## The Real Conspiracy

An Editorial

The REAL conspiracy, which the people of Minnelis and the nation have a right to know about, is the and outrageous conspiracy of President Daniel J. in of the AFL Teamsters International, against the ful and democratic right of the motor transport and ed workers of Minneapolis to select a union bargaining ent of their own choosing.

No member or leader of Local 544-CIO, no member any working-class party, is involved in this conspiracy.

e real conspirators are Tobin and his local Quislings; ident Franklin D. Roosevelt, the FBI, the Department ts to deprive and deny the motor transport and allied

What he really opposes and hates about 544 are its UNION principles and practices—its advocacy of industrial unionism, its sympathy with the successful organizational efforts of the CIO as was reflected in the columns of the Northwest Organizer, its opposition at the 1940 Teamsters convention to granting Tobin additional dictatorial powers and an increase in his salary to thirty thousand a year.

Membership Rejects Tobin

He informed a 544 committee that he had decided to appoint a receiver over the union, and demanded that Justice and the Department of Immigration; Governor the 544 executive board invite him to send in a receiver Justice and the Department of Immigration, Governor with dictatorial powers. This ugly demand was presented by the union board to the membership, who rejected it Minneapolis employers. This conspiracy is aimed by the union board to the membership, who rejected it overwhelmingly. Knowing Tobin, knowing well that he would appoint a receiver in spite of the wishes of the ts to deprive and deny the motor transport and affect union membership, knowing he was determined to dismember the union, Local 544's membership voted to leave Tobin's union and join the CIO. This decision was reached someone," several drivers told love for the trade union principles and practices of at the regular monthly membership meeting of Local 544.

put through such a kangaroo procedure as Roosevelt has directed at 544-CIO, under the guise of stopping union 'raids" and preventing "subversive conspiracies.

Or June 15th, agents of the Department of Justice conducted a spectacular raid on the Minneapolis and St. Paul headquarters of the Socialist Workers Party, carting www literature which they, or any other individual, could have purchased or freely read at any time. The bosses and the Twin City newspapers understood that the raids were aimed at Local 544. The newspapers headlined the fact that the federal government had "moved against Local 544."

Acting Attorney General Francis Biddle made i plain enough in his statement of June 28th when he said: The principal Socialist Workers Party leaders against whom prosecution is being brought are also leaders of Local 544-CIO in Minneapolis.

Instead of supporting Local 544-CIO in its demand for a democratic solution of the problem through labor board elections, a procedure in conformity with the Wagwer Act, the Roosevelt administration has decided to aid Tobin by using the Department of Justice. The pretent used in an effort to conceal the fact they were moving against the CIO was that some of the 544 leaders were alleged to be members of the Socialist Workers Party.

The Socialist Workers Party was pictured by the Department of Justice as a secret organization aiming at overthrowing the government by violence. A special prosecutor was sent from Washington to Minneapolis to aid in preparing the case for the federal grand juy. On July 15th indictments were obtained against 29 persons, including 16 active members and leaders of Local 5444-

Bail Higher for 544 CIO

The real game of the federal government is seen in the handling of bail bonds by the court for the defendants. Bail was originally set at \$5,000 for each of the defendants, none of whom in all likelihood ever had a fifth that much. Attorneys for the defendants requested the U.S. district attorney to reduce the bail bond. The latter phoned Washington. The bail for the sixteen indicted members of 544-CIO was scaled down to \$3,500. The bail for the others was reduced to \$2,500, which is \$1,000 less than the bail of the CIO members. One important fact shown was that, with all of Tobin's boasts and terrorization, Local 544-CIO has obtained more signatures voiunterity than have Tobin's agents with their threats.

In previous hearings, Goldberg has aways maintained that what he counted on to support Tobin's claim to the Minneapolis membership was the dues payments to the AFL. Yet at Monday's hearings he had paid dues to the AFL. Of this small number, it was later shown that some had since signed the 5/4 CIO petilion demanding secret industry-wide election.

Goldberg could present not single AFL witness to dispute the 544-CIO testimony as to the threats and intimidation used by pin's agents.

Old AFL Excuse Goldbers wound up his case by presenting the strange argument that Tobin had levelved some sort of divine mandate to the bodies and souls of all the millions of model Cansport drivers in the na tion. If this argument were feally valid, then of course the auto workers, the steel workers, the rubber workers, the aluminum workers, the packinghouse workers of America, would never have been organised. When the CIO was first formed, the craft-union fogies on the executive board of the American Federation of Labor used to argue as Goldberg argued Monday. Coldberg ended by repeating his

earlier threats that if an election were held and if 544-CIO won the election, that the American Federation of Labor would boycott all goods delivered by CIO trucks, and goods manufactured by CIO workers. What Soldberg was really trying to say was that, though the laws of the state of Minnesots and the United States guarantee to every worker the right to choose

Persecution of Skeglund

The willingness of the Department of Justice to serve Tobin's ends is shown even more clearly in the persecution of Carl Skoglund, who came to America from Sweden in its leadership. Red-baiting is a weapon of the 1911. Carl is a former president and active organizer of used against our union, against every effective and 544. He is not only indicted on the charge of being a union, against every effort of the workers to on member of the Socialist Workers Party, but he has been for themselves and do something for themselves arrested and held for deportation by the Department of the Farmer-Labor Party, against any person or or immigration (a section of the Department of Justice), and held at the exorbitant and unheard of bail of \$25,000, of the employing class. Like thousands of other Scandinavians, Skoglund never took time out to become a citizen. Several years ago he by the hypocritical lies of those who oppose this married an American citizen and last year filed his petition for naturalization. For months his petiton has been held in abeyance.

Then, in the midst of the fight between Tobin and the CIO, a warrant to show cause why he should be de ported to Sweden was dropped in Skeglund's lap, and he was imprisoned. The warrant had been issued in Washington on July 6th. It was not served until nine days later, two days after the federal indictments against the 29. Local immigration authorities acknowledge that the size of the huge \$25,000 bond was fixed, not locally, but in Washington.

These actions by the Department of Justice are enough to convince any unprejudiced person that the Roosevelt administration is acting in a chameless manner to use its powers for its own partisan ends. It is apparently willing to go to any lengths to defeat the democratic rights of the Minneapolis workers and force them back in Dan Tobin's antiquated craft-union set-up.

Here's a riddle for you, Holy Joe. How come that Local 544 has ALWAYS published its contracts proudly in the Northwest Organizer, for all workers to read? How come that unions throughout the nation look to 544's contracts as model union documents? And how come YOU don't dare publish YOUR contracts, even for the workers affected to read.

For three issues now the Minnesota Teamster has told its readers that the Dunnes are making "a last desperate effort" to hang on. After a few more months, Carry's "public relation experts" will have to think up a new phrase -that is, if they are still so far from home.

Big Business, failing in its attempt to put the blame for such items as women's coats and dress, on the backs of the farmers, places it on the shoulders of the workers, charging that "increased costs of production, due to increased

wages," are responsible. Leon Henderson, Price Control Administrator, was forced to explode that myth, however, when he stated, "Most of the recent wage increases in the basic industries could be paid out of the savings of industry due to lowered unit cent compared at only 9.2 twenty-costs when operating at a sustained

Commodity prices will continue to go up and up, just as they did in the last war, with the workers' dollars thus becoming cheaper and cheaper, the while big business gets richer and richer. #### Raw Deal Neal, Labor Statesman

The boys were talking things over in the front room at 257 Plymouth avenue. . . . Of course, the real trouble with the Dunnes," drawled Holy Joe, cocking his expensive cigar towards the ceiling, "is that they aren't labor statesmen. They haven't got the slightest instincts for labor statesmanship."

"Now take Dan," continued Casey, "THERE'S a labor statesman for you." His eyes turned misty, and for a long minute he be-

came lost in admiration of Mr. Tobin's many virtues. "Yes sir, old Dan knows labor statesmanship," Holy Joe said. "Just look at what he's been able to do for us here in the past few weeks. He gets the President himself to issue a public statement against 544 and the CIO. He gets Biddle to cook up this 'subversive conspiracy' indictment. He gets the immigration authorities to pick up Skoglund and hold him for twenty-five thousand. Why he's even got the Republican governor of Minnesota and

the county grand jury to work for him." All were silent for a moment. Holy Joe resumed his monologue.

"And why is the old man able to get these favors? Because he knows how to go along," said Casey emphatically. "He supports the war. He speaks out against strikes. He's a member of the national committee of the Democratic Party. He doesn't stand for any of this nonsense about labor parties and imperialism and the rising cost of living and war profits. Yes sir, old Dan Tobin knows how to get along all right. He's made HIS pile. last week, three company thugs ran into it with a truck He's got his connections.

A gleam had come into the dull eyes of Raw Deal Neal. He was no longer listening to Holy Joe. He was thinking of how it was high time he was developing the statesmanship side of the Neal personality. After all, HE organizers were threatened with violence last year here." too was no small shakes at this game. Hadn't he got along well with the Pendergast machine back in old Kansas City? Hadn't Tom Pendergast taken care of Neal and authorities either look the other way while these acts are the boys when they got in little scrapes? I've headquarters, to conduct a picket line, to send out organ-been roving the streets of Minnealready made a few nice little connections, It's time I publicly demonstrated my interest in the civic affairs of the community."

The bull session gradually broke up. In a little while Raw Deal Neal, budding labor statesman, was alone with his ambitious thoughts.

The next day he took the first opportunity to his himself down to the city hall to advise Mayor Kline on the choice of a new police chief to take the place left vacant by Mr. J. Edgar Hoover's firiend who had come down with a convenient case of sleeping sickness.

And what's wrong with that? After all, Raw Deal has been in Minneapolis for thirty days. A smart man like Raw Deal cam quickly size up a situation, estimate the qualifications of the various candidates for the head of the police department, and reach a decision.

What's that? You say that a union leader has no business advising an anti-labor mayor? Ab, my firiend you see -- you have no instincts for labor statesmanship.

#### Why Union Defense Guards?

Today as in 1937 there appears to be a new way of employer-inspired anti-union violence sweeping the country. Scores of labor papers have recently recorded incidents where violence and terrorism have been used with impunity against union men.

The current issue of Labor, weekly organ of the standard radio ad labor organizations, prominently reports several outbreaks of illegal violence against union-

"In Macon, Georgia, sheriff's deputies and police staged a series of raids on headquarters of local AFL unions in an attempt to smash an organizing drive. Disregarding laws that guarantee workers the right to organize, the 'bluecouts' and deputies arrested nealy 30 or less. unionists, threw them into jail and released them only after they had posted heavy bonds of \$1,000 to \$15,000 Most of the men were handed off on take charges of wagrancy and loitering.' Among these was J. T. Price, vice president of the Georgia State Federation of Labor. . . Another official seized was S. J. Pleasant, business agenof the Hod Carriers and Building Laborers Union, Because his union found jobs for members, he was accused of "operating an employment agency without a license" and held on \$15,000 ball. However, soon after his arrest, the police department to its dismay discovered the law under which Pleasant was 'nabbed' had been repealed. by the legislature in 1937. Prosecuting efficers met that embarrassment by announcing they would manufacture another charge against the union agent.'

The same newspaper records that "Another scene of brutality was Washington, Mo. There an army of vigilantes, made up of local business men and other townsmen, broke into the headquarters of the United Shoe Workers, smashed furniture, seized union records, beat up union organizers and then role them out of town."

Turning to the current issue of the CIO News, we learn that "Charges of terror through employment of thugs against union organizers were made this week against the Phillips Packing Co., by an organizer for the CIO United Cannery Workers. Bob Himmaugh, the orgamizer, said that he and his wife were told to leave the city under threats of physical violence on June 21. Two days later, when he came back to town alone, a company thug, whom Hinnmaugh identifed as Curtis Thomas, warned him that he 'had better leave the Eastern Shore, or else. . . .

"Himmaugh was again threatened several days later when he was ordered to stop his car by two armed company watchmen and the business agent of the Dorchester Workers Union, a company union. After cursing him and threatening to beat him up, Himmaugh was permitted to go on his way. When the union organizer parked his car

and informed him that 'this is a warning.'

"APPEALS FOR PROTECTION TO THE CHIEF OF POLICE AND THE COUNTY SHERIFF HAVE FALLEN ON DEAF EARS, HIMMAUGH SAID. Two other CIO

Though the Roosevelt administration's amemployed roll up to plants escorted by poand labor programs have taded away amidst a line of lice squad cars, army bayonets and a mass of starving ex-WPA workers, it is interesting to observe that the federal farm program is still doing great things for the farmers of this nation.

Once again the blast of coal dust has snuffed out the fives of workers. At Acmar, Alabama, the death toll in an explorion in one wing of the Acmar Coal Company has mounted to eleven. The dead miners, nine of them Negrees, two white, were trapped more than a mile below the surface of the earth, under tone of debrie, which ressue workers must tunnel through to recover their bodies.
