Internal Situation of the Workers (Communist) Party

By P. GREEN. A SHORT report has been given to the members of the Party Commission to settle the most touchy question...

THE report of the New York membership meeting makes it urgent for us to give the most exact report of the work of the Party Commission on the basis of unquestioned facts and documents.

Who Gets the Subsidy?

The mine owners of Great Britain have been trying to reduce the basic wage rates of the miners...

Baldwin is now backing up the owners in their violation of this specific agreement...

The miners contend that the subsidy was granted conditionally to provide that the rates prevailing in July 1925 would continue...

Without venturing into prophecy we may observe that British labor's mood to take up the challenge for battle may result in a casualty but not altogether unobtainable.

The owners were making profit on the coal mined and marketed. If they do not make profit...

Under capitalism the charge upon industry is profit. Unless the miners accepted the wage...

The government which knows the need of society in course of the nationalization of the mines...

Literpool and the Red Flag. While the elated bourgeoisie is venting brag about its joy at the defeat of the Communist Party...

This was my mystification for our Main Streets? After the Scarborough Trade Union Congress went to the left and the Liverpool labor party congress remained right...

The fact is that the fraternity that has grown up between British and Russian labor is so overwhelming that even James Ramsay MacDonald has to bend an ear...

As to the "Red Flag," that is a traditional sign in the ranks of British labor...
