It is necessary that you believe in the present system and that it is working well. It is necessary that you believe that the present system is the best and that it is the only way to go. PREAMBLE OF THE I.W.W.

The working class and the employing class have nothing in common. There can be no peace so long as hunger and poverty are on this earth and till men and women shall find the security of life in a reorganized society they will have neither peace nor freeman. The working class and the employing class are transplanted and mortal enemies. Between the two classes in the struggle for existence nothing can be accomplished but mutual destruction. As the employing class can never secure for itself the life and labor of the working class, so in like manner the working class cannot secure the life and labor of the employing class, until both classes shall have discarded for the common culture of producers in the past have been the sign of every advance of human progress and civilization, in the future such education will be the sign of the power of oppression. The working class can never win the battle of life unless it gains the battle of education. The educated working class is the only class that will ever reduce human society to a state of civilization.

The battle of the I.W.W. is for the union of the working class all over the world in a world movement, and the union of the various movements in America in a national movement. The working class and all those who stand for right stand for the union of the workers in the I.W.W. The battle of the I.W.W. is for the union of the working class all over the world in a world movement, and the union of the various movements in America in a national movement. The working class and all those who stand for right stand for the union of the workers in the I.W.W.

Our Object is to destroy Capitalist System, in its present form, and to establish a system under which the labor of the people will govern the world through the means of the wages they earn and the industries to which they contribute.

The I.W.W. will fight to gain the right to organize and bargain collectively through representatives of their own choosing, and to strike for the improvement of their working conditions, In the Unitarian and secular Commonwealth, every individual will be as free as a bird, and as strong as the eagle.

Constitution in Spanish

The I.W.W. Constitution in Spanish is the basis for all other constitutions in other languages. It is divided into various parts, each dealing with a different aspect of labor and society. The constitution is designed to provide a framework for the organization of the working class and to promote the advancement of workers' rights and freedoms.
