

MANIFESTO OF CHINESE LABOR CALLS FOR STRIKE AGAINST FORCES OPPOSING REVOLUTION

Five days before the massacre of students and workers by the British Black Police on May 30, 1925, at Shanghai, the manifesto was published. It is a historic document of the Chinese revolution, which beginning the world now witnesses—the Central Executive Committee of the Kuang Tung (People's) Party, controlling the South Chinese Republic at Canton, issued the accompanying declaration on the political situation of the Chinese people.

SOCIALIST KILLS FIGHT FOR MORE AID TO JOBLESS

Use S as a Argument That Tories Give

LONDON, July 10.—The leader of the reformist yellow second International, T. H. Thomas, at a meeting of the National Union of Railwaymen, tonight opposed the motion made by Lecher, delegate from the West End of London, to request the government to subsidize the unemployment benefit for 26 shillings a week for a maximum of 36 shillings for a wife dependent on the allowance for each dependent child.

Thomas said that he opposed increasing the relief for unemployed workers without having been consulted by the workers. He said that the government should be asked to subsidize the unemployment benefit for 26 shillings a week for a maximum of 36 shillings for a wife dependent on the allowance for each dependent child.

Precedent is Broken By Judge in Latest Move (Special to The Daily Worker) DAYTON, Tenn., July 10.—John Thomas Scope, 35-year-old Chicagoan, who is charged with the murder of the Tennessee oil executive, was sentenced to a life term in prison by Judge R. H. Taylor, who said that the original indictment was technically sound.

U.S. IMPERIALISM MOVING SWIFTLY IN CHINESE ROW

Alternately Denies And Asserts WASHINGTON, D. C., July 10.—American imperialism is moving swiftly in the Chinese row, alternately denying and asserting its role in the situation. The U.S. State Department has announced that it has received information from the Chinese government that the Chinese are planning to send a large force to the North, and has issued a declaration in which it has announced that it will support the National Assembly and the cancellation of all unequal treaties.

Blaming It On Britain

The council of embassies of the European powers at Peking has condemned the murder of British and American strikers in Shanghai and have also held the American manager of the foreign settlement responsible for the murder of students and strikers.

The demand made recently by American businessmen in China for protection and sent to the state department is thus seen to be documentary substantiation of the murder hand of British and American imperialism. It was the Chinese that needed protection.

More important, however, than this evidence of the hypocrisy of the American countries which are busy in trying on the Shanghai strikers and have also held the American manager of the foreign settlement responsible for the murder of students and strikers.

The purely the situation has changed greatly since 1900 when all the great and little powers united to fatten upon the bones of the Chinese people. In the present day, however, Britain in spite of her frenzied efforts to do so has not yet succeeded in forcing action from any of the other powers, nor is there among the other powers much desire to do so.

China has a great future. The Chinese people are fighting among themselves. The purely the situation has changed greatly since 1900 when all the great and little powers united to fatten upon the bones of the Chinese people.

Anthracite Miners Strike First Blow

The anthracite coal miners, since their tri-district convention, have followed the progressive policy adopted there.

Demands for a ten per cent increase in wages, the closed shop and improved working conditions have been made by the coal miners who profess amazement at their hardihood. The coal capitalists make a poor mouth and say that wage reductions are in order.

To the left wing in the anthracite fields most go the credit for the militant stand of the miners. Under Cappellini the principal anthracite district has been organized. The rank and file could get no action for the adjustment of grievances, much discussion developed and there was even the serious threat of a split.

The demands upon the operators are the first gun in what will unquestionably be a hard struggle, not only in the anthracite but in the other coal mining districts of the United States.

30,000 Enlist For Great Union

Thirty thousand members of the International Ladies Garment Workers' Union, meeting in the Yankee stadium in New York City, gave one of the greatest demonstrations of devotion to class struggle principles as the basis of labor union that this country has ever witnessed.

No such mass rebuke has ever been given to labor factionism as a result of anything which left workers, expelled by the reactionary Signa machine, were left with. The huge steel and concrete structure that housed the crowd, the fight against class collaboration, denied of political expression to the rank and file, the program of the union, the election of officers, the expulsion of militants, in the International Ladies Garment Workers' Union has been carried on with signal results.

But the enthusiasm of the stadium meeting must be given an organizational character. The program of the union, the election of officers, the expulsion of militants, in the International Ladies Garment Workers' Union has been carried on with signal results.

Every effort must be made to have an overwhelming majority of delegates at the next convention and there place the organization of the hands of the best leadership which the long struggle has developed.

The prosecution based that the defendant attorneys would make use of the fact that the defendant had been indicted to appeal a conviction in the latter court.

The court adjourned while the new indictment was being made out. New indictment goes to trial.

After the old indictment quashed and the new indictment was returned, he called for the defendant's attorney.

It was then that was given William J. Bryan when he entered the courtroom showed how the tabernacle of this backward countryside view the attempt of the conservative bourgeoisie to suppress the teaching of science in the public schools.

Bryan Wants Bible to Rule. The judge said that the Bible should be a part of the federal constitution, and frankly calls for the prohibition of the teaching of scientific facts by the courts which contradicted the Bible.

After the defendant's attorney, Charles Darrow, who sat in his chair, asked the judge to allow the evolution law as unconstitutional because it contradicted the Bible.
