#### The London Conference Leads to War

THE London "Seven Power Conference" has failed. Before it started the capitalist press cried out in alarm that, if it would fail—a new world war would soon begin.

The American capitalist press now says nothing about war-but it admits, cautiously, with every headline trying to lay the blame on French imperialism, that all plans for "saving Germany" have failed. The London, England, "Times"-voicing the attempt of British imperialism to put the blame on others, states

"So long as the United States Government declined to discuss war debts, and the French Government declined to discuss reparations, it was clear that no real progress could be made toward a permanent settlement of the economic problem of Germany.

This, then, is the net result of the hypocritical "Hoover Plan" on war debts and reparations: American imperialism will not give up the gigantic sums due it on war debts; and French imperialism will not give up reparations. There is clearly nothing left to discuss, although the Hoover Government continues to lie shamelessly in claiming that the "Hoover Plan," which by now nobody understands-is "adopted."

Even the most optimistic capitalist papers, such as the N. Y. Times (July 23) are compelled to contradict the stupid lies coming from the White House. The "Times" says:

"A published report from Washington to the effect that 'leading American bankers' had signed an agreement to carry out the administration's proposal for 'freezing' current short-term credits to Germany, was emphatically denied by all the institutions mentioned as well as by other important banks not specifically included in the report.

Thus, workers, you see the chief executive of this nation caught outright in a lie because a lie is his first refuge to cover up the failure of all his stupid plans to save-not Germany-but the \$3,000,000,000 of American capital invested in Germany.

Thus, worker, before your eyes is seen the failure and folly of the "great men" of capitalism. And remember, workers, that this failure was foretold by Maxim Litvinoff, speaking for the Soviet Union before the "European Commission" at Geneva on May 18. Litvinoff warned that-"Great armies are prepared at a moment's notice to plunge into bloody conflicts." But every proposal of real peace and disarmament by the Soviet Union is ignored by the imperialist war makers.

Opening the London conference, Ramsay MacDonald, the "socialist" lackey of British imperialism declared that unless the conference succeeded, the capitalist world faced a spread of "the Red peril"-a "peril" only to capitalism and its "socialist" servants-over central Europe.

Workers, you must expect an immediate thousand-fold increase of war propaganda against the Soviet Union, because these rival imperialist bandits, utterly unable to find any solution for the bankruptcy of their economic system, which throws tens of millions of workers and toiling farmers into starvation and consequently into a revolutionary attempt to overthrow these parasite plunderers of the masses, find it impossible to maintain their rule without violence against the toiling masses.

The workers and farmers, starving amid the boundless plenty of capitalist "over-production" and knowing that in the Soviet Union those who toil are assured food, shelter and clothing, knowing that in the Soviet Union there is no unemployment, nor wage cuts, but the seven-hour day and increasing wages, will not forever stand intensified hunger.

The imperialist world would therefore put out this beacon light of hope for the workers of the world! They would destroy the Soviet Union because it gives inspiration for revolution to the enslaved masses of Germany, now preparing to overthrow their slave drivers!

Workers, we warn you that only your hottest protest will cause the liars and war-makers to hold their hand! Organize in your shops, in your trade unions, everywhere uniting the employed and unemployed, the organized and unorganized, the youth, adult and women workers, join in the world-wide demonstrations against capitalism on August

Onto the streets on Argust First! Strike against wage cuts! Demand unemployment insurance: Defend the Soviet Union!

Almost spontaneously about 6 or 7 cars rode from house to house in the bowery of Central Falls in forming the workers. About 200 strikers greeted Ann with cheers for the union when she arrived in the station. A spontaneous parade with the singing of strike songs followed. At the Woodbine meeting, Nat Kaplan, District Organizer of the Communist Party, pointed out that the Farty was active in work of all the Rhode Island strikes. Tremendous applause greeted his remark that the capitalist government had acted as a strike breaker. PITTSBURGH, Pz., July 23.—The Central Rank and File Strike Committee meeting here sent the following telegram to the Striking Miners Relief Committee at Room 330, 799 Broadway, New York City:

"Central Rank and File Strike Committee at its session today decided to telegraph greetings of solidarity to New York and Philadelphia Relief Committees and urgently request that all workers of these two cities rally in the largest number possible for the tag days. Help us win the strike against starvation by immense collections for food and tents and milk for babies.

We have launched a new offensive and are taking preparatory steps. Other coal fields will be drawn into the strike. Therefore your aid must multiply speedily.

"Tomorrow we bury another striker shot by thugs on the picket line. Answer this murder by gigantic tag days in your cities and an immense money collection for strike relief thereby helping us to fight on to victory. Comrades! All out on tag day!"

Influence of T.U.U.L Grows in Struggle

The T. U. U. L. in the New York District is at present engaged in numerous struggles. In the needle industry the workers in the fur and other trades are carrying on a splendid battle against the bosses and the company union.

In Paterson, N. J., a general strike of textile workers has been declared. In the building trades, under the leadership of the T. U. U. L., growing movement of opposition is rapidly developing

The T. U. U. L. and the Unemployed Councils are the only force in the city that is continually conducting a militant fight against starvation and evictions.

The T. U. U. L. is rapidly growing in influence and numbers. The need for funds is now greater than ever before. The workers can show their solidarity with the T. U. U. L. by concretely helping to make the One Big Picnic on Aug. 2, at Pleasant Bay Park, a huge success.

#### Militant Tampa Cigar Workers Start Daily Worker Club Moving Tampa Sales of Daily Going Up Now

A challenge to all other districts must be the meteoric action of the Tampa Cigar Workers in their support for their fighting organizer, the Daily Worker. Recently they whizzed into the revolutionary atmosphere at its duliest moment, when the Daily was suffering the throes of its worst crisis, with a flash of \$500, wired across the country, to save their paper. Today the heartening and welcome news comes that they have taken up the call to organize clubs of readers, friends and sympathizers of the Daily Worker with the establishment of the first Daily Worker Club in Tampa. Florida. Surely this is a feather, in the cap of the revolutionary movement, Follows the letter of A. M. B.:

"This sub is from the new Read."

M. B.:

"This sub is from the new Readers' Club in the cigar factories. There are over 1,000 cigar workers here, none making over \$18 a week. They are all working on the stagger system. Watch the sales of the Daily go us. Will send in other subs in a day or so."

Workers who do not want their sames published because of pos-sible persecution should indicate this in sending in their contribu-tions. Collectors should ask those who contribute whether they want their names printed.

Totals on Tuesday slumped badly, to \$232.11. District 2 (New York) had a record low for the day, turning in only \$51.71. None of the other districts showed any real activity, while Districts 5 (Pittsburgh, 8 (Chicago), 9 (Minneanolis), 10 (Kansas City), 11 (Agricultural), 16 (the South) and 17 (Birmingham) dropped out altogether. None of these districts, except 17, which is way over the top, can afford to miss a single day.

PITTSBURGH, Pa., July 23 .- New mines on strike in Ohio were reported today by the Ohio members of the Central Rank and File Strike Committee, on their arrival in Pittsburgh to attend the session of the committee held today (July 22).

Hinchman mine, never organized before, is out. Lafferty mine, where the greatest terror rages, came out partly, today. At Moundsville, West Virginia, where three mines on strike were betrayed back to work by the U.M.W., the miners have sent for organizers of the National Miners

THE FOLLOWING STATEMENT WAS ADOPTED JULY 22 BY THE CENTRAL RANK AND FILE STRIKE COMMITTEE:

The Pittsburgh Post-Gazette and Sun-Telegraph, and other papers, are creating a disgusting smoke screen of lies and slander to excuse the increased terror against the 40,000 miners striking against starvation, and to try to place the blame for the terror on the National Miners

An editorial in today's Post-Gazette seeks to couple the shooting of two men in West Virginia "by persons unknown" according to the coroner's jury, with the failure of Fagan and Murray of the United Mine Workers to terrorize the miners of Cannonsburg and the consequent collapse of the U.M.W. fake meeting there.

It is characteristic that the Post-Gazette editorial says not one word about the shooting to death by an Ohio mine boss of William Simon, a 16-year old member of the National Miners Union. This is the more dastardly as the murder of Simon took place at practically the same time as the shooting in West Viriginia, about which the editorial was written, and the news of the murder of Simon was carried in the Post-Gazette: Neither does the editorial mention the murder of Filipovich, on his own front porch nor does it mention that Spiro Zigaric was murdered for protesting against the Wildwood injunction.

The Pittsburgh Sun-Telegraph editorial of July 21 states that the a joint conference of delegates of the of protest to the Governor of Ohio National Miners Union "has attained strikers and men still at work in and the county authorities over the and has been allowed to parade in murder of Simon, resolutions of pro- Pittsburgh" (as though that were an test to the Governor of Alabama abnormal privilege!) without menover the slaughter of Negro workers tioning that the Pittsburgh police at Camp Hill, and endorsed the Uni- have later arrested scores of miners cussion, "the increased attendance, ted Front Conference on Unemploy- for collecting food for their starving families, and that the police in some burgh. ## War on the Chinese Front!

By R. DOONPING.

IMPERIALIST war preparations are going on at feverish speed in every capitalist country on the globe. But war clouds have already burst into an ugly storm in China. There is already war on the Chinese front!

War has been such a frequent occurrence in China lately that superficial observers are likely to underestimate its importance, disregard its connection with world issues and dismiss it merely as another local "disturbance." But, as a matter of fact, no war in China can be correctly regarded as merely a local affair, and the present war, more than any former Chinese wars, has a deep international meaning and, indeed, can be considered as an integral part of recent developments in world politics.

There are in the military sense, five armed forces in China, the Manchurian army, Chiang Kai-Shek's army, the "buffer armies" of Shih Yu Shen, etc., the Canton group and the Red Armies. But politically, there are essentially only three groupings, the two counter-revolutionary cliques, one serving Yankee imperialism and the other the Anglo-Japanese "alliance," and the revolutionary Soviet forces of the workers and peasants. The four counter-revolutionary armed forces, and the two reactionary political groupings, are constantly entangled in inevitable contradictions and are busily maneuvering and counter-maneuvering and even engaged in armed struggles against each other, but they have a common hatred for the revolutionary workers and peasants. Because, socially, there are only two camps, the camp of the imperialists, landlords and capitalists, and the camp of the workers and peasants. This basic social alignment is far from being obscure to the reactionary groups. It underlies all their maneuvers. It is not for no reason that the cannons boom loudest on the Kiangsi front where the two basic social forces are in direct armed con-

That the fight between the two basic social alignments is the main issue in China, while all other issues occupy merely a subordinate place, is admitted even by T. V. Soong, Minister of Finance of the Nanking Government and Chiang Kai-Shek's right-hand man. Soong, in an official report, clearly states that "the present campaign of armies of the National Government against Kiangsi Communists is only a prelude to a life-and-death struggle between the Chinese social and economic system and the Communist system." (N. Y. Times, July 16.)

Thus, there is only one major front in China and that front is not an isolated front but a sector of the world-wide front in the struggle between the oppressor and the oppressed, between the forces of black reaction and decay and the forces of Red revolution and progress.

Wall Street imperialism, owing to its dominant position as one of the foremost capitalist powers, plays a particularly sinister role in this world-wide struggle. While Mellon and Stimson are pulling diplomatic strings in Paris and London, doing their best to "organize" European capitalism against the rising tide of the German Revolution and feverishly preparing for a desperate armed attack against the Soviet Union, American airplanes, machine guns and ammunition, handed to Chiang Kai-Shek with the open approval of the State Department at Washington, D. C., are massacring Chinese workers and peasants on the Kiangsi front! Deportation campaigns are launched in the United States to send revolutionary Chinese students and workers (Li and Hsi) to their death at the hands of Chiang Kai-Shek. Under the very eyes of American "advisers." Senators and Congressman in China, countless numbers of revolutionary Chinese workers and peasants, including the leader of the Chinese Communist Party, Comrade Hsian Chung-Fa, are tortured and butchered with the utmost

The anti-Communist war in China is part and parcel of the world campaign against Communism, fought with the weapons of lies, armed attack and white terror. China, being one of the weakest links in the imperialist chain, naturally witnesses the struggle in its highly developed stage and in its most acute form. But the fight is world-wide. The Kiangsi front is not a front in a Chinese war, but a Chinese front in the approaching world war!

The Chinese red forces, steeled in battle and experienced in prolonged warfare, fight bravely and intelligently. The recent reported orderly retreat of the Kiangsi Red Armies into Fukian does not signify defeat, despite the boastful reports of Chiang Kai-Shek. The Chinese front of the world struggle is taking the form of a somewhat prolonged civil war. The world proletariat can substantially contribute to bring about a speedy victory! Let the demonstration on August First be a mighty protest against imperialist war and a world-wide revolutionary mobilization for intensified struggle on all

## It Is Clear to the Miners!

Daily Worker Central Organ of the Communist Party U.S.A.

By ANN ALLEN.

ON SUNDAY, the girls from the mining patch and thereabouts, do not have to get up so early, to give out relief after the picket line. Sunday morning they can sleep.

But the girls do not sleep on Sunday morning. These are not times to think of comfort, and one's own little house. The girls take mops and brooms, hot water and strong-smelling soap, to the two-roomed, white-washed relief headquarters of their union. They scrub from the floor to the ceiling. When they are finished, everything is spotlessly clean. White-washed walls are without a spot. Everything is in its place. The floor shines. They cover the little table with a gay piece of oilcloth and place exactly in the middle, the oil lamp. This is their self-imposed work today, for their union, the N. M. U., that is leading them through this difficult life and death struggle. The girls admire their

Throughout the week, there are many difficulties in this relief headquarter. For the first weeks, there was plenty milk for the families with babies. And although some days passed when there was no bread, the fact that the children were not crying for food, was something to be glad for, and the picket line was not im paired. But now, relief was not coming in the drawn faces, and men, with dark lines in their faces stood before the relief headquarters and doggedly insisted that they must have food, that they did not want to scab. But sometimes there was no food-and the strike was in danger. The miners and their wives thought and said, what were the workers in Philadelphia, in New York, in Cincinnati, Los Angeles, Minneapolis, doing that they could let the miners go hungry and imperil the strike The socialists and the U. M. W. offered food. But "no poison, but working-class relief" was the miners' slogan. And what answer could the workers who had done little or nothing give?

In Santiago, a miner and his family of five small children, had lived three days on one loaf of bread. A miner from a neighboring town, who would not scab, came to beg some food from a sympathetic grocer, and could not return to his shack alone. He was weak from hunger, and had to be carried. What answer could the workers

The daughter of a scab said "My daddy is working. He didn't want to go back. But we kids only got greens from the relief, and my dady said to my mother 'I can't see them kids starve in front of my eyes'." The girl talked with tears in her eyes. She wanted to be a member of the Miners Children's Clubs, but the kids would not take her in. "My daddy won't join the United Mine Workers though, although his boss says he has to. My daddy is for the National." Repeat this case by the thousands, and

which they had been sitting. They were stopped only by the screams of a working-class woman and her thirteen-year-old daughter, who came to my rescue. Bleeding and bruised, I was assisted by them to the street car and given carfare, since I had lost what little I had during the fight. Although this attack was made right in the light, where there were many workers resting, no one raised a protest exceut the woman and her little daughter. My benefactors told me they had witnessed three similar attacks on Negro workers in less than a month.

These attacks serve to further disunite the white and Negro workers in this neighborhood. These attacks, therefore, serve to slow up the revolutionary movement in the south side. It is up to us, then, to begin a drive against this damnable white chauvinism

Firstly, a strong educational campaign must be carried on by the class-conscious white workers in this vicinity, closely allied with the classconscious Negro workers. Secondly, the whole working-class press

The Hungarian in the corner nods his head in affirmation. The young American stops twirling his cap. The whole picture is painted-of starvation, rebellion against starvation-of fight, and strike. But the organizer does not merely tell of conditions. He tells of the cause of those conditions. He speaks very simply. "Comrades, you must know that there are two classes-".

He speaks of class interests, of the anarchy of capitalism, of the slavery of the worker who sells his laboring power, of the exploitation of the boss, who owns the means of production, of the agencies that the boss uses to keep the worker in slavery. The organizer speaks of the struggle of the proletariat for power. He speaks of the Soviet Union, of six hours a day for miners, of rest periods, of bosses' palaces turned into rest homes, of socialized production. He speaks of the Russian Communist Party-of the life that will be under a working-class society. It is dark outside now. More than an hour and a half has passed. The seven are motionless, listening. Hungarian, Slovak, Russian, the four young Americans listen. They nod, when a special point seems peculiarly and personally

"And here, after the strike" the organizer says "there will still be coal operators, whether or not we win our 55c a ton. There will still be special deputies, judges and their injunctions. There will be capitalist newspapers, and bosses' schools. There will be very rich men, and those who are starving. After our cirile this system of slavery will enable the bosses to exploit us and our fellow-workers yet to cut our wages, and use all the agencies, of state and federal govern-

The organizer speaks of the republican and democrat, the socialist party, and makes them laugh at his pointed allusions. Then the organizer explains that there is a Communist Party in the United States, leading the workers. He tells of the Daily Worker, the only paper that has supported the miners' strike. He tells them that most of the strike leaders are Communists. Why? Because the Communist is always the leader in the working-class fight. The organizer tells again of the historical duty of the working class to overthrow this dving system. He explains how the Communist Party leads this historical fight of the working class for

#### Lies for the Imperialist War

"A service that in the stormiest hours of America's life and the bloodiest days of the life of the world has kept our people at peace with all the earth; a service that has kept homes happy, family circles unbroken while the old world staggers beneath its weight of mourning and death-. This triumph of yours will not be told in history by a great debt, a mammoth pension roll, vacant chairs at unhappy firesides and Decoration Day services to place flowers upon the mounds of those who achieved it, but it will be told in the victory of matchless diplomacy. and of irresistible logic, presenting in an unequalled manner the everlasting principle of justice." (Woodrow Wilson, Sept. 3, 1916)

These damnable lies were told seven months before the United States enterd the last imperialist war. The same lies are being told now as the imprialistes are preparing for the attack on the Soviet Union. Throw these lies in the face of the bosses liars. Defend the Soviet Union! All out on August First in a mighty demonstration against the imperialist was preparations.

The Russian speaks, "I have felt the lash of the czar's cossacks", he says,-and speaks in tensely saying that what was done to the czar must be done here.

"Well I am young", one young American says, "I have no experience. But I am glad I am young-so I can give the rest of my life to the abolishing of this damned capitalist systemhe stops shyly, alarmed at the determination of

The girl with shining eyes speaks, "Well, I think the same as my brother here. My father worked in the mines all his life. Worked, and we starved. Days went by, and we were hungry. Then this strike came, and I thought I was doing all I could. But I'll stay a Communist until I die!"

The other young American speaks. He is blond and powerful looking. "I can't talk exactly what I want to say," he blurts out, "but if my father could speak to you now, he could tell you some stories----. He had his back broke in the mines. He was a fighter, and I guess that's why I'm a fighter. I think we got to start the Communists here, and stick to it. Because I'm a worker-I'm part of the working class. And what else could I do, but to fight for them forever-?" He stops, and the rest speak. Tell of their own hard lives-tell of the Daily Worker. what it taught them.

The organizer, the Communist, gives them application cards. They all sign. A date is set for the next meeting. They all leave the relief headquarters together. And the girls do not go to the Corners where there is a dance They say little to one another. But all walk together. They part from the organizer reluctantly, and all shake hands warmly. There is a different feeling between them now. They are all Communists entrusted with the task of ending working class slavery.

A Party unit has just been born there in-These miners are determined to take up the strike problems as Communists. They feel their connection with the working class all over the world. They know their immediate task is to win this strike-to win against terror, against the bosses and their deputies-to win against hunger, and the deadly UMWA and Socialist relief-to win against all the capitalist forces united against them. Relief, milk, greens, meat, bread, no longer menu merely food, relief to them—these Communists, but agencies that will aid them win a working class victory. Milk. greens, bread, now mean weapons with which they are fighting the bosses. These new Communists look to the class conscious fellowworkers of the miners. They believe that those awake to this fight must devote their energies their lives to helping them win this victorybecause they now know it is a step forward to the final victory of the working class.

Fellow workers of the miners! There is only one answer you can give them! It is clear to the miners that you must send food, money, relief at once, to win this working class fight the significance of which the miners in the scrubbed relief headquarters now understand. sounding names" of the persons in this story, who, from the Buffalo Times of July 16, nevertheless seem to be 100 percenters, all of them. Also, the incident is thoroughly American including all its lighter phases, such as murder

Three young lads, Henry Buezkowski, Edward Borkowski and Edward Krajewski, went auto riding the night of July 5, to-O, lookit!to "Liberty Park" in the town of Cheektowaga. N. Y. We again warn you that everything is 100 per cent American and that there is no reason to think that the Polish Question has become entangled with the Five Nations of the

Leaving the car a bit, somebody stole Henry Buezkowski's coat with his auto driver's license. He notified the Cheektowaga police, who first assured him that he could drive without it, and then pinched him for doing as instructed. The desk sergeant notified Henry's mother,

who arranged bail with another 100 per center,, a Justice of the Peace named Pawlak, from there to the jail. We now yield the floor to a lawyer for Henry's mother, who said that she and Henry's sister, on arrival at jail: . . were kept waiting for more than an

hour without seeing the boy. Suddenly an ambulance drew up. The two women were told to wait outside. In a few minutes the ambulance physician came out and told the mother that Henry was dead and that he had hanged himself.

The lawyer entered the case because Henry's family don't believe Henry "hanged himself." He was healthy, had a good job and had no reason to kill himself. But Police Chief Emil Coppola (which is long for "cop"), another 100 per center and he said he did.

But it seems, according to a certain doctor who performed an autopsy, that Henry must have not only "hanged himself," but beat his own brains out before he did it!

That was rather awkward for the police, but they got the County Examiner, a Mr. Kujawa, to say that "as far as he was concerned" it was suicide and that the case "is now a closer

We are not interested in this case as a "labor case," it isn't. But workers should learn that the capitalist police, urged and ordered by the boss class to ever more savagery against revolutionary workers as the capitalists grow more fearful of revolt, become mad-dogs against the masses, ready to strike down anyone who has no "pull," as anti-social as a rattlesnake and worthy of the same respect.

#### Why Not Read Lenin?

To cover a number of questions recently sent us, about socialism, the dictatorship of the proletariat, and to explain that Stalin's speech is not any "backward step" as the capitalist papers say, we quote the following few paragraphs from Lenin's book, "The State and Revolution":

"Marx, not only with the greatest care takes into account the inevitable inequalities of men; he also takes cognizance of the fact that the mere conversion of the means of production into the common property of the whole of society-'Socialism' in the generally accepted sense of the word-does not remove the shortcomings of distribution and the inequality of 'bourgeois justice,' which continue to exist as long as the products are divided according to the quantity of 'work performed

"But these defects (Lenin here quotes Marx) are unavoidable in the first phase of Communist society, in the form in which it comes forth, after the prolonged travail of birth. from capitalist society. Justice can never be in advance of its stage of economic development, and of the cultural development of society conditioned by the latter."

And so, in the first phase of Communist society, generally called Socialism, bourgeois justice is not abolished in its entirety, but only in part, only in proportion to the economic transformation so far attained; that is, only in respect of the means of production. 'Bourgeois law' recognizes them as the private property of separate individuals. Socialism converts them into common property, and to that extent and only to that extent does 'bourgeois law' die out. But it continues to live as far as i's other part is concerned, in the capacity of regulator or adjuster dividing labor and alloting the products among the members of society.

'He who does not work, neither shall he eat'-this Socialist principle is already realized. 'For an equal quantity of labor an equal quantity of products'-this Socialist principle is also already realized. Nevertheless, this is not yet Communism, and this does not abolish 'bourgeois law' which gives to unequal individuals, in return for an unequal-in reality-amount of work, an equal quantity of products.

"This is a 'defect,' says Marx, but it is unavoidable during the first phase of Communism; for, if we are not to land in Utopia, we cannot imagine that, having overthrown capitalism, people will at once learn to work for society without any regulations by law; indeed, the abolition of capitalism does not immediately lay the economic foundations for such a change.

"In the highest phase of Communist society (Lenin again quotes Marx-Jorge), after the disappearance of the enslavement of man caused by his subjection to the principle of division of labor; when, together with this, the opposition between brain and manual work will have disappeared; when labor will have ceased to be a mere means of supporting life and will itself have become one of the first necessities of life; when, with the ellaround development of the individual, the productive forces, too, will have grown to maturity, and all the forces of social wealth will be pouring an uninterrupted torrent-only then will it be possible wholly to pass beyond the narrow horizon of bourgeois laws, and only then will society be able to inscribe on its banner: 'From each according to his ability; to each according to his needs'."

It seems necessary to repeat Lenin at thi length, because too many folks simply will no read; yet they are always ready to pop up with what the lawyers call a "fixed opinion"; or, iz some cases, they have read Lenin but haven't learned anything particular, and get troubled in their insides every time some pig of a bourgeois journalist solemnly declares that the Soviet Union is "going back to capitalism."

## Support the Struggles of the Colonial Peoples

By L AMTER.

THE demonstration of 200,000 workers in Manila was a stab at the heart of American imperialism. This is the first time, on a major scale, that the Filipinos have demonstrated for independence. True, after the Spanish-American war, the movement for independence was strong, but was misled and betra, ed by the national bourgeois leaders. There have been revolts of the mountain tribes, but these were put down by the Philippine constabulary. These were called "revolts of backward, savage" people, but it is clear that the Chinese Revolution has inspired the Philippine workers and peasants, and the crisis has driven them to action. The Manila demonstration, therefore, must not be regarded as a machination on the part of the nationalists, not even to please an American senator, who plays "revolutionist." This demonstration is the result of a mass movement caused by the desperation of the masses of workers and peasants, who, for the present, are being led by the national bourgeoisie. This revolt will turn into a revolutionary movement, led by the Communist Party, which is being organized through-

out the country. In Cuba, the revolutionary movement is suffering the horrors of hell. Machado, the butcher and tool of American imperialism, is trying to crush the revolutionary organizations of the workers and peasants. Many hundreds of revolutionists have been murdered. The Communist Party is illegal, and the revolutionary unions face suppression at all times. But, despite the terror, the crisis in the country, due to the sugar over-production, is driving the workers and peasants forward. Despite butchery and mas-

sacre, the Communist Party carries on its work. In Nicaragua, the revolt of the "outlaws" cannot be put down, and the marines know that their task cannot be ended. The situation in Nicaragua and Panama continues to grow more crious for the imperialists, for the crisis weighs down on the shoulders of the workers and poor

Mexico, South and Central America are going through the world crisis. This is being put on the shoulders of the workers and peasants. The world coffee crisis, affecting Brazil; the slashing drop in the price of copper and potash in Chile, the closing down of production, both agricultural and industrial, throughout South America, have driven the South American country into bankruptcy. This has caused alarm in Washington, just as the threatening collapse of German capitalism shocked the imperialist capitals of the world. And just as Hoover proposed a "debt holiday" for Germany, with a stake of about three billion dollars in Germany, so, too, In South America, where close to six billion dollars of American money is invested, with trade Amounting to hundreds of millions (which has been seriously hit by the crisis), a "moratorium" is being proposed. This has rejoiced the hearts of the South and Central American capitalists, who think that in this way the crisis will be overcome, just as Hoover, Bruening, MacDonald and Laval think it will be overcome in Europe. This will be in vain. The crisis will only break with greater severity, and the crash will be complete.

To avoid revolution, the imperialists, who see ruination for their system, are heading toward war. This is being intensified every day by the growing success in fulfilling the Five Year Plan in the Soviet Union. No more can the capitalists speak of the "breakdown" of Soviet economy. They see the menace to their system, with starvation, misery, over-production, wagecuts, speed-up in their own countries, while the new system of Socialism grows with gigantic steps in the Soviet Union. Therefore, war is being prepared with intense haste against the Soviet Union, the most energetic proponents of it being the fascist leaders of the American Federation of Labor, the socialist party and the

It the duty of the American work to sup-

port the colonial workers and peasants in their struggle against the bloody terror in Mexico, South and Central America. As long as the colonies remain, the fascist terror will continue. The American workers cannot get free from the yoke of capitalism but through the united struggle with the colonial masses.

The District of New York has the especial duty of helping the Cuban workers and peasants in their struggle against the murderous fascist Machado government, the agent of American imperialism. This support must be given not only in demonstrations and resolutions, but in material support to the masses through their revolutionary organizations.

On Friday, July 24, at 8 p.m., at Irving Plaza, 15th St. and Irving Place, the Anti-Imperialist League of New York is calling a conference to Latin-American countries in New York with the organizations of the American workers, in JOINT STRUGGLE against American imperialism and their tools in government in Latin-America. This struggle is not only against the capitalists and their capitalist agents, but likewise against the leadership of the A. F. of L. and the "socialist" party, who support the savage attacks of American imperialism, and of the fascist governments on the revolutionary workers and peasants of Latin-America.

Elect delegates to this conference and make it not only an expression of revolutionary opposition to imperialism, but also an instrument of revolutionary activity against the enemies of the workers and peasants, not only of Latin-

America, but likewise of the United States. Down with world imperialism! Demand the independence of the colonies!

Defend the Soviet Union against armed inter-Support the coming German Revolution!

#### Our Immediate Tasks Among the Workers on the South Side of Chicago

By D. R. POINDEXTER.

(Section 2, Chicago.) **0** the south side, we have a worknig-class neighborhood where we should have the best class solidarity. Instead we find that the bosses have been able to keep up their segregation and Jim-Crow policies. A wave of hate still exists in the minds of the whites who live in the section between 31st and 70th Sts., the hot-bed of the boss-prepared race riots of 1919. It is here the bosses have repeated again and again that the Negro was responsible for this onslaught in which many working-class lives were needlessly lost. This lie which has gone on uncorrected has caused much abuse to the Negro, who has fallen victim of many murderous attacks by the hands of encouraged hoodlums, who make it their duty to interfere with any colored worker who might by some chance pass through this territory. There are two cases on record where defenseless Negroes were actually murdered and a score or more where they were viciously slugged. I. myself, am one of

ing at about 11 p.m. I was accosted by a gang of these "gentlemen" and was asked: "Nigger, where are you going?" and "What are you doing in this territory?" I told them that since they were not officers. I thought it was not their affair.
