

Generals Strike of British Coal Miners July 31

(Special to The Daily Worker)
LONDON, July 23.—A general strike in the British coal fields was ordered today by the Miners' Executive Committee for July 31, the date on which the operators have given notice they will terminate the present wage agreement. The Miners' Executive Committee voted unanimously to ask the miners to lay down their tools.

NOT ONLY CHINA AND INDIA, BUT SOVIET ECONOMIC SUCCESS LIES BEHIND WAVE OF BRITISH

(By Inquirer)
MOSCOW, July 8.—(By Mail.)—An article in the Pravda points out that the anti-soviet campaign in England is not only to be explained by fears for the maintenance of power in China and over India, but also by the quick development of the Soviet Republic which the imperialists regard as a danger. The bourgeoisie leaves to the workers no need in the Soviet Union, for it knows only too well that the Soviet Union is making rapid progress, that a good harvest is certain and with this a large export of grain from abroad.

AS WE SEE IT

By T. J. O'FLAHERTY

THE current line of the official organ of the United German Workers in Chicago, it smokes considerable noise, indignation, however, over prison-made goods, presumably because the prison authorities do not insist on the contractors purchasing Ribbert's steady labor. Kate Richards O'Hare is touring the country under the auspices of the United German Workers, exposing prison-made goods. Mrs. O'Hare would save the working class almost as well if her letter by exposing her strike-breaker paymaster.

ONE of the most revolting cases of cruelty that ever appeared in print in modern times is the story of the barbaric treatment meted out to three prisoners in one of the jails of Moscow, Russia. The prisoners were restrained, in terms of imprisonment, in addition to thirty lashes and a laak, which is described as being capable of inflicting great pain. This the "dreaded" can also talk." 4,000 MORE HIT AT LAWRENCE, MASS., BY 10 PER CENT WAGE REDUCTIONS; OTHER WOOLEN MILLS JOIN DRIVE

LAWRENCE, Mass., July 23.—Four thousand workers in the worsted department of the Pacific Mills are being hit by the American Woolen Co. and other companies for similar reductions. The cotton workers were out by the same company last fall.

PITTSFIELD, Mass., July 23.—The Hosiery Worst Co. of North Adams cuts wages 10 per cent July 27. Representatives of other woolen firms in North Adams, Pittsfield, Hinsdale and Dalton say they are considering like reductions.

ROCKVILLE, Conn., July 23.—Four woolen plants announce to be cut one per cent July 27. They are the Hockessin Mills, the Rock Manufacturing Co. and James J. Regan Manufacturing Co., all of Rockville, Conn., and Talcott Bros. of Talcottville, Conn., near Ky.

FASCISTS ADMIT CRIMES AGAINST GERMAN WORKER

Marler and Spying Are Told in Soviet Court

(Special to The Daily Worker)
The confessions of the German fascists, Dittmar and Baumann, who entered the Soviet Union under orders from the German fascist group, "propaganda centers," reveal the manner, terrorism, spying, and provocation indulged in by that organization to prevent the workers of Germany from gaining peace. Dittmar, arrested in the Soviet Union, who confessed to the court, told how he worked in the Ruhr, monitoring, sending spies into factories, and plotting with the French against the German workers. Baumann reveals how the fascist spies entered the Ruhr and worked to promote bloodshed, and provoke attacks on the part of the workers. He admitted, with astonishment, that the police aid the government authority.

THE OWNERS INSPECT THEIR FLEET

GARMENT MACHINES OPERATING WITHOUT SAFETY APPLIANCES

NEW YORK (FP)—The state labor department has again suspended the permit that should be installed on machines in garment factories to prevent accidents. The ruling is suspended till October, on the excuse that time is necessary for employers' organization to submit designs for the new safety guards.

Australian Unions Demand U. S. Free Jailed Workers

(Special to The Daily Worker)
MELBOURNE, Australia, July 23.—When the armed imperialist might of the United States in the shape of the great Pacific fleet came to anchor yesterday in Melbourne harbor—the Australian labor unions and their followers were almost welcoming the fleet.

Class solidarity of the Melbourne unions protesting against the continued imprisonment by the United States government of great numbers of labor unionists, particularly the seaman of I. W. U., was expressed in California, resulting in a complete boycott of the fleet in so far as any public demonstration was concerned.

The Workers' Fleet Goes Into Maneuver.

The street carmen's union walked out, and only the reactionaries would haul American sailors. The Australian I. W. U. is a small propaganda group making little of an union, has worked with the Communists to stop the labor movement to protect the white terror of the American capitalists. We also agree to the boycott of the American fleet or any other fleet and military expedition. We will be in the future if we don't act to crush the workers who produce the wealth of the world, read the resolutions of the Australian Seafarers' Federation.

WORKERS' FLEET GOES INTO MANEUVER

SWAMPSCOTT, Mass., July 23.—The U. S. Navy's "Condor" plans to use martial law to break the possible anti-war strike, is hinted at in statements issued from the summer White House here.

SHOWS CONGRESS UNITES CHURCH AND THE STATE

WASHINGTON, July 23.—A scathing attack upon congress for ignoring ignorance and lowering their standard "was hurled today by Loren W. Wittner, who has filed suit in the district of Columbia supreme court against the members of congress and the directors of the works in order to receive the instructions of the labor union.

COOLIDGE HINTS AT ARMED SUPPRESSION OF HARD COAL STRIKE

COALFID is inclined to believe that the pressure now being put on the miners will compel them to give their demand for a ten per cent raise, but if negotiations fail and a default indicates a strike, Coolidge thus plans to resort to which his advisers think will end any delayed strike in short order.

NORWEGIAN SHIP STRIKERS ASK AMERICAN WORKERS TO BOYCOTT SCAB BOATS ARRIVING IN U. S. PORTS

NEW YORK, July 23.—American workers are asked to boycott Norwegian ships in a campaign revealed by the Marine Transport Workers' headquarters from New York as follows:—"Boycott the Norwegian seaman's strike in connection with Norwegian seaman's strike. (Signal) Transport Workers' I. P. C." A boycott decision was made by the New York organization. Details of the strike are lacking.

MACHINISTS AID WORKERS IN THE GIBSON LOCKOUT

THE 150 locked out machinists, blacksmiths, employments and blacksmiths, employed by the Gibson Spring Company, 1800 Cityways Ave., are taking an active part in the drive of the International Association of Machinists, District No. 8, which is conducting the struggle, to organize other spring companies. The machinists have entered the fourth week of the lockout, with an effective picketing and their determination to win a union agreement unbroken. Strike benefits were paid by the union this week, J. J. Zimmerman, president of District No. 8, announced.

PICKET LINES EFFECTIVE, GET STRIKE BENEFITS

The members of the I. A. of M. have rallied in the support of the locked out. (Continued on page 2)

OPRIAN CHILDREN ARE 'BOUNDED OUT' TO YEARS OF HARD LABOR

HARRISBURG, Pa.—(FP)—If the new orphan's law goes into effect this week, the Pennsylvania state has enforced it "harder to bind and control" the children of the state. The 1925 act requires consent in addition to years of hard labor to be adopted; adopting persons must be said citizens of the state; in case of refusal, the mother has been "banned out" by adoption to years of hard labor in the homes and on the farms of adoption, in any way, including the little ones was to exploit them.

SCANDAL "TAXI CONTROL" GIVEN BLOW Police Persecution of Unionists Halted

From a Worker Correspondent
NEW YORK CITY, July 21.—Taxi drivers of this city are rejoicing at the news that the "Taxi Control" Association, in securing a temporary injunction, re-leased the taxi drivers from the supervision and licensing which was imposed on them in this city. The injunction was sought and granted by the Federal District Court. No jurisdiction, because the associate had no right to impose such a rule, but by which the police had gotten their power to supervise the taxi industry in this city.

Compulsory Patriotism

The Turks have learned a lot since they decided that they could get along without a Sultan and that perhaps the Sultan, not being so Great Britain's payroll. But the rest of the Turks did not fare so well.

But times have changed. Turkey looked pretty sick after the world war. The Sultan was getting along alright but, not so well as he used to be.

Greec, greened up by England, started in to take on such Turkish real estate as possible, from the Aegean to the Bosphorus.

The whole thing wound up with the Sultan and his harem being put on board ship and the captain was given orders to come back in six months with the cargo.

Recently they came to the conclusion that airplanes are a necessary part of governmental equipment, so they got together some money for building purposes.

But strange to say, when the Turkish government suggested that a check would be welcome and not a penny on it, those patriotic institutions refused to give a cent.
