Starvation! Bigger Profits! Finnish Fascists' War Plan

MANY times we have emphasized that by various methods the bosses were loading all the burdens of the economic crisis on the workers' backs.

First came the even more murderous speed-up systems in the factories with the workers forced to keep up with the speed of the conveyors by the whip of slave-driving foremen. Then came the reduction of the crews, even more speed-up and

finally, with the coming of the economic crisis, mass lay-offs throwing millions into the streets to starve. This was followed by ruthless wage cuts and part-time work

which brought the workers still in the factories down to the hunger

Evictions, suicides, hunger, starvation have been steadily increas ing among the workers during the past year.

But during the same period, due to these brutal methods of exploitation, the wealth and profits of the capitalists have increased. We already cited the New York Journal as authority for an increase of \$136,000,000 in the bosses' dividends in September this year as compared with September last year. But for still greater proof of the bosses' growing profits while the masses starve, read the following quotation from the October 26th issue of the New York Herald-Tribune:

"The aggregate of disbursements to shareholders during 1930 has shown an increase every month over the same month of the previous year. Moreover, the increase has been very substantial. For the month of September, for example, payments exceeded those of 1929 by 19.4 per cent. FOR THE FIRST NINE MONTHS OF 1930 TOTAL DIVIDEND PAYMENTS IN CASH (division of stock, etc., would bring the total still higher. -Ed.) AMOUNTED TO \$3,621,104,457, AS COMPARED TO \$2,395,278,531 FOR THE SAME PERIOD LAST YEAR. A LUTTLE CALCULATION SHOWS THAT THIS IS AN IN-CREASE SLIGHTLY EXCEEDING 50 PER CENT." (Our emphasis .- Ed.)

A 50 per cent increase in the bankers' and manufacturers' profits, while over 8,000,000 workers are jobless and starving, while millions of others still employed are down to the hunger level! This is prosperous America "where all men are free and equal"!

Yet these same fat-bellied capitalists, who are daily sucking the very life blood out of the workers in order to maintain their own gluttonous profits, have the "guts" to talk of "relieving" the unemployed. Why, they have already "relieved" us of everything that they could

And their present schemes, put forth by their political hirelings, are only further efforts to satisfy their greed for profits at our

But the workers will not stand for any more! Already many thousands grasp their predicament and are fighting back. This number, despite the betrayals of the social fascists, will rapidly grow.

November 4th will see a big increase in the workers' vote for the Communist Party, which alone fights for their demands and against capitalism. The coming winter will see gigantic class struggles with great masses of workers fighting tooth and nail against the starvation plans of the bosses and for the Workers' Social Insurance

Tax the Rich!

ACCORDING to Arthur Woods, Hoover's "hunger and starvation" chief, special bond issues totaling \$450,000,000 will be submitted to a vote in nineteen states on November 4th. These bond issues, the capitalist politicians claim, will finance a nation-wide public works program "which may help in easing the unemployment situation."

But this is bunk to get the workers' support for the politicians' "pork barrel." The number of workers who would receive jobs would be insignificant. We have the example of Buffalo where over \$10,000,-000 was spent this summer for "public works" and employment was given to only 421 workers. With the expenditure of the proposed \$450,000,000, work would be given to a maximum of 20,000 workers out of the over 8,000,000 now jobless. By handing out 20,000 jobs. while permitting the balance of the 8,000.000 to starve, these political fakers would try to create the illusion that they were "doing something" to help unemployed workers and in this way justify the murderous police and gangster attacks against the great mass of workers fighting for relief.

The real beneficiaries of these bond issues will not be the unemployed workers; it will be the bankers, the manufacturers, and the corrupt, grafting politicians.

When these bonds are put on the market, the bankers, for themselves and their wealthy clients, will gobble them up at from 85 to 90 cents on the dollar. In addition they will collect 5 or 6 per cent interest for the term of the bonds. A few of the millions of dollars now lying idle in the banks because of the economic crisis, would be put to work through these bond issues, at a handsome profit for the

The politicians, as always, would steal a large portion of the remainder, after the bankers got through, for graft. Their political machines would be well oiled as long as these "public works" funds

The jobless workers would not get work and ultimately, either directly or indirectly, they would have to repay the bond issue in full, the bonus of the bankers and the yearly interest. They would probably have to pay several times the actual amount of the bond issues before the transaction was finished All workers, therefore, should expose these fake, grafting pro-

posals. For public works, as for unemployment insurance the workers should insist on direct, capital levies and heavy income taxes on the wealth and income of the country's rich. They can efford to pay; they must be made to pay. By voting Communist on November 4th and by organizing and fighting under Communist leadership the workers, employed and unemployed, can defeat these proposals and win their

"More Jobs and Less Talk"

WILL ROGERS' suggestion, as usual made in jest, for "More Jobs and Less Talk," is particularly applicable to the present situation when republican, democratic and "socialist" politicians, their campaign aides and the capitalist press are all whooping it up for "relief" for the unemployed, but actually doing nothing except to help the bosses increase their profits at the workers' expense.

"Every millionaire we have," says Rogers, (and we might add, all their henchmen.-Ed.) "has offered a speech instead of keeping still and offering a job. Our optimism is all at the banquet table, where everybody there has more than they can

And this reminds us of the campaign being conducted by Dwight W. Morrow for election as senator from New Jersey. On Friday night last week he spoke at a big banquet at the Cochran House in Newton. N. J. On Saturday night he spoke at a banquet in Atlantic City. And after this banquet he spoke at a "charity tall" on Atlantic City's Million-Dollar Pier.

And these two banquets and the charity ball sure went to his head. "Our people have plenty of money in the bank," Morrow de-

clared, "but they have lost confidence and will not invest it. This propaganda of hoarding money must cease. People must get into close contact with business and start the ball rolling."

We have no doubt but what Morrow's friends "have plenty of money in the bank." Moreover, we know that, by ruthlessly exploiting the workers, they are constantly adding more. And we propose, not to starve while they regain "confidence," but to force them to shell out some of this money for unemployment insurance. Frankly, we, even more so than Will Rogers, are tired of optimistic talk. We want jobs or an unemployment insurance bill that will provide a minimum of \$25 per week to every jobless worker.

By repudiating the fakers of the Morrow type and by voting Com-munist on Nov. 4th the workers will advance their struggle for immediate relief and for social insurance,

Money Mystified Colon Division

This is the first of a series of articles, written by a member of the crew of the "Booker T. Washington," on its ill-fated cruise in the West Indies. For obvious reasons, the name of the author is withheld. The articles are thoroughly authentic, however, as every reader will admit before the series is over.

With this issue, we publish a photostat copy of a leaflet issued by the Colon Division of the Universal Negro Improvement Association. With every issue we will publish photographs, including the discharge papers of the seamen writer-all serving to prove the absolute authenticity of the series and of the charges made by the crew against the Garvey officials who attempted to make the crew the goat for their own misdeeds and mistakes.

This series of articles are of tremendous import to both Negro and white workers. The U.N.I.A. or Garvey Movement, was created out of the discontent of the Negro masses, which found its highest expression at the end of the world war. Based at first on a demand for African liberation and nationalism, the Garvey Movement has since shamelessly betrayed the struggles of the Negro masses. In this series of articles, the thoroughly anti-working class nature of the Garvey movement is vividly set forth by a worker who himself experienced the brutal attitude of Garvey and his officials towards the Negro workers from whose hard-earned savings his movement was built and whom he has so barefacedly betrayed .- Ed.

We regard with much disfavour the many injustices which are being perpetrated against the interests of the ignorant-the credulous-the unsuspecting. We realize that a time will soon come when these poor despicable and visionless creatures will awaken only to find themselves victims of adverse and irremediable circumstances-circumstances over which they will have no control.

We have a membership of 959 adults and 300 school children, many of whom are holding certificates for loans in the Bleck Cross Navigation & Trading Co. Day by day they are pouring out their distress to us asking us to intercede in their behalf. They want to know why the S. S. Booker T. The said "dignitaries" have been making certain reports with a view of placing the responsibility for the present dilemms on anybody beside themselves. They have been trying to maneouver other honest people within the sphere of blame and discredit by adducing a series of evasive arguments. But these spurious fabrications cannot adequately account for the great loss which is now threatening the contributors of the Black Cross Navigation & Trading Co.

We understand that the man who is chief among this mysterious group of mal-ad-ministrators is a minister by profession—that prior to his advent in the U. N. I. A. he used to pilot the souls of men. We therefore heartily recommend that he observe, even for a while, a few of the principles which he used to enunciate and which he controlled other people to swallow unmasticated and without question.

Many people seem to think that Color is a lucrative field of exploitation, and when they come here they leave nothing undone to gratify their insatisble lust for easy money. It is to be hoped that the Local Government will continue to maintain its ceaseless vigilance over the affairs of its citizens and sesident foreigners and do not permit dishon est globe-trotters to come from all parts of the world to ravish and extort this community; because when all is over, the victims must necessarily become a veritable menace to those around them. The merchants and real estate people must find them delinquent and the activities of the police department must increase. Over 100 casualties are reported, but details are not given. By a policy of showing the workers that the new bourgeois clique is no better than the old, and by fighting for the real demands of the workers, the Communists are endeavoring to arouse the workers to take leadership in the uprising.

The cable from Rio de Janeiro says:: "Communistic elements took advantage to protest against the food situation." Barricades were thrown up around the Ministry of War, the central police station and the foreign office against the revolutionary workers, showing the widespread nature of the uprising. The reports that the revolt has been "quelled" can be taken with a grain of salt.

A Washington dispatch to the Journal of Commerce on Monday states that Stimson has announced another quick change and is taking steps to recognize the Getulio Vargas outfit when it takes power in Rio de Janeiro. OUR OPEN AIR SPEECHES

By R. BAKER

AT THIS stage of our Election Campaign the Party in New York is conducting about 100 open air and about 35 shop gate meetings a week in addition to scores of outdoor and indoor meetings held by the revolutionary trade unions, unemployment councils, Y.C.L. and other mass organizations.

Through these meetings each week we reach almost as many workers as we had at the madison Square Garden meeting.

Our Speeches Too General.

The new method of work and approach to the masses which was adopted by our Party is not being reflected in our speeches. Our speakers on the whole deal too much with the general problems facing the entire working class.

We deal with the international issues, India, China, South America, Soviet Union, etc. in too much detail and too great a proportion to the more burning problems actually facing the workers of New York or the definite section of New York where the meeting is being held. True enough, we must deal with the international issues, but by no means at the expense of the burning local problems of the workers to whom we are speaking, which is too often the case just now.

How to Deal With Unemployment.

The most burning issue of the day is unem-

This must be the keynote of all our speeches

and agitation. Our speakers must deal with facts, figures, events and give definite direction to the work-

ers whom we are addressing. Read the Party Unemployment Insurance Bill and tell the workers about it, secure details of the local demands of the unemployment

The City Budget developments for instance is concrete illustration of the reaction of the bosses and the socialists to the unemployment problem and at the same time illustrates our

program strategy and tactics. In this relation the New York City Hall demonstration of October 16th must be brought out as an historic event.

This was the first time that a delegation of workers was actually invited into the city hall by the mayor himself and brutally beaten up inside the building after presenting the demands of the Unemployment Council. The fact that they were accompanied by 15,000 workers indicated the support which this committee, headed by Communist Candidates, had.

How the demands of workers were answered by slugging and arrests while the socialist sat by and smiled their approval.

Hoover's hunger plans came after the mass demonstrations of unemployed workers in Cleveland, Boston, New York and other cities.

Hoover's main "remedy" is to put the entire burden on the working class by the famous "stagger" plan which means that all workers should be put on part time and receive part wages. Which means putting the entire working class on a slow starvation basis.

Hoover's Hunger plan in New York is being put into effect by the big bosses and the police while the socialists again have only praise for it. In New York the proposals are:

To put 10,000 to work at \$15 per week. To have the police register all unemployed.

To set up soup kitchens and flop houses

To create a lying propaganda of promises behind which they prepare to crush the unemployed workers' demands with police and jail

We often hear the capitalist politicians tell-

ing the "people" to go to the polls and vote

for "good" law-makers. But the laws that

most vitally affect labor today are made by

appointed judges. The New York papers are

now full of a few of the dirty doings of these

black-clothed crooks who sit on a "bench" and

send workers to jail for disobeying their "opinions." These birds really make the law by "interpreting" it in the light of the funda-

Plumbers' helpers on new work suffer from the misleaders of the A.F.L. who refuse to organize them. They are thrown out of work by automatic cutting machines.

Expulsion.

In the recent attempt to organize the plumbers' helpers, those who fought for the correct line for the organization, and for it to join the Trade Union Unity League were expelled. Freddie Broad, a militant young worker, was expelled, but he fights on in the Building and Construction Workers' Industrial League of the

And there are many more too numerous to mention. Assisting in all these expulsions and outright reactionary moves are the Trotskyites. When McLaughlin comes on his fake campaign to "organize the helpers" we will find a united front between him and the Trotskyites and Lovestoneites.

But now is the time to organize. There are militants still in the industry. The campaign starts with a big mass meeting at Workers Home, 350 East 81st St., N. Y., at 8 p. m., Thursday, Oct. 30. All alteration plumbers and alteration helpers, New York plumbers and their helpers, gas fitters, pipe fitters, supply men and steam fitters and their helpers are invited to come. Murderous Speed-Up in the Coal Mines

By F. BORICH

SOMETIME ago the Joseph A. Holmes Safety Association gave to the Ford Collieries Co. a "certificate of honor" for the "small" number of fatalities in its three mines. In glorifying this "honor," Mr. C. W. Jeffers, engineer of the U. S. Buro of Mines brings out the total number of men employed, total hours worked and total net tons produced for the last 10 years and compares it with fatalities. However, he doesn't even mention the casualities and injuries although there are too plenty of them. Premature deaths of miners, because of intense exploitation, are not considered as "fatalities" by the capitalist class and its engineers. Many miners working for the Ford Collieries Co. have lost either an arm or leg, or suffered broken backs. Many of them received "slight" injuries which the "Safety Association" doesn't

even put on record. According to Mr. Joffers' figures, in 1927, 739 miners produced 347,360 tons of coal in 674,776 hours of work. In 1928, 436 miners produced 511,879 tons in 781,729 hours of

up of the miners. The Ford Collieries Co. mines are among those that the M.O.S.W.I.U. are concentrating According to these figures, in 1927, 1 hour on. Devise New Ways.

In those cases where the strike actually gets under way without the courts taking action against it, scores of ways to hamper it have been devised by these judges, assisted by the corporation attorneys. They deal out long sentences and heavy fines to the strikers for anything from "disorderly conduct" and 'distributing literature without a permit" to "talking back to an officer" or "criminal syndicalism." Any law or ordinance that will suit the purpose of the bosses is called into play. The courts apply them ruthlessly against the

Judges are also the ones who either refuse to get bail in some cases or, in others, demand excessively high bail in violation of all "constitutional rights." They may even permit the worker to be held incommunicado, not able to reach even a lawyer or his defense organ-

The courts have also been a party to frameups against workers and have gladly carried out their part in efforts to legally lynch militant workers. The pamphlet by Vern Smith on "The Frame-Up System" shows how this has operated, assisted by judges, in a dozen important cases.

Smash Injunctions.

In New York State the employers have found "Section 600" an added help in fighting the workers. Under it the violation of an injunction is made "criminal contempt" of court -a criminal act, and the worker sent up for three to six months for doing nothing more than walking down the street! Under this section the judges and the employers can now send a worker speedily to jail without going through a lot of the delays and formalities previously required in injunction cases.

The fight against injunctions is one of the most important fights before us today. In fighting these we fight against the capitalist courts and the whole system that exploits and enslaves the workers.

Red Sparks

Little Games of Tag

The imperialists are having the time of their lives trying to swindle each other. Two little games the past week are worth notice. Both coming about as a result of the knot encountered in carrying out the Young Plan.

First, a dispatch to N. Y. Times from Paris, talking about how the French were foreseeing the impossibility of collecting reparations from Germany, saying that:

"Reports from Washington reaching Paris, to the effect that American government officials under chairmanship of Secretary Mellon were actually considering the possibility of a five-year moratorium for allied debt payments to the United States if similar conditions were accorded to German reparation payments, were read here with profound interest."

Washington, of course, "denied the report," which was without doubt, a little game of agitation against war debt payments to the United States, put out by artful French im-

Then an even more delightful game showed up in a dispatch to the N. Y. Times from London. In brief, it related how it was thought possible that the German "socialists," being rather put in a hole by their support of the Bruening dictatorship's plan to attack the German working class conditions to get money to pay reparations, "might approach the British socialists" ruling Britain, to see if the British government would give up its own reparations and bring pressure on France to do likewise. The German "socialists" being worried at the prospect of German workers leaving them to turn to Communist leadership, if the Young Plan robbery of the workers went through.

The dispatch then told how the British "socialists" hinted that the German "socialists" might as well save their carfare if they thought they were going to gyp the British Empire out of any cash. In the name of George the Fifth, British "socialists" insist on the pound of flesh-and that's that.

The whole story, undoubtedly, being quite deliberately cooked up by Ramsay MacDonald and Snowden, to warn the "socialist" bootlickers of German capitalism that any such monkeyshines would be "coldly received" as the papers put it, by the "socialist" bootlickers of British capitalism.

Remember these tricks when you read such things in the capitalist newspapers hereafter.

Unskillful Liars

Capitalist politicians are accomplished in the gentle are of not letting their left hand know what their right hand doeth, but we wish the government would try, once in a while, to agree with itself on a lie and stick

For instance, in lying about the "splendid accomplishments" of Hoover's "prosperity plans" for keeping up employmnt and wages ten months ago, the N. Y. Times last Saturday quoted "those who worked with the President in organizing the activities last Fall," as saying that: "Business and State and local governments have kept their pledge" in keeping their former forces on the payroll and maintaining wage rates.

But then along comes a recruiting officer for the U. S. Army and hands me a little yaller folder, where the U. S. Army says:

"Only a few firms will carry you on their pay rolls over a lengthy period. What assurance have you that you will not be laid off a month from now-next week-tomor-

They Brag About It

What kind of "socialism" the fake "socialist" party stands for came out again the other day when one of them, Herr Hoegner, speaking for the "socialist" party of Germany in the Reichstag, declared that the nationalist patriotism of the "socialists" eclipsed that of the fascists. The N. Y. Times item told it thus:

"Herr Hoegner asked the Reichstag to bear in mind that the socialists during the war did most to discourage subversive talk."

That is, the "socialists" were the best defenders of the Kaiser during the war. And he might have added-"and the best defenders of capitalism since the war."

A News Item

"One person was sentenced to death and seventy-four others given various terms in prison after their conviction of graft in food and clothing sales." No, dear reader, this did not happen in New

York City, but in Moscow. The Associated Press tells about it in the N. Y. Times of But this may explain a lot about why Mayor

Walker "don't like Communists," and why he is praised by Heywood Broun for it.

An Object Lesson

Even the dumbest cops ought to know enough to remember that jobless workers should be given the same break as dogs. They let sleeping dogs lie. But when Policeman Joseph Boeger found Edward Roberts, a jobless worker, asleep in a Brooklyn street, he woke him up, probably by the favorite cop method of clubbing the soles of his feet. The result was that the cop's nose was broken and Roberts is held in jail, not having-strange to say-\$2,500 bail.

Jimmy Takes the Prize

"If there is one fair city on this American continent wherein decency controls, wherein honesty obtains, it is the city that I have the distinction and the pleasure and the honor of presiding over."-Mayor Walker.

But exactly what, Jimmy, does decency "control," and precisely what, tell us, does honesty "obtain?"
