The Russian government has been accused of indiscriminate violence in the Crimea, where thousands of civilians have been killed or displaced. The government has denied these accusations, but evidence suggests that the repression and violence are widespread. The situation in the Crimea is a tragedy, and the world must take action to stop this senseless violence.
BABOUK-HAITIAN REVOLUTION

By GUY ENDORE
Author of "Guard of God,"
"Chorister," "et, ct.

The story of how an oppressed and victimized people, the Haitians, resisted and finally overcame their oppressors, is one of the most inspiring tales in history. From early times, their suffering and struggle have been a symbol of the fight against tyranny and oppression. The Haitian revolution was not just a war against foreign powers, but a battle for freedom and independence. It is an example of how the determination and resilience of a people can overcome even the most powerful forces of evil.

The Haitian revolution began in 1791, when the enslaved Africans on the plantations of the French colony of Saint-Domingue rose up against their masters. It is estimated that over 60,000 Africans were involved in the rebellion, which quickly spread across the island. The revolutionaries were led by Toussaint Louverture, a black Haitian who had been educated in France and who returned to the island as a slave. He quickly rose to become the leader of the uprising.

The French government was caught off guard by the rebellion, and they sent an army to put down the uprising. Despite the odds, the Haitian revolutionaries were able to defeat the French forces and establish a provisional government. In 1804, they declared Haiti an independent republic, the first black republic in the world.

The Haitian revolution was not without its challenges. The new government faced internal strife, as different groups vied for power. The French also continued to send military expeditions to Haiti, and it was not until 1825 that Haiti was able to achieve full independence.

The legacy of the Haitian revolution is one of hope and inspiration. It is a reminder that even in the face of overwhelming odds, a people can rise up and overcome their oppressors. The Haitian revolution is a testament to the power of resistance and the importance of justice and freedom for all people.

LABOR LEADERS
Recent developments in labor show that the forces of the world are on the side of union organization and the growth of union membership. As the world is today confronted with the most difficult and critical situations, the labor movement must be bolstered to the utmost. Only as workers unite and pool their strength can they hope to withstand the attack directed against them. The battle for labor is being fought on all fronts. TWO FRONTS

HENRI BARBUSSE, distinguished French writer and anti-War militant said not so long ago that in the world of today, there are "two fronts, opposing each other. That of the imperialists, full of War menaces and that of the workers and farmers of the world, the intellectuals, and the lower middle class struggling against War and Fascism. No compromise between the two."

THE FRONT against War and Fascism is organized on an international basis.

THIS WORLD front publishes four magazines:

FRANCE—Front Mondial (edited by Henri Barbusse) leads the struggle in all French speaking countries. This magazine is published in Paris where the World Committee Against War and Fascism (with which the American League is affiliated) has its headquarters.

ENGLAND—Fight War and Fascism (formerly War) is issued from London by the British anti-War Movement and covers all of Great Britain and its possessions.

GERMANY—Welt Front, the most important of all anti-War magazines, goes underground into Germany where it is, of course, an illegal publication, as it conducts the militant struggle against Hitler. The magazine is published in two formats, one on regular paper and one on very thin India paper, making it easier to smuggle into Germany.

UNITED STATES—FIGHT, the official publication of the American League Against War and Fascism issued monthly, leads the struggle against War and Fascism in the U. S. A.

Only ten months old, FIGHT has today and bulletins published in this country.

FIGHT as part of the world wide movement against War and Fascism publishes every month informative articles, factual material, short stories, exposes, photographs, international news items, cartoons. FIGHT publishes material from munitions factories, from the armed forces of the imperialist governments, from key industries and from the centers of finance capital.
