The campaign to raise the \$35,000 by July 1 that is absolutely necessary to save the Daily Worker and safeguard it for some time in the future has been on for exactly a week, with what results? Despite our appeals, despite our warnings. only \$2.166 contributed thus far. Instead of \$1,000 a day-the minimum needed-we have

The appearance of the Daily Worker yesterday and today has been made possible only by the response to long distance telephone calls sent to Chicago, Cleveland, Detroit, Philadelphia and Boston. But what will happen today? Will there be a Daily tomorrow? Will there be a Daily during these coming critical weeks when the workers of this country need it so badly in their struggles?

Comrades, have you ever tried to picture the

situation if the Daily Worker should be forced to suspend? For over seven years the Daily Worker has been on the firing line of the class struggle. For over seven years it has been the voice of the American working class-the only English-language workers' daily in the country. It has fought every battle of the workerscan you imagine the great struggles in the mining, textile, needle trades industries without the Daily? Can you imagine the fight to free the nine Scottsboro boys without the

Daily? Can you imagine the fight for the Paterson five, for Tom Mooney, for the Imperial Valley and Centralia boys without the Daily? Can you imagine the struggle for social insurance, against starvation, against imperialist war and for the defense of the Soviet Union without the Daily?

Can you imagine any struggle of the working class without the Daily Worker leading it, organizing it, fighting all the time, hated and feared by the Fishes. the Wolls, the Hillquits,

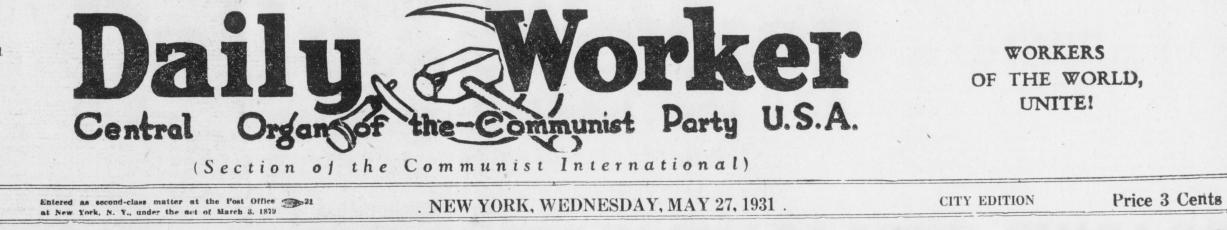

the Schlesingers, the John L. Lewises and every enemy of the working class?

Yet today, at this moment, the seeming impossible-the elimination of the Daily Worker from our struggles-stands at our door. Not only at the door of the Daily, but as we told you yesterday, threatens many other Communist papers which will be forced to suspend if the Daily goes under.

Action is needed! So far the response to our appeals, though it has improved in the last York City!

HUGE SCOTTSBORO CONFERENCES IN CHARLOTTE, CHICAGO

Michigan Workers and Farmers Greet Jobless State Hunger March On Lansing

The Masses Can Free Tom 5,000 OUT **Mooney and Other Political** Prisoners

TOM MOONEY'S letter published on this page today must be answered by every class conscious worker, not with words but with action.

The action must be the action of masses, and it must organized with the Bolshevik genius and determination which today are the only means by which concessions can be wrung from the unwilling hands of the ruling capitalist class. To say this is to say that it must be organized by the Communist Party. It was organized Bolshevik pressure in the midst of the great Russian revolution and the world war-organized by the Party of Lenin in the city which is now called Leningrad-that saved Tom Mooney from the gallows in 1917. With such determination, such firmness, and such appeal to the masses of the working class, Tom Mooney can be saved from his present living death in San Quentin prison.

Tom Mooney is but one man, but in the person of that one proletarian class fighter is symbolized the whole legion of proletarian class war prisoners who are now being tortured and slowly killed in prisons of capitalism throughout the world. And when we say that Tom Mooney can be freed by the pressure of working class masses, we mean that not only his liberty but the liberty and lives of thousands of others can and must be successfully fought for by the working class.

We will take exception to one word in Tom Mooney's letter-the word "apathetic," and that word, perhaps, is not his deliberate choice. The masses of wage workers are not apathetic, today, but are fast moving toward a tremendous upheaval. The greatest world economic crisis of all history has broken upon all capitalist countries with profoundly disturbing effect. The economic crisis is not being overcome, but is growing deeper with each month and more destructive to capitalist stabilization. Even the most stubborn capitalist economists now admit that the economic depression will continue for many months. Fifty million workers in capitalist countries are unemployed, and countless other millions ployed in colonial countries. The capitalist system has no way

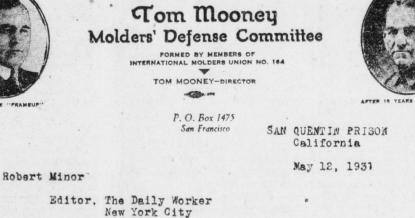

Masses Turn Out to Cheer, Welcome the Hunger Marchers

BULLETIN.

OWOSSO, Mich., May 26 .- The Detroit section of the Michigan Hunger March was forced back by the entire police force of Flint, the General Motor town. Gas and cement trucks blocked the road and the police were fully mobilized with guns and black jacks against the marchers. The marchers arrived at Owosso, Michigan, demanded and received food from the city administration. The marchers will reach Lansing at 7 p. m. tonight.

. . . PONTIAC, Mich.-Over 5,000 auto workers, including many unemployed, demonstrated at City Hall in a send-off for the State Hunger March on Lansing. The workers showed their militant support of the demands for immedi-

Dear Comrade:

Fully realizing that the only hope of obtaining my freedom is thru united action by the worker masses, in this and other countries of the world, I am calling upon that militant minority to give now their very best efforts in my behalf.

The Comrades of the Workers' Party well know that the major task is to awaken the apathetic masses of the wageworkers and arouse in them the spirit that will lead to action. So I am confidently relying upon these comrades to stand by me and give service to the very limit of their powers, throughout the period of the impending hearing in Sacramento. I hope they will bring that proceeding to the attention of every worker with whom they can come in contact - and will tell them all about it. I know they will make every possible effort to gain wide distribution of the pamphlet - "Labor Leaders Betray Tom Mooney" - and see that every copy of it is kept in constant circulation among the people who will read it, and will then take an active part in all efforts for a United Front of labor's forces in this fight.

CHARLOTTE, N. C., May 26 .-- A fighting alliance of southern white and Negro workers to save the lives of the nine Scottsboro Negro boys being railroaded to the electric chair on a fake charge of rape, was established here Sunday with the presence of Negro and white delegates from 19 organizations at the local United Front Scottsboro Defense Conference. Among the organizations represented were 3 churches, 3 mill locals, 3 Unemployed Councils, and the Communist Party. The confer-

of attempting to overcome the crisis that does not include (besides imperialist war and intervention against the Soviet Union) a sharp internal war of starvation, wage cuts and intensified slavery waged against the working class.

The unemployed movement, with its increasing organization and its hunger marches, together with the now rising tide of strike struggles against wage cuts and speed-up, are an expression in this country of the growing revolutionary upsurge throughout the world. Those who do not know this are even more blind than the capitalist politicians, who see it. If a hunger march in Greenwich, Connecticut, storms the city hall with a demand for food, and yet carries a banner saying, "We are not reds"-this only means that they are on the way to become reds. The powerful effect upon the whole world of the success of the building of the new socialist society by a nation of 160,000,000 people in the Union of Socialist Soviet Republics is corroding and breaking down the slavish attitude of the hungry masses of capitalist countries toward their own once-feared and once superstitiously worshipped capitalist slavery.

The enslavement of Central Europe under the terms of the Versailles Treaty and the Young Plan prepares the ground for a mass movement of European workers against the Wall Street imperialism which is now torturing the bodies of thousands of working class political prisoners in its dungeons, American imperialism which imprisons the admittedly innocent Mooney and Billings, which condemns the Imperial Valley strike leaders to 42 years of living death for organizing unions, the American imperialism which condemns to the electric chair nine innocent Negro boys of ages from 13 to 20 as a blood sacrifice to its Jim Crow capialist domination

It is for the Communist Party to organize and lead this action in this country, and without the slightest doubt it will be taken up by the communist Parties of other countries where the masses of workers are experiencing almost as directly as we American workers the brutal, bloodsucking corruption of American imperialism.

The time is favorable for such a mass drive. The working masses are ready for such a campaign, and becoming readier every day. Not to overcome apathy, but organize and increase their militancy is the task of the workers' revolutionary Party.

'Tom Mooney's exposure of the betrayal of the working class by the Judas bureaucracy of the American Federation of Labor is being translated into many languages and is already being circulated in large quantities in Soviet Russia and in Germany. It must be used here in the land of its origin to spur the struggle on against the fascist agents of the capitalist class and against the capitalist rule itself. Revolutionary workers, with true proletarian instinct, do not think of such a campaign as unassociated with organization. Organization must be one of the distinctive features that raises this campaign of today far above those campaigns of the past which have been wide in propaganda, but so weak in organized action as to fail always in their objective. Together with the fight to save Mooney, Billings, the eight strike leaders of Imperial Valley, Schmidt, and MacNamara, the Centralia prisoners, the Scottsboro Negro boys, and the many hundreds of others, and as an indivisible part of it and the first condition for its success-must be the energetic building of the revolutionary trade unions for which the working class is already more than ripe, and the courageous and persistent pushing forward of the revolutionary minorities in the old unions which are under fascist A. F. of L. leadership. The building of the International Labor Defense, which is the most direct and one of the main instruments for the struggle for the workers' class war prisoners, must be pushed ahead at full speed.

Concessions from the capitalist ruling class are never won by tearful pleas, nor by the babbling of those who would "reform" capitalism; reforms and concessions from the capitalist class and government are obtained only by revolutionary class struggle led by the enemies of capitalism, not by its reformers.

Workers! Fight and organize to free Tom Mooney and all of our lass war prisoners!

The endless-chain process is, of course, the best for this purpose: advocating always that each reader shall pass on to another the pamphlet which he himself has read, and the promise be exacted that each recipient will do likewise, after reading and taking note of the pamphlet's contents. And of course it goes without saying, that the more pamphlets there are in circulation. the greater will be the united power of that endless chain of pamphlet-readers; the more will be their good understanding of this case, with all its implications - and the more effective will be the work of each reader.

SAGINAW ELECTS 12 DELEGATES FOR BIG MICH. HUNGER MARCH

Hold Enthusiastic Meetings: 85 Join the Local Branch of the Unemployed Council

Workers Calls Upon the Poor Farmers to Join Struggle Against Starvation Conditions

Dear Comrade:

We just held two fine meetings of the Unemployed Councils at the Italian Hall at Hess and Their Streets. The first meeting was held on May 14th and the second on May 21st. Altogether we got 82 applications for \$8 a month to families of 5, and membership into the council.

These meeting were very enthusiastic. Many of those present asked why we did not come before and tell them that we were organizing the native citizens. They said that they had never heard about the unemployed council before and were wild to organize

Jersey Club Uses John Reed's Name; Jimcrow Negroes

Jersey City, N. J. Dear Comrades

I would thank you for a small space in your columns to say a few vords.

After reciving a letter from the John Reed Youth Club, inviting me to their meeting on Friday. May 8. in Jersey City, I went there and was told by the secretary that I could not come in because the house was too fine. He said that he did not think it was such a fine house and was sorry, but I would not be allowed to attend the meeting. Hoping this will be printed.

-A Negro Comrade.

Editorial Note .- Beside this letter, the Daily Worker has been informed by comrades that the John Reed Club of Jersey City has also refused to sell tickets for their affairs to Negroes. Tacoma) plus a special order of 17 from Portland is responsible for a gain of 24 in District 12. Seattle.

District 1, Boston, has the biggest loss of the week-124. This is caused by cancellation of special order of 150 for Pawtucket for duration of textile strike (settled Wednesday), relieved by gains of 18 and 15 from Providence and Worcester respectively. District 6, Cleveland, after showing increase of 89 last week, comes forward this time with a setback of 91 due to a cut of 50 from Barberton, 70 from Akron, 50 from Cleveland; an increase of 75 from Cincinnati is the only bright spot in District 6 this week. District 16, South is next with a loss of 50 from Charlotte. Cuts of 15 from Duluth and 10 each from Superior and Minneapolis make

Two hundred thirty-nine new subs and 216 renewals were received during the last week. There were also 111 drops from the subscription list.

Plan \$35,000 Drive.

District 7. Detroit, has appointed a District Committee to manage the "Daily" Drive for \$35,000. "Plans have been made," writes S. C., District D. W. Rep., "to visit all organizations subscribers and sympathizers throughout District 7."

We quote below from a letter pertaining to the Campaign sent to all the Units by the "Daily Worker" Committee for District 7. The points listed are excellent directives and should be studied carefully by other districts.

"The Section Daily Worker Agent." reads the letter. "must see that each Unit has a functioning D. W. Agent, that regular meetings are called and that check is made and reports received on progress of each Unit during Drive. The Section D. W. Agent should accept full responsibility and organize committees for Section socials, picnics and open air meetings. Leading comrades in the Section should be assigned to visit the mass organizations to take up collections and draw them into the Drive. Serious efforts must be made to form Daily Worker Clubs consisting of sympathizers and regular readers of the Daily Worker. The whole drive in the section should be conducted on the basis of revolutionary competition with other sections. Quotas should be worked out for each Unit.

"Every Unit member must have a coupon book and be active selling coupons. Street Units should concentrate on building up neighborhood routes and the Shop Units on getting workers in the shop to become regular readers. Members of Unemployed Councils and other fraternal organizations, also close sympathizers should be drawn into the Drive to obtain subscriptions and donations. Socials and picnics should be arranged and also special open air meetings held to sell and get contributions for the Daily Worker. Unemployed workers should be approached to sell the Daily from store to store, house to house and at factory gates. Special concentration should be made in the proletarian (Negro) neighborhoods to build the Daily Worker by laying stress on the struggle against unemployment and the role of the Daily Work--24 er in the Scottsboro case."

The Daily Worker Must Be Saved ---Raise the \$35,000 Fund!

By I. AMTER.

A GAIN the Daily Worker faces suspension. Again the Daily Worker must appeal to the workers all over the country to come to its support. Again the enemies of the Daily Worker, the Communist Party and the revolutionary workers smile in derision, for they hope that the Daily Worker will be lost to the revolutionary movement. Hamilton Fish, Matthew .Woll, William Green, Norman Thomas and the capitalist class and its lackeys rejoice when the revolutionary workers, Negro and white, and the poor farmers, face the danger of losing their most effective mouthpiece.

The economic crisis is becoming worse. The heads of twenty-four leading banks of the world including the United States, meeting at Basle, Switzerland on May '20, 'declared 'that "they wish there was some definite mechanism that could be set up to meet the present crisis but their hands are tied." 'The big bankers of the world can find no way out of the crisis. In London, the representatives of all the leading nations of the world meet on the wheat problem, and can find only one solution for the agricultural crisis: cut down the acreage, limit the production and the exportation of wheat, so that the price of bread will rise. The railway companies of this country want to "help" the crisis, by boosting freight rates, which will increase the cost of living

On the other hand, wages are being slashed. Matthew Woll and his brother traitor and fascist, William Green, who attempted to sell out the workers in November, 1929, when they promised Hoover that there would be no strikes cuts, while the manufacturers promised there would be no wage reductions, now admit that they have already taken place in 75 per cent of all industrial establishments!

Unemployed Starve.

The unemployed continue to starve. The U. S. and state governments categorically refuse to grant unemployment insurance. Some of the proposals are for "industrial insurance," left to the discretion of the employer, and with restrictions that will exclude the present unemployed and many still employed. Charity and the other forms of relief have been cut off, flophouses and breadlines have been closed, evictions take place by the thousands every day. The cost of living and rents do not decline. Children continue to starve. The Negro workers and poor farmers who are always discriminated against, are discriminated against even in the race against hunger.

No Crisis in Soviet Union.

At the meeting of the League of Nations, Litvinoff, representative of the Soviet Union, declared that the only country in the world that is not suffering from the economic crisis, but on the contrary is rising rapidly and has long left behind it the pre-war level of production, is the Soviet Union. This is not welcome news to the imperialist countries, which are struggling for power, some of them for existence, facing the economic crisis in their own countries. The struggle for power is sharpening the antagonisms between the United States and Great Britain, Italy and France. But the antagonisms between Communism and capitalism are still sharper. All the nations represented at the League of Nations, when Litvinoff proposed a peace policy as against the capitalist war policy, had to recognize the unique position of the Soviet Union, which as a country of the workers and peasants alone can offer peace.

Peace will not be accepted-for capitalism is bent upon war to get out of the crisis-even though the capitalists know that the next world war will result in turning all Europe into Soviets.

In this crisis, with the imperialists preparing for war, the capitalists want to destroy the revolutionary movement. The attacks of the U.S. government through the Fish Committee clearly show the way: Smash the Communist press; smash the Communist Party and revolutionary unions: terrorize the Negro and foreign-born workers (Michigan foreign-born registration); smash the revolutionary movement.

Daily Must Be Saved.

The answer of the workers is: You will not smash the Communist press; you will not smash the Communist Party and revolutionary unions; we will fight against your terror methods against the Negro and foreign-born workers! You cannot smash the revolutionary movement! Our first act of solidarity and class unity will be to save the Daily Worker, our revolutionary mouthpiece. The danger signal of the Daily Worker will spur us on-the \$35,000 fund will be raised. In the shops and mines, we organizations we will form committees to raise funds. We will mobilize the workers, employed and unemployed, and they will go among the workers and collect the dimes, quarters and dollars from willing hands to save the Daily Worker.

Hoover, Fish, Woll, Green, Norman Thomas, Hillquit and all the capitalist enemies of the working class have smiled too soon: The Daily Worker will be saved to continue the fight for organization and struggle against the economic crisis, against the danger of war against the Soviet Union, for the overthrow of capitalism!

will be raised. In the shops and mines, we will form committees to raise funds to save the Daily Worker! In the unions, clubs and mass National Youth Day ---- Next Step PARTY to the Spartakiad Conducted by the Org. Dept. Central Committee, Communist Party, U. S. A.

By I. AMTER.

O^N every field of cudcavor, the workers face two enemies-the capitalists and their tools, the socialists and A. F. of L. bureaucrats. In the struggle that the workers are carrying on against the efforts of the crisis-unemployment, Lan, lynching of the Negroes, the workers find wage-cuts, speed-up, persecution of the foreignenemies speaking different languages, but lighting together against the interests of the working class. Thus the capitalists openly and brutally attempt to suppress the militant working class organizations. The liberals, reformists and socialists attempt to speak the language of the workers, being forced to this position by the growing demands of the workers in struggle. But the aim is the same: to make the workers accept the capitalist system with its misery, starvation and suffering for the workers and poor farmers.

The socialists have another function in the struggle: to keep the workers away from the struggle. They have the same policy as the bureaucrats of the American Federation of Labor, even though at times they speak a different language. In all the strike struggles, their policy is to keep the workers from putting up a real struggle, from taking the leadership into their own hands. Another function-and a very important one-is to keep the workers from uniting in their struggles, to expel the militants and keep the rest under the heel of the reactionary leadership, who are the tools of the capitalists.

000 participants are expected from all countries of Europe, United States, South America and Canada.

As against the Spartakiade, the Lucerne International is arranging an international meet at Vienna at the same time. And one year not be granted visas. Nevertheless, about 100,later will occur the bosses' Olympics, the expression of the bosses' plans for the working classfurther suppression and training for war against the Soviet Union (provided war has not already been declared against the Soviet Union, owing to the brilliant success of the Five-Year Plan which the bosses fear so much)

The Labor Sports Union, section of the Red International, is organizing the revolutionary athletes into the revolutionary sport organizations, as opposed to the American Athletic Union, and other patriotic sports organizations. It aims to offset the bosses' shop and neighborhood clubs, which serve to fool the workers. The Labor Sports Union is preparing for the Spartakiade. Beginning with May 30 in Passaic, N. and ending in New York City on May 31, National Youth Day will be the occasion of the selection of the delegation to represent the revolutionary athletes of the United States at the Spartakiade.

Elimination events will be features and a large for months and no food in the house. 2. Mrs. Costello, who is sick and can't find delegation will be selected, which will sail for work, is being thrown out of her home by the Berlin on about June 20, with a send-off affair

Be-Kind-to-Heroes Week!

At Albany, the other night, Harold Nielson, a veteran, was trying to speak on the street:

"I'm a disabled World War veteran and my family has been five generations in this country. The Constitution guarantees us the right of free

speech and peaceful assembly." The meeting was broken up by the cops. "Get

a permit!" they said. Another World War veteran. Stanley Sinkowitz, was found somewhere reading a book entitled "Christianism and Communism." He was unemployed. So Judge Regan told him:

"So you are an honorably discharged soldier of the United States. Well, you ought to be ashamed of yourself for reading such literature on Communism. Fifteen days in jail!"

Just try to get these two veterans all excited about the "Soviet tyranny"! ! !

Learn something from this, you boys who will be asked to-nay! forced to!-fight the next war! And turn out for National Youth Day, May 30

Mr. Morrow Will Save God

Anyhow, such is the only hope for the Almighty, according to the opinion of John Barrett. You may not know John Barrett, but he is an important guy. Doubly important, we may say; since like Dr. Jeykel, Jekyel, Jyekel, Jykel (Oh, heck, how do you spell it?) and Mr. Hyde, John Barrett is two persons all by himself

He is prominent as director of the Pan-American Union, the organization of the Monroe Doctrine, in which all the Latin American republics are supposed to be organized as "equals," but with a Yankee imperialist "directing" them

On the other hand, Mr. Barrett is on the payroll of the U.S. State Department-doubtless learning how the Latin Americans shall be "directed." But on the occasion of which we speak, Mr. Barrett was talking as director of the Pan-American Union. He might upset diplomats if he spoke as an employe of the U. S. State Department.

•We have to make this distinction and take space doing it, because Mr. Barrett brought in a certain trio; that is, Hoover, Mr. Dwight Morrow, and God. Mr. Barrett favors the renomination of Hoover, he told the Newark Kiwanis Club in a speech there May 21.

But if Hoover is not to be a candidate, then only Mr. Morrow, who tamed the Mexican capitalist class to eat out of Yankee imperialist hands, can fill the bill. And it's a big job which Barrett lays out for Dwight Morrow. He says:

"The future of our civilization, of our form of government, yes, of our God, depends upon the solidarity of the Western Hemisphere. If the program and plan of Russia are successful, it may mean the end of our system of government, of our civilization and of our God.'

Well, that's a large order, to save God, whose very existence now seems to rest on the frail shoulders of Dwight Morrow, partner of Ja Pierpont Morgan.

It seems that the speech of Litvinoff at Geneva, and the growing resentment in capitalia Europe against American dumping, has caused this revealing speech of Mr. Barrett, who, being a second-rater among diplomats, blurts out what his superiors are thinking. And they are thinking that they are in a hell of a fix. More,

DURING the World War over 400 organizations were formed to fix prices in various retail and wholesale trades, particularly in the

The previous articles in this series dealt

with the rise of gangsterism and graft early

in American history. J. P. Morgan, the elder,

hired 450 gunmen in the Erie railroad fight

in 1869. Gangsters became a part of the officialdom of the A. F. of L. bureausracy. In Chicago the cops committed wholesale murder for Al Capone, though the facts were hidden by the capitalist newspapers.

Chicago.

Graft and Gangsters

Both capitalist newspapers were the school for

food industries, such as vegetables, milk, butter, eggs, etc. The capitalists who were interested in forcing their prices up made wholesale use of gangsters in the process. Independent dealers and sellers were bombed or murdered. Others were terrorized into becoming part of the pricefixing organization. Once in, of course, they became rabid in their desire to wipe out all other competitors through the use of gunmen.

A new name was developed for this type of business. "racketeering." Soon after the rise of the American Federation of Labor, the misleaders developed the use of gangsters and gangster methods against the rank and file. At first this method of terrorizing the workers and keeping the A. F. of L. unions within the bounds so desired by capitalism to protect the "American institutions" which Samuel Gompers loved so well, was developed on a small scale.

It came into full flower after the war with post-war building boom, and now is an integral part of the entire A. F. of L. officialdom. is part of the equipment of the socialist leaders in the trade unions where they hold forth, such as in the Amalgamated Clothing Workers, the furriers and the International Ladies Garment Workers Union, in reality a company union manned by socialists and gangsters.

Skinny Madden

William Z. Foster in his book, "Misleaders of Labor, traces the growth of gangsterism in the American Federation of Labor Unions. He tells of the rise of "Skinny" (Martin) Madden, the earliest of the gangsters and racketeers to enter the trade union field. Skinny Madden laid the basis for organized graft in the Chicago building trades, collecting graft from union members and building contractors alike. Madden was followed by Simon O'Donnell who taught contractors how to add 20 per cent to their total bill for graft to the union gangsters who controlled the building trades unions.

In the Boss Political Machines

All these leeches in the trade union movement spread out to broader fields. The capitalist politicians found them valuable allies, and alliances were made with both the republican and the democratic machines.

This type of gangster-union leader in the A. F. of L. reached its highest expression in the person of "Big Tim" Murphy. During 1917-18, Murphy turned his hand to politics. He was a democratic representative in the Illinois State Legislature. Previously in 1912 he had gained his gangster experience for the Hearst newspaper in Chicago, in the war between the Chicago Tribune and the Chicago Examiner, a Hearst paper, for control of the morning newspaper field. The Chicago Tribune, to keep out its rival which had just entered the morning field, hired an army of gunmen to kill news wagon drivers or newsboys who dared to sell the opposing paper. Hearst retaliated by employing his own army of gunmen. It was in this battle that "Big Tim" Murphy learned the same. Gangsters flocked in and were imported.

"Big Tim" Murphy Arrives

many of the present day leading gunmen in

Tim Murphy., like Rothstein of New York, among other things, turned his hand to big robberies. He engineered the hold-up of the Dearborn Street mail station, netting him \$338.-000. He controlled five or six unions, several of which he created solely to squeeze contributions from the workers and graft from the employers. Murphy himself told how his type of leader in the post war period ran the unions: "They don't use boxing gloves in the labor movement, he boasted, "they use Smith and Wessons." Murder was Murphy's side-line. After his release from an accidental jail term he was greeted with open arms by the Chicago capitalist politicians at City Hall. The Chicago Tribune described this reception as follows:

"When Murphy was released from jail in the Enright case he was received with open arms at the City Hall, where he went to call, followed by a troop of admirers." Among those admirers were judges, assistant state's attorneys and aldermen. He fed them at sumptuous banquets and paid them handsomely. Some time before his death he boasted of his money making prowess. "I'm still pretty much of a kid, but I made a million, and spent a million, and I figure I'll make another million before they plant me.

He Didn't Make It.

A Capone bullet stopped him at the halfmillion mark. The gangster business was being consolidated with big banking and capitalist support.

Gangsterism among the misleaders in the trade unions in Chicago is not an exception. Chicago in this instance, as in the general description of the connection between the underworld and the upperworld, is just a striking illustration. Foster's book gives plentiful details of other cities. "Possibly conditions are somewhat worse in Chicago," Foster writes, "but not much. The Chicago building trades business agents may be a little quicker on the trigger, or, because of the greater strength of their unions, somewhat more ruthless in their grafting. But their confreres in the building trades in other cities also let no grass grow under their feet."

While the Fitzpatrick-Nockles faction in the Chicago Federation of Labor won office in 1905 in a struggle against the gangster "Skinny" Madden, it had developed so far on the path charted by Madden himself that by 1930 it engineered the killing of Hertzel Weizenberg, a member of the revolutionary trade union group in the painters union. Weizenberg was beaten to death by pro-Fitzpatrick-Nockles men because he distributed leaflets of the Trade Union Unity League calling on the painters to drive out the gangsters aligned with the bosses, struggle against wage cuts and for better union conditions. The Chicago Federation News, controlled by Fitzpatrick and Nockles gleefully applauded Weizenberg's murder. the state of (To Be Continued)

In every field, the role of the socialists is the same. In the sports field, cultural and other fields, the social democrats are splitting the organizations and keeping the militant rank and file from uniting in struggle for the interests of the workers in the organizations.

On the one hand are the revolutionary workers, who in the sports field are organized into the Red Sports International. In this International are the revolutionary workers of many countries. They are carrying on a militant struggle for the interests of the workers, which means the fight against hunger, against imperialist war and for the defense of the Soviet Union. The bosses are opposed to this international-and through their tool, the Lucerne International, are trying to crush the spirit of revolt that is rising in the ranks of this international. The workers of this international see their interests betrayed; they see this international taking a vicious stand against the Soviet Union. When they raise their voice. they are expelled, as, for instance, tens of thousands of workers, who have been expelled in Germany, France, Finland, etc. No member of the Lucerne International is allowed to participate in the Spartakiade (revolutionary international meet). They are not allowed to compete with the Red athletes from the Soviet Union. This is a tyranny established to keep the workers from uniting their forces. The Red Sports International, on the occasion of its tenth anniversary, is holding a Spartakiade in Berlin from July 4 to 12. Athletes from many

countries will participate in the Spartakiade, but it is possible that the Soviet athletes will

American Legion and V. F. W.

By C. TIPTON. Article I.

THE revolutionary labor movement, and the Workers' Ex-Servicement's Learning in Workers' Ex-Servicemen's League, in particular, continually expose the role of the Legion and the Veterans of Foreign Wars, the same as the class struggle requires the exposure of the American Federation of Labor. The A. L. and its spiritual annex, the Veterans of Foreign Wars, in fact have an influence upon the development and course of the class struggle in the U.S. A. hardly less than the American Federation of Labor.

The Legion serves the interests of the bosses with an archaic interpretation of patriotism. This patriotism implies that it is treathery to fight against the capitalist system, to raise a rebellious voice against oppression and exploitation by the bosses.

According to the psychology of these rack eteering patriots, the world began its real existence in 1776; the perfection of law, of wis-

and meet on June 13, 14. The young revolutionary athletes number in their ranks some splendid stars, but this is not the feature of the Red Sports International, which is based on collective achievements, and not individual stars.

National Youth Day will be more than an athletic meet. It will be a day of demonstration against the miserable conditions that the workers, and especially the young vorkers, have to suffer in this land of "prosperi." It will be a day of protest against all the evils that the workers have to endure. It will be a day of demonstration against the rapidly coming imperialist war and for determined defense of the Soviet Union.

When the U.S. delegation arrives in Berlin it will meet not only the Red athletes from the other countries, but representatives of the Communist Parties of France, Czecho-Slovakia and Germany, of the Red 'Irade Unions, who have been energetically working for and preparing the Spartakiade, and will attend it as fraternal delegates.

The struggle of the workers goes forward on all fields. The field of sport is not exempt. The workers who are being enticed into the bosses' sport organizations, and are offered all the advantages that the bosses with their big capital can offer, must remember that this is not done for nothing. The workers pay for it-and the bosses use it in order to hold the workers fast to the system under which they are exploiting us to the bone.

All workers on National Youth Day! All revolutionary athletes participate in National Youth Day. Make National Youth Day the beginning of our campaign against bosses' and socialist-traitor sports!

At the same time while we are collecting food for families like these we must fight for cash unemployment relief for the 100,000 jobless in Metropolitan Boston.

This Unemployed Branch is planning to sand another large committee of unemployed workers to the City Council and to Governor Ely to demand regular relief for these and all other starving families in the South End and Rox-

Fellow-unemployed! Join the Unemployed Branch! Don't starve quietly!

Join us in the fight for relief. The City Government has plenty of money for graft and investigations. We can get relief if we will fight for it.

was revealed by Moses. Christ, the forefathers, at the orders of an all knowing God. There is no mind, no wisdom beyond Christ and the American constitution.

The Legion's slogan-"For God and Country!" -express that psychology. This slogan is the starting point, a pivot, around which center the activities of the Legion and the V.F.W. in their savage attacks upon any and all efforts of the proletariat for emancipation. Under these slogans of archaic patriotism and religion, these veteran organizations act as the chief enemy of the working class, as the most loyal watchdogs for the continuation of ruthless, cruel capitalist oppression.

Their role in the class struggle, their appeal to the ignorance of the masses, to the brutal egotistic sense of race superiority and vanity of the Americans, lends strength and backbone to American capitalism and imperialism. The A. L. combats the class struggle of the starving, awakening American proletariat under the slogan of "God and country," rousing more dark and backward prejudices than do the bosses themselves or the American Federation of Labor. These veteran organizations are the greatest enemies of the American unemployed and employed masses of hte working class.

The ruling class of America know well how to use this power. The A. L. and V. F. W. are organized on a national, fascist basis of cooperation of exploiter and exploited, boss and worker. With them there is no problem of any interest of the working class. The worker just exists as an object of exploitation, for the convenience and welfare of the bosses

ing Police Commissioner Mulrooney, and Mulrooney is thanking District Attorney McLaughlin, and McLaughlin is thanking his lucky stars -all over a so-called "confession."

The police had to have a "fall guy" in the Vivian Gordon murder. So they "persuaded" or "questioned" one fellow until he "confessed." But kindly note that he "confessed" that another fellow did the killing!

The "confession" was obtained "after a night of questioning." of which the World-Telegram gives the following comment:

"It was no secret at Police Headquarters that the long examination of Schlitten yesterday had not been peaceful."

In other words, he was beaten up. But as a reward for coming through with a "confession" he will not even be indicted, but only used as a witness, while the guy accused, who apparently is a crook that can be dispensed with, will get the axe.

Thanksgiving day always was a gala occasion for everybody but the turkey. But we wonder if. Tammany expects sensible people to believe all. this blarney.

bosses at its best, appeals are made to the exservicemen's vanity, they are acclaimed by the cunning scheming boss as heroes, nice obedient heroes, who fought for democracy, for "their" country and are now even defending the greatest "American institution"-the capitalist system, that keeps this country snugly and safely as private property of the ruling class.

As aforesaid, nothing can or should be done about the concentration of wealth in the hands of a few and misery for the majority, since the Bible and the American constitution have not said anything about it. The forefathers knew all with the help of God. Charity solves all

problems of the poor, according to these fountains of unsurpassable wisdom.

The primary mission of the Legion and V. F. W. is the fight, openly and secretly, as simple savage and hypocrite, of the filthy battle of American capital against labor. But to disguise these brutal ends of savage attacks on a tormented working class, a smoke screen is built around the racketeering leaders of the A. L. and the V. F. W.

They pretend to be concerned a whole lot about the disabled veterans, and in line with the Bible teachings, there is a great field for hypocritical charity on the part of the exploiting bosses and the corrupt politicians of the A. L. Patriotic wisdom is not supposed to bother about able bodied veterans. They are taken care of by the capitalist system of economic slavery. But the unemployed veterans have succeeded partly in forcing a demand for a bonus upon the legion, not quite in line with its In order to keep this powerful tool of the pay-triotic plans.

(about the only humans) are prescribed for all generations to come up to the "end of the world," in the Declaration of Independence, the American Constitution and the Bible. The forefathers said nothing one hundred

and fifty years ago about a capitalist system, its complications, unemployment, starvation, etc., and therefore it is taboo, un-American, unlawful to elaborate on such problems, let alone fight for a dictatorship of the proletariat.
