### "Freedom for Feudal Reaction 1,000 MINERS Led by the Vatican, Financed by Imperialism"---Defeat the Holy War Program

"Religious Freedom in the Soviet Union!"

Under this slogan is being carried on the preliminary preparation for war on the first workers' and peasants' republic. The campaign is led by the Holy Roman Catholic Apostolic Church-the grandiose title under which the Vatican, world center of religious-feudal reaction, conducts its united front with world imperialism. .

The essentially reactionary and anti-working class character of theology, which has sunk all denominational and doctrinal differences under the leadership of the pope for war on the Soviet Union-the only country where the church has been completely separated from government and where actual liberty of religious thought prevails alone of all the countries in the world-is shown by the collection of clericals which has rallied to the war cries of the Vatican.

Let us be specific:

The Jewish rabbis support the Vatican. It is too well known to require detailed supporting arguments that the pogroms in Poland in which thousands of Jews have been tortured and killed, and are still tortured, killed, and hunted like wild animals, were and are organized with the assistance of the Roman Catholic archbishops, bishops and priests. The peasantry in Poland today are ruled by Roman Catholic priests just as they were under the czar. Pogroms in Poland have continued under the "republic" and continue under the Pilsudski fascist dictatorship.

In Rumania pogroms continue. Jews are tortured and slaughtered by sadistic bands organized and led by Catholic priests and other adherents of Roman Catholicism.

The sale of the Irish people—the workers and peasantry who are the overwhelming majority of the Irish population-has been one of the chief sources of revenue for the Vatican since the eleventh century when Adrian VII sold the country to the English rulers in return for one silver penny per head for each convert.

When the Irish masses revolted and took up arms against British imperialism in 1916 under the leadership of Jim Connolly, the spies, informers and stool pigeons furnished by the official organization of the Roman Catholic Church were the most efficient weapons of the

Vatican officialdom was jubilant, when Jim Connolly, the greatest leader of the Irish masses, one of the outstanding organizers and strategists of the working class, champion of the united front of colonial peoples and the working class in the imperialist countries, originator in the Western world of the theory of armed insurrection as the culminating point of the struggle for national liberation in conjunction with the revolutionary struggle of the proletariat for the overthrow of imperialism, Marxian interpreter of the revolutionary role of the trade unions, clear-sighted enemy of the Vatican and its agents as tools of imperialist reaction, with both legs broken by machine-gun fire, was dragged from his prison bed of pain and shot like a dog by British imperialism for his leadership of the Easter uprising.

The Irish Free State, the instrument of British imperialism and the capitalist class of Ireland for the robbery and suppression of the Irish working class and peasantry, is primarily the creation of the

It should not be forgotten that the present pope is the former cardinal Ratti-likewise the agent of French imperialism, assigned to work in Poland in 1920 when the Polish drive on the Soviet Union was repelled and the seizure of power in Poland by the working class, with the aid of the Red Army, was prevented only by the rushing of the French military supplies and French military forces to the Polish front.

Cardinal Ratti, now pope, was the organizer of this bloody conspiracy against the fatherland of the world's working class.

Driven to desperation by the continued and rapid rise of the working and living conditions of the masses in the Soviet Union, aghast at the fact that millions of workers and farmers in other countries are drawing the class lessons of the Russian revolution while capitalism to be held at Manhattan Lyceum, forces ever worse conditions upon the masses, world imperialism has enlisted its last reserve—the clerics whose superstitious savageries have been written in the blood of humble hundreds of thousands for 20

Listen to the Jesuit Walsh, speaking together with Matthew Woll, vice president of the American Federation of Labor and head of that other Wall Street instrument, the National Civic Federation-jesuit and fascist sharing the platform at the Metropolitan Opera House,

"I may now reveal what for years was a secret shared only by the pope himself (the former Cardinal Ratti-Editor.) and a few others, namely, that " . . the head of the Catholic Church summoned into his presence the General of the Society of Jesuits and one of the priests of that Society, a French scholar and an expert in the Russian language and liturgy, Father Michael

"The priest was immediately consecrated a bishop. .. Archbishop Pacelli, then Papal Nuncio to Berlin and now Cardinal Secretary of State of the Vatican, performed the conse-

"Then the new bishop went into Russia disguised as a French merchant—a true Jesuit plot if ever there was one . . . and in Russia, in daily and hourly peril of his life, he carried out the orders of the pope; he secretly consecrated twelve Catholic Bishops-the twelve apostles, may I venture to say, of the rebirth of the church in Red Russia."

Here is the clear admission-incapable of any other interpretation when taken in connection with the known role of the former Cardinal Ratti as the organizer of the Polish drive on the Soviet Union in 1920 as the most important part of his task as the direct representative of French imperialism and indirect representative of all the imperialist powers-that the Roman Catholic Church has maintained a counterrevolutionary spy brigade in the Soviet Union and organized resistance to the economic, political, social and cultural program of the working class government.

Here is the proof from the lips of a priest speaking directly under orders from the Vatican, that the Roman Catholic Clergy who have been executed and imprisoned in the Soviet Union, have been punished for counter-revolutionary plots and not for the mere dissemination of religious propaganda.

The impudence of such enemies of the working class is astounding when they prate about "religious freedom." On the Index Expurgatorious of the Vatican-the list of books which the faithful are prohibited from reading under severe penalties-are all of the scientific classics of the 18th and 19th centuries-Huxley, Darwin Spinoza, Lyall, Hegel, Morgan, Haeckel, Marx, Engels, Ricardo, Thompson, Mills, Hobbes, Buckle, Voltaire, Diderot, Paine, etc.

The Vatican places a premium on ignorance. It procured the arrest, prosecution and execution of Ferrer-the great Spanish libertar-It insists on maintaining in all countries its cesspools of ignorance and reaction known as parochial schools. It supports the fascist dictatorships in Spain, Italy, Poland and Jugo-Slavia. It desires to revive the inquisitions and it works unceasingly for the union of Church and state-the re-establishment of the temporal (political) power that it held during the Middle Ages.

Capitalist rationalization with its premium on purely mechanical carrying through of machine processes, its attempt to create a world of robots out of the working class, has aroused new dreams of world power in the breasts of the theologians. United under the leadership of the Vatican, the clergy of all countries contend once more for political power-for the right to administer "justice"-the high, the mid-

Their immediate demand now together with the fascist Woll is for

With this under way, the next step will be the immediate military mobilization of the forces of the puppet governments of Poland, Rumania, Jugo-Slavia, etc. for war on the Soviet Union.

The churches thus expose themselves to millions of workers and farmers as political agencies, as instruments of the robber class. \* The role of religion, protestant and catholic," can no longer be

masked by humanitarian phrases. Organized religion stands forth under the leadership of the Vatican as the mercenary and merciless enemy of the masses in all countries. Science is in uncompromising conflict with religion. Science is on the side of the working class and its political party-the world

party of the proletariat, the Communist International. The working class, holding power in the Soviet Union, leads the masses by science instead of blinding them by superstition.

The working class in the United States and throughout the world is defending their fatherland and their political party.

The class struggle itself is clearing away superstition and showing clearly the capitalist class character of popes, prelates and priests.

### 200 ARE LEFT OF 1050 IN KINCAID, ILLINOIS MINE; LAYOFF REST

Then Mine Employing 1,100 Will Soon Close Down and Throw Men on Streets

NMU Will Organize These Victims of Capitalist Rationalization

(Bu a Worker Correspondent) KINCAID, Ill.-Peabody No. 7 of Kincaid has definitely done away with all hand loading in the mine. Out of 1,050 mine workers there will be approximately 200 left on the job. It is talked everywhere that No. 8, owned by the same company, some three miles west of this place, is to close within the next two weeks. This mine employs fully 1,100 miners. This is the last mine along the | miners.

Midland track that remains not fully mechanized, and the miners fully realize that when it opens again it will open with loading machines, conveyors, etc., which means practically the same problem there is in the other mines. Out of these 800 men who will be out of work, there are some picked men, and among these picked men there are some who are being sent into the non-union fields of Kentucky. N.M.U. will organize these -MINER.

### Southern Cotton Mills and Labor

By Myra Page

fight will go on."

96 pp. 25 Cents.

EARLY REVIEWS "Myra Page is well qualified to write of Southern textile workers. As a southern woman herself, she has lived and worked in mill villages and knows the situation at first hand. "SOUTHERN COTTON MILLS AND LABOR" should be read by every worker in order to understand what is back of the great struggles in the southern textile field."

-GRACE HUTCHINS, author of "Labor and Silk." . The author performed a surgical operation upon a portion of the body of American imperialism, an operation which discloses in detail the misery of the masses. This is no 'study' by a social welfare worker. Sympathy and understanding are there, but primarily it is an incision, sharp and merciless, by a scalpel with a Leninist edge."

-WILLIAM F. DUNNE.

## THE INDIAN REVOLUTION AND GHANDI'S MANEUVER

By O. W. KUUSINEN.

Page Four

THE great revolutionary upsurge in India is progressing at a tempestuous pace. And in this situation Ghandi comes forward in order, in the name of the slavish principle of "nonviolence," to summons the people to boycott the salt monopoly of the British-Indian government. It is not difficult to see the meaning of this maneucer.

Ghandi does not put the question of a victory in the fight against the British yoke. He puts the question otherwise: Violence or nonviolence to British imperialism. He preaches absolute "non-violence." He describes all Indian revolutionary organizations as "parties of violence," and openly writes in his newspaper that he fears these more than the English Viveroy! What is the meaning of that?

Hundreds of millions of Indians are still groaning under the terrible yoke of the real party of violence, of British imperialism, but Ghandi does not fear these predatory, bestial suppressors of India as much as he fears the Indian revolutionaries. What does he therefore do? He undertakes a national reformist maneuver. He submits an ultimatum to the Viceroy. He organizes an anti-imperialist sham fight, "involving a mad risk," as he himself declaims. For what purpose? In order not to lose all influence over the great national mass movement; in order to secure hegemony in this movement for the bourgeoisie. Without an anti-imperialist sham fight it is impossible at present for anybody in India to approach the broad masses of the people if he wants to obtain a hearing. Hence Ghandi's flag of passive resistance. But even this passive (at any price "non-violent") resistance he wishes to limit in a double manner: 1. To limit it territorially in order that the movement shall not be able to spread, and 2. To limit the boycott to the salt monopoly of the government in order to exclude the risk of the boycott extending to all taxes, to the ground rent payable by the peasants, etc., and growing into revolutionary fighting demands.

The "insane risk" consists in Ghandi's playing with the driving forces of the revolution He wishes to do everything possible to avoid the risk of revolution. The revolutionary mass movement of the workers and peasants of India is to be split and scattered both territorially and in regard to its slogans. It is to be diverted into suitable side-channels, and in any case held up half-way. Instead of rallying and organizing the many millions of toilers, who are in a ferment, in a firm revolutionary front, and instead of taking up the real fight with these huge masses against imperialist violence, the development of the revolutionary mass struggles is to be actually stifled and quenched in an impotent cry of pain of the million masses.

That is the objective meaning of the boycott campaign introduced by Ghandi against the salt monopoly. The Ghandiist boycott is, at bottom, a boycott of the Indian revolution, and is thereby calculated to help the triumph of the British colonial power in India.

Against this Ghandiist line of the Indian bourgeoisie the young Communist Party of India lays down its own line. For the C.P. of India the deciding question in the anti-imperialist fight is: Victory or defeat? It is as clear as daylight that in the event of a collision between imperialist violence and colonial 'non-violence' the latter can have no hope of victory. India can emancipate itself only by revolution. Therefore, the fundamental slogan of the Communist Party of India, for which it is conducting agitation among the masses, is: Drive out the British imperialists by the democratic revolution of the working class and peasantry of India!

What is now the immediate, urgent and unpostponeable main task of the revolutionary workers' and peasants' movement of India?

In the fight against the British colonial regime the victorious strength of the Indian revolutionary movement can lie only in its enormously great masses. It can achieve victory by the overwhelming mass power, not by boycott, not by passive resistance, nor by empty noise. The enormous mass power of the Indian workers and peasants is, at present, very little organized. Therein lies its greatest and most dangerous weakness. Hence the immediate practical task is to organize the mass forces of the workers and peasants of India for the approaching gigantic revolutionary

This is not by any means a task of mere organizational petty work. This is now an extremely important political task in India. All mass actions, all great collisions which are taking place there at present, must be made use of in order with the greatest energy to extend and strengthen the revolutionary mass organizations in town and country, before all the class trade unions and the organizations of the revolutionary youth, at the same time increasing the recruitment of active workers for the Communist Party. Just as the Bombay textile workers, during their strike, accomplished wonders in the way of organizing the masses by building up the "Girni Kamgar" Union, so it is necessary to perform similar and even greater things in other places and in other spheres. It is necessary to organize revolutionary workers' demonstrations with inependent class slogans. Workers must be sent nto the villages in order to help the peasant masses to take up the refusal to pay taxes and ground rent, everywhere to form peasant committees and to develop mass education for driving out the landowners and government

officials. The striking railway workers must visit all the railway lines, conveying the summons to prepare for the political general strike.

Whoever really desires victory in the fight for the independence of India must now help with all means the proletariat and the masses of the Indian peasantry to organize their revolutionary forces and their mass actions. Whoever sabotages this organization exposes himself, like Ghandi, as a strategist of the counterrevolution. Ghandi has himself admitted in his "ultimatum" that he could not wait any longer because the revolutionary upsurge in India is growing so threateningly. He fears the revolution-hence his campaign. And behind him stands the All-India National Congress, the representative body of the national bourgeoisie. The strategy of the National Congress is, at bottom, nothing else but the counter-revolutionary strategy of Ghandi, whoever may come forward as advocate of this strategy, whether he be Ghandi or Javarharlal Nehru or anybody else. The attitude of the Indian Communists to them can only be: Determined fight against the National Congress.

This does not exclude but presupposes the utilization of even the sham fights of the Indian bourgeoisie, the utilization of its narrowly restricted conflict with British imperialism by the Communist Party for the purpose of mobilizing the broad toiling sections of the population, and further developing the revolutionary mass movement. But the more the national bourgeoisie attempts to develop its campaign with seeminly "general-national" slogans, the more ruthlessly must the Communists expose the counterrevolutionary class character of the campaigns and slogans of the national bourgeoisie. Only by maintaining complete political independence and a sharp revolutionary class line can the Communist Party successfully lead the Indian proletariat on the way to securing its hegemony in the national emancipation movement, and thereby also secure the victory of the revolution.

The government of Great Britain-the Labor Government as the representative of the imperialist bourgeoisie-is proceeding to arrange, through its authorities in India, the vilest provocations and bloodiest mass slaughters. The English Communists must in good time make the broad working masses of Great Britain aware of these criminal plans and summon them to determined, courageous support of the Indian revolution.

#### Rockefeller Dominates Worlds' Largest Bank

THE merging of Chase National Bank, Equitable Trust Co., and Interstate Trust Co. places Rockefeller interests at the head of the largest bank in the world.

Until now Rockefeller's National City Bank has been the largest in the United States, but London has held the leadership with the largest in the world. The new mammoth Chase National with total deposits of \$2,100,000,000 now steps ahead of the Midland Bank, Ltd., leading

Winthrop W. Aldrich, who has been president of the Equitable Trust Co., will represent Rockefeller interests as president of the giant combine. He is brother in law of John D. Rockefeller, Jr., and was personal representative of the Oil Emperor in the Indiana Standard Oil fight last year. On Aldrich's appointment as Equitable president, three months ago, the New York Times commented:

selection of Mr. Aldrich as president of the Equitable leaves no room for doubt as to where the control of the bank lies. Wall Street needed little assurance in this connection, as it has generally been assumed for some time that the holding of John D. Rockefeller and his son in the institution represented the largest concentration of the Equitable shares."

The same statement now applies to his selection as president of the new Chase Na-

Other Rockefeller directors of the bank combine include Bertram Cutler, Rockefeller's personal representative on the board of many concerns; Henry E. Cooper, formerly his personal representative; T. M. Debevoise, who acted with Aldrich in the Indiana Standard Oil case; Geo. P. Whaley of Vacuum Oil, closely affiliated with Standard of N. Y.; L. F. Loree, president of the Delaware and Hudson, a Rockefeller railroad; Otto Kahn, of Kuhn-Loeb; Chas. M. Schwab, of Bethlehem Steel, and Theodore Pratt, of New York Standard Oil.

Of course, other powerful industrial overlords; in addition to the Rockefeller men, are directors of the new financial titan. Copper and iron mining interests are represented by D. C. Jackling, American Smelting and Refining Co. by F. H. Brownell; utility interests by G. M. Dahl; the Western Union Telegraph by Newcomb Carlton; explosives and chemicals by W. S. Carpenter of the DuPont Co.; packing interests by F. E. White of Armour's; the international match trust and the sugar trust by H. O. Havemeyer; silk textiles by T. F. Vietor; express and railroad interests by Cor-

nelius Vanderbilt and other railroad magnates. As Aldrich has represented Rockefeller interests in a Morgan bank, so now Morgan interests sit on the new combine through Geo. H. Howard and F. L. Polk (utilities), Alfred P. Sloan of General Motors, A. H. Griswold of International Telegraph and Telephone, and G.

K. Morrow of Morgan grocery interests. For the workers in the United States, this merger means a further step in consolidating the strongest financial interests against the working class.

Internationally, this latest and mightiest financial merger marks a new stage in the British-American conflict.

#### Greek Peasants Battle Gendarmerie

ATHENS, March 9 (Inprecorr mail)-According to newspaper reports a demonstration of peasants took place in the Greek village of Metamorphosis on the Serbian frontier on the 6 of March under Communist slogans. The gendarmerie fired on the peasants who answered the attack with axes and sticks, whereby three gendarmes were seriously injured, including an officer who received a blow with an axe across the skull. Military had to be called out in order to disperse the demonstrators. 10 peasants were arrested.

They Will Continue the Fight for "Work or Wages!"

Central Organ of the Communist Party of the U. S. A.

paraded through the streets on March 6th, under the leadership of the Communist Party and

Part of the 50,000 Chicago Workers who their willingness to back the fight for unem ployment insurance, the seven-hour day, five day week, and against wage cuts. They called for a united front of employed and unemployed the Trade Union Unity League, signifying to defeat the bosses' efforts to cut wages.

# The Labor Leaders of the Coal Companies

By GERRY ALLARD.

THE "Rump" and "Regular" conventions of the United Mine Workers of America, the gathering of hand picked delegates the majority the gang of parasites that have infested the coal miners' movement for years, has succeeded in both instances in carrying out its mission, to one certain extent anyway. They have "rehabilitated" the strike-breaking institution to make it safe for the labor pirates to continue drawing handsome salaries. The Muste "Musketeers" of the coal mining industry, Hapgood, Germer, Brophy, Howat, etc., along with the experienced coal operators' agents have agreed unanimously that \$125 per week for Mr. Howat, the new "International" president, along with an unlimited account for expenses is a reasonable amount while the union is in a crisis. Mr. Germer, to receive \$104 as vice-president, while Mr. "Raketeer" Walker, to receive the same as Howat, as secretary-

In Indianapolis, the Lewis gang was also taking drastic steps to meet the new developin the coal mining industry. important issue in this convention, like in the Springfield conclave, was the question of wages, salaries, expenses of the officialdom, "stabilization" of industry, conservatism, greetings to the Senators (famous for their investigating work-does anyone know what ever happened to Pennsylvania-Ohio Committee, the West Virginia Committee, etc., etc.?); adoption of Lewis constitution, and assured the coal operators that nothing was red about them. The rejuvenation of the Union will not doubt result in their getting steady wages. This is the major political issue. The Illinois strike that was broken by the UMWA officialdom, the West Virginia and Ohio miners' struggle against wage cuts, the titanic explosions as a result of the operators' rationalization, the intensification of the speed-up, unemployment, misery and 'serfdom" that prevails, especially in the southern mining districts on the one hand and the increased profits of the coal operators, according to the last reports for 1929, on the other hand, received no consideration as in the days

Peabody Coal Co. Twins. The Peabody Coal Co.'s twins, Farrington and Fishwick, were the main political levers in the Springfield convention. The dramatic incident during the convention, shadow boxing, sparring, etc., were clever maneuvers requiring several weeks of rehearsing before it could be put over. The Indianapolis gang were all "regulars", Murray, Kennedy, Van Bittner, Duncan, Jones, etc., are sufficient to testify that "Hail, Hail, the Gang's All Here." Along with this gang of archtraitors, a flock of opportunists that John L. was promised everything in land to come, sniffling along picking the crumbs that the lord and master tosses aside. Both conventions emphatically denounced "sluggings, gangsterism, robbery, corruption, etc." "the destruction of the UMWA, wage cuts," etc., were thrown at one another's necks. There are no doubts in the minds of the militants that both gangs are correct. However, it is of utmost interest to the coal miners to note that hardly had the Farrington and "pseudo-progressive" gang at Springfield ended their speech against "terrorism, gangsterism," a group of the officials (Markunas, Loda, etc.) jumped on Freeman Thompson, leader of the National Miners Union forces, black-jacked him and then in a spectacular rush to the platform, Loda brandished an automatic attempting to frame-up the president of the National Miners Union. The "progressive" turned Thompson over to the police whereupon he was placed under arrest at their command. This is no surprise to the members of the National Miners Union. The baptism of their treacherous movement in the despicable

for the occasion. A Little History.

act of beating a militant whose honesty and

send them away in shame, is very appropriate

devotion to the coal miners movement should

There is no doubt in the minds of the milition" of the United Mine Workers of America | operators to fool them. The reply of the coal

is machinations of the coal operators. The new revolutionary miners union, on three import fronts, leads on a terrific battle against he

odds. In the last two years the National Miners Union has unquestionably taken its place at the only force that has heard the sufferings of the coal miners and organized a staunch struggle against the brutal drive of the coal operators. The NMU, a culmination of the militant, heroic stand of the Pennsylvania-Ohio miners struggle against the treacherous betrayals on the part of the officialdom, has taken its place as the integral force of American

The captains of American industry from experience know the role that the coal miners have played in the general history of American labor. The miners have been organized for years, they have over a half a century fought as well and successfully as any other section of the American proletariat. The miners today also represent one of the main forces challenging the bosses in the cause of the unskilled and unorganized workers who have been so miserably treated by the A. F. of L. bureaucracy.

The mass strike of the Illinois miners under its leadership, the present West Virginia and Ohio local strikes that are raging in several places, are a clear indication that the bosses have not succeeded in hog-tieing the coal miners. It is in this light that the coal operators along with the envoys from the Hoover-peace in industry government are so vitally interested in the "welfare" of the United Mine Workers of America. The Lewis crowd represent the staunch, loyal supporters of the Hoover government and imperialist plutocracy while the Fishwick-Peabody coal company combination, along with the camouflage of Germer, Brophy, Hapgood, etc., is a double safety valve.

The coal perators are not asleep, they are determined that the gradual increase in profits as a result of John L. Lewis's rationaliza tion program, will not be interrupted. They will support both movements. Both movements are in action at the command of the coal operators, the menace of the National Miners Union in the coal and iron miners to the operators determines such a course. The salaries and expenses of the officialdom is a guarantee when the coal miners ceased to be hog-tied to the "check-off," when all resources of the miners have been squandered, the coal operators will be there to cover the differences and vouch for the safety of the pot bellied, diamond studded fakers that strut at large, calling themselves representatives of the interests of the miners.

#### Bribed Boss Agents.

Does anyone doubt this for a moment? No one one else but John L. Lewis accused Farrington and Fishwick, during the hectic 1922 national struggle of the coal miners, of receiving the stipulated sum of \$100,000 from the Lester Coal Company, the company that was responsible for the herding of scabs in the heart of southern Illinois that resulted in the famous Herrin riots, where the union miners routed the scabs and decisively defeated the united attempts of the union officials and the coal operators to make a break in the center of the great strike.

Farrington and Fishwick never denied this, they attempt to justify their act by countercharging that Lewis had received \$650,000 from the Harriman bank of New York as compensation for a certain "deal" that Lewis and the International officers pulled off in selling out in the most shameful manner the 100,000 miners of the coke regions of Green. Favette and Somerset counties of Pennsylvania. The fakers were fighting over which gang received the most. However, the left wing forces brought pressure upon them and they united together in order to save themselves from office.

The National Miners Union Convention.

The answer of the coal miners to these fake conventions have been a splendid sign of political alertness and class-consciousness. The tants that the conventions for the "rehabilita- | miners never permitted the allies of the coal

## HOOVER'S MAGIC SIXTY DAYS

By HARRY GANNES.

ON March 7th, chief imperialist Hoover, solemnly declared the economic crisis in the United States would end in sixty days. The March 7th statement by Hoover was his answer to the mass unemployed demonstra-tions throughout the United States, under the leadership of the Communist Party.

It is the most glaring lie issued by Hoover. In every detail Hoover's statement has been smashed by the subsequent facts.

In order to give his propaganda weight, Hoover on March 7th called into conference such luminaries as Robert P. Lamont, secretary of commerce, James J. Davis, secretary of labor, Francis I. Jones, director general of the federal employment service, and assistant secretary of commerce, Dr. Julius Klein.

Here is the gist of Hoover's reply to the 1,250,000 workers who joined the world-wide demonstration in the United States, demanding "Work or Wages:"

"The low point of business and employment was the latter part of December and early January. Since that time employment has been slowly increasing, and the situation is much better today than at that time. . . . All the evidences indicate that the worst effects of the (stock market) crash upon employment will have been passed by the next sixty

In order to emphasize this capitalist propaganda, Robert P. Lamont and James J. Davis issued another statement in which they said: "Various surveys show that, based upon all trades, there has been an increase in employment in the country. . . . In factory industries as a whole employment has increased about 8 per cent in this period."

Some time has passed since Hoover, by official decree, doomed the crisis. What has actually happened? Just exactly the reverse of what he ordered. King Canute Hoover's command that the rising tide of crisis receed has failed.

They Cannot Stomach the Lie. First of all, the deliberate lie of Lamont and Davis in declaring that "employment has increased about 8, per cent" could not be stomached by such a staunch supporter of capitalism as the New York World. The lie was too glaring for them and they say (3-21-30):

"Hardly had the reverberations of these pronouncements died down before the statisticians in Mr. Davis's own department published their regular monthly summary of employment conditions in manufacturing establishments. This showed that employment during February had increased onetenth of 1 per cent. Their previous monthly report had showed no increase during January. Where, then, did Messrs. Davis and Lamont get their optimistic 8 per cent? The statisticians in the Department of Labor not only refute their chief but they also show that the seasonal increase in employmen last month was 'smaller than in February of any one of the seven preceding years for which the bureau has informa-

In February, James J. Davis and Francis I. Jones attached their name to the "Industrial Employment Information Bulletin" in which they contradict their own lie about "an increase in employment in the country." The February Information Bulletin of Messrs. Davis and Jones begins its 24 closely-printed pages by saying:

"All reports indicate that industry made no substantial gain (in employment) during the month of February; in some industries a slight recession was noted."

But this is not all. The figures of the Deartment of Labor are bas ports from the bosses in the big industries, which are again juggled by the Department of Labor. Yet even these figures give the lie to the Hoover pronouncement.

The Annalist, one of the leading Wall Street organs, in analyzing the February report on employment comes to the conclusion that "employment (dropped) 1.3 points," and there was "a decline in payrolls of 1.6 points."

Furthermore, they say: "The Annalist seasonal indexes for employment show an average gain of employment in February for the last ten years over the preceding January of the same number of years amounting to 1.5 per cent."

What is the full significance of this fact? For the past ten years, which includes the severe crisis of 1921-22, the sharp depressions of 1924 and 1927, without exception, February has shown an increase in employment. In February, 1930, there was a tremendous decrease in employment-for the first time in ten years-indicating a deep sharpening of the crisis and an unprecedented growth in the unemployed army which already is many hundreds of thousands over 7,000,000.

Crisis Worsens in Basic Industries. An examination of the conditions in the basic industries shows that this could not be otherwise. While the headlines of the capitalist press shriek "upturns," "improvements." "prosperity returning," the facts show the precise opposite.

These few lines from the New York Times (3-23-30) blast the torrentous flood of "prosperity" statements and editorials in the capitalist press:

"Reports from the steel and other basic industries continued to show dropping production, and the figures for such indexes of commercial activity as freight-car loadings and bank clearings remained unfavorable." Steel Goes Down.

No amount of propaganda from Hoover and his whole pack of liars can wipe out the fact that "steel and other basic industries continued to show dropping production."

Steel production for March will show a drop

miners to the pseudo-progressives is of special significance. It is a healthy sign of the enormous potentialities of our movement and influence that the National Miners Union exercises. The Second National Convention to be held in Pittsburgh in June symbolizes the consolidation, unification and intrenchment of the American coal miners in the fast growing stream of revolutionary consciousness. The Springfield and Indianapolis conventions of the reactionary fascist gangsters, is the last breath of a dying, rotting union, permeated with the worst sort of corruption, opportunism and fascismo par excellence. The Second Convention of the National Miners Union, spells the preparations for greater mass fighting battles, for the cohesion of the miners forces, and for the continuation of the fighting traditions of the American coal miners.

of 10 per cent. "The March average rate of operations (in the steel industry) will be close 65 per cent, compared with 75.per cent in February," says a Journal of Commerce dis-

patch from Youngstown, Ohio (3-21-30). This further drop for March follows a steep decline during February. "American Metal Market," one of the mouthpieces of the steel bosses, recently said:

"The daily rate of steel ingot production has declined a total of nearly 10 per cent from the peak rate (this peak rate was 15 per cent below 1929) of five weeks ago, which was maintained for only a few days, at the middle of February. The time is important for if this was the spring peak it came unprecedently early, which is practically unthinkable in these days of conservative action."

#### A Twenty Per Cent Drop.

In short, while Hoover was talking his slop about an improvement in 60 days, steel production dropped 20 per cent, throwing thousands of steel workers out of their jobs.

Then Lamont, Wall Street banker, came to the rescue. He said the drop in money rates would better matters. Money rates dropped to the lowest point since 1924. What happened in this respect?

True, there was another orgy of speculation on the stock market, which entails another severe stock market crash. But the drop in money rates did not stir the basic industries from the ever-deepening crisis.

#### Another Prediction Smashed.

A report in the New York Times (3-23-30) says the following on this point: "Lower interest rates and improved credit conditions have failed to stir business out of its attitude of 'watchful waiting,' according to

the March report of the Conference of Statisticians of Indusry.' In their capitalist phraseology, the Conference of Statisticians of Industry, which operates under the auspices of the National In-

dustrial Conference Board, go on to point out the complete failure of easier credits to influence an upturn in the present crisis. They "The reluctance on the part of buyers and borrowers to avail themselves of the easier credit conditions evidently is due in part to

the influence which the unemployment situation has upon business psychology, as well as upon consumer psychology and purchasing power.' And on top of this, as if to smother the Hoover lies under a tremendous outpouring of facts, we learn that bankruptcies, business failures, for the week ended March 20 in-

The number of the capitalist firms that went bankrupt does not tell the whole story. The amounts involved jumped considerably above last year as well as the past few

creased to 515, as compared to 408 last year.

March will show a bigger increase in the unemployed army than occurred in February. At the end of Hoover's magic sixty days there will be at least 500,000 more workers in the jobless ranks. The crisis is already worse. Nor will the Hoover lie in the least lessen the sharpening tempo of the fight for "Work or Wages."

#### Giant Strides of Socialism in U.S.S.R.

MOSCOW, March 6 (Inprecorr mail)-In an interview comrade Yakovlev, people's commissar for agriculture discussed the most important questions of the spring sowings. He declared that up to the 1st March the seed fund of the collective agricultural undertakings totalled 39 million cwts, the plan thus having been completely carried out. The seed for 48 million hectares was provided by the collective undertakings, or in other words for 67 per cent of the total area under seed. At the moment the collective agricultural undertakings totalled 52 per cent of all peasant farms, and by the spring they would probably embrace a total of 70 per cent. The original plans provided for an increase of the spring sowings by 11 per cent, but efforts were now being made to sow an area representing an increase of 15 per cent.

Referring to the question of the provision of trained agricultural experts, Yakovlev declared that 3,000 experts had been mobilized in Moscow alone. 20,000 young Communists and an equal number of Red Army men were being trained to carry out the reckoning work for the collectives.

#### March 6 in Checho-Slovakia

PRAGUE, March 1 (Inprecorr mail)-The Central Committee of the Communist Party of Checkoslovakia has issued an appeal to the working masses of Checkoslovakia summing up the results of the International Day against unemployment all over the world, congratulating the unemployed workers and their fellow workers in the factories at having demonstrated everywhere despite the murderous terror of the police, and appealing to them to continue the struggle against the bourgeoisie, the capitalist State, the reformists, the renegades and all the other enemies of the working class. In conclusion the appeal calls upon the working masses to commence preparations for the May Day demonstrations.

#### Conceal Extent of Unemploy. ment in Belgium; Admit 22,463

BRUSSELS, March 8 (Inprecorr mail)-According to official figures just issued there were 22,468 unemployed workers in Belgium in January, 1930, and 25,141 workers on short time. These figures, however, only conceal the real extent of unemployment, because they refer only to the minority of workers who are entitled to unemployment support. For instance, there are from 12,000 to 15,000 diamond-cutters alone who are unemployed, but not included in the above figures as they are not in receipt of unemployment support. In February unemployment in Belgium increased considerably.
