NUMBER 27

# To Our Subscribers

It will be remembered that the Democrat changed printing houses about thr e weeks ago and since that time we have had more or less difficulty in getting matters straightened

Last week, for instance, there was a misunderstanding in the press room as to the number of papers required to fill the list. Consequently several hundred subscribers failed to get their paper. In fact no papers went to any towns in Oklahoma beginning with the letters B. C. and D., and none to Dugger, Indiana, when we have been considered. Last week, for instance

Indiana, where we have an ex-cellent list.
This unfo tunate acc dent has caused no little worry and trou-ble on our part and we regret it beyond expression. We more than ever regret it for the reason that it has lent color in certain localities to the false and libel-cus statements of our enemies occarines to the raise and mea-ous statements of our enemies to the effect that the Democrat was in bad condition financially and would suspend publication on the 11th day of June, that being the date of the election on the railway amendment and the capitol location. Of course it only had this effect on those who are prejudiced and suscep-tible to falsehoods from the

tible to falseboods from the enemy, yet it is none the less regretable. With reference to this phase of the situation it might be well to again assure our commels and friends that the Democrat is a permanent fixture are in the field to stay. The way has looked dark several times, true enough, but where there's a will there's a way, so 'the said, and there's a way, so 'tis said, and we believe the adage. We have stood by the patient so often, believing that every breath would be the last, only to see it rally with new vigor and 'stalliy that we have come to the conclusion that the Democrat has more lives than a cat. A paper that can stand the storms that can stand the storms that that can stand the storms that that in its inflarer, ought to be there's a way, so 'tis said, and that in its infancy, ought to be a good foundation to build on, wagon and help it fulfill the mission for which it was launch-ed, that of making Oklahoma

THE INDUSTRIAL DEMOCRAT

P. O. Box 313

The thousands of workless workers who are tramping the ountry from coast to coast at d from the lakes to the guif in uest of jobs d.du't have their homes broken up by Socialism.

To effect its emancipation Lobor must reorganize a clear or the basis of labor; this cannot be done while the forces of govern-ment are in the hands of the rich, therefore the governing power inner to wreated from the hands of the rich peaceably if possible, forcibly if necessary.

The democrate have found a megro locality over in the east one part of the state somewhere that has a megro in the east one, as the local to approve the mean to the state somewhere that has a megro on the school displant resourcing to the state of the

If by politics we understand the fight between the outs and ims, or the contest for party leadership, then labor is rightly su-permely indifferent to such politics, but to the politics which CET-ter round the question of property and the administration there f Labor is not, cannot be, indifferent.

Ah, yes, that large section of our masters who have realized that ideal of complete sileness after which all our masters stive. those sume who do not work, never did work, and with the help of God—and the ignorance of the people—never intend to work, how terribbe must be their to in life!

Socialism will confiscate the property of the capitalist and in teturn will secure the individual against poverty and oppression; in return fore so confiscating, will assert to all men and women a free, happy and unanxions human life. And that is more than capitalism can assure aryone today.

The News, formerly a Socialist paper published by on-Bryant at Cestos, Okla, came out last week in defense of the constitution and Bryan democracy. One by one they slike down the guillet of the democratic tiger but their places are taken im-mediately by the truly converted revolutionsity.

When you consider how hard a task it was for you to decide in what manner you should spend your holiday; where you should go for that one day, then you must peace who whe hard it is for your masters to find a way in which to spend the practically perpetual holiday which you force upon them by your love for

The democratic press beream of Oklahoma is putting some very peculiar language in the mouth of Bobert Hinster, noted the best control of the state of the property of the state of the dependation are authoritied in the state. Excel the dependation are substituted in the state of the dependation are substituted in the state of the

Every public question is a political question. The men who tell us that Labor questions, for indance, have nothing to do with politics, understand neither one nor the other. The Labor Question cannot be settled except by measures which necessitate a reversion of the whole system of society, which, of course, implies political warfare to secure the power to effect such revision.

The democratic administration was opposed to the recent rail-way amendment because they are the desity of the constitution. Their campaign literature is now loaded with boquest to the Socialist who helped them "perserve" the constitution by de-fensing the amendment. This is a sample of the best they ex-pect to catch you with a the November election. Don't forget old Tray and the company be kept.

Capitalism, which flourishes on the exploitation of labor, is responsible for our evits, and Socialism, which would give the laborer the product of his tod, which would eliminate profits, which would put an end to robbery and injustice, would prevent these evils, and give every man a bane, dubling and educational facilities, and would bisse the world with freedom, 1917, plently, equality and intelle-wing sleep.

Since capitalism is founded on the explaintation of the toiler for the enrichment of the idle parasites, for the aggrandizement of the dominant class; on the drivision of wealth resteated by the laborer for the benefit of a few; since it is founded on injustice and nobeiry, it is antagonistic to the innate right of every man to enjoy the product of his industry, and for these reasons it is opposed by the disciplent of Karl Marx.

In the phraseology of the master class and its pressumen the trade unionist who is not a Socialist is more practical than he-who is, and the worker who is not three one net use there but can resign himself to the state of slavery in which he was born, is the most practical of all men. The heroes and martys who in the past gave up their lives for the liberty of the race were not prac-tical, but they were borned all the same.

The public at large don't notice it, especially people who don't take more than two or three newsyapers, but it's real angulable toge is high bendled democrate exchanges from all parts of the state and take a squint at the editoral pages. All tools scrage, all allies and all sent out from the Lee Buckins hotel in Oklahoma City. Verify the modbers of public o inion are getting there political editing down to a science.

Today we have the indefent and lary who live on the wealth washed by the bonnet todies. The laborers todied by the bonnet todies. The laborers todied have seed and near the state of the large washed by the bonnet todies. The laborers was are the side and rear the min, and the side enjoy the fresh and settings the laborers was are the side and remains, and the side enjoy the fresh and settings the laborers was are the side and the side of the large washed to the nocks of the large the laborers warm, this buttle washed to the nocks of the large the laborers warm, the laborers warm the large was side to the nocks of the large the laborers warm the large was a confined to the side of the large washed to the large washed
