WAR ON SOVIETS, ATTACK ON U.S. WORKERS, IS BOSS' AIM

An Open Acknowledgement CONTINUE DEMAND FOR

MANY times the Daily Worker has brought forth concrete charges to prove that the Wall Street government in Washington was taking the lead in the imperialist war preparations against the Soviet Unionthe workers' fatherland. The breaking of diplomatic relations by Mexico, the Stimson note in the Chinese Eastern Railway dispute, the Fish Committee activities, the attempted embargoes against Soviet products, the recent anti-Soviet wheat activities, and many other manifestations were cited as evidence to back up our charges.

But through all this there has never been an open statement by a overnment official for war against the Soviet workers and peasants. Hoover has made attacks against Bolshevism. Other officials have made similar veiled atacks as part of the bosses' war preparations. But it remained for Ray Lyman Wilbur, the secretary of the interior in Hoover's cabinet, to openly speak of Wall Street's plans.

One of the great peoples of the earth (the Soviet Union-Ed.) is deliberately trying to work out large social and economic programs (building socialism in the interest of the masses-Ed.) for the mastery of its vast terrain along new and untried lines.

"Our economic, social and political philosophies (based on suffering and starvation for the workers-Ed.) inevitably must wage a gigantic and fundamental struggle (war!-Ed.) with

Now the issue is clearly put. It is socialism vs. capitalism. It is prosperity and happiness for the masses in the Soviet Union and starvation and misery for the masses and huge profits and wealth for the capitalists in the United States.

Wilbur, the capitalist, defends the American system and joins in the government's war preparations against the Soviet Union.

The Communist Party rallies the workers for struggle against the poverty, starvation and misery of capitalism and for the defense of the Soviet Union where alone our ideals are being realized.

War is being prepared. American capitalism is taking the lead. The Communist Party of the United States, in rallying the workers against the republican, democratic and socialist enemies of the Soviet Union, is preparing the masses for defense of the first workers' state. "Vote Communist on November 4th! Defeat the enemies of the Soviet! Defend the Soviet Union!"

A Danger Signal

SCORES of Negro and white workers have been killed in the United States in so-called "race riots." The period of economic crisis following the war (1919-1920) was particularly marked by vicious and bloody street battles between Negroes and whites. Tulsa, Chicago, Washington, St. Louis, Knoxville, and dozens of other cities were the scenes of protracted battles.

These massacres arise from the vicious "race-superiority" theories taught and practiced by the white capitalists and big landowners. Centuries of boss-class education has caused many white workers to look upon and treat Negro workers even worse than they would dogs. In periods of crisis, unemployment and wage cuts, accompanied by starvation and misery for the masses, these poisonous theories are translated into the most brutal practices.

Some misled white workers often quite openly say: "If there are to be lay-offs, let the "niggers" be layed off; if there must be starvation, let the 'niggers' starve, etc., etc." And by taking this position, instead of helping themselves as they think they are, they are actually helping the capitalists to maintain their fabulous profits while the suffering of the working class as a whole, both Negro and white, increases. The bosses, especially during crisis periods, deliberately cultivate these antagonisms and these cruel practices to prevent united working class resistance.

There is grave danger of a new outbreak of "race riots" at the present time. Yesterday's fight in Pearl River, La., is already the danger signal. There three hundreds white workers attacked a group of Negro workers employed on a construction job. They worked on the theory that Negroes were not entitled to jobs while whites were unemployed. Three hundred were ready to unite against twenty-five or thirty Negroes instead of uniting with the Negroes in a fight against the bosses for unemployment insurance, against wage cuts,

The danger of a new series of mass murders of Negroes is immediate and real. Enlightened, class conscious workers, both white and colored, have a duty to perform. They must arouse workers everywhere against "race riots." They must arouse the Negro and white workers for common struggle against the bosses.

The Communist Party calls upon all workers, and especially the white workers, to rally to the defense of the Negroes. Organize defense corps! Support the anti-lynching conferences of the A. N. L. C.!

Rally Against Injunctions!

INJUNCTIONS are a vicious "legal" method by which the bosses carry out their attacks on the workers. They put through wage cuts; they inhumanly speed up the workers in the shops and factories; they throw thousands of workers into the streets at will. Poverty and starvation are decreed by the bosses for the masses. When workers strike or demonstrate against these conditions the bosses rush into the courts with the plea that "private property is endangered," that their "business is being ruined" and demand an injunction.

Some republican, democratic or socialist judge, who owes his election to the bosses and has pledged to give them service, enthusiastically rushes to their defense. An "injunction" is issued which authorizes the blood-thirsty thugs of the police department to murderously club, beat and even kill workers in order to break up their picket lines and to drive them back to work under the bosses' terms.

The A. F. of L. and "socialist" fakers, while pretending to fight against these injunctions, follow the same practices themselves. When their strikebreaking betrayals are understood by the workers and these workers rebel against their leadership they likewise rush before the same capitalist judges. They ask and receive the same injunctions, authorizing the same murderous police attacks, as those given to the bosses. Their "fight" against injunctions is only a fake fight. It is designed only to deceive the workers. It is only to enable them to

further betray the workers. The Trade Union Unity League of New York City is adopting a correct policy that should be initiated by the T. U. U. L. everywhere. They are exposing the fake talk of the A. F. of L. and the "socialists" and actually mobilizing the workers for a fight—a real fight—against injunctions. They do not propose to fight injunctions with words. They propose that the workers "strike" against the injunctions in exactly the same way as they strike against the bosses. They call upon the workers, when fighting against wage cuts, the speed-up or for other demands, to see the courts and the police merely as tools of the bosses, to recognize that they must be defeated as well as the bosses. With this they call for mass violation of injunctions, for mass picket

lines which can not be easily smashed. The Communist Party supports this call of the T. U. U. L. Their New York conference tonight should have the support of all workers' organizations. The Communist Party will support the program outlined at this conference and will rally all its forces to broaden the antiinjunction fight in the election campaign.

Robert Isham Randolph, pres-Side Workers Jewish Club having ident of the Chicago Association of Commerce, at the 58th volunteered their headquarters for annual meeting of the New

York Board of Trade. Col. Randolph told his fellow exploiters that the racketeering so evident in Chicago is in reality shot through the entire capitalist system, and it must be shoved under to protect the "prestige" of the present order from the attacks of Communism. Cheating, bribery, fakers, racketeering is in the very marrow of the capitalist order, admitted Randolph. He characterized the fabric of the present system as follows:

"Cheating the ultimate consumer, cheating disorganized respectability, is like taking candy from a child. Cheat him on the stock market. Cheat him on 'phony' stocks or real estate bonds, cheat him at the ballot box, cheat him in your municipal councils, cheat him on his public improvements, cheat him on his clothes, his meat, his drink; bribe elected officials, bribe his police force, bribe the prosecutor, bribe his judges, corrupt his juries."

This robbery, cheating, graft and corruption, which the bosses can no more hide, will be done away with only by the revolutionary workingclass taking power in its own hands. Vote Communist and for a real struggle against the entire rotten

wet-dry question as a central issue in the election

This is to divert the attention of the workers from

issues that are vital to their interests, such as un-

employment insurance, the growing war danger, etc.

Naturally, the "Socialist" Party, as a loyal tool of

capitalism, falls in step with this exaggeration of

the importance of the prohibition question by its

ridiculous proposal for a national popular referen-

dum on the liquor issue. Such a referendum, the

like of which has never been had upon any question

in this country, would, if adopted, inflate the minor

prohibition question into the appearance of a gigan-

tic issue. The A. F. of L., of course, at its conven-

Poor Farmer Sees Need of Toilers Unity

Concord, Calif.

Dear Daily Worker: What we poor farmers need is a union. We must cut out the middleman and all the gamblers from the small commission merchants to the big grain and fruit brokers.

We small farmers in northern the last two or three years and it is much worse this year. Most of us can hire no help and must do all the work ourselves. Then the damn profiteers take all the fruit of our labor, same as the man in the factory is robbed.

Red Tags This year it has been nothing but red tags for me and the other small ranchers around here. These red tags are bills of the railroads stating that the fruit shipped to the East did not cover the railroad charges.

And now when we must live only on fruit the fat official of the govfor 10 hours work. We have got ernment keeps taxes up and build to make them pay us \$25 a week if more schools and roads than ever. since has had sergeants-at-arms hoping against hope that we would they can't give us work, like the Communist Party Bill says.

Then that big collar boy tries to carefully hand-picking those let in blame his failure to do anything for the farmers onto the Russians. But we know that is the profiteers' fault

on the trees, and they throw tons surance Bill, for using the war be most difficult." We know the consumers need this workers will denounce the war nists as the most courageous lead- agers ruined hundreds of thousands August was 3,600 million Lira. eers who won the factories keep Trade Union Unity League, and formillions from having any money at

I believe that you are right about the factory workers and the small farmers getting together and shooting all those who ride on our backs - then the bankers wouldn't rob us of our ranches and the profiteers wouldn't rob us of the fruits of our toil because we would own and run the banks and the profiteers would be shot.
—SMALL RANCHER.

CALLS FOR WAR ON SOVIET UNION

(Continued from Page 1) a telegram to a group of American clauses and worsened working conthe "help" must scramble and wait and that it will care for only about capitalists who demand the stop- ditions, as "evidence of better em-400 or 500 of the thousands of page of all Russian imports into the grade of 100d, sloppiny prepared and eaten from broken and insufficient starving here, even then. Who Needs Their Prohibition Issue Now

of this for stimulants, as implied by abolishing prohibition, they will have just that much less with which to buy other commodities. That is, the liquor traffic can only grow at the expense of other industries. Making the country "wet" will not solve unemployment or in any way alleviate it.

How the Soviet Union Solves the Problem

In the Soviet Union the liquor question is solved simply, as it should be solved in every country. The government manufactures and sells alcoholic drinks through the cooperative stores. Wines and liquors may be freely purchased. Then, to avoid abuses, an intensive campaign is carried on by the Communist Party, trade unions, schools, etc., against excessive drinking. Consequently the whole problem is reduced to a minor question and is well on the way

But capitalist America is not interested in such an intelligent solution. The prohibition question will remain as a source of corruption and crime, like so many other "questions" under capitalism. "Noble Experiment" for Corruption.

The "wets" have not won a complete enough victory to enable them to open up again full blast and

legally the lovely American saloon system-as enough states will remain dry to block the repeal of the 18th Amendment. But they have gained enough strength to more openly than ever defy the prohibition laws. Enforcement now becomes impossible altogether; now we are in for a big exposure of the already vast bootlegging industry. Hoover's

noble experiment has failed completely.

To the big capitalists who, for efficiency purposes, need "dry" workers, the growing wet wave brings but little inconvenience. They will be able, even better than before, to enforce, by reason of the great unemployment, the necessary "dryness" among their workers.

Workers, the main thing is not to allow the hubbub raised over the prohibition question to divert our attention from issues of real importance to us. We must unite all our forces to fight for unemployment insurance and against wage cuts. We must struggle against the menacing world war. We must defend the Soviet Union. We must build the revolutionary unions of the Trade Union Unity League. We must support the Communist Party. Workers!

(Written at Hart's Island Penitentiary.)

Cleveland Bosses Fearful of Growing Fight of Workers For Real Jobless Insurance

CLEVELAND .- Fearful that the misery and destitution of the unemployed in Cleveland will lead to an increase of Communist influence this winter, and seeking to counter the agitation for the Unemployment Insurance Bill, the employers and their tools in the city government have suddenly started up a ballyhoo in the local papers that "something is going to be done for the unemployed." That "something" amounts to little more than an insult to their intelligence.

The City Manager announces with a flourish of rtumpets a \$200,000 emergency bond issue to provide employment in the department of parks and public property. This measly sum, which the city politicians are already itching to use for rewarding their friends, would mean only two or three dollars apiece even if it were honestly used for the unemployed. It makes a poor comparison with Buffalo's \$10,000,000 for public works, which incidentally only provided work for 471 workers.

The Community Fund is taking time off from urging unemployed workers to scab (as its representatives have done in the present hotel strike) to ask for an emergency fund of \$750,000 on account of the unemployment crisis. Of this sum, \$286,000 will go to making up this year's deficit, and the rest (after paying big salaries and other overhead) will be used by the bankers and bosses who control the fund in such a way as to discourage any rebellion among the starving unemployed.

The Communists are the only group in Cleveland making any real fight for real relief of the unemployed. Every time the unemployed demonstrate, the bosses and their political tools feel that some gesture has to be made of "doing something for the unemployed," lest they get wise to what the Communists are telling them and demand their full rights. The Communists are likewise the only ones fighting for real unemployment insurance.

Muste Fake Relief.

The Muste unemployment insurance fake was put in record by Florence Curtis Hanson of the American Teachers' Federation. Instead of the Communist demand of \$25 a week payments with \$5 additional for each dependent to each jobless worker, the Muste-Hanson proposition is for 40 per cent of the man's wages. Instead of the funds being administered by the workers and jobless through their election boards as the Communist Party demands, the Muste-Hanson proposition is to make them strike breaking funds through administration by a board to be appointed by the governor, with an employer majority on it, and some labor fakers added for camouflage.

HOW NOT TO CALL STRIKES

By BILL LAWRENCE

WITH the sharpening of the class struggle and the deepening of the crisis of capitalism the attacks against the workers become more severe. It has been pointed out on numerous occasions that the American boss class is trying to shift the burden of the crisis entirely upon the shoulders of the working class. On the other hand the fighting spirit of the workers and their readiness to struggle for better conditions is growing daily. Thus the thesis of our seventh convention correctly pointed out that:

"The sheer economic weight of the crisis tends to effect a political awakening of the masses, opening the road to the Communist Party for organization and leading the masses into struggle." "Under these conditions the detailed and fundamental work of mobilizing the masses for resistance against rationalization, and wage cuts and for unemployment relief campaigns, the organization of the revolutionary unions, the strengthening and building of our Party becomes the all overshadowing tasks."

Warned Against Spontaneity. In pointing out the above correct statements the seventh convention realized that because of the readiness of the workers to struggle some of our comrades may go to an extreme and completely overlook the importance of preliminary organization before a strike, thus it warns the Party leaders against relying on the spontaneity of the masses.

However, it seems that not always do leading comrades take warnings seriously, which results costly for the Party. In this respect the Philadelphia Party had an experience from which the Party as a whole must draw the necessary lessons.

For months the Marine Workers' Industrial Union concentrated on the Philadelphia waterfront. The conditions of the longshoremen, both organized and unorganized, are worsening every day. As a result of the great unemployment organized longshoremen are glad to work for 50 cents an hour. The dissatisfaction with the ILA (section of the A. F. of L.) is growing daily. In a period of a few weeks our union was able to recruit several hundred members on the waterfront. However, in carrying on the work the MWIU made a number of mistakes:

Our Mistakes.

1. It carried on the activities on the basis of attacking the ILA leaders and not together with a fight against the conditions prevailing on the waterfront.

2. It concentrated entirely on the organized workers (deep water men) and practically completely neglected the unorganized (coastwise).

3. While the union correctly raised the slogan "strike against wage cuts!" it didn't lay enough stress on the importance of organization, thus failing to draw in the workers on the waterfront in the leadership of the union.

4. The union failed to take the necessary measures to safeguard the jobs of the workers who enlisted in our union which resulted in victimization and blacklisting of loyal mem-

5. Our union completely neglected the seamen and orientated itself entirely towards the

The theory of some of the organizers was that unless there is a strike the longshoremen will not take an active part in the organiza-

7. Failure to build and establish a functioning Party fraction.

8. Instead of carrying on day to day work lining up worker after worker, the work was carried on in spectacular ways; one week we would have several meetings and another week we completely failed to do anything.

9. And finally a theory of exceptionalism was advanced by some of our organizers, claiming that the marine industry is different from others and that here preparatory organization is unnecessary.

Direct Wage Cut Avoided. In spite of the above mistakes and shortcomings the influence of our union on the waterfront was growing. We became a real factor among the workers. The workers listened and responded to our speakers. The ILA and the bosses knew these facts and fearing the revolt of the longshoremen avoided an open and direct wage cut by renewing the old agreement, which in reality is nothing but a wage cut agreement, worsening conditions in gen-

talism.

tion of the workers in dock committees, the drawing in of longshoremen into the leadership of the union, the utilization of the agreement to expose more the ILA as the agent of the bosses and the necessary organizational preparations for the coming struggles on the waterfront. Instead of this the organizers insisted that a strike be called when the agreement expired without having any of the most elementary organizational preparations for the strike. It must be stated that the district Party secretariat and the secretariat of the district T.U.U.L., though they had the correct policy and pointed out the mistakes, nevertheless capitulated under the pressure of the union organizers and the National Office of the T.U. U.L. and officially approved the calling of the strike. The Secretariat allowed a Communist conception of strike strategy to be replaced by a wobbly one thus completely ignoring the warning of Comrade Foster, in his strike strategy where he states:

"Less and less can the strike strategist depend upon the spontaneity of the masses, to bring them into revolt against their exploiters, more and more he has to figure on substantial preliminary organization, conceived planfully and carried through almost like a military strategy."

Strike Called."

But as stated above these warnings were ignored. The organizers got together without setting up a single committee of the workers or without even the knowledge of the workers decided that the time was ripe. The strike was called. The strike revealed the follow-

1. That while the marine industry has some peculiar features, the calling of a strike, just like in any other industry necessitates the required preliminary preparations, the setting up of committee, etc., etc.

Failure to set up committees of action and the election of a broad strike committee from below.

3. Because of the failures to set up committees and to draw in the longshoremen into the leadership of the union, when the strike call was issued, we were isolated from the workers, and there was no one from among the workers to inspire the others to get off the trucks.

4. The union overlooked the most fundamental law in strike strategy by failing to have the workers approve the calling of the strike and not only the organizers.

5. The strike was called completely without the knowledge of the workers in the industry, thus taking the workers by surprise on the morning of the strike.

That there was a considerable sentiment for strike among the organizers, members of the secretariat and national office of the T.U. U.L. but the longshoremen on the waterfront were not yet prepared to strike.

No Response.

Due to the above mistakes and in addition the great unemployment and terror prevailing on the waterfront the longshoremen did not respond to the call of the union.

It is to be expected that as a result of this the conditions of the workers on the waterfront will worsen. The ILA as is already seen is taking the offensive. The ILA together with the bosses will and is making attempts to drive our union off the waterfront in order to make possible more wage cuts, lengthen the hours of work, etc., etc.

The longshoremen will not tolerate this and will revolt. Our union must take the lead in actually organizing the workers to strike. To make possible this we must do away with the Wobbly-opportunist conception and theories of exceptionalism. We must not rely on spontaneity. We must abandon those activities which do not bring organizational results and only help to victimize the workers. We must begin from the very bottom, line up the longshoremen one by one, organize them in groups and committees. Activize these committees and draw the workers into the leadership of the union. More attention must be paid to the seamen. More concentration on the unorganized. We must entrench ourselves among the workers, and then, through these activities we must prepare the workers themselves to vote for strike and not only the organizers. We must take seriously the instructions of Comrade Lenin: "No political party if it desires to avoid adventurist tactics can base its activities on expectations, of such outbursts and complications. We must proceed along our road, and steadily carry out our systematic work, and the less we count on the unexpected the less likely are we to be taken by surprise, by any 'historical turn.'"

During the stormy days of the revolution

of 1918, when the rising masses of German

workers, soldiers and sailors, under the leader-

ship of the Spartakus Bund, have demanded the

in every way by the social democratic rulers of Germany. The murderers of Luxemburg

and Liebknecht were given money, were given

ment in April, 1929. At the famous libel suit

positions in the Prussian "socialist" govern-

"WE ARE FACING A HARD WINTER," HERBERT ROOVER

against the editor of the "Das Tagebuch," in Berlin, it was brought out that the confessed murderer of Karl Liebknecht, Lieutenant Lippmann, had been employed in the Department of Justice of the "socialist" government of Prussia, and have been allowed to escape when that was the smoothest way out. None of them were punished. Major Pabst, the leader of the band, was allowed to escape to Austria, which was, in those days, ruled by a "socialist" government supported by a "socialist" majority in Parliament. There he was allowed to establish his headquarters and launch upon the organization of the Heimwehr, which is now supplying Austria an open fascist rule.

The social-democrats of Germany have created the so-called Republican Defense Law, which is a law against the Communist movement. Communist papers have been suspended, editors put in jail. The Red Front Fighters League, the Red Youth Front, the Anti-Fascist organization of the German workers, were persecuted and finally suspended. The "socialist" police of Berlin are always on the side of the fascists whenever they engage in their murderous fights upon the workers. Fascism which is the child of social-fascism, can "get away with anything" under "socialist" rule. Only recently the "socialist" Premier of Prussia, Otto Braun, was "forced" to allow the mon-archist Stahlhelm demonstration in Hhineland after Hindenburg threatened to boycott the celebrations in that territory. To say that the social-fascists of Germany

(as well as Austria) have paved the way for fascism, is not sufficient. The "socialists" are the organizers of fascism.

In the American labor movement, the "socialists" were the first to introduce fascist methods of disbanding left wing local unions and joint boards, suppressing such bodies by

The "socialist"-led International Garment Workers Union, in 1923, has expelled scores of left wing workers of the Dressmakers Local of Chicago and finally disbanded by force the left wing joint board of the cloakmakers union of that city, with the aid of the Chicago police and underworld. The president of that union, infamous Sigman, together with his vice-president, Pearlstein, have introduced a reign of terror against all needle workers who dared criticize their action. At one of the demonstrations of the rank and file, at Ashland Auditorium, underworld gunmen have tried to muder Comrade William Z. Foster, while he was speaking from the stage of that hall. The shots fired at him went wild and the agents of the "socialists" escaped.

The expulsion of Comrade William F. Dunne from the convention of the A. F. of L. in Seattle, the expulsions that have taken place in the United Mine Workers of America with the subsequent adoption of an amendment to the constitution that no Communist may belong to that union, all these and other fascist facts of the A. F. of L. leadership followed after the "socialists" in the needle trades have inaugurated their fascist methods. Here, too, the honor of pioneers of fascism belongs to the "socialists."

Fascism is an octopus now let loose by the capitalist class in order to fight the working masses. In Germany, Austria, Hungary, Poland, Finland and other countries, the fascists together with their organizers, the social-fascists, are suppressing the organizations of the working class, disarming the workers, forcing upon them long working hours, wage cuts, capitalist rationalization, abolishing the 8-hour day, unemployment relief, and other living and working conditions gained by the revolution in 1918. Fascism, together with social-fascism are now the open instruments of the dictatorship of

capital in many countries.

In the United States, the capitalist class is trying to stem the tire of unrest with the aid

Seamen's Institute to "Solve" Unemployment in Shipping Circles

By HARRY RAYMOND. Prisoner No. 52349. (Imprisoned Member of the Unemployed Delegation.) Fascist plans, programs and schemes for

"solving" unemployment and "relieving" the unemployed have been appearing in such vast numbers that it has become almost impossible to keep track of them all.

Among the most notorious of these schemes and plans is the Ford plan, which calls upon penniless workers to buy, the Coolidge plan, which says the economic crisis was caused by lack of religion and advocates more Jesusism and godism for the starving unemployed, the Heywood Broun "give a job till June" plan, the "Jimmie" Walker "give a second hand suit" plan, the deportation plan of Hamilton Fish, the Whalen Cossack plan, which includes everything from wholesale clubbing to the murder of unemployed workers, the "great" psychiatric plan, which says the unemployed are mentally deficient and should be treated as insane patients and the welfare plan of municipal lodging houses, bread lines and unemployment offices.

If we were asked which one of these fascist planners of unemployment plans deserves the grand prize we would answer that what each one of them deserves is a good slice of working class justice. We do think, however, that it would be perfectly proper and fitting to present a nice little token of esteem, say, a crochetted bedroom utensil, to Dr. Archibald R. Mansfield, superintendent of the Seamen's Church Institute, who happens to be the latest arrival in the field of fascist unemployment The following is the plan of Dr. Archibald

R. Mansfield as reported in the New York

"A plan to help solve the unemployment problem in shipping circles has been devised by the Seamen's Church Institute of New

"On a recent inspection tour of the instiof fascists like Woll, Fish, Whalen and others. The "Socialists" go hand in hand with the fascists. Matthew Woll is hobnobbing with Abe Cahan, S. P. leader at the latter's 70th birthday. Fish declares that his so-called investigation committee will do no harm to the "socialists." The "socialists" are supplying information to the Fish Committee. One of fascist Whalen's henchmen, Inspector Lyons, of the Tammany police, presented the Fish Committee with a translation of the articles of the infamous Bessedovsky, printed in the New York "socialist" organ, the Jewish Daily Forward. One of the "socialist" preachers, a traitor to the Negro workers, appears before the Fish Committee, to testify against the Communists. An agent of John L. Lewis appears before the committee and asks for more persecutions against revolutionary workers and against foreign born workers. Fascism and social-fascism are the two edges of the same sword the capitalist class is using against the workers.

The workers cannot vote for the "socialists" on November 4th, just as they cannot vote for the fascists. Both are the enemies of the working class. The workers have but one Party to vote for, their own Party, the Communist Party! Vote for Communism on November 4th! Vote for the Hammer and Sickle!

The German workers have learned their bitter lesson. They have dealt the "socialists" a smashing slow on September 14 last. Do as the German workers have done! Vote Comtute's building at 25 South Street, Superintendent Archibald R. Mansfield noticed scores of young men in the lobbies and reading rooms awaiting an opportunity to ship out. . "As a result of Dr. Mansfield's efforts the

free employment bureau of the institute arranged with the organization's marine school to offer free instructions to the prospective mariners who are out of work."

"Education as a Cure."

This, indeed, is the most idiotic of all the jackass programs that have appeared so far. We feel certain that if Dr. Mansfield has his bumps felt and complexes looked into some very odd and curious repressions and suppressed desires will be found lurking in the remote corners of his subconscious mind. In fact, we do not hesitate to nominate him as the latest candidate to the gallery of modern fascist fools, along with Calvin Coolidge, Heywood Broun and "Jimmie" Walker.

The downright absurdity of Dr. Mansfield's plan is too obvious to need much comment. It is sheer nonsense to suppose that unemployment can be cured by educating new workers for the marine industry. While we must educate the youth to enter all industries, we must vigorously combat the idea that such education will cure unemployment.

To Create Strikebreakers.

We must especially fight Dr. Mansfield's school, the sole purpose of which is to create an army of strikebreakers and finks for the shipowners. The seamen learned long ago of the strikebreaking role of the Seamen's Church Institute. During the seamen's strike in 1921 "Mother" Roper, a shameless old hag and one of the big shots down at the Institute, acted as the chief strikebreaker and fink herder for the shipowners. She and Dr. Mansfield are the ones who ordered the cops to black-jack and beat up militant seamen in the Institute last winter for organizing marine workers into the Marine Workers League (now the Marine Workers' Industrial Union).

Seamen must organize and fight against this scab herding church institute and Dr. Mansfield and expose his idiotic plan. The only way seamen or any workers can attain unemployment relief is through unemployment insurance. The only way to solve unemployment, however, is by the overthrow of the capitalist system and by the setting up of a Workers' and Farmers' Government.

Seamen! Join the Marine Workers' Industrial Union! Don't starve-fight for the Workers' Unemployment Insurance Bill! Join the Communist Party! Vote Communist!

(Written at Hart's Island Penitentiary.)

Please Inform Fish

Maybe Fish would not like to call a witness on "Roosha" that could tell him how the rule that he asked about concerning the limitation on wives, thirty per man according to Fish, works out.

Dr. Robert Barrett, national president of the Florence Crittenton Mission, has just returned from an extended tour of the Soviet Union where he made a survey of the problems of marriage and divorce. Here's what he says: "I think it only fair to the Russians to

say that I found a better and higher standard of morality in their chief cities than are to be found elsewhere on the Continent or, for that matter, in our chief American The less religion the higher the morals, apparently. While in Rome the brothels are

separate from the Vatican, in New York the new style in churches is a happy combination of a church and "apartment hotels"-a little matter that pays by dodging taxes because it is church property. While we're on the subject of churches, you

may have noted that the new Riverside Drive church was opened Sunday in New York. It cost \$4,000,000 to build, and the same week it opened the Associated Charities said that there are 27,000 families destitute, starving and begging them for aid in New York City.

The other side of this you will find among the "hotels" and "dance halls" of Broadway, Heywood Broun's world, if you can stomach it-something we cannot. Every time we are compelled to walk along Broadway in the infamous "white light" district, we long for our own Red Army and a place to do a little "Soviet dumping."

In Brazil the government, to stop a run on the banks, has declared the next fifteen days are "official holidays" while it goes forth to battle. These holidays are likely to stretch out a good many fifteen days before the war

And the Dead Shall Walk

The days of miracles are not past. When a payroll is established by Tammany, even the dead rise from their graves in the cemetery and troop by the pay window to get their

The case is that of what is called the "Volunteer Firemen's Association." Apparently a remnant of the "Tin Hat Brigade" of 15,000 city "employees" who never worked but always were paid, the Volunteer Firemen's Association is composed of a lot of members of "social and political clubs" who never put out a fire and never expect to.

But the city budget is somehow rigged up by Tammany to see that it supports this weird "Firemen's Association" with funds. And the funds are used to pay "pensions" to these supposedly "ex-firemen," only it is now revealed that most of them are long dead, yet are still drawing their pensions regularly!

The old saying is: "Dead men tell no tales." And though it's hard enough to get a live one to waive immunity and talk, Conan Doyle's spooks never made a comeback any more convincing than these Tammany dead men.

Somebody Tell Hyde

While New York jobless are living on hope and the east wind; while a few thousand Chicago jobless are invited to go to jail and get a bowl of thin soup; while Detroit is building a wall around the town to keep jobless on the outside; and while Cleveland jobless are combing over the garbage dumps, Dr. Samuel N. Harper, professor of Russian History at the University of Chicago comes back from a visit to the Soviet Union and remarks as follows about the "ration system" which Secretary Hyde was so scornful about recently:

"They keep the rationing system to make a surplus to pay for machinery. The ration is adequate." Workers, you who are going hungry and

starving in the richest country on earth, don't you wish you were one of these "unfortunate" Russian workers with an adequate ration?

Things must be getting pretty rocky in Wall Street, with the "Business Conduct Committee" summoning a long list of brokers before it to tell them that they gotta stop selling stocks, that stocks are to be bought and not sold. They are reminded that "securities" are being sold so low that prices are "de-moralized." Now, isn't it a joke that they can't blame that on "Russian dumping." And isn't it funny how insecure the "securities" are getting?

Helping" Walker

Of all solemn foolishness, one of the best examples we saw lately was the offer of R. Fulton Cutting, in a letter to Mayor Walker, to place "at the service of the mayor the facilities and research staff of the National Institute of Public Administration, in an effort to stamp out graft in the city government." The funniest part was the paragraph following, given by the N. Y Times as showing how the prince of grafters took the offer:

"Mayor Walker, after reading the letter last evening, said he had no comment to make upon it at present, but that he would certainly give the proposal consideration."

Well, Well!

This is what the wind blew in from Chicago: "Birth control propaganda in United States is another plot fortered by Soviets to forward their scheme to destroy the family group, Dr. Edward Lyman Cornell of Northwestern University tells the inter-fraternity club."

Well, we never looked at it that way; but at least the capitalists can't accuse the Soviets of baby dumping.

There's about twice as much coffee on the world market as can be sold. That's one reason why there's a revolt in Brazil. But have you noticed any cutting in two of prices asked for coffee? We thought not! There'll have to be a revolt here before the monopoly gives up a penny a pound.

Strange as it may seem, the honor of a pioneer of fascism does not rest with Benito Mussolini. It rests with the leaders of the German social-democratic party, Ebert, Scheidermann,
