The Daily Worker is in the most serious crisis in its history. \$5,000 must be raised within the next three days.

Our electric light and power may be shut off at any moment; our supply of paper is almost exhausted and we have no money to buy more paper. Send all you have, borrow if necessary, but by all means save the Daily! Use airmail or wire to speed funds to the Daily Worker, 50 E. 13th Street, New York City.

COMMUNIST PARTY, U.S.A. DAILY WORKER MANAGEMENT COMM.

pitalist government and its forces of repression, the establishment of a revolutionary government that can be nothing else in form than a Soviet and the seizure of the entire social power including the banks. It must arm the masses and disarm the capitalists and all their supporters.

Because none of these necessary conditions of revolutionary su were considered by the syndicalists of Saragosa, and the workers seized the factories were compelled to withdraw at the approach of troops sent against them by the "socialists" in government power, it was a discouragement for further revolutionary efforts and an objective assistance to the fascist maneuvres of the "socialist" leaders, who used thte event as an argument against any revolutionary action by thte workers themselves, and who appear before the masses, deceitfully but plausibly, as the only "sensible" leadership which will-according to their demagogic promises-obtain socialism "gradually" and "step by step." Actually this promise is false and is made to choke the revolution, to betray the workers and maintain capitalist rule.

That this syndicalist theory not only serves to strengthen fascism, but that it iteelf turns to fascism and counter-revolution, is proven by the action of the IWW in the United States in their strike-breaking in the Illinois miners strike, in their attacks on the Unemployed Councils. and in a speech by their leader, James P. Thompson, in Seattle on May 24th where, in comment on the Soviet government, he laid the same hasis for war against the Soviet as do the capitalists by prophesying Soviet "collapse" and a "taking of control" by the IWW.

Workers of America must learn from the lessons of Italy and of Spain that no one has a program "more revolutionary" than that of the Communist Party! Above all the victory of the Russian workers and the successes of the Soviet Union must clinch the proof that all who attack the Communists are enemies of the workers!

NEW YORK .--- Pier' No. 9, formerly owned by the Munson Line, was wrecked by fire yesterday. The rotten and dilapidated dock had been abandoned and was used by many unemployed and homeless workers as a place to sleep, especially since the Tammany Hall racketeers closed down the Municipal flop house at South Ferry. How many workers were burned to death or drowned at free beds to the unemployed sea-Old Slip has no tyet been found out. Three of the homeless workers were forced by the fire to jump into the river and were saved. Directly under the hottest part of the blaze two workers, who were caught unaware, were seen clinging to the piles and were saved. They said there were others sleeping nearby, but the smoke

was so thick from the fire that they could not see what happened to them. The three workers who were rescued and are now at the Broad St. ostitel are Alvarez Scheerer, 35 years old; Frank Sylvia, 21, and Eugene Nelson, 28.

Tomorrow a mass march will take place on the Library mine of the Pittsburgh Coal Co., thus

The strikers have adopted resolutions protesting the capitalist press lies which play up Fagan as the "leader of the strike."

The general strike committee, representing all mines, meets Wednesday to formulate the demands and issue a call for a district strike. Hundreds of delegates are expected at the meeting.

2000 WALK OUT IN LONGSHOREMEN'S STRIKE IN TEXAS

Marine Workers Industrial Union Leads

GALVESTON, Texas, June 2-Over 2,000 longshoremen have gone out or strike here against wage-cuts and the strike is spreading under the leadership of the Marine Workers' Industrial Union. C. T. Davis, organizer of the union here, is active in pushing the strike.

Most of the strikers are Negro workers. A rank and file dock committee was elected to draw up demands of withdrawal of the wagecut, an increase in wages and recognition of the dock committee.

Although the largest part of the strikers are Negro workers, when a heaviest loads and the longest runs, mass meeting was called by the Marine Workers' Industrial Union, a large number of white workers came and joined in a unified struggle against wage-cuts

Thirty have already joined the M W. I. U., and others are joining in large numbers daily. The union has the trucks being in bad condition sent another organizer into the field through no fault of the men are paid to help spread the strike.

An attempt was made recently to cut the wages of shrimp fishermen on agitation among fishermen and pay cut.

Tenn. Bosses Plan 500 CAL. YOUTH Legal Lynching IN NYD PARADE White Farmer Being Enthused Sports Meet

TIPTONVILLE, Tenn., June 2. --The usual lying charge of "rape," with which the southern bosses pre- dred participated in National Youth are the lynching, legal or otherwise, Day in Fresno, Cal. Over three hunmilitant Negro workers, is being dred, mostly youth, Mexican, Negro sed in this town against a white and American paraded through the farm hand, Dave Smith, who is be- streets. Hundreds more lined the ing railroaded to the electric chair on the fake charge of raping the 10-year old daughter of his boss.

Railroaded to Chair

The "trial" is being held in the familiar lynch atmosphere, with the newspapers howling for the blood of the defendant, the court house surrounded by an armed mob and a company of National Guardsmen supposedly on duty to "protect" the prisoner, but actually by their presence further inciting mob passions by giving credence to the "seroiusness" of the trumped-up charge against the young white farm hand. In addition, the officers of the guardsmen have openly joined the mob ledears in agitating for the lynching of the defendant.

The Southern bosses, however, scared by the tremendous mass protest in the Scottsboro cases are strenuously trying to gvie the case the features of a "fair," orderly "trial." The mob is asked to let the court attend to the lynching, and the plant-

ation owners who are interested only defendant legally lynched as hung up in crushing the growing revolt of by a mob, are busy curbing the hoodthe white and Negro farm laborers lums they have gathered together to and would just as soon have the assure the lynching of Smith.

War Against the USSR." an expose of the Knickerbacker-Post Anti-Soviet crusade is scheduled to start in "Daily" beginning June 10. Publication of these articles will depend upon the amassed support of readers and sympathizers of the Daily Worker in the campaign for \$35,000. News of this series should be widely broadcast among workers in shops and factories. Extra bundle orders of issues containing articles should be forwarded immediately to the Daily Worker. Large cities where the Knickerbocker attacks are syndicated should advertise the "Daily" expose as widely as possible not only in working class sections but also in sections that read the capitalist press. Leaflets announcing the series jointly with the campaign for \$35,000 should be mimeographed and distributed. Rush funds and bundle orders now!

N. Y. Red Builders Keenly Active

Nearly twelve and a half dollars was collected during the week at a number of open air meetinfs sponsored by the Red Builders News Club of New York. These meetings have proven very successful in attendance. especially from the point of view that they were chiefly Daily Worker meetings in which all speaker's stressed the political and organizational role of the "Daily" as the only militant English working class paper. Thus many new readers for the first time were made acquainted with the cen tral organ of the working class. The Red Builders News Club of New York will continue the Daily and at the same time participating in the campaign for raising finances.

MORE ACTION FROM OTHER RED BUILDERS NEWS CLUBS IN DRIVE

What has happened to the clubs at Oakland, Chester, Sacramento, Barberton, Galveston, Chicago, Portland, Jamestown, Akron? Have not heard a word since the campaign started.

LETS HEAR FROM THE RED BUILDERS AND WORKERS CLUBS WITH ACCOUNTS OF MEETINGS FOR "DAILY" BENEFIT!

Greetings to the First Congress of the Communist Party of Philippines

From the Communist Party of the United States of America.

Page Four

TO the Communist Party of the Philippine Islands, Manila, P. I.:—Fraternal revolutionary greetings to our new sister party of the Philippine Islands. In the name of the revolutionary proletariat of the United States of America, the Communist Party of the U. S. A. pledges its closest co-operation and active practical solidarity in our joint struggle against our common class enemies—imperialism and capitalism.

We pledge most energetic mobilization of the working masses and uncompromising struggle for driving out American imperialism from the Philippines and for immediate, unconditional and complete independence of the Philippine Islands. At the same time we urge the Communist Party of the Philippines to carry on ruthless struggle against its own national bourgeoiste, the capitalists and landlords who betray and sell out to American imperialism for a share in the profits of the exploitation of the Filipino workers and peasants.

Long live the new section of the Communist International—the Communist Party of the Philippine Islands! Long live the United revolutionary front of the toiling masses of the Philippines.

COMMUNIST PARTY OF THE U.S.A.

Solidarity for the Emancipation Struggle of the Filipino Proletariat

The following letter has been addressed to the Communist Party of the U.S. A. by the recently founded Communist Party of the Philippine Islands:

Dear Comrades:

In the name of the Communist Party of the Philippine Islands we are addressing to you this letter,

The C. P .P. I. has emerged after a long period of struggles. Through actual experiences we have come to the realization that to remain in collaboration with national bourgeoisie for the attainment of Philippine freedom is absolutely futile. The national bourgeoisie from the past up to the present have shown how insincere they are with respect to the Independence issue. They have always bargained and more than once betrayed the cause of Philippine freedom. They, through the Federal Party, have allied with the American imperialists to permanently annex the Philippine Islands to the United States; they have organized the Nacionista Party, waving the flag of "immediate, complete and absolute independence," but, after securing the unanimous support of the electorate, they cowardly gave up the struggle for independence and shamelessly sided with the worst enemy of Philippine freedom, the American imperialists. The Democrata Party was organized as successor to the defunct Federal Party and as an opposition party to the Nacionalista. But when the famous Wood-Nacionalista comedy was staged, this so-called opposition party followed the same Nacionalista tendency playing the role of real scab taking the post left vacant by Nacionalista Mayor in support of the enemy of Philippine autonomy In fact, both Nacionalista and Democrata Parties are not for the freedom of the Philippines but for its permanent subjugation under the American imperialists. Thus the Philippine Proletariat have come to realize the hypocrisy and traitorous role played by the national bourgeoisie

The reason for this friendly cooperation between the national bourgeoisie and American imperialists can be clearly seen by the recent policy of economic invasion of American capital inaugurated by former Governor Stimson and later fostered by Governor Davis in the P. I. Through this invasion, under the protection of the American army and navy and the local police and constabulary, they expect to extend and intensify to the limit the subjugation and exploitation of the toiling masses of P. I. The unavoidable immediate effect of this unlimited and combined exploitation of workers and peasants of the Philippines can be cited by concrete instances, i. e., the Colorum uprising in Tayug, Pangasinan, the general strike in Negros and Iloilo, the radicalisation of the labour movement in Manila and surrounding provinces, the upsurge of the national independence movement and class consciousness of the masses in spite of brutal armed intervention against them. Because of these historical facts that mercilessly exposed the true colour of the national bourgeoisie and the aims of the American Imperialists the Philippine Proletariat have come to the realization of the need of a political party of their own in order to lead, independently from the bourgeoisie, the struggle for Philippine independence. Not only this, but it also aims to emancipate the Philippine toiling masses from feudalcapitalist-imperialist ruthless exploitation under whose fangs the workers and peasants live in misery and bondage.

only the Communist International is the real only leader of the world struggles for national freedom of the oppressed peoples and class emancipation of the toiling masses. Thus, the C. P. P. I. was organized.

During the 13th Anniversary celebrations of the October Revolution held at the Plaza Moriones, Manila, P. I., attended by more than 6.000 workers and peasants, the C. P. P. I. was formally inaugurated. Its Platform was read before the enthusiastic masses and amidst encouraging shouts of "Long live the C. P.; Long live Philippine freedom! Long live the U. S. S. R.! Down with imperialism and capitalism! Down with the imperialist world war!" etc. From that date on the C. P. P. I. begun formally its work as a unit of the Communist International.

The Communist principles are now pervading into the minds of the Philippine toiling masses, showing their enthusiastic acceptance through open adhesions and pledges expressed in crowded mass meetings of the Party. This evidence of popular enthusiasm was fully strengthened when the funeral demonstrations of the late Comrade Antonino D. Ora took place in which more than 30,000 workers participated. The national bourgeoisie frightened by this spectre of Communism are trying to crush our young revolutionary movement. In spite of the existence of an Organic Act, known as the Jones Law, recognising the freedom of speech, of the press and assembly the puppets of imperialism and capitalism forbid our Party to continue holding mass meetings and demonstrations, even in private premises. They systematically persecute the leaders of the Communist movement, and through this ruthless persecution there are already 22 comrades arrested and charged for sedition. Besides this systematic persecution the national bourgeoisie banned the Katipunan ng mga Anakpawis sa Pilipinas (K.A.P. or Philippine Proletarian Labor Congress) from using the mails, its meetings are barred from public squares and places in Manila and provinces. They have altogether prohibited our delegates to go outside the Philippines and attend international congresses. They assaulted and jailed our Chinese comrades with the purpose in view to deport them and deliver them to the Chiang Kai-shek butchers in China. All these acts of terrorism, apparently, came directly under instruction of Secretary of War Hurley of U.S. A. and known official agent of Wall Street exploiters. We held already numerous mass meetings of protest against this White Terrorism. The C. P. P. I. is continuously organising mass demonstra-

Graft and Gangsters

By HARRY GANNES

Tammany Hall's Method of Grafting

By HARRY GANNES.

In previous articles the story of Chicago graft was taken up, showing the close alliance between Al Capone, other gangsters, and both the Republican and Democratic parties. The origin of gangsterism and graft in the United States was shown, and the wide use of gangsters by the capitalists for increasing their profits and against the workers in strikes taken up.

HICAGO, with its graft, its murders, its bold

Inks between the underworld and the upperworld of the exploiters is not an exception in American cities. The melodramatic trappings and outstanding figures, the raw and new methods, the circus election campaigns of Mayor Thompson, make Chicago the symbol of American capitalist city government. But it is not a special type nor is it fundamentally different from every industrial and commercial center in the United States. Chicago has its counterpart in a thousand smaller cities, in towns and villages.

New York, heart of American finance-capital, center of the banking world, has an older history of graft than Chicago. Graft has become

Red Sparks

In Defense of Prize Winners Readers will recall that the Pulitzer prize went to Mr. Knickerbocker for his first series of anti-Soviet stories, and to a Mr. Edmund Duffy for a cartoon (even pictorially a bum one) against the Soviet Union.

Behold, now, Oswald Garrison Villard, blossomming out in the Nation of June 3 with a protest against the way the N. Y. Post "headling writers" have misrepresented poor Mr. Knickerbocker. They have "done him dirt," says Villard. "If Mr. Knickerbocker was not outraged, he was entitled to be," affirms Villard. But evidently Knockerbocker is NOT outraged, or why is he silent? Why, indeed, does he launch a new series to be so shamefully treated by those dastardly "headline writers?"

You must learn the dark and dreadful truth? Mr. Knickerbocker is an example of "forced labor"! Yes siree, bob! He is rouned up by the Gaypayoo of the N. Y. Post and deported to foreign lands, there to toil away like "Little Nellie Gray" who was sold down the River, under the brutal overseers of the N. Y. Post!

This sickening slobber over a journalistic prostitute would turn the stomach of a good healthy dog, particularly as it is accompanied in the Nation with another cartoon by none other than the prize winning anti-Soviet cartoonist, Edmund Duffy!

This cartoon also makes out that the "headline writers" are the rascals who are responsible. But Duffy anti-Soviet cartoon didn't need any headline writer to "misrepresent" him. It was just plain anti-Soviet.

Even the possibility of "forced labor" as in the case of the "outraged" Mr. Knickerbocker could not alibi Duffy. And his role as a prize winning press prostitute is even more cinched by the proof that[®] he will draw for both sides, for or against the Soviet.

Meanwhile you chew this over, see if something can be done to "liberate" the victim of the N. Y. Post's "forced labor," Mr. Knickerbocker. He simply can't be standing for all the outrages of "headline writers" just for the money there is in it!

"Said the Spider to the Fly"

John L. Merrill, head of the All America Cables Corporation and likewise head of the Pan-American Society, speaking as the Yankee imperialist spider to the Latin American fly, orated thusly at the Foreign Trade Conference last Thursday:

. "I am firmly convinced that the big majority of nations and peoples in this hemisphere which we call American, are awakening to the fact that we can trust each other."

Amsterdam

To a lot of people, Amsterdam is only the name of a city, just another "dam," so to speak. But to the working class movement the word "Amsterdam" also means the International Federation of Trade Unions, the same breed of cats as the A. F. of L. with a bit more "socialist" paint. The IFTU has its offices at Amsterdam. Just now looking over the press publicity sheet of "Amsterdam" dated April 23, we notice some funny things. Under the heading of "General Information" it says: "Further Decline of Unemployment in the U. S. A." You never noticec it here, did you? But that is a beginning.

The main article is entitled "Victory of Democratic Revolution in Spain." a ⁶little "previous." After speaking about the alliance of the "socialists" with the capitalist republicans.

We have also learned how the socalled Socialist or Second International retreated and betrayed the world revolutionary movement. Its support to imperialist nations to continue in the exploitation and oppression of their colonies, especially in the Orient, has strengthened our belief that tions and protests, and possibly mass strikes of protests, which, if it can be carried out effectively, will hasten the decisive struggles for national liberation of the Philippines

In view of this grave situation we believe a close cooperation and concerted action between the C. P. U. S. A. and the C. P. P. I is an urgent need of the hour. We demand from you to intensify the fight against American imperialism, to expose the treacherous tactics of the Filipino bourgeois leaders whose emmissaries are sent from time to time to U. S., and to arouse effectively the sentiments of the American Proletariat in support of Philippine independence. Only through our effective cooperation, especially through your intensified work within the U. S. A. Army and Navy, without doubt, we shall come out victoriously in our struggles. We earnestly believe that from now on our

Comrades in the C. P. U. S. A. and in the P. I. will get more and more in close contact and will always stick together in the national liberation and world revolutionary movements.

The Central Committee of the Communist Party of P. I.•

The Strike of the National Miners Union in West Pennsylvania

By CARL PRICE.

TWENTY-ONE hundred miners are now on strike in Western Pennsylvania under the leadership of the National Miners Union. Thirteen hundred in Washington County and eight hundred in the Vesta No. 8 mine near West Virginia. The strike bears out the statement of Comrade William Z. Foster at the Western Pennsylvania district convention of the National Miners Union held in Pittsburgh on May 23-24, that this powerful and successful convention marked a turning point in the life of NMU. The scores of thousands of miners of Western Pennsylvania, having reached the point of actual starvation, with their standard of living cut 75 per cent, have determined to go out on strike against the unbearable conditions. At the convention of the NMU, which represented 30,000 miners, one miner after another spoke of the numerous wage-cuts, unemployment, evictions, and starvation, and declared that under the banner of the National Miners Union they would go out of the convention and organize strike struggles against wage cuts and for better conditions.

The present strike shows the progress of the National Miners Union since the strike which occurred in Westmoreland County. In this strike there is a functioning section committee of the NMU with an organized section leadership, in some of the mines now on strike as for example the Cedar Grove mine, there was a functioning local of the NMU which organized preparations for the strike. Hundreds of workers have joined the National Miners Union in the last few days. Broad strike committees have been elected in each mine and joint meetings of the strike committees of all mines on strike are being held. The Section Committee of the NMU is conducting the day-to-day leadership of the strike.

The rapidity with which the miners are mobilizing to spread the strike is evidence that the NMU of Western Pennsylvania is now in the period of strike struggles on a larger scale against the wage-cuts and unemployment. At a meeting in Slovan, Pa., 800 miners came to the meeting, not only from the mines which are already on strike, but from a number of the surrounding mines which are still working. The meeting discussed not only organization into the NMU, the demands of the miners, the functioning of the strike committee and relief committee, but also the question of spreading the strike to other mines. A miner from the Lange-Joth mine spoke, stated that there were many miners from this mine present, and a meeting was called under the auspices of the NMU for the Langeloth mine the following day to discuss strike preparations and strike demands. The same was true of the Bulger and other mines of the section.

Another example of the growth of the National Miners Union is seen in the fact that in this strike there was united action of the employed and unemployed miners. One hundred Any of these references can be obtained from the Workers Library Publishers, Box 140, Station D, New York.

erned countries.

miners who are members of the Avella Unemployed Council immediately mobilized to go on the picket line of the Cedar Grove mine. Hunger marches to Washington, the county seat, are being organized to demand relief for the strikers and the unemployed miners alike.

As soon as the strike began this week the United Mine Workers of America immediately came out in its despicable scab role as a company union and an agent of the bosses. P. T. Fagan, president of the district UMWA, who is hated by the miners and whose union has at present not a single functioning local in the district immediately issued a statement aimed to confuse the miners and brazenly declaring that the UMWA was conducting the strike. The capitalist press of Pittsburgh in front page stories tried to confuse the miners by suppressing the fact that the strikes are being led by the NMU and giving long quotations from Fagan.

How the miners have so far reacted to the scabbing of the UMWA is shown in the fight which occurred in the first morning of the picket line in Cedar Grove. At the strike meeting, the day before the miners had voted to go on strike with two exceptions-two Lewis men of the UMWA voted against the strike. These stool- pigeons of the Carnegie Coal Co., whose three mines are now on strike, came to the picket line the next day and tried to break it up. Among other things they slugged an old woman, mother of one of the miners. The striking miners of the Cedar Grove mine made an appropriate answer to this strike breaking effort and the stool pigeons of the UMWA found themselves thrown in the creek at the end of the fight. The UMWA is now talking for organization in the same manner that the United Textile Workers did in the Gastonia strike. They are coming in and trying to break the ranks of the strikers with their confusing statements and their scab methods. They have announced a strike in the New Kensington section and one in Coverdale, but the organizers of the NMU are already in the field at these points and the UMWA will find it very dangerous to come into the mining fields of Western Pennsylvania with its strike breaking methods.

Along with the UMWA the coal bosses are mobilizing their other agents. They have announced that the state police are being held in readiness awaiting word from the governor of the coal bosses, Governor Pinchot, before swinging into action against the strikers. They have already begun to try to throw the workers out of their homes. Yesterday at Atlasburg, the first mine which came on strike, 18 miners rcceived notice from the Carnegie Coal Co, that they will be thrown out of their houses by June 8.

The NMU is organizing for a mass struggie against evictions. The bases of the Carnegic Coal Co. have already approunced that they have 'no intention" of reducing wages. The more systematic and Tammany Hall, the strongest organization of the Democratic Party, is better organized and is "smoother" in its grafting methods.

On October 16, 1930, tens of thousands of unemployed workers, under the leadership of the Trade Union Unity League and the New York Unemployed Council, demonstrated in front of City Hall, New York, on the occasion of the meeting of the Board of Est. ates. They came demanding unemployment relif.

In the Grafters' Headquarters.

The Board of Estimates is in the hands of the Tammany grafters. They shell out millions of dollars in graft. The annual New York budget, which they control, reaches nearly one billion dollars. How much actually goes out in graft will never be known precisely, but it is closer to 50 per cent of the yearly budget than 25 per cent.

The Unemployed Council sent a delegation to the Board of Estimates to demand that the 800,000 unemployed be fed at the expense of the city capitalist administration that the grafting be stopped and that a substantial part of the budget go to the starving families of the workers.

There sat the rulers of the city of New York, "Jimmy" Walker, the Mayor, presiding. Sam Nesin, secretary of the Unemployed Council, put forward the demands of the jobless workers.

miners there struck against a reduction from 44c. to 40c. a ton. But they will not be satisfied to go back to work at the 44c. wage scale. They are demanding 52c. a ton, the right to have a checkweighman. pay for dead work, and recognition of the union. The Carnegie Coal Co. was afraid to post a written notice of the wage-cut, and instead sent around its fire bosses to notify the men orally of the wagecut which was to take place June 1st. As soon as the men heard of the wage-cut, which is by no means the first in these mines, they did not wait for June 1st, but went on strike immediately. The following mines are on strike: Atlasburg, Cedar Grove, McDonald, Vesta No. 8. Other mines, such as the Duquesne, P and W, Francis. Bertha, Bulger, Midlanss, Gilmore, Buffalo,Langeloth are already greatly affected by the strike and are expected to come out within the next few days. The strike is expected to

spread to other sections of Western Penna. In this strike a mass union must be welded together. The miners are now in this struggle beginning preparations for the bigger struggles to come. They do not see the perspective of srtikes on a district-wide scale as something visionary. They are struggling to lay the basis. through mass organization into the union and through this stiffe struggle for demands for district scale, checkweighmen, increases in wages and recognition of the union. Under the slogan "Every miner in Western Pennsylvania into the National Miners Union" and "every wage cut must be met by a strike." the National Miners Union is building a mass organization in Westtern Pennsylvania

ing machine) with almost passionate fervor.

Sharp words passed back and forth, and Walker

wanted to know whom Nesin represented. "I

represent the unemployed of New York," re-

plied Nesin in a clear firm voice, "and you

represent the Tammany grafters, the judges

who buy their jobs to evict unemployed and

their families!" For this as well as for de-

manding unemployment relief, Nesin and the

rest of the delegation were mercilessly beaten

by dozens of police in front of Mayor Walker,

at the order of Mayor Walker. In the hall

stood the Reverend Norman Thomas, socialist,

silently giving his tacit approval, as he later

stated, because Nesin had no business calling

Walker and the Tammany henchmen grafters.

Norman Thomas of the socialist party has

gone so far as to praise Mayor Walker's un-

employment program-that is, the policy of

blackjacks and breadlines for the jobless, jails

"Jimmy Can't Be a Grafter."

Heywood Broun, another leading light of the

socialist party, their prize Congressional candi-

date in the 1930 elections, outspoken enemy of

the Negro masses in the United States, defends

Walker (which is defending the brains and the

chief grafter of the New York Tammany graft-

and sluggers for their leaders.

"I like Jimmy Walker," Broun announced to the world in his putrid column published daily in the New York World-Telegram. "To me his charm seems genuine. To me he is a kindly person. Reporters who cover City Hall assure me of their belief in his personal honesty. The evidence they submit is circumstantial but simple. 'Jimmy can't be a grafter,' they explain."

Go, Mr. Walker, and all your ilk, says Broun and the socialists, graft on with the blessing and defense of the leading lights in the socialist party. All defenders of capitalism will protect you.

Never before in the long history of graft in New York City had anybody dared to stand before the city grafters and tell them to their faces what they really are.

Months after Nesin branded Walker as a grafter, the capitalist papers began to buzz with stories about graft, about "investigation" of the Walker government. They did not have to wait, nor did they have to begin with Walker. Graft is built into the foundations of the New York City capitalist government; it will be rooted out only when the capitalist foundations go down with it. "Investigations" only give the grafters a respectable veneer.

It is not necessary to go back to the days of Tweed, Murphy, Crocker and Kelley, famous grafters of old, when the major portion of the city funds went out in graft. Those were the crude days. The modern grafters have learned better. The total graft in the six years from 1865 to 1871 was about \$200,000,000. Though it was considered huge in those days, it is a mere pittance to what goes into the pockets of the New York boss politicians every year now.

Into the Banks.

Under the Walker-Smith regime in Tammany Hall, New York, graft reached not only into the whole political machine but right into the banks. When a sharp struggle developed in the Tammany organization between the Smith-Roosevelt faction and the Walker clique, cries for investigation of "city corruption" became so loud, inspired by the Smith-Roosevelt clique, with support of the Republican grafters, that in March, 1931, Mayor Walker was forced to leave for the Pacific Coast in a hurry.

Previously, the newspapers were publishing exposes of a new form of grafting devised by the New York Police Department. Not content with collecting graft on prostitution, they speeded up the process by framing up innocent girls and former prostitutes. Special stoolpigeons were hired for this purpose. Most notorious was "Chile" Acuna. Hundreds of thousands of dollars were wrung out of these girls on the threat of jail sentence on fake evidence.

The special attorney "investigating" this form of graft was Isadore J. Kresel, who had himself indulged in wholesale swindling in the Bank of the United States, which crashed in December of 1930.

Two of the girls who told about the frameups were murdered. Vivian Gordon, one who was closely connected with politicians and gang-

it says: "In the meantime Fate has decided: the monarchy has been overthrown by the ballotting vote!"

The monarchy did not yield, however, until the masses went onto the streets and Alfonso was persuaded that if he didn't vamoose the masses might go to "extremes" and upset capitalism as well as the monarchy.

The "Amsterdam" International sent a wire to their Spahish section, saying in part: "May the new Government bring the working class all the social reforms which they need." And it complimented the "socialist" leader, Largo Cabellero for being appointed by the capitalists to the post of Minister of Labor: "May it be granted to you to do all that will lead to the emancipation of the Spanish working class."

Events since that was written have shown: The "socialists" are suppressing strikes for "social reforms" such as wage increases. They are turning machine guns on the workers. They have allowed the monarchists to arm, and sheltered the Catholic church from the anger of the masses. Only last Friday they said that the government would not take action to separate church and state. They have "postponed" taking lands from the nobility and the robber church to give to peasants.

The Spanish "socialists" have taken Kerensky's advice, sent them from Paris, to "Beware of Bolshevism and agitators." They have arrested 24 Communist leaders for simply hold ing a meeting last week, yet are allowing the monarchists free rein to organize and arm. That-dear reader, is what Amsterdam' "social reforms" and "working class emancipation" means in practise. That is what "socialists" do!

CORRECTION. The article entitled "How Not to Handle New

Members," was by Dorothy Ross of Section 1, New York.

sters, was strangled on a lonely highway two hundred feet from a police booth because she threatened to "talk." Another was poisoned in Bellevue Hospital, a city institution.

Not only were the police involved in the vice scandal but judges got their share. Judge Jean Norris was one who had her hands in this vice ring. She collected money from a bond fixing group as well as from the framing-up of prostitutse and other women.

Following the usual procedure in these cases, as in the Lingle murder in Chicago, and the Buckley killing in Detroit, the New York police picked a gangster goat to throw into the headlines of the newspapers as the "real murderer." The case was too raw to leave "unsolved," so the police solve it by picking on a gunman by the name of Stein. "Confessions" were obtained from some of his pals—whom he undoubtedly double-crossed in another deal and the real murderers whom the police know will never be embarrassed by appearing before a court.

To be continued), think
