DEFENSIVE WARS
By LeRoy E. Bowman

Strategic and tactical means have their limitations. Do we accept the doctrine of defensive warfare in all situations? How far are we justified in going? What are our realistic objectives and how do we achieve them? Here are some questions that need to be asked.

WHEAT, HOGS and FERTILIZER
By John Strachey

The economic value of wheat, hogs, and fertilizer is a matter of significant concern. The interdependence of these commodities within the agricultural sector is crucial. How do we ensure equitable distribution and fair pricing for these essential products?

CLASH in FAR EAST

By VICTOR A. YAKIMOLOFF
Cracking Down on Labor

By LOUIS COLEMAN

Workers in the South have been on the move, marching and striking for better working conditions and higher wages. The United States Congress has responded by passing the Fair Labor Standards Act, which sets minimum wage and overtime pay standards for workers in industries that receive federal contracts or subcontracts. The act also covers workers in the construction, manufacturing, agriculture, and retail industries.

In other news:

The Supreme Court has ruled in favor of workers in the case of Smith v. Allwright, allowing them to vote in state and local elections. The court's decision overturned a previous ruling that had excluded African American voters from participating in the political process.

MOVIES to ARMS

By CARL DREHER

The movie industry is facing pressure from the government to produce more war films. The Department of Defense has been urging studios to create films that glorify the military and promote patriotism. The industry has been reluctant to comply, fearing that it might damage their reputation and reputation.

In a related development, the Supreme Court has ruled in favor of a group of filmmakers who challenged the government's censorship policies. The court's decision has been hailed as a victory for free speech and artistic expression.

MR. PRESIDENT!

By M. S. SCHNAPPER

THE HUH, MR. PRESIDENT, if it is
not true, it can be made true. I
propose to find and expose you
as you were found, and as you
will be hereafter, in order to
show that ability, which I have
in the art of profession, to
prove the untruth of your
statement.

Mr. President, you promised to
see to it, that the American
people would not be imposed
upon by any foreign power.

I have been made to understand
that you have deliberately
omitted to mention the
connection of your Government
with the sympathy of the
foreign powers, and that you
have been guilty of a
misrepresentation.

I am therefore prepared to
prove that you have
misrepresented the facts.

By the American people,
the sovereignty of your
Government is well known.

The American people, in
their utmost confidence, have
trusted you with the
responsibility of the
Government.

You have given
you have been
misled.

BATTLESHIP or SCHOOLS?

By JOSEPH COHEN

THE opponents of the school building program that was instigated by the city administration of the New York City schools are making a tremendous effort to propagandize the public opinion by means of agitation and organization. They have been able to secure a majority of the citizens for their cause, and are now laying the foundations for a solid program of opposition to the school building program.

CUBA

The situation in Cuba is rapidly deteriorating. The government has been unable to maintain control over the province, and there is a growing feeling among the people that they are being exploited by the American government.

UP! UP! UP!
The Press Run of FIGHT is now almost double what it was a year ago. (April issue, 1934.) Many more subscribers. Larger bundle orders. The New York City Chapter of the American League Against War and Fascism sells alone over 8,000 copies of FIGHT every month (about 1,900 more are sold in the city on newsstands and to subscribers). Mr. Harold Patch, Literature Agent of the New York Chapter, reports that the Mapleton Branch of the League takes 1,200 copies of FIGHT where two months ago this same branch sold only 57 copies. This is a concrete example of what can be accomplished in any city if the work is properly organized and given systematic attention.
