FBI Story of Union Defense Guard Proved False

Miners Strike Holds Despite FDR Threats

Roosevelt Deliberately Unleashes Lynch Style Campaign Against Striking Miners and CIO: But Undaunted Labor Stands Firm Behind UMW While Strikers Tie Up Mines

Despite the extensive anti-labor propaganda campaign unleashed by the Steel President Roosevelt and the daily press, the空气中 the strike of the 52,000 miners in the captive mines of the United Mine Workers was not quelled by the most vigorous campaign against the strikers. However, the mining companies and the miners continued to fight for their livelihoods.

The immediate issue in the air is the question of whether union miners will stand behind the union or be sold out by the labor movement. At the heart of the matter is the question of whether the miners will strike for their economic rights, or be sold out by the labor movement.

Text of CIO Resolution Backing Miners to the End

Of the one act of the five hundred delegates to the national CIO convention, one hundred and twenty-eight voted to approve and pledge our unqualified support to the United Mine Workers. These miners supported the strike as a struggle for their economic rights.

"The strikers have been on strike for the economic rights of the miners. The CIO has pledged our support to the strike as a struggle for the miners' right to a fair wage and the right to work in a safe and healthy environment. We call on all CIO members to support the miners as they fight for their rights."

The miners' strike is not a fight against the union, but a fight for their economic rights.

The CIO resolution concluded, "We call on all CIO members to support the miners as they fight for their rights."
