League call to struggle!

PERTH AMBOY MARCHERS PREPARE FOR FEBRUARY 10

THE strike of the miners at the Edna No. 2 Mine of the Hillman Coal and Coke Co. against a wage cut of 20 per cent is of tremendous importance. This is the first strike, organized and prepared in advance, by the National Miners' Union. The revolutionary strike tactics are being applied. From the start it showed great militancy. A strike committee of 49 was elected. Relief committees of the strikers going to the nearby mines for support, spread the news of the strike to the other miners. A well organized picket line of men, women, and children brought the day shift out 100 per cent. A picket line at 2 a. m. stopped the night shift despite the use of tear gas by the deputies.

A back to work movement organized by the company's stool-pigeons and other paid agents was completely shattered by the strikers, who told the would-be scabs in no uncertain terms what would happen if they attempted to go back to work.

Following this a large mass meeting was called. Here miners from other mines were present, including a group from Edna No. 1 of the same company. They decided to strike. Despite the efforts of the company, the deputies and the brutal state cossacks, every miner joined the strike. The union is now intensifying its activity in the other mines of the Hillman Coal and Coke Co. The indications are that the miners in these

mines who also had their wages cut Jan. 16th will soon join the strike. This strike movement has all the indications of the beginning of a mass struggle that will form a stone wall against the wage cut drive of the bosses. This strike can and must be developed into an offensive struggle against the bosses. Already the Westmoreland Coal Co., one of the largest in the country, has been compelled to withhold the wage-cut it decided on for Feb. 2nd. The same is true of many other mining

In this lies the tremendous significance of the strike of the Hillman miners. They are the brave fighters in the forefront of the struggle. Their courage and militancy inspires every miner who comes in contact

The strike was linked up with the struggle for the Unemployment Insurance Bill. The striking miners have elected a delegate to go to Washington, D. C., to present the Bill to the U. S. Congress.

These miners must have our immediate support. every industry are watching this strike. It is the most discussed event in the entire Pittsburgh area. Already in a state of semi-starvation before the strike, now they have no food at all. Food is needed to feed these strikers, their wives and their children.

Act now! Not a second must be wasted. Send all contributions to the National Miners' Union, Room 519, 611 Penn Ave., Pittsburgh, Pa.

SUPERVISION MILITAR PINAR DEL RIO

AL JEFE DE LA POLICIA DE

Encontrándose en plena actividad la zafra azucarera y siendo un hecho notorio que mucha parte de la mano de obra disponible se muestra renuente a dejar la población o lo que vulgarmente se llama el [pueblo] para ir a trabajar a. la tumba de caña, lo que viene a probar un estado lamentable de vagancia, origen siempre de graves males sociales, he resuelto que por las respectivas polícias de los Términos Municipales de la provincia se inicie y lleve a cabo una enérgica y saludable recogida de todos aquellos elementos que vivieran de parásitos y de vagos, los cuales permanecen en horas laborables en los cafés, y en caso de persecución, ocultandose en las llamadas cuarterías o en simples habitaciones donde se ven amparados por mujeres de mala nota o por cocineras o sirvientas. A ésta clase de sujetos realmente despreciables y que odia el trabajo y el orden debe Ud. notificartes que tienen que ir a cortar caña o de lo contrario abandonar el lugar donde quieren seguir viviendo sin trabajar lo que no debe ni puede admitírsele en ninguna circunstancia, pero menos cuando las labores de la zafra le ofrecen al vago y al parásito la oportunidad de regenerarse y de convertirse en un hombre útil, al mismo tiempo que lo habitúan a depender de sus propios esfuerzos y separarlos del camino del mal y del delito.

Una vez que tenga Ud. hecho el padrón de vagos y parásitos correspondiente a la población a que Ud. pertenece deberá ponerse de acuerdo con los distintos contratistas de ingenios para la conducción a los mismos de los hombres que Vd. pueda ofrecer.

Espero de su celo, asi, como del natural sentido de la responsabilidad en que Vd. incurrira al no cumplir los dispuesto en ésta circular, la inmediata ejecución de las medidas que le indico y que se abstendrá de atender sugestiones de ninguna clase, ni recomendaciones de nadie que pudiera desviar la verdadera finalidad que se persigue.

De Ud. atentamente.

Cap. Federico Quintero M. M.

January 21, 1931.

To the Chief of Police of (blank left here for name of town): Sir:-The sugar harvest finding itself in full activity and it being a notorious fact that much of the available laboring force is showing a refusal to leave the city or what is commonly called the (town) to go to work cutting cane, which goes to prove a lamentable state of vagrancy, always an origin of grave social evils, I have resolved that the respective police of the municipal areas of the province should initiate and carry out an energetic and beneficial seizure of all those elements who live as parasites and vagabonds, who remain during working hours in the cafes, and when pursued, hide themselves in so-called rooming houses or simple dwellings where they are protected by women of bad name or by cooks or servants. This class of really despicable people that hates work and order, you must notify that they have to go into cane cutting or if not to abandon the place where they wish to live without working, which cannot be permitted under any circumstances, least of all when the work in the sugar harvest offers the vagrant and parasite the opportunity to regenerate themselves and become useful men, accustoming them to depend on their own efforts and separating them from the road of evil and crime.

As soon as you have rounded up the vagrants and parasites of the city you belong to, you must reach an agreement with the various labor contractors of the sugar mills for the supply to them of the men that you are able to offer.

I count upon your earnestness, thus, as well as on the natural sense of the responsibility you will incur by not complying with the contents of this circular, the immediate execution of the measures indicated, and that you will abstain from listening to any sort of suggestions or recommendations of anybody that might turn you from the real aims this circular

Yours respectfully, CAPTAIN FREDERICO QUINTERO, M. M., Cavalry Captain, National Army, Provincial Supervisor, Municipal Police Corps.

PITTSBURGH WELFARE REFUSES RELIEF

Fish and Co. Quiet About Slave Labor Where Dollar Imperialism Rules; Spread Lies About USSR

Over 600,000 Unemployed in Cuba, But Police Force Workers to Slave for Low Pay

Worker Who Objects to Slavery Is Shot Dead; Fish Protects Morgan's Millions

The Daily Worker today offers positive proof of forced labor in the production of Cuban sugar. Published in another column of this paper is a photographic reproduction of a military order (in Spanish) of the Cuban army captain, Frederico Quintero, who under martial law, is supervising all police in the province of Pinar del Rio. An English translation is published with the photograph.

Workers will take notice that this is proof, and not the lies and slanders such as the capitalist papers publish about alleged "forced labor" in the Soviet Union! Here is a photograph of an original military order, the

original being in the possession of the Daily Worker. And from the same Cuban sources, the Daily Worker gets the following story as to the results of this forced

labor in Cuba. It says: "Old and young are taken from the streets and from the houses, day and night, and dragged off forcefully to work. There are supposed to be enough workers for the Zafra (the sugar cane harvest). We have already 600,000 unemployed, and immigration is stopped.

"But the following explains why the workers don't want to be sent to cane cutting. The pay is thirty cents for one hundred arrobas (one arroba equals twenty-five pounds of cane, cut, trimmed and loaded), and it is practically impossible to make these thirty cents in fourteen hours of work.

"Besides, it is no longer labor, but worse than prison labor. The workers have aboslutely no protection. All sugar areas have been militarized. At the least suspicion the people are simply shot down. The fol-

lowing took place in Pinar del Rio: "One of the workers who had been overseer made no reply, but shot a it! bullet into the worker's heart. Two.

and were immediately shot down by the same overseer."

Workers! You who have listened to the war-making lies of Congressman Fish, of Matthew Woll, about "forced labor" in the Soviet Union. You who have read the capitalist press fairy tales from Riga and Helsingfors, but who know from the fact that all capitalists hate the Soviet Union and hope to destroy it by war! Workers, here is absolute proof of forced labor in Cuba, a virtual colony of the United States, a sugar plantation for the National City Bank of J. Pierpont

But, Workers, do you think for one moment that the Fish Committee, Mr. Woll, or Secretary Stimson will bar sugar made by the forced labor in Cuba from entering the United States?

Morgan is making money out of that sugar- and it will not be barred. Even the rival beet sugar capitalists of the United States who would bar it if it were possible, are doubtless too weak to overcome the influence of Morgan's National City

But understand, workers, that the Hoover government and the Ameriforced into the work, told the over- can capitalist class are not at all seer that it was impossible to do shedding tears about "forced labor"this work for thirty cents. The so long as they can get profits from

Understand, workers, what hypoworkers who stood nearby indig-crites the capitalists are, when they nantly asked the overseer why hem gabble about "forced labor" in the had shot down an innocent person, Soviet Union!

MARCH THROUGH NEGRO SECTION. CHICAGO, IN FEB. 10 DEMONSTRATION

(CONTINUED FROM PAGE ONE)

And a still more powerful demonstration is being prepared for Feb. starving workers and their families; 25, international fighting day for the to demand unemployment insurance unemployed.

Now They Mention Relief.

movement of the one-half million unemployed workers of the city of Chicago led by the Communist Party capitalist politicians begin to speak about immediate relief for the unem-

At an open session of the City Budget Committee, the Communist Party, the Trade Union Unity League, the Unemployed Councils and a committee of the United Front Conference of 147 organizations, presented a bill which specified the methods as to how the 75 million dollars they demand were to be raised and distributed among the unemployed workers; \$15 for every unemployed

worker and \$2 for each dependent. The "Chicago Tribune" under date of February 3rd carries the story that the Cook County Board asked the State Legislature to authorize the issuance of bonds up to \$2,000,000 "to provide temporary relief for the poor." Up till now the capitalist politicians ignored completely and refused to act on behalf of the unem-

This is simply a drop in the bucket to supply needed unemployed relief. To divide this amount equally among all the unemployed workers would amount to only \$4 for every unemployed. One thing is clear, that even this miserable help would not be considered by the politicians if not for the pressure of the masses led by the Communist Party.

On Boston Common. BOSTON, Mass., Feb. 4.-Boston Common, historic battleground of the Sacco-Vanzetti demonstrators and of demonstrations against war and against starvation in recent months. will be the scene of a huge demon-

stration to support the Workers Unemployment Insurance Bill. Feb. 10. The demonstration will be at Parkman Band Stand at 12 noon.

The Boston Council of the Unemployed calls all to come and demand that Governor Ely and the legislature turn over the \$1,700.000 not spent by the Department of Public Works for the immediate feeding of the jobless; that the federal government pass the Unemployment Insurance Bill: that free gas, coal, and electricity be given the jobless, and no more evictions allowed.

March in Cleveland. CLEVELAND, Ohio, Feb. 4 .-- Cleve-Union Unity League and the Workers 2 . m. at East State and Water Sta

| Unemployment Insurance Campaign Committee are calling on all workers, unemployed and employed, to participate; to demand relief for the and to support the national delegation of jobless workers that will pre-Under the pressure of the mass sent the workers' unemployment insurance bill to the Congress of the

United States. Many meetings will be held in front of shops on Tuesday morning and from those meetings the workers will march to the Public Square. The unemployed councils have issued thousands of leaflets and a great many stickers advertising this demonstration. Speakers on the Public Square will represent many working class organizations. Hundreds of banners announcing the unemployed workers' demands will be carried.

The Cleveland delegates to Washington will leave Feb. 7. The city government of Cleveland refused to give any relief to the starving workers and their families.

TOLEDO, O., Feb. 4 .- The Toledo Councils of the Unemployed are organizing a mass demonstration to support the Workers Unemployment Insurance Bill on Feb. 10.

Two delegates are going by auto from Toledo to the Washington national conference on Unemployment Insurance, and will take part in presenting the bill to congress Feb. 10. On the way, this auto will pick up three more delegates from Cleveland. More councils of the nnemployed are being organized in Cleveland, and they are doing good work daily.

Milwaukee Delegate Starts. MILWAUKEE, Wisc., Feb. 4.- A mass meeting of 300 Friday at Miller Hall en "rsed the Workers' Unemployment Insurance Bill and ratified Charles Ghenn, a worker in mines and factories for 30 years, as their delegate to present the bill in Washington, Feb. 10.

The mass meeting also pledged to join the big demonstration here Feb.

10 in support of the bill. Many signatures to the bill were turned in, and more blanks were taken by the workers present to get signatures.

and wild applause greeted him as he told of the spread of the organization of unemployed workers in all cities he has been in on his tour. Edward Nehmer, ex-service man and organizer of the unemployed

MORE THAN ONE KIND OF YELLOW DOG

(In this, the third of five articles dealing with conditions among the fgr workers of Danbury, the writer exposes a stupid and hypocritical factory inspector, typical not only of Connecticut but of every state in the Union.

By VALENTINE KONIN.

is warm, light, and cosy in the lobby of the I Hotel Green. The poisonous odor of bleaching acid and decomposing animal flesh with which the air in the workers' neighborhood is saturated, does not penetrate through the brick walls of the hotel. Its parquet floors are thickly carpeted. Its dining room dazzles with starched white tablecloths. Hotel Green is where Miss Schemehorn, the factory inspector of Danbury lives on the salary she draws every month from the state, for her services.

I introduced myself to her as a college student working on a paper in Social Science class, and asked if she would give me some information about the working conditions in that city. Miss Schemehorn looked at me suspiciously through

"Well, I only see that the government regulations are carried out," she said. "I really could not give you any information about the health

I did not wonder at that at all. The workers of Danbury had previously told me that they knew her neither by sight, nor by name. A visit to the manager's office and a receipt of a tip seemed to be the limit of her activity in factory inspection.

I said that I would be glad to have whatever information she could offer.

"I'll take you up to my room," she said, "and let you see our rules." Obviously, she is not even acquainted with the daws she is supposedly en-

Her room is spacious and light-with an almost entire wall of windows. She shares it with a yellow dog, which owns a bed by itself with a ladder to help it get in, and balls and toys scattered all over the carpet. For anyone living like that, it's rather hard to imagine what it feels like to be working nine or ten hours a day in a dark, windowless room permeated with dust, acid, and fur.

Miss Schemehorn's duties as a health inspector are not very difficult. She is required to pay a semi-annual visit to all shops, factories and other places of business in town, to enforce the following rules:

1. No woman is to work more than 10 hours a day.

2. No woman is to work at night. 3. No one under 16 to work at night.

4. No woman allowed to work 4 weeks before and 4 weeks after the birth of her child.

5. Satisfactory sanitary conditions to be en-"Does it happen that these rules are not ob-

served?" I asked. "Why, they've got to be observed," answered

Miss Schemehorn. I thought of one of the girl strikers telling me how they worked one summer for eight

weeks at a stretch of thirteen hours a day. "But doesn't it ever happen that they are not?" I insisted Well, I can only see what they will let me

see," she said. "I can see their ventilation, and plumbing, and general sanitary conditions. They are always in excellent condition.

The toilet conditions in the factories have been one of the main grievances of the strikers. In one factory, for instance, where men's and women's toilets are separated only by a curtain, there are no windows, no towels, no water. I have seen a shop where floors have probably been never swept. Fur settled on walls and floors in thick fluffy layers. To keep themselves from choking, workers tie handkerchiefs over their mouths. They eat their lunches in the same room, swallowing bread together with fur and dust. Would these conditions be called excellent if they applied to her dog?

"Do you ever speak to the workers themselves?" I asked.

"Well, I try to take them into my confidence," said Miss Schemehorn. (Strangely enough, the workers in the factory have never met this confidant of theirs.) "But they don't tell me very much. Because, you see, their employers don't like them to do that. And when they find out, the workers are apt to lose their positions."

While I was looking over the state rules of labor protection, Miss Schemehorn was playing with her dog. She did not seem much interested or much informed about the labor protection rules of her city. Her interest in labor legislation is probably confined to possibilities of getting more graft from the factory owners. Her interest in life in general seems to center around the yellow dog playing on the carpet.

"There goes our mayor," said Miss Schemehorn pointing to a man crossing the street. "A very

All nice gentlemen meet at the Hotel Greenfactory owners, newspaper editors, etc.-a strong clique of grafters and exploiters. I was wondering whether Miss Schemehorn ever met other kind of gentlemen-those whose lungs were continually being poisoned, and whose hair and eyelashes turned red from the acid in the hat-

PARTY LIFE

Mobilizing Women Workers

THE report of the Political Committee delivered by Comrade Browder at the Party Plenum in November, and the discussion and resolutions brought out before the entire Party the absolute need for leading the fight for economic demands. This holds good with regard to our work among women. We will attempt in this article to bring a few examples of our work among women and to point out the correct and wrong methods of

In Lawrence, Mass., in one of the textile factories, the bosses as part of their rationalization program, wanted to change the schedule of working hours. Instead of beginning work at eight o'clock in the morning, they were to start at six o'clock in the morning and were to lay off two hours ahead, which would not increase the working hours. The majority of workers in the mills are married women with family duties at home. These women, because of the fact that they had to prepare the children's breakfasts and send them off to school before they went into the factory, were so aroused by this additional burden placed upon them by the company, that our Textile Workers Industrial Union able to mobilize them around this issue for militant struggle. They struck under the leadership of the National Textile Union, fought militantly and won. This successful strike increased the prestige of the union and as a result great numbers of women joined the union and practically established the N.T.W.U. in Lawrence.

Another illustration is the bread strike which recently took place in Detroit. This strike developed from the high price of bread at the Jewish bakeries, and was initiated by the women's organizations in the Jewish neighborhood. Our Party correctly evaluated the importance of this strike and gave leadership and guidance to it together with the Trade Union Unity League. A real militant strike against the bosses of the bakeries was conducted through mass picketing both by men and women and the strike was spread to non-Jewish bakeries. The women workers were joined by the workers from the bakery who sent representatives to the strike committee. After two week's duration the strike was successfully won with a reduction in the price of bread of two and three cents per loaf. The important part of the strike was that for the first time in the history of Detroit, and possibly in the United States, a joint contract was drawn up by he owners of the bakery, the TUUL and the women's organizations, which, while it reduced the price of bread, did not reduce the wages of the workers, which remained the same after as before the strike. Needless to say, this strike has helped to establish the prestige of our Party and the TUUL in the eyes of the workers of Detroit as leaders of the daily struggle of the

On the other hand, we have examples of where our Party failed to take the lead in the daily struggle of the workers, as for example, in Rochester, N. Y. There too, the women fought against the high cost of bread. But here, not like in Detroit, neither the Party nor the TUUL stepped in quickly enough and as a result, without mass picketing and spreading the strike to other neighborhoods, and without the proper leadership and guidance, the struggle dissipated and instead of a militant policy as carried out bakeries as means of getting reduction in the

One of the outstanding examples of the Party' failure to mobilize and prepare organizationally women workers to fight for their demands can be illustrated by the strike recently held in New York at the Eagle Pencil Company, which involved 700 workers, 500 of whom were women. The section committee failed to recog-

Attempt to Outlaw Communist Party in Chicago

By BILL GEBERT.

THE Chicago Aldermanic elections were opened by the capitalist class, the republican and ocratic parties and the fascist leadership of the Chicago Federation of Labor, with an attempt to outlaw the Communist Party. Out of fourteen candidates for alderman, eleven have been "challenged" by the different capitalist politicians demanding that their names shall not be placed on the ballot. Official charges have been made on the basis of so-called irregularities on the petition lists. But these charges are clumsy charges and cannot be substantiated. So from technical charges they were forced to admit

that their real reasons to outlaw the candidates is because they are supported by the Communist Party. This was clearly established at the hearing before the Board of Election Commissioners with George Blackwell, Negro member of State Legislature presenting charges against a Negro comrade. David Rudolph Peindexter. Communist candidate in the 2nd Ward. Blackwell stated openly before the Board that his charge against Peindexter is that he is a Communist. The "Chicago Tribune" commenting on the

charges, declared: "Charges have been made that Communists were seeking to establish a political organization." Likewise, the "Chicago Daily News" stated: "Charges that the Communist Party is attempting to gain a foothold in Chicago by sponsoring Aldermanic candidates."

The statement of the capitalist Negro politician, Blackwell, and the open declaration of the capitalist press show very clearly that the capitalist class in Chicago carries into practice what the Fish Committee proposed to Congress-to outlaw the Communist Party and to bar it from the ballot.

In Chicago the Aldermanic Elections are socalled "non-partisan" elections, that is, the candidates run as individuals so in this respect not only is it an attempt to outlaw the Party as a Party but even candidates who have been supported by the Communist Party.

The reason why Chicago takes the lead in the new wave of terror against the working class is very simple. In Chicago, more than in other cities, we see the merging of finance and industrial capital and unity with the fascist leadership of Chicago Federation of Labor and the underworld, Capone, Moran and other gangsters; further fascization of the state, and more brutal attacks on the working class (carrying through of wage cuts, half a million unemployed)

The Communist Party endorsed fourteen candidates in fourteen wards located in the working clas: neighborhoods, industrial sections (stockyards, Western Electric, railroad shops), in the Negro territory, etc. The candidates are well known fighters. This is admitted even by the capitalist press. The "Chicago Daily News" states that Comrade Libby Corngold, candidate in the 24th ward, is a Communist and was one of the leaders of the demonstration of unemthe strike leadership.

The main campaign of our Party and the TUUL is the Unemployment Campaign. We cannot speak of a successful carrying through of this campaign unless we enroll in it masses of women workers. We must state very frankly that to date our work among the unemployed women and the wives of unemployed workers has been unsatisfactory. There are as yet very few women in the councils of unemployed, nor do they take a leading part in the activities carried on by the councils. We wish to point out the absolute need of our women's departments to orientate themselves toward this work. It must become a major part of the activities of the women's repartment to devise new methods and forms of work to enroll these working women, employed and unemployed, as well as the wives of workers in the struggle for unemployment insurance. Our work must take on a much broader character. We must enroll the various fraternal and women's organizations not under the influence of our Party. On a neighborhood scale we must carry on struggle against evictions, against high cost of living, for the lowering of rents, etc., through organization of house committees. The mass meetings, conferences and strikes conducted by women's organizations in neighborhoods, must be coordinated with those of the Council of Unemployed and the TUUL. Up to the present our fraternal and language organizations have done very little to enroll their membership and especially women members for the participation in the struggle

ployed who marched to the City Hall demanding work. In another case, they stated that a candidate, Comrade Bella Clinton was the only Negro woman candidate ever entered in an election

In the Negro territory the Communist Party put up Negro candidates.

In Ward 25 the present alderman, Bowler, fascist boss of the Carmen's Union, has as his only opponent, Comrade Guido Gakissi, an Italian worker. There is great possibility that Comrade Galassi could be elected to the City Council on the basis of the support he has received already by the workers of the 25th Ward. The same can be said of a number of other candidates.

The capitalist class sees danger in the Communist Party consolidating political influence to utilize the election campaign to mobilize the working class for the struggle for the Workers Cocial Insurance Bill and immediate relicf for the unemployed, against imperialist war and in defense of the Soviet Union under the main slogan of "class against class."

That is why the outstanding capitalist politiclans are making charges against the candidates supported by the Communist Party in an attempt to prevent the Communist Party from organizing and mobilizing the working class in the struggle against the capitalist class. The attempts of the capitalist class will be fruitless. First, these attacks will expose the role of the capitalist class in the city, the dictatorship of finance and industrial capital united with the fascist leadership of the Chicago Federation of Labor, the gangsters-Al Capone, Moran, Guzick and others. It will show to the workers very clearly that there is freedom in the elections only for cliques of grafters and politicians and the treacherous socialist party at the expense of the working class and that there is no freedem of elections for the working class.

The Communist Party takes the offensive against these new attacks of the city government and mobilizes the workers to vote on Feb. 24 for the candidates supported by the Communist Party, by writing their names on the ballot and by writing, "I vote Communist," in the wards where there is no candidate of the Party. At the time the Communist Party calls on all workers to boycott the primaries of the republican and democratic parties for mayor.

Workers have no choice between "Big Bully" Thompson controlled by Insull and supported by Al Capone, Fitzpatrick and Nelson; fascist Judge Lyle supported by Jingo "Chicago Tribune," McCormick family and other well known exploiters of labor and all reactionary and fascist organizations in the city; or Albert, supported by rich real estate owners and manufacturers on the republican ticket. Nor can they support Anton Cermak of the democratic party and supported by the capitalist class and trying to win the support of Sam Insull. All of these candidates, together with the candidate of the socialist party, John Collins, are enemies of the working class and any vote for any of these candidates is a vote for continuance of the present misery, starvation and hunger of a half a million unemployed; it is a vote for wage cuts and speed-up; it is a vote for war on the working class in the city and a vote for war against the Soviet Union.

The working class in Chicago must answer the new attacks of the capitalist class, organizing mass meetings to demand that the Communist Party candidates be put on the ballot, resolutions to be passed by organizations and sending them to the City Election Commission by giving unlimited support to the Communist Party candidate, organizing Vote Communist Clubs in every ward, in factories; election campaign committees in all mass organizations; by collecting double the 25,000 signatures needed to put the Communist Party candidates, Otto Wangerin for mayor, August Poansjoe for city treasurer and Lydia Bennet for city clerk, on the ballot. Vote for the Communist Party will give poli-

tical consolidation of the worling class and is a vote for the Workers Social Insurance Bill; against police terror, against imperialist war; and for defense of the Soviet Union.

In view of this, the city mass ratification conference which has been called for Feb. 8th, 10 a. m. in Peoples Auditorium, 2457 W. Chicago Ave., assumes special importance. The working class organizations of the city must not only endorse the platform and candidates of the Communist Party, the working class organizations, the whole working class and Negro masses must unite to defeat the attempts of the bosses to outlaw the

Hanging to the Tombstone

"What a-sweet and patriotic record the American Legion is building for itself!" said the N Y. Post of January 29, about the Legion finally being forced by the workers in the rank and file to pretend that its leadership would "fight" for cash payment of the "Tombstone Bonus.

If anybody has any doubts about whether the Legion leaders were forced to change their opposition and vote for the cash payment, which they voted down at Boston, they have only to note the following words written to the N. Y. Post by Thomas Hill of the World War Veterans "Committee:"

"I am sure that you understand that the action taken by the Legion was action forced upon it by its members. If the Legion had not taken this step the Legion could not assemble 100,000 members in the coming year." This comes, of course, from a rival bunch of

tricksters at the head of the W.W.V., who are

compe ing with the Legion nabobs in corralling the veterans for fascism and anti-working class and anti-"red" activity. This chap Hill, for example, winds up his letter to the N. Y. Post by saying that the cash

bonus payment would remove the "danger" of what he calls "trouble throughout the country." So the W.W.V. proposes the cash payment because it thinks that it will help the capitalists.

If it would hurt them, evidently the W.W.V. would be against it. Anything to keep the exsoldier from going Bolshevik. The question is getting hot! See how offhand the N. Y. Post got at the Legion! And Mellon's

sorryful tale of "deficits" and "rinn" was complotely backed up by the capitalist newspapers who quoted everybody alive or dead against such an awful, terrible thing as the cash payment All vets ought to get wise to the fact that

they're good fellows to the capitalists and their papers, only so long as they do what the capitalists want. Also, it ought to be clear that al the "fighting" of either the Legion or the W W. V. for cash bonus payment now, is merely pretense under pressure of the worker vets i the rank and file. They'll keep kicking Mello under the table and whispering that nobod should pay any attention to their "demand."

The only veteran organization which is wort tying up to is the Workers' Ex-Servicemen League whose headquarters at 15 E. Third St New York City, ought to be swamped with let ters asking how to line up things in all part of the country.

For the W.E.S.L. has some special ideas. Fo one thing it really fights for cash payment o the "Tombstone" bonus, but would bar anybod from payment if they get over \$3.000 a roa Neither does the W.E.S.L. peddle the hokur about the cash payment bringing back clerns "prosperity." It says that more is needed that that, and that all vets should support the Work ers Unemployment Insurance Bill.

It seems that rough weather is ahead for Me lon, Hoover and Co., with both these issues "me acing" the corporations with having to pay taxe

One of the funniest dodges was that pulle off by Charles E. Mitchell, chairman of Moi gan's National City Bank. He said, that the bonus passed in full: "There will be hur dreds and hundreds of bank failures." Tha we should say, is a poor sort of a scare. Then have already been "hundreds and hundreds" bank failures without the bonus payment.

We're for Organized Encouragement

"Dear Red Sparks-Your recent story about soaman who brought workers to a Party dan or some affair or another was good stuff." writ a worker. "The point was that no one kne that the seamen were there."

"A Daily Worker editorial a few days a pointed out the same failing of Party member to make new contacts feel at home at meetir or entertainments-cliqueism.

"Take my case. I'm farmer-bred like you a Since leaving the farm I've longshored for years. Somehow or 'nother I can't dance fancily as some of the "spatsmen" that I monopolizing our entertainments. It's funi but I don't feel so doggone hot about payt 75 cents to get in just to see swell-dressed ladi and spats-wearers monopolize a meeting.

"The Communist Party is rapidly finding far with the industrial worker, hardhanded a unpolished. Party entertainments must and reflect this trend. If a way is worked out that all can participate well and good.

"As an afterthought, the above is too hars Most of those who go to Party affairs are wor ers and only a very few wear spats, but st I insist that there should be a freer air. Rough dressed workers should feel free to attend as matter of course.

Instead of being allowed the use of the dan floor, the should be encouraged to participa -W. W."

We are in complete agreement with Comra W.W.'s general idea. Of course, we cannot divi society into hostile classes of spats-wearers a non-spats-wearers. Some workers have discove ed the bright idea that by wearing spats th can abolish socks!

But we are all for the organized encourag ment of non-Party workers and new memb and "outside" workers generally who visit a entertainment. In the case of the seamen w visited some dance, it seems that "nebody kn seamen were there." But the point is, why did

If every affair had a "floor committee" something of the kind, the principal duty which would be to scout around and seek worker visitors who look "left out," make th feel at home and, what's more, officially persistently bust down the barriers of cliquei then we think that not only would the t worker contacts be encouraged, but also se of the air-tight cliques that are particularly noxious in New York, be actually estonis that they can have a better time by being ciable.

Communist Party, the only political party of working class and deliver a real blow against Fish Committee, whose program is being carrout in Chicago, by giving unlimited and ur served support to the Communist Party.

"Class Democracy" in St. Louis

By J. LAWSON. E illusions of democracy, of the right to change government by ballot, of the right to petition government are widespread all over the country. Millions of workers have been fed up on these illusions which helped the capitalist class to continue their class rule under the cloak of democracy. But when the workers begin to use even this so-called democracy for the purpose of exposing it, for the purpose of revealing the class nature of capitalist democracy, for the mobilization of the workers for struggle for their immediate demands, the brutal class character of present society is revealed

But nowhere do we find such open outspoken class laws as in the State of Missouri. Besides the above limitations, the most difficult thing for a working class candidate is to get on the ballot. In the city of St. Louis only assessed tax payers for two years can be candidates for aldermen. This is definitely intended to exclude workers from getting on the ballot.

Wor'ring class parties are even more excluded from getting on the ballot. A political party within the definition of the capitalist law is one that received three per cent of the entire vote in the previous elections. But you cannot get on the ballot as a political party in order to receive that number of votes. Candidates of working class parties, when they go on the ballot as "non-partisan candidates," have to pay a "deposit as evidence of good faith," 2 per cent of the salary for one year of the office for which he is candidate, which goes to the city revenue fund while candidates of the recognized political parties have to show receipt from their respective city central committees.

Communist Party Exposes Fake Democracy In the elections in the city of St. Louis that take place April 7, 1931, the Communist Party for the first time puts its candidates in the field on a platform that concerns every worker. While fighting to get the candidates on the ballot under the name of the Party, exposing their sham democracy, the Communist Party will carry on the campaign on issues of vital importance to the working class.

Unemployment relief is the main issue raised in the platform of the Communist Party. Appropriation of \$10,000,000 from the city budget for immediate relief to be paid from the sinking funds; cutting down the police budget; cutting salaries of the city officials to a maximum of \$2,000 a year, and by levying taxes on all incomes of \$5,000 a year and over, is the main issue in this campaign. The answer the board of Aldermen gave the thousands of workers that put these demands before them on January 16th, has opened the eyes of many workers as to their right to petition government, and has made them more determined to fight for these demands.

The fight against evictions, and for laws that will prohibit eviction of unemployed workers; the fight against the exorbitant rent paid by the workers; for seven cents street carfare instead of the highway robbery 10 cent fare; for free carfare for the unemployed and their children: for free wholesome meals for the children of the unemployed; for lower rates of gas and electric. It is on these issues that the Party will rally the working class for support.

St. Louis, the gateway to the south, can very well compare in its oppression of the over 100,000 Negro workers that live in it, with the south. They are jim-crowed in every restaurant, theattre, meeting halls, union and schools. Separate schools have been established for children of the Negro workers, their children getting only four hours schooling two shifts a day because the schools are overcrowded.

Against this the Communist Party puts forth the program for full social, political and ecopomic rights of the Negro workers, relentless struggle against lynching, segregation and dis-

The Party will mobilize the workers for struggle against war and for the defense of the Soviet Union, where socialism is built under the 5 year plan, where the workers enjoy the full fruits of

It is significant to note that the candidates of the Communist Party, although few due to the difficulties in finding workers tax payers, and the payments of "deposits as evidence of good faith," represent all strata of the working class. John Braun, American born worker candidate ert Gray, Negro worker, candidate of the Party, representing the most exploited section of the working class, candidate in the 4th ward, and Roy Scarata, representing the foreign born workers who are at present under special attack by

All working class organizations are called upon to support the platform and candidates the Communist Party puts forth, and send delegates to the ratification conference held on Friday, February the 6th, 7:30 p. m. at the Labor Lyceum, 1243 N. Garrison Ave., and help in the mobilization of the workers for the election

LENIN SAID:

Triumphant in one country alone socialism does not yet do away with war in general. On the contrary, it presupposes it. The development of capitalism is extremely uneven in the various countries. It could not be otherwise under a system of commodity production. Hence, the invariable conclusion that Socialism cannot triumph in all countries at the same time. It first conquers one of the several countries while the others still remain for some time in their capitalist or pre-capitalist state. This is bound to give rise not only to friction but to direct aspirations of the bourgeoiste of the other countries to crush the victorious proletariat of the Socialist state. In such instances war on our part would be legitimate and just. That would be a war for Socialism, for the emancipation of the other nations from the bourgeoisie. Engels who absolutely in right speaking of the possibility of "defensive wars" of triumphant Socialism in his letter to Kautsky of September 12, 1882. He had in view precisely the defense of the victorious proletariat of one country against the bourgeoisie of other countries. - (Lenin: The Military Programme of the

Proletarian Revolution.)

Socialists always condemned wars between nations as barbarous and savage. But our attitude to war is fundamentally different from that of bourgeois pacifists (friends and advocates of peace) and anarchists. From the former we are distinguished by our understanding of the inevitable connection between war and the class struggle, by our understanding of the impossibility to do away with wars without the elimination of classes and the establishment of socialism, and also by our recognition of the legitimacy, the progressiveness and the necessity of civil wars, that is wars of an oppressed class against its oppressors, of slaves against slaveowners, of serfs against feudal landlords, of wage slaves against the bourgeoile. From the pacifists and anarchists we Marxians are distinguished by our recognition of the necessity of making a historical study of each specific war from the viewpoint of Marxian dialectic ma-

For Economic Struggles

workers, and good organization results will follow

in Detroit, the women began to orientate themselves toward organizing their "own cooperative"

price of bread. nize the importance of women workers in the plant, and the fact that they represented the most underpaid section of the workers in the shop. Our Party failed to take note of the special grievances of the women, to formulate demands, and above all, underestimated the militancy of the women and their readiness to fight to improve their economic condition. When the strike call was issued, much to the surprise of the comrades in charge, the women responded equally with the men, and were the most militant on the picket line. However, the women's apparatus in the section and the district, being unprepared for the mass response, failed to work in the neighborhoods against evictions, against out concrete plans for activizing the women in the high cost of living
