Launching the New York **Election Campaign**

A T Schenectady, New York, on May 25th, there will gather the State Convention of the Communist Party to ratify the candidates and platform for the coming election campaign. This campaign will be one of the most significant and important points in the development of the class struggle. It will test the capacity of the Communist Party to organize on the parliamentary field, some of the mass following and enthusiasm which were displayed in the struggles of March 6 and May 1. It will be the first election campaign after the onset of the economic crisis and the enormous increase in unemployment, wage cuts, and speed-up.

Leading slogans of the Convention, which distinguish the platform of the Communist Party from all other parties, are: Work or wages, unemployment insurance; the seven-hour day and five-day week; for complete social, political and economic equality for Negroes; against imperialist war, and for defense of the Soviet Union; for a revolutionary Workers' Government.

Workers everywhere will recognize in these slogans the expression of their own most pressing needs. They will find no other political party which stands for these things. Only the Communist Party represents and fights for the interests of the working class, not only on election day, but every day of the year.

This election campaign, occurring at the present time, calls for a ten-fold effort to make it a real working class mobilization, a real demonstration of the growth of the revolutionary temper of the workers, a real measure of the strength of the mass support for the immediate demands of the Communists, as well as a measure of the revolutionary understanding of the vanguard of the werking class. This is no mere "election campaign" in the old traditional sense; it is a revolutionary struggle for the immediate needs of the workers.

Rally the workers behind the Schenectady Convention! Forward to the Communist election campaign!

Speed the Recruitment Drive!

(Reprinted from Labor Unity.)

All organizations affiliated to the Trade Union Unity League are organizations for the masses. They are, however, not yet sufficiently mass organizations. The main masses of the workers are still unorganized. A most tremendous job of organization lies ahead of us.

The first steps in fulfilling this task are contained in the Recruitment Drive of the Trade Union Unity League and all its affiliated organizations. The slogan is, "Organize the masses; recruit the workers from the shops; bring in the unemployed workers!'

Before the millions can be organized, we must first have organized the thousands. Our immediate goal is a modest one, 50,000 new members, which will about double the number of active, functioning, duespaying members in the new unions. But its modesty does not make it less important. This 50,000 represents the path to the millions. Every muscle and nerve must be strained to make good in this drive.

Not only the bringing in of numbers of workers, however, but also the creation of the organizational forms for them to work in, is part of our task. Local unions must be built. City councils must be brought together, and must become the live, directing, energizing centers of the work in each locality. New industrial unions have to be built. Our drive is not only a recruiting drive, but also a building

drive, an organizational drive. It is also necessary, in order for this work to be permanently successful, to multiply our agitational and educational work. We must teach the workers as we organize them, about the class struggle, about the tasks of the trade unions, about the tactics and strategy of the class struggle, about the methods of work and organization of the revolutionary trade unions.

Ours is a complicated and difficult task, that requires the most stubborn and energetic work. Weaklings and cowards are no good for this. It requires the very best brains and muscles and character that the working class has.

We call upon all workers to join in this great drive, to take up each one his own particular part of the task, to combine all individual efforts into one great concerted forward movement.

As the result of the deepening economic crisis and the great Support the Daily Worker Drive! slump in the price of silver, prices in China, especially grain prices, are soaring to unthinkable heights and it is becoming increasingly difficult for workers and peasants to maintain even the lowest possible living standards. Under such circumstances, the unusual rapidity in the development of the revolution can easily be understood.

Despite the announcement of Nanking that it has scored "a decisive initial battle" along the northern borders of Anhwei and Honan, the existence of counter-claims of victories from the North and the absence of any categorical report concerning the decisive victory of Nanking indicate that the fight is not yet decided.

The fact that Nanking owes whatever victory it has gained mostly to American airplanes is frankly revealed by Victor Keen, the special correspondent of the New York Herald-Tribune. In a cable despatch from Shanghai dated May 13, he says, "Nanking's air supremacy, the result of its purchase a few months ago of a large number of American bombers, is playing an important part in the government's campaign, according to advices from the Lunghai front.

Nanking's foreign minister, C. T. Wang, is reported to have requeste foreigners to evacuate the province of Henan so that airfal bombing in this area can be intensified. The Nanking government, of course, can only think of the welfare of their imperialist masters. Millions of workers and peasants in this province, all of whom stand a good chance of becoming victims of Nanking's bombing planes, are noth ing but so much dirt in the eyes of the Nanking authorities.

We Are Not A Separate Business

Fight for Work or Wages!

Capitalists, Forgers, A. F. L. Misleaders, Ask Congress to Stop Us --- It's Up to You!

Shall the Daily Worker live and grow-or what? The problem we face is your problem. For months, yes years many of our comrades have considered the Daily Worker as an institution separate from the Party. a separate "business" which was supposed to make its own way.

There are thousands of our comrades who for months, yes years, have not secured a single new subscriber for the Daily Worker, have not once attempted to secure a donation from workers' organizations they belong to or from sympathetic workers, to keep the Daily Worker going and

This must stop! The Daily Worker is not a separate "business." It is the voice of our Party. It is your paper, the paper of every single comrade. And if you do not support it and if you do not build it, and if you do not create a broad circle of workers who will fight for it, then the Daily Worker will not live.

You must now accept the responsibility of saving the Daily Worker for our Party and the working class. Come to our aid instantly, or in a few days you will not have a Daily Worker. You have given our paper

very little support for a long period. Now you must work ten times as hard to make up for this negligence.

Hoover's forces, the A. F. of L. fakers, the Czarist forgery racketeers, those scoundrels who formerly lived on the blood of the Russian workers and peasants and want to do so again-these plunderers and slave drivers who want to keep the workers under the iron heel of the bosses, are perfecting a resolution in Washington, D. C. to investigate the Daily Worker. They want to find out how many millions of dollars Moscow is sending us.

If we had millions from Moscow we would not be asking dollars from you. The Soviet Union needs every cent it has fer its Five Year Plan. We must support our own movement, our own paper.

What is your answer to this proposed investigation? The forgers, the fakers and the exploiters are trying to kill the Daily Worker. You must rally to its support. Into the field for funds! Rush funds to us today! Save the Daily Worker and strengthen it!

NEGRO WORKERS OF NORFOLK WISE TO A.F.L.; 7000 JOBLESS

Bob Green, Chief A.F.L. Misleader in Virginia Port Sings "Prosperity" Song

Trade Union Unity League

(By a Worker Correspondent)

NORFOLK, Va.-There are over 7000 unemployed workers and no place to stay here. The Longshoremen's Union is under the A. F. L. fakers, but the workers are demanding better conditions. Bob Green, the big A. F. of L. faker has told the Negro workers that everything will be all right. The Chamber of Commerce has issued a statement to discharge Negro workers and hire white workers.

The Negro workers of Norfolk are seeing the A. F. of L. is a fake business and are working hard for the Trade Union Unity League. -NEGRO WORKER.

Lolly-Pops Reward for Granite City Steel Slavery

(By a Worker Correspondent)

GRANITE CITY, Ill.-The Commonwealth Steel Co., of Granite City, Ill., is one of those plants where the big officials spout the "Golden Rule" baloney while the foremen speed up the workers. Of late some of the workers have begun to question the sincerity of the "Golden Rule" since they see the bosses making millions while the workers

Each Xmas the president of the plant, Howard, a balloon-bellied old chap, who affectionately terms the workers "my boys" gives the workers a cheap box of candy. This lollypop candy is the reward the workers get for slaving the whole of the year. But the balloon-bellied president is even more generous. He gives the workers, and for nothing too, the ideal of "fellowship", "service" and the "Golden Rule". However, the workers aren't so dumb, and one of them rose during a meeting while the heap big chief was gushing out his "Golden Rule" claptrap and cried "Yeh, the bosses get the gold and the workers get

For all their bellowing of the Golden Rule and fellowship, race discrimination is strongly in evidence at the plant. The colored workers are given separate quarters in the luncheon room and insulted in various other ways.

Bitterness is on every Commonwealth workers' face since the plant was sold recently for \$35,000,000. The plant began about twentyeight years ago with a capital of about \$200,000, but after the workers had slaved and made a \$35,000,000 plant of the Commonwealth they were forgotten. The stockholders got all the profits and the workers got what they always get under capitalism-nothing. Workers, join the -STEEL SLAVE. Trade Union Unity League!

Ex-Serviceman on Capitalist "Justice"

(By a Worker Correspondent) CHICAGO, Ill.-Just hear from me what I have learned by experience and by reading the Daily Worker which is the only paper that

tells the truth to the workers speaking the English language. Whenever I want to see the real situation throughout the world I can see

much clearer now than in the year 1917.

I wish to tell to my friends, to ex-servicemen who fought in the world war for democracy. Many of them already have learned their lesson by heart that the same preparations and propaganda is going on as it was in the world war. To fight this battle, Wall Street will call on us again and this time I know who are my enemies! Those war mongers and exploiters of the whole working class will not cheat me this time. Where are all the promises given to the ex-service

I'm starving just the same as other millions of workers are starving. Tomorrow I could be shot as a bandit for "stealing" something to eat. And the Chicago Tribune is paying \$100 to every policeman who kills a bandit. What these capitalist papers call a bandit, and a fat copper will be rewarded with a medal and promotion to the rank of sergeant and a new "hero" is added to the Chicago workers-clubbing

But I'm a hero too. I have my metal button on my lapel, so I'm starving in the land of the free and the home of the . . . slaves! Look, Look! What a big chance all the ex-service men have, they can join the American Legion, free membership for one year. A good paytriotic benefactor or rather malefactor has donated a big some for the

Brothers, if you like the present system, keep on starving. -AN EX-SERVICEMAN, but never a strike-breaker.

Demands Right to Strike. Before the case went to the jury Thompson, on the witness stand, defended the right of the National Miners' Union to call the strike. Ad No. 16A His aggressive testimony placed the state on the defensive.

When presenting the case to the jury the state's attorney pleaded for the exclusive right of the United Mine Workers' Union to, "organize' the workers as opposed to the militant National Miners' Union. The court room was crowded with rank and file miners when the state's attorney openly stated his alliance with the coal operators and the United Mine Workers' officialdom.

During the trial the prosecutor and the lawyers for the Peabody Co. stated that the National Miners' Union had no right to call a strike, as the United Mine Workers

THESIS and RESOLUTIONS

for the SEVENTH NATIONAL CONVENTION of the

Communist Party of U. S. A.

25 Cents

By CENTRAL COMMITTEE PLENUM MARCH 31-APRIL 4,

EVERY PARTY MEMBER AND EVERY WORKER ACTIVELY ENGAGED IN THE REVOLUTIONARY MOVEMENT MUST READ AND STUDY THIS IM-PORTANT DOCUMENTARY PAMPHLET

Order from

WORKERS LIBRARY PUBLISHERS 39 East 125th Street, New York City

JOBLESS LEADERS THIS MUST BE READ BY

1. The Daily Worker sent combination subscription and contribution lists to every Party district.

2. The Daily Worker and the Party requested that these campaign lists be placed into the hands of all Party members immediately. 3. In some districts this was done. In others it was carelessly done. In others it has not been done at all.

4. In many instances where these campaign lists have been given to the Party members, the Party members are carrying them around in their pockets or are keeping them in their homes, safe from the working class.

5. That is the reason we are writing this to every Party member and every leading comrade.

6. These campaign lists were printed to be used. They were printed because we must drive for mass circulation immediately and collect funds immediately to keep the Daily Worker alive! 7. There must be an immediate check-up in every Party Unit on

these campaign lists. Has every member in the unit a campaign list? Are the unit members using their lists, are they actively campaigning for subs and donations?

Has your Party Unit received the weekly report blanks we sent to the Party districts? Is your unit reporting weekly on the achievements in the Daily Worker campaign?

The Daily Worker campaign, which should have taken the Party by storm, which should have received the loyal support of every single Party member is still quite dead. And the Daily Worker will be dead if you do not rush into this campaign instantly and

We are asking you, who read this, to take these ten points to your next unit meeting, read this, and then demand that every member of the unit report to the unit the number of subs and donations secured to date.

EVERY PARTY MEMBER MUST SECURE A MINIMUM OF \$5.00 IN SUBSCRIPTIONS AND DONATIONS TO VERIFY HIS GOOD STANDING IN OUR PARTY.

THE SO-CALLED "LEFT" SOCIAL-FASCISTS

By I. AMTER. (Written in Jail)

THE situation in India demands immediate attention from all Communist Parties. The social-fascist MacDonald is "watching developments and making careful preparations in case the situation becomes serious.

All told there are about 250,000 imperialist troops available in India. Tanks and airplanes will supplement them at short notice. Should the movement continue to develop-as it is do ing-and get beyond the stage at which Gandhi can sell it out for "dominion status" or some concession to the native lords of India, Mac-Donald will rush warships and all necessary force to India to crush the workers and peas-

MacDonald has just achieved four "victories" for the imperialists of Great Britain. 1. The "Naval Reduction" Conference for which he has been complimented by Baldwin; 2. The budget for which Lloyd George has decided to give complete support to the "Labor" government, and Walter Runciman, liberal parliamentary leader has decided that "Mr. Snowden is the best chancellor of the exchequer England has had in six years;" 3. The formation of the "Bankers' Industrial Development Company" for rationalization purposes. (When a rank Conservative asked "Do we understand that the government has definitely gone back on all socialist schemes," there was an uproar in parliament!) 4. MacDonald has come to an agreement with Egypt, whereby Egypt gets "independence," but British troops remain

What More Could They Do?

What more could any capitalist or socialimperialist do for the imperialists of any country than Ramsay MacDonald has done for British imperialism? Baldwin himself could not have done better-and therefore the Mac-Donald government will remain. Even moresince force will be used in India, as it recently was used in Nigeria, and since the Labor Government is doing the dirty killing work with such efficiency, it will remain at the helm ..

But the unemployment problem in England has not yet been tackled-and J. H. Thomas has no promising program except to let the unemployed continue to suffer. British foreign trade-exports and imports-has suffered a serious decline, similar to that of the United States, Canada and Germany. A strike of 150,000 wool workers against a wage reduction has broken out. It is being led by the revolutionary movement. In these two questions. MacDonald will show his face at home. He will treat the workers exactly as they were handled on Black Friday, 1926-only this time they not only will have the Trade Union Congress against them, but the Labor government (then the Labor opposition) will try to crush

Left Fakers.

The "Left" Laborites, led by Maxton, are not satisfied. On the contrary, they rebelled" against the budget. This is the "revolt" of the Cooks, Landsburys, etc., in 1926 which made the sell-out of the workers in the general strike more acceptable.

To be sure, any honest worker must resent the budget of four billion taken out of the hide of the harassed workers-a budget that evoked the following from Runciman: "I am grateful to the Labor government for what it has done with our finances and in the naval conference. By its understanding it has benefitted the British taxpayer." No better testimonial could be asked.

Maxton's "rebellion" was hppocritical, just as his declaration at the Anti-Imperialist Congress in Frankfurt last year, against the imperialit policy of the Labor Party was hypocritical-in fact so much so that shortly after his return to England he had to be expelled from the Anti-Imperialist League.

The Bauer Type. In Austria we have examples of the "state" rule of these "left" social-fascist social-democrats under the leadership of Otto Bauer. In the "struggle" against the fascists, they retreated step by step, till on demand of the fascists, they curbed the rights of the workers. disarmed them, allowed the fascists legal right to arm, gave rural Austria, where the fascists are strong, power over the Vienna Municipal Council-and the counter-revolution was complete-without shedding a drop of fascist blood! This is a typical instance of "left" social-fas-

White Terror in New England

recht "recognized the right of the colonies to the Indonesian workers and peasants, condemned the government, demanded "full explanation" and decided to support the colonial national movement "by every suitable means." Socialdemocratic treachery!

The "Lefts" were not satisfied with this resolution for "ultimate freedom for colonies" and demanded "support of the social-democratic party to the native revolutionists in case they were to undertake a violent uprising."

by the economic crash in the United Statesthe will of imperialism.

They and their imperialist bosses stimulate

These "lefts" are a necessary part of the equipment of imperialism in the struggle against the rising spirit of revolution under the leadership of the Communist International.

What is to be done? The struggle against these "lefts" is one of our most important jobs. These "lefts" are the most dangerous, insidious enemies of the working class and of the revolution of the workers and peasants in the imperialist countries and colonies. We must point this out in our fight against both the social-fascists and the "left" social-fascists. We must form united fronts with the rank and file against them-as has been done by the Communist Party and the Revolutionary Committee of Action in England. The workers wish to struggle-they need leadership and organization. They have seen the social-fascists in action in all countries as aides of im-

By proper action, we will be able to win these workers away from the fascist trade unions and the social-fascist parties, to the revolutionary unions of the Trade Union Unity

fascists of Austria, the Socialist Workers Opposition has left the social-democratic party of Austria and joined the Communist Party, tak-

The Indian situation must be watched with all care. It will not only help to align the class forces in India-workers and peasants against the counterrevolutionary native bourgeoisie and against imperialism-but will show clearly the social-imperialist character of the social-fascists and be an object lesson not only to the British workers in their struggle, but to the workers of all countries in the the struggle against "their" social-fascists and

national independence," and explained what it would do in developing the colonies (of course, for capitalism, I.A.) when the social-democrats come to power. It condemned the attacks on

What is the explanation of these "Lefts?" The masses of workers and peasants in the imperialist countries and colonies feel the effects of the world crisis, which has been intensified and now in Japan. They are struggling against these effects, which the imperialists compel them to shoulder. (In 1919 a Cuban sugar worker earned \$4.50 a day; today he earns 40 cents a day!) The regulars in the socialfascist parties see the movement of the workers to the left and away from them; but true to their masters, the imperialists, they not only condone imperialist brutality (Norman Thomas, Baldwin, and Gitlow on demonstrations of workers in New York), but, when put into office by their imperialist masters, carry out

the development of "Left" groups, knowing that these groups are closer to the struggle of the workers and can deflect them. These "Lefts" do not break with the parent body, but act as a barrier against wholesale attacks by the workers. When action is decided upon by the workers, action such as only Communists and revolutionary workers can contemplate, these "Lefts" do not go along, but on the contrary openly betray as did Cook, Lansbury, Fimmen, Maxton, Otto Bauer, etc.

League and the Communist Party.

As a result of the actions of the "left" socialing along its organ.

United Front from Below.

The united front from below in Germany with the workers in the shops has resulted in the brilliant victories of the revolutionary opposition in the elections to the shop councils Similar results may be obtained in England. Wherever correctly and energetically applied in the United States it produced like resultswitness March 6 and May First.

More propaganda, more organization, united front committees of action with the rank and file workers! More exposure of the social-fascists and "left" social-fascists-on the basis of concrete facts and issues! If this is done the revolutionary movement will reap tremendous results in the present very favorable objective situation.

cratic Labor Party at its convention in Ut- | "left" social-fascists.

Spring II raing in India - Posed by Ramsay Mc Smald

By Bill Gropper

First Chinese Soviet Congress

By CHEN KWANG (Shanghai).

THE agrarian revolution and the partisan fights of the peasants are today one of the chief symptoms of the Chinese revolution. During the past year the revolutionary fights of the peasants, under the leadership of the Communist Party, have developed further and gained ground enormously in South China. In North China also the peasants have spontaneously taken the field against the rule of the military rulers. A strong movement has arisen among the Mohammedan peasants in connection with the distribution of food in the famine areas. Even if the peasant forces, known as the "Red Lances" and the "Big Knives," are still often under the leadership of the small landowners and rich peasants, this movement is, on the whole, directed against all property owners. In the Eastern part of the province of Chili, in the neighborhood of Paotingfu and in the Northern part of the province of Honan, it has often happened that thousands of peasants have marched into the town, destroyed the government buildings and opposed the col-

In South China, the peasants are waging a life and death struggle against the landowners. In many districts the landowners, aided by Kuomintang troops, have recaptured power and driven the peasants off the land. They have not only taken back their landed property, but also forcibly seized the land belonging to the poor peasants. But the more brutally the landowners proceed against the peasants, the more fierce becomes the fight of the peasants for land.

In many places in South China, the peasants have already confiscated the whole of the estates of the landed proprietors. In those places where the power of the landlords has been overthrown, the peasants have set up Soviets. The boundary posts are destroyed and the land distributed among the poor peasants and members of the Red Army. The village Soviets have also introduced the eighthour day and labor protection. Soviets in 18 Districts.

Up to now the Soviet Power has been set up in 18 districts. Many provincial towns are in the hands of the workers and peasants. The Soviet territory in the province of West Fukien comprises eight districts. The town of Lungyenchow, Yungtinghs, San-han and Tingehow are in the hands of the Red Army under the leadership of Chu-teh and Mau-Tsedung. The Soviet territories in Kwangsi embrace over six districts; the most important towns in these districts are also in the hands of the Soviets.

There are even larger Soviet territories in the provinces of Hupeh and Kiangsi. According to the imperialist press in China, all districts in the province of Hupeh, with the exception of Wuchang, are in the hands of the Reds. In Wuchang, the fight of the revolutionary workers has broken out again: the ovement in this district will be one of the chief points of support of the revolutionary movement. In Tayeh Hsian, in December last. two mutinous regiments of the government troops carried out a revolt together with the workers in the iron works and the red peasant defense force in the villages, and hoisted the Soviet flag. Although the town of Tayeh Hsian is again in the occupation of whiteguardist troops, the revolutionary centers in

East Hupeh have remained unshaken. 100,000 Men in Red Army. It is in this process of advancing agrarian

revolution that the Red Workers' and Peasants' Army has been founded. In the previous years the armel forces of the beasants were organized in connection with the sharpening of the class struggle. In the past six months. over 60 well organized mutinies of the soldiers have broken out, in which it has happened that whole battalions and regiments have gone over to the Red Army.

Thanks to this favorable situation, the Chinese Red Workers" and Peasants' Army has of Labor Unions have been made through the official organ of the stimulating enthusiasm. The agree-

grown enormously; it numbers today 13 armies with over 100,000 men distributed over the various Soviet territories. Their weapons and equipment are fairly good. In addition to the Red Army, there is for example in Kiangsi, in the area in which the third Red Workers' and Peasants' Army rules, the Red Peasant Defense, consisting of nine formations, each numbering 5,000 men.

The leaders of the cadres are the leaders of the workers and peasants who have already experienced the great Chinese Revolution; they all work under the direction of the Communist Party. The Red Soldiers have always been outnumbered-ten to one-but thanks to the support of the masses, the numerically superior enemy has always been vanquished. It is this invincibility of the Red Army that has caused the imperialists and the Chinese bourgeoisie and landowning class to unite against the Revolution. The Kuomintang military rulers are sending their troops into the villages in order to "purge" them. But all these attacks prove in vain in face of the upsurge of the Chinese Revolution, the revolutionizing of the world proletariat and the victorious consolidation of the Soviet Union.

All-China Soviet Congress Called.

It is in this situation that the Communist Party of China, together with the Chinese red trade unions, have convened an All-China Soviet Congress. At this Congress a uniform leadership for the whole of the Soviet territories will be set up in order to secure the leading role of the proletariat in the revolu-This leadership will enact laws regarding the land; laws for the protection of labor, the organization of the Red Army and the Constitution of the Soviets, and proclaim the fight for the All-China Soviet Power of the workers, peasants and soldiers.

This Soviet Congress in China will take place on the 30th of May, on the anniversary of the massacre of the revolutionary workers and students in Shanghai by the imperialists in the year 1925. Proletarians of all countries! You must aid the Chinese Revolution by your energetic support. We will all march shoul- the Soviet Power in the whole world.

PRE-CONVENTION DISCUSSION

The Language Fractions in the Light of the Party Tasks

By I. ILIJEVIC (Jugoslav, Buro.)

SINCE the Address of the Communist International to the membership of the Communist Party, U.S.A., up until now, marks nilestones of progress which no one can possibly deny, and yet if we were to examine our achievements and to pass over them without comment, we would be covering up many of the weaknesses, shortcomings, and mistakes; and by so doing we would be submitting part of our past and would thereby decrease and minimize the gain achieved thus far. Particularly this applies to our language fractions and language fraction work as a whole. The tempo of events since the C.I. Address has been going at a fast rate, the economic crisis in this country and the crisis of world capitalism brought many tasks before the Party and its sections and auxiliary organizations, many of which were not understood and because of this were not carried out.

It was not sufficient to agree with the new tasks confronting our movement as a whole. It is now not sufficient to understand these tasks, if by understanding them we do not carry them out in practice. We all see that there is radicalization of the masses and have felt it so in the present crisis; the Party has recognized this and endeavored to utilize the entire Party forces in the channel of the new asks and problems. Yet the response while favorable, is still to be sharply criticized in so far as application of the line of the Party and the carrying out of the present tasks apolies to our fractions. The reorganization of the various fractions on the new line has but begun. In the Jugoslav fraction, Lithuanian, Ukranian and others show this weakness very much, in fact there is a tendency to minimize the importance of this reorganization which tendency must be combatted with every possible

Unemployment Struggles.

The present unemployment situation as part of the deep going economic crisis has not been fully realized by the fractions in utilizing various auxiliary organizations for the unemployment movement and demonstrations. It must be borne in mind that great part of the foreign born workers are engaged in the heavy, basic industries of this country, and in order that the Party may be able to carry out the tasks to the fullest extent the fractions must reach these foreign born workers through the available fraction apparatus and connect them with the general Party campaigns. Correct understanding of the present third post war period and the tasks of the Party, means application of those tasks in every organization, in every working class center of the Party. Our fractions have shown a decided weakness in their laxity to connect the Party campaigns with those organizations that they have contact with or influence over.

This is noticed in the Chicago District in failure of our Language Fractions to give adequate support to the miners strike; but few have carried this campaign into the mass organizations. The importance of I.L.D. and W.I.R. work also was minimized.

One of the most serious dangers in the language fractions at the present time is the lack of pushing the Party policy among the mass organizations. The present recruiting drive, the unemployment struggles have not been given a systematic attention by the fractions. Many mass organizations controlled and partly controlled by the Party fractions have not been utilized to the utmost in this very important work. Many of the comrades feel that it would be lessening their position in these mass organizations by coming openly and sharply with the Party line. It is just such an attitude which causes and contributes to our weakening and losing influence in the language mass organizations. It is high time that we get over the age old presumption that auxiliary organizations are not "ripe" for direct Party propaganda by that they would have to be some sort of an intermidiary medium where the Party line is to be introduced from a liberalist point of view. This had its good sides before but we are approaching a condition where any round-about method can only serve the socialdemocratic ends and against the Party and the whole movement. It is not through pacifist methods that we are going to win the work-

der to shoulder on the way to the victory of the world revolution, to the establishment of

ers in these mass organizations but through militant action and diligency in carrying out the Party policy to the letter.

Growing Fascism in the Language Mass Organizations.

With the increasing crisis of capitalism all over the world, the bourgeoisie in order to entrench itself, grabs every opportunity not only to divide the workers but to organize a force which will counteract the radicalization and militancy now developing under the leadership of the Communist Party at a fast rate. And we must not forget the experiences of our Italian comrades in combatting this fascist policy introduced in this country by Mussolini several years ago. This same policy is now being followed by other countries such as Poland, Jugoslavia, Mexico, etc. If our language fractions carried out the Party policy, it in itself would be a sure guarantee against fascism in the language mass organizations. The role of fascism is all the more important when we analyze the situation in which the various countries such as Jugoslavia find themselves in, at the present time.

The crisis of the present regime and the approaching revolutionary upheaval is followed by an intensive drive upon the workers both within these countries and without them in order to maintain itself and prolong its life. The line of the language fractions to be followed in this period is therefore of great significance and importance to the whole movement and by combatting the fascism and various forms of social chauvinism they must bring before these organizations and masses of workers directly the policy of the Communist Party and the Communist International. By doing so they will not only defeat fascism but thereby bring these workers closer to the Communist movement. The setting up of anti-imperialist Balkan Federated Committees by all Jugoslav Fractions in various cities and mass organizations is of utmost importance with the present white terror in Balkan, particularly Jugoslavia and Bulgaria to defeat the attempts of the Jugoslav councils and agents to organize fascist groups in the workers mass organizations

Coordination of Fraction Work With Party

While there is a marked improvement in allignment of the language fractions with the general Party work there is still a considerable amount of both passivity and misunderstanding as to the best possible ways of coordinating these activities and bringing them into unified action on the entire sphere of the Party acticity. We still find that many of the language fraction meetings, affairs and activities conflict with the Party schedules and thereby weaken both the Party and fractions in so far as the results are concerned. In addition to that we find numerous discrepancies between the Party and fraction functionaries. One fact will bear this out. Namely, kind of functions and wages.

We find that some of the language functionaries are slow to orientate themselves to the line of the Party work, and fraction work together, some will do more of one than the other and vice versa, thereby weakening the chain of activities on both sides. Especially is his the case in the Jugoslav Fraction where we have several comrades who are carrying on numerous Party functions at the expense of their fraction work, then in other language fractions we find just the opposite case, neither of which is a proper division of labor. .

That every language functionary must carry. one Party function besides that in the fraction should hold good for more than one reason, unless there are special cases. We must post our decisions upon the fact that in order that the language fraction functionaries be able to understand and carry out the policy in auxiliary organizations, must be fully acquainted with and part of the Party "active" otherwise their work among the mass organizations in the fractions will not represent the fullest knowledge and experience of the party as a whole. It is only to the extent that we are in touch with and acquainted with the various Party organs that we will be able to effectively carry out the tasks of the Party in the fractions and mass organizations.

> The Daily Werker is the Party's best instrument to make contacts among the masses of workers, build a mass Communist Party.

Preparations for the Fifth Congress of the R. I.L. U-

This is the third installment of . In the first place, the plans for the T. U. U. L. and other papers and men's entered into between the T. an article by the Negro Organizer nomination of the 30 delegates, in that some of us have become slave U. U. L. on the one hand and the of the Trade Union Unity League, in which an analysis is made of the methods of electing delegates to the Fifth Congress of the R.I.

raged, enfuriated, wild with frenzy at the brave stand of the Communist speakers, their determination not to succumb to terrorism, precared for a vicious attack. One by one our · comrades, Harry Yaris, Isadore Wofsy, Joseph Nevin, Philip Kaulman, Henry Scott,

Portchester (whose names are not known to the writer) were taken to the cells where five heavy, husky gunmen were waiting to do their sadist acts. They beat the workers with blackjacks, with handcuffs on their finger-knuckles, they bounced their faces till blue with swellings and unrecognizable. They kicked with their feet and trampled them till blood was flowing freely. They cut their heads open in several places, cut one's hand with a sharp metal and broke another's leg

For several hours they refused medical aid, the comrades bleeding in agony, crumpling with pain on the ground. The young comrade, Abraham Nachowitz, was spared by the chief, fearing that his hangmen would not consider age and make a job that would prove irre-

In the persons of policemen and detectives the preservers of "law and order," the embodiers of "peace" and "rights," fascism is acquiring more definite forms, coming out openly in its full nakedness. The fascist rule of Mussolini, the dark forces of Pilsudski, the hordes of Czarist gendarmerie, the ferocious activities of Whalens "finest" are to hide their faces in shame and embarrassment when looking up to Chief of Police Brennan in Stamford, Conn., on the historical day of May 1,

The American working class will learn their lesson, will take up the struggle with more determination, will rush onward towards vic-

tories against capitalism
