for belief in Communism and my efforts to combat lies about Russia."

Prosecution Attacks Foster. During the cort martial, the prosecution made a bitter attack on William Z. Foster and other Communist leaders, and declared that the principles of Walter Trumbull, who was sentenced to 26 years, and Crouch were similar to those of Foster.

The prosecution, during the court martial, declared Esperanto to be the "Bolshevik language," because Paul Crouch was a teacher of the international language. "Esperanto is prejudicial to good order and military discipline," the prosecutor said, "and all who have engaged in the study of it city employes would take common acmay be suspected of revolutionary tion in a general walkout for a raise propaganda."

Cards Stacked by Officers. Previous to the trial of Crouch, the president of the court martial, declared that Crouch was "a very dangerous person." Anti-Klan Candidate Favored to Win in

(Special to The Daily Worker.)

HERRIN, Ill., April 21-Herrin went about its mayoralty voting with a docile placidity today that contrasted strangely with the heated campaign of the last few months that saw bombing squads and private riots in action.

A record vote was forecast in Herrin's mayoralty election today with political workers feverish in the klan and anti-klan race. Betting favored the anti-klan mayoralty candidate Marshall D. McCormick was opposed by Thomas Welty, klan candidate.

Early voting had brot no violence but every precaution was being exerised during the day with the unexpected always a menace. Scores of private citizens of both factions were deputized and patrolled the streets.

WORKERS' SCHOOL IN STATEMENT **ON CONFERENCE**

Refused Seats by the **Executive Board**

(Special to The Daily Worker.) PHILADELPHIA, Pa., April 21 .-The refusal of the chair to put to a vote a resolution favoring diplomatic recognition of and trade relations with Soviet Russia, on the ground tha it was "extraneous to the prerogative" of the Workers' Education Bureau was typical of the reactionary character of that bureau's fourth national conference just closed here.

Opposing Slogans

The second typical example of the control exercised by the trade union officials over the organization, was the attack upon Professor Scott Near ing because he criticized the speech of President Green of the A. F. of L by saying, "Industrial peace is the slogan of the bosses. Industrial war must be the slogan of the workers." These signs of reactionary control followed the refusal of the executive board of the bureau to seat the delegation from the Workers' School of New York City, and the refusal of the board to consider that school's application for affiliation. Compelled to appeal to the delegate body by circulars distributed at the final session, the workers school issued the follow ing statement:

A Statement by the Workers' School Delegation

"The application of the Workers' Herrin's Election School for affiliation to the W. E. B. and for representation at this conference has been denied and rejected by the executive board of the W. E. B. The credentials committee refused to act on our credentials. The affiliation committee likewise refused to act on our application.

"Altho the conference has already almost run its course, the executive board has not given its 'supplementary report' to the conference as was promised on the opening day, which would bring our case before the body of the conference. Our delegation has found itself gagged and blocked at every turn to present its case before the assembled delegates as well as to participate in the deliberations of the conference.

Refused On Three Counts

"Affiliation has been denied us, we are informed by Secretary Miller, upon three counts. One of these is purely technical-the question as to application not being made within the 30-day limit. The second point is that our school is not under trade union auspices. We maintain that the W. E. B. constitution makes provision for the affiliation of workers' study classes, with nothing being said about the necessity of their auspices being exclusively trade union.

"The third point is that we propagate particular doctrines, and the W. E. B. is against such a policy. This, we say, is a fundamentally false outlook. In the field of social sciences one must of necessity either have and

May Day Calls for Class WHEELER IN OIL Solidarity of Labor in GRAFT, SURPRISE War Against Capitalists WITTNESS SAYS

By J. LOUIS ENGDAHL.

ODAY, the cracks and the holes in the tattered democratio party organization become increasingly apparent, in spite of the mending process that has been energetically pushed since the disaster suffered at last November's elections.

The donkey followers couldn't even eat their "Jeffersonian Dinner," in memory of the founder of "the democracy," under the same roof. So "the south" and "the west," with the Bryan brothers, "Bill" and "Charlie," as headliners, put on their feast at Kansas City, while "the east," under the wing of Tammany Hall, gathered in New York City.

Thus the democrats, almost exclusive spokesmen for the irresolute middle class elements, since the LaFollette movement went into practically complete collapse, are unable to develop unity even when they are on the outside trying to get in.

. . . .

The strategy of "the democracy" of "the west" seems to be unfolding in the trial of Senator Burton K. Wheeler. at Great Falls, Montana, where his chief defender, Senator Thomas J. Walsh, of the same state, who was chairman of last year's national democratic convention in New York City, announces new "oil exposures," a new "oil scandal." The democrats are going to try to smear some more oil on the republicans.

If the "oil stuff" had gone over, politically, it would have shown its effect on the election returns last November. But "Cal" Coolidge, as "the principal," linked closely with the oil scandal, familiar with the robbery of the Teapot Dome and Elk Hills reserves, at the time the looting took place, was kept in the White House. The great mass of voters, the workers, saw both capitalist parties smeared equally thick with oil graft, but picked the political agent of the biggest thieves, the strikebreaker occupant of the White House, because they were fooled, by republican gold carefully distributed, into believing that their jobs would be better insured under a continued Coolidge regime.

The New York World, court organ of "the democracy," backs up Walsh's threat of new scandals, in this menacing tone, "In court or out of court-and the oil industry might as well reckon with the fact-this business will be sifted to the bottom.'

The oil business was sifted under Roosevelt, years ago, when Standard Oil was "busted." It got a thoro sifting under Wheeler's investigation when, in the words of the World, "one year, two months and 26 days ago Edward L. Doheny admitted under oath that he had sent \$100,000 in a black satchel to Albert Fall," as secretary of the interior, with all the accompanying details, that dragged in not only Sinclair, but also the head of the Standard Oil company of Indiana, who recently fled to Mexico and South America to avoid testifying at the trial in Wyoming. But the investigation is now almost forgotten, the legal proceedings have been dropped, Doheny recently paid a "friendly visit" to Fall at his comfortable home in the picturesque far Southwest, and all that remains is the court persecution of Senator Wheeler out in Montana, with another indictment returned in the city of Washington.

Wheeler believes in the capitalist system. He not only fights Communism, but makes war on every developing symptom of class consciousness of the workers and poor farmers. His trial will not turn him against capitalism, any more than the facts brought out in the oil scandal made him revolt against Wall Street rule. The indications are that the attack on him will only serve to beat him into line for the money power he hypocritically denounces, just as

Offered to Influence Interior Department

(Special to The Daily Worker.)

GREAT FALLS, Mont., April 21.-The defense began its fight in federal court here today to free Senator Burton K. Wheeler, democrat, of Mentana, of charges of misusing his office by receiving a fee to represent a client before the interior department. With more than 15 witnesses ready

to testify, the defense planned to consume at least two days in completing its case.

Because of the sensational testi-mony of George B. Hayes, New York attorney, and surprise witness of the government, Wheeler's lawyers today abandoned plans to move immediately for an instructed verdict of acquital. Hayes testimony, coming as a complete surprise, sent Wheeler's counsel into a conference that lasted until early today to map out new methods of combatting the government's evidence.

Involved in Oil Millions

John L. Slattery, United States a torney, called Hayes to sustain his charge to the jury that Wheeler proposed an agreement to "make milions" out of oil lands obtained from interior permits.

Hayes' declared he met Wheeler in New York hotel lobby on March 10, 1923, a day before Wheeler sailed for Europe. The conference was arranged by telegraph by Edwin S. Booth, former solicitor of the interior, Hayes said.

"We discussed permits of Gordon Campbell," Hayes testified. Wheeler s accused of representing Campbell, Montana oil operator.

"Wheeler said he would split his ee with me if I would handle Campbell's troubles before the department." Hayes added. "He said he was a United States senator and could not himself appear before the department. I think Wheeler stated the fee would run to a very considerable figure, I think he mentioned millions." Hayes declined the offer.

To Represent Wheeler

After this talk, Hayes said he went to Washington and saw Booth, who declared, "I was very foolish because would have very little to do; that he (Booth) would keep me advised bout all of Campbell's transactions, and would help me."

"I was merely to represent Wheeler on Campbell's claims," Hayes de clared.

Wheeler announced today he "never made any such proposition to Hayes."

Defense Recalls Hayes. Opening its fight to acquit Senator

Wheeler, the defense attempted to smash the testimony of two of the government's witnesses. As it's first move the defense re

called George B. Hayes, and H. C Glosser, former secretary to Camp bell. Walsh and Hayes engaged in a rathr bitter tilt and soon were fairly shouting questions and answers. Finally, able to draw little from Hayes, Walsh excused the witness. Glosser, who previously testified Wheeler promised Campbell "to fix up things in Washington" followed his previous testimony, remained unshak-Tom Stout, ex-congressman and chairman of the state democratic committee, next was called by the defense. the carefully directed capitalist attack against LaFollette, has blunted the edge of the Wisconsin senator's so-called "radicalism" and kept him in the republican party, even as Wheeler remains in the democratic party.

New oil scandals, new attacks on Wall Street, new exposures of corruption cannot interest the workers and poor farmers except as they are followed by definite action. That action will never come from the republican party, the political expression of the greatest capitalists; from the democrats, torn to shreds in their efforts to speak for conflicting middle class elements, or even from isolated "third party elements wandering in the political wilderness, fearing the slightest touch of the class struggle infinitely more than their feigned hatred for all the heaped-up crimes of capitalism's bloody rule.

. . . .

Action can only be seculed under the leadership of America's Communist forces organized into the Workers (Communist) Party. All class conscious forces of labor, in the industries and on the land, find their logical place under that leadership. It is a good thing for workers and poor farmers, the nation over, to ponder this situation with the rapid approach of International May Day, the world holiday of labor, when mighty millions over the face of the earth demonstrate on behalf of the class interests of the oppressed. It is a good time to join the swelling Communist ranks to wage victorious class war against the whole front of the capitalist social order, from the Coolidges, the Butlers, the Morgans, at one end, to the LaFollettes, Walshes and Wheelers, at the other, including the dollar's faithful labor lieutenants with their copious supply of class-collaboration poison. Only thru its class might can labor conquer. Every developing phenomenon under capitalism proves this Communist declaration.

EXPULSIONS OF RADICALS BY-SEATTLE LABOR REACTION IS **DENOUNCED AT MASS MEETINGS**

(Special to The Daily Worker) SEATTLE, Wash., April 21.—Denouncing in most vigorous terms the action of the "machine" in the Seattle Central Labor Council, emphasizing that the corrupt procedure of Jepsen is a vicious usurpation of the council's rules, and characterizing the policy of expelling trade unionists who are favoring the strengthening of the organized labor movement and progressive measures, as a deliberate attempt to block progress and check the growth of the labor movement, the six Communist delegates under expulsion from the council spoke at a mass meeting here, the first of a series of meetings. Great stress was laid on the fact that a good deal of the expulsion

policy is due to the open shoppers and employers who have failed in their attempt at the open shop scheme, are +

now resorting to control the unions on the class collaboration plan. Elect Jones Business Agent, Joe Havel, delegate from the Bookkeepers' and Stenographers' Union, the first of the six to address the meeting, stated that no overt act has been committeed by any of the defendants.

The fact that one of the defendants W. H. Jones, has been elected business agent of the painters, one of the large and progressive unions of the city, has thrown fear into the camp of reactionary business agents who foresee in that the slipping away of their jobs into the hands of progresve militant trade unionists.

This he declared had a great deal to do with their expulsion. They Workers Are Dissatisfied could not make an attack on Jones

without including others, he stated. "Socialists" Play Repulsive Role. The most disgusting part of any of them in the expulsion of radicals from the labor movement, is being played by the "yellow socialist,", he said 'It is he who is ready to do the dirty work."

He cited David Levine, petty shop ceeper, who has been playing the most conspicuous part in this in stance, as one of the "yellows." He openly bragged, Havel said, that the reason he belongs to the la

(Special to The Daily Worker) WASHINGTON, D. On the other hand Postmaster General New has issued a press circular referring to the increased postal charges as being due to congress' decision to grant higher pay to postoffice employes. (Special to the Daily Worker) DETROIT, Michigan, April 21 .- On April 2, Czar Hutcheson submitted a proposition to the Carpen-

ters' District Council of Detroit instructing them to hold "orderly" meetings and to exclude one, William Reynolds from any further participation in the affairs of the Carpenters' District Council as the said William

Reynolds was not a member of the International Union, having been expelled in January for membership in the Trade Union Educational League by the general executive board.

The communication stated that the district council was to take a roll call vote on this proposition and that delegates voting against it not only jeopardized their own standing in the Brotherhood, but also that of their lo-

cal unions. It further instructed G. E. B. member, Potts, who submitted this statement, that in the event that the district council voted against the proposition he was to suspend the

district council and reorganize both the district council and the local unions. In spite of the fact that Hutche son threatened the most drastic ac tion within his power, the vote was 23 to 4 against his proposition and a flat defiance of his arrogant order.

Since then, the district council records and funds have been taken over by Potts, Sharrock and Fish, the district council officials, who have turned itself altho it is old as the hills, but traitors to the rank and file, have been put on the payroll of the general of fice, and threats have been made

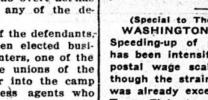

against the various local unions that unless they repudiate the action of their delegates, they too shall be suspended.

To Punish Loyal Delegates.

The latest proposition put forward by Potts is that the local unions must elect entirely new delegates to fill out this term and the next term. which means that these representatives of the rank and file who presume to question the imperial will of

Czar Hutcheson are to be humiliated and disqualified for the office of delegates to the district council until July 1926. This is the reward that the local unions must mete out to their delegates for fidelity to the sentiment of their local unions, according to Hutcheson.

Altho Hutcheson has been defeated in every battle with the district carpenters and received a crushing repudiation in the last act of the district council, which he sought to gag and then strangle, he is as arrogant in his attitude as the ex-kaiser at Doorn

The district tellers of election up to this day have made no official re port to the local unions of the results of the district election held December 1924, altho the district constitution is very plain and very precise about such report. Section 21, of article 11, reads as follows:

"The vote of each local union shall be tabulated separately and consecutively, the entire totals given and the complete report printed and sent out to the local unions by the district tellers not later than February 1 of each election year."

To Cover Up Farrington's Stolen Election.

"We believe because of this gross violation of the district constitution, the move that is now being made on the present sub-district officers is to distract the attention of the membership from what the district officers are doing themselves in regard to their own elections,

"Gross irregularities have been re ported from many parts of the district, and up to today over 100 days have elapsed since the district election was held and no report has been given to the membership, and it appears that all the officers are going to succeed themselves on the first day of April, because no report of the election will have been given, and they will automatically go into their positions on that day.

"We believe that it is about time the rank and file of the Miners' Union should awake to what is going on; men who oppose certain officers are expelled from the union, and officers who do not agree with the policy of throwing our miners on the scrap ccap are being made the victims of this machinery that even goes so far as to violate their laws when it suits their purposes to do so.

FOOD WORKERS

INDORSE MAY

Will Be There

NEW YORK, April 21 .- The national organization of the Amalgamated Food Workers' Union has gone on record as officially indorsing the United Front May Day demonstration arranged under the auspices of the Workers Party, by the action taken by its general executive board. All the members of the union are asked to participate in it, and help in every way possible to make it a sucess by a general turn out of as many workers as possible.

The Hotel and Restaurant Local of the Amalgamated Food Workers' Union, will take up the question of its members participating in the demonstration at Monday's meeting of their local.

The workers in the El Dorado Restaurant, at their shop meeting elec ted a committee of four to see that all the workers in their shop, who are not working on May First, join in the celebration. They also decided to carry a banner with the name of their shop on it.

Similar action to participate in the celebration has been taken by the shop meetings of many other restaurants, which include many of the largest in the city.

There is no doubt that May Day will be fittingly observed by the workers of New York City, by the thousands who will rally to the celebrations arranged by the Workers Party.

Big Throng Hears Olgin Review Gains of Bolshevik Revolution

The lecture by Moissaye Olgin on What Did the Russian Revolution Give to the Workers and Peasants? brought an overflow crowd to the Workers' Home (formerly Soviet School) last Friday night. So big was the crowd that people were standing on the stairs eager to listen to Comrade Olgin. Many were unable to gain admittance at all for lack of standing space.

After the lecture questions began to pour in from all sides. They were asking about everything, from where to get soles for shoes to how much do the commissars receive in wages. Before answering the questions Comrade Olgin made a short talk on the Novy Mir, the Russian Communist daily. The chairman called for aid to the Novy Mir. Comrades and sympathizers began to bring up money to the stage. Eighty dollars were collected within a few minutes. After the lecture a group of comrades went with Comrade Olgin to a nearby rest

Nation-Wide May Day Demonstrations

INQUIRIES and information coming into the national office of the Workers Party regarding this year's May Day celebration indicate a nationwide demonstration that will surpass any previous May Day in the party's history. Every town in which there is a party branch should arrange such a meeting and notify the national office.

The smaller towns should obtain May Day speakers thru their district offices. As soon as a meeting is arranged, each party organization is requested to send in full information regarding name of speaker, address of hall and time of meeting. We will give these meetings publicity thru the DAILY WORKER.

Don't fail to notify the national office.

Dear Comrades: Recently in Russia, when the Soviet government was floating the gold loan it was customary for the workers subscribing to the loan to name their comrades in the same city or in the distant point calling upon them to do their share. It was a call and a challenge. It worked something like this. Ivan Ivanovich in Moscow would write: "I subscribe to a ten rouble bond and call upon Stepan and Mary of Leningrad to do the same." I wonder if we could not do the same in our second annual sub-drive? Let me start the ball rolling. I am sending you three subscriptions to the paper and call upon Comrades Vera Fomenko, Yoker and Meyer of South Bend, Ind., to do the same.

What is wrong with South Bend? It used to be a pretty active town. And now they are not on the list. I expect to hear a reply to my challenge in the near future.

The Los Angeles System

MANY methods-mostly good-are being used by our DAILY WORKER agents and BUILDERS. We bring to your attention something that is little spoken of in this column and something our agents seldom use: local circularization.

But this circular letter by Comrade Globerman, city agent for Los Angeles, gives in addition to a brief, well written letter, also a payment plan connected with it, which properly followed makes a splendid plan to build "our daily." Here it is:

Dear Friend: . It is about time that you should co-operate in building up a powerful national DAILY WORKER which should be able effectively to resist all the abuse perpetrated against your class.

The DAILY WORKER contains all the news of the world of labor. It is the only dally in America that fights for the interest of the working class. Quit reading the capitalist press only-read your own also! If you want to understand what is going on in Soviet Russia, Italy, England, in every part of the world-READ THE DAILY WORKER!

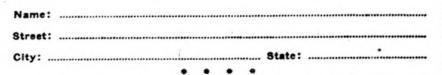

HOW TO GET IT:

One year subscription costs \$6. But you are a worker. It is probably hard for you to pay all the money at once, so we have arranged a payment plan: a payment of \$1 down, and the balance of \$5, to be paid \$1 each month. Fill out this blank:

DAILY WORKER, L. A. Agent,

P. O. Box 1788, Los Angeles, Cal.

Enclosed find check (or money order), for \$1. Send the DAILY WORKER for one year. I agree to pay balance within the following six months.

This means your local can reach socialist registered voters, trade union lists and others. But if you have the names and CAN'T AFFORD to circularize them-by all means send them to the DAILY WORKER. We simply must reach working class elements OUTSIDE of our party.

BATT seems to think that the rank and file of the American labor movement have not sufficient confidence in their leaders. He did not say whether this lack of confidence was due to the ignorance of the leaders or because of their corruption. The W. E. B. will set this in rights. Listen: "If properly conducted, and there is no reason, why it shouldn't be, it will radiate better understanding among the rank and file of organized labor, and with petter understanding among the rank and file will come better leadership." Batt did not have to take a course at the W. E. B. to learn that there is more to be gained by the ambitious self-seeking careerist by coming to a better understanding with the labor leaders than by being in the opposition for the sake of principle. He has made his peace with the A. F. of L. bureaucracy and is drawing his reward.

RENEGADES like Batt are worth their weight in gold to the master class. By mouthing revolutionary phrases they gain the confidence of the most class conscious of the workers, only to betray that confidence when the workers are most in need of guidance and assistance. This is what Batt has done. He represents a type that is common in America and in all countries. When the Batta begin to slip, they rarely stop on this side of hell. There is no task too filthy for them, provided there is money in it. Even Batt's worst enemies do not charge him with being a fool who would join the republican party and line up with the extreme right wing of the A. F. of L. machine for nothing.

If Hindenburg gets more votes than Marx, no doubt the kaiser will be waxing his mustache in Potsdam in the near future. This is not a prediction, but should it come to pass, the socialists alone are responsible. There is no danger of the czar coming back. The Russian workers and peasants took ; care of that.

Workers' Education

The Workers' Education Bureau, an adjunct of the American Federation of Labor, baptized at the Portland convention as a legitimate child of American trade unionism, meeting in convention in barring Communist schools from affiliation.

The Workers' Education Bureau, beginning as labor colleges endorsed by city central labor councils, was brought into being by the activity of left wingers. It was not long before officialdom of the American Federation of Labor sensed a danger to its control in these institutions which, for the most part, were dominated by Marxists.

The American Federation of Labor has, since the day of its organization, frowned upon anything in the nature of what it calls "abstract education." class struggle and it is because any course that is worthy of the name of education must deal with some phase of the class struggle, that the official

But new times bring new methods and since the world war there has been a great skepticism manifesting itself in the labor movement, a questioning that would not be stilled.

Following the jesuit principle of "what we cannot destroy we must control," the labor officialcational Association of Great Britain and, it must be said, has in its leading organs many types reminiscent of the "pure" intellectuals who in thing savoring of revolutionary working class education is taboo.

The educational activities of the American Federation of Labor are safely under control now. They train workers, not for combat but for negotiation. The ideal of the "educators" is that of the liberal middle-class economists who spend their

Bulgaria was an enemy nation in the world war, her army was reduced after the armistice and severe restrictions were placed on her by the allies. Today she appears as a friend in need. Her request for additional troops to turn loose on the workers and peasants has been granted and the sympathetic tone of the dispatches to the capitalist press indicate that the Bulgarian government has the ful support of the allies in its murderous work.

In addition to the support given . the bloody Zankov government, the European capitalist press, with that of Great Britain sounding the keynote, is opening a new campaign of slander of the Communist International and the Soviet government. Poland has recruited 170,000 additional troops Philadelphia, has remained true to its sponsors by and in all the border states, backed by allied finance and bayonets, there are evidences of feverish military activity.

ant question: Altho it is the fashion nowadays to call oneself a Leninist and to renounce Trotskyism, many comrades are of the opinion that the peasant question is, in the

more developed capitalist countries, of secondary importance. This view is aboslutely false and Trotskyist. According to Trotsky's theory of the permanent revolution, it should have been impossible for the Russian proletariat to maintain its power with out the aid of the well-organized West European proletariat. This theory is false, because after the world victory of the proletariat, the agrarian question will reproduce itself on a higher scale.

The agrarian question is just as much the problem of our epoch, as that of the seizure of power by the proletariat. The colonial question is in reality but the struggle of the colonial peasantry against the imperial ists

MEXICO CITY, April 21 .- The refusal of the Mexican government te take part in the league of nations traffic in arms conference was prompted by numerous discriminations against Mexico practiced by British and American imperialism which controls the league. In a note to Geneva, the Mexi can government recalls some of the slights of the world powers, suffered by Mexico

The league of nations barred Mexico, when it was originally constituted, because of objections by Wall Street, which used Woodrow Wilson as the mouth piece of its ruling.
