DRESSMAKERS STRIKE TODAY AGAINST LOW WAGES!

500,000 More Thrown Out of Work; Demonstrate on Feb. 25! NEW YORK NEEDLE WORKERS

All Aid to the Striking Dressmakers!

EVERY worker, whether in or outside the needle industry, should give every support to the thousands of dressmakers that are striking today at 10 a. m., in the shops of New York and Philadelphia.

Conditions have become utterly unbearable. With hours unlimited except for human endurance and wages far below even the government estimate for a minimum living standard, the dressmakers have been subjected in addition to a hellish speed-up.

Though production per worker has been doubled by this healthwrecking speed-up, in the past year alone their wages have been cut from 30 to 50 per cent. Discharge automatically follows failure to keep up the speed. By this means, Wall Street bankers, which from behind the screen extracts a hog's profit, unloads the burden of the crisis on the workers while keeping its own profits intact.

The needle industry is especially the field for loot of Lieutenant Governor Lehman's banking concern, and Lehman is closely connected with the fake "socialist" leaders of the company union, the International Ladies' Garment Workers.

The I. L. G. W. long ago ceased to be a labor union and became an auxilliary to the employers. Only last week, the Daily Worker published the photograph of a letter sent by the employers' "Protective Association" to employers not in the association, pointing out to them the advantage of joining it, as it had "an agreement with the I. L. G. W. which prevented the calling of strikes."

So utterly rotten has the I. L. G. W. become, that in effort to save its reputation with the workers who have every reason to want to strike, fake "strikes" have been called, with no intention of even trying to lead the strikers to victory, and always with the end result of leaving the workers worse off than before.

For this reason the workers, the unorganized as well as those "organized" in the I. L. G. W., are rallying with the members of the fighting union, the Needle Trades Workers' Industrial Union, to the present strike, rank and file members of the I. L. G. W. now holding responsible posts on all strike committees and on all picket lines.

The enthusiastic action of whole shops walking out in recent days, shows the response of the workers to the demands formulated. Not the least important of these is the demand for Unemployment Insurance, a demand for which every worker should struggle and one for which all workers are urged to demonstrate on February 25th, International Fighting Day Against Unemployment.

Other demands, vital to the dressmakers and deeply touching all other needle workers, are given elsewhere in this paper. The fight around these demands concerns every worker, regardless of industry. And when "Zero Hour" comes this morning, all workers should tsand four-square behind the fighting dressmakers in their battle against the employing class.

All aid to the striking dressmakers!

Underestimation of Election Campaigns

(Statement by District Committee, C. P. U. S. A., New York.)

ACAIN there is a manifestation and demonstration of the underestimation of the importance of election campaigns in the District of New York. Two congressional seats in Brooklyn were to be filled, and the Party decided to put up candidates. Sectins 6 and 8 of the Party were instructed to get out the petitions, collect signatures and to enter the campaign. This campaign was very important at the present moment, in view of the economic crisis, the leadership which the Party has asserted in all the struggles of the workers, and the mass support that the Party could have expected from the workers,

It is true that only one week's time was allowed for the gathering of the signatures. In the 9th Congressional district, we entered new territory and therefore it was more difficult to get the requisite number of signatures (3,000); still about 1,700 were obtained, demonstrating that the workers are responding in ever greater masses to the campaigns of the Party. In the 7th Congressional district (in Section 6 of the Party) about 1.700 signatures were required, but the section did not succeed in securing

What does this demonstrate? It demonstrates: (1) that the Section Committees, underestimated the importance of the elections, particularly in this period, as a means of callying the workers. They did not throw all their energy into the mobilization of the entire Party and Y. C. L. membership in the sections and in mobilizing the assistance of the mass organizations in the sections. On the contrary, underestimating the meaning of the elections, and particularly Section 6, showing an undue optimism in regard to the signature campaign, the two Section Committees, by their failure to show the proper leadership, have kept the Party from getting on the ballot.

(2) The membership of the sections, by failing to participate in this most important campaign, again demonstrate their wrong conception of election campaigns, a conception that must be uprooted from our Party. Every election campaign is a vital campaign for the Party. Particularly now when the Fish Committee is proposing to outlaw the Party; when, even before the Fish Committee report is acted upon by Congress, the campaign against the foreign-born goes on with all viciousness, and the campaign of lynching of Negroes is intensified; when the unemployment situation becomes worse and the drive against the workers in the shops becomes sharper; when the preparations for war against the Soviet Union multiply, it is necessary manifold that the voice of the Party be heard, and the workers be given an opportunity to register their position by a vote. But above all, at this time, when the rights of the workers are being curtailed in every form-the right to strike, the right of free speech free press and free assemblage—then above all, in face of this growing fascisation, the voice of the Party and its campaign must be heard among the masses. This the membership of the section did not grasp and therefore did not respond to the call of the Party for the signature campaign.

(3) The District Committee also bears a serious responsibility in (a) not mobilizing the Section Committees and membership with sufficient energy; (b) in relying too much on the ability of the Section Committees to rally the membership for the work which had to be finished within a week; (c) in not insisting upon a day-by-day check-up, so as to be able to establish how the campaign was proceeding.

These are political and organizational shortcomings that the district, section and the membership must overcome, if the Party is to be alert to all the opportunities and possibilities of work. But above all, we can no longer tolerate undesestimation of election campaigns; we must continue the fight against the anti-parliamentarian attitude still prevalent to a reat extent in the Party.

Recognizing the seriousness of the failure to get the Party candidates on the ballot, the District Committee criticizes itself and the two Section Committees, with a sharp criticism for Section Committee 6.

PHILADELPHIA, Pa., Feb. 16.— 250,000 persons with 50,000 children That troops would soon have to be who were with "the bare necessities

"I am not an alarmist," said the mayor, "and am not overemphasizing what I know to be facts. No one wants to see martial law proclaimed here, but I know whereof I speak when I say that if the Lloyd committee should break down and cease to function because of the failure of our people to contribute to its funds for relief it would be absolutely impossible for the police force of Philadelphia to contend with the conditions which would be created.

"Up to the present a great proportion of the relief funds has been contributed by the working class. Not one-tenth of our citizens have responded, and it is a lamentable fact, but none the less true, that many of our wealthy men and women have failed to respond, while many others who are rich and well able to do so have sent contributions for insignificant sums.

"Some of them give \$100 to the Lloyd committee and then go to Florida for the winter and the poor man stays here. I say to you it is the poor man who has saved the situation up to this time. In other words, the por man is protecting the interests of the rich man because the poor man is sympa-

among dressmakers as a result of the crimination promoted by the white atrocious speed-up and wage slashing they are subjected to. Individual complaints of workers against this from the Russian workers makes the unbridled exploitation invariably results in the worker's discharge. The employers use the Interna-

Ladies' Garment Workers' Union to mislead some of the dressmakers into believing that their interests are being taken care of. Last aware of the facts that he took a compatible with membership in a es weret engaged in open revolt week the Daily Worker printed a declaration: photostatic copy of a letter which the employers' protective association sent to those bosses who were not of the national bourgeoisie of India yet members, urging them to join the association because it had "an agreesidering that he is a young worker course of the renegade Lovestone peasants. Here again I opposed the ment with the I. L. G. W. which prevented the calling of any strikes." Occasional fake strikes have been

called by the I. L. G. W. to further the illusion that they fight to raise the standard of living of dressmakers. Under its present leadership, that is, ever since the militants left it in a body to form the N. T. W. I U., the "International" has betrayed every "strike" it started, and the workers have found that their conditions have actually become wors after these "strikes." An example in kind is the strike of

Local 38, which the "International" has just sold out by calling off the strike even though the workers had been on strike for 5 months and the season is now approaching, making a quick victory probable. "The "International," of course, never had any intention of winning any demands, but the reason that the "International" called off the strike at this time is that it wants to use the strike benefits it has been paying to the tailors in Local 38 for the purpose of fighting the strike which was called T. W. I. U.

It is inevitable that workers will learn who their enemies are, and the result of the I. L. G. W.'s traitorous policy is the flocking of its members to the fight Industrial Union. Members of the I. L. G. W. are now on every picket line during the strike.

The unbelievable slavery which is the lot of the dressmakers has resulted in numerous spontaneous strikes during the last few days, or since 4,500 dressmakers in Lincoln Arena last Wednesday voted unanimously to strike for improved conditions. Two more of these spontaneous strikes occurred yesterday. One took place in 34 W. 21st St., the Victor Dress Co., which was an I. L. G. W. shop. Because the dressmakers in the shop could no longer wait for Report Details of Feb. the Strike call, they marched over to the N. T. W. I. U. office in a body

and signed up as members. Dressmakers in the Ingerman Dress Shop, 120 W. 31st St., walked out a half hour later and told N. T. W. I. U. leaders that they were ready to strike. The dressmakers are striking for

PROSTITUTE!

DRESSMAKERS! ON TO VICTORY!

By L. HYMAN

The dressmakers' strike begins today! This strike has been forced upon us by the bosses. The jobbers, the manufacturers, the contractors have been cutting the wages of the dressmakers right along; they have brought about a stave driving system that was not known even in the days of the sweatshop. The dressmakers are starving and don't make enough even in the season to drive the wolf of hunger away from

How many hours do the dressmakers work? It is hard to answer this question. We thought that 50 hours was the maximum, but we were wrong. From daily information we get we have found that dressmakers are forced to work 60-70 hours a week; and even though they work such long hours, many can't make more than \$10 to \$12 a week.

The dressmakers have to slave for the jobbers, manufacturers, contractors, and sub-contractors. Recently these parasites launched a new attack on the dressmakers: the sub-contractor turns over all the work to one worker, who hires other workers to do the job. A contractor, for instance, gives the entire pressing to one presser and he, the presser, hires helpers who work for him and not directly for the contractor. Needless to say, the conditions of these helpers are terrible. The same system prevails among the operators and cutters. One operator works with many helpers, one cutter with many assistants. Until recently we knew that operators were forcid to make a dress for 30 cents, 25 cents and even less. But now we hear that dresses are settled by the dozen. And the prices are so small, so insignificant, that if we will let this situation continue the time will not be far off when the contractors will demand a reward for the privilege of allowing dressmakers to work

Sisters and brothers, you know that we have not exaggerated a bit, we have not pictured your plight darker than it is in reality. We couldn't if we wanted to. On the contrary, your conditions are so miserable, so painful, that it is impossible to express it in words. Speak to any dressmaker you will, you will hear the same sad story: It's unbearable, the cup of suffering is filled to the brink

The dressmakers have been crushed by the agents of the company union. The company union has betrayed them, misled and sold them out. The company union carried through a fake strike last year, a strike that organized the bosses into associations and disorganized and demoralized the workers. The company union torks hand in glove with the associations to worsen the conditions of the dressmakers. All the company union demands from the associations and the bosses is that they force the dressmakers to pay dues and taxes-and then

they can do with the workers whatever they

All this is the real truth. But the dressmakers have got to understand that by cursing the company union or by pouring out their hearts to one another, the situation will not be changed. Moaning and sobbing will not help the dressmakers. The only remedy against long hours, miserable wages, against the sweat shop sys tem and against inhuman treatment—is for the dressmakers to abandon work in unison. Remember, your lot lies in your own hands! Fighting unitedly, the dressmakers can put an end to their misery and suffering.

Sister and brother dressmakers, the bosses and their agents of the "International" are trying to intimidate you with all kinds of threats, warning you not to strike. Remember, they are all your enemies. Out of your sweat and blood they have become rich. And the longer you let them exploit you the richer they become and the poorer you get. The bosses and their agents tell you that when you strike you lose wages. But how many weeks wages do workers lose in the time when they are unemployed? How much do they lose because of wage cuts? A dressmaker must now work 3 weeks in order to earn what he used to make in one week.

The appetites of the bosses are insatiable. Even the meagre wage they pay to dressmakers for their drudgery is too much for the bosses. They are trying to exploit and degrade the dressmakers still more. Will you act like hopeless creatures and let your bosses exploit you

You dressmakers were the first to raise the banner of revolt against inhuman conditions in the needle industry. You were the first to establish a union, in 1909, when the cloakmakers and the mens clothing workers were still unorganized and slaved under the most appalling conditions. You have been struggling long years, both against the bosses and against the Schlesinger company union, and through unity, courage and self-sacrifice, you once forced the bosses to establish the 40-hour 5-day week and more or less tolerable conditions. Will you look on idly and see yourself sinking deeper from day to day into this new abyss?

No! We can't believe it! We are sure that the dressmakers will respond to the call of the Industrial Union and go on strike fighting now as they did in 1909 and in the subsequent strikes.

An end to slavery! No more misery and starvation!

An end to mistreatment and insults fom the

bosses and their foremen! The hour of struggle for bread, for organization, for freedom, has struck!

Down with the sweat shop conditions! Dressmakers, answer the call of the strike! Not a wheel shall turn during the strike! On to struggle! On to victory!

Forward, Dressmakers, to Strike and Victory!

By I. WEISSBERG.

THE hour has now approached when you are called upon to stand up and fight against

slavery and starvation! Too long have you been paid starvation wages by your jobbers, manufacturers and contractors! Too long have you suffered unbearable speed-

up and long hours! Too long have you allowed yourselves to be terrorized by the I. L. G. W., the agent of the

You cannot and will not permit them to reduce you to the state of beggars!

True to the fighting tradition of dressmakers. you will rise like one man and in united ranks, march forward in the struggle for recognition of the Industrial Union, guaranteed minimum wages, a 40-hour 5-day week, equal pay for equal work for young and old, men and women, white and Negro dressmakers.

Dressmakers, unite your ranks, all of you, members of the I. L. G. W. and of the N. T. W. I. U., organized and unorganized. Join hands, all of you, in the struggle to abolish misery and establish decent conditions!

Under the leadership of the Needle Trades Workers' Industrial Union, dressmakers will strike and win better conditions for themselves. Under the leadership of the Needle Trades Workers' Industrial Union, dressmakers will strengthen their forces for the struggle for week work and the seven-hour day, five-day week. Long live the Needle Trades Workers' Indus-

trial Union! Forward dressmakers, to strike and victory!

To All Members of the "International"

(I. L. G. W. U.) COMPANY UNION

On Wednesday, February 11th, thousands of dressmakers met at Lincoln Arena and unanimously voted for a strike in the dress industry! Sisters and Brothers:

your bosses warn you against the coming dress They are trying their best to persuade you to scab when the dressmakers, under the leadership of the Needle Trades Workers' Industrial Union, will go on strike. They are telling you that you had a strike last year and as a result of that strike sweat shop conditions were abolished and union conditions established.

Sisters and Brothers! Give a moment's thought to your lot! Think how many hours a week you are forced to work! How much you earn! How the bosses treat you!

Those who are still employed work long hours, Saturdays and Sundays, at a time when thousands of dressmakers are unemployed. Experienced operators are compelled to work for \$20 a week. There are hundreds of dress shops where operators earn as low as \$15 a week. Pressers who used to make \$50 and \$60 a week cannot make more than \$25 or \$30 a week, at the present scale of prices.

The cutters who considered themselves the aristocrats of the trade, cannot make a living. To each experienced cutter is added a few as sistant cutters, mostly young boys who are paid \$15 or \$20 a week, and they turn out as much work as skilled cutters. Because of this, many cutters are out of a job. When one does get a job, he is compelled to work below the scale. Every time the boss brings a new "style" to settle he offers a lower price. In many shops settling of prices is entirely out of "style," the boss pays as much as he pleases. And what are the officials of the "International" doing about this situation. Do they help you get better prices? Do they fight for any discharged worker? You know from your experience that this is not the case! The officials of the "International" are not concerned with your welfare,

They are the friends and the servants of the bosses whom they help to make worse your

Do you remember how the bosses, their papers, the City Mayor, the Police Commissioner, Tammany Hall politicians—all of them helped to force you into the "International" in the 1936 fake strike? They did all this because they knew that with you belonging to the "International," they will be able to rob and exploit you to their hearts' content.

Those of you who, at that time, still imagined that the "International" was a workers' union, and that their officials really meant to organize the trade and to improve the conditions of the workers-have you not convinced yourself since, that it is all a fake? Don't you see now that your conditions became, and are becoming worse from day to day?

We, dressmakers, appeal to you, sisters and brothers. Join the great army of the striking dressmakers! You are suffering just as much as we are. Let us organize into a real fighting union. Let us fight for higher wages, shorter hours, better treatment in the shops, and for real union conditions.

We must put an end to our suffering and misery!

Long live the unity of all dressmakers!

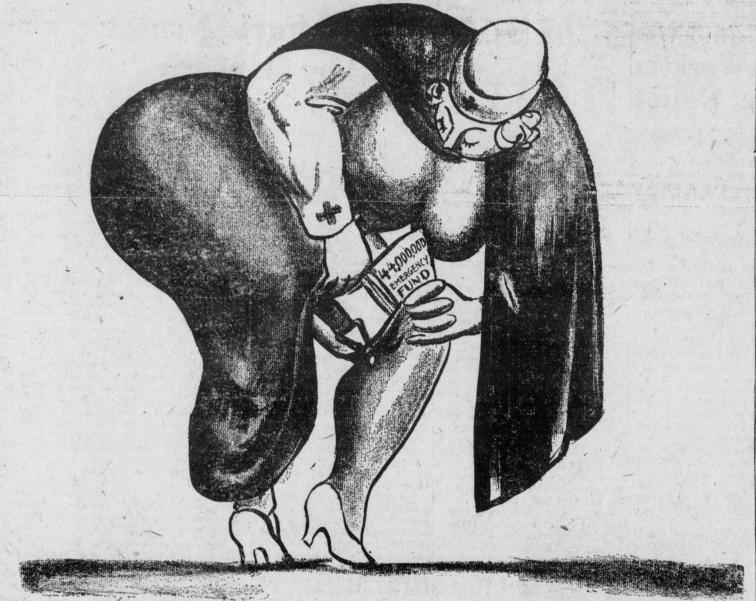

Forward to the struggle for a better living of all dressmakers! Dressmakers, quit working on the day of the strike!

Don't let anyone mislead you into scabbing! Strike together with us for our common interests and welfare, and to build a powerful Industrial Union!

Our strength lies in our unity!

United we will fight and be victorious!

PARTY LIFE

Conducted by the Organization Department of the Central Committee, Communist Party, U.S.A.

How to Organize the Working Women

WE are publishing a letter to the Women's De-partment in which the comrades from Pittsburgh raise two important questions and the answer given to them in order that this shall be helpful also to other districts where cerainly the same problem is on the agenda:

"Here in the city in the Negro section we have many contacts with Negro women. They have already joined the unemployed councils. One of the Negro women has been elected a delegate to Washington. The city at the present time has stopped giving any relief, they said that they would give relief in about two weeks. Many of these Negro workers were depending on these two or three dollars a week which they got and now that they do not get anything at all, they are facing starvation still more. I have had a meeting with a small group of Negro women and they brought up the question of going to the city council to demand food. They are ready to go in a group and demand that the city give some relief. I have arranged with them that if we get a large group of women we will go to the city hall to present our demands. What is your opinion of this method?

Another question which I want to be clear on is whether it is a proper method to form Women's Unemployed Committees in the different parts of the city who will direct the work among the women in that part of the city."

1st Question. We believe that this is a burning issue around which you can mobilize not only the Negro women but also the white men and women. You must take this matter up immediately with the local Council of Unemployed and together with them mobilize the workers in the city of Pittsburgh to go to the city hall demanding immediate cash relief. This is not merely a question of Women's Dept. nor should it be limited to a "large group" which you can organize. The district committee and the council of unemployed should make this one of the outstanding struggles for "immediate relief" a mass demonstration-of women, children and men-special dramatization necessary.

2nd Question. It is correct to form Women's Committees in the various councils of unemployed-industrial and neighborhood councilsthe purpose of these committees is to help the councils reach and enroll unemployed women as regular members. The women's committees are to help formulate special women's demandsraise the proper slogans and help the councils find special methods of approach to attract women. The direction of work and struggles of the unemployed women in the neighborhoods must be under the direction of the neighborhood unemployed councils.

The Coming Dress Strike

STATEMENT OF THE DISTRICT COMMITTEE OF THE YOUNG COMMUNIST LEAGUE, DISTRICT 2

THE District Committee of the Young Communist League, District 2, supports the statement of the Communist Party, pledging full support to the coming dress strike. In the needle industry, the conditions of the young workers are wretched. Many young workers are forced to work 50 and 54 hours a week for wages ranging from \$10 to \$15. Over ten thousand young workers, many of whom are Spanish and Negro, are employed in the industry as shipping clerks, floor girls, assistant cutters, operators and finishers. As young workers, and since they are unorganized they suffer severe exploitation. Many are only working part time now for decreased wages.

It is because of these conditions that the field is ripe for the building of the Needle Trades Workers' Industrial Union and for the smashing the fake International Ladies Garment Workers company union of the bosses that has betrayed the interests of the workers time and time again. This fake International Ladies Garment Workers' Union must be fought at every step and wiped out from the entire dress industry. The young workers in the Needle Trades must play a leading role in this respect. The Young Communist League calls upon all

young workers and their working class youth organizations to rally to the support of the Needle Workers Strike to improve their conditions. Every young worker must realize that this strike is not only a strike of the needle workers but it concerns the entire working class. All young workers' organizations must get behind this

creation of a real militant Youth Section that will struggle for the every day needs of the young workers in the shops. The popularization of the Youth demands among the young needle strikers, namely: No discrimination against young workers; equal pay for equal work; full payment for continuation school; minimum wage of \$20 a week; no discrimination of the Negro young workers; must be of the utmost impor-

In this strike the children of the strikers must also be brought into the active support of the strike by participating on the picket line, plan-Pioneers must be in the forefront of all these activities.

included in this industry. It is in this field that the revolutionary union has given the greatest opportunity to develop its work and to build up the solidarity of Negro and white young workers in the strike.

up to now it has been negligent in carrying on and in leading work among the Needle Trades Youth. However, this strike must find the League prepared to help and give leadership to the young workers in the strike and despite all difficulties to help in the building up of the revolutionary unions and the Young Communist League among the Young Workers.

strike not only with moral support and helping on the picket line but also by financial support. Many thousands of young Negro workers are

International Women's Day

(The following article was written on March 4, 1921, and printed in the supplement to "Pravda" No. 51, of March 8th, 1921, on International Women's Day.)

By V. I. LENIN.

THE fundamental task of Bolshevism and of the Russian October Revolution is the drawing into politics particularly of those who are most exploited under capitalism. They were oppressed, defrauded and robbed by the capitalists both under the monarchy and in the democratic bourgeois republics. This oppression, this cheating, this robbery of labor by capitalists was inevitable as long as there existed private property in land, factories and mills.

The essence of Bolshevism, the substance of the Soviet power, consists in the fact that while exposing the lies and hypocrisy of bourgeois democracy, while abolishing private property in land, factories and mills, the state power is concentrated in the hands of the toiling and ex-

These masses take politics into their own hands—that is, the job of constructing a new society. The task is difficult, especially since the masses are beaten down and crushed by capitalism, but there is no other way out of wage slavery.

It is impossible, however, to draw the masses into politics without drawing into it the women, for the female half of the human race under capitalism, is doubly exploited. The woman worker and peasant woman are oppressed by capitalism and in addition to that, even in the most democratic of the bourgeois republics they remain in the first place without equal rights with man (for the law does not give them equality) and secondly- and this is the main pointthey remain in "household slavery," "household slaves," crushed by the most petty, dirty, most difficult, most deadening work of the kitchen, and of the individual household economy

The Bolshevik Soviet Revolution cut the roots of exploitation and inequality of women deeper than dared any other party or revolution in the world. According to our Soviet Law, not a trace is left of the inequality of woman with man. The hideous, hypocritical inequality in marital and family rights, the inequality in relation to the child was completely destroyed by the Soviet power. . This is only the first step towards the emanci-

pation of women. But not a single one of the bourgeois republics even of the most democratic dared to make even this first step. They did not dare in fear of "holy private property."

The second and main step is the abolition of private property in land, factories and mills. With this step and only with comes the full and real emancipation of women, of their emancipation from "household slavery," through the transition from petty individual household economy to the vast socialized economy.

This transition is difficult, because it means changing the most deeply rooted, habitually hardened and ossified, "order of things" (in truth of deformity and savagery, and not of "order"). This transition, however, has begun. The work has been started and we have entered on a new road. On this International Day of Working Women

in all countries of the world, at innumerable meetings of women workers, greetings will be sent to Soviet Russia which has begun an immeasurably difficult but universally great and emancipating task. There will be heard brave calls not to lose spirit in face of the fierce and brutal bourgeois reaction. The "freer" and more "democratic" a country is, the more does its gang of capitalists rage and the more brutal it is against the workers' revolution; as for example, the democratic republic of the United States. But the workers in the mass have already awakened. The imperialist war definitely awakened the sleeping, backward masses in America, in Europe and in Asia. The ice has been broken in all parts of the world.

The emancipation of the peoples from the yoke of imperialism, the freeing of working men and working women from the yoke of capitalism is moving ahead irresistibly. This task has been started by tens and hundreds of millions of working men and working women, by peasantsmen and women. Therefore, this great task, the freeing of labor from the yoke of capital, will be victorious throughout the entire world.

Not Exactly a Good Record

What is called the "official newspaper of the Central Labor Union" of Philadelphia, the "Labor Record." which announces as if it were not something to be ashamed of before workers, that it is "Supporting Policies of the American Federation of Labor," has done "Red Sparks" the honor of devoting the whole front page to us on February 13. We now reply to the favor in We gather that the editor don't like us. In

fact he refers in a most disparaging way to "Red Jorge." We are called a Soviet agent, and it is alleged that we are "rearing our insidious head among the wage earners of this country." It is further recommended that we "be driven across the Atlantic clear to the 'Land of the Soviets." Which would cimply tickle us to death. It seems that our broadcasting, like that of

some unidentified "Soviet station" (which is alleged to have mixed up the "Holy Father's" Latin speech, though why it should be rendered any more unintelligible than Latin we fail to see), interfered with the Pollyana propaganda of the "Labor Record."

More definitely, what the illiterate editor of the "Labor Record" calls our "degradatory" remarks anent the blessings conferred by catholic priests in New York on automobiles parked along the street, is used a subject to divert the minds of any worker stupil enough to believe the "Labor Record," from more serious affairs of the labor movement which that AFL paper wished thus to cover up. Therefore, the whole front page is devoted to an editorial entitled: "The Red Strikes a Blow Beneath the Belt." And we are to be "driven across the Atlantic," and so

Evidently this is altogether too blessed and sweet a country for us to live in. Unfortunately for the pleasant theory, however, one has only to turn to page 2 of the same edition of the "Labor Record," to be disillusioned. There are 13 stories on page 2, and the subjects dealt with are as follows:

1. "Drastic Rate Cut Hits Navy Yard Work-But the editor don't say for them to hit back. Only an "insidious" guy like us would do 2. A divorce story about an "ungrateful count-

3. A New Orleans dispatch that workers of the American Sugar Refinery there have had their wages cut \$3 a week. The "Labord Record" has no comment, no advice, and the A. F. of L.

has a "no strike" policy. 4. The editor seems tickled over the O.K. the "Davis Wage Bill" got in a Senate Committee, the bill providing "prevailing wages" for government work. "Prevailing wages" are not union wages, but both Bill Green and the "Labor Rec-

ord" appear vastly pleased. 5. An item says the carpet workers are being 'reorganized" in Philadelphia. The editor gives no opinion of why or for what they should organize. So we presume that whatever their desires may be, the A. F. of L. is organizing them

to sell them out as it did at Danville. 6. A prominent place is given a picture of a starving farmer's family in Arkansas. No, not in the Soviet Union. Toiling farmers there don't starve. That is reserved now for freeborn Amer-

7. "The Boston Typo Union Aids Idle Members." Why they should aid "idle" people is a mystery. That, as Bill Green knows, is one of those horrible things called "a dole." But it seems better to the "Labor Record" that the employed printers cough up that cash than that corporations be taxed and war funds given to

Unemployment Insurance. 8. "Immigration Drops." But in spite of it so do wages and so does employment, though the "Labor Record" don't mention these latter facts in that connection.

9. We are told that Kansas farmers are paid 12 cents a dozen for eggs, the lowest price since 1886. The "Labor Record" says not a word about it, but Philadelphia workers who try to buy eggs are not paying 1886 prices.

10. "1930 Construction Slips to New Low Lev-Cheering news, eh? But construction in the Soviet Union is beating all records, though the "Labor Record" is mum as a clam about

11. It is told that the "cold storage and fresh erg acts" are being violated wholesale in Harrisburg, Pa. We can well believe it, but we don't see w'vy we should therefore sing the Star Spangled Banner. 12. In Massachusetts, we're told, "The Slump

Fails to Cut Prison Labor Profits." Yes, boys, it's sad, but only in the Soviet Union are prisoners paid union wages. 13. "Church Groups Seek Mooney Freedom." Well, they've been seeking it without finding it

for a long time. And the A. F. of L. has not even done that, as Mooney himself declares. Mooney actually says that: "Mooney was saved from the hangman's noose only through the mass protests and pressure of Russia and the rest of the world. The case has always been and must always be a vital

part of the general struggle between the workers And the effort of the "Labor Record" to make it the business of the churches and not the business of the working class, is typical of the A. F. of L. leadership, the function of which

Tom Mooney says: ". . . is to fool the workers and make them amenable to the employers."

And precisely that, is the reason for the "Labor Record" of Philadelphia, in splattering its editorial-"The Red Strikes a Plow Beneath the Pelt," over its front name. By this we may again he doing so with the "Tohon Possed" editor In fact, it is doubtful whether there is any place else to strike.

Dairo Ditahag

From name 19 of the N. V. Weening Post of February 11. a feeture story on the Dor S which New York Society is pulling off, contains the following tidbit:

"Mrs. Norman Thomas, wife of the socialist candidate for mayor in 1930, placed several of her entries in cocker spaniels. Her Blue Waters Gerry was second in novice dogs, with Blue Water Winning Ways also second in novice bitches. Mrs. Thomas' Rowcliffe's Regina was

The unobservant reporter of the Post forgot to mention that Norman Thomas was not only "socialist" candidate for mayor in 1930, but wa also entered in 1928 for the presidency of the
