WHOLE N.Y. TOWN STARVES; DEMONSTRATE FEB. 10! Soviet Union Needs Workers; Capitalism Fires, Starves Them, N.Y. Times Admits

# Well, Mr. Fish, What Do You Say?

WRITING in the New York Times, Walter Duranty tells us that the Soviet Union cannot meet the need for workers. The flow of peasants from the country to the city is being checked. The need for experienced workers in the shops, however, is growing and must be met. Many foreign-born workers-among them Americans-have gone to the Soviet Union, found conditions good, and then have written back home advising "the boys to come along". The colony of workers of foreign countries has grown-and still the need is great.

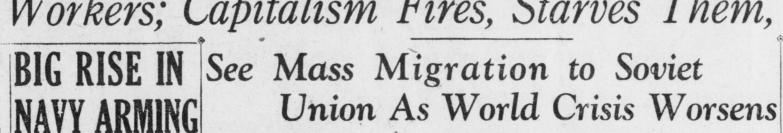

The success of the Five Year Plan in face of the economic crisis in the capitalist countries with their 17,000,000 unemployed, as the League of Nations reports (the number unquestionably is nearer 30,000,000) is enticing the workers. It is no longer propaganda about the Soviet Union, but the great object lesson of the workers and peasants of the Soviet Union building up and developing the most gigantic projects the world has ever seen, at a time when the factories in the capitalist countries are shut down completely or working part time; when starvation is rampant in the city and country; when insanity, suicides, disease are spreading rapidly-especially pellagra (the disease of undernourishment); when wages are being slashed and conditions worsened-this development of the Soviet Union is teaching the workers and farmers of the world a tremendous lesson.

It is emphasizing 1) that the capitalist system is bankrupt; 2) that the workers can build without the "genius" of a Rockefeller, Hoover or Ford; 3) that the talk of "enforced" or "convict" labor in the Soviet Union is a cloak for the fear of the capitalists that the workers are learning from the success of the Five Year Plan.

And this is behind the proposals of the Fish Congressional Committee-the fear of the American capitalist class of the success of the building up of Socialism in the Soviet Union and the revolutionary effect on the American workers. You cannot stop the success of the Five Year Plan, Mr. Fish. However many delegations you send to the Soviet Union to get "facts", you will not be able to distort them so much or so long as to deceive the workers much longer. You drive the foreign-born workers out of this country or persecute them-the Soviet Union welcomes them to citizenship. You and the bosses you represent cut the wages of the workers-the Soviet Union continually raises them. You let the workers starve in the cities of this country--in the Soviet Union every worker eats.

And therefore, Mr. Fish, your only way out it to propose an embargo on Soviet goods, and to prepare for war against the Soviet Union. The workers will not support you in your proposals-the starving, discontended workers and poor farmers of the United States. They will not support you in your campaign against the Communist Party, for it is the Communist Party of the Soviet Union, leading the workers and peasants, that is building up Socialism.

The workers must learn more and more from this situation of the sharp contrast of poverty in the United States and growing prosperity in the Soviet Union-10,000,000 unemployed in the United States. 2,000,-000,000 workers needed in the Soviet Union, and build their organizations, particularly the Communist Party and revolutionary unions, to fight for unemployment insurance, against wage cuts, against intervention in the Soviet Union.

**RUSHES WAR** Smash Boss System and Follow in Wake of Soviets

'Excuse" Opens Way One of the most remarkable movements, the emigration of workers from for Biggest Arms the capitalist lands of misery to the Soviet Union, is predicted by Walter Race Duranty, New York Times correspon-

dent in Moscow, in a cable dated First Lord of the British Admi- February 4. The process is already ralty, A. V. Alexander, announced beginning. #### Dear Comrades :---

A wave of wage-cuts and lay-offs are taking place here in Canton. On Friday, January 31, the Canton Stamping and Enameling Co. posted a notice up that a wage cut would take place the following Monday, February 2. A 10 percent cut on day work and a 10 per cent cut on piece work. The workers here talked of striking against thess wage cuts. But the bosses came out with the rumor that they had other workers to take their places if they came out. Some of the workers are very mili-

Loggers Are Fully Insured; Hit Forgeries Used in Campagin of Lies

MOSCOW .- In an interview given to press representatives the leader of the Soviet timber workers; Comrade Becker, dealt with the campaign against the Soviet timber trade and the charges of "forced labor" etc.

Becker declared that the charges were based on perjured evidence and forged documents. The central committee of the Woodworkers Union which organized 600,000 workers protested against the dishonest slanders and declared categorically that nowhere in the timber trade, either at the camps or at the harbors, was forced labor of any kind employed. The timber

MEET

(By a Worker Correspondent)

trade was organized on the basis of a free agreement between the workers and the timber trust. Permanent workers were employed in the factories, sawmills, etc., and seasonal workers at the lumber camps. The timber trade demanded 1.600.000 workers, and the Soviet Union was in a position to meet this demand. Forced labor was totally unneces-

Page Three

sary. The great forests of the Soviet Union were in sparsely populated districts and this necessitated the transport of armies of workers to nembers of the Trade Union Unity the logging districts. The loggers were organized in artels and brifactory gate meeting at the Swifts gades on the basis of voluntary agreement. The rights and duties of these workers were laid down both in collective (artel and brigade) and individual agreements. The loggers

receive free transnort to their work places and back to their homes when the season is at an end. They respeakers of the T. U. U. L. At first ceive free board and lodging with the company police tried to break up extra rations. They are fully insured the meeting but failed. They sent against all accidents, sickness, etc., and their wages are high.

Each logger receives a copy of his working agreement and a paybook which contain his rights and duties plainly set out. Every fourteen days the wages are entered in the paybook. The wages are paid according to piece-work rates, whereby, how-

ever, each worker has a certain daily minimum wage guaranteed. Further special bonuses are paid. Copies of 30th, as they pleaded not guilty. Boyall forms of agreements in use are ington was given ten days for con- in our possession and can be exam-

# SEE MASS MIGRATION TO SOVIET UNION AS WORLD CRISIS WORSENS

(CONTINUED FROM PAGE ONE)

advance of the Five-Year Plan in the Soviet Union in the surrounding of capitalist crisis in all other countries in the Soviet Union. Duranty envihas made this process even conceivsages a wholesale flood of emigration to the Workers' Republic. He writes:

Duranty starts off by saving: "The Soviet Union will witness in the next few years an immigration flood comparable to the influx into the United States in the decade before the World War, unless present indications prove faulty.

"The success so far of the fiveyear plan and, perhaps, to an even greater degree the distress in capitalist countries have already produced unexpected phenomena in the shape of investigatory visits by groups or delegations of foreign workers. They now come not as heretofore, from curiosity or sympathethic interest in a Socialist State, but with the deliberate purpose of discovering whatever they can and whether their fellows at

home would like to live here. "It is only the beginning as yet of this movement, and the first swallows of the coming migration are still scarce-so scarce that Russians themselves with few exceptions have not grasped the possibl consequences. But it has begun and will have to be reckoned with in the future.'

"A Workers' Country." He shows that automobile workers from America have already established themselves in the Soviet Union and are advising their friends to follow them. This movement is entirely aside from the problem of contracting for 13,000 engineers and technical experts already announced by the Soviet government

The basis of the movement, Duranty points out, is the increasing misery of the workers in the capitalist coun-

"When the League of Nations Labor Bureau announces that there are 17,000,000 unemployed in the United States, Britain and Germany, the Soviet can answer:

"This the third year under the five-year plan requires from two to three million new qualified workers, Can't Stand Carroting for More Than Two Years:" Says Fur Worker

By MYRA PAGE

This is the fourth of five articles dealing with fur workers' conditions, as typified by the situation In Danbury. There are approximately 40,000 fur workers in the United States, of whom 16,000 in round numbers are employed in the fur-felt branch of the industry. The industry is concentrated in the states of Connecticut. New York and New Jersey .--- Editor.

"To work in fur plants is to give your life, and quick, too. We know it." It was a carroter speaking, one of three who sat crouched near their bowls of acid and putrid-smelling rabbit skins, eating a hasty lunch. Two of us had managed to sneak into the plant during the noon-hour, in order to see at first-hand the conditions inside, about which we had heard so much.

"Yes." another broke in. "a man the foreladies tell you, you got to can't stand carroting more than two take those handkerchiefs off, its years.'

"How long have you been here?" "Going on five: I lost forty pounds since I came, and my-lungs is bad. But what can a poor man do? We gotta earn our bread. But to give your life, that's one thing; to give gloves, brush them down with merit for nothing, well, a man can't cury, urosol, nitric and other poison-stand for that." Talk of union and ous acids that are so strong that strike followed (everywhere one hears eyes swell and wet from its effects, the workers talking of more strikes hair is reddened or bleached, teeth against starvation wages and killing fall out, gums develop sores, and

throat and lung trouble from the mother and father, also fur workers,

"But what could we do?" his mother explained, "it's the one trade along with making hats, which is just as bad." He stayed out a fe wweeks and then went back to work.

Finally we went into the cutting and blowing departments, where the pelt is removed from the furs, along with all loose pieces. The cutter and five girls who work along with him are especially exposed to the acid fumes.

Because of the dust and acids. those working in fur shops must drink a large amount of water. However, water from the shop facets is impossible to drink because the acid fumes have corroded the popes so drinking water is brought into the shop from outside, but workers get it only if they pay fifteen cents for each woman and twenty-five cents for each man. "You can faint for

lack of water, and still not get a drink; and the forelady calls you a tight wad," one woman told us indingnantly.

Another matter which the workers are rightly very angry about is the lack of decent lunch rooms, and toilets and washing facilities. Furthermore, in most of the plants the women are required to clean the toilets, and in one shop the employer actually sends them up to his bookkeepers' house during working hours to clean house for her. "And bleach acid find eyes actually closed. if we refuse, we're told we'll be fired."

. . . How unnecessary these health haz-

# FIGHT AGAINST CALIFORNIA "WE'VE STARVED LONG ENOUGH, EH, BOYS?" WHITE TERROR!

#### By EVA LEDER.

WHITE terror in California, especially in the Southern part. is at its height, and only that of the south can perhaps be compared with it. Not a demonstration passes by, not a meeting passes by, without violent clashes with the police and the "Red Squad."

Especially since last Spring, after the Imperial Valley "affair" the white terror in Southern California has increased tremendously. The bosses have absolutely decided to wipe our Party out of existence. Not only the Party, but the whole of the revolutionary working class movement, in the city. Hynes has faithfully tried his best to live up to his promise of last April "no more 'red' demonstrations," although the workers of Los Angeles have heroically, on many occasions, fought this attack of the bosses.

The boss class of Southern California has resorted not only to "legal" means in combating the workers in their struggle-the police, the "Red" Squad, the newspapers, the courts, the radio, etc., but now is resorting to extra-legal means in its onslaught against the masses. It is using Machado's methods-physical attacks, planned for assassinations, if successful.

For the last six or seven months we have had three such attacks, the last one being on Comrade Bonchi Freedman, the Party organizer of Southern California Section of District No. 13. Attempt to Kill Freedman.

Comrade Freedman walked home 8 o'clock in the evening on Saturday, Jan. 17. At 9 o'clock he was due back at the same place where he was at 8, to a committee meeting. About 3 minutes after entering the house, he was confronted with two men carrying shot-guns. They looked straight into his face, quickly threw salt in his eyes in order to blind him, so that he would not be able to recognize them and with a "this is for your disciplined Party" started to give him the "works."

Comrade Freedman was seriously beaten up, was unconscious for many hours, and delirious for a few days.

"Dicks," were the words he would shout from time to time, for like dicks looked the men that beat him up. Although the attack on Comrade Freedman was meant to kill him, as in the other cases, still there are good hopes that Comrade Freedman will recover, and be able to again serve the working class, serve our movement. However, this will take some time.

### Attack on Movement Must Be Fought

Firstly it must be understood that these Machado-Hynes attacks are attacks against our movement. It is not enough for the bosses to break up our meetings, our demonstrations, to fill the filthy rotten California jails with us, to hand out savage sentences of 3 to 42 years, all this is not sufficient: they see that our movement is not being wiped out, no matter how strong their oppressive methods are, they think individual terror will do the job. They think they will rob the Party of its best forces locally. will scare away the others, thus demoralizing our ranks and crush our movement.

Of course they are morons to think that. They can never stop the struggle of the workers, and therefore our movement, by putting us into jail, by beating us up, by killing many of us. Said Lenin:

"There are enemies who can be temporarily beaten by a few defeats, but who cannot be annihilated by any forces, not even when re-

action is completely victorious; these are the millions of the working class and the poor peasantry !

And this is a thing that the ruling class can't understand (because it is so deadly determined to it), and this is a thing that is being sustained every day-beginning with the proletarian revolution in Russia, the events in China, India, etc.

If we understand that such attacks are political, are attacks on the Party and the entire working class, there can be no question of the necessity for a militant fight against them. We must also add right here that the "we can't do much" talk, is passive resistance, towards the fight against the white terror. That the argument "we'll scare prople away" is the worst kind of opportunism which smounts to open abandonment of the struggle against the white terror of the posses, the struggle for the interests of the working class.

We must now develop a wide campaign against the Machado methods of white terror and general "Red Squad" suppression upon the fight of the working class in Southern California, in Los Angeles.

#### Workers Militant

The last few demonstrations here have shown that the workers are not going to stand for this suppression; the workers are ready to fight; they have begun actively to defend themselves. And this was done by the workers themselves, who have come to the demonstrations, on their own initiative.

What does this show, if not a tremendous growth of militancy of the workers and of their readiness to fight? We must utilize this militancy, crystalize it, put it into an organized form-to the advantage of the working class, of our movement.

#### Organize Our Struggle

There are many things that can and should be done-above all: We must not give up, but intensify our struggle.

We must intensify our work among the un employed and put on a well organized militant, fighting basis; we must organize (and this can be done) a committee against white-terror, consisting of representatives of various working class organizations and outstanding individuals willing to fight this battle: we must develop our struggles on the basis of concrete local needs and demands and such are here, enough of them.

In this campaign against white terror, the right of the workers to demonstrate, to hold meetings in spite of the "all powerfulness" of the "Red Squad" etc., must be demanded We shall not forget the opportunity and necessity for uncovering the hypocrisy, lies, and poison of the "liberal" Governor Rolph. Here too our fight can become concrete and bring much value to our movement.

The worst thing that could happen to our movement in California, and would have its (very bad) reflections upon our entire movement, would be-retreat, passivity, stopping or slowing down our fight.

Our struggle against police persecution, white terror and bosses oppression must now become a hundred fold intensified. The necessities for that struggle are great, the workers are militant, the Party as a whole must help the California district to carry on this hard, but inevitably successful struggle. 1 15-31

# PARTY LIFE

WHEN workers come to mass meetings or con-ferences, they expect to see, besides enthusiasm, discipline. They know the importance of such meetings, understanding that matters of great struggles are to be discussed.

"It does not require much thinking to see what demoralization our undisciplined meetings have upon these workers, whether they come to a simple mass meeting or as delegates to a conference. We must understand and take seriously the fact that workers are watching and considering the discipline and enthusiasm. "The rule and not the exception at these meetings (and I have in mind particularly the recent Needle Conference although practically all are affected), is that the leading comrades present are the first to be undisciplined, to hold little conferences on the side, the first to demoralize a meeting.

"Workers wonder why the leading comrades, especially when they are Communists, set such a bad example-and the workers get the impression that these undisciplined leading comrades are acting as though they are privileged to do as they please. In any event, the disturbance and confusion on the floor create a chaos in the minds of the rset of the workers and defeat the nurpose of the meetings.

# Our Last Plenum and Org-Agitprop Conferences

#### By SAM DON.

BEFORE the last Plenum of our Party frequently, the following question cropped up: "How come that after March 6th in the face of growing unemployment, the numbers attending our demonstrations and our influence amongst the uemployed is decreasing?" The last Puenum of our Party clearly answered the question: First our general influence did not decrease. However, we did not organizationally strengthen, consolidate and appreciably increase our influence in face of the steady growth of unemployment. Furthermore, had this situation continued, we would have been confronted with the actual danger of ceasing to be a deciding influential factor among the unemployed as we are becoming today. Why were we confronted with this danger? The bourgeoisie, fearing our growing influence as shown on March 6th, did not only increase its fascist terror against us as its main

action understands and mobilizes for carrying through the line of the Plenum.

It is not sufficient merely to have a plan The success of the carrying out of the plan lies in a consistent and continuous check up and the adoption of special organizational measures to carry through the check up, to exchange experiences and the drawing of lessons from them, in order to perfect and increase the tasks of the plan of work. The success in mobilizing the Party for the mass campaign depends largely how well we mobilize the bottom of the Party-the units of the Party. The mobilization of the lower Party units, depends on the guidance that they will receive from the higher units. In taking up therefore, the question of organizational consolidation, we must look into the bottom and examine the foundation. The Central Committee therefore decided that at our coming Org-Agit Prop Conferences, the main point for discussion shall be the life and ac-

Red Sparks

### Bread and Milk

Out in California there is something called the "California Housewives' League," whose president, a Mrs. Cleverdon, has announced a "war" on high prices for milk and bread. It seems that milk for which the dairy farmers get four and one-half to five and one-half cents, sells at retail in Frisco for 14 and 15 cents; large loaves of bread sell for 14 to 15 cents.

There's no doubt that these prices are robbery. But it will not be stopped by Mrs. Cleverdon, who, being a bourgeois herself and the "league" being ruled by capitalist policies and tactics, thinks she has done something wonderful by appealing to the government of the state to "investigate.

Also, she is very kind to the robbers, suggesting only that milk be reduced only to 12 cents and bread also to 12 cents, which would sure leave a lot of profit for the robbers. A letter we get from North Dakota says that farmers are getting only seven cents a dozen eggs-while here in New York any egg not old enough to vote sets you back about 45 cents a dozen.

We have no faith in "wars," on high prices led by capitalist ladies. And so far as we've observed, our working class housewives don't seem to be very active in fighting high prices on food. Maybe they think the masses are not interested. But we think they are.

### The Answer Is Easy

"One hundred thousand Cubans, in a delirious human wave, carried me into the National Capitol, says Machado, the so-called "president" of Cuba. Then he goes on to cry about what's happened: In fact, he says:

"Why is it that the President of your country today should seem so unpopular and be so persecuted-the same man who, only a short time ago, was so extraordinarily honored?"

The bloody old murderer seems to have forgotten that he himself said that Cubans were "delirious" when they put him in the capitol. They have simply recovered their senses, that's all.

He even gives proof of this by speaking of "the strange hold that Bolshevism has taken on Cuba:

## Did You Notice It?

The downright cynical cussedness of the selfstyled "progressives" in the A. F. of L., headed by the Rev. Muste, is almost past belief. This gang has been running the United Textile Workers' Union of the A. F. of L. in the Danville strike.

About two weeks ago, in reading a San Francisco paper, we noted that a dispatch which we had not seen in the eastern press, said that the U.T.W. had taken a committee of strikers to Washington to see Mr. Fish, one of the complaints being that the open shop companies at Danville, were giving jobs to "imported Reds."

That, of course, was absurd. But now, so short a time afterward, the U.T.W. calls off the strike on the grounds that, in taking employees back "without raising the question of union membership, that this principle of labor is being respected.'

One might ask, if one really believed that the companies were hiring "reds" so short a time before, to the exclusion of "honest workmen," why this action is so soon figured out as "re-

# The L.S.N.R. and the Role of the Youth

### By L. PATTERSON.

IT was pointed out at the St. Louis convention that the League of Struggle for Negro Rights must become a broad liberation movement among the Negroes of this country. The LSNR is based on affiliated organizations, and the main task of these organizations is the building of the Liberator into a mass organ. The LSNR must become a movement fighting for the freedom of the Negroes from lynching, race discrimination, jim-crowism, and all other forms of Negro oppression, and must unreservedly carry on its struggle for equal rights for the Negroes and for their right of self-determination in the black belt. It was also made very clear that in order to fight Negro oppression effectively, the LSNR must win to its banner all sections of the working masses (white workers, Negro workers, women. youth and children). By doing this, we will be uniting all our forces for the struggle and this will deliver a great blow against the system of slavery and oppression.

#### Youth Is an Important Part of the LSNR.

When we speak of mobilizing all sections of the working class, we mean the organization of the white and Negro youth to fight with us. We recognize that the youth can and will play a very important role in the struggle for equal rights for the Negroes. It is necessary to emphasize that if we expect to win the youth, we must have a special approach and youth methods of activities. The youth can be approached on the basis of sports, socials, and educational activities. At the same time they can carry on the struggle against discrimination in these fields and can be brought into the general struggles of the LSNR for its demands. Groups of the youth clubs affiliated with the LSNR are youth branches of the LSNR. These youth branches have the right on a local scale to set up youth committees in order to carry on specific activities. It is necessary to stress here that the Young Liberators that sprang up in the various arts of the country are not affiliated to the Young Liberators as a special youth organization, but must affiliate to the LSNR.

#### Methods of Youth Work

Youth groups of the LSNR can carry on many forms of activity in order to attract the youth and keep them. For example, a Young Liberator club can be divided into three or four different forms of activity. For instance, we may have a club of 50. Out of this number a certain percentage will like baseball. These can organize a baseball team. Another group likes boxing. They can organize a boxing team; and the remainder may like running. These can form a track team. Each one of these teams can carry on a struggle against discrimination in their respective fields. For example, the baseball team should be composed of both white and Negro south, and this team should put up the most stubborn struggle against the bosses' agents that deny the Negro youth the right to play on cer-

tain baseball grounds. The track team can carry on a similar struggle. The same can be applied to the boxing tem. These teams, in marching on the playgrounds can wear certain slogans, such as "Down With Race Discrimination," "For the Unity of the Negro and White Youth." "Down With Bosses' Control of Sports," etc. This club can also carry on some educational activities, can be used for the selling of the Liberator to the club members and to the members of other clubs they come in contact with, and can also be taught self-defense work. Other methods can be used in reaching the youth, such as the building of youth centers, with reading rooms, libraries, swiming pools, etc. This will help us to win many of the youth from the boss controlled organizations (YMCA, YWCA, etc.).

Our immediate task must be to work in the existing clubs and win their affiliation to the LSNR. It is necessary to stress that in doing this we must have a correct policy. The first thing we ought to do when we go to a club for the purpose of winning it over is to explain our program and develop a discussion around it by the membership. It will be our task to try to get them to agree with our program and then ask them for affiliation. This should be decided by a majority vote of the members.

If we go once, and some agree, others don't, and we think that the sentiment at that time is not ripe to take the vote, we must be a little flexible, come a second time and discuss specific instances of discrimination that the club comes in contact with tying it up with our program. This will help win the other members to us. On the other hand, if we have a group of the club members agreeing with us, and some of the others are not clear on our program, and the club has a reactionary leadership, then we must form a group of the Young Liberators inside of that club for the purpose of winning the others to our program and to carry on a struggle against the reactionary leadership. This can be applied to the YMCA's, etc. If we had a group of the LSNR in the YMCA, we would be able to carry on a real struggle against the reactionary leadership there.

We also have the task of building youth LSNR groups. These groups, however, should be built around concrete issues of struggle against racial oppression, and their main task should be to develop support for the Liberator. We must be very careful in forming groups. We must not make the mistake of taking young workers that agree with our program and forming them into a group of the Young Liberators when these young workers already belong to a youth club. Instead of doing this, we must go to these young workers' clubs, and use them as a basis for carrying on activities among the whole club,

and winning them to our program. Work Among the Children When we speak of youth work we must not overlook the role of the children. The children against oppression.

"It is time that something be done about this continual wrecking of our meetings by a few undisciplined leading comrades, and they be stopped from carrying on like this in the future.

"Therefore, I propose that, at our future meetings the following program be carried out: 'Committees to keep order and keep all seated

throughout the whole meeting. "Literature and so on to be sold only before

the meeting opens and after it adjourns. "Collection committees, large enough and ready to finish this task quickly, not to prolong mat-

ters and try the patience of the audience. "Delegates, at a conference, who register, to be given a special delegate card and only those who are delegates should be seated together-others to sit among non-delegates. Many non-delegates are always discussing and holding little confer-

ences among themselves and with the delegates when seated with them. They should be made to keep order.

"Volunteers for committees on order should be ready and also arm-bands for them, to determine their authority-J. G."

### **LENIN SAID:**

Socialists have never been and can never be opposed to revolutionary wars. The bourgeoisie of the "great" imperialist powers has become thoroughly reactionary and the war now conducted by that bourgeoisie is in our opinion a reatcionary and criminal war for the perpetuation of slavery. But how about a war against the bourgeoisie? For instance, how about a war of colonial and dependent countries, oppressed by the bourgeoisie, for their emancipation? In article 5 of the thesis of the group of internationalists we read: "There can be no national wars in the present, era of uncontrolled imperialism," Obviously this statement is wrong.

-(Lenin: The Military Programme of the **Proletarian** Revolution.)

who are also suffering from the misery of the bosses, can be won to aid the liberation movement in its struggle for freedom of the Negroes. The Negro children, in particular, are faced with oppression—Jim Crow schools, discriminated from playgrounds, etc. The bosses, on the other hand, are mobilizing the children for their support. For example, in the Boy Scouts, Girl Scouts, kindergartens, etc. Then if the bosses see in the children an important factor in helping them to suppress the working class, we must also see in the children a very important factor to help us free the workers. LSNR youth groups should pay special attention to the children in their respective neighborhoods, and help these children to organize their baseball, foot ball teams, etc. They should assign some of the members to read with the children, assign others to coach the children in their basket ball teams, etc. By doing this we will be able to bring the children to our program, and they will be with us in our demonstrations and all other battles assingt oppression.

weapon but also developed a very conscious policy of social demagogy. Our inability to sufficiently recognize the basis for and the danger of the growing fascist and social-fascist demagogy, how to maneuver and fight against it, plus our very great organizational looseness, combined with the practicing of antiquated "prosperity" methods of work, explains the danger that confronted us of neither increasing appreciably our influence, nor of consolidating it organizationally.

The last Plenum of the Party took up the struggle against social demagogy in a very concrete manner. This expressed itself in raising the question of partial demands. The Plenum also in the sharpest form, raised the question. of consolidating our influence organizationally. which means first of all, the organizational tightening of the Party apparatus and the complete elimination of the old methods of work. The proof of the correctness of the line of the Plenum can be seen in our recent unemployment demonstrations. Allowing for the serious shortcomings and mistakes (which must not be glossed over) that appear in our unemployment activities and demonstrations, we see that the recent demonstrations in spite of their smaller numbers, are on a higher level than March 6th. Our recent demonstrations have shown greater militancy and more direct political clashes with the various city governments.

Why this growing militancy on the part of the workers? This is not merely due to the fact that the workers are now more starved than before, but also because the raising of partial demands gave the workers more consciousness and willingness to struggle. The greater militancy and purposefulness of our recent demonstrations is also due to the first beginnings of an organized base and better political direction on the part of the Party.

To emphasize the point of the importance of the consolidation of our influence, we will give the following international experience. Comrade Piatnitsky in his recent pamphlet, "World Communists in Action," relates the following significant fact which will also help us to understand the events after March 6th: The trade union opposition received in the elections to factory councils of the nine biggest Berlin works. 30,066 votes in 1929, and 18,467 votes in 1930. It therefore lost 11,599 votes. The reformists received in 1929, 22.043 votes and in 1930, 24.762 votes, thus gaining 2.719 votes. The explanation given by Comrade Piatnitsky for the loss of influence applies with equal force to the United States: "If there had been understanding, a change in the methods of work, a better and more systematic organization of the campaign of exposure of the social democrats adapted to their maneuvers, the Berlin-Brandenburg party organization could certainly have carried it out successfully." The value of our last Plenum lies precisely in the fact that with the aid of the Communist International, we are learning how to adopt ourselves to the maneuvers of the bourgeoisie and social fascists, how to develop system in our organizations and to bring about a change in our methods of work.

The Org Agit Prop Conferences are called in order to check up how well the Party in

tivities of the units.

Just as the best agitational and propaganda methods will be useless without the proper organizational measures, so the organizational measures will be "frozen and lifeless," if it is not permeated with a proper understanding and clarity of the outlying tasks. There must be a Bolshevik merger of both elements, of organization and agitation propaganda. Therefore we cannot successfully mobilize the Party for the various campaigns if the membership does not understand the line and tasks of the Party. The Party resolutions and decisions would only then have value as a guide to action when they are digested and understood by the entire membership and not merely by a handful of top functionaries. We speak of unit initiative. Can there be unit initiative without political alertness and sensitiveness? We must help the Party membership to acquire it, and that means increased systematic political training.

It is therefore quite obvious that the organizational and agit prop tasks must be unified. The organizational consolidation is linked up with the increased ideological activities of the Party. The recent mid-European Agit-Prop conference points out this relationship when it states: "The turn of all of the Communist Parties towards the masses and the placing of the question of organizational consolidation of the political influence of the Communist Party as a central issue, are indissolubly connected with increased ideological organization of the Parties."

The present situation demands more and better qualified functionaries. Organizational mobility and Leninist maneuvering can only successfully be acquired if it has a theoretical foundation. The Sixth World Congress in its political resolution told all Parties that the sharpened class battles demand greater theoretical knowledge. It states in its resolution: "Because of the great complications and the present international situation, with the existing possibilities of sharp historical turns, all measures must be taken to raise the general theoretical level of the Party and its cadres."

### Workers! Join the Party of Your Class!

Communist Party U. S. A. P. O. Box 87 Station D. New York City.

Please send me more information on the Communist Party.

Name ..... Address ..... City ..... State .....

Occupation ..... Age ..... .Mail this to the Central Office, Communist | home brew,

specting labor principle" by the treacherous anti-Communist and anti-worker leadership of the U.T.W.,

But the U.T.W. is too hardboiled in betrayal to be bothered with pretending to be consistent. It said that the companies are now all right, and aren't discriminating against workers for belonging to the union. but they ask at the same time, that all who get their jobs back should fork over one dollar a week apiece "to aid those who might be refused employment because of their strike conduct."

This, of course, might be all right if the blacklisted workers really get the money. But if such characters as the U.T.W., who say that there is no discrimination in the same breath that they ask the workers to contribute to aid those discriminated against are to do the handling of the cash-then we feel sorry for those who are supposed to be "aided."

## The Big Obstacle

There is something about Harvard graduates besides the drawl that marks them for its own. But we fear that Heywood Broun and Albert Weisbord are slipping behind on the last Harvard wrinkle. We fear, in fact, that they don't know how to "Stabilize their center of gravity." That art or science, is being propagandized by another Harvard graduate, although, so it is said, it comes from Okada Torojiro, who, if you don't know, is noted as "the Einstein of Japan." And we think it fits.

The way to "stabilize your center of gravity." is, according to the great master mind, whose leading disciple is some fellow escaped from Harvard;-to "sit on the floor, spine perfectly straight, legs drawn up, hands on the knees. thumbs crossed, eyes and mouth shut, and the mind in a complete vacuum."

We fear that there is one serious obstacle to the recipe going far with Heywood Broun and Albert Weisbord. They might cross their thumbs, draw up their legs, and certainly keep their minds "in a complete vacuum"-but they cannot keep their mouths shut.

### No Sunday Closing

Maybe we are mistaken, but the last we heard of Billy Sunday, the jumping bean evangelist, was a long time ago, and had something to do with a lot of whiskey he was supposed to have surrounded in a spirit of playfulness perhaps. Like Christ and Riaboushinsky, Billy Sunday, too, has come to life again. From the Los Angeles "Times" of Jan. 26, we see that the old bird has again been dancing around the pulpit and tearing his shirt, but this time about the "Reds."

Here is what this disciple of the gentle Jesus says:

"No man has the right to wave a red flag in the United States! Boats are sailing every day and the sooner these agitators leave our shores the better! No man has a right to follow his own opinion unless his opinion coincides with the laws of the land!"

Seems like this hellfire and brimstone screeches has been taking a swig at the Fish Pond. or has tried out a bottle of Aimes Semple McPherson'
