#### "Armistice Day

Seven years have passed gine the last of the guns re-echoed over the western front in the sorid war. The glorious war had come to a close, with the armies of the "Han tyrant" at the feet of the defenders of "democracy, liberty, Instice." Delirious mobs filled the streets celebrating the erect. #### A Day of Shame

November 11 has long had a significance to the workers of this country that is not coilipered with any fanfares of world war armistice. #### The I. W. W. Convention

The 17th general convention of the Industrial Workers of the World now meeting in Chicago could do much not only to bring the I. W. W. out of the slough of despondency and disintegration into which it has fallen under anarchist leadership, but also to encourage the working class, largely unorganized, that there was se organization in the field which really wished to organize them and had a realistic program to do it.

Nobody can believe-at least we cannot-that out of the 4,500, 000 agricultural workers, mostly residential, the Agricultural Workers' Industrial Union of the I. W. W. could not build a powerful union even under present conditions, of at least 500,000. That is of course, providing the A. W. I. U. really wants to do it. That

The same goes for the other industrial unions that have a field where they don't have to spend most of their time, money and energy fighting another union instead of the bosses. So these unions, which are running this convention, have great possibilities in agriculture marine transport, metal mining, general construction and lumber providing they work out a practical program for organizing the un organized in all these enormous fields waiting for such action. Bu organized will they?
