### Em Hell"

arty's candidate for governor of New York Party's congressional candidate in the 23rd State, and Amter District, the Daily News admits, will walk out of prison into Madison Square Garden tonight "to participate in the biggest political blowout of the current campaign."

Robert Minor, the Party's candidate for Congress in the 20th Congressional District, the 3rd member of the unemployed delegation already released from Welfare Island, will be unable to be present at tonight's rally. He is still in Roosevelt Hospital following an operation for appendicitis which was complicated by his six month's prison

Harry Raymond, the 4th imprisoned member of the jobless delegation, is not being released together with Foster and Amter. On framed up charges Tammany bosses are attempting to hold him in prison for another four months. The Madison Square Garden demonstration tonight, by rallying the unemployed workers for greater struggles for immediate unemployment insurance, will also rally the workers to force his immediate relief.

The thousands of unemployed workers who were led by these militant fighters on March 6th will be present at tonight's demonstration. As a result of the struggle of the unemployed which started under Communist leadership on March 6th the capitalist politicians have been forced to make a pretense of considering the need of the masses for relief. Here and there a few sops are being thrown out. At tonight's rally a program of renewed and intensified struggle will be outlined designed to force these capitalist henchmen to grant immediate and adequate relief to be administered by the workers.

According to press reports, Commissioner Mulrooney has called in his chief cossacks and instructed them to "Wipe off the smile and give 'em hell!" And this is described as the polite version!

This is the counter plans of the capitalists. They will do everything possible, directly and through their republican, democratic and "socialist" tools, to continue to force the workers to carry the crisis burdens. More speed-up; more wage cuts; more lay-offs; more police terror-these are their plans.

Against this, and in support of the Communist election campaign, workers will rally in Madison Square Garden tonight to greet Foster and Amter and to prepare for a new series of struggles for

### Preparing for Winter

DRESIDENT HOOVER'S commission to deal with the problem of unemployment is receiving a lot of publicity in the capitalist press. But so far we have not heard of any unemployed workers being supplied with bread. On the contrary it becomes more and more evident that neither Hoover's commission, nor the various local "efforts" in Detroit, Chicago, New York or other places which he endorsed have any intention of relieving the suffering of the mass of the unemployed. Their purpose is quite different.

They are attempting to create illusions among the workers by fake promices which they have no intentions of fulfilling. By giving a few crumbs to a section of the workers, as is being done, for example, in Detroit, they are attempting to sew disunity among the workers. And then, against the mass of the workers, they are preparing for brutal and bloody suppression of their growing struggles for relief.

The Journal of Commerce takes the measure of Hoover's proposals and at the same time indicates the policy which the bosses intend to put through. They criticize the president for not having come out more openly with a program of drastic wage cuts and the repeal of certain laws which, they say, "hamper" the profit making of the big bankers and big corporations. Then they go on to say:

"1". Hoover would, of course, be politically doomed were he to fail at this time, particularly in view of the coming elections, to give EVIDENCE OF ACTIVITY in endeavor to 'relieve unemployment.'

"It is therefore hardly fair to criticize his efforts on the ground of their INEVITABLE FUTILITY. Perhaps he as anyone else realizes just how relatively little there is that he can do to soften what is certain to be a very hard winter for those who are caught in the wheel of adversity." (Our emphasis.-Ed.)

This is a very clear admission by the highest capitalist source that Hoover is actuated only by politics-by a desire to retain republican control of the House and Senate-and that Hoover and the commission are already convinced of the "inevitable futility" of their fake efforts "to relieve unemployment."

While the commission, all the political fakers of all three parties of capitalism-republican, democratic and "socialist"-and the capitalist press will talk much about the suffering of the unemployed their actual policy will be that of the bosses-lay-offs, speed-up, wage cuts,

Detroit first showed the bosses' plans by registering all unemloyed workers with the police, by refusing relief to all who had not lived in the city for a year or more, by declaring that first consideration would be given to property owners and tax payers, and by openly declaring their intention to drive all others out of the city "back to where they came from."

The endorsement of Detroit's "efforts" by Hoover has stimulated the adoption of this policy everywhere. In Evanston, Ill., a "Business Men's and Women's Pistol Club" is being formed-i. e., the capitalists are being armed-to deal with the unemployed. In New York City 600 new thugs are being added to the police force. Other cities are doing likewise. They are preparing armed terror against militant

But why do they talk of the "inevitable futility" of Hoover's plans and prepare to crush the struggles of the workers which they know are developing? Is it because the suffering of the masses cannot be relieved? Decidedly not! On the contrary this country is well able to take care of the unemployed. There is sufficient food and clothing here for every worker. Food is now being dumped into sewers in order to maintain high prices. Houses are standing empty while workers freeze in the streets. But the capitalists want their profits and only because Hoover dare not touch these profits do the bosses talk of the "inevitable futility" of his plans.

The Communist Party has no respect for the bosses' profits. We say, take the billions now spent for war, take a portion of their wealth, take a portion of their profits and immediately establish a five billion dollar insurance fund to be administered by the workers and from it pay the unemployed workers \$25 per week.

These are our demands! These are the demands of the jobless workers! For these the workers will rally in the election campaign by voting Communist on November 4th, after the election campaign and continuously until these demands are won. No threat of terror will stop the workers, under Communist leadership, from organizing and fighting for the Unemployment Insurance Bill of the Communist

### Is an Election Move; Workers Must Fight

for Real Relief

NEW YORK .- After consultation with the Wall Street bankers, secretary of Commerce Lamont, has returned to Washington, to head Hoover's fake unemployment committee whose main purpose is to combat the demands for unemployment insurance militantly advocated by the Communist Party and the Trade Union Unity League.

It is no accident that Hoover's announcement of the formation of a 'hunger and clod" commission was made the day after the murderous assault on the Unemployed Council delegation tat city hall, New York Ctiy, on orders by the despicable Mayor Walker. It follows, also, the Communist led demonstration that riled Hoover at the Bankers Convention in Cleveland.

No "Relief."

The most outspoken of the boss press admits that the "relief" which will come out of Hoover's commit-

oeuver to make the 8,000,000 unem- up any more. He now admits that for a fight for unemployment in-

### for the contractors and chain gangs. COLD COMES, JOBLESS SUICIDES GROW

CHARLES BULL, an unemployed worker of 1137 Porter Street, Philadelphia, yesterday committed suicide by taking poison after tramping the streets for months in search of work. He died on the way to the hospital.

This worker's death is one of hundreds occurring all over the country as workers either starve to death or commit suicide while Hoover and bosses and their lackeys in the A. F. of L. and the "socialist" party try to minimize unemployment and resist the demands of the revolutionary workers for social insurance of \$25 a week to every unemployed worker to be paid by the state and the bosses and administered by the workers.

In Escanaba Mich., yesterday Alphonse Dupere, another worker admitted by the capitalist press to be "with no prospect of work and his family facing privation," fatally shot himself, leaving a widow and ten children.

In Monroe, Mich., Edward Schmidt, a jobless worker, was arrested yesterday accused of attempting to steal bread for his starving family. He has been locked up and will no doubt be sentenced to jail by the bosses' courts whose function is to defend the property of the bosses against starving

Another worker, in Philadelphia, father of two children, took poison but failed in the attempt, and then jumped from the Delaware bridge but was picked up and is still alive.

In the meantime, the bosses are continuing to lay off thousands of workers. In Philadelphia and other cities many plants and factories are being closed down.

Workers! Don't starve in this land of plenty! The bosses have thrown you on the street to starve or commit suicide! Suicide will not help your starving families! Fight for your right to live! Support the Communist Party in its demand for social insurance of \$25 a week to each unemployed worker, to be paid by the state and the bosses and administered by the workers. Demonstrate your refusal to starve by voting Communist on November 4!

### UP AT THE HIRLET KNITTING MILLS

### System Organized

(By Worker Correspondent.) BROOKLYN, N. Y .- A little short mousy eyed old man met me at the door when I came in to ask for a job in the Hirlet Knitting This was the boss himself.

The bread and butted of 110 workers, men, women, young grls, almost children is in the hands of this creature. He expoits them to the ut-

I was handed over to the foreman and pointed out a place to sit down

All the workers were sitting with their backs bent and heads lowered over their work. No one raised his head, no one smiled. No one said a word until lunch time.

Soon I found out the reason. I noticed that the 3 foremen and the boss were always hovering like crows over the workers watching every move of theirs.

The girls say wherever you turn you see the boss' watchful eyes. I was not told the price right away. It is up to the boss to de-

cide at the end of the week. We are working 10 hours a day for the most miserable wages, from 8 to 6 are our regular hours. Then one hour till 7 we are compelled to

work overtime on straight time. The boss' relatives, the spies and the right wingers get much higher wages and with this nice bunch around him the boss feels quite safe against the rest of the workers. The hire and fire system is freely

Recently a girl fainted. It was a warm day and she could not stand the speed-up any longer. I was told that this is not the first case in this shop.

Underpaid, and therefore undernourished, overworked every once in a while another girl breaks down. Even girls who ought to be in school yet are working these terrible hours for \$11-\$13 a week.

Must Organize. The only way out is to organize into shop committees of the Needle

Trades Industrial Union. We must also expose more the conditions in the shops, the spies, by writing each of us more often to the Daily Worker.

I. Amter to Tour

-Hirlet Worker-G. K.

### 10-HR. DAY, SPEED ALTERATION TAILORS ARE FORCED TO WORK 10-11 HOUR-WORKDAY

(By a Worker Correspondent) BRONX, N. Y .- The insanitary conditions and the ex-

ploitation of the alteration tailors are well known to the tailors Boss Has His Spy in general and to the bushelmen in particular.

in the center of Broadway and Sixth Ave. where the merchant tailors' stores are the most attractive with expensive clothes, the tailors have to work 10 and 11 hours a day in the dark basements or on the low balconies of these stores. The meant for the eyes of the workers on the recent lynchings, pointing whole day by electric light, without air and no sunshine.

Wages Are Low. low as from \$25 to \$28 per

Not better are the conditions of the bushelmen in the big department stores as Wanamakers, Rog- Boss Gov't In New Terers and Peet and the like. Though the conditions in these rich business houses are somehow more sanitary, but the earnings are still lower than that of the merchant tailors. Dear Comrades:

Piece Work Speed Up. These big parasites as well as the smaller bosses are taking advantage by utilizing the present unemployment crisis against the workers. urging them to work piece work in order to squeeze more profit out of its slaves.

These rich millionaire concerns are aware of the fact that its toil- Italian, one a German and the other around the demand for real relief not organized and are therefore four cases were stopped by the Party in its Unemployed Insurance try with their efforts to belittle the of the socialists of the Bruening ers are powerless because they are a Mexican and myself Spanish. All ready to rob the workers without L.L.D. by writ of habeas corpus and Bill. any mercy.

No attempt whatsoever to organize the bushelmen was ever made. Not by the Amalgamated, nor by the A. F. of L. union of the tailors, i. e., the Journeymen Tailors or the United Garment

Company Union Only. These burocratic leaders of these

mentioned craft (and company) unions were never interested to organize these tailors who are compelled to toil under the most slave conditions and for starvation wages. These generals are the agents of the masters and are rewarded with medals by them.

The alteration tailors as well as the tailors in general must not be discouraged, but join the Trade Union Unity League needle industrial union (the Needle Trades Workers Industrial Union) and help build a powerful militant rank and file union under a shop delegate system which will enable the workers to fight for a short hour day and for a decent

### A.F.L. ATTACKS FOREIGN BORN

To End Immigration: Suggest Registration

BOSTON, Mass., Oct., 19-The A. F. L. convention yesterday launched a blow at the foreign born workers with a resolution calling for "practical prohibition of the immigration" until further orders, and with discussion of measures by which the capitalist government could more easily deport workers who had arrived.

Frank X. Martel, president of the Detroit Central Labor Union came out openly for registration of all foreign born workers, lining up with the finger printing and exiling terror plan of the most rabid labor hating employers.

Martel also advocated the passage prevent immigration over the Mex-

# "SOCIALIST" PARTY BETRAYS POOR FARMERS AND FARM WORKERS

By I. AMTER
Prisoner No. 52351
(Communist Candidate, 23rd Congressional District, Bronx)

TOGETHER with the other sections of the working population of this country, as of the whole capitalist and colonial world, the poor farmers and agricultural workers are in a fearful plight. Six million farmers, and their families, the majority very poor, are living a miserable life, and the condition of the agricultural workers is just as bad.

Of the six million farmers in this country about 40 per cent are tenant farmers and in the South the majority of the poor Negro farmers (in reality peasants) are sharecroppers living like serfs. The sharecroppers have to divide up their crops with the landowner or merchant, who advances them seed, provisions, etc. The sharecroppers are always in debt, thus being held in perpetual bondage, differing little from the situation before the Civil War, which was supposed to have "liberated" them.

The Plight of the Farmer.

The farming idustry is in a deep crisis, which in the United States, has been in progress for ten years. Today the farmers are hardened with mortgages of more than ten billion dollars and must pay interest on these mortgages to the extent of \$800,000,000 a year. Owing to the inflation of prices for land during the war and the deflation that set in shortly after the war, land values diminished \$19,000,000,000—the farmers, especially the poor farmers, having to bear the loss.

TAXES are shamefully high, consuming onethird to two-thirds of the net return, in some sections of Michigan amounting to 90 per cent. It is no wonder, therefore, that the government report (which is just as "reliable" as the government report on unemployment has proven to be) declares that out of 1000 farmers, on the average 108 have abandoned their farms and 123 have been foreclosed in the past years!

Banks and Railways Robbing the Farmer INTEREST consumes another big part of the farmer's income—17.5 per cent; consequently banks, insurance companies, and also the Federal Farm Board today are the owners of tens of thousands of farms on which they have foreclosed.

RAILWAY CHARGES are so high that at harvest time in large numbers of cases, the farmers have no money to pay for transportation of their produce to the market. Hence they are forced to sell their products at very low prices to commission houses, packers, granaries and other middlemen, vith the result that the farmer's income decreases to a minimum, if they do not go bankrupt.

The government calculates that the average cash income of the poor farmer for living expenses is \$224 a year! This is the product of the farmer, his wife and all his children. The government report hence comes to the conclusion that "the farm does not support the family."

The Cause of the Crisis
What is the cause of this crushing argricultural crisis?

The agricultural crisis extends all over the world as a result of overproduction. The farmers and producers of agricultural raw material have produced more than the world markets can buy. The masses of the workers, unemployed or working at low wages, cannot buy sufficient quantities of the necessities of life and as a consequence the surplus of stored up produce drives down the market price. Wheat, which a few years ago sold for \$1.80 a bushel, is now quoted at 81 cents, the lowest price since 1907; corn has decreased correspondingly despite the drought in the United States which cut the corn crop by 10 per cent. Cotton is

selling at less than 11 cents a pound.

The farmers and peasants of Argentine,
Canada, Australia, India, China have increased
production, and today, with wealth in their
hands, the farmers of the capitalist and colonial countries face disaster.

Farmers Flocking to Cities As a result of this worldwide crisis, stiffened in the United States by the drought, the farmer's gross income (including that of the farm banker, business and rich farmer), which in 1927 amounted to \$9,500,000,000 will be reduced by \$2,000,000,000! This situation is driving millions of the farm population off the farms and into the cities in search of work. This amounted to more than 3,000,000 in the past years but in the present acute crisis has developed into a mass movement easily understood when the government reports show that, on the basis of an annual income of \$540, which the farmers should get but don't, the farmers as a whole are fleeced of \$1,900,000,000 a year. This loss, of course, is sustained entirely by the poor farmers, who have to live in poverty, take out new mortgages, etc., while the bankers make tremendous profits.

The Republican Robber Tariff
On top of this crisis comes the new SmootHawley tariff, which has raised the cost of
many industrial products that the farmer needs
so that he will be fleeced of a billion dollars

The farmer complains about the city worker, and the "high" wages he has to pay the agricultural worker. Though the wages of the city worker rose higher than the income of the poor farmer, the cost of living in the city is far higher. Today, with the crisis forcing the prices of farm products down below bedrock, with wage cuts taking place in every industry, the cost of living in the cities has not declined correspondingly, but is only six per cent below 1929-while wages in many instances have been reduced 50 per cent. The situation in the cities is so desperate that the Arkansas Commissioner of Agriculture has warned the farmers against moving to the cities. "Wait till prosperity prevails," has says. Wait till the Sweet-bye-and bye.

Situation of Agricultural Workers

The situation of the agricultural wage workers, 4,000,000 in number—in wages, hours and living conditions—has always been miserable; and now in the crisis and unemployment, farm wages have been reduced to a shamefully low level. Some farmers are offering only board and room and unquestionably are getting work-

ers, this indicating the desperate misery of the city industrial workers. The fascist A. F. of L. officials have refused to organize farm workers, whose conditions consequently have worsened. They are now being organized in the Agricultural Workers Industrial League, to put up a fight for better conditions.

This is the situation in the richest capitalist country of the world! This is the "prosperity" of the workers and poor farmers of this country. This is the economic crisis that has attacked the life and welfare of the producers of the country—the workers, poor farmers and agricultural workers, oppressed by the same power—the power of finance capital—Gerard's "64 men" and their capitalist government. This also demonstrates a community of interest and the necessity of a joint fight against capitalism, to take the place of the struggle which the capitalists stir up between the poor farmers and the workers.

What has the government done for the farmers in this ten-year crisis? It created the Federal Farm Bureau and extended the farm banks and credit. The government could not fix the price of agricultural products, for market prices are determined by world conditions and world supply and demand. The world market is glutted with agriculture products, for following upon farm overproduction has come the world industrial crisis, which has cut down

consumption still further.

Modern agricultural machinery has replaced labor power—men and horses being dispensed with by the millions. And yet farm production has increased and can be increased still more if modern farm machinery could be bought by all farmers. But this is impossible, for the poor farmer has neither land enough to cultivate nor money to buy tractors, combines, harvesters, etc.

One Out of Six Has Tractor Thus in rich capitalist America, only 900,000

Thus in rich capitalist America, only 900,000 tractors are in use—one for more than six farmers—of course rich farmers.

As far as farm loans and credits are concerned, they are granted only to farmers with "proper" security—that is the rich farmers. Thus the whole government farm program is a fraud and keeps only the better-off farmers, while the poor farmers have sunk ever deeper in the crisis.

The so-called "progressive" and "radical" republicans and democrats have tried to exploit this situation and propose that they be allowed to continue and direct this flim-flam game with the farmers.

Chairman Legge of the Federal Farm Board, recognizing the drift to big-scale production, which is the only method of utilizing all modern technical improvements and machinery, with the aid of Detroit bankers is entering upon a campaign of the consolidation of farms. If successful, the poor (in a technical and economical sense, incompetent) farmer, will be driven to the wall and crushed, farms will be consolidated into big units covering large areas, a large part of the farming population will be forced into the cities (to take the place of immigrant labor which is now excluded from the country)-and the United States will be equipped with large-scale industrial farms operated like the plants of the manufacturing

"Socialists" Not Even Mentioning Farm Crisis
How does the social-fascist "socialist" platform deal with this situation?

Let it be known that neither the New York state platform, the congressional platform nor the millionaire "Marxian" Hillquit in his keynote convention speech even mention the agricultural crisis, nor the changes in agriculture. For them the disastrous misery of the poor farmers and agricultural workers is of no consequence. But, like all capitalist fakers, the "socialist" party must have a "section" in its platform on agriculture. How do they propose to help the farmer in the crisis?

They propose "acquisition by bonafide cooperative societies and by federal, state and municipal governments of grain elevators, flour mills . . . stockyards, storage warehouses and other distributing agencies and the conduct of these services on a non-profit basis."

They also propose "government insurance against hail, drought, etc., electrification of rural areas, establishment of public marketing agencies, reforestation and state aid for the improvement of rural roads."

Brookhart, Norris, Shipstead, Norbeck, La Follette, Borah could accept this program as their own, for it is a plain capitalist program. None of these "remedies" touch the basic problem, which cannot be solved under capitalism, nor does it touch the immediate problems resulting from the crisis. What about overproduction, which exceeds market requirements despite growing population? What about mortgages, which increase from year to year and the tremendous interest the poor farmers must pay? What about taxes which crush the poor farmers?

What Is to Be Done?

These problems cannot be solved under capitalism. The proposal of large-scale industrial farms to be financed by the banks shows clearly the relation of the poor farmer to capitalism. He suffers from capitalism the same as the worker does, only in a different manner. It is obvious, therefore, that the worker, farm worker and poor farmer must carry on a common, revolutionary struggle to overthrow capitalism.

In the meantime the poor farmer must be enabled to carry on. He must get relief from the mortgages, interest, taxes, etc., that are crushing him. He must demand a long-term moratorium on these debts. He must have immediate relief for seed, machinery and necessary equipment as well as for necessaries of life. Price-fixing, storage of grain till prices advance etc., are a fake.

The poor farmers must understand that they will obtain relief only through struggle. Just as the 8,000,000 unemployed in the city and on the farms and the workers receiving wage cuts learnt that only through revolutionary organization into the unions of the Trade Union Unity League and Unemployed Councils can they carry on a struggle, so too they, the poor tenant farmers and sharecroppers, must built up sections of the United Farmers Educational

League to mobilize the poor farmers and share-crop, ers and carry on a fight together with the industrial workers against the capitalists, their government and the three capitalist parties, the republican, democratic and "socialist" party. This is the program of the Communist Party.

Compare the situation of the peasants of the Soviet Union with that of the peasants of Germany under the social-democrats, of England, under the "socialist" labor government and of the United States, Italy, Poland, Hungary, Rumania, etc. In the Soviet Union the peasants are joining collectives, working the land together. Through the cooperative they are obtaining tractors and combines and within a few years will be using more tractors and big machinery than are in operation in the United States. Consider that there is and can be no oveproduction in the Soviet Union. More food does not mean more impoverished farmers and more hungry workers in the city; it means more happiness and better conditions for the peasants and workers. The peasants in the collectives and on the grant state farms of up to 1,000,000 acres are working only eight hours a day and are helped everywhere by agricultural experts and organizers. They are building homes and clubs furnished with everything

Do As the German Workers and Poor Farmers Have Done

This is being done by the "poverty-stricken" Soviet Union, as the "socialists" call it; it is being done by the workers and peasants under the leadership of the Communist Party. The capitalists and their tools, the fascist leaders of the American Federation of Laber and the social-fascist "socialists," want to make war on the Soviet Union. The workers and poor farmers of this country will rise up in defense of the Soviet Union.

American farmers and workers: 4,500,000 German workers and peasants have broken away from the influence of the capitalist and social-democratic parties. They recognize that their struggle is a joint revolutionary struggle. together with the workers and peasants of the colonies, against world imperialism.

Support the Communist Party and its fighting program! Agricultural workers, join the Trade Union Unity League! Poor farmers, join the United Farmers Educational League! The best militants must join the Communist Party and Young Communist League! Vote Communist in the coming elections!

### Wall Street's Brazilian Bargain

By HARRY GANNES

SECRETARY of State Stimson has announced a change of policy of American imperialism toward the Brazilian "revolt" which may decide the fate of the uprising, and will sharply intensify the Ango-U. S. antagonism throughout Latin America.

The latest turn in Wall Street policy towards the insurrection led by a section of the discontented bourgeoisie is contained in the Stimson announcement that shipments of arms and ammunition would be permitted to the Luis-Prestes Federal government, and an embargo placed on arms shipments to the insurgents. The New York Times announces that "This decision may break the back of the revolt"

decision may break the back of the revolt." Why this change? About ten days before this "new step" Stimson had announced a "hands-off" policy toward the uprising. The insurgents were more influenced by American imperialism than they were by British imperialism. The opposite was true of the Luis-Prestes regime. The revolt started particularly in those states in which American imperialism has the greatest influence. The first expressions of the State Department showed support for the insurgents. Knowing this, the Luis-Prestes government got busy. Daily conferences were held between Stimson and the Brazilian ambassador in Washington. The Luis-Prestes outfit, to save themselves from defeat by the uprising made wholesale concession to Wall Street in return for active support against the uprising.

Looking for Bargains

When Prestes was "elected" president of
Brazil he made a trip to the United States and
then to Great Britain. The Brazilian bourgeoisie who back the Luis-Prestes government have
had a closer alliance with Great Britain than
the United States. But American imperialism
since 1920 has been making rapid inroads in
Brazil. Prestes was looking for bargains, and
hoped to get the better bargain from Great
Britain. Though he would not overlook any
good offer from Wall Street. Commenting on
this "tour," Prof. Paul Vandoren Shaw, writing
in the Sunday Times (Oct. 12, 1930), says:

(Emphasis mine.—H. G.)
Prestes had made arrangements with English bankers for this "financing." But the "revolution," which Stimson and Wall Street viewed with such calm dispassion, made the governmental forces change their mind. New arrangements were made with Stimson in the heat of battle and with it the "hands-off" policy has changed.

The quick change of American policy towards the Luis-Prestes clique brought consternation to British imperialism. They had already sent two cruisers to Brazilian waters to bolster up the Federal Government against the "revolt." Wall St. answered by ordering the cruiser Pensacola to Guantanamo. Cuba, for immediate call to Brazil. When Stimson declared the change of heart on the part of Wall St., the Pensacola set out for Brazil immediately.

A New York Times cable from London (Oct. 19) by its staff correspondent Ferdinand Kuhn, Jr., tells of the sharpened antagonism between the United States and England over this new

"But Great Britain looks upon Brazil almost as much as Argentina," writes Kuhn, "as a crucial fighting ground for Latin-American markets. Brazilian good-will to Britain represents millions of pounds, shillings and pence in orders each year." When Prestes was in London he undoubtedly left the impression there that this "good-will" to Britain would be strengthened. But the "revolution" disposed otherwise. The Luis-Prestes regime had to offer Wall Street what they could expect from the Vargas insurgent movement in order to gain this powerful ally in an attempt to defeat the uprising.

The same dispatch by Kuhn also says that British imperialists "would like to know what the Brazilian government promised in return for Mr. Stimson's benediction."

"When the revolution is over," Kuhn goes on to write, crushed with Wall Street help, the British expect to "find immensely increased American competition, at least in three fields, "namely, coal, textile and machinery."

The Tide of Imperialism.

British imperialism had the head start in Brazil. Out of a total of \$2,500,000,000 foreign investments in Brazil the British hold \$1,250,-000, and the United States around \$500,000,000. Up to 1920, the British had the upper hand in all fields, but since then American imperialism has been making rapid headway. Dr. Max Sinkler, in his book, "Investments of United States Capital in Latin America," writes: "The economic ties between Brazil and the United States are becoming stronger every year. The United States is the largest importer from Since 1920, there has been a rapid influx of American capital. Ford owns 3,700,000 acres of rubber land; the U. S. Steel is preparing to invest \$250,000,000 in iron-ore lands in the state of Minas Geraes; American public utilities companies are rapidly replacing British holdings. While British trade decreased about 20 per cent between 1913 and 1929, American trade increased 104 per cent.

American trade increased 104 per cent.

The valorization scheme, a plan for the restriction of coffee growing, and for the control of prices, was at first financed by British capital. In 1927, Wall-Street undertook half of the financing of the valorization scheme.

Coffee is the leading product of Brazil. The drop in the price of coffee, due to the world agrarian crisis, and overproduction, has impoverished great masses of Brazilian workers and posants. Seventy-five per cent of the Brazilian coffee output goes to the United States. The total yearly exports from Brazil to the United States amounts to \$220,000,000 while American exports to Brazil figure at \$115,000,000 yearly.

The present crisis in Brazil is probably the severest of any of the Latin American countries. The various capitalist groupings, the rich landowners, the petty-bourgeoisie and the small industrialists have been carrying on a struggle for domination. Especially the rich landowners and a section of the bourgeoisie have been backed by the British.

Wall Street's change of allience does not

Wall Street's change of alliance does not mean the revolt is ended. The revolt is breed on deep-going mass discontent. The workers and peasants are becoming more determined in their own demands. The revolt has set in motion huge masses who are definitely against imperialism.

Whichever way the outcome goes, the antagonism between the leading bandit powers will be sharpened, and drawn closer to open warfare. The masses will see the function played by the imperialist powers in Brazil, and under the leadership of the Communist Party of Brazil will be led more and more to a real uprising against all imperialism and its Brazilian bourgeois allies.

#### It's Raining "Ifs"

Hoover's tall talk on Saturday was about the most brazen bit of hokum since his last one. His statement said that he was going to—no, that's not it. He said he had—"set up such arrangements which have contributed greatly to reduce unemployment."

When he began, there were, for example, only 20 per cent of the building trades workers jobless. Now there are about 50 per cent, Girls, don't take Hoover Reducer, you'll get thicker every day.

Then he makes a promise. Well, a sort of one. He's appointing a committee. You know, a "Committee," one of Hoover's kind. And has requested it to "make a survey" and when it finishes that, to "formulate plans" and then to "submit the plans to me." And what for? Why, to "continue and strengthen the organization of Federal activities for employment during the winter."

That is to say, after lying and stalling around for ten months, Hoover said last Friday that he was going to "continue and strengthen" stalling and lying during the winter.

And he started out the next day, as we read in Sunday's "Times." The "Times" correspondent wrote it up like this:

"It was stated today that this committee . . . would be merely a starting committee if the unemployment situation did not improve, and . . . if a turn in trade did not soon bring relief."

Please take notice of the "ifs," workers, and keep right on fighting for immediate relief and for unemployment insurance.

#### Patriots Are Rewarded

All the unemployed who are not frozen to death this winter can stand in the shade next summer, maybe, of a perfectly gorgeous monument "for" soldiers and sailors that is to be erected at Battery Park. How the soldiers and sailors are to subtract ham and eggs from it is beyond us. But it is "for" them.

The monument is to cost no less than \$15,-000,000, and of that sum--listen, New York workers!—the City of New York is going to pay the sum of \$3,000,000.

Do you get it? \$3,000,000 to build a monument. And \$1,000,000 (scared out of Walker by Thursday's demonstration) to the unemployed, supposedly. We must qualify that \$1,000,000 a lot, as anything like money passing through Tammany fingers just naturally evaporates.

At the most, of course, Jimmy Walker, being a god-fearing man like Heywood Broun, is trying to put the Bible into practice. In this case the workers who are jobless, many ex-service men, are asking for bread, and Tammany is going to give them a stone, a \$15,000,000 stone.

We suppose, however, that this \$15,000,000 monument will be an exhibit of what Hoover calls a "real accomplishment" in providing for the unemployed.

#### "Honest Difficulties"

Saturday when we looked at the paper, we knew that there was a catch in it somewhere. "President Acts to Spur Employment." He's been riding that nag to death for darn near a year now.

"We must prevent hunger." But, Herbert, there are lots of people hungry right now; so don't act like it was something to be dealt with after awhile! Ah, but you say that you'll prevent hunger and cold only for those in "honest difficulties."

So the young lad whose picture came out on the front page the other day, fainting from starvation on a job line in Cleveland, was probably not "honest" and only got what was coming to him, eh?

Then there's a piece in Monday's N. Y. American. James A. Hunter, who lost his job, says his wife and little baby daughter, Martha, are missing since Oct. 11, after the woman, in desperation, said she was going to commit suicide. She took no clothes and had no money and was last seen walking toward the Hudson River.

But, of course, she probably wasn't honest. It's likely that little Martha, two years old, had probably committed the crime of asking for something to eat. That is liable to "incite to riot," Mayor Walker says.

All the "honest" people are taken care of. The oil grafters got \$40,000,000,000. Hoover promised the bankers that their income tax would be reduced a few hundred million. The food grafters, the thieving landlords, Judge Bertini, in fact all "honest" people are eating and have a nice warm place to sleep.

But little Martha Hunter had no "honest difficulties." She can swallow cold water and

difficulties." She can swallow cold water and sleep in the river.

#### "Good For Four Years' Prosperity"

During the 1928 election for president, the republicans passed around a few shiploads of what is said on them to be "Lucky Pocket Pieces." We have one which recently was put into a collection by some thoughtful Hooverite who had been saving the thing.

Alas, its "pure gold" wash has been worn away and all that is left is plain brass. As a prehistoric relic it should be put into the Smithsonian Institute. Yet it is worth describing for those who may not remember what was going on two years ago.

One side bears, at the top, the figure of an

One side bears, at the top, the figure of an elephant, the animal which, for its body weight, has the smallest weight of brains. And right below is the word in big capital letters—"HOOVER." We hope you get the connection. Under it—"Lucky Pocket Piece."
On the reverse side it says: "Good for 4

On the reverse side it says: "Good for 4 years of Prosperity." We would like to collect, but the grocer wouldn't take it. Neither would the landlord, and the darned thing is too big to go into a subway fare-collecting machine. We guess we'll simply have to keep it until the lady in the poke bonnet again tries to sell us a "War Cry."
