

GITLOW, CANDIDATE OF WORKERS PARTY FOR MAYOR OF NEW YORK, GIVES DEMANDS OF COMMUNISTS

By KARL REEVE
(Staff Correspondent of the DAILY WORKER)

NEW YORK, Oct. 4.—The Workers (Communist) Party, which fights at all times in the interests of the working class, will have the support of all the militant sections of the workers, and of all the rank and file and progressive elements in the trade unions in the municipal election campaign, Benjamin Gitlow, Communist candidate for mayor of New York City, declared.

"The trade union bureaucrats who oppose the unification of the bureaucrats on the political field in the labor party," Gitlow said, "will support either the Tammany hall politician, James Walker, the millionaire republican candidate, Frank Waterman, or the rich, liberal petty bourgeois minister, running on the socialist ticket, Norman Thomas."

The Workers (Communist) Party is the only party taking part in the coming election campaign which represents the interests of the working class, presenting a program opposed to the two old parties which are owned by the employing class.

Unino Member.

Gitlow, representing the Workers Party, is the only working class candidate for mayor. Gitlow is a member of Cutters' Local No. 4 of the Amalgamated Clothing Workers of America. He served two years in Sing Sing penitentiary, after being convicted and sentenced under the New York criminal anarchy laws, for signing the left wing manifesto in 1919 at the time the working class elements split from the petty bourgeois leadership of the socialist party. This famous manifesto was printed in the Revolutionary Age, of which Comrade Gitlow was then business manager.

Faces Sing Sing.

Comrade Gitlow was released from Sing Sing, pending an appeal, and the supreme court of the United States, in its recent decision which outlawed free speech in America, denied Gitlow's appeal, and decided that the Communist leader must return to prison to serve his sentence.

Even before the campaign ends, Comrade Gitlow may have to return to the capitalist dungeons, to pay the penalty for his loyalty to the interests of the working class.

"I regard it as a major issue of this campaign that the machinery of government be wrested from the hands of the bosses and their political parties and put into the hands of the workers," said Comrade Gitlow. "The Workers (Communist) Party stands for a workers' government. The republican and democratic parties have always given us a bosses' government. To separate the workers from the bosses, to unite them in a single labor party for the winning of control of the powers of government—this is the immediate aim of the Workers Party."

Comrade Gitlow then showed how the socialist party has tried to disunite the workers, refusing to consider the Workers' Party proposal for a united front of labor in the campaign against the two capitalist parties. Gitlow exposed the petty bourgeois

Slash Bread Price; Ward Stock Goes Up in N. Y. Exchange

Following cuts in bread prices in Chicago initiated by the Ward Baking Co.'s Chicago plant which slashed its retail prices 20 per cent yesterday, word comes from New York that Ward Baking Co. rose 6 points in the stock exchange to a new high of \$2. In addition to this, Ward has bought General Baking at \$225 a share as a further step in its campaign to trustify the baking industry in this country. Ward's is a scab house and has recently embarked on a campaign of wage-cutting.

TRACTION VERSUS REALTY ARE TWO BIG ISSUES IN NEW YORK CAMPAIGN

By SAM DARCY.

NEW YORK CITY—(By Mail.)—The first stage in the New York elections (that of choosing a democratic nominee) witnessed a struggle between the two dominating capitalist groups within that party—namely, the traction group and the realty group.

The swift growth of industry which occurred everywhere in the United States within the last fifty years brought this city from a position of being a comparatively insignificant port engaging almost exclusively in commerce to that of being one of the largest manufacturing centers in the world. Parallel with this development and in the greatest measure resulting from it came the great real estate boom to accommodate the increasing number of factories which set up in the suburbs and also the land promotion schemes for housing the increasing population.

This gave rise to the great public service corporations operating under city franchises which gave them ex-

World Imperialism Mobilizes Against Soviets! Defend the Workers' and Peasants' State!

The Workers (Communist) Party is launching an immediate campaign to warn the workers of America of the preparations being made for a new drive against the Soviet Union and to gather all those sympathetic to the workers' and peasants' government in a nationwide move in defense of Soviet Russia. In special instructions issued by the Central Executive Committee of the party to district and local officers outlining the campaign, the executive points out the imminent danger of a new anti-Soviet alliance.

The negotiations with Germany for a security pact, the present debt negotiations, the intensified struggle for colonial markets and the growing power of the Soviet Union, all lay the basis for a concerted imperialist effort to reduce the Soviet Union to a position of impotence. The following instructions make clear the reasons for the present campaign and lay the organizational basis for a united front movement of the American working class against this new

NEW YORK, Oct. 4.—The reactionaries in control of the official positions in Districts 1, 7, and 9 of the United Mine Workers of America are part and parcel of the corrupt political machines of the coal companies. Many of the officials play important roles in the activities of these political machines. It is no wonder therefore that you find the United Mine Workers of America in the anthracite officially bitterly opposed to every progressive manifestation in the United Mine Workers Union.

It is for that reason that you find the official gang in the anthracite supporting solidly John L. Lewis and his outrageous betrayal of the workers' interests. TO ALL DISTRICT ORGANIZERS, CITY SECRETARIES, LANGUAGE SECTION SECRETARIES, AND PARTY BRANCHES.

Dear Comrades:—

World imperialism is mobilizing for a new attack on the workers' and peasants' government of Russia. The workers of every country must rally to the defense of the Soviet Union.

Our party, as the American section of the Communist International, faces the duty of mobilizing all its forces in defense of the Soviet Union. It must rally the workers of this country for a fight in support of the workers' and peasants' government of Russia. The imperialist capitalist countries have found the Soviet Union in the pathway of their imperialist adventures. In China the workers are carrying on a bitter struggle against the imperialist powers. Their greatest inspiration and support in the struggle is the Soviet Union. The imperialist French government finds the French Communist Party a determined opponent to its efforts to enslave Morocco. Wherever oppressed colonial peoples are struggling against the exploitation of the imperialist powers they look to the Communist International for aid in their fight.

Great Britain is threatened by the swing to the left of its labor movement with a great increase of the influence of the Communist International. The resolution of the British Trade Union Congress against British imper-

A. F. OF L. DEPARTMENTS HERALD REACTIONARY WAR ON LEFT WING AT ATLANTIC CITY CONVENTION

By J. LOUIS ENGDALH.
(Special to The Daily Worker)

ATLANTIC CITY, N. J., Oct. 4.—Departmental conferences that are staged preliminary to the opening of the American Federation of Labor convention ended tonight after a double assault against the Communists, both of which were regarded as "weak" attacks against the militants in the trade unions.

First; the building trades department meeting at the exclusive Strand Hotel decided that no avowed Communist may sit as a delegate in a local building trades council.

Second; the metal trades department approved of a four hundred word attack against the Communists in the report of its president James O'Connell that offered no specific recommendations, however, and mentioned no union in particular.

The Communist problem came before the building trades gathering as a result of the protest of the district council of Painters No. 31 of Seattle, Washington, against the seating of W. H. Jones as delegate to the Seattle Building Trades Council. The decision was to notify Jones that the action of the Seattle Building Trades Council in unseating him was in accordance with the action of the Portland convention of the American Federation of Labor to the effect that no avowed Communist could be seated in any state or local council or central body.

Denies Local's Right of Choice.

In spite of the ruling against Jones he was elected repeatedly by his local union as its representative. This decision of the building trades department here makes no effort to attack his membership in the union. It merely attacks his right to represent his union in an official position. No other case in any other city is mentioned. No mention was made of the situation in the Carpenters' Union. The Portland decision referred to was that rendered as a result of which William F. Dunne was unseated as delegate of the Silver Bow (Butte, Montana) Trades and Labor Assembly.

Ancient Dodo Opposes Progress.

O'Connell's red baiting attack in his report to the metal trades consisted mostly of the usual cheap flow of billingsgate used by reactionary labor officials who have no arguments with which to attack the progressives in their organizations. It contains the conclusion, however, that may be interpreted as veiled support of the expulsion policies adopted in the Machinists' Union, that:

"I trust that this convention may declare its position so clearly and emphatically as to bring home to the minds of all the trade unionists, that membership in Communist organizations or similar organizations means nonunion membership in the trade union movement."

O'Connell included the Trade Union Educational League, William Z. Foster and the DAILY WORKER in his attack, and it is taken for granted that he referred to the Machinists' Union, his own organization, when he said: "I congratulate the trade union that it is attempting to cleanse its membership from this outlaw organization"—meaning the T. U. E. L.

A Gift from "B. and O. Bill."

It was William H. Johnston, the renegade socialist, now the anti-Communist head of the Machinists' Union, who defeated O'Connell in order to win his present job. O'Connell was thereupon given the presidency of the metal trades department as a pensioner's job by the Gompers' regime. But O'Connell and Johnston now have a united front against the machinist militants.

POLISH SOCIALIST PARTY NOW DEFENDS CAPITALIST SYSTEM AGAINST COMMUNIST ATTACKS

By L. DOMSKI.

The economic position of Poland day by day grows worse, and with this there is the possibility of a political complication. The fall of the Polish money on the exchange, the slight and not very decisive, has already caused a rise in food prices. If this tendency continues, new strikes are unavoidable.

The fighting groups of capital—the Polish socialist party, is getting rather nervous. Having long ago lost its hold on the working classes, by which it is now hated, the Polish socialist party owes its position only to the role which it plays in the interests of the bourgeoisie. The Polish socialist party is under the protection of the government, as it acts

as its strikebreaker guard. But woe to the Polish socialist party if it should turn out unfit for this role. And the "red" elements in the trade (Continued on page 6)

REPORTS OF PARTY MEMBERSHIP MEETINGS

BOSTON DISTRICT ENDORSES CENTRAL EXECUTIVE COMMITTEE AND PARTY'S BOLSHEVIZATION

By JOHN J. BALLAM.

BOSTON, Oct. 4.—The Boston District No. 1 membership meeting which was held at Paine Memorial Hall, 9 Appleton St., Boston, was one of the most instructive and important party meetings in this district. There were over 200 party and Y. W. L. members present and all were enthusiastic and receptive to the C. E. C. report of the fourth national convention proceedings and the decision to reorganize our party on the basis of the shop and street nuclei in the shortest possible time.

Analysis of Party.

Comrade Jay Lovestone, head of the organization department of the Central Executive Committee analyzed the present party situation and the party's immediate tasks. Comrade Lovestone pointed out that there were three principle stages in the growth and development of our party: 1. The formation of the Communist parties in 1919 with over 40,000 members; the raids resulting in the underground organization with its sectarianism and factional divisions. 2. The formation of the Workers Party in December 1921 and the development of a more realistic political viewpoint when our comrades began to see the masses; the correcting of the left sicknesses, etc. 3. The period when the American masses began to see the Communist movement and the Workers Party thru the development of the labor party campaigns, the building of the left wing movement in the trade unions, and the united front campaigns.

Fourth Stage.

Comrade Lovestone showed that we are now entering the fourth stage in our growth toward a real Bolshevik party thru the present realization of the need of carrying out the decisions of the Communist International and the convention on Bolshevization. "The factional struggles of the past ten months, which were characterized by so much bitterness," said Lovestone, "were the birth pangs of the new Bolshevik Workers (Communist) Party now being born."

Reporting on the national convention, Comrade Lovestone said that the fact that the convention spent three days on the report of its credentials committee and that there were over one hundred challenges by the former minority alone showed in itself great organizational weakness and defects. It was said by a leading comrade that this was more a convention of dues stamps than of representative Communists in conference. Nevertheless, said Lovestone, "at no previous convention was there more intensive political discussion than at our last convention." The convention lasted ten days and it was said that these were the "ten days that shook the party."

Stand on Loreism.

On the question of opportunist deviations the convention took a firm stand as evidenced by the expulsion of Lore and the removal of Askeli from the editorial board of Tyomies. This served warning upon all those in our party who were drifting toward opportunism that the Central Executive Committee would deal firmly and decisively with those who would lead our party away from the line of the Comintern. It was high time for our party to act, as it was only as late as June 1924 that our party definitely declared itself against Trotskyism in the Russian Communist Party.

The last decision of the Communist International placed the leadership of our party in the hands of the former minority group and the national convention carried out that decision. The attitude of our comrades toward that decision of the C. I. will be one of the best indications of the readiness of our members to accept and carry out Bolshevization and of their loyalty to the Comintern. Already Lore is organizing his Workers' International Association and bidding for support among our members. Lore attempts to show how the C. I. butted in and 40 delegates had to do what Moscow said, etc. This protest against interference by the C. I. in the affairs of the sections of the C. I. is characteristic of all social-democrats and opportunists. Frossard, Hoeglund, Levi, et al, have said the same.

Bolshevization.

On the subject of Bolshevization and reorganization Comrade Lovestone devoted the main part of his

the fourth national convention of our party, lay down a correct basis for the work of the party members among the masses, thru which alone our party can grow into a mass Communist Party. We declare our wholehearted support to the resolution on the immediate tasks of the party, on trade union work, on the labor party campaign, imperialism, work among women, agricultural work and other major campaigns of our party.

"2. We welcome the action taken by the national convention for the liquidation of Loreism in our party. Our party has already reached the point of development where opportunistic deviations by leading members can no longer be tolerated. In the expulsion of Lore and several of his aides from the party and in the removal of Comrade Askeli from the editorial board of the Finnish organ, Tyomies, the national convention indicated that the fight against opportunism will be intensified in our party. We pledge our wholehearted support to this campaign.

"3. The resolution on the Bolshevization of our party marks a new step forward for the American Communist Party. The thoroughgoing reorganization of our party on the basis of shop nuclei and the development of a centralized apparatus mark necessary and significant steps toward the Bolshevik centralization of our party and lay a sound basis for the party's carrying on real Communist work. We pledge ourselves energetically to take up the campaign for the reorganization in the least possible time.

Comintern Decision.

"4. The last resolution of the C. I. sent to our fourth national convention by the presidium of the C. I., declaring that, "it has finally become clear that the Ruthenberg group is more loyal to the decisions of the C. I. and stands closer to its views," lays the basis for the unification and development of our party. We declare our acceptance of the last resolution of the Comintern dealing with our party and that we will loyally support the C. E. C., elected on the basis of this decision in carrying on and intensifying the work of the party.

"5. This membership meeting of District No. 1 declares that the interests of the party demand the sincerest and most tireless executions of all decisions of the C. I. regarding our party. This is particularly necessary when Lore is openly working to discredit the C. I. and its decisions, and to destroy the possibilities for building up a powerful section of the C. I. Especially at this moment, therefore, any attempt to question the character of or to discredit the latest C. I. decision or in any way to interfere with its successful execution would be playing into the hands of the Loreites and other enemies of the Comintern, who are working to discredit the C. I. and its American section—the Workers (Communist) Party.

Approve Convention.

"6. We declare our approval of the unanimous decision of the national convention to accept and carry out without reservation the last resolution which the Comintern cabled to the fourth convention of our party.

"7. The Boston District No. 1 membership meeting declares its fullest endorsement of the Central Executive Committee and strongly urges all members to forget their past factional differences; to drop all factional strife, and to rally as one solidified, united Communist Party for new constructive activities for Communist campaigns, under the leadership of the Central Executive Committee chosen by the fourth national convention of our party."

"8. The Boston District No. 1 membership meeting declares its fullest endorsement of the Central Executive Committee and strongly urges all members to forget their past factional differences; to drop all factional strife, and to rally as one solidified, united Communist Party for new constructive activities for Communist campaigns, under the leadership of the Central Executive Committee chosen by the fourth national convention of our party."

"9. The Boston District No. 1 membership meeting declares its fullest endorsement of the Central Executive Committee and strongly urges all members to forget their past factional differences; to drop all factional strife, and to rally as one solidified, united Communist Party for new constructive activities for Communist campaigns, under the leadership of the Central Executive Committee chosen by the fourth national convention of our party."

Workers Party Dist. 5 Expels Joe Lang of McKeesport, Pa.

PITTSBURG, Pa., Oct. 4.—District Organizer Arne Swaback of District No. 5 of the Workers Party addressed the following letter to Joe Lang of the McKeesport Hungarian Br., notifying him of his expulsion from the party for the reasons set forth: The District Committee of District No. 5 is in receipt of a communication addressed by Joe Lang, member of McKeesport Hungarian branch, to the C. E. C. in which he in the most insulting manner attacks the C. I., its representative and the Bolsheviks in general, using a language absolutely unworthy of a Communist. We were also informed that Joe Lang transmitted a contribution to the discussion now taking place in the Volkszeitung which was published under the head "Lofeism, Workers Party and the Volkszeitung" which is a direct polemic against the Workers (Communist) Party.

The C. E. C. in forwarding this communication to the District Committee asks that the District Committee take prompt action in the matter, and the District Committee unanimously carried the motion to expel Joe Lang forthwith from the party for reasons set forth above, to notify the respective party units accordingly and to ask the DAILY WORKER and the party press in general to give prompt display to this unanimous action of the District Committee of District No. 5.

PHILADELPHIA MEMBERSHIP MEETING ENDORSES PARTY REORGANIZATION AND C. E. C.

Two hundred and forty Workers Party members, together with a number of Y. W. L. members turned out Saturday, Sept. 26, in Machinists' Temple, Philadelphia, to a general party meeting to hear the report of Comrade Lovestone, together with a brief report of the convention by Comrades Jakira and Baker.

The meeting was opened at 7:30 p. m. by N. H. Tallentire, newly elected organizer of District 3, who introduced Comrade Baker followed by Comrade Jakira, who briefly reported on the national convention of the party. Tallentire, in introducing Comrade Lovestone, referred to Lovestone's record in the party, showing his association with the Communist movement from its inception, and his consistent line of policy thruout, which he still follows, "toward the masses," and indicated briefly Comrade Lovestone's splendid services for Communism in America.

Receives Ovation.

On rising to speak, Comrade Lovestone as C. E. C. representative, received an ovation, the meeting rising and singing the International. Lovestone's speech of one hour dealt with the inner party situation as it affects the reorganization of the party. Tracing the history of the Communist Party development from its origin thru the formative period, underground period, to the open day of Communism, the Workers Party of America.

"To the Masses."

The labor party policy, the speaker showed, as outlined by the C. I. leads "to the masses," and urged the membership to study and understand the underlying principles of the C. I. united front policy in order to advance the cause of Communism amongst the American workers.

Dealing with party reorganization, Lovestone stated that the process of the Bolshevization of our party is inevitably bound up with reorganization, as outlined by the C. I. on a shop nuclei basis. Explaining the obsolete character of the present territorial units, Lovestone urged all members to co-operate and speed up this work, that we may have an opportunity of clearing the last traces of social-democracy and Loreism in our party.

Support New C. E. C.

Comrade Lovestone urged all members without regard to pre-convention groupings, to rally to the support of the new central executive committee, and to carry out without reservations the latest decision of the Communist International, finishing by reading the resolution of the C. E. C. on the party question.

The chairman made a short appeal for active support of able members in reorganizing the party. A collection of \$168.00 in cash and pledges was recorded.

Unanimous Decision.

Debate from the floor by Comrades Lena Rosenberg, Yusem, Lyman, Toohy, Olken, Ball, Baker, and Tallentire, followed after which the resolution submitted for the central executive committee by Comrade Lovestone was by motion unanimously adopted, a poll of the house showing 239 members present and voting.

The resolution adopted by the Philadelphia district membership meeting was as follows: The Philadelphia District No. 3, membership meeting of the Workers (Communist) Party, section of the Communist International, after listening to the report of Comrade Lovestone, the representative of the C. E. C., hereby declares:

1. The resolutions of the Party Commission unanimously adopted by the Fourth National Convention of our party, lay down a correct line of Communist policy for our party. These resolutions provide the basis for work of the party members among the masses, thru which alone our party can grow into a mass Communist Party. We declare our wholehearted support to the resolution on the immediate tasks of the party on trade union work, the labor party campaign, imperialism, work among women, agricultural work and other major campaigns of the party.

2. We welcome the action taken by the national convention for the liquidation of Loreism in our party. Our party has already reached the point of development where opportunistic deviations by leading members can no longer be tolerated. In the expulsion of Lore and several of his aides from the party and in the removal of Comrade Askeli from the position of editor of the Finnish organ, the Tyomies, the national convention indicated that the fight against opportunism will be intensified in our party. We pledge our wholehearted support to this campaign.

3. The resolution on the Bolshevization of our party marks a new step forward for the American Communist Party. The thoroughgoing reorganization of our party on the basis of shop nuclei and the development of a centralized apparatus mark necessary and significant steps toward the party's carrying on real Communist work. We pledge ourselves energetically to take up the campaign for the reorganization of our party as laid down by the C. E. C. and to give all possible help to the C. E. C. in effecting this reorganization at the earliest possible date.

4. The last resolution of the Communist International, sent to our Fourth National Convention by the Presidium of the Comintern, declaring that "it has finally become clear

Ask All New York to Be at International Labor Defense Ball

NEW YORK CITY, Oct. 4.—International Labor Defense, New York section, announces a costume ball to be held on Saturday, Oct. 17, at the Lyceum, 86th Street and Third Ave., New York City.

This Ball is the beginning of a series of activities to be conducted by the I. L. D. in their campaign to help the class-war prisoners and their families. At the present time of blackest reaction, with the courts issuing injunction after injunction against the workers and the police clubbing strikers in the picket line, there is a crying need for a strongly centralized fight for the civil rights of the working-class. The I. L. D. is trying to fill this need, but it can do nothing without the concerted support of all elements of labor behind it. Every sympathizer must work to his utmost to make this work effective.

The committee in charge of the ball announces many novelties for the affair. Prizes will be given for the best and most original costumes; one of New York's finest orchestras has been engaged to provide the music; and there will be many surprises for those who attend. The Ball promises to be one of the brightest and most successful affairs of its kind ever held in New York District. Each worker should not only buy a ticket for himself, but should get a bunch to sell in his union or his fraternal organization. For further information, apply to the secretary of the I. L. D., Rose Baron, Room 422, 799 Broadway, New York.

Courts Asquits Polish Workers Charged with Communist Membership

WARSAW, (By Mail).—The trial of Moushinski, Zatorski and Rappoport, a woman tailor, on charges of participating in the Communist Youth organization, ended recently in the Warsaw district court. On account of a complete absence of any evidence against them, the court acquitted all the accused, after they had each undergone three years of penal servitude.

The witnesses, all agents of the secret police, founded their charge on the fact, that the accused had a "Communist reputation."

Connecticut Takes Initiative in Shop Nuclei Organization

The active participation of our party members in the recent strike of 400 workers in the Sidney Blumenthal (Shelton Looms) plant has made it possible for our comrades to organize a strong shop nucleus there.

It is interesting to note that prior to the organization of this shop nucleus, the various party members working in this factory who were members in their different party branches never considered our party activities in the shop at their branch meetings.

The shop nucleus was organized after the Communist participation in the strikes at this plant, which were in force last January and June. The district executive committee is taking steps to help the comrades function in this nucleus. The employers in this instance are bitter enemies of organized labor, particularly militant organized workers.

This is the first shop nucleus organized in the Connecticut district. The comrades in the shop nucleus have won the confidence of many workers, as a result of their participation in the struggle of the employees in the Shelton textile plant, against the attempt of the bosses to force them to run more looms.

TO THE RESCUE! Save the Daily Worker

Fifty Thousand Workers

Will receive this call within the next two weeks.

Every unit of the Workers (Communist) Party will get it.

Thousands of workers in the trade unions,

Thousands of unorganized workers will join.

At least fifty thousand will receive this call thru the mail.

ACT! And ask for ACTION!

Dear Comrade:

Every militant working man and woman is mightily concerned about the danger which faces THE DAILY WORKER. A great many of them gave immediate response to the danger signal and thereby helped to overcome an emergency which without their support would have ended in disaster. The impending catastrophe was averted, but THE DAILY WORKER is very far from being safe.

There is only one way in which THE DAILY WORKER can be made safe and that is through the support of each one of the thousands of workers who depend on THE DAILY WORKER for leadership, inspiration and information in the struggle against capitalism.

SAVE THE DAILY WORKER.

Around this slogan every fighting, class conscious worker must rally. We said that only by the unified efforts of all militants could THE DAILY WORKER be saved. That is true, but there are several ways in which each one may do his share:

By donating money to help THE DAILY WORKER in its work. Perhaps you have already done so. If you possibly can do it again and get some other worker to help, too.

By securing new subscribers to THE DAILY WORKER and The Workers Monthly. This is a task that everyone can perform with a little effort and by doing so you not only help to solve the financial problem, but also you strengthen THE DAILY WORKER by increasing the size of its army and strengthen the whole labor movement by increasing the number of well informed fighters within the ranks.

By buying and reading some of the Communist literature published and sold by The Daily Worker Publishing Co. In this way you help THE DAILY WORKER financially and in addition you can with pleasure and profit to yourself, make yourself more effective a fighter in the labor struggle. We know that you are willing to exert every effort to help save THE DAILY WORKER. We have suggested three ways in which this can be done.

Whatever way you can. Every way if you can. Act now to save The Daily Worker.

Fraternally yours,

Manager.

clusive monopolies—each in a particular branch of service but very often having interlocking directorates.

Waterman is the clearer symbol of Wall Street. He is no mere hired servant of Wall Street—he is one of the crowd. The party feels that they must do something to prove that they can serve big business better than the democrats can and this is their method.

ENRIGHT PLANS TO FINGERPRINT WORKING CLASS Make Easy Frame-up of Radicals

NEW YORK, Oct. 4.—Police Commissioner Enright of New York would outdo the French and German systems of ticketing and docketing citizens.

In an article in the Scientific American he urges universal fingerprinting, not only of aliens but of everybody, so that the police can keep tabs on every man, woman and child.

Enright's plan is seen by the workers as a step towards a police authority to which the czarist system will be considered quite mild.

Mexican Law Bans Foreign Landholding

MEXICO CITY, Oct. 4.—The proposed law in accordance with the constitution, regulating foreign activities and possessions in Mexico, is certain to pass the Mexican chamber.

Soviet-U. S. Trade Increase

MOSCOW, U. S. S. R., Oct. 4.—Trade with the United States during the last six months was several million dollars greater than for the whole year 1924, totalling \$58,779,736.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of the total amount of bonds, mortgages, or other securities are: (If there are none, so state.) None.

Tatarbounar Peasant Trial On

(Continued from page 1)

teachers who escaped the bullets of the Rumanian bourgeoisie during the rebellion of September, 1924, are now brot to the bar.

Not all the 1,000 accused, however are now on trial. Mercy was taken on a few, and over 200 prisoners, owing to lack of "evidence" were released.

Importance of Trial

But he who probes deeper into the conditions today existing in Roumania, and especially in Bessarabia, will have to agree with the following fact, that in reality this trial will decide the fate of the agrarian reforms, of the national question and of the relations with the Soviet Union.
