Treason and Corruption in The Scottsboro Case

demonstration of treason and corruption. Treason on the part of the Negro leadership, the petty-bourgeois intellectuals of the National Association for Advancement of Colored People (NAACP) and the Negro church ministers, who refuse to fight for the lives and liberty of the nine framed up Negro boys and children in Scottsboro, but fight instead against the Scottsboro Defense Committee, and its supporters, the International Labor Defense (officially representing all defendants and their parents) and the League of Struggle for Negro Rights which first made a national issue of the case after the Communist Party brought it before the country. Flagrant dishonesty, trickery, and ideological corruption on the part of the white "liberals" of the Civil Liberties Union, the "Nation" and the "New Republic," and their associates of the So-

Consider the Negro preachers! From Chattanooga comes the news that the Interdenominational Ministers' Alliance of Negro Divines has issued its first statement on the Scottsboro case. This is not a defense of the victims of legal lynching, but a vicious attack against that defense, which declares that "if the movement" for saving the boys "is successful it will tear the South asunder and destroy the peace and harmony existing for many years." These Negro preachers want nothing but the "peace and harmony" of lynch law which "for many years" has burned alive hundreds of Negro workers, the "peace and harmony" of the electric chair to which are sentenced the 9 boys, 3 of them mere children of 14 years and less, on the framed up charge of "rape" against two notorious white prostitutes! If this is not treason, then that word has lost all its meaning!

Consider the NAACP! Forced by popular indignation to interest itself in the case, it indulges in the most flagrant lying statements to the press, directed against the defense organizations and lawyers approved by the defendants and their parents in a formal document attested in the presence of the Warden and his deputy in the prison, signed before the prison Notary Public. It appeals to the public for funds for the case, but it is spending its money to fight against the defense in the case. It names as its legal representative the same lawyer who in the first trial directly assisted in the legal lynching! And in the paper, "The Crisis," official organ of the NAACP, not one single word is printed about the whole Scottsboro case! If this is not treason, then Judas was an angel of light!

Or consider the gentlemen of the Civil Liberties Union and the Garland Fund Committee! These eminent and ethical gentlemen, who utter slanders about the Communists to the effect that we divert money collected for defense purposes to Communist propaganda, they themselves have diverted the Garland Fund to the opposite purposes to that for which it was intended. In disposing of \$100,000 set aside for the struggle for Negro rights, they refused to allot one cent of it to the League of Struggle for Negro Rights, which actually organizes the struggle (32 city conferences this week and next for Scottsboro defense), but give it instead to the NAACP which uses the money to fight against the Scottsboro defense, and to make anti-Communist propaganda! And in addition, we are informed, they are writing letters to more honest liberals, urging them not to give money to the Scottsboro Defense (recognized by the defendants) but to give it instead to the NAACP which fights against the defense! If this is not corruption, then Tammany Hall is a hall of pure justice and equity!

And consider the Socialist Party! Its paper, "New Leader," mentions the Scottsboro case only to utter slander against the defense, to support the NAACP, and to help the southern lynchers. On the same page it prints the picture of its leader, Heywood Broun, and his vulgar clownish writings-the same Broun who, just before entering the Congressional elections for the Socialist Party, wrote in the N. Y. Telegram, that he would not attempt to enforce in the South the XIV and XV Amendments to the Constitution which nominally grant citizenship to Negroes! This is the same Socialist Party which, in the South, openly supports the "Southern system" of dealing with Negroes, the system of Jim-Crow and lynch-law! Treason, lies, slander, and corruption are all combined in this outfit which disgraces the name of "socialism"!

Negro and white workers! In times like these, when there are only days and weeks to fight for the lives of the Scottsboro boys and children, you can learn more in one days about the real character of your leaders than in ten years of uneventful times. These are the days of testing! Learn from these facts to know who are your real friends, leaders and comrades! Learn to know who are your enemies and the agents of your enemies!

Rally with tenfold solidarity and fighting energy to the United Front of struggle to save the Scottsboro boys! Support the League of Struggle for Negro Rights and the International Labor Defense! Build lefense committees in every neighborhood and city!

Hail National Youth Day!

as Memorial Day. It will be a day of parades of soldiers and ex-soldiers, a day of whipping up war spirit. It will be used to the utmost this year to stir up a war spirit against the only country where the workers and farmers rule, the Soviet Union.

The militant young workers of the United States, under the leadership of the Young Communist League, have set aside May 30th and 31st. as National Youth Days, as days of struggle against bosses' war and against the conditions of the youth under the system of private profit. This should be greeted by every militant worker. The entire working class must give National Youth Day its heartiest support.

The bosses and their government hope on May 30th to get the minds of the American workers off unemployment at home, off wage cuts and lynching. By shouting about the mythical "Red Trade Menace," the boss class is now trying to make the unemployed forget that they are hungry, the employed that their wages are being cut, the Negroes that a Scottsboro lynching massacre is being "legally" planned, the youth that they are being groomed to be cannon fodder in a new war. This year, being a time when their entire capitalist system is shown up in its rotten nakedness as a system of starvation and decay the bosses will try harder than ever to convince the American workers that the way to get out of the crisis is through a war, primarily a war against the Soviet Union.

Above all will the bosses use Memorial Day as a day to win over young workers into the Army and Navy, the National Guards and Citizens Military Training Camps.

National Youth Day, on May 30th, however, will be a day on which all the struggles of the young workers against militarism and war, against unemployment and wage cuts, against boss class terror and lynching will be reviewed. The struggles of the Rhode Island textile workers now going on, the struggles of the Pennsylvania and Kentucky miners, in all of which the youth are in the forefront-all these struggles will find their reflection in National Youth Day.

National Youth Day sets a new tradition for the American working class. Although it is particularly the day of the toiling youth the entire working class must support it, must make it a glorious high point in the struggles of American labor.

The Communist Party, which struggles in the interests of the entire working class and leads the struggle of the workers on National Youth Day. The struggles of the young workers are the struggles of the entire working class; the struggles of the working class find the young workers in the front ranks. The main slogan under which the Na tional Youth Day will be held, "Not a Cent for Militarism; All War Funds to the Unemployed!" is a slogan of the entire American working

No Funds for Next Few MICHIGAN JOBLESS Issues; "Daily" Faces MARCH ON 4 ROUTES Suspension; Rush Aid

The Daily Worker appears today only because an emergency appeal to the workers of the New York district produced enough to issue the Daily for one more day. But will it come out tomorrow and the next days? The answer must be given today by you who are reading this paper and by thousands of other workers and friends of No financial campaign that the Daily the Daily Worker throughout the country. Worker has conducted has been so slow in starting. The response from the districts has been wretched. Despite the fact that they received their instructions and coupon books in advance, little if any work was done. The result: today, the sixth day of the campaign, we are several thousand dollars behind the \$1,000 a day that the Daily must absolutely get to continue to live. All districts are behind their schedules, all districts are responsible for the fact that today we don't know whether we'll have enough money to get out tomorrow's issue.

During the first three days only three out of a total of 18 districts responded. Not a cent from Districts 7 and 8, for example, which next to New York must raise the largest amounts. Since then the improvement has been far below what it should be.

We have yet to receive \$1,000 on a single day—the sum that we should have been getting from the very beginning of the drive.

Comrades, the fate of the Daily Worker is in your hands. At the moment this is being written no paper with which to print tomorrow's issue, has been delivered to us. The paper company demands that we pay cash in addition to part of the large debt we owe them. You, the thousands of workers in the shops and factories, are the only ones who can pay them! You are the only ones who can save the Daily and keep it alive and fighting! You must act today and tomorrow and the next day until July 1!

DISTRICTS GET ON THE JOB! ORGANIZATIONS SWING INTO ACTION! WORKERS RUSH DOLLARS IMMEDIATELY! OPEN EVERY SOURCE OF FUNDS! More than \$1,000 a day (to make up for the slow start) must pour into the office of the Daily Worker until July 1! Delay may prove fatal. THE DAILY WORKER MUST BE SAVED TODAY! The Times says: "We have been in negotiation with the Industrial Council for weeks, declared Mr. Wolff. We suggested installation of the forty-hour week to take up the slack in unemployment and were willing to put the shorter work week into effect without adding and financial burdens to the industry, the pay being for forty hours' abor. The employers refused."

The members knew nothing at all about these negotiations.

GRAFT AND GANGSTER

(CONTINUED FROM PAGE ONE) lared to tell the truth. The fact is they were Chicago cops, acting for the police department and the Capone gang-

At the head of the police department on this outstanding day in the history of Chicago crime and graft, known as the St. Valentine's Day Massacre, February 14, 1929, were Commissioner William F. Russell and Deputy Commissioner John Stege. Russell later re-Stege became head of the police department and led the assault against numerous unemployed demonstrations, commanding the same gangstercops in viciously beating up unemployed workers, Negro lemand jobless relief. He Gets a "Transfer."

On February 16th Major Silloway, eputy prohibition administrator for the Chicago district, stated he was convinced not only that policemen with their official uniforms and

badges participated in the massacre, but that they even used a regulation detective car equipped with gong and the Hoover government transferred Silloway to another district and, in sheer chagrin, he resigned. Origin of Gangsterism. We must go back somewhat to roots and its developments. It has a integral parts of the capitalist governments, and the rise of the powerful modern gangster machines, the ever-spreading system of graft, vicerings, dope-peddlers, booze-runners must be traced in the history of the growth of American capitalism.

The capitalist system, with profi and the exploitation of the workers a sits motive force, is the breeding ground of the "racketeers," gangsters, grafters and gunmen. One of the leading Wall Street publications, the Commercial and Financial Chronicle teering is part of the capitalist system, the same system which grinds profits out of the workers. The American Background.

European capitalism grew out of the feundations of feudalism and through a struggle between the rising capitalis class and th efeudal landowners. In America capitalism developed with out the fetters of feudalism. As Frederick Engels put it, it developed without any kindly disposed feudal background." Competition reached its highest expression in early Amercan capitalism, with the resulting brutal, violent struggles.

In a letter written in June 3, 1886. Frederick Engels, one of the founders of Marxism, described the origin of capitalism on the American conti-

"VILNIS" REMAINS A COM-MUNIST PAPER

Publishing Company in Chicago overwhelmingly defeated an attempt to force a withdrawal of Vilnis from Communist influence and direction. The opponents of the Communist policies of Vilnis had prepared for this meeting for months. They had at their disposal a majority of the encumbent Board of Directors. They had access to and appealed to all the anti-Party elements in the publishing company

Since the existence of the Communist Party, Vilnis had been a Communist paper. There was never a particularly intense struggle for the political control of Vilnis until this time. The masses of the militant Lithuanian workers in America had accepted the leadership of the Communist Party and of the Communist International. They entrusted the Party with the direction of their papers.

In the face of this fact the Menshevists and social-democratic elements in their ranks did not dare to challenge the Communist leadership. But recently a change occurred in the situation A most severe economic crisis sharpened the class struggle all along the line. This sharpening struggle encouraged the anti-proletarian elements in the ranks of the Left Lithuanian workers organizations to a more open and a more outspoken hostility to the Communist Party. They began to organize in order to break the influence of the Party.

They are especially enraged about the confidence which the Lithuanian workers have placed in the Communist Party by placing their two daily papers, Laisve in Brooklyn and Vilnis in Chicago, under the guidance of the Communist Party. Through this confidence these papers have become firm spokesmen of Communist leadership among the Lithuanian working masses in America. The capitalist class doesn't like that. The agents of the capitalist class in the ranks of the workers therefore must struggle against the Communist influence. Like the counter-revolutionary instigators of the Kronstadt rebellion raised the slogan: "Soviets Without the Communist Party," these enemies of the working class in the ranks of the Lithuanian workers raise the slogan "A Communist Policy Without a Communist Party.'

False arguments of all sorts were raised demagogically-legalistic, financial, personal. But the political issue was carefully concealed.

Lately also those jackals of the battlefields of the class struggle, the Lovestoneites, have entered the field. They watch for every renegade of the working class and for every renegade movement in the ranks of the workers, in the hope that these movements may replenish their rapidly depleting ranks. Pursuing this policy they circulated the lying statements of the opposition in the ranks of the Lithuanian workers, added some lies of their own and pre-

pared for some anti-Communist maneuvers. Yet the ranks of the Lithuanian workers | capitalism

THE recent shareholders meeting of the Vilnis | are firm. Even thoough some rank and file workers were temporarily misled by demagogy, in the end they reaffirmed their confidence in the Communist Party and in the Communist International. When they realized that the struggle was not aiming at or springing from legalistic, financial or personal grievances, but was directed against the Communist Party and the Communist International, they deserted the opposition leadership. They refused to enter a struggle against the Party.

Some weeks ago this conflict led to an attempt of the anti-Party elements to wrest from the Communist Party the control and direction in the Laisve Publishing Association in Brooklyn. This attempt was decisively defeated.

Now the battle was repeated in Chicago in the Vilnis Publishing Company. In the recent share holders' meeting in the Vilnis, terrific efforts were made to defeat the influence of the Party. Every conceivable petty shopkeepers' argument was used to mobilize "property rights" against political principles. Every enemy of the working class was mobilized. But the revolutionary workers were victorious.

The victory of the Communists in the publishing association was registered even before the decisive votes were taken. When Pruseika, the ideological leader of the opposition, introduced his anti-Party speech with a pro-Party declaration, he acknowledged the defeat of his endeavor to win a majority against the Party.

The shareholders meeting with 463 present among whom representatives of 41 organizations, elected the Communist Mizara as chairman. Unanimously it rejected the report of the anti-Party board of directors majority and accepted instead the report of the Communist minority. Only two shareholders openly dared to oppose this line. But they left before the vote was taken. The meeting also passed decisive resolutions demanding of the newly-elected board of directors to follow the political guidance of the Communist Party and to maintain Vilnis in the ranks of the revolutionary press.

The routing of the opposition was so thorough that even its organizers and leaders did not dare any more in the end to vote against the resolutions which endorsed the revolutionary policies of the Vilnis and which elected a revolutionary board of directors. This "submission" of Pruseika and his lieutenants was hypocrisy and cowardice combined.

But the workers will not be misled by this. They will consolidate the ranks of the Lithuanian labor organizations behind the Party and will strengthen the voice of the revolutionary Vilnis. Workers who had been temporarily misled will leave their misleaders and will help to make of Vilnis an ever-stronger bulwark against the enemies of the working class and ever more efficient leader in the struggle against

"Fighting" Imperialism Behind Closed Doors

By HARRY GANNES.

BEHIND doors closed to workers a conglomeration of liberals, sky pilots, pacifists, Musteites, betrayers of the 9 Negro youths in Scottsboro, together with such renegades from Communism as Bert Miller, will meet on June 5th at the New School for Social Research to build up a new organization to aid the bosses to befuddle the workers.

Invitations are being sent out on the stationery of the American Civil Liberties Union under the name of "Conference for Joint Action." "Joint action" for what? The letter says such matters as "peace," "civil liberty," "rights of aliens," "minority races," "repression," "imperialism and militarism" will be discussed.

The purpose is to establish a milk-and-water liberal federation that will attempt to fool the workers into believing that the liberals are against imperialism and war; for the defense of the rights of Negroes, against repression and for the protection of foreign born.

Why this sudden interest in so wide a range of subjects among the usually slow-moving selfsatisfied liberals? And what is the cause for such great secrecy? The letter inviting the carefully picked liberals and social-fascists insists that: "The sessions are to be open only to delegates from organizations and individuals who register in advance."

Whom do they fear? Certainly not the capitalist authorities who heartily approve of misleading the workers, of confusing the masses on the real struggle against imperialism. The Musteite fakers with their liberal angels want to keep the revolutionary workers from knowing the extent of their betravals.

Why talk about "minority races and against repression?" Who is carrying on a nation-wide fight on every front for Negro rights? Is it the Civil Liberties Union, or the National Association for the Advancement of Colored People, both of whom sign the call for this "Conference for Joint Action?" No! It is the League of Struggle for Negro Rights and the International Labor Defense. It is the revolutionary workers who are rushing into the breech on the capitalist terror front.

The American Civil Liberties Union is dominated by Roger Baldwin, recently expelled from the Anti-Imperialist League for his pro-Gandhist and pro-imperialist support.

At a meeting of the national executive committee of the Anti-Imperialist League Baldwin said: "I supported Gandhi until he betrayed the revolution. Now I am against him."

A Correction

In the statement of the League of Struggle for Negro Rights, published in Saturday's Daily Worker, entitled "For a United Struggle to Save Nine Scottsboro Boys," a printer's error occurred. A quotation from a statement by the N. A. A. C. P. was printed as "The N. A. A. C. P. has already instructed its lawyers and co-operated as far as possible . . ." etc. The correct text as given to us by the League of Struggle for Negro Rights reads: "The N. A. A. C. P. has already instructed its lawyers to co-operate as far as possible . . . " etc.

faker (up to the point of betrayal). Then, to maintain his reputation as an "anti-imperialist" switches in time to ward off the full force of his betrayal. For this reason Baldwin was expelled from the Anti-Imperialist League. He replied by saying he would rally the liberals into a new organization to compete with the Anit-Imperialist League.

Baldwin and his fellow liberals who are becoming so "extremely militant" in view of the constant decline of the stock market, are objectively among the best supporters of American imperialism. Baldwin's purpose is to organize a group of liberals, socialists and others who will act as a counter-force to the growing leadership of the workers and peasants in the struggle against imperialism in the colonies.

The Conference for Joint Action will support the Gandhiites in all colonial countries, strengthening the imperialist front against the masses of workers and peasants.

Not content with this form of aid to capitalism in its dire moments, these liberals are putting up a buffer organization to the real united front of Negro and white against lynching. It is no accident at all that at this moment, when the Scottsboro United Front Conferences are spreading throughout the country. under the leadership of the League of Struggle for Negro Rights, that the liberals of the League for Industrial Democracy, the Civil Liberties Union, and the NAACP meet behind

closed doors-not to fight lynching but to put up a bulwark against those who are carrying on the struggles against lynching and for Ne-

The main point of discussion will be "peace." The liberals love to wallow in phrases about 'peace." It is behind the mask of "peace and disarmament" that Hoover prepares the workers for slaughter. It is under the slogan of "peace" that MacDonald slaughters the Indian masses, carries on the maneuvers in behalf of British imperialism, and for war on the Soviet

The closer war comes, the louder the überals shout "peace" to keep back the militancy of the workers. Much in the style of Baldwin's shouting for Gandhi "until Gandhi betrayed the revolution," so the liberals shout for peaceuntil war comes, and then they stab the workers in the back.

The liberal petty-bourgeoisie who during the present crisis are rapidly drifting into the fascist camp, through their schemes for "planning capitalism," are joining the ranks of Ham Fish and the red-baiters, but under different colors. Fish comes out openly and rants against the Reds. But Baldwin and his crew do it under a pale pink flag. Under the guise of "peace," "against repression," "in behalf of workers, aliens and minority races," they carry on an attack against the revolutionary workers, against the Anti-Imperialist League (which Fish attacks); against the International Labor Defense (which is attacked by all agents of the white terror); against the League of Struggle for Negro Rights (which is anathema to the Southern ruling class).

Baldwin is "uniting" the liberals and socialfascists against the revolutionary working class in the interest of imperialism.

Proletarian Mutur' Right Way and Wrong Way Is Benetit Society Convenes

By MAX BEDACHT.

IN a few days the International Workers Order will have its national convention. This proletarian mutual benefit society has established itself firmly in its one year of existence. It is now fairly on the way to become what its masse implies—International in composition and international in ideology, proletarian in composition and proletarian in aim.

A real international proletarian mutual benefit organization is an absolute necessity in the United States. The capitalist interests of the United States have steadfastly defeated every effort to establish social insurance. While it is necessary that the workers continue and increase their struggle for the establishment of social insurance, they are also forced to create through mutual support that indispensable help which the capitalist state refuses them.

The capitalist class exploits this circumstance for itself. Proletarian mutual benefit societies should really be monuments of shame to capitalism which denies support to workers in need although its whole system depends upon these very workers. Proletarian mutual benefit societies should also be organizations which organize and support the struggle for social insurance. Finally, proletarian mutual benefit societies by their very necessity of existence, should demonstrate and fill the need for united prole-

The existing mutual benefit societies unfortunately, with the exception of the International Workers Order of course, present an entirely different picture. In these organizations capitalist leadership succeeded in covering with mantles of patriotism and of mysticism the obvious purposes of proletarian mutual support in the face of the capitalist efforts to starve the workers. Most existing mutual benefit societies, though overwhelmingly proletarian in composition, are not monuments of shame to capitalism, but towers of it strength. Though built on the need for mutual support because of the refusal of support by the capitalist state, the bourgeois leadership makes these organizations supporters of the capitalist state. The various mutual benefit societies composed of foreign born workers of specific nationalities, are made by their bourgeois leaders into auxiliaries of their fascist or semi-fascist home governments. Instead of defending the interests of its members, these members are misused to follow the dictates of their respective national embassies or consulates. The American mutual benefit societies, such as the Eagles, Elks, Odd Fellows, are hothouses of democratic illusions and are incubators of patriotic poison. In these organizations the bosses and the upper strata of the working class rub shoulders and feed the illusion of equality, with the help of mystic rituals and other poisonous nonsense the proletarian membership of these organizations is blinded to the fact that after all they are forced to spend their money through these organizations because the capitalist state refuses them help in case of sickness or death, that is just when they or

their families need it most. The International Workers Order rejects all mystic nonsense and combats all patriotic poison. It bases itself openly on the necessity of the working class to band together for mutual help and for united struggle for social insurance. It proclaims openly that the purpose of its organization is not to bring all the South Slavic or the Negroes or the Finnish or the Jewish workers into one organization to feed nationalism, but to bring all workers irrespective of nationality and color together to feed their stomachs in time of need and to fight together for their interests. The International Workers Order aims to build up a proletarian mutual benefit society in which all workers, white and black, native or foreign born pool their strength for mutual support as well as for united defense of their interests.

At the same time the International Workers Order recognizes the language difficulties of foreign born workers and the necessity to make possible for every worker intimate participation in the life of the order. For this reason its organizational structure provides for language groupings with foreign language correspondence, agitational material and even language organs and the utmost language autonomy compatible with the necessary organizational centralization. The coming convention of the International

Additional comment by Council Tluffs: We are growing rapidly because we are taking up things that interest the workers. We have an executive committee of 14. Our young members aged 15 to 20 years, had a very successful party the other night. Comrade Klein comes here from Kansas City and teachers us in a class. Geo. Papcun helps us very much. We are behind in winning Negro and foreign born workers but we are correcting this. We are going out into the country May 18 to speak to farmers. We are organizing a baseball team. We are beginning the work of organizing, metal. railroad, food and laundry workers into unions. who belong to our branch, many of whom are employed. We have 40 per cent women in our branch. They take militant part in our activities. We had 75 children in our May Day parade and 125 stayed out of school. We take up problems of the employed workers. We forced a building contractor to give a five cent increase in wages and to reduce hours from ten to eight.

Additional comment by Tacoma: Workers will not attend meetings and carry on the work. Though this is most highly industrialized town in Northwest, we have very few class conscious workers. Our branch members migratory and are leaving town for summer. Little chance of doing work now until cold weather comes again. Had no TUUL members until yesterday when we organized a carpenters' group. Plenty of poverty exists and we have more unemployed here than last winter when we had about 10,000. Since May 1, a pulp mill, a saw mill and the Milwaukee railroad shops laid off another 1,000 workers. I am alone in the work

Our Comment: Possibilities for work among the unemployed are seemingly much more advantageous in Tacoma than in Council Bluffs. Yet in Council Bluffs we have a mass movement, and in Tacoma activities are going to be suspended for the summer. Tacoma makes the error of basing its movement upon itinerary workers, instead of upon workers and families living in Tacoma. Council Bluffs receives aid from its district headquarters, Tacoma does not. Comrade Klein, in going from Kansas City to Council Bluffs, travels six times the distance between Seattle, district headquarters in Wash-

Uncover Starvation and Misery

The capitalist press, the agents of the ruling class

has been publishing less and less news about unemployment. It hides the starvation of the unemployed workers' families. We must constantly expose the miserable treatment of families of the unemployed by the city governments and charity institutions. We must uncover all cases of starvation, undernourishment, sickness. We must publish these cases in our press, in the Daily Worker, in Labor Unity, tell them at all workers' meetings. Unemployed Councils should publish bulletins to inform all workers of the starvation and misery of the unemployed.

The Class Role

of Mosquitoes

Concerning the noisy Mrs. Grady, who asked us, through the latest Trotsky organ, the "Saturday Evening Post," to "See Russia and die laughing," Comrade Zell writes that-

"In the great forward surge of humanity (the Soviet advance to socialism), Mrs. Grady is just about as annoying and as inconsequential as a mosquito buzzing about the head of a scientist at the critical moment of his most important

Well, comrade, she is an insect, all right. But then mosquitoes, according to our experience, not only buzz, but also bite. And nobody should get the idea that the Soviet gave her the air merely for "a joke about Stalin." Russian workers, and foreign ones, also, make jokes about Stalin every day, and nobody cares. Give the G. P. U. credit for having the goods

on her and her side-kick, who was calling for "American coal operators to organize against Soviet dumping" before he was ten minutes over the Soviet border on the way out. Even the article she wrote in the "Saturday

Evening Post' had far more serious things in it against the Soviet Union than the joke about Stalin. For instance, she said that she went to the laundry there, but found that the laundry workers were on the Five-Day Week and that the place was closed, it being one of the days

Now anyone who knows beans about the Five-Day Week knows that it is introduced along with the "continuous work week"; that is, onefifth of the workers are off each day, but the work goes on every day, with four-fifths of the working force always on the job. It is plain that Mrs. Grady was merely lying, and not joking about it, either.

However, even the joke she told, about an imaginary peasant who saved Stalin from drowning, and when he found out who he was asked only that Stalin not tell anybody that he, the peasant, had saved him-this joke is an old one.

Indeed we had used that same joke on Mus solini a week or so before Mrs. Grady's article appeared. Some Esperanto enthusiast had sent it to us, translated from an Esperanto paper. We did not know that it was an old joke, sprung on successive famous men for unnumbered centuries. But we doubt that the Soviet Government takes such measures as deportation against people because they tell jokes that are too old. No, it was no joke that got Mrs. Grady invited out of the Soviet Union. There was a counter-revolutionary rat in the Grady family,

Mark Twain's story about the Prince and the Pauper has nothing on that of the American swindler, John Factor, who cleaned up a cool \$7,000,000 from ambitious Britishers who thought that the Prince of Wales was an endorsement of the worthless stock Factor was selling them.

Factor, once a barber, left the honest toil of trimming whiskers, and, after various shady operations, landed in Europe, more particularly, he landed at Deauville, France, where the Casino was running full blast. He said that on August 16th, last year, he won \$650,000 playing chemin de fer, a game with a French name that means "railroad." The Prince of Wales came around and Factor struck up an a quaintance. He says:

"I talked with him for some time. He asked how I won the \$650,000 and I told him in detail the plays I had made. When we got up from the table he took me out to the bar and bought

me a drink." So it seems that gullible British bourgeois who think their prince is the soul of rightcousness, heard that he was pally with Factor, and so

bought Factor's stock. Kinda' funny, eh! Incidentally, we note that when this \$7,000,000 swindler was pinched in Chicago, at the demand of the angry British, his defense attorneys were partners of U. S. Senator Glenn. Funny, too, isn't it, that such attorneys never rush forward to defend "reds" or strikers!

A Useless Life Logically Ended

Ralph Barton, an artist whose "work" was especially well paid because it didn't mean a darn thing, committed suicide the other day. Here is what he said about it:

"I have run from wife to wife, from house to house and from country to country in a ridiculous effort to escape myself. I did it (killed himself-Jorge) because I am fed up with inventing devices for getting through 24 hours every day and bridging over a fev months periodically with some beautiful, ar tificial interest, such as a new gal who an noyed me to the point where I forgot my own troubles."

Such is the reason that a princely paid artist prostitute for capitalist journals gives for doing the dutch. He had no purpose in life, so it was quite logical that he should stop living.

A revolutionary artist, one which is devoted to the world-wide movement of struggle and emancipation of the working class, never has to worry how he is to manage to occupy the 24 hours, to "escape from himself" as an unbearable companion. If one wants to know why Barton killed himself, just look at Barton's work, look at the pictures he drew.

The Statue of Deportation

Dear Jorge: - Upon a recent visit to the se called "Statue of Liberty" I noticed a contemptible demagogic inscription on one of the pillars of this great mute edifice, typical of U. S. capitalist hypocrisy. It reads as follows: "Keep, ancient lands, your storied pomp!" cries

With silent lips, "Give me your tired, your

Your huddled masses yearning to breathe free, The wretched refuse of your teeming shore Send there, the homeless, tempest-tossed to me,

I lift the lamp beside the Golden Door." She "lifts her lamp," these days, to show the way out, as per order of Secretary Doak. Indeed, there ought to be an "Exit" sign on her upraised mitt. But while we're being poetic this evening we are reminded of another one by someone whose name we don't recall. It said:

"They were wist men who have set you With your face toward open sea; They would never dare to let you

Gaze at what the streets might be!"
