FOUR PAGES TODAY-BUT!

A four-page Daily Worker today—a Daily Worker made possible by the devotion of the American workers to their fighting organ.

The management Committee had serious doubts about the possibility of bringing out any Daily Worker today, but your response, fellow

workers, has brought back the four-page Daily. Let's keep it!

All day Saturday and Sunday a steady stream of workers poured into the district office of the Daily, workers bringing 50-cent pieces, quarters, nickels, dimeswhatever they could scrape

together. These were real proletarians, many of them working only one or two days a week, many of them not working at all. "Will the Daily come out?" This was the question on everyone's

The response during the last few days proves conclusively what the Daily Worker

means to the working masses of this country; it proves that the Daily is rooted in the workers' hearts, it is an every day necessity to them in their struggles.

But though the Daily has been saved from immediate suspension, we are by no means out of danger. The drive to raise \$35,000 has

passed the \$10,000 mark, but it still is far behind schedule. Unless every worker gets behind the drive and sees to it that contributions pour into our office at the rate of \$1200 daily, we may at any moment find ourselves in another grave crisis such as we experienced over the week-end.

Assure the existence of the Daily by raising the \$35,000 fund! Let's not only keep the four pages, but why not six pages daily as we used to have? Everybody on the job, collecting visiting organizations, building Daily Worker Clubs! Speed funds today to the Daily Worker, 50 E. 13th St., New York City!

Series Answering Knickerbocker-Post Attacks Starts on June 10 in "Daily"

Stimson's "Vacation"

PREPARE NOW FOR AUGUST FIRST!

WORKERS are entitled to know if Secretary of State Stimson's trip to Europe for his "summer vacation" is not a part of his "new Rusare entitled to know this, but there is small chance of them being told

ican imperialism is now moving heaven and earth to: First, attain a leading position in the anti-Soviet war front, and, second, to bring about war on the Soviet Union as quickly as possible.

Stimson's visit is evidently to try to finish what Dwight Morrow began but did not fully accomplish, the uniting of all Western European capitalist powers for immediate war and intervention against the Soviet

That Morrow was given such a mission was proven by past exposures in the Daily Worker on the evidence of the "Kiplinger Confidential Washington Letter." That Morrow did not carry the plan through was proven when the League of Nations Council met at Geneva and. refusing to be kidded by Yankee propaganda about "Soviet dumping turned a noticeably hostile face toward the World's Greatest Dumperthe United States. Of course, for their own imperialist rival interest in dumping themselves, and not from any love for the Bolsheviks.

That this struck an extremely touchy spot, was made clear by inarticulate sounds from Washington, in which pained surprise and sneers

This was instantly followed by a small but offensive diplomatic brick-bat, the command to some school-mam who had been credentialed by Secretary of Labor Doak to attend the International Labor Office conference, to desist; because, so it was said, Secretary Stimson had advised against it, the reason being given that the I. L. O. is a part of the League of Nations.

That the French are ready to drop the pretense of friendship with the Soviets for a united front against the Soviets, was plainly revealed by Carlisle MacDonald, writing in the New York Times of June 5,

"Politically speaking, some observers think the negotiations (with the Soviet by France) are well timed from the French point of view, inasmuch as they coincide with the German move for closer relations with Great Britain. Henry Berenger, former Ambassador to Washington, writing in this week's periodical 'Actualities,' reminds the Germans and the British that 'the mysterious reorganization of Russia' now in progress should convince Germany and Britain that the two nations cannot solve this (namely, the 'Russian problem.'-Editor) and other world problems, without the collaboration of Paris, Washington and finally Geneva."

These all are symptoms of stormy crisis in the imperialist camp which Stimson hopes as a Yankee arbitrator to dissolve in order that more unity in the capitalist ranks may back up fascist Poland and Rumania, both of which are fully armed vassals of imperialism, ready any moment to open war on the Soviet Union.

Workers! Stimson's "vacation" in Europe is a significant new step of American imperialism to take charge of war preparations of world capitalism against the Soviet Union! What Morrow began Stimson the higher and more official agent of American imperialism, will seek to

Let no worker delude himself with the comfortable but mistaken notion that disagreements between the imperialist powers will prevent an attack on the First Workers' Republic! Just as, nationally, the bitter disputes brought on by the crisis between contending groups of capitalists does not, and has not prevented their offensive against the workers and the attempt to load the burden of the crisis on the shoulders

In one case, as in the other, the outcome depends upon the action of the workers. Just as a wide and fierce struggle of the workers to resist shouldering the burden of the crisis may give a revolutionary solution to the crisis within the nation; so, also, the revolutionary mass actions of the workers are the only factor to cause the imperialists to hesitate before launching the world massacre they are preparing.

All the more reason that American workers should understand the threat of war, and of armed intervention against the Soviet Union, which is being made ready by secret diplomacy behind pretensions of "peace and disarmament." And all the more reason that now, every revolutionary worker begin rallying his fellow workers to demonstrate against war on August First!

Make Possible Series On S. U. June 10! Send Support Funds

Workers! The Bedacht series of articles on the "Holy Capitalist Crusade Against the Soviet Union" due to appear in the Daily beginning June 10 cannot afford to be delayed. The Knickerbocker-Post Crusade must be fought by the revolutionary press now! The thousands of lies being printed in the capitalist press agfainst the workers Fatherland must be answered now! Now is the time to broadcast the truth about the workers in the USSR and the workers in America and and Europe. BUT the publication of these articles depends upon your immediate support. This series cannot be published in a two-page paper. Rush funds now and make possible a four-page Daily and the Bedacht articles.

Electric Rate Raise Gives Power Trust Millions Graft

By HARRIET SILVERMAN.

The electric light bills of small users will be doubled next month on the basis of the new rates ordered by the so-called Public Service Comiollars needed to smash the frame- mission. But "big business" will save The new rates are called a "saving of \$5,500,000 to users." It is clear as day, that once more, the house-to-house collections that will whole burden of increasing the profits and dividends of the light and June 13 and 14, by the New York power trust will be placed on the backs of the workers.

The minimum bill is to be \$1 for electricity, so that even if your bills ection boxes should start collecting have been only fifty or sixty cents during the week, with special con- a month, hereafter no matter how entration on Saturday and Sunday. little you burn, the Electric Light Trust will demand and get no less than \$1.00 and up. The new ruling goes into effect at the New York and Brooklyn Edison Company, the United Electric Light and Power Queens Electric Light and Power Co. Instead of reducing the rates at this time the Public Service Commission saw to it that the profits of the power trust would be increased and that big business would benefit.

> While profiits are boosted, for the trust, the Brooklyn Edison Company recently fired close to 2000 workers although the profits last year for this one company, amounted to \$84,-169,841. The company paid \$57,080,-808 in cash dividends which is \$11,-000,000 more than they paid in 1929. Matthew S. Sloan, president of the company, calls these 2,000 workers trolled by four main capitalist groups "casual labor", and tries to justifythe Morgan-Mellon group which had

Sloan who is a member of Jimmy Walker's Employment Committee can't prove this, nor can he bluff his way out of the charge that the company fired these workers just when their vacations were due, which nets the company extra millions! The extent to which the electric

light and power trust has a stranglehold on the bosses government was again exposed at the recent Gover-Governor Pinchot, a reactionary who likes to pose as a liberal, in his speech before the conference, charged that the electric power trust is cleaning up at least half a billion dollars a year in graft. "The power of the utilities," said Pinchot, the same gentleman who had nothing to offer the Unemployed Delegation that Company and the New York and came demanding relief for the starying workers of the state, "is mani fest in every political assembly from the congress of the United States to the smallest town meeting, and from the government of the least political unit to that of the largest state. Indeed it reaches the national government itself." Here we have it, the proof again that the

corporations, trusts and bankers rule the Wall Street government, but this time from the mouth of a reactionary himself! Ninety-five percent of the electric

power industry was until now con-

57.12 percent, the North America with 14.03, the Harris-Forbes group with 12.36 percent and the Insull interests with 10.80 percent. Now the line up is for a gigantic merger, with the Melon-Morgan the most powerful bankers of the U.S. out to grab 70 percent of the total which will give them 95 percent of the output of electricity.

Misery Spreads.

Misery, starvation and evictions is the lot of the workers of Chester The little relief that the charity erganizations and the emergency relief committees (organized by the bosses paign in District 13 should be drawn and politicians of Chester) have been handing out to the unemployed has out delay. been cut off now. Those hundreds of families that have been dependent upon this miserable relief are now left without any means of subsidies to starve from hunger.

The Unemployed Council of Chester is rallying the workers in the fight for immediate relief, to be paid for by the bosses, instead of it being paid for by the workers as it was before. The Unemployed Council is calling a mass protest meeting on Monday evening, June 8, at p. m., to be held at the Workers Center, at 120 W. Third St., Chester

Workers, both employed and unemployed! Rally to this mass meeting at which we will make plans for the relief of the unemployed, starving and hungry workers! Only through group of workers can we make the bosses come across in this town!

AGAIN; DISTRICT 3 SHOWS LIFE

Saturday's totals (up till 3 p. m.) took another drop-only \$366.21. Contributions from the New York district showed a slackening of efforts and for the first time New York contributed less than half the totals. Of the other districts, District 3 (Philadelphia) finally came to life with contributions of \$110. Keep it up, District 3!

District 15 (Connecticut), one of the smallest in the country, continued its spurt of the previous day with a \$22 contribution. District 7 (Detroit) showed a little more activity than usual, but \$29.75 is still far below the pace that should be set by a district with a \$3,500 quota.

District 8 (Chicago) slowed down considerably instead of speeding up, while Districts 4 (Buffalo), 10 (Kansas City), 11 (Agricultural), 13 (California), 17 (Birmingham), 18 (Butte) and 19 (Denver) were not heard from at all. District 13, with a quota of \$2,000, is thus continuing its shameful indifference to the fate of the Daily Worker. More activity from all the districts will be necessary to save our fighting Daily! In the lists of previous contributions we omitted including \$110 from

the workers of the Bronx Cooperative Stores, New York City.

The conference will be starvation in the Western Pennsylheld Sunday, June 14, at Irving vania coal fields, state troopers and coal and iron police failed to break The United Press dispatch

> "Hundreds of striking miners battled coal and iron police and state

troopers today in what was described as the worst rioting in Western Pennsylvania bituminous fields in nine years.

"The disorders climaxed the strike of more than 10,000 miners which began 10 days ago. (The strike is under the leadership of the Nationa Miners' Union.)

"Police hurled tear gas bombs discharged machine guns and swung their riot sticks to disperse The police break up meetings of the groups in Washington County. Half other group was stopped by the police a dozen persons, including two officers, were beaten severely, two miners were reported wounded slightly, and scores were said to have they retreated. Eight strikers were been beaten down by the police.

"Their tear gas exhausted, the police fired several clips from a machine gun to warn the aroused min- and joined the strike

pers. Arrival of additional trooper dispersed them. "One trooper was knocked were

his horse by a brick. Another troop er was dragged from his horse "Eyewitnesses said the troopers

ode into the groups of men beating them down with clubs.

"Over the entire battle scene hung gray cloud of tear gas.'

Many arrests were made, according to this same U. P. report. At New Kensington scabs were stoned and eight men arrested. A coal and iron cop was beaten when he at tacked a group of miners with his club. Arrests were made of strikers.

The U. P. telegram from Pittsburgh goes on to state that the coal and iron police transported the scabs to the mine under the protection of machine guns. This did no stop the mass picket lines. More troopers ware called to Washington. Adam Getto, organizer for the National Miners' Union, was arrested and beaten.

"At New Kensington," the U. F says, "the other extremity of the strike area, which extends to three counties in the western end of the state, strikebreakers were said to have been stoned as they went to work in the Kinloch mine of the Valley Camp Coal Co."

Mass picketing took place at the Westland mine. Two groups marched and the other from Cecil. One group two reached the mine and picketed. The and a fight followed. Tear gas was shot at the strikers. The men answered with a volley of stones as

arrested in New Kensington Over 800 miners are reported to have quit work at the Crescent mine

Weakness In Our Unemployment THE LIFE LINE

By SAM NESIN.

HOW is it that after all our activities in New York City, we only have seven branches of the Unemployed Council, and out of a total registration of about 15,000 unemployed workers we have less than 1,000 that are members?

We were not certain of our organization forms. At the July 4 National Unemployment Convention we were firmly convinced that industrial branches are the thing. After many months of activity, along that line we found that the Industrial Unemployed Councils were collapsible councils. We then agreed to work on a territorial basis, but we concentrated mainly on breadlines. flop houses, employment agencies and markets where the membership was shifty. This accounted for the great fluctuation in our membership. The acceptance of particular residential blocks as concentration points will result in a more steady membership and will involve whole families in the activities of the unemployed branches.

We are also faced with the problem of establishing some degree of permanency in the functionaries. It is a common occurrence to come to a meeting of the branch and find one secretary and at the next meeting he is gone. This applies to all functionaries and committees of the unemployed branches. Instead of sending committees from the branches of the Unemployed Council to various workers organizations for direct support for the work, we occupied ourselves with calling conferences and building super-structures. We dissipated our energies by attempting to build from the roof down when we should concentrate on doing the ground work of organizing functioning branches.

No women in our unemployed branches, constitutes a great weakness in our work and handicaps our approach to the neighborhood.

Attitude of Unions and Leagues-The attitude of our unions and leagues towards Inemployed Council is very mea strike takes place, they either a message asking for a certain kers to picket. These unions and leagues i st as a part of their concentration work at a particular factory or shop assign a number of members to the unemployed branch in that neighborhood. These assigned workers can give leadership to the branch and at the same time raise the question of solidarity with the employed workers as a normal phase of the branch activity. The same applies to the shop. Each union and league as well as workers fra-

ternal organizations should contribute a certain amount of money monthly for the organization of the unemployed

Work

The Functioning of Our Party in the Unemployment Work.

The Polburo resolution sharply criticizing the New York District on its burocratic methods in its work is correct. This condition is reflected in our unemployment work. Comrades who are furthest removed from the work give the most catagoric instructions. This applies to the district. the section committees, as well as to the unit buors. By not participating or becoming acquainted with the details of the work instructions cannot be anything else but burocratic and far from the actual requirements.

The net results of such directions is confusion, no organized fraction, either no work done or wasted energy. Doing work for the unemployed branches and wrongly, the branch being absolutely unconscious of it. Even when we do come down to the branch, it is done in a very dictatorial manner which is even wrong in our Party and particularly damaging in a mass organization. I will give some concrete illustrations of such misdirection. A section organizer decides to merge two branches of the Unemployed Council in the Bronx and a note is put up on the door to that effect. The secretary is transferred without the branch even knowing about it. When I came to the scheduled meeting 40 workers, including six housewives were present and up in arms about such action. Performances similar to this kind keep us busy undoing such situations when this time and energy could be spent in reaching the outside masses.

Take the issue of securing immediate relief for starving families. The section organizers are instructed by the district that on a certain day they must get a group of starving families and have a delegation at the Board of Estimates. Instead of advising them how to proceed with the work and leaving the delegation follow as the logical consequence of that work, we have a mechanical carrying out of the instructions.

The result is that in Harlem where we have thousands of Negro and white families starving they picked up a drunkard. A delegation went with him to City Hall that the neighborhood knew nothing about. The comrades worked hard carried out the instructions and here is the

Conducted by the Org. Dept. Central Committee, Communist Party, U. S. A.

Our Movement in Salt Lake City

By A. WAGENKNECHT.

ANY comrades will want to know how our movement among the unemployed workers in Salt Lake City, Utah, is getting on. Salt Lake City was "big in the news" last fall and winter. Nothing much has been heard from there lately. The other day a letter arrived in which a comrade states that "our movement was spontaneous and after spontaneity, reaction sets in." A few days after, a detailed report arrived, together with the leaflets issued by the Unemployed Counci in Salt Lake, From these leaflets we get the real reason why the large movement in this city has suffered a cer-

The leaflets received, ten of them, never even once listed any demands for immediate relief for the unemployed. They are all general and agitational in character. Seemingly the movement in Salt Lake remained an agitational movement, the immediate demands of the unemployed were not ascertained, the unemployed did not discuss their grievances, their demands. did not help plan activities and struggles. This, we think, led in the main to the loss of interest in the movement on the part of the un-

At one time our following among the workers numbered 5,000. A total of 2,000 made application for membership. Today there are between 200 and 300 members in the unemployed branch and about 125 come to meetings. Even this is still a formidable movement for this city. And if the comrades will launch into neighborhood activities, fight for food for needy families, consult the unemployed as to their demands, continue city-wide struggles for

these demands, then the movement will grow. The movement is again building, the comrades report. On April 28 a mass meeting of 1,000 workers was held. On May 1 about 800 workers paraded. Their headquarters is open all day to receive workers and hear their grievances. The active membership is increasing. despite a slight betterment in the unemployed situation. The membership in the Party has been increased from 6 to 40 since February. Salt Lake never had a Young Communist League before and now they have one of 35 members. Membership in the TUUL is growing. Concentration for contacts in the smelter towns close by and in the railroad shops is being carried out. The 100 Daily Workers they received has been cut to 50 but they hope to increase the order again. They have their eyes on the poor farmers in surrounding communities and intend to call them to their city convention to fight unemployment and starvation. Some activities are being carried on in city neighborhoods.

Despite the important shortcoming referred to, the comrades in Salt Lake have made definite organizational achievements. Is there any similar city that can report greater achievements in the Party Life column?

the Districts seem to have become satisfied to leave the Party Life column almost entirely to New York, Chicago and California. We are glad to get the articles from these three districts, but has the Kansas district nothing to report from all its experiences of breaking into new territory? Have Pittsburgh and Cleveland nothing to report from their experiences in Trade Union work in the mining and steel territory? Have Philadelphia, Buffalo and Detroit nothing to report that would be of help to comrades in other districts? The Party Life column should carry the experiences of the comrades in our work from all over the country.

One more note: Articles should not be longer than about 600 words. This is the most effective length, and it is only as an exception that

A Message to the "Daily Worker" Family

PRE-CONVENTION DISCUSSION

YOUNG COMMUNIST LEAGUE, U. S. A.

Our Anti-Militarist Work in California

VOU are reading the central organ of the Communist Party. We suppose you read it because you find in it something that you like. What it is that you like we would like to know. But there may be something else you don't like. We would like to know that, too!

There's a great big family of you readers of the Daily Worker! Three times as many as there are members in the Communist Party. It is easy for us to find out what the Communist Party thinks about the Daily. But we want to know what the whole Daily Worker Family thinks! We want to know what the whole working class thinks of us! In this and other messages to you we'll tell you how you can get the widest opinion

We want to know this because we, the Communists, depend upon the working class. We look only to workers for support, for subscriptions, donations and that same enthusiastic sympathy expressed in action which is putting the

AST summer we made a good beginning in

every CMTC camp in the state and also dis-

tributed in the NG camp at San Luis several

hundred "Red Guardsmen." However, the con-

tacts we made we never followed up. A mistake

we made in last year's CMTC camp was not hav-

ing worked out in detail a definite plan of action.

In one camp where we had two comrades these

were not notified of each other with the result

that not so much was accomplished as would

We should prepare for the military camps this

summer. Although the CMTC is important we

must put our main emphasis on the regular

forces and the NG. Comrades should wherever

possible be colonized, since this is the best

method of reaching the workers in uniform.

One of the best effective methods of reaching

the guardsmen is through the youth sections of

the Unemployed Councils and the TUUL, since

many of them are unemployed and those that

are working are bitterly exploited. A good ex-

ample of this is the Sacramento hunger march

in January when we distributed leaflets calling

upon them to refuse to be used as tools and

break up the demonstration. The guardsmen

passed remarks as "We're with you," etc. The

Youth Sections of the TUUL and UC are not as

"radical" (to use the Guardsmen's terms) as the

YCL and are, for this reason, a means of "break-

In Oakland several months ago we issued a

leaflet exposing the riot drill training that the

guardsmen were given, to the guardsmen them-

selves and also put in the cars. A short time

atter the distribution the armory became trans-

formed into a political discussion forum, where

Communism was being discussed. Of course our

comrades could go only so far, so as not to ex-

pose themselves. Many questions were asked

which we should have answered in a later leaflet.

We should also send down comrades to mix and

see what the feeling is among the guardsmen.

However, we did not follow up this splendid

start. After this we should issue regular leaflets

and make as a perspective the regular issuance

of "armory bulletins," taking up the everyday

demands and abuses to which the workers in

uniform are subjected to, such as, keeping the

Guardsmen until midnight going through a fed-

eral inspection as was recently done at the Ber-

keley armory, excessive drilling which is espe-

cially prevalent at the camps, being forced to

contribute to the mess fund (many outfits tax

the men so much for a fund to buy better feed,

as the government does not allow enough money

to get decent meals on). In some outfits, the

Guardsmen are required to pay the cooks wages,

being courtmartialed for missing drill, being

have been had they known each other.

anti-militarist work. We sent conrades into

Five Year Plan over in Four Years in the Soviet

It was not any "orders from the Kremlin" which developed the most wonderful thing in the Soviet Union-"revolutionary rivalry"-without which the Five Year Plan would have dragged along, but the enthusiasm of the mass of workers who understand clearly that in building up socialist industry they are building for themselves, their own industry!

Let us see if Daily Worker readers can match that by building up their own paper—the Daily Worker. Let each reader of the Daily, you who read these lines, think what he or she can do. In every center where there is an agent of the Daily Worker, he has instructions about forming a DAILY WORKER CLUB. We hope you will attend its meeting. Many ways in which you can tell us what you think of the Daily Worker, and how to help your favorite paper will be explained. But we will have more to tell you in our

forced to go to camp even if it means losing a

job with no compensation for it. (There was a

whole carload of Guardsmen who had to be ar-

rested and forced to go to camp at the point of

being courtmartialed last year at San Luis)

Of course these demands based on the above

grievances should be drawn up only after con-

sultation with the Guardsmen as to what they

think it is possible to accomplish and what they

are willing to fight for. Of course this must be

done in an informal manner, in friendly con-

Another example (just to show the need of

functioning anti-committees which we certainly

need) is a court martial which took place in

Oakland recently. A Guardsman was called be-

fore his battery (of course to embarrass him and

to intimidate the rest of the battery) and had a

sentence of five days in the county jail read off

to him. This worker had been unemployed and

not being able to get a job in Oakland he went

out into the country to try and find work. Of

course he could not attend drill in the city while

he was out of town. However, this made no dif-

ference to the officer who was out to show every-

body who was boss. The Guardsmen resented

this injustice to one of their fellow Guardsmen

very much. Our comrades reported this in plenty

of time but it was only after a month that the

leaflet came out and then it was poorly dis-

tributed if at all, and had very little effect. It

is falling down on such issues that hold our

The district has never sat down with the com-

rades in the armed forces and worked out a

plan of action, explaining to us the methods and

procedure by which we could achieve results. We

will have to correct this in the very near future.

Comrades inside the armed forces as well as

others who are assigned to this activity should

The tactic of inviting Guardsmen to parties

and dances to get acquainted is a good method

of approach which we must start beginning.

Whenever possible, comrades should join the

clubs, etc., which the workers in uniform belong

to (e.g., in the Field Artillery, they have organ-

ized what is known as the "Boots and Saddles

Club." The reason is of course obvious. At last

years camps, both CMTC and NG, there was

much propaganda against the Soviet Union

dished out, therefore it is of vital importance

that we nip this right on the inside as soon

The convention should set as one of its most

important tasks the drawing up of a compre-

hensive and concrete program of action for our

and even before it takes place.

work in the armed forces.

not be given everything else but anti-work.

Nicking Knickerbocker

It seems that a number of people are writing to the N. Y. Post about Knickerbocker and his "Red Trade Menace." One of them whose letter in the Post of June 1, opens up as follows:

"To the editor of the Evening Post: Sir-If one will carefully peruse the names of your correspondents relative to the Knickerbocker articles on Russia, they will note that those who look with disfavor on this interesting expose, are not of American extraction or in sympathy with American ideals, namely, 'Max Tart,' 'Adolph Wolff' and 'Dora Isaacs.'

Now that stimulated us to look at the names; although how a name could reveal not only a lack of "American extraction" but, as the writer indicates, a lack of "sympathy with American ideals," is beyond us. We looked over that very June 1 issue and what did we find?

Of those expressing a "fixed prejudice" we discovered, that: Those against Knickerbocker were named, Hollister Noble, J. Kelley and Paul Porter. While the only one besides the chap who had this notion about names, and that was really enthusiastically pro-Post and anti-Soviet was named—ISAAC POLIATSKIN.

A Landlord's Government

If you review the papers published just before election last year, you will see there Mayor Walker's promise that no unemployed worker would be evicted. But that was before election. Now-thousands of evictions are being carried

The capitalist papers which devote lots of ink to telling about the "Red Trade Menace" rarely if ever say a word about this menace of the landlords and their government. Wednesday, they had to mention two items, at least the Times did. In one case the Times had to make the following admission because 44 "reds" were arrested for putting the evicted worker's fur-

"The practice of moving evicted families back into their former homes has become frequent of late on the lower east side."

Now, if that practice has become "frequent," it stands to reason that evictions are also "frequent." So what has become of Mayor Walker's promise?

The second item forced itself into the Times because Peter Romano, 56, and jobless with a wife and three children, shot his landlord, Antonio Capace. Capace came demanding rent. and Romano told him that his wife had gone out

to raise the \$52 due for two months' rent: "Pay up or get out!" yelled the landlord, and gave the old man a shove that sent him sprawling to the sidewalk. The old worker "got out" a revolver and ended that landlord's abuse with four well-placed bullets. We suppose that this was the only way Romano had of emphasizing that Jimmy Walker's promise wasn't worth any-

Now let's look over the N. Y. State government. Somebody, probably interested in the plumbing business but proposing a bill in the recent State Assembly that certain classes of tenement dwellings must be furnished with toilets, saw the bill defeated. It would have forced landlords to spend some money to make workers' apartments sanitary, so it was voted down on the ground

that was "confiscatory legislation." We go to the II S Con 31, in the most sneaking secrecy and under the head of the "Appropriation Bill," there was put over a clause allowing the Post-Office Department, to pursue and harass any tenant who moves out without paying back rent.

The law hitherto forbid postal workers from telling anyone at all the address of any person. If you were a worker and, out of a job, couldn't pay your rent for the past month, so moved out and went to live with your relatives, the mail carrier was forbidden from telling the landlord or anyone else where you had ordered your mail sent.

The capitalist government has a tender feeling for landlords, so the U.S. Congress on Jan: 31. this year, altered this law, allowing the Post-Office to tell the landlord where you moved to, so he can follow you up and garnishee your wages if you ever get any.

Naturally, the landlord is under no obligation to keep this to himself, so the butcher and grocer will follow along and the furniture man will be after his installments or the furniture. When the burden of the crisis has to be borne. the capitalist government will see that the jobless worker, and not any capitalist, bears it.

All of which is a good reason for organizing Tenants' Leagues.

Take A Slant At This.

You may have noticed that we are getting all squeezed up these days. But there's fight in the Daily Worker yet because there's fight in its friends. We thought that the Daily, Red Sparks and all was going to skip its daily heartbeat last Saturday. But it's such things as the following that got us thtrough, squeezed down to two pages, true, but still in the ring. Read it:

The John Reed Club of New York noticed that our kid brother (or perhaps we should say, our offspring of Chicago) had contributed \$10. to the campaign to save the Daily Worker for lenge go unanswered, so at our last meeting we shook down our members to the tune of \$16.30 That's a good deal when you consider that most of us writers are so broke that our only possessions are the cigarettes we manage to bum from unsuspecting victims.

tural workers need the aDily as much as any. Especially now when we're about to hold a conference to launch a federation of all proletarian cultural groups in New York area (June 14th the date, the place Irving Plaza). We'd like to hear from these three groups in

Cultural Workers

the working class. We could not let this chal-

"We also herewith challenge the Proletpen (Yiddish proletarian writers), the Hammer and Sickle (Russian writers) and the Hungarian proletarian writers' group (whatever their name is) to beat our contribution.

"We feel that writers, artists and other culthe shape of dollars listed in the Daily Worker.

er. Often it is. Supreme Court Justice Cohen, for example, paid \$100,000 for his appointment, but then Cohen didn't feel the strain because his father-

Graft and Gangsters

in-law advanced the money as a wedding gift. Again, Supreme Court Justice Sherman was forced to pay \$150,000 and evidently thought it well worth it.

The Seabury Whitewash.

The Seabury investigation which is still on at the time this is written will not uncover any grafting that is not already known. The carefulness with which Referee Seabury moves gives the Tammany grafters all the opportunity they want to cover up their tracks. Emanuel H. Laviné, an experienced New York reporter, author of "The Third Degree," and a comprehensive book on New York graft, "Gimme," states about investigations of graft:

Selling Judgeships and Robbing Unemployed "Persons accustomed to the working of the machine, will not challenge the following prediction: After the white-washing, our political leaders will emerge slightly smudged angels, but angels (Tammany ones) nevertheless.

Lavine goes on to tell the remarkable story of graft in every department of the city and state government. He says that every city department has its graft charges for any kind of

"After every catastrophe, fire, collision, or serious accident there are always investigations and more investigations, but rarely any convictions. . . . As a rule plenty of money is expended in such cases to keep the wheels of

Tammany graft has gone so far that decayed meats are fed to the sick and infected milk is given to babies and children in schools and hospitals. Lavine relates in his book on New York graft. About the pettiest type of graftbut an indication of how thorough the grafting system in New York is-is related by this re-

cause they had no license."

in the honesty of (capitalist) government."

How to Use 'Party Life' Column

How To Use The Party Life Column. In the last couple of weeks, we note that the comrades have not been sending in to the Party Life column as many articles as formerly of the type which are really the most necessary and most instructive—that is, articles on our experiences in mass work. Recently, we have had several articles by unit members, unit functionaries, section functionaries, all dealing with questions of the actual relationships between these bodies in the Party, their shortcomings, their failure to work together well enough, etc. All these matters are important problems, otherwise we would not print articles about them at all. But they are not the main problems of the Party. The main problems of our Party work are the problems of our work among the masses -the problems of oru Trade Union work, of our unemployment work, of our work among the

Negroes, etc. What we want to print in Party Life is more of the type of articles we were getting formerly, dealing with the actual experiences of comrades-whether non-Party workers, rank-and-filers or lower or higher functionaries-in mass work, in approaching and organizing the workers. The article of Comrade Holden from South Carolina on the Unemployed Councils and the Trade Unions a couple of days ago, the recent article of Comrade Amter, on the approach to non-Party workers, the article of Comrade Wagenknecht printed above, analyzing the successes, failures and prospects of the Salt Lake unemployed movement-these are examples of the type of article which is most needed by Party Life—the type of article that provides for a real exchange of experiences, that gives real help to other comrades facing the same poblems.

Another point: in the last few weeks, most of | we can print anything langue

favor. ("Gimmee," page 5.)

justice from functioning properly.'

Feed Rotten Food.

"Recently I encountered a cop who, during this unemployment crisis, was petty enough to shake down peddlers for twenty-five cents, be-

These are just minute details of grafting in New York. Tammany Hall is able to keep it going and to keep the lid on. The republicans and socialists unite to "investigate" Tammany Hall, but neither of them wants the basis for graft-capitalism-wiped out. The republicans and socialists find graft muck-racking a good vote-catching trick. The socialists hope by "cleaning up" the more crude aspects of Tammany grafting to make capitalism and its city governments more palatable to the workers. Commenting on the Seabury "investigation" in New York and how much the socialists expected from it, Norman Thomas summed up the socialist attitude towards the grafting capitalist system. "Until people have faith in the honesty of government they will not trust government as their servant," wrote the Rev. Thomas in the New Leader of April 25, 1931. He even asks the workers to believe in the Seabury investigation as a partial means of "cleaning up" graft and thereby instilling "faith

(To be continued)
