WALL STREET’S BOOM
By HARRY ROSS

---

NEWSPAPER. NATIONAL PERIODICALS

The Government's war in the South
is depicted on the front page of this week's issue of The Farmer, a weekly newspaper published in St. Paul, Minnesota. The paper also includes a cartoon by WILLIAM GROPPER, depicting the road to fascism. The story of the Farmer's struggle against the government's war policies is also featured in the issue, along with an article on the rise of fascism in Wall Street.
WALL STREET'S BOOM

by HARRY ROSS

WALL STREET'S boom began during the present financial year. The stock market, which had been depressed for many months, experienced a sudden and remarkable upturn. This surge was evident in the rise of prices and in the increased activity in the trading of securities. The boom was largely attributed to the improvement in the economic conditions of the country, which led to an increase in investor confidence and a willingness to take risks.

The upturn in the stock market was accompanied by a rise in the value of bonds and other fixed-income securities. This was due to the increase in the demand for such investments, as investors sought safe havens for their capital. The boom also had an impact on the real estate market, as the rising values of stocks and bonds translated into higher property values.

In summary, the financial year was marked by a significant expansion in the stock market, driven by improved economic conditions and increased investor confidence. The boom was a testament to the resilience of the American economy, and it provided a positive outlook for the future.

SILVER SHIRTS

Determined to retake control of the country, the Silver Shirts launched a campaign to unseat the current administration. Their major goal was to win the upcoming election. A nationwide tour was organized to drum up support and to present their platform to the public. The Silver Shirts were known for their radical stance on issues such as immigration and labor, and they attracted a significant following.

The campaign was led by a charismatic figurehead who insisted that the Silver Shirts were the only party capable of restoring order to the country. They emphasized their commitment to strict enforcement of immigration laws and vowed to halt the influx of JapaneseAmericans into the country. The Silver Shirts were also vocal in their opposition to labor unions and their demands for more powerful government intervention in the economy.

In the midst of the campaign, the Silver Shirts encountered several obstacles. Their chief rival, the Democratic Party, had strong backing from the labor unions and was poised to win the election. Additionally, the Silver Shirts came under scrutiny for their treatment of JapaneseAmericans, which led to increased opposition from the public.

Despite these challenges, the Silver Shirts continued their campaign, determined to make their voice heard. Their messages were broadcast nationwide, and the public was exposed to their radical ideas. The election results were closely watched, as the outcome was expected to have a significant impact on the future direction of the country.
ARTICLE: WHEELS OF WAR

By CHARLES MORRANT

In the main, war is a war of the wheels. In this war, the wheels roll and the engines roar, and the men fight. The wheels of the tank, the wheels of the airplane, the wheels of the battleship, all roll and move, and the gunners aim and fire. The wheels of the tank move over the battlefield, and the guns of the airplane rain death upon the enemy. The wheels of the battleship move across the sea, and the guns of the battleship fire upon the enemy. The wheels of the tank, the wheels of the airplane, the wheels of the battleship, all roll and move, and the gunners aim and fire.

The wheels of war are the key to the success of the war. The wheels of the tank, the wheels of the airplane, the wheels of the battleship, all move, and the gunners aim and fire. The wheels of war are the key to the success of the war.
