### HOOVER "RELIEF" SCANDAL SHOCKS WASHINGTON AS 1500 HUNGER MARCHERS START FOR CAPITAL

### Hands Off Workers Fighting IN PLAN TO For Unemployment Insurance Hands Off All Working Class Organizations!

THE arrest and indictment in Illinois for criminal syndicalism of Bill Gebert, district organizer of the Communist Party. Joe Tash, national organizer for the National Miners' Union, and six other active comrades, almost at once the publication of the open letter of Matthew Woll to sanators and congressmen, denouncing the National Hunger March and calling for the jailing of Communists and the suppression of the Communist Party.

Woll cites the recent example of the railroading of Tim Buck and scren other leading Canadian Communists to five years in prison for "leditious conspiracy" against the government of the Dominion, as the proper method to be followed in combatting Communism in the United

But this is not all. Sourred on by the incitements of the agents of organisations of reaction like hte Civic Federation, for which Woll speaks as well for the executive council of the American Federation of Labor, hundreds of police and state troops in Detroit and the vicinity of Pittoburgh have carried out armed attacks upon hunger marchers and demonstrating workers.

Woil points to the Cleveland chamber of commerce as a body which knows how to deal with hungry workers and hunger marchers. He says: the chamber warned tradesmen and others along the projected route not to contribute food or shelter to the marchers, nor in any way to enccurage them."

Woll deliberately refrains from mentioning the additional fact that the chamber of commerce so encouraged the Cleveland police that they murdered two unemployed Negro workers, Jack Rayford and Edward Jackson, during a demonstration.

In the belly-crawling to the Hunger President now in the White House in which Woll indulges in the second paragraph of his fascist document he not only places his fat rear end in such a convenient position that no hungry worker will resist the temptation to deliver a healthy kick, but he exposes himself as a supporter of all the humiliation, degradation, starvation and oppression now being inflicted upon millions of the working class by the Hoover-Wall Street starvation program masked by the titl of "Emergency Unemployment Relief."

Woll says: "The Communists are determined that, if they can prevent it, not even th president of the United States shall be allowed to initiate anything that might tend to make less menacing to our present order a situation so much to their liking."

The Communist Party did not create the present situation. Capitalism and capitalists did. It is no wonder that with 12,000,000 hungry and starving unemployed workers clamoring for food and shelter capitalism's lickspittles like Woll hate to hear such elementary truths repeated over

and over again so workers can read and hear them. The Communist Party is determined that "not even the president of the United States shall be allowed to initiate anything" that adds to the misery of the hungry masses, that takes hard-earned dollars by threats and coercion from the pockets of workers still employed to save the billionaire bankers and bosses the expnse of maintaining the workers

they have thrown out to beg, steal or starve. The Communist Party is determined to do its utmost, not only to expose the rottenness and decline of capitalism and convince workers of the ripeness of the time for struggle for its ovrthrow, but to organize such a powerful movement for unemployment insurance that at least a minimum of decent living for the unemployed and their dependents will

be wrested from the capitalist class. The Communist Party will do and is doing its utmost to rally the American working class for a victorious struggle to secure Unemployment Insurance, place the burden of mass unemployment now borne by the working class upon the class which rules and robs them-the class for

Woll wants to solve the unemployment question by suppressive laws. He would feed the hungry millions by jailing and deporting Communists and all militant workers, by outlawing the Communist Party; he wants to save capitalism by driving the workers' standard of living still lower. by smashing the militant mass struggles of employed and unemployed.

Bobby bought his ticket and went in with a number of children, black and white. The children ran in and out, without Ralph Perella, the ticket taker, interfering. All of a sudden Perella swung around. grabbed the Negro child, and told him he would have to pay again to get in. Bobby ducked and ran through. Perella grabbed a heavy broomstick and slammed it across the Negro

child's head. The boy fell, with blood streaming from his head. A passerby picked up the child and brought him to 118 Darlan Street and left him at the foot of the steep flight of steps leading up to the ram-

Call On Workers to Support National Hunger March

Woll Sells "Industrial" Insurance to Bosses

Pointing out that Matthew Woll, acting president of the National Civic Federatio n and and vice-president of the American Federation of Labor, whose statement denouncing the National Hunger March and calling for jailing of the workers taking part in it, has been given wide circulation in the press after being sent to all Congressmen and Senators, is also president of the Union Labor Life Insurance Company which sells "ndustrial" insurance to employers, the National Hunger Marche Committee of Unemployed Councils, through A. W. Mills, organizer, today issued the following statement and at the same time made public its proposals for a Federal Workers' Unemployment Insurance Bill to be presented to Con-

gress by the 1,500 hunger marchers on December 7th. "We have received no reply from Mr. Woll to our challenge issued yesterday to debate with a spokesman of the Unemployed Councils and we now call the attention of Mr. Woll to the demands contained in our draft bill and again challenge him to reply in debate, before mass meetings of the workers in any city or any number of cities he may select and at any time and place, to our proposals." Focuses Attention On National Hunger March

WASHINGTON, D. C., Nov. 26.—A terrific scandal, directly involving President Hoover, has broken out here over revealations that the federal employees are being forced by threats of loss of privileges such as vacations, etc., to contribute three day's pay to the Gifford relief by direct

order sanctioned by Hoover himself. The facts were first set forth in a leaflet by the Unemployed Councils which, under the direction of the Washington Arrangements Committee for the National Hunger March, are preparing for the reception of 1.500 National Hunger March delegates arriving here Dec. 6 to demand unemployment insurance and immediate winter relief from the federal government.

The Washington papers point out specifically that Lieut, Colonel U. S. #### Hugo Gellert to Draw Hoover's Fake Jobless Group

Have you ever seen the members of Hoover's emergency unemploymentrelief committee Do you know who they are? What do you know about the men who are organizing the struggle against the 12,000,000 unemployed and their families?. These are the men Matthew Woll, the socialist; Mayor Walker and others defend. Every worker should know thee exploiters, among the most power ful in the United States.

Hugo Gellert, famous revolutionary artist, with his powerful style of caricature, is going to pleture these individuals for the Daily Worker. Each day, beginning or Monday, the Daily Worker will carry an original portrait of this hunger-enforcing committee drawn by Hugo Gellert specially for this

Along with Gellert's masterly portrayal of this important group of capitalist, whose job is to keep the workers starving within peaceful and unresisting bounds, the Daily Worker has made a detailed investigation of each of the mem bers of Hoover's committee. Some startling facts will be revealed about all of them.

Second Blood Spilling

NEW YORK.—This is the second time within a short period that the Czech police have spilled the blood of the unemployed. Late last year a demonstration of unemployed was attacked by police. They wantonly shot down and murdered several unemployed workers.

In the Czech Parliament, report the capitalist press, the Communist Party raised a stormy scene denouncing the deliberate murder of the unemployed and women and children. The "socialist" deputies, who heretofore have always aided the capitalists against the unemployed movement, were forced by events to mumble words of protest. The scandal which has shocked the Capital has gone so far that Sanitary Engineer J. B. Gordon has explained in the press how he clubbed into line the twenty per cent of the employes in his department who at first refused to sign payrolls making the deductions of three days' pay.

Senator Couzens is calling for an

however voluntary the system might be officially, the wise employes would contribute to avoid what might happen later. I was told that one copy would be sent to the Personnel Clasification Board and one would be kept by the District Personnel Board. Obviously, in the future whenever one of these lists showed that 99 men in an office had contributed and I had not, it would be very hard for the one who had not to get any favors

"This collection is being made as no other that I have ever had anything to do with. Our instructions come from the President through the Civil Service Commission. 20 Per Cent Fail to Sign "About 20 per cent of my men did not sign when the list was taken around. I called each of them in and told them what I have just stated. Most of them then signed, but some of them still refused.

Gordon warned those who did not ign that while "officially" the contributions were voluntary, "unofficially, itis quite evident that those who do not contribute will be marked men in Government circles." Furthermore, Gordon told them of

Making More Threats

The terrific sensation which publication of these instructions and threats has had in Washington has resulted in editorials in the papers excusing the coercion aspects and telling the employes of the government to pay up and shut up. The Washington Star, for instance says: "The spirit of charity needs a pump The business of raising money for

The Executive Committee has offered certain childish explanations in excuse for its acts, the most important of which is a denial that lists of those refusing to pay are to be submitted to personnel directors for punishment, But it is admitted that the lists are to be sent to certain of. ficials of the committee in charge of collections, "to check up", that those officials of the committee are the very same men who are personnel directors in the government depart-

### THE NATIONAL HUNGER MARCH AND THE MINERS OF PENNSYLVANIA

By VINCENT KEMENOVICH.

THE mining industry is known as one of the "sickest" industries of the capitalist economic structure. Its sickness dates back to the pre-war days, and it was the first industry to feel mass rationalization.

In 1923, when other industries were still employing new groups of workers by tens of thousands, in the mining industry, according to the bosses and J. L. Lewis, there were 250,000 miners too many. At that period there was still over 750,000 miners employed in the Bituminous fields, and 180,000 in the Anthracite industry.

Since then, due to the intense speed-up, mass rationalization, and narrowing down of the Bituminous markets .this number was lowered to 257,000 Bituminous miners for 1930, or a half million less in 7 years

The Key State.

Pennsylvania is the key Bituminous coal producing state, and employed nearly a quarter of a million miners in the Bituminous fields. Now this number is lowered below the 100,000 mark. The production of coal for the Pennsylvania Bituminous fields in the month of October, 1923, according to the Federal Department of Labor Bureau of Mines, was 3,149,000 tons. The same and month in 1929, the production was 2,897,000; and for the same period in 1930, it was 2,532,000; and in 1931, 1,914,000 tons.

In the period between 1923-1929, production was lowered by 342,000 tons. But in the two years of 1930-1931, the production fell by an additional 807,000 tons, lowering the production during the entire period by 1,235,000 tons. This does not express the real crisis, because the month of October is one of the busiest months in the industry. It's the last few days of the Great Lakes trade when the final spurt for this market takes place and the orders for the winter supply of coal reaches the peak.

Many Company Schemes.

These figures do not express the real situation incofar as the miners are concerned. Whereas, in 1923 there were very few loading machines and no conveyors, now every large mine is loped with either one or both, and the numbar of men necessary to produce this tonnage is less by far than the number required in 1923 when the coal was loaded by hand

The coal corporations, in order to keep up the protonce of employing large numbers of men, use all kinds of schemes in order to support this myth. Thus for example, the H. C. Frick, a suboldiary of the U. S. Steel, works their single men and outsiders (those not renting the company houses) two weeks and lays them off the next two weeks, and since a majority of its mines are working only one to two days a week, these men actually get three to four days work a

The Republic Steel, on the other hand, gives one working place to three miners, and since it is impossible for more than two men to work in one place, it means that every third working day is a lay-off day for one of the men.

The Pittsburgh Coal, Hillman, etc., have the so-called "idle day's" work. That is, the mine does not work officially, but special sections or crews, especially the conveyor and machine loaders work on these days. Since these groups produce on the average of twice and three times as much coal as by the hand loading method, it is self-evident that of the 100,000 that are still employed, the majority get only a few days' work work during the slack period.

On top of this, the wages of the miners have been slashed again and again, and it is safe to say that through the cuts, new methods of production, rationalization ,etc., the earnings of the mirers have been reduced 75 to 80 per cent, and the starvation of the unemployed is equalled only by he starvation of the "employed."

Coal Company "Relief." What are the corporations doing to help the unemployed? The Pittsburgh Coal Company taxes, out of the starvation wages of those who are employed, \$1 a day and gives relief in the

Local Government "Relief."

What is the government doing? The local township, borough and county governments are doing practically nothing. The township officials generally claim that they have no money. The borough governments claim they can only help the residents of the borough, while the counties claim poverty. Only in counties where we carried on sharp struggles (Washington) the county is paying \$1 to \$1.50 to a person per month. This starvation relief is given in the form of an order upon a store selected by the county representative and in a great majority of cases, the prices are equal to the company store prices. The workers receiving this relief must accept what is given to them, and not what they want.

Forced Labor Under Pinchot.

The State Government under the "liberal" Pinchot is proposing a special tax upon gasoline, autos, cigarettes, etc., commodities that workers use in the main. The revenues thus raised will be spent by employing the unemployed upon the state roads. These unemployed and their families will be forced to leave their homes and live in the road camps, work for non-union wages, and live under the worst slave conditions. They talk about forced labor in the Soviet Union but we have it under our democratic form of government with a "friend of labor" at the helm. UMWA Aids Starvation Program.

The A. F. of L. unions, and mainly the UMWA, have given their unstinted cooperation to the program of the bosses and the government in placing the entire burden of the crisis upon the backs of the workers. It was the UMWA that attempted to lead a new 15 per cent wage cut in the Terminal mines, in order to outscab the scabs. In all the struggles of the miners, it is the holy trinity of the corporation, the state, and the UMWA that the miners must fight.

We were able to organize two county hunger marches that involved over 50,000 workers during the last strike. Since then, on October 17th, marches were organized in Fayette and Westmoreland counties with nearly 20,000 participating. The miners are fighting on every front.

Mass Support For Hunger March. Due to our struggles for the unemployed, we were able to approach organizations to support the National Hunger March whom we never could speak to before. We got delegates and funds for the National Hunger March from organizations formerly controlled by the Socialists. All the United Front Conferences held up to now were successful, and the delegates elected to go to Washington, D. C., represents the employed and unemployed Negroes, youth and women.

### Railroad Profits & Wage Cuts

By LABOR RESEARCH ASSOCIATION.

IN trying to weaken the railroad workers' resistance to wage cuts by telling "hard-luck" stories about railroad capital, railroad and union officials are keeping very quiet about the high profits gathered in by the railroads during the boom years before the present crisis. Total operating revenues were climbing and a steadily expanding slice was taken out by the capitalist

The record of what happened to the workers and what happened to the capitalists during "prosperity" is important as background to the resent wage cutting campaign in the rai

Workers remember well the crisis of 1921, when in the course of two years about 400,000 railroad workers were displaced, wage rates were slashed twice-with the approval of government boards and boss serving union officials-and the total railroad payroll was cut by more than \$1,000,000,000. Shop workers resisted in the "outlaw" strike of 1922, which was defeated by a combination of reactionary union officials to labor betrayers, and a water-tight anti-strike

This cleared the way for the boom, with rising profits and further decrease in the number of workers. High-salaried executives increased: the number of minor executives on daily pay remained about the same; but the number of workers paid by the hour went down from an average of 1,630,439 in 1924 to an average of 1,539,385 in 1929. Operating revenues were pushed up and operating expenses were pushed down. "Other income" from non-cilroad investments held by the railroad corporations also increased. So more money was available and

most of it went to the capitalist class. Spokesmen for the capitalists point out that the average hourly wage paid went up from 59.7 cents in 1924 to 63.7 cents in 1929. They are not so fond of mentioning that since fewer workers were employed the total payroll of hourly workers increased less than 2 per cent. And they keep very quiet about the much greater increases that went to the capitalist class. The payroll of highly paid executives increased nearly 13 per cent and the total paid in interest on railroad bonds plus dividends on railroad stocks increased nearly 15 per cent.

Partly the increase in dividends reflected an increase in capital investment, but most of the big systems were paying the stockholders a rising dividend rate on each share of stock. For

The New York Central Railroad Co., which has taken the lead now in asking for a "voluntary" wage cut, pushed its dividend rate up from 5 per cent in 1922 to 6 per cent, then 7 and 71/2 per cent. From 1928 to 1930 inclusive it paid 8 per cent, or \$8 on each \$100 par value share of stock.

The Pennsylvania Railroad pushed its dividend rate up gradually from 41/2 per cent in 1921 and 1922 to 7 per cent in 1928. The rate was raised again to an 8 per cent yearly basis in the spring of 1929 and this rate was maintained through the first two quarters of 1931. Atchison, Topeka and Santa Fe, one of the

largest and most solidly prosperous systems in the United States, pushed up from 6 per cent to 10 per cent, and this rate has been carried through 1931. Many other examples could be given. After the crash, the Class 1 railroads together

paid a larger total in dividends in 1930 than in 1929. Some companies paid their 1930 dividends partly from accumulated surplus, but taking the group as a whole, they not only paid dividends but added \$335,633,000 to surplus. For 19311, figures are still very incomplete. But the Wall Street Journal reports that of 30 major systems. 20 are clearing some net profit (after payment of bond interest and other so-called fixed charges), and 9 are still earning enough to cover

### The I. L. D. Demands the Release of Miners Jailed for Strike Activity

T is the usual proceedure of the capitalists that I after a strike is over the workers arrested during the strike are dealt with less severely by the capitalist courts. But not so during the recent strike of 45,000 coal miners. During the last month Tom Myerscough, Leo Thompson, Adam Ghetto, Bob Young, Stella Rasefsky and 24 other miners were sentenced to long terms in Blawnox Penitentiary on charges resulting from the strike Scores of others were sentenced to smaller term to the different county jails

The reasons for this unusual severity of the bosses are many, but the most important reason is that the coal barons know that the last strike did not defeat the miners, that the miners came out from the strike with a strong National Miners' Union. The incident in the Pittsburgh Terminal, where the coal owners admitted that in spite of the full co-operation that the U. M. W. are willing to give them, they can't put over follow the leadership of the N.M.U., is an indication to what extent the N.M.U. has the con-

In New Kensington Governor Pinchot's state police raided the N·M.U. headquarters and closed up the hall. It was only because of the mass struggle that the workers of New Kensington put up that the authorities were forced to reopen the miners' hall. In Brownsville the N.M.U. headquarters were raided by the state and federal police, and the union organizer, Philip Giambatista, arrested and is being held on deportation charges.

In Cannonsburgh the police raided the N.M.U. headquarters and arersted three workers, railroading Joe Murphy to 60 days to the Blawnox Workhouse on the flimsy charge of vagrancy and the two others to five days on charges of gambling because they had raffle tickets with them. In Pittsburgh a public hearing of the Unemployed was raided, the workers driven out of the hall and six workers arrested. Throughout Washington County the hall keepers were warned by the state police that they would rent no hall to the N.M.U. or any other workers' organization.

Throughout the mine fields the workers are beginning to conduct splendid fights for the right to organize-to meet-to strike and picket. New Kensington is a good example of the fighting spirit of the workers. The hunger marchers in Fayette County, where 15,000 workers linked up their demand for relief with the demand to free Giambatista, Tom Myerscough, Leo Thompson, Tom Mooney and all other class-war prisoners, is another example.

their present dividend rates. Most of them have cut dividends, but only 7 have stopped dividend

For the capitalists, who demand that a regular and unbroken income for themselves shall at any cost to the workers be drawn off from the value created by the working class, this is a serious crisis! Large profits paid out to them through 1930 do not satisfy the investors today. They insist that workers must be made to carry the whole burden of stagnant industry.

But without open and general wage cuts, the burden already laid upon the railroad workers has been unbearable. August and July are the months of heaviest railroad employment. Compare August, 1931, with August of 1930 and 1929:

### For a Mass Circulation of the "Liberator" in the Fight for Negro Rights

OUR front of struggle for Negro rights widens. culation increase of the Liberator goes hand in hand with our daily struggles for Negro rights. The lynch masters, the profit-greedy bosses, are increasing and sharpening their bloody weapons of struggle. The workers, both white and Negro, must increase and improve their weapons of struggle. The Liberator is an indispenible weapon in organizing the Negro and white workers for joint struggles for the defense of Negro rights, for the National Liberation movement of the Negro people.

The growing terror against the Negro masses is being fought by the white and Negro workers. The massacre of the Chicago and Cleveland unemployed did not go by unchallenged. The sacrifice of these workers was not in vain. The heroic fight of the share croppers in the South demonstrated to the Southern white landlords that the Southern Negroes will defend themselves against the attacks of their masters. The fight for the freedom of the Scottsboro boys has thrown panic into the ranks of the white ruling class and their tools-the Negro bourgeoisie. Why? Because for the first time, on a nationwide basis—in fact, on an international basis. the white workers, under Communist leadership, fight for the rights of the Negro masses, an oppressed people.

These struggles open up new pages in the history of the Negro peop's. In these struggles the white workers, for the first time, have demonstrated on a mass scale that they are beginning to part with race prejudice, the pride of American "civilization" which stinks of the old slave market. But these struggles are the mere beginnings. Lynchings are on the increase. Jim-Crowism is being extended and widened. Poverty, misery, disease, are increasing daily. lot of the Negro share-croppers in the South is getting worse than that under slavery conditions. The bosses, bankers and landlords are increasing their lynch terror in order to silence the Negro masses. They increase their poisonous propaganda of antagonism against the Negro race, thus hoping to prevent the white workers from defending their Negro brothers from the murderous attacks of their common enemy. We are weak in our fight because we lack a mass organ which VOICES the grievances of an oppressed Negro nation-an organ which cleanses the white workers' minds of the becces' retten idea, that his Negro brother is inferior to him. We must build a paper which will unite the Negro and white workers in the daily fight against lynchings and discrimination, on the job, in the neighborhood, etc. Above all, we need a paper which will become an ORGANIZER in our struggle for Negro rights. Can we with a clear conscience say that the Liberator, with its present circulation, can fulfill the task and duty of an AGI-TATOR and ORGANIZER in the National Liberation movement in the fight against race prejudice? By no means

The drive for 10,000 new readers of the Liberator must, therefore, he considered as a major campaign in our struggle for Negro rights, and every worker, Negro and white, should distribute the Liberator, sell the Liberator, build the Liberator in the shops, the trade unions and in the homes.

#### A Rogues' Gallery

Readers of this column might strain a point the coming week by looking at the rest of the paper, most particularly the front page, where, we are informed, a daily item will be pictures and pedigrees from a Rogues' Gallery of caricatures (drawn by Hugo Gellert) of members of the Hoover-Gifford Commission for the salvation of downtrodden millionaires from the grasping demands of the lower clawsses. The series will begin Monday, Nov. 30.

By the way, the numerous "benefit" games be ing put over by capitalist sport organizations for the relief of "idle" rich from paying taxes to finance unemployment insurance, is being countered by real support to the unemployed by the Labor Sports Union, which is not only contributing its services in training the marchers to Washington, but here in New York is raising funds for the marchers by a Sports Festival at the Dyckman Oval this Sunday afternoon.

#### Puke-ism, a New One

We were a bit astonished to learn that, in the Lettish language, the god of wealth or greed or, one might say, of capitalism, known in English as "Mammon," is known as "Puke." So informs us Comrade Leonard Spier, who was so tickled by it that he enclosed a poem, from which we quote as much as space allows:

PUKE-ISM I learned it first at a free-soup station, Sponsored by our christian nation; For after long weeks on a shivering line, At last, alas, I, too, got mine!

They pulled me gently past the rope To give me something—soup or soap—
I can't remember. But what they gave Sent me a decade toward the grave. Yes, I hurled aside the Good Old Book And damned all saints from Jobe to Luke, Yet unaware I worshipped there When I bent my knees to Puke!

But once my reverence reached a crisis, Became an ailment worse than Christ is. It was a holiday-forgot the name-I heard our President proclaim, The great traditions of our land . . .

Blaba . . . blaba . . . and, and . . ." And then I yielded, faint and frail, And for an altar used a pail! For I'd hurled aside the Good Old Book, And cursed all names from Job to Luke, Yet unaware I worshipped there, When I bowed my head to Puke!

### You Can't Buffalo these Boys!

When it comes to Americanizing the Communist Party, all bets are off. If you were born and brought up in Brooklyn, your name may be Stone or Stein, and you may have heard of the 'badger game," but you don't know whether badgers grow on trees or whether they are to be peeled before eating or served on the half-shell.

New Yorkers are the most stupidly provincial people. They know nothing and care to know nothing about America as a whole, its history, traditions, culture, geography-anything. This superiority complex naturally seeps into our Party, and we are suggesting that the Work. ers' School set up a course in the flora and faure of these United States.

Something has to be done because it is ge ting dangerous for a chap who knows America to be wandering around loose. F'rinstance: Consider our crocodile. The varmint knows "the sticks" as those who are Second Avenueish contemptously refer to the rest of the country. But poor old Krock risks his neck when he makes use of his knowledge. Here's an example:

A comrade wrote in about a Party unit located . . . well, somewhere between the Texas panhandle (there's another for you to chew on!) and the Canadian line west of the Mississippi, and we write it up. Not the Mississippi, but the unit.

And, not wishing to name names and things, we referred to it in a Spark we published on Nov. 12 as being "out in the buffalo-grass country," and having been guilty of misconduct, but not in the sense of Judge Jones of Kentucky.

Ah, the plot thickens! That is, the grass-plot. No sooner had the paper reached Buffalo, N. Y., than a council-of-war was called among the leading functionaries. General Honjo could be no more warlike. The diminutive Chief of Staff rattled his saber and breathed death to the crocodile. The crocodile must be killed and his skin made into \$12 suitcases!

Letters began to rain from Buffalo upon the Secretariat, the Org. Dept. and of course upon Red Sparks:

. . a scurrilous and lying statement about a Unit in Buffalo . . . not one iota of truth . . . stupid attack on our district . . . slanders from provocateurs . . . clownishness . . . recklessness . . . ? ! ? ! . . ." wrote the Org. Secy., leading the charge at the head of the troops.

The D.O., maintaining a degree of calm for which we praise him in view of the fact that there are, in the 48 states, exactly 22 towns called "Buffalo," demanded: "Where did this case actually happen; in Buffalo, New York, or in Buffalo of a western state?" Thanks, comrade; we'll explain:

We said "out in the buffalo-grass country." Now we quote from a good dictionary available. we hope, in the local library:

"Buffalo-grass:-A common name for several low grasses very prevalent upon the plains east of the Rocky Mountains."

So, dear comrades, "curfew shall not ring tonight" for good old Krock.

What can you do about this? : We were sort of "raided" the other day by a "Red Press Squad. not from the police-o, dear, no! But from the Pioneer group calling themselves "The Communards." This "Red Press Squad" is a sort of "shock brigade" to get out bulletins for schools they want to work on, to make up "wall newspapers" and report to all the Communist press on events of interest to working class kiddies. And they want (and need) someone in New York who has a typewriter, no matter how crippled up it is, to donate it to their work. Whoever can spare a typewriter, just tote it right down to "Dixie." at the National Pioneer Office, sixth floor, 35 East 12th Street

panies. In two such cases, namely, the Preston Mill, is running on an average of about three days a week with a partial crew and pays \$2 a day. The Preston Mill, however, has not paid its employes since August of this year, and the Monahan Mill is working half day shifts at 90 cents a shift. Many of the farmers have to come a good many miles to get this lousy 90 cents and have to catch fish in the creeks and get illicit deer to help out on their living. In one district east of the mountains 150 grain

farmers have been compelled to leave their farms, and machinery is still left in the fields and their horses are roaming the range. In spite of all these rotten conditions the

farmers are anxious to organize, to read and study, and they want organizers to go among them to speak to them and especially to sell and distribute literature. I believe that the Party s passing up the greatest opportunity in the world by neglecting to organize the farmers.

There is a great need of sincere and patient work among the farmers. We seem to have lost sight of the fact that many of the farmers' boys are in the army and the navy, and, also, in neglecting the work among the farmers, the Party is neglecting its work in the small towns in which most of the farmers do their buying.

Then, too, a large number of small storekeepers, barber shops, gas stations and small garages are fruitful places to do a lot of good work. The greatest sacrifice literature agents have to put up with is a lot of walking during the day, but most of the farmers are willing to feed a literature agent and give him a bed and help him with useful information and any other means in their power. To sum up the whole thing, I think that we

must show more spirit of willingness to sacrifice for the good of the revolutionary movement. It is absolutely necessary that we help the farmers to organize.
